

Notes on this Unit

This unit has been designed as supplementary to the FTA DVD resource. It is aimed at Level 4 of the Social Studies curriculum.

There is an assumption that students will already have an understanding of what an Act is, and that this unit is looking at the rights and responsibilities of buyers and sellers, not Fair Trade (i.e. coffee and diamonds).

Individual teachers may wish to expand and explain key terms and concepts required by their students to make this unit more effective, but this will be dependent on the ability level of the class.
