

## Commerce Commission – submissions received on “Input Methodologies Review: invitation to contribute to problem definition”

Good morning

Today we have published on our website the submissions we received following the IM review forum and in response to our invitation to contribute to problem definition in the context of the IM review. These submissions can be found at: <http://www.comcom.govt.nz/regulated-industries/input-methodologies-2/input-methodologies-review/>

The submissions we received were from:

- Air New Zealand
- Alpine Energy
- Auckland Airport International Limited
- Board of Airline Representatives (BARNZ)
- Bryan Leyland
- Christchurch International Airport Limited
- Electricity Networks Association
- Energy Trusts of New Zealand (ETNZ)
- John Irving
- Major Electricity Users Group (MEUG)
- Major Gas Users Group (MGUG)
- Maui Development Limited (MDL)
- Molloy Melhuish
- New Zealand Airports
- Orion
- Powerco
- PricewaterhouseCoopers (PWC)
- Sustainable Electricity Association New Zealand (SEANZ)
- Smart Grid Forum
- Solarcity
- Transpower
- Unison
- Vector
- Wellington Airport International Limited (WIAL)
- Wellington Electricity Limited

At this time we would also like to remind all stakeholders of the importance of meeting submission timeframes. It is not the Commission’s policy to grant extensions on submission timeframes when extensions are requested just before the due date. Due to considerations of fairness to all stakeholders we ask that where an issue arises with a required due date, submitters inform the Commission as early as possible that they have a problem meeting the deadline and of the reasons for this problem.

We also note that the cross-submission process is designed to give stakeholders to comment on points already raised in submissions by other stakeholders only.

Cross-submissions are due by **5pm on Friday 4 September 2015.**

Kind regards

## Keston Ruxton
