

IM Review – Process update email

Based on our review of submissions and cross-submissions received on our Invitation to contribute to problem definition paper, we have decided not to depart from our proposed timing for completing the IM Review by December 2016. At this stage, we are not aware of any issues that would prevent us from meeting this timeframe and are therefore still aiming to achieve it.

We are currently working on detailed planning for the review going forward and anticipate providing a more detailed process update for airports topics in mid-October, and for energy topics in late October.

Regards,
Keston Ruxton.
