Section 53B review of Auckland Airport's price setting event: Cross-submission on process issues

Dear Jo

The Commission has invited cross-submissions on process issues for its section 53B review. Auckland Airport does not intend to make an individual cross-submission on these issues. We refer the Commission to the cross-submission from the NZ Airports Association, which we are a party to and support.

Auckland Airport will respond to the substantive issues raised by airlines in accordance with the Commission's revised timeframe.

Yours sincerely,

Adrienne Darling
Head of Economic Regulation and Pricing
