Subject: Aurora's plan to increase Line Charges.

The resulting failure of Auroa Infra Structure can be laid firmly at the door of the Dunedin City Council. DCC required excessive returns from Aurora in Order to boost the upkeep of the Forsyth Stadium. This affected Aurora's ability to maintain their Infrastructure to a safe standard both from a work safe and Consumer Electricity Supply point of view. I firmly believe this was nothing short of corrupt practise on the part of the City Council and those responsible should be brought to account and the money returned to Aurora. Given the fact ongoing Financial Aid to Dunedin Venues Ltd was in order to boost the Fortunes of Private Business in Dunedin City by way of Events held in the Forsyth Stadium, it is clear Dunedin City Council's reason for requesting excessive payments from Aurora is extremely questionable.
