| SCHEDULE 14A MANDATORY EXPLANATORY NOTES ON FORECAST INFORMATION | 161 |
| SCHEDULE 15 VOLUNTARY EXPLANATORY NOTES | 163 |
| SCHEDULE 16 DEFINITIONS OF TERMS USED IN SCHEDULES 1 TO 15 | 164 |
| SCHEDULE 17 CERTIFICATION FOR YEAR-BEGINNING DISCLOSURES | 197 |
| SCHEDULE 18 CERTIFICATION FOR YEAR-END DISCLOSURES | 198 |

<u>Pursuant to Under Part 4</u> of the Commerce Act 1986, the Commerce Commission makes the following determination:

PART 1 GENERAL PROVISIONS

1.1 DETERMINATION AMENDED TITLE

- 1.1.1 This determination is the Amendment amends the October 2012 determination Electricity Distribution Information Disclosure Determination 2012.
- 1.1.2 Amendments to the body of the determination and Schedules 13-19 of the October2012 determination are marked as track changes in this Amendment.
- 1.1.11.1.3 Schedules 1-12d of this Amendment replace Schedules 1-12d of the October 2012 determination.

1.2 COMMENCEMENT DATES

1.2.1 The October 2012 s determination cameomes into force on 1 October 2012.

1.2.1 1.2.2 This **Amendment** comes into force on 26 March 2015.

1.3 APPLICATION

1.3.1 This determination applies to **electricity distribution businesses** as suppliers of regulated goods and services under Part 4 of the **Act**.

Formatted: Font: Bold

Formatted: Font: Bold

1.4 INTERPRETATION

- 1.4.1 In this determination, unless the context otherwise requires—
 - (1) Terms in bold type in the main body of this determination (this includeings the attachments) have the meaning given to those terms in this section 1.4. Terms used in the Schedules are defined in Schedule 16;
 - (2) Terms used in this determination that are defined in the **Act** but not in this determination, have the same meanings as in the **Act**;
 - (3) Terms used in this determination that are defined in the IM determinations but not in this determination have the same meanings as in the IM determinations;
 - (4) A word which denotes the singular also denotes the plural and vice versa;

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

7

- (5) An obligation to do something is deemed to include an obligation to cause that thing to be done;
- (6) Financial items must be measured and disclosed in accordance with GAAP or the IM determinations, unless otherwise required by this Ddetermination or the IM determination;
- (7) Non-financial items must be measured and disclosed in accordance with standard industry practice unless otherwise required in this <u>Dd</u>etermination.
- 1.4.2 If there is any inconsistency between the main body of this determination (this includes the attachments) and any schedule to this determination, the main body of this determination prevails.
- 1.4.3 In this determination the words or phrases in bold type bear the following meanings-

2008 requirements means the Electricity Distribution (Information

Disclosure) Requirements 2008 issued

31 October 2008

Α

Act means the Commerce Act 1986

Allocated works under means, for the components of the works

construction under construction roll-forward, the works

under construction values after the application

of clause 2.1.1 of the IM determination

Allocation methodology type has the meaning givenset out in the IM

determination

Allocator means the measure used to allocate operating

costs or regulated service asset values that are not directly attributable as set out in clause 2.1.3 or clause 2.1.5 of the IM determination

Amendment means this 2015 Amendment to the Electricity

<u>Distribution Information Disclosure</u>

Determination 2012

AMP means asset management plan

Formatted: Font: Bold

AMP planning period has the meaning specified in <u>sub</u>clause 3.4 of

Attachment A to this determination

AMP update has the meaning specified in clause 2.6.52.6.4

of section 2.6 of this determination

Assessed values means the aggregate SAIDI values and SAIFI

values for an assessment period, which are

derived from a **normalised assessment dataset**

Assessment dataset means the set of daily SAIDI values and SAIFI

values for a disclosure year, with SAIDI values and SAIFI values for an interruption that spans multiple calendar days accrued to the day on

which the **interruption** began

Asset management plan has the meaning specified in clause 2.6.1 of

section 2.6 of this determination

Asset relocations in relation to expenditure, means **expenditure**

on assets where the primary driver is the need to relocate assets due to third party requests, such as for the purpose of allowing road widening or similar needs. This expenditure category includes expenditure on assets relating to the undergrounding of previously aboveground assets at the request of a third

party

Asset replacement and renewal means-

(a) in relation to capital expenditure,

expenditure on assets

(b) In relation to operational expenditure,

operational expenditure
where the primary driver is the need to
maintain network asset integrity so as to
maintain current security and/or quality of
supply standards and includes expenditure
to replace or renew assets incurred as a

result of-

• the progressive physical deterioration of

Formatted: Font: Not Bold

Formatted: Font: Bold

Formatted: Font: Bold

the condition of **network** assets or their immediate surrounds;

- the obsolescence of network assets;
- preventative replacement programmes, consistent with asset life-cycle management policies; or
- the need to ensure the ongoing physical security of the network assets

Assets commissioned

means-

- (a) in relation to the unallocated RAB or unallocated works under construction, the sum of value of commissioned assets as determined in accordance with clause 2.2.11 of the IM determination;
- (b) in relation to the RAB or allocated works under construction, the value of the assets (as determined in accordance with paragraph (a)) which is allocated to the electricity distribution services in accordance with clause 2.1.1 of the IM determination;
- (c) in relation to forecast information, a forecast of the value of the assets (as determined in accordance with paragraph (b)) for a future disclosure year

Atypical

means 'one-off' or 'exceptional' costs

Audited disclosure information

means information disclosed under any of clauses 2.3.1 and, 2.3.2, and 2.12.1 of this determination, the **SAIDI** and **SAIFI** information disclosed under clause 2.5.12.5.2, and the explanatory notes disclosed in boxes 1 to 12 of Schedule 14 under clause 2.7

В

Business support

in relation to expenditure, means operational expenditure associated with the following

Formatted: Font: Bold
Formatted: Font: Bold

corporate activities-

- (c)—HR and training (other than operational training)
- (d) finance and regulation including compliance activities, valuations and auditing
- (e) CEO and director costs
- (f) legal services
- (g) consulting services (excluding engineering/technical consulting)
- (h)-property management
- (i) corporate communications
- (j) corporate IT
- (k) industry liaison and participation
- (I) commercial activities including pricing, billing, revenue collection and marketing
- (m)liaison with Transpower, customers and electricity retailers

C

Capital contributions

has the meaning givenset out in the IM determination

Capital expenditure

means-

- (a) in relation to the unallocated works under construction, costs-
 - (i) incurred in the acquisition or development of an asset during the disclosure year that is, or is intended to be, commissioned; and
 - (ii) that are included or are intended to be included in the value of assets commissioned relating to the unallocated RAB;
- (b) in relation to the FReport on related party transactions, costs-
 - (i) incurred in the acquisition or development of an asset during the disclosure year that is, or is intended to be, commissioned; and

| (| (ii) | that are included or are intended to | | |
|---|------|--------------------------------------|--|--|
| | | be included in the value of assets | | |
| | | commissioned relating to the RAB; | | |
| | | and | | |

Formatted: Font: Bold

(iii) that are as a result of **related party transactions**;

- (c) in all other instances, costs-
 - incurred or forecast to be incurred in the acquisition or development of an asset during the disclosure year that is, or is intended to be, commissioned; and
 - (ii) that are included or are intended to be included in the value of assets commissioned relating to the RAB

Class B (planned interruptions on the network)

means a **planned interruption** initiated by the

Class C (unplanned interruptions on the network)

means an **unplanned interruption** originating within the **network** of the **EDB**

Commencement date

means the date specified in clause 1.2.1 of this

determination

Commission

means the Commerce Commission

Commissioned

has the meaning givenset out in the IM

determination

Community trust

has the meaning given set out in s 54D(2) of the

Act

Connection point

see the definition of ICP

Constant prices

means, in relation to the prospective disclosures made under clauses 2.6.1 and-2.6.3, and subclause 2.6.6(1)2.6.5(1) of this determination, prices expressed in New Zealand dollars as at the mid-point of the current year. Constant price expenditure forecasts are forecasts based on constant price

assumptions-

Consumer

means-

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

12

- (a) in relation to clauses 2.4.23 and 2.4.24 of this determination, has the meaningthe definition given set out in s 54D(2) of the Act; and
- (b) in all other instances, means a person that consumes or acquires electricity lines services

Consumer connection

in relation to expenditure, means expenditure on assets where the primary driver is the establishment of a new customer connection point or alterations to an existing customer connection point. This expenditure category includes expenditure on assets relating to-

- (a) connection assets and/or parts of the network for which the expenditure is recoverable in total, or in part, by a contribution from the customer requesting the new or altered connection point; and
- (b) both electricity injection and offtake points of connection

Consumer connections

in relation to the number of connections, means the number of new customer connection points established and alterations made to an existing customer connection point during the year, and includes both electricity injection and offtake points of connection

Consumer-controlled

means an EDB that is a community trust, customer co-operative, or customer trust or is controlled by 1 or more such community trust, customer co-operative, or customer trust; and, for the purposes of this definition, a EDB is controlled by 1 or more such community trust, customer co-operative, or customer trust if it or they together directly or indirectly—

- (a) control the composition of the board or other governing body of the **EDB**; or
- (b) are in a position to exercise, or control the exercise of, more than one-half the maximum number of votes that can be exercised at a meeting of the shareholders or members or

Formatted: Font: Bold

- beneficiaries of the EDB; or
- (c) hold more than one-half of the issued capital of the **EDB**; or
- (d) are entitled to receive more than onehalf of every dividend or other distribution paid by the EDB

Consumer group

means the category of **consumer** used by the **EDB** for the purposes of setting **prices**

Contract

means a contract for the supply of goods or services (or both) whether or not the contract, or any part of the contract, is in writing and, for the avoidance of doubt, includes-

- (a) a contract under which goods or services (or both) are being supplied, although some or all of the terms and conditions in relation to the supply of those goods or services have not been settled; and
- (b) any operating agreement, side letter, or documentation that influences, adjusts or amends the terms and conditions of the contract

Controlling consumers

in relation to a **consumer-controlled EDB**, means all the income beneficiaries or shareholders, as the case may be, of the **community trusts**, **customer co-operatives**, or **customer trusts** that constitute or control that **EDB**

Cost of financing

means the cost of financing incurred by an EDB and accumulated during the construction phase of a project that creates a new network asset, and is determined in accordance with clause 2.2.11(2) of the IM determination and allocated to the electricity distribution services in accordance with clause 2.1.1 of the IM determination

CPP

has the meaning givenset out in the IM determination

| Current | year | or | CY | |
|---------|------|----|----|--|
| | | | | |
| | | | | |

means-

- (a) in relation to the historic disclosures made under clause 2.3.1 of this determination, the disclosure year of the report
- (b) in relation to the prospective disclosures made under clauses 2.6.1_and, 2.6.3, and subclause 2.6.6(1)2.6.5(1) of this determination, the disclosure year in which the report is prepared

Customer co-operative

has the meaning givenset out in s 54D(2) of the Act

Customer trust

has the meaning givenset out in s 54D(2) of the Act

CY, CY-X or CY+X

means

- (a) the current year; or
- (b) where a '-' precedes 'X', the Xth year preceding the current year; or
- (c) where a '+' precedes the 'X', the Xth year following the **current year**

D

Direct billing

in relation to expenditure, means **operational expenditure** associated with directly billing end **consumers** and recovering payments due. This includes billing services, credit and debtor management, associated customer call centres, and customer account management

Directly attributable

has the meaning givenset out in the IM determination

Director

has the meaning givenset out in the IM determination

Disclosure year

means the 12 month period ending on 31 March of the year the disclosure relates to or, if the term disclosure year is combined with a

| year, the 12 month period ended on 31 March |
|---|
| of that year |

<u>Discretionary discounts and</u> <u>customer rebates</u> has the meaning given in the IM determination

Disposed asset has the meaning set out in paragraph (a) of the

defined term in the IM determination

<u>Distributed generation</u> <u>has the meaning given in the Electricity</u>

Industry Participation Code 2010 and includes equipment used for generating electricity on the EDB's network that is connected and

operated by the EDB.

Distribution and LV cables means all underground power cables operated

at distribution voltage or low voltage

Distributed generation has the meaning set out in the Electricity

Industry Participation Code 2010 and includes equipment used for generating electricity on the **EDB's network** that is connected and

operated by the EDB.

Distribution and LV lines means all overhead power lines operated at

distribution voltage or low voltage.

Distribution and LV other means network assets operated at distribution

voltage or low voltage which are not distribution cables or distribution lines

Distribution substations and transformers

means-

(a) substations, including all associated pole mountings, ground pads and covers, and kiosks and components used to install

transformers; and

(b)-transformers used to convert between distribution voltage and low voltage.

For the purpose of the RAB disclosure this excludes distribution switchgear installed at distribution substations but includes surge

arrestors

| | Distribution switchgear | means all switchgear operated at distribution voltage. This includes disconnectors, fuses (including drop outs and fuse switches), circuit breakers, reclosers, sectionalisers, ring main units and voltage regulators. For the purpose of RAB, the value of the switchgear includes the value of protection and controls equipment installed on the switchgear. | |
|------|-----------------------------------|--|---|
| ı | Distribution voltage | means 3 phase nominal voltage- | |
| | | (a) over 1 kV and up to and including 30 kV; and (b) excludes those voltages used within the network in the role or manner of a subtransmission voltage. | Formatted: Font: Bold Formatted: Font: Bold |
| | DPP regulatory period | has the meaning given in the IM determination | |
| | | E | |
| 1 | EDB (or electricity distribution | means EDB as that term is defined in the IM | Formatted: Font: Not Bold |
| | business) | determinationmeans a supplier of electricity | Formatted: Font: Not Bold |
| | 225255 | distribution services | |
| 1 | Electrical contracting services | means the following services, when provided under a contract between the EDB and a related party- | Formatted: Font: Bold |
| | | (a) construction and maintenance (b) network management (c) vegetation management (d) connection and disconnection services (e) load control. | Formatted: Font: Bold Formatted: Font: Bold |
| | Electricity distribution services | has the meaning givenset out in the IM determination | |
| | Electricity lines services | has the meaning given set out in s 54C of the Act | |
| | Electricity retailer | means a person who supplies electricity to another person (s) for any purpose other than for re-supply by the other person (s) | |

<u>Embedded network</u> <u>has the meaning given in Part 1 of the</u>

Electricity Industry Participation Code 2010

<u>Error</u> <u>means incorrect information disclosed in</u>

accordance with the October 2012

determination as amended at the time of the

disclosure, in such a way that-

(a) the data is incorrect;

(b) a statement is incorrect; or

(c) the compilation of disclosed information is inconsistent with the October 2012

determination as amended at the time of

disclosure; and is not where-

(d) the correction is to the initial RAB;

(e) an estimate has changed due to new information becoming available;

(f) the change is a lost and found assets

adjustment;

Expenditure on assets meansis the expenditure relating to costs

included or expected to be included in a closing

RAB value and is equal to capital expenditure plus value of capital contributions less value

of vested assets less cost of financing, where capital expenditure has meaning (b) or, in respect of related party transactions, meaning

(c) as set out in this determination

Expenses means operational expenditure and pass-

through and recoverable costs accrued in each of the months of the disclosure year. Where costs are notional they should be recognised evenly over the months of the disclosure year

F

Fault means a physical condition that causes a

device, component or **network** element to fail

to perform in the required manner

Financial distribution means-

(a) discretionary discounts and customer

Formatted: Indent: Hanging: 0.57 cm

Formatted: Indent: Hanging: 0.57 cm

Formatted: Font: Bold

rebates;

- (b) dividend or equivalent owner payment to
 a community trust, customer trust or cooperative where the EDB recommends
 how the payment should be allocated
 amongst consumers; or
- (c) dividend or equivalent owner payment to a community trust, customer trust or cooperative where the EDB makes the allocation to consumers on behalf of the community trust, customer trust or customer co-operative

Forecast expenditure

means, in relation to-

- (a) current **disclosure year**, the forecast expenditure for the current **disclosure**year disclosed under subclauses 2.6.6(1)(a)

 2.6.5(1)(a) and 2.6.6(1)(b)(b) of this determination immediately prior to the start of the current **disclosure year**
- (b) regulatory period, the forecast expenditure for the disclosure years from the start of the regulatory period to the current disclosure year disclosed under Part 5 of the IM determination where a CPP is in place for the current disclosure year or disclosed under subclauses 2.6.6(1)(a)2.6.5(1)(a) and 2.6.6(1)(b)(b) of this determination prior to the start of the disclosure year preceding the regulatory period where a CPP is not in place for the current disclosure year

G

GAAP

means generally accepted accounting practice in New Zealand, as defined in the **IM determination**

Gains / (losses) on asset sales

means, in relation to-

- (a) asset disposals to a related party, nil;
- (b) asset disposals to a regulated supplier, nil;

Formatted: Indent: Left: 0.06 cm, Hanging: 0.76 cm

<u>(c)</u> asset disposals (other), the values determined in accordance with GAAP and clause 2.1.1 of the IM determination:

sale price of an asset - assets disposals (other)

where each component has the value allocated to electricity distribution services in accordance with clause 2.1.1 of the IM determination

GDB has the meanings given in the Gas Distribution

> <u>Services Input Methodologies Determination</u> 2012 [2012] NZCC 27, including, for the avoidance of doubt, any amendment in effect at the time this determination comes into forcegas distribution business as that term is

defined in the IM determination

GTB has the meaning givenset out in the Gas

> <u>Transmission Services Input Methodologies</u> Determination 2012 [2012] NZCC 28, including, for the avoidance of doubt, any amendment in effect at the time this determination comes into force Commerce Act (Gas Transmission Services Input Methodologies) Determination

2010

GWh means gigawatt-hour

Н

ICP (or connection point) means a point of connection on a local network

or embedded network which the EDB

nominates as the point at which an electricity retailer will be deemed to supply electricity to

a consumer

IM determination means the Electricity Distribution Services

> **Input Methodologies Determination 2012** [2012] NZCC 26, including amendments in effect at the time this determination comes

2009016.3

into force refers to the Electricity Distribution
Services Input Methodologies Determination
2010 (Commerce Commission Decision 710, 22
December 2010)

Independent auditor

means a person who-

- (a) is qualified for appointment as auditor of a company under the Companies Act 1993 or, where the EDB is a public entity (as defined in s 4 of the Public Audit Act 2001), is the Auditor-General;
- (b) has no relationship with, or interest in, the EDB that is likely to involve a conflict of interest;
- (c) has not assisted with the compilation of the information or provided advice or opinions (other than in relation to audit reports) on the methodologies or processes used in compiling the information; and
- (d) is not associated with nor directed by any **person** who has provided any such assistance, advice, or opinion

means data or statements which are incorrect only because they relied on disclosed data or

has the meaning givenset out in the **IM** determination

statements that are affected by an error

in relation to the supply of **electricity lines services** to a **consumer** by means of a prescribed voltage electric line, means the cessation of supply of **electricity lines services** to that **consumer** for a period of 1 minute or longer, other than by reason of disconnection of that **consumer**-

- (a) for breach of the contract under which the electricity lines services are provided;
- (b) as a result of a request from the **consumer**; or
- (c) as a result of a request from the

Formatted: Font: Bold

Formatted: Font: Bold

Indirectly affected data and statements

Initial RAB

Interruption

Formatted: Font: Bold

Formatted: Font: Bold

consumer's **electricity retailer**; or for the purpose of isolating an unsafe installation.

Formatted: Font: Bold

Formatted: Font: Bold

J

Κ

km means kilometre

kV means kilovolt

kVA means kilovolt ampere

kWh means kilowatt-hour

L

Legislative and regulatory

in relation to expenditure, means **expenditure on assets** where the **primary driver** is a new regulatory or legal requirement that results in the creation of, or modification to, **network** assets

Line charge revenue

means revenue from prices

Lost and found assets adjustment

means-

- (a) in relation to the unallocated RAB, the value of found assets as determined in accordance with clause 2.2.12 of the IM determination, less the value of lost assets. The value of a lost asset is the unallocated opening RAB value of the asset less regulatory depreciation as unallocated opening RAB value and regulatory depreciation are determined in accordance with the IM determination;
- (b) in relation to the RAB, the value of the
 asset (as determined in accordance with
 paragraph (a)) which is allocated to
 electricity distribution services in
 accordance with clause 2.1.1 of the IM
 determination

(c) in relation to the regulatory tax asset base roll-forward, the sum of regulatory tax asset values for found assets less the sum of regulatory tax asset values of lost assets, where 'found assets' and 'lost assets' have the meanings given in the IM determination

Formatted: Indent: Hanging: 0.77 cm

Low voltage (or LV)

means the nominal Alternating Current (AC) voltage of less than 1000 volts or the assets of the **EDB** that are directly associated with the transport or delivery of electricity at those voltages

Μ

Mark-up

means the percentage margin charged on the directly attributable cost incurred by the **related party** in providing a good or service which is included in the price of the good or service

Formatted: Font: Not Bold

Material projects and programmes

means projects or programmes with actual or forecast total expenditure greater than the materiality threshold that is developed and applied by the EDB

Ν

Network

means the fixed assets used by a **EDB** to provide **electricity lines services**

Network support

in relation to expenditure, means operational expenditure where the primary driver is the management of the network and includes expenditure relating to control centre and office-based system operations, including(a) asset management planning including preparation of the AMP, load forecasting, network modelling

(b) network and engineering design (excluding design costs capitalised for capital projects)
 (c) network policy development (including the

- development of environmental, technical and engineering policies)
- (d)-standards and manuals for **network** management
- (e) network record keeping and asset management databases including GIS
- (f) outage recording
- (g) connection and customer
 records/customer management databases
 (including embedded generators)
- (h) customer queries and call centres (not associated with direct billing)
- (i) operational training for **network** management and field staff
- (i) operational vehicles and transport
- (k) IT & telecoms for network management (including IT support for asset management systems)
- (I) day to day customer management including responding to queries on new connections, disconnections and reconnections, embedded generators
- (m) engineering and technical consulting
- (n) network planning and system studies
- (o) logistics (procurement) and stores
- (p) network asset site expenses and leases
- (q) route/easement management (including locating cables and pipelines for third parties, mark cuts, stand-overs, high-load escorts, obstructions, plans and permits)
- (r) surveying of new sites to identify work requirements
- (s) engineering/technical consulting services (excluding costs)

Nominal New Zealand dollars

in relation to an expenditure or revenue forecast, means the New Zealand dollar prices expected to apply in the year of the transaction

Non-qualifying intangible assets

means the value of assets identified in clause 2.2.2(d) of the **IM determination**

Non-network assets

means assets related to the provision of electricity lines services but that are not a network asset, and include-

- (a) information and technology systems;
- (b) asset management systems;
- (c) office buildings, depots and workshops;
- (d) office furniture and equipment;
- (e) motor vehicles;
- (f) tools, plant and machinery; and

(f)(g) any other assets under GAAP that are not network assets

any other items treated as non-system fixed assets under **GAAP**.

Non-standard contract

means a **contract** for **electricity distribution services** that is not a **standard contract**

Non-network capex

in relation to expenditure, means expenditure on assets related to the provision of electricity lines services but that is not directly related to any network asset, and includes expenditure on or in relation to-

- (a) information and technology systems;
- (b) asset management systems;
- (c) office buildings, depots and workshops;
- (d) office furniture and equipment;
- (e) motor vehicles;
- (f)-tools, plant and machinery; and
- (g) any other items treated as non-system fixed assets under GAAP.

Non-network assets

means assets related to the provision of electricity lines services but that are not a network asset, and include-

- (a) information and technology systems;
- (b) asset management systems;
- (c) office buildings, depots and workshops;
- (d) office furniture and equipment;

(e) motor vehicles; and

(f) tools, plant and machinery: and (g) any other items treated as non-system fixed assets under GAAP.

Normalised assessment dataset

means an **assessment dataset** normalised in accordance with the calculations set out in Attachment B

Not directly attributable

means-

(a) in relation to **operating costs**, **operating costs** that are not **directly attributable**;

(b) in relation to regulated service asset values, regulated service asset values that are not directly attributable Formatted: Font: Bold
Formatted: Font: Bold
Formatted: Font: Bold
Formatted: Font: Not Bold
Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold

0

determination

October 2012 determination

means the Electricity Distribution Information
Disclosure Determination 2012, published 1
October 2012

Operating cost

has the meaning givenset out in the IM determination

Operational expenditure

means operating costs after applying clause 2.1.1 of the IM determination, except in relation to the FReport on related party transactions where it means operating costs from related party transactions as determined after applying clause 2.1.1 of the IM determination and clause 2.3.6 of this

Original disclosure

means disclosures made in accordance with the October 2012 determination as amended at the time of the disclosure which contains a material or non-material error

Other network assets

means network assets used by the EDB to provide electricity lines services that are not sub transmission, zone substation, distribution and LV lines, distribution and LV cables, distribution substations and transformers or

distribution switchgear, and includes central facilities for SCADA and telecommunications systems.

Other regulated income

has the meaning set out in the **IM** determination

Other reliability, safety and environment

in relation to expenditure, means expenditure on assets where the primary driver is to improve network reliability or safety or to mitigate the environmental impacts of the network, but is not included in either of the quality of supply or legislative and regulatory categories. For example, this category may include expenditure on assets where the primary driver is to ensure staff safety or meet the EDB's environmental policies.

P

Pass-through and recoverable

means a cost specified in clause 3.1.2 or 3.1.3 of the IM determination

Person

has the same meaning as defined in s 2 of the **Act**

Planned interruption

means any **interruption** in respect of which not less than 24 hours notice was given, either to the public or to all electricity **consumers** affected by the **interruption**

Prescribed contract

in relation to an EDB, means -

- (a) a **contract** under which the **EDB** supplies **electricity lines services**; or
- (b) a contract for related services, if goods or services are to be supplied under the contract by—

(i)—the **EDB**; or

<u>(i)</u>

(ii)—a **person** that is a **related party** of the

Formatted: Font: Bold

Formatted: Font: Bold

EDB; or

(ii)

(iii) a person that supplies electricity lines services by means of works owned by the EDB; or

<u>(iii)</u>

(iv) a person that is a related party of a person of the kind referred to in sub<u>clauseparagraph</u> (iii)

Prescribed terms and conditions

means, in relation to a **contract** for the supply of **electricity lines services** or for **related services**, the terms and conditions of the **contract** that—

- (a) describe the goods or services to be supplied under the **contract**;
- (b) determine, or provide for the determination of, the quantity or amount of those goods or services;
- (c) specify, determine, or provide for the determination of the-
 - (i) **price** at which those goods or services are to be supplied;
 - (ii) timing of payment for those goods or services;
 - (iii) security for payment for those goods or services; and
 - (iv) EDB's obligations and responsibilities (if any) to consumers in the event that the supply of electricity lines services to consumers is interrupted.

Price component

means the various tariffs, fees and charges that constitute the components of the total **price** paid, or payable, by a **consumer**

Formatted: Font: Bold

| Prices | has the meaning givenset out in the IM |
|--------|--|
|--------|--|

determination

Pricing principles means, in relation to the supply of **electricity**

distribution services, the distribution pricing principles as published by the Electricity Commission in March 2010, adopted by the Electricity Authority, and amended by the Electricity Authority from time to time

Pricing strategy means a decision made by the **Directors** of the

EDB on the **EDB**'s plans or strategy to amend or develop **prices** in the future, and recorded in

writing.

Primary driver means the primary reason for a decision to incur a cost in the year the cost was incurred or

for a cost in the year the cost wa

forecast to be incurred.

For example, an asset may be relocated at the request of a third party and, at the same time, capacity on the asset increased to take account of expected future demand. If it is the third party request that required the asset to be relocated at that time, then the **expenditure on assets** would be allocated to **asset relocation**. If the deadline for relocating the asset was not imminent, but the project had to be completed to allow for the increase in capacity, then the **expenditure on assets** would be allocated to **system growth**.

Where there is more than one driver for a cost, and the cost is a significant proportion of **operational expenditure** or **expenditure on assets**, expenditure may be apportioned between expenditure categories according to the relative importance of each driver to the decision, or the project divided into cost

categories

Publicly disclose

in relation to any information, means to-

(a) disclose the information to the public on the Internet at the EDB's usual publicly accessible website;

(b) make copies of the information available for inspection by any **person** during ordinary office hours, at the principal office of the **EDB** making the public disclosure and

Formatted: Font: Bold

(c) within 10 working days of being requested to do so by any **person**, provide that **person** with a copy of the information, either by post or for collection (during ordinary office hours) from that principal office, whichever the **person** prefers; and

Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold

(d) within 5 working days after the information is disclosed to the public, provide a copy of the information to the **Commission** in the form that it is disclosed to the public and in an electronic format that is compatible with Microsoft Excel or Microsoft Word (as the case may be),

and **public disclosure** and **publicly disclosing** have corresponding meanings

Q

Quality of supply

in relation to expenditure, means **expenditure on assets** where the **primary driver** is the need to meet improved security and/or quality of supply standards. This may include expenditure to-

(a) reduce the overall **interruption**/**fault** rate of the **network**;

- (b) reduce the average time that consumers are affected by planned <u>interruptions</u> and/or unplanned interruptions; or
- (c) reduce the average number of **consumers** affected by **planned** <u>interruptions</u> and/or unplanned interruptions

R

RAB

means regulatory asset base and for the components of the RAB roll-forward, the

values after applying clause 2.1.1 of the IM

determination

has the meaning givenset out in section 4 of Record

the Public Records Act 2005

Reference dataset means the set of daily SAIDI values and SAIFI

> values for the reference period, with SAIDI values and SAIFI values for an interruption that spans multiple calendar days accrued to the day on which the interruption began

Reference period means the period 1 April 2004 to 31 March

2009

Regulated service has the meaning givenset out in the

IM determination

Regulated service asset values has the meaning givenset out in the

IM determination

Regulatory period has the meaning givenset out in the

IM determination

Related party has the meaning givenset out in the

IM determination

Related party transaction means a transaction with a related party

Related services means goods or services (other than the supply

> or conveyance of electricity or electrical appliances) supplied or to be supplied under a contract in any case where-

(a) there is a linkage between-(i) -that contract; and

(ii) a contract for the supply or

conveyance of electricity

(a) f the goods and services and another contract for the conveyance of electricity

by reason that the consideration for the supply of those goods or services is linked to, or combined with, payment for the supply or conveyance of that electricity;

(b) the monetary value of the goods or services supplied, or to be supplied, under Formatted: English (U.S.)

Formatted: Numbered + Level: 1 + Numbering Style: i, ii, iii, ... + Start at: 1 + Alignment: Left + Aligned at: 0.69 cm + Indent at: 1.33 cm

Formatted: English (U.S.)

Formatted: English (U.S.)

Formatted: Outline numbered + Level: 1 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 0.06 cm + Indent at: 0.69 the contract referred to in (a)(i), in respect of-

Formatted: Font: Bold
Formatted: English (U.S.)

(i) the period of 12 months immediately
before the information relating to the
contract for the supply or conveyance
of electricity referred to in (a)(ii) is
publicly disclosed as required

Formatted: Font: Bold

byamounts to or (as the case may be)
will amount to more than 1% of the
monetary value or projected monetary
value (as the case may be) of the
contract for the conveyance of

contract for the conveyance of electricity, in respect of either the period of 12 months immediately before, or the period of 12 months immediately after, the public disclosure of the information relating to the contract for the conveyance of

electricity as required by either of clauses 2.4.9 or 2.4.12 of this determination; or,

(ii) the period of 12 months immediately after that information is **publicly** disclosed.

(b) amounts to or will amount to more than 1% of the monetary value or projected monetary value of the contract referred to in (a)(ii) of section 2.4

Formatted: English (U.S.)

Formatted: Numbered + Level: 1 + Numbering Style: i, ii, iii, ... + Start at: 1 + Alignment: Left + Aligned at: 0.69 cm + Indent at: 1.33 cm

Formatted: English (U.S.)

Formatted: Indent: Left: 0.69 cm, No bullets or numbering

Revenue

Routine and corrective maintenance and inspection

means total regulatory income accrued in each of the months of the disclosure year

in relation to expenditure, means operational expenditure where the primary driver is the activities specified in planned or programmed inspection, testing and maintenance work schedules and includes-

(a) **fault** rectification work that is undertaken at a time or date subsequent to any initial **fault** response and restoration activities

- (b) routine inspection
- (c) functional and intrusive testing of assets,

Formatted: Font: Bold

plant and equipment including critical spares and equipment

- (d) helicopter, vehicle and foot patrols, including negotiation of landowner access
- (e) asset surveys
- (f) environmental response
- (g) painting of **network** assets
- (h) outdoor and indoor maintenance of substations, including weed and vegetation clearance, lawn mowing and fencing

Formatted: Font: Bold

- (i) maintenance of access tracks, including associated security structures and weed and vegetation clearance
- (j) customer-driven maintenance
- (k) notices issued

S

SAIDI (System Average Interruption Duration Index)

means the average forced sustained interruption duration per connection point served per year, measured in minutes.

Connection point numbers are to be the average for the disclosure year

SAIDI reliability limit

means the SAIDI reliability limit that applies to the non-exempt **EDB** in respect of the disclosure year under an applicable s52P determination

SAIDI values

means system average interruption duration index values based on Class B (planned interruptions on the network) and Class C (unplanned interruptions on the network)

SAIFI (System Average Interruption Frequency Index)

means the average forced sustained interruption frequency per connection point served per year, measured in frequency per year. Connection point numbers are to be the average for the disclosure year

SAIFI reliability limit

means the SAIFI reliability limit that applies to the non-exempt **EDB** in respect of the disclosure year under an applicable s52P determination

SAIFI values means system average interruption frequency

> index values based on Class B (planned interruptions on the network) and Class C (unplanned interruptions on the network)

Secondary assets means **network** assets, including ripple

> injection systems, SCADA, protection relays and telecommunications systems, that do not carry the energy that is distributed to consumers

Service interruptions and emergencies

In relation to expenditure, means operational expenditure where the primary driver is an unplanned instantaneous event or incident that impairs the normal operation of **network** assets. This relates to reactive work (either temporary or permanent) undertaken in the immediate or short term in response to an unplanned event. Includes back-up assistance required to restore supply, repair leaks or make safe. It also includes operational support such as mobile generation used during the outage or emergency response. It also includes any necessary response to events arising in the transmission system. It does not include expenditure on activities performed proactively to mitigate the impact such an event would have should it occur.

Planned follow-up activities resulting from an event which were unable to be permanently repaired in the short term are to be included under routine and corrective maintenance and inspection

Shared asset means a **network** asset used by more than

one4 consumer in order to receive electricity

lines services

Sole use assets means assets connected to the network for use

by only 1 connecting consumer in order to

receive electricity lines services

Special contract term

means -

(a) a non-price term in a contract which materially differs from the terms which the Formatted: Font: Bold

parties in their respective positions would usually include in an arm's length **contract**; or

Formatted: Font: Bold

(b) the omission of a material non-price term from a contract, when the parties in their respective positions would usually include that term in an arm's length contract; or

Formatted: Font: Bold

(c) a non-price term in a contract resulting from a tender process, which materially varies from, or was not included in, the contractual basis on which the tender proposals were requested or the terms proposed by the lowest qualifying tender from an unrelated party, which credibly Formatted: Font: Bold
Formatted: Font: Bold

Standard contract

means any **contract** (being a **contract** for the provision of **electricity line services**) between and **EDB** and any other **person** where-

could have performed the services-

- (a) the price at which the electricity line services are to be provided under the contract is determined solely by reference to a schedule of prescribed terms and conditions, being a schedule that is publicly disclosed; and
- (b) at least 4 other **persons** have such **contracts** with the **EDB**, and none of those other **persons** is a **related party** of in the **EDB**, or is a **related party** of those other **persons**

Sub-network

means, in relation to **network** assets of a supplier that is-

(a) consumer-controlled and the number of controlling consumers is less than 90% of the total number of consumers of the services provided by the EDB; the part of the network assets owned by the EDB that is substantially used to provide services to—

Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold

(i) consumers that are controlling

consumers; or

- (ii) consumers that are not controlling consumers; or
- (b) a part of the **network** that is geographically separate from all other parts of the **network**; and, for the purposes of this definition, -
- (c) the existence of electricity distribution service activities supplied by another supplier that are between different electricity distribution service activities supplied by the supplier is to be regarded as a geographical separation; but
- (d) parts of the network of the supplier are not to be regarded as geographically separate from all other parts of the network of the supplier if -
- (e) the total circuit length of the electric lines that are used in supplying the electricity distribution services and are capable of conveying electricity at a voltage equal to or greater than 3.3 kV is less than 25 km; or
- (f) the electricity conveyed is less than 20 **GWh** per annum; or
- (g) the **electricity distribution services** are provided to fewer than 2000 **ICPs**.

means-

- (a) in relation to **AMP**s, the transport or delivery of electricity at the following voltages: 110 kV, 66 kV, 33 kV and other voltages within this range (note: whilst voltages outside this range (eg, 22 kV) may be used for the purposes of subtransmission, they are not to be included in the sub-transmission reporting category); or
- (b) for any other purpose, any of the electric lines, cables, plant and equipment, operated at any **sub-transmission voltage**,

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Bold

2009016.3

Subtransmission

that are not installed in any zone substation. The assets include associated pilot and communication cables, switches and surge arrestors or other overhead lines and cable components installed outside of any zone substation

Subtransmission voltage

means 3 phase nominal voltage-

(a) over 30 kV and up to and including 110 kV; or

(b) 22kV, if that voltage is used within the network in the role or manner of a subtransmission voltage

SWER

means single wire earth return

System growth

in relation to expenditure, means **expenditure on assets** where the **primary driver** is a change in demand or generation on a part of the **network** which results in a requirement for either additional capacity to meet this demand or additional investment to maintain current security and/or quality of supply standards due to the increased demand. This expenditure category includes **expenditure on assets** associated with SCADA and telecommunications assets.

System operations and network support

in relation to expenditure, means **operational expenditure** where the **primary driver** is the management of the **network** and includes expenditure relating to control centre and office-based system operations, including-

- (a) asset management planning including preparation of the AMP, load forecasting, network modelling
- (b) **network** and engineering design (excluding design costs capitalised for capital projects)
- (c) network policy development (including the development of environmental, technical and engineering policies)
- (d) standards and manuals for network

Formatted: Font: Bold

Formatted: Font: Bold

37

management

- (e) network record keeping and asset management databases including GIS
- (f) outage recording
- (g) connection and customerrecords/customer management databases(including distributed generators)
- (h) customer queries and call centres (not associated with direct billing)
- (i) operational training for **network** management and field staff
- (j) operational vehicles and transport
- (k) IT & telecoms for network management (including IT support for asset management systems)
- (I) day to day customer management including responding to queries on new connections, disconnections and reconnections, distributed generators

(m) engineering and technical consulting

- (n)(m) **network** planning and system studies (o)(n) logistics (procurement) and stores
- (o) network asset site expenses and leases
- (p) route/easement management (including locating cables and pipelines for third parties, mark cuts, stand-overs, high-load escorts, obstructions, plans and permits)
- (q) surveying of new sites to identify work requirements
- (r) engineering/technical consulting services (excluding costs capitalised)
- (s) contractor/contracts management (excluding costs capitalised)
- (t) transmission operator liaison and management
- (p)(u) network related research and development

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Italic, English (U.S.)

Т

Target revenue means the revenue that the EDB expects to

obtain from prices

Total opening RAB values <u>m</u>Means-

(a) in relation to the unallocated RAB, the sum of unallocated opening RAB values as determined in accordance with the IM determination;

(b) in relation to the RAB, the sum of opening RAB values as determined in accordance with the IM determination

otal regulatory income means

(c) in relation to the Report on Regulatory Profit, the sum of line charge revenue, gains/(losses) on asset sales and other regulated income

(d) in relation to the Report on Related Party
Transactions, the income from related
party transactions after applying clauses
2.3.6 and 2.3.7 of this determination

Transmission charge means any payment made in respect of the use

of the **transmission system**. For the avoidance of doubt, this includes avoided transmission

charges

Transmission system means the national grid

U

Unallocated RAB means for the components of the RAB roll-

forward, the values before the application of

clause 2.1.1 of the IM determination

Unallocated works under

construction

means for the components of the works under construction roll-forward, the works under construction values before the application of

clause 2.1.1 of the IM determination

Unallocated 2009 modified asset mean

means the value of the **2009 modified asset values** before any allocation of asset value

values

relevant to the regulatory disclosures been undertaken

Unplanned interruption

means any interruption that is not a planned interruption in respect of which less than 24 hours notice, or no notice, was given, either to the public or to all consumers affected by the interruption

Formatted: Font: Bold

٧

Value of capital contributions

means the value of capital contributions received or expected to be received by an EDB in respect of the cost of assets accumulated during the construction phase of a project that creates a new network asset, and is determined in accordance with clause 2.2.11(1)(h) of the IM determination and allocated to the electricity distribution services in accordance with the allocation of the regulated service asset values set out in clause

2.1.1 of the **IM determination**

Value of vested assets

means the consideration incurred or expected to be incurred by an **EDB** in respect of **vested assets** that are or are expected to be accumulated during the construction phase of a project that creates a new **network** asset, and is determined in accordance with clause 2.2.11(1)(i) of the **IM determination** and allocated to the **electricity distribution services** in accordance with clause 2.1.1 of the **IM determination**

Vegetation management

in relation to expenditure, means **operational expenditure** where the **primary driver** is the need to physically fell, remove or trim vegetation (including root management) that is in the proximity of overhead lines or cables. It includes expenditure arising from the following activities-

(a) inspection of affected lines and cables

40

where the inspection is substantially or wholly directed to vegetation management (e.g., as part of a vegetation management contract). Includes pre-trim inspections as well as well as inspections of vegetation cut for the primary purpose of ensuring the work has been undertaken in an appropriate manner;

- (b) liaison with landowners including the issue of trim/cut notices, and follow up calls on notices;
- (c) the felling or trimming of vegetation to meet externally imposed requirements or internal policy, including operational support such as any mobile generation used during the activity.

The following activities and related costs are excluded from this category-

- (a) general inspection costs of assets subject to vegetation where this is not substantially directed to vegetation management (include in routine and corrective maintenance and inspection);
- (b) costs of assessing and reviewing the vegetation management policy (include in <u>system operations and</u> <u>network support</u>);
- (c) data collection relating to vegetation(include in <u>system operations and network support</u>);
- (d) the cost of managing a vegetation management contract, except as stated above (include in system operations and network support);
- (e) emergency work (include in **service interruptions and emergencies**)

hHas the meaning givenset out in the IM determination

Vested asset

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

41

W

Works under construction

means-

(a) in relation to **unallocated works under construction**, the value of q calculated using the following formula:

$$q = a + b - c + d$$

where-

a = unallocated works under construction - preceding disclosure year

b = unallocated capital expenditure

c = unallocated-assets commissioned

d = adjustment resulting from assetcost allocation Formatted: Font: Bold

Formatted: Font: Not Bold

- (b) in relation to allocated works under construction, the value (as determined in accordance with paragraph (a)) which was allocated to electricity distribution services in accordance with clause 2.1.1 of the IM determination
- (c) in relation to the establishment of the initial RAB value, the value of works under construction included in unallocated 2009 modified asset values as works under construction is defined in the IM determination

X

γ

Z

Zone substation

means the transformers, switchgear, protection and control and Supervisory Control and Data Acquisition (SCADA) equipment, **low voltage** and station direct current systems, other secondary systems, ripple injection plant and outdoor structure installed in an electrical

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

42

power substation primarily used to convert any sub-transmission voltage to any distribution voltage. Zone substation assets include the land, any buildings and the value of site developments.

PART 2 DISCLOSURE REQUIREMENTS

2.1 INFORMATION DISCLOSURE

- 2.1.1—Subject to sections 2.11 and 2.12 and 2.13, from the **commencement date** every **EDB** must comply with the information disclosure requirements set out in this determination and, in particular, must comply with-
- (1) The requirements to disclose financial information in section 2.3;
- (2) The requirement to disclose pricing and related information in section 2.4;
- (3) The requirement to disclose non-financial information relating to network assets in section 2.5;
- (4) The requirement to disclose asset management plans and forecast information in section 2.6;
- (5) The requirement to disclose explanatory notes in relation to disclosed information in section 2.7;
- (6) The audit, certification and verification requirements in sections 2.8 and 2.9;
- (7)2.1.1 The retention and continuous disclosure requirements in section 2.10;
 - (8) The transitional provisions in section 2.12.

2.2 APPLICABLE INPUT METHODOLOGIES

- 2.2.1 Every **EDB** must apply <u>the</u> requirements set out in the following subparts of the **IM determination** as applicable, when complying with this determination-
 - (1) Subpart 1 of part 2, cost allocation;
 - (2) Subpart 2 of part 2, asset valuation;
 - (3) Subpart 3 of part 2, treatment of taxation.

Formatted: Heading H4: Clause text

2.3 FINANCIAL INFORMATION FOR THE DISCLOSURE YEAR

Annual disclosure relating to financial information for the disclosure year

- 2.3.1 Subject to sections 2.11 and 2.12, wWithin 5 months after the end of each disclosure year, every EDB must disclose information relating to its financial position by-
 - (1) Completing each of the following reports by inserting all information relating to the **electricity lines services** supplied by the **EDB** for that **disclosure year**-
 - (a) the Analytical Ratios set out in Schedule 1;
 - (b) the Report on Return on Investment set out in Schedule 2;
 - (c) the Report on Regulatory Profit set out in Schedule 3;
 - (d) the Report on Value of the Regulatory Asset Base (Rolled Forward) set out in Schedule 4;
 - (e) the Report on Regulatory Tax Allowance set out in Schedule 5a;
 - (f) the Report on Related Party Transactions set out in Schedule 5b;
 - (g) the Report on Term Credit Spread Differential Allowance set out in Schedule 5c;
 - (h) the Report on Cost Allocations set out in Schedule 5d;
 - (i) the Report on Asset Allocations set out in Schedule 5e;
 - (j) the Report on Capital Expenditure for the Disclosure Year set out in Schedule 6a:
 - (k) the Report on Operational Expenditure for the Disclosure Year set out in Schedule 6b;
 - (I) the Comparison of Forecasts to Actual Expenditure <u>set out</u> in Schedule 7;_and
 - (2) **Publicly disclosing** each of those reports.

- 2.3.2 Subject to section 2.12, Wwithin 5 months and 5 working days after the end of each disclosure year, every EDB must disclose to the Commission information supporting the information disclosed in accordance with clause 2.3.1 above by completing each of the following reports by inserting all information relating to the information supplied by the EDB in Schedules 5d and 5e for that disclosure year-
 - (1) the Report Supporting Cost Allocations set out in Schedule 5f;
 - (2) the Report Supporting Asset Allocations set out in Schedule 5g.

Alternative method for return on investment information

- 2.3.3 Subject to section 2.12, Lin completing the Report on Return on Investment in Schedule 2-
 - Each EDB must disclose information in accordance with part 2(iii) of Schedule
 2 if during the first three months or last three months of the disclosure year-

the value of assets commissioned by the EDB exceeds 10% of the total opening RAB values; or

- (b) the notional net cash flows exceed 40% of the annual notional net cash flows;
- (2) Otherwise an **EDB** may elect to disclose information in accordance with part 2(iii) of Schedule 2.

Term credit spread differential allowance

2.3.4 The Report on Term Credit Spread Differential Allowance in Schedule 5c is only required to be completed by qualifying suppliers as qualifying suppliers is defined in the **IM determination**.

Allocation of assets and operating costs

- 2.3.5 In completing the Report on Cost Allocations in Schedule 5d and the Report on Asset Allocations in Schedule 5e everyan EDB must-
- (1)2.3.5 ppublicly disclose, for each asset category in Schedule 5e and each operational expenditure category in Schedule 5d and each asset category in Schedule 5e that has not directly attributable costs-
 - (a)(1) Aa description of the **not directly attributable** costs or assets;

Formatted: Font: Bold

Formatted: Heading H5: Clause subtext L1

Formatted: Font: Bold

Formatted: Heading H4: Clause text

Formatted: Font: Bold

- (b)(2) Tthe allocation methodology types used to allocate the not directly attributable costs or assets, as allocation methodology type is defined in the IM determination:
- (c)(3) Wwhere more than one allocation methodology type is used, the percentage of not directly attributable costs or assets allocated using each method;
- (d)(4) Wwhere ABAA or OVABAA methodologies are used, whether the allocators are proxy asset allocators, proxy cost allocators or causal allocators, as ABAA, OVABAA, proxy assets allocator, proxy cost allocator and causal are defined in the IM determination; and
- (e)(5) **T**the **allocators** used and the rationale for using each **allocator**.

Related party transactions

- 2.3.6 For the purpose of clause 2.3.1, the cost of any service, good, or asset from a **related party** must be-
 - (1) For the cost of a **commissioned** asset or a component of a **commissioned** asset acquired from a **related party**, as determined in accordance with clauses 2.2.11(1)(e)–(g) of the **IM determination** for services or goods, other than assets, acquired from a **related party**, one of the following-
 - (a) at the directly attributable cost incurred by the related party in accordance with the cost allocation process set out in clause 2.1.1 of the IM determination, provided that the cost incurred by the related party in providing the service to the EDB-
 - (i) is fair and reasonable to the EDB, and
 - (ii) is substantially the same as the cost incurred by the **related**party in providing the same type of services to third parties; or
 - (b) for electrical contracting services to maintain or develop the network, at the directly attributable cost incurred by the related party, determined in accordance with the cost allocation process set out in clause 2.1.1 of the IM determination, plus a mark-up which does not exceed 17.2%; or
 - (c) the price paid by the EDB, where-
 - (i) at least 50% of the **related party's** sales of services or, goods, are to third parties, and third parties may purchase the same

- or similar services or, goods, from the **related party** on substantially the same terms and conditions, including price; or
- (ii) that price is substantially the same as the price paid for the same or substantially similar services or goods (including any adjustments for inflation using CPI or an appropriate input price index) on substantially the same terms and conditions in the preceding 3 disclosure years from a party other than a related party; or
- (d) at the price paid by the **EDB**, where-
 - (i) the price paid for all services, goods, and assets acquired from that related party is less than 1% of the EDB's total revenue from the regulated service for that year; and
 - the total price paid for all related party transactions is less than 5% of the EDB's total revenue from the regulated service; or
- (e) at the price paid by the **EDB** to the **related party** following a competitive tender process, provided that-
 - (i) the price is no more than 5% higher than the price of the lowest conforming tender received;
 - (ii) all relevant information material to consideration of a proposal was provided to third parties, or made available upon request;
 - (iii) at least one other qualifying proposal was received;
 - (iv) the final agreement for the provision of the services or goods by the related party does not include any special contract terms;
 - (v) the EDB retains for a period of 7 years following the closing date of tender proposals a record of the tender and tender process, including request for information and/or proposal, the criteria used for the assessment of proposals, reasons for acceptance or rejection of proposals, and all proposals and requests for information on the tender for the purposes of making proposals; and
- (f) the price paid by the **EDB**, provided-

- (i) the price cannot otherwise be determined under subclauses (a) to (e); and
- (ii) no fewer than 2 directors of the EDB provide a written certification that they are satisfied that the price or prices paid for all services and, goods, determined in accordance with this paragraph reflect the price or prices that would be paid in an arm's-length transaction; or
- (g) nil.
- 2.3.7 For the purpose of clause 2.3.1-above, the price received for any sale or supply of services, goods, or assets to a **related party**, must be one of the following-
 - (1) If the related party is another EDB, a GDB, or GTB required to publicly disclose the price paid or cost incurred in accordance with another Commission determination, then the price received must be that disclosed by the related party; or
 - (2) If the price received cannot be determined under subclause (1), then-
 - (a) at the price received from the related party, where the EDB makes at least 50% of its revenue from the provision of similar services to unrelated parties, and the price charged by the EDB to the related party is substantially the same as the price charged to third parties for similar services, goods, or assets on substantially the same terms and conditions; or
 - (b) at the price received from the related party, provided that no fewer than 2 directors of the EDB provide a written certification that they are satisfied that the prices received for all services, goods, or assets provided to related parties reflect the price or prices that would be received in an arm's length transaction; or
 - (c) at the cost incurred by the **EDB** in providing the service, good, or asset.

Information on capital expenditure projects

- 2.3.8 <u>ISubject to section 2.12, in completing the Report on Capital Expenditure for the Disclosure Year in Schedule 6a, every EDBs must disclose the following information in relation to material projects and programmes-</u>
 - (1) Separately disclose **consumer connection** expenditure for each **consumer** type defined by the **EDB** in 6a(iii) of Schedule 6a;

- (2) For each material asset relocation project in Schedule 6a-
 - (a) separately disclose a brief description of the project and its value in 6a(v) of Schedule 6a;
 - (b) provide any additional commentary, including the purpose of the project and a description of the assets relocated <u>for each project</u> in Schedule 14 (Mandatory Explanatory Notes);
- (3) For each material quality of supply project in Schedule 6a-
 - (a) separately disclose a brief description of the project and its value in 6a(vi) in Schedule 6a;
 - (b) provide any additional commentary, including the purpose of the project and a description of the assets affected for each project in Schedule 14 (Mandatory Explanatory Notes);
- (4) For each material legislative and regulatory project in Schedule 6a-
 - (a) separately disclose a brief description of the **legislative and regulatory** requirement and the value of the project in 6a(vii) of Schedule 6a;
 - (b) provide any additional commentary, including the purpose of the projects and a description of the assets affected for each project in Schedule 14 (Mandatory Explanatory Notes);
- (5) For each material **other reliability, safety and environment** project in Schedule 6a-
 - (a) separately disclose a brief description of the project and its value in 6a(viii) of Schedule 6a;
 - (b) provide any additional commentary, including the purpose of the project and a description of the assets affected for each project in Schedule 14 (Mandatory Explanatory Notes);
- (6) For each material **non-network** <u>assets</u> <u>capex</u> project in Schedule 6a-
 - (a) separately disclose a brief description of the project and its value in 6a(ix) of Schedule 6a;
 - (b) provide any additional commentary, including the purpose of the project and a description of the assets affected for each project in Schedule 14 (Mandatory Explanatory Notes).

Information on physical service life potential

2.3.9 For all assets or groups of assets where the supplier has changed the asset(s)' depreciation profile or the asset(s) was commissioned during the disclosure year, and the asset(s)' life service potential was determined by an engineer in accordance with clause 2.2.8 of the IM determination, within 5 months after the end of each disclosure year, the EDB must publicly disclose the report written by the engineer which was prepared in accordance with clause 2.2.8(3)(b) of the IM determination.

2.4 PRICING AND RELATED INFORMATION

Disclosure of pricing methodologies

- 2.4.1 Every **EDB** must **publicly disclose**, before the start of each **disclosure year**, a pricing methodology which-
 - (1) Describes the methodology, in accordance with clause 2.4.3-below, used to calculate the **prices** payable or to be payable;
 - (2) Describes any changes in **prices** and **target revenues**;
 - (3) Explains, in accordance with clause 2.4.5 below, the approach taken with respect to pricing in non-standard contracts and distributed generation (if any);
 - (4) Explains whether, and if so how, the EDB has sought the views of consumers, including their expectations in terms of price and quality, and reflected those views in calculating the prices payable or to be payable. If the EDB has not sought the views of consumers, the reasons for not doing so must be disclosed.
- 2.4.2 Any change in the pricing methodology or adoption of a different pricing methodology, must be **publicly disclosed** at least 20 working days before **prices** determined in accordance with the change or the different pricing methodology take effect.
- 2.4.3 Every disclosure under clause 2.4.1 above-must-
 - (1) Include sufficient information and commentary to enable interested persons to understand how prices were set for each consumer group, including the assumptions and statistics used to determine prices for each consumer group;

- (2) Demonstrate the extent to which the pricing methodology is consistent with the **pricing principles** and explain the reasons for any inconsistency between the pricing methodology and the **pricing principles**;
- (3) State the **target revenue** expected to be collected for the **disclosure year** to which the pricing methodology applies;
- (4) Where applicable, identify the key components of target revenue required to cover the costs and return on investment associated with the EDB's provision of electricity lines services. Disclosure must include the numerical value of each of the components;
- (5) State the **consumer groups** for whom **prices** have been set, and describe-
 - (a) the rationale for grouping **consumers** in this way;
 - (b) the method and the criteria used by the **EDB** to allocate **consumers** to each of the **consumer groups**;
- (6) If prices have changed from prices disclosed for the immediately preceding disclosure year, explain the reasons for changes, and quantify the difference in respect of each of those reasons;
- (7) Where applicable, describe the method used by the EDB to allocate the target revenue among consumer groups, including the numerical values of the target revenue allocated to each consumer group, and the rationale for allocating it in this way;
- (8) State the proportion of **target revenue** (if applicable) that is collected through each **price component** as **publicly disclosed** under clause 2.4.18.
- 2.4.4 Every disclosure under clause 2.4.1 above must, if the EDB has a pricing strategy-
 - (1) Explain the pricing strategy for the next 5 disclosure years (or as close to 5 years as the pricing strategy allows), including the current disclosure year for which prices are set;
 - (2) Explain how and why **prices** for each **consumer group** are expected to change as a result of the **pricing strategy**;
 - (3) If the **pricing strategy** has changed from the preceding **disclosure year**, identify the changes and explain the reasons for the changes.

- 2.4.5 Every disclosure under clause 2.4.1 above-must-
 - (1) Describe the approach to setting **prices** for **non-standard contracts**, including-
 - the extent of non-standard contract use, including the number of ICPs represented by non-standard contracts and the value of target revenue expected to be collected from consumers subject to non-standard contracts;
 - (b) how the **EDB** determines whether to use a **non-standard contract**, including any criteria used;
 - any specific criteria or methodology used for determining prices for consumers subject to non-standard contracts and the extent to which these criteria or that methodology are consistent with the pricing principles;
 - (2) Describe the EDB's obligations and responsibilities (if any) to consumers subject to non-standard contracts in the event that the supply of electricity lines services to the consumer is interrupted. This description must explain-
 - (a) the extent of the differences in the relevant terms between **standard contracts** and **non-standard contracts**;
 - (b) any implications of this approach for determining prices for consumers subject to non-standard contracts;
 - (3) Describe the EDB's approach to developing prices for electricity distribution services provided to consumers that own distributed generation, including any payments made by the EDB to the owner of any distributed generation, and including the-
 - (a) **prices**; and
 - (b) value, structure and rationale for any payments to the owner of the **distributed generation**.

Disclosure of capital contributions

- 2.4.6 Every EDB must at all times publicly disclose-
 - (1) A description of its current policy or methodology for determining **capital contributions**, including-

- (a) the circumstances (or how to determine the circumstances) under which the **EDB** may require a **capital contribution**;
- (b) how the amount payable of any capital contribution is determined. Disclosure must include a description of how the costs of any assets (if applicable), including any shared assets and any sole use assets that are included in the amount of the capital contribution, are calculated;
- (c) the extent to which any policy or methodology <u>applied</u> is consistent with the relevant **pricing principles**;
- (2) A statement of whether a **person** can use an independent contractor to undertake some or all of the work covered by the **capital contribution** sought by the **EDB**;
- (3) If the **EDB** has a standard schedule of **capital contribution** charges, the current version of that standard schedule.
- 2.4.7 When a consumer or other person from whom the EDB seeks a capital contribution, queries the capital contribution charge, (and when the charge is not covered in the standard schedule of capital contribution charges, or no such schedule exists) the EDB must, within 10 working days of receiving the request, provide reasonable explanation to any reasonable query from that consumer or other person of the components of that charge and how these were determined.
- 2.4.8 The requirements in clauses 2.4.6 and 2.4.7 apply if-
 - (1) The EDB determines the amount of capital contributions; or
 - (2) The **EDB** has or can obtain information about the policy or methodology used by another **person** to determine **capital contributions** where the **EDB** receives those **capital contributions**.

Disclosure of prescribed terms and conditions of contracts

- 2.4.9 Every **EDB** must, within 20 working days of entering into a **prescribed contract**, that is a **standard contract**, **publicly disclose**-
 - (1) If the other party to the **contract** is an **electricity retailer**, the name of that **electricity retailer**;
 - (2) In any other case, the **prescribed terms and conditions** of the **prescribed contract**.

- 2.4.10 Subject to section 53C(4) of the Act-and section 2.12, if any prescribed terms and conditions of a prescribed contract that is also a standard contract (including a prescribed contract that was entered into before the commencement date) are modified, the EDB must, not later than 20 working days after those modifications take effect, publicly disclose-
 - (1) The **prescribed contract** concerned;
 - (2) The modifications made to the **prescribed terms and conditions**.
- 2.4.11 For the purposes of this section, public disclosure by an EDB of the prescribed terms and conditions of a standard contract is to be regarded as public disclosure by that EDB in relation to all of its standard contracts with the same prescribed terms and conditions.
- 2.4.12 Subject to section 53C(4) of the Act-and section 2.12, every EDB must, in respect of all prescribed contracts that are non-standard contracts entered into during the disclosure year, no earlier than 5 months after the end of that disclosure year, either-
 - (1) If the other party to the **contract** is an **electricity retailer**, **publicly disclose** the name of that **electricity retailer**;
 - (2) In any other case, either-
 - (a) **publicly disclose** a description of the goods or services to be supplied under the **prescribed contract** and the quantity or amount of those goods or services; or
 - (b) publicly disclose the prescribed terms and conditions of each prescribed contract, with the exception of prescribed terms and conditions that specify, determine, or provide for the determination of the price at which goods or services are to be supplied.

- 2.4.13 For any contract for which information is publicly disclosed under clause 2.4.12, unless prescribed terms and conditions have been publicly disclosed under subclause 2.4.12(2)(b), every EDB must, within 20 working days of a request by any person, provide to that person and publicly disclose the prescribed terms and conditions of the prescribed contract, with the exception of prescribed terms and conditions that specify, determine, or provide for the determination of the price at which goods or services are to be supplied.
- 2.4.14 Clauses 2.4.15 and 2.4.16 apply to prescribed contracts-
 - (1) For which information was disclosed in any previous **disclosure year** under clause 2.4.12 or clause 2.4.13; or
 - (2) Which were entered into before the **commencement date** of this determination.
- 2.4.15 Subject to section 53C(4) of the Act-and section 2.12, if any prescribed terms and conditions of a prescribed contract described under clause 2.4.14 are modified, every EDB must immediately publicly disclose, no earlier than 5 months after the end of the disclosure year in which the prescribed contract was modified entered into-
 - (1) The existence of the **prescribed contract** described in clause 2.4.14 above that has been modified; and
 - (2) The fact of its modification.
- 2.4.16 Within 20 working days of a request by any person, the EDB must provide to the person and publicly disclose the prescribed terms and conditions of the prescribed contract described in clause 2.4.15 above, with the exception of prescribed terms and conditions that specify, determine or provide for the determination of the price at which goods and services are to be supplied.
- 2.4.17 Every **EDB** must, when **publicly disclosing** the **prescribed terms and conditions** under any of clauses 2.4.12, 2.4.13, or 2.4.16 above, include the following information-
 - (1) The electricity supply capacity (in **kVA**) of the assets used for the purposes of conveying electricity under the **contract**-
 - (a) at the ICP, if the electricity is conveyed to a consumer; or
 - (b) at the point at which the electricity is supplied to any **person** other than a **consumer**;

Formatted: Font: Bold

(2) The voltage at which the electricity is to be supplied or conveyed under the **non-standard contract**.

Disclosure of prices

- 2.4.18 Every EDB must at all times publicly disclose-
 - (1) Each current **price** expressed in a manner that enables **consumers** to determine-
 - (a) the **consumer group** or **consumer groups** applicable to them;
 - (b) the total **price** for **electricity lines services** applicable to them;
 - (c) the **prices** represented by each **price component** applicable to them;
 - (d) the amount of each current **price** that is attributable to **transmissioncharges**;
 - (2) The number (or estimated number) of **consumers** which must pay each **price**;
 - (3) The date at which each **price** was or will be first introduced;
 - (4) The **price** that was payable immediately before each current **price** (if any) expressed in the manner referred to in subclause (1)-above.
- 2.4.19 Every **EDB** must, at least 20 working days before changing or withdrawing a **price** or introducing a new **price** that is payable by 5 or more **consumers**-
 - (1) Publicly disclose-
 - (a) the information specified in clause 2.4.18 above in respect of that **price**;
 - (b) an explanation of the reasons for the new **price** or the changed or withdrawn **price**;
 - (2) In addition, either-
 - (a) give written notice to each **consumer** by whom that **price** is, or in the case of a withdrawn **price** would have been, payable, including the information specified in clause 2.4.18 **above** in respect of that **price**; or
 - (b) notify **consumers** in the news section of either-
 - (i) 2 separate editions of each newspaper; or

- (ii) news media accessible using the internet that is widely read by consumers connected to EDB's network;
- (c) notification under subclause (2)(b) above must provide details of the **price**, including-
 - the changed price alongside the immediately preceding price applicable; and
 - (ii) contact details where further details of the new or changed price can be found including the URL of the EDB's publicly accessible website.
- 2.4.20 Every EDB must, in respect of-
 - (1) All new **prices** payable; or
 - (2) In the case of withdrawn **prices**, the **prices** which would have been payable;

by 4 or fewer **consumers**, at least 20 working days before introducing a new **price**, give written notice to each **consumer** by whom that **price** is payable, the information specified in clause 2.4.18 above in respect of that **price**.

Annual disclosure of information on quantities and revenues billed

- 2.4.21 Within 5 months <u>afterof</u> the end of each **disclosure year**, every **EDB** must **publicly disclose** the Report on Billed Quantities and Line Charge Revenues in Schedule 8.
- 2.4.22 If **prices** differ between **sub-networks**, a separate Schedule 8 must be completed and **publicly disclosed** for each **sub-network**.

Disclosure of financial distributions arising from ownership interest

- 2.4.23 At the time an EDB makes a financial distribution to a community trust, customer trust or customer co-operative and recommends how that financial distribution should be allocated amongst consumers, including where the EDB makes the allocation on behalf of the community trust, customer trust or customer cooperative, the EDB must pPublicly disclose -
 - (1) Publicly disclose the allocation methodology it used to make the recommendation or allocation
 - (1)(2) the value of the financial distribution; and
 - (2)(3) State—whether the EDB or the community trust, customer trust or customer cooperative made the allocation.

2.4.24 The description in clause 2.4.23 must provide sufficient detail that **consumers** can accurately determine their entitlement.

2.5 NON-FINANCIAL INFORMATION RELATING TO NETWORK ASSETS

- 2.5.1 Within 5 months after the end of each disclosure year, every EDB must—
 - (1) Complete each of the following reports by inserting all information relating to the electricity distribution services supplied by the EDB for the disclosure years provided for in the following reports-
 - (a) the Asset Register set out in Schedule 9a;
 - (b) the Asset Age Profile set out in Schedule 9b;
 - (c) the Report on Overhead Lines and Underground Cables set out in Schedule 9c;
 - (d) the Report on Embedded Networks set out in Schedule 9d;
 - (e) the Report on Network Demand set out in Schedule 9e;
 - (e)(f) the Report on Network Reliability set out in Schedule 10; and
 - (f)(2) **publicly disclose each of** these reports.
- 2.5.2 If an EDB has sub-networks, within 5 months after the end of each disclosure year, an EDB must—
 - (2)(1) complete each of the following reports by inserting all information relating to the **electricity distribution services** supplied by the **EDB** in relation to each **sub-network** for the **disclosure years** provided for in the **following** reports-
 - (a) the Assets Register set out in Schedule 9a;
 - (b) the Report on Asset Age Profile set out in Schedule 9b;
 - (c) the Report on Overhead Lines and Underground Cables set out in Schedule 9c;
 - (d) the Report on Network Demand set out in Schedule 9e; and
 - (d)(e) the Report on Network Reliability set out in Schedule 10; and

(e)(2) publicly disclose each of these reports.

- 2.5.2 Within 5 months after the end of each disclosure year, every EDB must-
- (1) Complete the Report on Network Reliability set out in Schedule 10 by inserting all information relating to the electricity distribution services supplied by the EDB for the disclosure years provided for in the report, and publicly disclose this report;
- (2) If the **EDB** has **sub-networks**, complete the Report on Network Reliability set out in Schedule 10 by inserting all information relating to the **electricity distribution services** supplied by the **EDB** in relation to each **sub-network** for the **disclosure years**provided for in the report, and **publicly disclose** this report.

2.6 ASSET MANAGEMENT PLANS AND FORECAST INFORMATION

Disclosure relating to asset management plans and forecast information

- 2.6.1 Subject to clause 2.6.3 below, before the start of each disclosure year commencing with the disclosure year 2014, every EDB must-
 - 2.6.1 (1) Ceomplete and publicly disclose an AMP that—
 - (1) (a) rRelates to the **electricity distribution services** supplied by the **EDB**;
 - (b) mMeets the purposes of AMP disclosure set out in clause 2.6.2;
 - (2) (c) hHas been prepared in accordance with Attachment A to this determination;
 - (d) <u>c</u>Contains the information set out in the <u>schedules</u> completed tables required described in clause <u>2.6.62.6.5</u>;
 - (e) cContains the Report on Asset Management Maturity as described set out in Schedule 13;-
 - (2) Complete the Report on Asset Management Maturity in accordance with the requirements specified in Schedule 13; and
 - (3) Publicly disclose the AMP.
- 2.6.2 The purposes of **AMP** disclosure referred to in <u>sub</u>clause <u>2.6.1(1)(b)2.6.1(2)</u> are that the **AMP**
 - (1) Must provide sufficient information for an interested **persons** to assess whether-
 - (a) assets are being managed for the long term;

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

60

- (b) the required level of performance is being delivered; and
- (c) costs are efficient and performance efficiencies are being achieved;
- (2) Must be capable of being understood by an-interested **persons** with a reasonable understanding of the management of infrastructure assets;
- (3) Should provide a sound basis for the ongoing assessment of asset-related risks, particularly high impact asset-related risks.
- 2.6.3 Subject to clause 2.6.4, Aan EDB may elect to complete and publicly disclose an AMP update, as described under clause 2.6.5, before the start of a disclosure year, instead of an AMP, as described under clause 2.6.1(1), unless If—
- 2.6.42.6.3 <u>t</u>The start of thate **disclosure year** is described in clause 2.6.1 above is not either;
 - (1) one year after the start of the **DPP regulatory period**; or
 - (2) two years before the start of the next **DPP regulatory period**; and if
- 2.6.5 AnTthe EDB must not complete and has publicly disclosed an AMP update instead of an AMP if it has not previously publicly disclosed an AMP under clause 2.6.1. above in respect of a prior disclosure year, then the EDB may—
- 2.6.6 Elect to not comply with clause 2.6.1 in the current disclosure year; and
- 2.6.72.6.4 Completes and publicly discloses, before the start of the disclosure year, an AMP update under clause 2.6.4 below.
- 2.6.82.6.5 For the purpose of subclause 2.6.32.6.3(4), the AMP update must—
 - (1) Relate to the **electricity distribution services** supplied by the **EDB**;
 - (2) Identify any material changes to the network development plans disclosed in the last AMP under clause 11 of Attachment A or in the last AMP update disclosed under this clause section;
 - (3) Identify any material changes to the lifecycle asset management (maintenance and renewal) plans disclosed in the last AMP <u>pursuant tounder</u> clause 12 of Attachment A or in the last AMP update disclosed under this section;

Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Not Bold

- (4) Provide the reasons for any material changes to the previous disclosures in the Report on Forecast Capital Expenditure set out in Schedule 11a and Report on Forecast Operational Expenditure set out in Schedule 11b; and
- (5) Identify any changes to the asset management practices of the **EDB** that would affect a Schedule 13 Report on Asset Management Maturity disclosure; and
- (5)(6) Contains the information set out in the schedules described in clause 2.6.6.-

2.6.92.6.6 Subject to clause 2.13.1, eEvery EDB must—

- (1) Before the start of each disclosure year, complete and publicly disclose each of the following reports by inserting all information relating to the electricity distribution services supplied by the EDB for the disclosure years provided for in the following reports—
 - (a) the Report on Forecast Capital Expenditure in Schedule 11a;
 - (b) the Report on Forecast Operational Expenditure in Schedule 11b;
 - (c) the Report on Asset Condition in Schedule 12a;
 - (d) the Report on Forecast Capacity in Schedule 12b;
 - (e) the Report on Forecast Network Demand in Schedule 12c;
 - (f) the Report on Forecast Interruptions and Duration in Schedule 12d;
- (2) If the EDB has sub-networks, complete and publicly disclose the Report on Forecast Interruptions and Duration set out in Schedule 12deach of the following reports by inserting all information relating to the electricity distribution services supplied by the EDB in relation to each sub-network for the disclosure years provided for in the report on Forecast Interruptions and Duration set out in Schedule 12d;
- (3) Include, in the **AMP** or **AMP update** as applicable, the information contained in each of the reports described in subclause 2.6.5(1) and 2.6.5(2);
- (4) Within 5 working days after publicly disclosing the AMP or AMP update as applicable, disclose the reports described in subclause 2.6.5(1) and 2.6.5(2) to the Commission;
- (5) Within 5 months after the start of the disclosure year, publicly disclose the reports described in subclause 2.6.5(1) and 2.6.5(2).

2.7 EXPLANATORY NOTES TO DISCLOSED INFORMATION

- 2.7.1 Within 5 months <u>afterof</u> the end of each **disclosure year**, every **EDB** must complete and **publicly disclose** the Schedule of Mandatory Explanatory Notes (Schedule 14) by inserting all information relating to information disclosed in accordance with clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1, and <u>subclauses 2.5.1(1)(f) 2.5.2 and 2.5.2(1)(e)-</u>
 - (1) In relation to details of any insurance cover for the assets used to provide **electricity distribution services**, the explanatory notes in Schedule 14 must include-
 - (a) the **EDB**'s approaches and practices in regard to the insurance of assets, including the level of insurance;
 - (b) in respect of any self insurance, the level of reserves, details of how reserves are managed and invested, and details of any reinsurance;
 - (2) Where an item disclosed in accordance with clause 2.3.1 is classified differently from the previous year, the explanatory notes in Schedule 14 must include the-
 - (a) nature of the item reclassified;
 - (b) value of the item in the current **disclosure year** and in the previous **disclosure year**;
 - (c) classification of the item in the previous **disclosure year**;
 - (d) classification of the item in the current **disclosure year**; and
 - (e) reason why the item has been reclassified.

- 2.7.2 Subject to clause 2.13.4, bBefore the start Within 5 months of the end of each disclosure year, every EDB must complete and publicly disclose the Mandatory Explanatory Notes on Forecast Information in Schedule 14a by inserting all relevant information relating to information disclosed in accordance with clause 2.6.62.6.5.
- 2.7.3 Within 5 months <u>afterof</u> the end of each **disclosure year**, every **EDB** may **publicly disclose** any further comments on the information disclosed in accordance with clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1₇ and 2.5.2₇ and 2.6.5, in Schedule 15.

2.8 ASSURANCE REPORTS

- 2.8.1 Where an **EDB** is required to **publicly disclose** any **audited disclosure information**, the **EDB** must-
 - (1) Procure an assurance report by an **independent auditor** in respect of that **audited disclosure information**, that is prepared in accordance with Standard on Assurance Engagements 3100 Compliance Engagements (SAE 3100) and International Standard on Assurance Engagements 3000 (ISAE (NZ) 3000) or their successor standards, signed by the **independent auditor** (either in his or her own name or that of his or her firm), that-
 - (a) is addressed to the **directors** of the **EDB** and to the **Commission** as the intended users of the assurance report;
 - (b) states-
 - that it has been prepared in accordance with Standard on Assurance Engagements 3100 – Compliance Engagements (SAE 3100) and International Standard on Assurance Engagements 3000 (ISAE (NZ) 3000) or their successor standards; and
 - (ii) the work done by the **independent auditor**; and
 - (iii) the scope and limitations of the assurance engagement; and
 - (iv) the existence of any relationship (other than that of auditor) which the independent auditor has with, or any interests which the independent auditor has in, the EDB or any of its subsidiaries; and
 - (v) whether the independent auditor has obtained sufficient recorded evidence and explanations that he or she required and, if not, the information and explanations not obtained; and

64

(vi) whether, in the independent auditor's opinion, as far as appears from an examination, the information used in the preparation of the audited disclosure information has been properly extracted from the EDB's accounting and other records, sourced from its financial and non-financial systems; and

- (vii) whether, in the independent auditor's opinion, as far as appears from an examination of them, proper records to enable the complete and accurate compilation of the audited disclosureed information required by the Electricity Distribution Information Disclosure Determination 2012 have been kept by the EDB and, if not, the records not so kept; and
- (c) states whether (and, if not, the respects in which it has not), in the independent auditor's opinion, the EDB has complied, in all material respects, with the Electricity Distribution Information Disclosure Determination 2012 in preparing the audited disclosure information; and
- (2) Publicly disclose the independent auditor's assurance report prepared in accordance with subclause (1) above at the same time as the EDB publicly discloses the audited disclosure information.

- 2.8.2 Subject to clause 2.8.3, where an EDB publicly discloses information under clause 2.12.1 or 2.12.2 and the EDB was required to procure an assurance report under clause 2.8.1 for the original disclosure, the EDB must procure an assurance report to the information disclosed under clause 2.12.1 or 2.12.2 to the standard of the assurance report procured for the original disclosure.
- 2.8.22.8.3 In applying clause 2.8.2, the assurance required for indirectly affected data and statements disclosures is whether the disclosed error has been corrected and subsequently correctly reflected in the revised indirectly affected data and statements.

2.9 CERTIFICATES

- 2.9.1 <u>Subject to clause 2.13.3, w</u>Where an **EDB** is required to **publicly disclose** any information under clauses 2.4.1, clause 2.6.1, and subclauses 2.6.32.6.3(4), and 2.6.62.6.5(3) and 2.7.2, the **EDB** must at that time **publicly disclose** a certificate in the form set out in Schedule 17 in respect of that information, duly signed by 2 **directors** of the **EDB**.
- Where an **EDB** is required to **publicly disclose**, or disclose to the **Commission**, any information under any of clauses 2.3.1, and 2.3.2, clauses 2.4.21, and 2.4.22, and clauses 2.5.1, and 2.5.2 and, and clauses 2.7.1 and 2.7.2, the **EDB** must at that time **publicly disclose** a certificate in the form set out in Schedule 18 in respect of that information, duly signed by 2 **directors** of the **EDB**.
- 2.9.3 Subject to clause 2.9.4, where an EDB publicly discloses information under clause
 2.12.1 or 2.12.2, the EDB must publicly disclose a certificate under clause 2.12.1 or
 2.12.2 to the standard of the certificate disclosed with the original disclosure.
- 2.9.22.9.4 In applying clause 2.9.3, the certification required for indirectly affected data and statements disclosures is whether the disclosed error has been corrected and subsequently correctly reflected in the revised indirectly affected data and statements.
- 2.9.3 Where an EDB is required to publicly disclose any information under clauses 2.12.1, 2.12.2, 2.12.3, and 2.12.5 the EDB must at that time publicly disclose a certificate in the form set out in Schedule 19 in respect of that information, duly signed by 2 directors of the EDB.

2.10 RETENTION AND CONTINUING DISCLOSURES

2.10.1 An **EDB** that is required by this determination to **publicly disclose** any information must retain, and continuously **publicly disclose**, that information for at least 7 years from the date that information is first required to be **publicly disclosed**.

2.11 EXEMPTIONS

- 2.11.1 The Commission may at any time, by written notice to an EDB-
 - (1) Exempt the **EDB** from any or all of the requirements of this determination, for a period and on such terms and conditions as the **Commission** specifies in the notice; and
 - (2) Amend or revoke any such exemption.

2.12 DISCLOSURE OF ERRORS IN PREVIOUSLY DISCLOSED INFORMATION

- 2.12.1 Subject to clause 2.13.6, within 7 months of identifying a material **error**, an **EDB**must-
 - (1) publicly disclose-
 - (a) a description of the **error** including the quantum of the **error** and an summary of the disclosures, data and statements affected by the **error**;
 - (b) the reason for the error;
 - (c) the data and statements from the **original disclosure** affected by the **error**;
 - (d) in a manner which is consistent with the October 2012 determination including any amendments in effect at the time of the original disclosure, materially correct revised data or statements affected by the error;
 - (e) a certificate in accordance with clause 2.9.3; and
 - (f) where applicable, an assurance report in accordance with clause 2.8.2.
 - (2) disclose the information outlined in subclause (1) when **publicly disclosing** the **original disclosure** in accordance with clause 2.10.1.
- 2.12.2 Subject to clause 2.13.6, if an **EDB** identifies a non-material **error**, an **EDB** may, within 7 months of identifying the non-material **error**, **publicly disclose** it in accordance with clause 2.12.1.
- 2.12.3 Information disclosed in accordance with this determination that refers to or relies on information contained in a previous disclosure must be consistent with the

- previous disclosure, unless an **error** disclosure related to that information has been made in accordance with clause 2.12.1 or 2.12.2.
- 2.12.4 Information disclosed after an error disclosure is made in accordance with clause
 2.12.1 or 2.12.2 must be consistent with the error disclosure made in accordance with clause 2.12.1 or 2.12.2.

2.13 TRANSITIONAL PROVISIONS

- 2.13.1 For the disclosure year 2016, in complying with the requirements set out in clause
 2.6.6, every EDB must comply with the requirements specified in subclauses 2.6.5(1),
 2.6.5(2) and 2.6.5(4) of the October 2012 determination (in the form of the reports set out therein), instead of the requirements set out in clause 2.6.6 of this determination.
 - (1) When completing the reports specified in subclauses 2.6.5(1) and 2.6.5(2) of the **October 2012 determination**, every **EDB** must use definitions from clause 1.4.3 and Schedule 16 of the **October 2012 determination**.
- 2.13.2 Before the start of disclosure year 2016 or within five months of the start of disclosure year 2016, every EDB must publicly disclose the completed reports specified in subclauses 2.6.5(1) and 2.6.5(2) of the October 2012 determination (in the form of the reports set out therein).
- 2.13.3 For the disclosure year 2016, in complying with the requirements set out in clause 2.9.1, every EDB must comply with either the requirements specified in clause 2.9.1 of the October 2012 determination (in the form of the certificate set out therein), or the requirements set out in clause 2.9.1 of this determination.
- 2.13.4 For the disclosure year 2016, in complying with the requirements set out in clause 2.7.2, every EDB must complete and publicly disclose the explanatory notes either before the start of disclosure year 2016, or within five months of the start of disclosure year 2016.
 - (1) If an EDB elects to complete the explanatory notes before the start of

 disclosure year 2016, the EDB must complete and publicly disclose either the
 explanatory notes specified in Schedule 14a of the October 2012
 determination or the explanatory notes specified in Schedule 14a of this
 determination.

- 2.13.5 For the disclosure year 2015 and disclosure year 2016, in completing the Report on Return on Investment set out in Schedule 2, every EDB must calculate the following CY-1 and CY-2 disclosures in accordance with this determination-
 - (1) ROI comparable to a post tax WACC reflecting all revenue earned;
 - (2) ROI comparable to a post tax WACC excluding revenue earned from financial incentives;
 - (3) ROI comparable to a post tax WACC excluding revenue earned from financial incentives and wash-ups;
 - (4) ROI comparable to a vanilla WACC reflecting all revenue earned;
 - (5) ROI comparable to a vanilla WACC excluding revenue earned from financial incentives; and
 - (6) ROI comparable to a vanilla WACC excluding revenue earned from financial incentives and wash-ups.
- 2.13.6 In complying with clauses 2.12.1 and 2.12.2 before 1 September 2015, EDBs must publicly disclose the information described in clause 2.12.1 either before 1
 September 2015 or within 7 months of identifying the material or non-material error.
 - (3)—

2.12 TRANSITIONAL PROVISIONS

- 2.12.1 Subject to clause 2.12.4 below, within 5 months after the end of the disclosure year 2013, the EDB must-
 - (1) Complete the Report on Transitional Financial Information set out in Schedule

 5h:
 - (2) Complete the Report on Asset Allocations set out in Schedule 5e for the 2010, 2011 and 2012 disclosure years by inserting all information relating to the asset allocation for the total opening RAB values disclosed in Schedule 5h for these disclosure years. In completing 5e(i) of Schedule 5e for the disclosure years 2010, 2011, and 2012 an EDB may choose to disclose all allocations under other network assets;

- (3) Subject to subclause (6) complete the Report on Regulatory Profit in Schedule 3, for the **disclosure year** 2012;
- (4) Complete the report on Related Party Transactions in Schedule 5b with respect to assets acquired from a related party;
- (5) Publicly disclose those reports;
- (6) In complying with subclause (3) above and clause 2.12.5(1)(b) the cost of any service, good, or asset acquired from, or **price** of any service, good or asset sold to a **related party**, must be determined as follows-
 - (a) the cost of any asset acquired from a related party must be determined in accordance with clause 2.2.11 (e)—(g) of the IM determination;
 - (b) the cost of any services or goods other than assets, acquired from a related party, must be determined in accordance with GAAP;
 - (c) the price received for any sale or supply of services, goods or assets to a related party must be determined in accordance with GAAP;
- (7) Provide explanatory comment in Schedule 14b in relation to transitional financial information disclosed under this clause.
- 2.12.2 Within 5 months after the end of the **disclosure year** 2013, the **EDB** must complete the Report on Billed Quantities and Line Charge Revenues set out in Schedule 8 for the **disclosure year** 2012;
- 2.12.3 Subject to clause 2.12.4, where an **EDB** elects to undertake an adjustment in accordance with clause 2.2.1 of the **IM-determination**, within 5 months of the **disclosure year** 2013 the **EDB** must-
 - (1) Complete the Report on Initial RAB Adjustment set out in Schedule 5i;
 - (2) Procure a written engineer's report that complies with the requirements specified in Attachment C; and
 - (3) Publicly disclose those reports.

- 2.12.4 Where an **EDB** has disclosed information to the **Commission** on the **initial RAB** and asset adjustment process as provided for under clauses 2.2.1 to 2.2.3 of the **IM determination**, the information disclosed in accordance with subclause 2.12.3(1) above must be consistent with that disclosure.
- 2.12.5 The following transitional provisions apply in respect of the disclosure year 2013-
 - (1) In completing the Report on Return on Investment set out in Schedule 2-
 - (a) the **EDB** is not required to disclose information relating to CY-2;
 - (b) the **EDB**-must disclose information in part 2(i) of Schedule 2 relating to CY-1, for the **disclosure year** 2012;
 - (2)——In completing the Report on the Value of the Regulatory Asset Base (Rolled Forward) set out in Schedule 4-
 - (a) the **EDB** is not required to provide information relating to CY-4, in part 4(i) of Schedule 4;
 - (b) the **EDB** may disclose only 'Total closing RAB value' for each asset category;
 - (3) In completing the Report on Cost Allocations set out in Schedule 5d and the Report Supporting Cost Allocations set out in Schedule 5f, the **EDB** may disclose all allocations under systems operation and network support;
 - (4) In completing the Report on Asset Allocations set out in Schedule 5e and the Report Supporting Asset Allocations set out in Schedule 5g, the **EDB** may disclose all allocations under **non-network assets**;
 - (5) In part 6(i) of the Report on Capital Expenditure for the Disclosure Year set out in Schedule 6a, and part 7(ii) of the Comparison of Forecasts to Actual Expenditure set out in Schedule 7-
 - (a) 'reliability, safety and environment' (as defined in the **2008** requirements), must be disclosed as quality of supply;
 - (b) legislative and regulatory is not required to be separately disclosed;
 - (c) **other reliability safety and environment** is not required to be separately disclosed;
 - (d) 'non-system fixed assets' (as defined in the **2008 requirements**), must be disclosed as **non-network assets**;

- (6) In 6a(ii) of the Report on Capital Expenditure for the Disclosure Year set out in Schedule 6a, and 7(iv) of the Comparison of Forecasts to Actual Expenditure set out in Schedule 7 only 'Overhead to underground conversion' must be disclosed:
- (7) In the Report on Capital Expenditure for the Disclosure Year set out in Schedule 6a, information for 6a(iii) 6a(ix) is not required to be disclosed;
- (8) In the Report on Operational Expenditure for the Disclosure Year set out in Schedule 6b, and 7(iii) of the Comparison of Forecasts to Actual Expenditure set out in Schedule 7-
 - (a) 'fault and emergency maintenance ' (as defined in the **2008**requirements), must be disclosed as service interruptions and emergencies;
 - (b) vegetation management is not required to be separately disclosed;
 - (c) 'routine and preventative maintenance' (as defined in the 2008 requirements), must be disclosed as routine and corrective maintenance and inspection;
 - (d) 'refurbishment and renewal maintenance' (as defined in the 2008 requirements) must be disclosed as asset replacement and renewal operating expenditure;
 - (e) 'system management and operations' (as defined in the 2008 requirements), must be disclosed as system operations and network support;
 - (f) 'general management, administration and overheads' (as defined in the **2008 requirements**), must be disclosed as **business support**;
 - (g) Energy efficiency and demand side management, reduction of energy losses; insurance; research and development; and direct billing are not required to be separately disclosed;
- (9) In completing the Comparison of Forecasts to Actual Expenditure set out in Schedule 7, only the following information needs to be disclosed-
 - (a) part 7(i);
 - (b) forecast 'capital expenditure on asset management' for the 2013 disclosure year (as defined in the 2008 requirements) must be

72

disclosed as Expenditure on Network Assets in the forecast expenditure column of section 7(ii);

- (c) forecast 'operational expenditure on asset management' for the 2013 disclosure year (as defined in the 2008 requirements) must be disclosed as Network Opex in the forecast expenditure column of section 7(iii);
- (d) Actual expenditure for the 2013 disclosure year must be disclosed in section 7(ii), 7(iii), 7(iv) and 7(v) as required under this determination.

2.12.6 The information required under clauses 2.4.6 and 2.4.9 is not required to be **publicly disclosed** for the first time until 5 months after the **commencement date**.

COMMERCE COMMISSION

Attachment A Asset Management Plans

This attachment sets out the mandatory disclosure requirements with respect to **AMP**s. The text in italics provides a commentary on those requirements. The purpose of the commentary is to provide guidance on the expected content of disclosed **AMP**s. The commentary has been prepared on the basis that **EDB**s will implement best practice asset management processes.

AMP design

- 1. The core elements of asset management—
 - 1.1 A focus on measuring **network** performance, and managing the assets to achieve service targets;
 - 1.2 Monitoring and continuously improving asset management practices;
 - 1.3 Close alignment with corporate vision and strategy;
 - 1.4 That asset management is driven by clearly defined strategies, business objectives and service level targets;
 - 1.5 That responsibilities and accountabilities for asset management are clearly assigned;
 - 1.6 An emphasis on knowledge of what assets are owned and why, the location of the assets and the condition of the assets;
 - 1.7 An emphasis on optimising asset utilisation and performance;
 - 1.8 That a total life cycle approach should be taken to asset management;
 - 1.9 That the use of 'non-network' solutions and demand management techniques as alternatives to asset acquisition is considered.
- 2. The disclosure requirements are designed to produce AMPs that—
 - 2.1 Are based on, but are not limited to, the core elements of asset management identified in clause 1-above;
 - 2.2 Are clearly documented and made available to all stakeholders;
 - 2.3 Contain sufficient information to allow interested persons to make an informed judgement about the extent to which the EDB's asset management processes meet best practice criteria and outcomes are consistent with outcomes produced in competitive markets;
 - 2.4 Specifically support the achievement of disclosed service level targets;
 - 2.5 Emphasise knowledge of the performance and risks of assets and identify opportunities to improve performance and provide a sound basis for ongoing risk assessment;

Formatted: Font: Bold

- 2.6 Consider the mechanics of delivery including resourcing;
- 2.7 Consider the organisational structure and capability necessary to deliver the **AMP**;
- 2.8 Consider the organisational and contractor competencies and any training requirements;
- 2.9 Consider the systems, integration and information management necessary to deliver the plans;
- 2.10 To the extent practical, use unambiguous and consistent definitions of asset management processes and terminology consistent with the terms used in this attachment to enhance comparability of asset management practices over time and between EDBs; and
- 2.11 Promote continual improvements to asset management practices.

Disclosing an **AMP** does not constrain an **EDB** from managing its assets in a way that differs from the **AMP** if its circumstances change after preparing the plan or if the **EDB** adopts improved asset management practices.

Contents of the AMP

- 3. The AMP must include the following-
 - 3.1 A summary that provides a brief overview of the contents and highlights information that the **EDB** considers significant;
 - 3.2 Details of the background and objectives of the **EDB**'s asset management and planning processes;
 - 3.3 A purpose statement which-
 - 3.3.1 makes clear the purpose and status of the AMP in the EDB's asset management practices. The purpose statement must also include a statement of the objectives of the asset management and planning processes;
 - 3.3.2 states the corporate mission or vision as it relates to asset management;
 - 3.3.3 identifies the documented plans produced as outputs of the annual business planning process adopted by the **EDB**;
 - 3.3.4 states how the different documented plans relate to one another, with particular reference to any plans specifically dealing with asset management; and

3.3.5 includes a description of the interaction between the objectives of the **AMP** and other corporate goals, business planning processes, and plans;

The purpose statement should be consistent with the **EDB**'s vision and mission statements, and show a clear recognition of stakeholder interest.

3.4 Details of the AMP planning period, which must cover at least a projected period of 10 years commencing with the disclosure year following the date on which the AMP is disclosed;

Good asset management practice recognises the greater accuracy of short-to-medium term planning, and will allow for this in the **AMP**. The asset management planning information for the second 5 years of the **AMP planning period** need not be presented in the same detail as the first 5 years.

- 3.5 The date that it was approved by the **directors**;
- 3.6 A description of stakeholder interests (owners, **consumers** etc) which identifies important stakeholders and indicates-
 - 3.6.1 how the interests of stakeholders are identified
 - 3.6.2 what these interests are;
 - 3.6.3 how these interests are accommodated in asset management practices; and
 - 3.6.4 how conflicting interests are managed;
- 3.7 A description of the accountabilities and responsibilities for asset management on at least 3 levels, including-
 - 3.7.1 governance—a description of the extent of director approval required for key asset management decisions and the extent to which asset management outcomes are regularly reported to directors;
 - 3.7.2 executive—an indication of how the in-house asset management and planning organisation is structured; and
 - 3.7.3 field operations—an overview of how field operations are managed, including a description of the extent to which field work is undertaken in-house and the areas where outsourced contractors are used;
- 3.8 All significant assumptions-
 - 3.8.1 quantified where possible;

3.8.2 clearly identified in a manner that makes their significance understandable to interested **persons**, including:

Formatted: Font: Bold

- 3.8.3 a description of changes proposed where the information is not based on the **EDB**'s existing business;
- 3.8.4 the sources of uncertainty and the potential effect of the uncertainty on the prospective information; and
- 3.8.5 the price inflator assumptions used to prepare the financial information disclosed in **nominal New Zealand dollars** in the Report on Forecast Capital Expenditure set out in Schedule 11a and the Report on Forecast Operational Expenditure set out in Schedule 11b-;
- 3.9 A description of the factors that may lead to a material difference between the prospective information disclosed and the corresponding actual information recorded in future disclosures;
- 3.10 An overview of asset management strategy and delivery;

To support the <u>Report on Asset Management Maturity</u> <u>AMMAT</u> disclosure and assist interested <u>persons</u> to assess the maturity of asset management strategy and delivery, the <u>AMP</u> should identify-

- how the asset management strategy is consistent with the EDB's other strategy and policies;
- how the asset strategy takes into account the life cycle of the assets;
- the link between the asset management strategy and the AMP;
 and
- processes that ensure costs, risks and system performance will be effectively controlled when the AMP is implemented.
- 3.11 An overview of systems and information management data;

To support the <u>Report on Asset Management Maturity</u> AMMAT disclosure and assist interested **persons** to assess the maturity of systems and information management, the **AMP** should describe-

- the processes used to identify asset management data requirements that cover the whole of life cycle of the assets;
- the systems used to manage asset data and where the data is used, including an overview of the systems to record asset conditions and operation capacity and to monitor the performance of assets;

Formatted: Font: Bold

- the systems and controls to ensure the quality and accuracy of asset management information; and
- the extent to which these systems, processes and controls are integrated.
- 3.12 A statement covering any limitations in the availability or completeness of asset management data and disclose any initiatives intended to improve the quality of this data;

Discussion of the limitations of asset management data is intended to enhance the transparency of the **AMP** and identify gaps in the asset management system.

- 3.13 A description of the processes used within the EDB for-
 - 3.13.1 managing routine asset inspections and network maintenance;
 - 3.13.2 planning and implementing **network** development projects; and
 - 3.13.3 measuring network performance-;
- 3.14 An overview of asset management documentation, controls and review processes.

To support the <u>Report on Asset Management Maturity-AMMAT</u> disclosure and assist interested **persons** to assess the maturity of asset management documentation, controls and review processes, the **AMP** should-

- (i) identify the documentation that describes the key components of the asset management system and the links between the key components;
- (ii) describe the processes developed around documentation, control and review of key components of the asset management system;
- (iii) where the **EDB** outsources components of the asset management system, the processes and controls that the **EDB** uses to ensure efficient and cost effective delivery of its asset management strategy;
- (iv) where the **EDB** outsources components of the asset management system, the systems it uses to retain core asset knowledge in-house; and

- (v) audit or review procedures undertaken in respect of the asset management system.
- 3.15 An overview of communication and participation processes;

To support the <u>Report on Asset Management Maturity-AMMAT</u> disclosure and assist interested **persons** to assess the maturity of asset management documentation, controls and review processes, the **AMP** should-

- (i) communicate asset management strategies, objectives, policies and plans to stakeholders involved in the delivery of the asset management requirements, including contractors and consultants; and
- (ii) demonstrate staff engagement in the efficient and cost effective delivery of the asset management requirements.
- 3.16 The **AMP** must present all financial values in **constant price**New Zealand dollars except where specified otherwise; and
- 3.17 The **AMP** must be structured and presented in a way that the **EDB** considers will support the purposes of **AMP** disclosure set out in clause 2.6.2 of the determination.

Assets covered

- 4. The AMP must provide details of the assets covered, including-
 - 4.1 a high-level description of the service areas covered by the **EDB** and the degree to which these are interlinked, including-
 - 4.1.1 the region(s) covered;
 - 4.1.2 identification of large **consumers** that have a significant impact on **network** operations or asset management priorities;
 - 4.1.3 description of the load characteristics for different parts of the **network**;
 - 4.1.4 peak demand and total energy delivered in the previous year, broken down by **sub-network**, if any.
 - 4.2 a description of the **network** configuration, including-
 - 4.2.1 identifying bulk electricity supply points and any **distributed generation** with a capacity greater than 1 MW. State the existing firm supply capacity and current peak load of each bulk electricity supply point;

Formatted: Font: Bold

Formatted: Font: Not Bold

- 4.2.2 a description of the **subtransmission** system fed from the bulk electricity supply points, including the capacity of **zone substations** and the voltage(s) of the **subtransmission network**(s). The **AMP** must identify the supply security provided at individual **zone substations**, by describing the extent to which each has n-x **subtransmission** security or by providing alternative security class ratings;
- 4.2.3 a description of the distribution system, including the extent to which it is underground;
- 4.2.4 a brief description of the **network**'s distribution substation arrangements;
- 4.2.5 a description of the **low voltage network** including the extent to which it is underground; and
- 4.2.6 an overview of **secondary assets** such as protection relays, ripple injection systems, SCADA and telecommunications systems.

To help clarify the **network** descriptions, **network** maps and a single line diagram of the **subtransmission network** should be made available to interested **persons**. These may be provided in the **AMP** or, alternatively, made available upon request with a statement to this effect made in the **AMP**.

4.3 If **sub-networks** exist, the **network** configuration information referred to in **sub**clause 4.2 **above** must be disclosed for each **sub-network**.

Network assets by category

- 4.4 The **AMP** must describe the **network** assets by providing the following information for each asset category-
 - 4.4.1 voltage levels;
 - 4.4.2 description and quantity of assets;
 - 4.4.3 age profiles; and
 - 4.4.4 a discussion of the condition of the assets, further broken down into more detailed categories as considered appropriate.
 Systemic issues leading to the premature replacement of assets or parts of assets should be discussed.
- 4.5 The asset categories discussed in subclause 4.4 above should include at least the following-

Formatted: Font: Bold

Formatted: Font: Bold

4.5.1 <u>the categories listed in the Report on Forecast Capital</u>
<u>Expenditure in Schedule 11a(iii)</u>Sub transmission;

4.5.2 Zone substations:

4.5.3 Distribution and LV lines:

4.5.4 Distribution and LV cables;

4.5.5 Distribution substations and transformers:

4.5.6 Distribution switchgear;

4.5.7—Other system fixed assets;

4.5.8—Other assets:

4.5.94.5.2 assets owned by the **EDB** but installed at bulk electricity supply points owned by others;

4.5.104.5.3 **EDB** owned mobile substations and generators whose function is to increase supply reliability or reduce peak demand; and

4.5.114.5.4 other generation plant owned by the **EDB**.

Service Levels

- 5. The AMP must clearly identify or define a set of performance indicators for which annual performance targets have been defined. The annual performance targets must be consistent with business strategies and asset management objectives and be provided for each year of the AMP planning period. The targets should reflect what is practically achievable given the current network configuration, condition and planned expenditure levels. The targets should be disclosed for each year of the AMP planning period.
- 6. Performance indicators for which targets have been defined in clause 5 above must include SAIDI values and SAIFI values for the next 5 disclosure years.
- 7. Performance indicators for which targets have been defined in clause 5 above should also include-
 - 7.1 **Consumer** oriented indicators that preferably differentiate between different consumer types; and
 - 7.2 Indicators of asset performance, asset efficiency and effectiveness, and service efficiency, such as technical and financial performance indicators related to the efficiency of asset utilisation and operation.
- 8. The **AMP** must describe the basis on which the target level for each performance indicator was determined. Justification for target levels of

Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold
Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

service includes **consumer** expectations or demands, legislative, regulatory, and other stakeholders' requirements or considerations. The **AMP** should demonstrate how stakeholder needs were ascertained and translated into service level targets.

- 9. Targets should be compared to historic values where available to provide context and scale to the reader.
- 10. Where forecast expenditure is expected to materially affect performance against a target defined in clause 5-above, the target should be consistent with the expected change in the level of performance.

Performance against target must be monitored for disclosure in the Evaluation of Performance section of each subsequent **AMP**.

Network Development Planning

- AMPs must provide a detailed description of network development plans, including—
 - 11.1 A description of the planning criteria and assumptions for **network** development;
 - 11.2 Planning criteria for **network** developments should be described logically and succinctly. Where probabilistic or scenario-based planning techniques are used, this should be indicated and the methodology briefly described;
 - 11.3 A description of strategies or processes (if any) used by the **EDB** that promote cost efficiency including through the use of standardised assets and designs;
 - 11.4 The use of standardised designs may lead to improved cost efficiencies. This section should discuss-
 - 11.4.1 the categories of assets and designs that are standardised; and
 - 11.4.2 the approach used to identify standard designs;
 - 11.5 A description of strategies or processes (if any) used by the **EDB** that promote the energy efficient operation of the **network**:
 - The energy efficient operation of the **network** could be promoted, for example, though **network** design strategies, demand side management strategies and asset purchasing strategies.
 - 11.6 A description of the criteria used to determine the capacity of equipment for different types of assets or different parts of the network;.

- The criteria described should relate to the **EDB**'s philosophy in managing planning risks.
- 11.7 A description of the process and criteria used to prioritise **network** development projects and how these processes and criteria align with the overall corporate goals and vision:
- 11.8 Details of demand forecasts, the basis on which they are derived, and the specific **network** locations where constraints are expected due to forecast increases in demand;
 - 11.8.1 explain the load forecasting methodology and indicate all the factors used in preparing the load estimates;
 - 11.8.2 provide separate forecasts to at least the **zone substation** level covering at least a minimum five year forecast period. Discuss how uncertain but substantial individual projects/developments that affect load are taken into account in the forecasts, making clear the extent to which these uncertain increases in demand are reflected in the forecasts;
 - 11.8.3 identify any **network** or equipment constraints that may arise due to the anticipated growth in demand during the **AMP planning period**; and
 - 11.8.4 discuss the impact on the load forecasts of any anticipated levels of **distributed generation** in a **network**, and the projected impact of any demand management initiatives:
- 11.9 Analysis of the significant **network** level development options identified and details of the decisions made to satisfy and meet target levels of service, including-
 - 11.9.1 the reasons for choosing a selected option for projects where decisions have been made;
 - 11.9.2 the alternative options considered for projects that are planned to start in the next five years and the potential for non-network solutions described; and
 - 11.9.3 consideration of planned innovations that improve efficiencies within the **network**, such as improved utilisation, extended asset lives, and deferred investment;
- 11.10 A description and identification of the **network** development programme including **distributed generation** and non-network solutions and actions to be taken, including associated expenditure projections. The **network** development plan must include-

- 11.10.1 a detailed description of the material projects and a summary description of the non-material projects currently underway or planned to start within the next 12 months;
- 11.10.2 a summary description of the programmes and projects planned for the following four years (where known); and
- 11.10.3 an overview of the material projects being considered for the remainder of the **AMP planning period**;

For projects included in the **AMP** where decisions have been made, the reasons for choosing the selected option should be stated which should include how target levels of service will be impacted. For other projects planned to start in the next five years, alternative options should be discussed, including the potential for non-network approaches to be more cost effective than **network** augmentations.

- 11.11 A description of the **EDB**'s policies on **distributed generation**, including the policies for connecting **distributed generation**. The impact of such generation on **network** development plans must also be stated; and
- 11.12 A description of the **EDB**'s policies on non-network solutions, including-
 - 11.12.1 economically feasible and practical alternatives to conventional **network** augmentation. These are typically approaches that would reduce **network** demand and/or improve asset utilisation; and
 - 11.12.2 the potential for non-network solutions to address **network** problems or constraints.

Lifecycle Asset Management Planning (Maintenance and Renewal)

- 12. The **AMP** must provide a detailed description of the lifecycle asset management processes, including—
 - 12.1 The key drivers for maintenance planning and assumptions;
 - 12.2 Identification of routine and corrective maintenance and inspection policies and programmes and actions to be taken for each asset category, including associated expenditure projections. This must include-
 - 12.2.1 the approach to inspecting and maintaining each category of assets, including a description of the types of inspections, tests and condition monitoring carried out and the intervals at which this is done;

- 12.2.2 any systemic problems identified with any particular asset types and the proposed actions to address these problems; and
- 12.2.3 budgets for maintenance activities broken down by asset category for the **AMP planning period**:
- 12.3 Identification of **asset replacement and renewal** policies and programmes and actions to be taken for each asset category, including associated expenditure projections. This must include-
 - 12.3.1 the processes used to decide when and whether an asset is replaced or refurbished, including a description of the factors on which decisions are based, and consideration of future demands on the **network** and the optimum use of existing **network** assets;

12.3.2 a description of innovations made that have deferred asset replacements;

- 12.3.3 a description of the projects currently underway or planned for the next 12 months;
- 12.3.4 a summary of the projects planned for the following four years (where known); and
- 12.3.5 an overview of other work being considered for the remainder of the AMP planning period; and-
- 12.4 The asset categories discussed in subclauses 12.2 and 12.3 above should include at least the categories in subclause 4.5 above.

Non-Network Development, Maintenance and Renewal

- 13. **AMP**s must provide a summary description of material non-network development, maintenance and renewal plans, including—
 - 13.1 a description of **non-network assets**;
 - 13.2 development, maintenance and renewal policies that cover them;
 - 13.3 a description of material **capital expenditure** projects (where known) planned for the next five years; and
 - 13.4 a description of material maintenance and renewal projects (where known) planned for the next five years.

Risk Management

14. **AMP**s must provide details of risk policies, assessment, and mitigation, including—

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

- 14.1 Methods, details and conclusions of risk analysis;
- 14.2 Strategies used to identify areas of the **network** that are vulnerable to high impact low probability events and a description of the resilience of the **network** and asset management systems to such events;
- 14.3 A description of the policies to mitigate or manage the risks of events identified in subclause 16.214.2; and
- 14.4 Details of emergency response and contingency plans.

Asset risk management forms a component of an **EDB**'s overall risk management plan or policy, focusing on the risks to assets and maintaining service levels. **AMPs** should demonstrate how the **EDB** identifies and assesses asset related risks and describe the main risks within the **network**. The focus should be on credible low-probability, high-impact risks. Risk evaluation may highlight the need for specific development projects or maintenance programmes. Where this is the case, the resulting projects or actions should be discussed, linking back to the development plan or maintenance programme.

Evaluation of performance

- 15. **AMP**s must provide details of performance measurement, evaluation, and improvement, including—
 - 15.1 A review of progress against plan, both physical and financial;
 - referring to the most recent disclosures made under Section 2.6
 of this determination, discussing any significant differences and
 highlighting reasons for substantial variances;
 - commenting on the progress of development projects against that planned in the previous AMP and provide reasons for substantial variances along with any significant construction or other problems experienced; and
 - commenting on progress against maintenance initiatives and programmes and discuss the effectiveness of these programmes noted.
 - 15.2 An evaluation and comparison of actual service level performance against targeted performance;
 - in particular, comparing the actual and target service level performance for all the targets discussed under the Service Levels section of the AMP in the previous AMP and explain any significant variances;

- 15.3 An evaluation and comparison of the results of the asset management maturity assessment disclosed in the Report on Asset Management Maturity set out in Schedule 13 against relevant objectives of the EDB's asset management and planning processes.
- 15.4 An analysis of gaps identified in subclauses 15.2 and 15.3 above.

 Where significant gaps exist (not caused by one-off factors), the AMP must describe any planned initiatives to address the situation.

Capability to deliver

- 16. AMPs must describe the processes used by the EDB to ensure that-
 - The **AMP** is realistic and the objectives set out in the plan can be achieved; and
 - 16.2 The organisation structure and the processes for authorisation and business capabilities will support the implementation of the AMP plans.

Attachment B Calculation of Normalised SAIDI and SAIFI

- This attachment sets out the calculation of normalised SAIDI and normalised SAIFI for use in calculating these statistics for disclosures under Schedule 10.
- 2. In order for an **EDB** to calculate its normalised SAIDI and normalised SAIFI, the **EDB** must undertake the steps set out below-

Formatted: Font: Not Bold
Formatted: Font: Not Bold

Develop a non-zero dataset

 Construct a non-zero dataset containing only those days from the reference dataset where the daily SAIDI value is greater than zero (i.e. exclude zero SAIDI days).

Formatted: Font: Bold

Calculate boundary values

4. Using the non-zero dataset, calculate the **SAIDI** boundary value ($B_{\it SAIDI}$) as follows-

Formatted: Font: Bold

5.
$$B_{SAIDI} = e^{(\alpha_{SAIDI} + 2.5\beta_{SAIDI})}$$

- 6. where-
- 7. α_{SAIDI} is the average of the natural logarithm (In) of each daily **SAIDI value** in the non-zero dataset;
- 8. β_{SAIDI} is the standard deviation of the natural logarithm (In) of each daily **SAIDI value** in the non-zero dataset.
- 9. Using the non-zero dataset, calculate the SAIFI boundary value ($B_{\it SAIFI}$) as follows-

Formatted: Font: Bold

10.
$$B_{SAIFI} = e^{(\alpha_{SAIFI} + 2.5\beta_{SAIFI})}$$

- 11. where-
- 12. α_{SAIFI} is the average of the natural logarithm (In) of each daily **SAIFI value** in the non-zero dataset;
- 13. β_{SAIFI} is the standard deviation of the natural logarithm (In) of each daily **SAIFI value** in the non-zero dataset.

Normalise the Assessment Dataset

- 14. For any day in the Aassessment $\underline{\mathbf{Pd}}$ ataset for the disclosure year where the daily **SAIDI value** is greater than B_{SAIDI} -
- Formatted: Font: Bold

15. replace the daily **SAIDI** value with B_{SAIDI} ; and

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

16. replace the daily **SAIFI value** with $B_{\it SAIFI}$ if the daily **SAIFI value** for that day exceeds $B_{\it SAIFI}$.

Calculate Assessed Values

17. The normalised SAIDI value is the sum of daily **SAIDI values** in the **normalised assessment dataset** for the **disclosure year**; and

18. The normalised SAIFI value is the sum of daily **SAIFI values** in the **normalised** assessment dataset for the disclosure year.

Attachment C Information Requirements for Engineer's Report

- The report must be completed by an 'engineer' as defined in clause 1.1.4 of
 the IM determination in respect of the 'asset adjustment process' for setting
 the initial RAB for an EDB as set out in clause 2.2.1 of the IM determination.
- 2. ODV valuation and ODV handbook have the same definition as in the IM determination
 - a. ODV valuation means valuation of an asset as of 31 March 2004 in accordance with the Electricity Information Disclosure Requirements 2004 and the ODV handbook;
 - b. the ODV handbook means the Handbook for Optimised Deprival Valuation of System Fixed Assets of Electricity Lines Businesses published by the Commerce Commission on 30 August 2004 and effective 31 August 2004.

3. The report must-

- (a) be in writing and be accessible in electronic (PDF file-type) format;
- (b) include a copy of the written instructions provided to the engineer by the **EDB**, including any subsequent variations or modifications;
- (c) include a table summarising the various asset value adjustments and corresponding to Schedule A4 of the Information Disclosure Notice Templates:
- (d) provide the minimum information for each category of asset adjustment outlined in Table 1 below, together with such additional information sufficient to allow a reader of the report-
 - (i) to understand the data, information, calculations and assumptions employed in respect of each category of asset adjustment;
 - (ii) to understand the extent to which professional judgement was exercised by the engineer and the effect of that judgement in deriving the resultant asset values; and
 - (iii)—to verify the arithmetical accuracy of the asset adjustment calculations.
- (e) include a signed statement by the engineer that-
 - the rules in the OD handbook have been properly applied for assets which had not had an ODV valuation calculated originally as required by clause 2.2.1 of the IM determination;
 - (ii) where values under **GAAP** have been relied on, those values have been supplied or reviewed by an appropriately qualified party (e.g. accounting practitioner); and

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012 90

(iii) the report meets the requirements of this Attachment B.

able 1: Minimum Information Requirements for Adjustments to Assets

| Category of adjustment | EDB IM cl. ref | Designated asset type | Minimum information requirements |
|-------------------------------|------------------------|-----------------------|--|
| Include load control relay | 2.2.1(2)(a) | Included | Number and description of load control relays Relevant depreciated historic cost of each asset or where sufficient records do not exist to establish this cost, their depreciated carrying value in the general purpose financial statements of the EDB |
| Correct asset register errors | 2.2.1(2)(b) | Included | Description of each asset (or asset type where assets are substantially similar) Value of the asset (or sum value of each similar asset type) as of the day the asset enters the regulatory asset register, being the value that would have resulted from applying the Electricity Information Disclosure Requirements 2004 for assets commissioned prior to 1 April 2004 and from applying the Electricity Distribution (Information Disclosure) Requirements for assets commissioned from 1 April 2004 to 31 March 2009 |
| | | Excluded | Description of each asset (or asset type where assets are substantially similar) Value of each asset (or asset type where assets are substantially similar) as of the day the asset entered the regulatory asset register |
| | | Value modified | Description of each asset (or asset type where assets are substantially similar) and type of error (incorrect asset category, incorrect estimation of quantity, age, category or location now known to be incorrect) Value of each asset (or asset type where assets are substantially similar) as of the day the asset entered the regulatory asset register Calculation of relevant adjustment to value in order to correct for the error Resultant 'modified value' for each asset (or sum value of each similar asset type) as of the day the asset entered the regulatory asset register |

| | | | 3 2 |
|------------------------|------------------------|---|--|
| Category of adjustment | EDB-IM-cl. ref | Designated asset type | Minimum information requirements |
| Re apply existing | 2.2.1(2)(c) | Value modified | Description of each asset (or asset type where assets are substantially similar) |
| multiplier | | | ODV valuation for each asset (or asset type where assets are substantially similar) and multiplier originally applied |
| | | | Description of the more accurate information relating to the application of a multiplier, including supporting facts, data, calculations and assumptions where relevant |
| | | | Calculation of relevant modification to ODV valuation in order to be consistent with the more accurate information |
| | | | Resultant 'modified value' at 2004 ODV value for each asset (or sum value of each similar asset type) |
| Re apply a modified | 2.2.1(2)(d) | Value modified | Description of each asset (or asset type where assets are substantially similar) |
| multiplier | | | ODV valuation for each asset (or asset type where assets are substantially similar) and multiplier originally applied |
| | | | Specification of the alternative multiplier (rugged terrain, business district, rocky ground) and the reason for selecting the value of the multiplier within the range specified in clause 2.2.1(2)(d) of the |
| | | | IM determination |
| | | | Details of supporting facts, data, calculations and assumptions where relevant to support the reason |
| | | | Calculation of relevant modification to ODV valuation in order to be consistent with the modified multiplier |
| | | | Resultant 'modified value' at 2004 ODV value for each asset (or sum value of each similar asset type) |

$\frac{2015}{4} \text{Amendment to the Electricity Distribution Information Disclosure Determination 2012} \\ 93$

| Category of adjustment | EDB IM cl. ref | Designated asset type | Minimum information requirements |
|-----------------------------|------------------------|-----------------------|--|
| Re apply optimisation or | 2.2.1(2)(e) | Included | Description of each asset (or asset type where assets are substantially similar) |
| economic value test | | | Value of each asset in the 2004 ODV Valuation (or asset type where assets are substantially similar) |
| | | | Value of each asset (or asset type where assets are substantially similar) in the ODV Valuation had the assets not been |
| | | | optimised in accordance with paragraphs 2.18 – 2.47 and Appendix B of the ODV Handbook; or |
| | | | subject to the economic value test in accordance with paragraphs 2.59 – 2.65 of the ODV Handbook |
| | | | Value of each asset (or asset type where assets are substantially similar) after reapplying the optimisation or economic value test in light of more up-to-date information that has subsequently become available |
| | | | Details of supporting facts, data, calculations and assumptions where relevant to support the reapplication of the optimisation or economic value test |
| | | | Resultant 'included value' at 2004 ODV value for each asset (or sum value of each similar asset type) |
| | | Excluded | Description of each asset (or asset type where assets are substantially similar) |
| | | | Value of each asset at 2004 ODV value (or asset type where assets are substantially similar) |

$\frac{\textbf{2015}}{\textbf{Amendment to the Electricity Distribution Information Disclosure Determination 2012}}{\textbf{94}}$

| Category of adjustment | EDB IM cl. ref | Designated asset type | Minimum information requirements |
|------------------------|----------------|---|--|
| | | Value modified | Description of each asset (or asset type where assets are substantially similar) |
| | | | Value of each asset in the 2004 ODV Valuation (or asset type where assets are substantially similar) |
| | | | Value of each asset (or asset type where assets are substantially similar) had the assets not been- |
| | | | optimised in accordance with paragraphs 2.18 – 2.47 and Appendix B of the ODV Handbook; or |
| | | | subject to the economic value test in accordance with paragraphs 2.59 – 2.65 of the ODV Handbook |
| | | | Value of each asset (or asset type where assets are substantially similar) after reapplying the optimisation or economic value test in light of more up-to-date information that has subsequently become available |
| | | | Details of supporting facts, data, calculations and assumptions where relevant to support the reapplication of the optimisation or economic value test |
| | | | Resultant 'modified value' at 2004 ODV value for each asset (or sum value of each similar asset type) |
| | | | |

Schedule 1 Analytical Ratios

Schedule 13 Report on Asset Management Maturity

| W | hen required to complete the Report on Asset Management Maturity under clause |
|------------|---|
| <u>2.0</u> | 5 <mark>.1, e</mark> Each <u>EDB must-</u> |
| 1.: | supplier must complete the AMMAT Report. The EDB must ensure that the person responsible for managing network assets (or a similar level individual) in the organisation takes responsibility for completing and maintaining this reporte AMMAT, including- |
| | 1.21.1.1 Organising people within the organisation to answer the questions; |
| | 1.31.1.2 Arranging for all information to be captured in the Report on Asset Management Maturity within the AMMAT; |
| | 1.41.1.3 Reporting to the organisation on the results of the assessment; |
| | 1.51.1.4 Planning the assessment process, which may include- |
| | 1.5.1(a)determining the form the assessment process is to take. ◆ Formatted |
| | In this context, the principal formats are generally taken to be interviews, facilitated groups/panels or a combination of the two; |
| | 4.5.2(b) arranging for appropriate outsourced service providers and stakeholders to act as respondents during the assessment exercise; |
| | 1.5.3(c) providing appropriate pre-assessment communication (and training where appropriate) to ensure that, as a minimum, the proposed respondents are aware of the AMMAT process and the part within it that they are being asked to play; |
| | 1.5.4(d) identifying which questions are to be asked of which respondents. |
| 2. | 1.2 Each EDB must specify in the Report on Asset Management MaturityAMMAT Formatted |
| | Report the standard of asset management practice that the EDB has used as Formatted: Font: Not Bold |
| | the reference standard. |
| <u>3.′</u> | 1.3 <u>fill out the Cells in the following columns in the Report on Asset Management</u> <u>Maturity</u> AMMAT Report set out below must be filled out- |
| | 3.11.3.1 <u>'User guidance'</u> : guidance (if required) on completing each question of the <u>reportAMMAT</u> . |

2015 Amendment to the Electricity Distribution Information Disclosure Determination 2012

137

This column can be used by the person responsible for completing-and-maintaining the Report on Asset Management Maturity-AMMAT to provide guidance to the persons coordinating responses to each question.

Formatted: Indent: Left: 3.79 cm

3.21.3.2 <u>'Evidence—Summary'</u>: the information/evidence used to support the assessed rating.

Formatted

The cells in this column should be completed by persons coordinating responses to each question.

Formatted: Indent: Left: 3.79 cm

3.31.3.3 'Score': the appropriate maturity rating (this must be a whole number between 0 and 4).

Formatted

To meet Report on Asset Management MaturityAMMAT level 4 maturity, the EDB's processes must surpass the standards that must be complied with in an internationally accepted asset management specification. The Report on Asset Management MaturityAMMAT questionnaire has been prepared to conform to the PAS 55 specification. However, a similar specification, if available, may be used for the purpose of disclosure.

Formatted: Indent: Left: 3.79 cm
Formatted: Font: Not Bold

- When disclosing the Report on Asset Management Maturity in the AMP, an EDB
 must include at least the following columns-
 - 2.1 'Question No';
 - 2.2 'Function';
 - 2.3 'Question';
 - 2.4 'Score';
 - 2.5 'Evidence—Summary';
 - 2.6 'Why';
 - 2.7 'Who';
 - 3.4—'Record/documented Information'; and
 - 2.8
 - 2.9 a maturity level column which includes, for each row, the corresponding definition of the maturity level 'score' selected for each 'question'.

4.___

5. Guidance notes on completing the Report on Asset Management Maturity AMMAT

3.1 3.1

3.4.1 Part of the value of a formal asset management system is the definition and standardisation of terms. A common understanding of terms helps interested persons to understand the asset management concepts and processes that apply to the EDB. In particular, it helps the EDB's employees and suppliers to understand and improve asset management concepts and processes.

Formatted: Indent: Left: 1.25 cm

Formatted: Font: Not Italic

Formatted: Indent: Left: 1.25 cm,

Hanging: 1.24 cm

Formatted: Font: Not Bold Formatted: Font: Not Bold

- 3.4.2 For Tthe report AMMAT will not to provide an effective assessment of the maturity of the **EDB**supplier's asset management capability and processes unless, the preparation of the reportAMMAT report ismust be supported by senior management of the EDB.
- 3.4.3 The level of effort required to complete the AMMAreport should be consistent with a gap analysis exercise rather than the level typically involved with an audit for certification.
- -An audit involves a systematic, independent process for the collection and analysis of evidence to support a rating whereas the AMMAreport is intended to be used by providing a reference to supporting evidence or an explanation of the self-assessment.

3.54.5 The level of documentation within an asset management system is expected to be consistent with factors such as the size of the company, complexity of processes and competence of personnel.

The definitions provided in the AMMAreport∓ for each maturity rating should provide sufficient information for an EDB to objectively identify the level currently being achieved by the organisation.

SCHEDULE 13: REPORT ON ASSET MANAGEMENT MATURITY
This schedule requires information on the ED8'S self-assessment of the maturity of its asset management practices.

| Question No. | Function | Question | Score | Evidence—Summary | User Guidance | Why | Who | Record/documented Information |
|--------------|---------------------------------|---|-------|------------------|---------------|---|---|---|
| 3 | Asset management policy | To what extent has an asset management policy been documented, authorised and communicated? | | | | Widely used AM practice standards require an organisation to document, authorise and communicate its asset management policy (eg. as required in PAS 55 para 4.2 i). A key pre-requisite of any robust policy is that the organisation's top management must be seen to endorse and fully support it. Also vital to the effective implementation of the policy, is to tell the appropriate people of its content and their obligations under it. Where an organisation outsources some of its assect-related activities, then these people and their organisations must equally be made aware of the policy's content. Also, there may be other stakeholders, such as regulatory authorities and shareholders who should be made aware of it. | Top management. The management team that has overall responsibility for asset management. | The organisation's asset management policy, its organisational strategic plan, documents indicating how the asset management policy was based upon the needs of the organisation and evidence of communication. |
| 10 | Asset management strategy | What has the organisation done to ensure that its asset management strategy is consistent with other appropriate organisational policies and strategies, and the needs of stakeholders? | | | | In setting an organisation's asset management strategy, it is important that it is consistent with any other policies and strategies that the organisation has and has taken into account the requirements of relevant stakeholders. This question examines to what extent he asset management strategy is consistent with other organisational policies and strategies (eg, as required by PAS 55 para 4.3.1 b) and has taken account of stakeholder requirements as required by PAS 55 para 4.3.1 c). Generally, this will take into account the same polices, strategies and stakeholder requirements as covered in drafting the asset management policy but at a greater level of detail. | responsibility for asset management. | The organisation's asset management strategy document and other related organisational policies and strategies. Other than the organisation's strategic plan, these could include those relating to health and safety, environmental, etc. Results of stakeholder consultation. |
| 11 | Asset management strategy | In what way does the organisation's asset management strategy take account of the lifecycle of the assets, asset types and asset systems over which the organisation has stewardship? | | | | A key component of this is the need to take account of the lifecycle of the assets, asset types and asset systems. (For example, this requirement is recognised in 4.3.1 d) of PAS 55). This question explores what an | Top management. People in the organisation with expert knowledge of the assets, asset types, asset systems and their associated life-cycles. The management team that has overall responsibility for asset management. Those responsible for developing and adopting methods and processes used in asset management | The organisation's documented asset management strategy and supporting working documents. |
| 26 | Asset management plan(s) | How does the organisation establish and document its asset management plan(s) across the life cycle activities of its assets and asset systems? | | | | The asset management strategy need to be translated into practical plan(s) so that all parties know how the objectives will be achieved. The development of plan(s) will need to identify the specific tasks and activities required to optimize costs, risks and performance of the assets and/or asset system(s), when they are to be carried out and the resources required. | The management team with overall responsibility for the asset management system. Operations, maintenance and engineering managers. | The organisation's asset management plan(s). |

| 3 | management policy | management policy been documented, authorised and communicated? | documented asset management policy. | The organisation has an asset management policy, but it has not been authorised by top management, or it is not influencing the management of the assets. | | The asset management policy is authorised by top management, is widely and effectively communicated to all relevant employees and stakeholders, and used to make these persons aware of their asset related obligations. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| | | | | | | | |
| 10 | Asset management strategy | What has the organisation done to ensure that its asset management strategy is consistent with other appropriate organisational policies and strategies, and the needs of stakeholders? | The organisation has not considered the need to ensure that its asset management strategy is appropriately aligned with the organisation's other organisational policies and strategies or with stakeholder requirements. OR The organisation does not have an asset management strategy. | The need to align the asset management strategy with other organisational policies and strategies as well as stakeholder requirements is understood and work has started to identify the linkages or to incorporate them in the drafting of asset management strategy. | Some of the linkages between the long- term asset management strategy and other organisational policies, strategles and stakeholder requirements are defined but the work is fairly well advanced but still incomplete. | All linkages are in place and evidence is available to demonstrate that, where appropriate, the organisation's asset management strategy is consistent with its other organisational policies and strategies. The organisation has also identified and considered the requirements of relevant stakeholders. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 11 | Asset management strategy | In what way does the organisation's asset management strategy take account of the lifecycle of the assets, asset types and asset systems over which the organisation has stewardship? | The organisation has not considered the need to ensure that its asset management strategy is produced with due regard to the lifecycle of the assets, asset types or asset systems that it manages. OR The organisation does not have an asset management strategy. | organisation is drafting its asset management strategy to address the lifecycle of its assets, asset types and asset systems. | The long-term asset management strategy takes account of the lifecycle of some, but not all, of its assets, asset types and asset systems. | The asset management strategy takes account of the lifecycle of all of its assets, asset types and asset systems. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 26 | Asset management plan(s) | How does the organisation establish and document its asset management plan(s) across the life cycle activities of its assets and asset systems? | The organisation does not have an identifiable asset management plan(s) covering asset systems and critical assets. | The organisation has asset management plan(s) but they are not aligned with the asset management strategy and objectives and do not take into consideration the full asset life cycle (including asset creation, acquisition, enhancement, utilisation, maintenance decommissioning and disposal). | The organisation is in the process of putting in place comprehensive, documented asset management plan(s) that cover all life cycle activities, clearly aligned to asset management objectives and the asset management strategy. | management strategy and asset management objectives across all life | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |

| Question No. | Function | Question | Score | Evidence—Summary | User Guidance | Why | Who | Record/documented Information | |
| 27 | Asset management plan(s) | How has the organisation communicated its plan(s) to all relevant parties to a level of detail appropriate to the receiver's role in their delivery? | | | | Plans will be ineffective unless they are communicated to all those, including contracted suppliers and those who undertake enabling function(s). The plan(s) need to be communicated in a way that is relevant to those who need to use them. | The management team with overall responsibility for the asset management system. Delivery functions and suppliers. | Distribution lists for plan(s). Documents derived from plan(s) which detail the receivers role in plan delivery Evidence of communication. | |
| 29 | Asset management plan(s) | How are designated responsibilities for delivery of asset plan actions documented? | | | | The implementation of asset management plan(s) relies on (1) actions being clearly identified, (2) an owner allocated and (3) that owner having sufficient delegated responsibility and authority to carry out the work required. It also requires alignment of actions across the organisation. This question explores how well the plan(s) set out responsibility for delivery of asset plan actions. | The management team with overall responsibility for the asset management system. Operations, maintenance and engineering managers. If appropriate, the performance management team. | The organisation's asset management plan(s). Documentation defining roles and responsibilities of individuals and organisational departments. | |
| 31 | Asset management plan(s) | What has the organisation done to ensure that appropriate arrangements are made available for the efficient and cost effective implementation of the plan(s)? (Note this is about resources and enabling support) | | | | It is essential that the plan(s) are realistic and can be implemented, which requires appropriate resources to be available and enabling mechanisms in place. This question explores how well this is achieved. The plan(s) not only need to consider the resources directly required and timescales, but also the enabling activities, including for example, training requirements, supply chain capability and procurement timescales. | The management team with overall responsibility for the asset management system. Operations, maintenance and engineering managers. If appropriate, the performance management team. If appropriate, the performance management team. Where appropriate the procurement team and service providers working on the organisation's asset-related activities. | The organisation's asset management plan(s). Documented processes and procedures for the delivery of the asset management plan. | |
| 33 | Contingency planning | What plan(s) and procedure(s) does the organisation have for identifying and responding to incidents and emergency situations and ensuring continuity of critical asset management activities? | | | | Widely used AM practice standards require that an organisation has plan(s) to identify and respond to emergency situations. Emergency plan(s) should outline the actions to be taken to respond to specified emergency situations and ensure continuity of critical asset management activities including the communication to, and involvement of, external agencies. This question assesses if, and how well, these plan(s) triggered, implemented and resolved in the event of an incident. The plan(s) should be appropriate to the level of risk as determined by the organisation's risk assessment methodology. It is also a requirement that relevant personnel are competent and trained. | The manager with responsibility for developing emergency plan(s). The organisation's risk assessment team. People with designated duties within the plan(s) and procedure(s) for dealing with incidents and emergency situations. | | |

| | | ASSET MANAGEMENT MATUR | | | | | |
|--------------|--------------------------------|--|---|--|---|--|---|
| Question No. | Function Asset | Question How has the organisation | Maturity Level 0 The organisation does not have plan(s) | Maturity Level 1 The plan(s) are communicated to some | Maturity Level 2 The plan(s) are communicated to most | Maturity Level 3 The plan(s) are communicated to all | Maturity Level 4 The organisation's process(es) surpas |
| 2, | management plan(s) | communicated its plan(s) to all | or their distribution is limited to the authors. | of those responsible for delivery of the plan(s). OR Communicated to those responsible for delivery is either irregular or ad-hoc. | of those responsible for delivery but there are weaknesses in identifying relevant parties resulting in incomplete or inappropriate communication. The organisation recognises improvement is needed as is working towards resolution. | relevant employees, stakeholders and | the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 29 | Asset management plan(s) | How are designated responsibilities for delivery of asset plan actions documented? | The organisation has not documented responsibilities for delivery of asset plan actions. | Asset management plan(s) inconsistently document responsibilities for delivery of plan actions and activities and/or responsibilities and authorities for implementation inadequate and/or delegation level inadequate to ensure effective delivery and/or contain misalignments with organisational accountability. | Asset management plan(s) consistently document responsibilities for the delivery of actions but responsibility/authority levels are inappropriate/ inadequate, and/or there are misalignments within the organisation. | Asset management plan(s) consistently document responsibilities for the delivery actions and there is adequate detail to enable delivery of actions. Designated responsibility and authority for achievement of asset plan actions is appropriate. | The organisation's process(es) surpas the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 31 | Asset management plan(s) | What has the organisation done to ensure that appropriate arrangements are made available for the efficient and cost effective implementation of the plan(s)? (Note this is about resources and enabling support) | The organisation has not considered the arrangements needed for the effective implementation of plan(s). | The organisation recognises the need to ensure appropriate arrangements are in place for implementation of asset management plan(s) and is in the process of determining an appropriate approach for achieving this. | The organisation has arrangements in place for the implementation of asset management plan(s) but the arrangements are not yet adequately efficient and/or effective. The organisation is working to resolve existing weaknesses. | The organisation's arrangements fully cover all the requirements for the efficient and cost effective implementation of asset management plan(s) and realistically address the resources and timescales required, and any changes needed to functional policies, standards, processes and the asset management information system. | The organisation's process(es) surpas the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 33 | Contingency planning | What plan(s) and procedure(s) does the organisation have for identifying and responding to incidents and emergency situations and ensuring continuity of critical asset management activities? | The organisation has not considered the need to establish plan(s) and procedure(s) to identify and respond to incidents and emergency situations. | The organisation has some ad-hoc arrangements to deal with incidents and emergency situations, but these have been developed on a reactive basis in response to specific events that have occurred in the past. | Most credible incidents and emergency situations are identified. Either appropriate plan(s) and procedure(s) are incomplete for critical activities or they are inadequate. Training/ external alignment may be incomplete. | activities consistent with policies and | The organisation's process(es) surpast the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |

|--------------|---|---|---|--|--|---|---|
| 37 | Structure, authority and responsibilities | What has the organisation done to appoint member(s) of its management team to be responsible for ensuring that the organisation's | Top management has not considered the need to appoint a person or persons to ensure that the organisation's assets deliver the requirements of the asset management strategy, objectives and plan(s). | Top management understands the need to appoint a person or persons to ensure that the organisation's assets deliver the requirements of the asset management strategy, objectives and plan(s). | Top management has appointed an appropriate people to ensure the assets | The appointed person or persons have full responsibility for ensuring that the organisation's assets deliver the requirements of the asset management strategy, objectives and plan(s). They | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. |
| 40 | Structure, authority and responsibilities | What evidence can the organisation's top management provide to demonstrate that sufficient resources are available for asset management? | The organisation's top management has not considered the resources required to deliver asset management. | The organisations top management understands the need for sufficient resources but there are no effective mechanisms in place to ensure this is the case. | A process exists for determining what resources are required for its asset management activities and in most cases these are available but in some instances resources remain insufficient. | An effective process exists for determining the resources needed for asset management and sufficient resources are available. It can be demonstrated that resources are matched to asset management requirements. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 42 | Structure, authority and responsibilities | To what degree does the organisation's top management communicate the importance of meeting its asset management requirements? | The organisation's top management has not considered the need to communicate the importance of meeting asset management requirements. | The organisations top management understands the need to communicate the importance of meeting its asset management requirements but does not do so. | Top management communicates the importance of meeting its asset management requirements but only to parts of the organisation. | Top management communicates the importance of meeting its asset management requirements to all relevant parts of the organisation. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 45 | Outsourcing of asset management activities | Where the organisation has outsourced some of its asset management activities, how has it ensured that appropriate controls are in place to ensure the compliant delivery of its organisational strategic plan, and its asset management policy and strategy? | | The organisation controls its outsourced activities on an ad-hoc basis, with little regard for ensuring for the compliant delivery of the organisational strategic plan and/or its asset management policy and strategy. | Controls systematically considered but currently only provide for the compliant delivery of some, but not all, aspects of the organisational strategic plan and/or its asset management policy and strategy. Gaps exist. | Evidence exists to demonstrate that outsourced activities are appropriately controlled to provide for the compliant delivery of the organisational strategic plan, asset management policy and strategy, and that these controls are integrated into the asset management system | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |

| Question No. Function | Question | Score | Evidence — Summary | User Guidance | Why | Who | Record/documented Information |
| 48 Training, awareness and competence | How does the organisation develop plan(s) for the human resources required to undertake asset | | | | There is a need for an organisation to demonstrate that it has considered what resources are required to develop and implement its asset management system. | Senior management responsible for agreement of plan(s). Managers responsible for developing asset management strategy and plan(s). Managers with | Evidence of analysis of future work load plan(s) in terms of human resources. Document(s) containing analysis of the organisation's own direct resources |
| | management activities - including the development and delivery of asset management strategy, process(es), objectives and plan(s)? | | | | There is also a need for the organisation to demonstrate that it has assessed what development plan(s) are required to provide its human resources with the skills and competencies to develop and implement its asset management systems. The timescales over which the plan(s) are relevant should be commensurate with the planning horizons within the asset management strategy considers e.g. if the asset management strategy considers 5, 10 and 15 year time scales then the human resources development plan(s) should align with these. Resources include both 'in house' and external resources who undertake asset management activities. | responsibility for development and recruitment of staff (including HR functions). Staff responsible for training. Procurement officers. Contracted service providers. | contractors resource capability over suitable timescales. Evidence, such as minutes of meeting that suitable management forums are monitoring human resource development plan(s). Training plapersonal development plan(s), contract and service level agreements. |
| 49 Training, awareness and competence | How does the organisation identify competency requirements and then plan, provide and record the training necessary to achieve the competencies? | | | | Widely used AM standards require that organisations to undertake a systematic identification of the asset management awareness and competencies required at each level and function within the organisation. Once identified the training required to provide the necessary competencies should be planned for delivery in a timely and systematic way. Any training provided must be recorded and maintained in a suitable format. Where an organisation has contracted service providers in place then it should have a means to demonstrate that this requirement is being met for their employees. (eg. PAS 55 refers to frameworks suitable for identifying competency requirements). | plan(s). Managers responsible for developing asset management strategy and plan(s). Managers with responsibility for development and recruitment of staff (including HR functions). Staff responsible for training. | Evidence of an established and applied competenc requirements assessment process and plan(s) in pl to deliver the required training. Evidence that the training programme is part of a wider, co-ordinate asset management activities training and compete programme. Evidence that training activities are recorded and that records are readily available (for direct and contracted service provider staff) e.g. vii organisation wide information system or local recordatabase. |
| 50 Training, awareness and competence | How does the organization ensure that persons under its direct control undertaking asset management related activities have an appropriate level of competence in terms of education, training or experience? | | | | A critical success factor for the effective development and implementation of an asset management system is the competence of persons undertaking these activities, organisations should have effective means in place for ensuring the competence of employees to carry out their designated asset management function(s). Where an organisation has contracted service providers undertaking elements of its asset management system then the organisation shall assure itself that the outsourced service provider also has suitable arrangements in place to manage the competencies of its employees. The organisation should ensure that the individual and corporate competencies it requires are in place and actively monitor, develop and maintain an appropriate balance of these competencies. | procurement and service agreements. HR staff and those responsible for recruitment. | Evidence of a competency assessment framework aligns with established frameworks such as the as management Competencies Requirements Framev (Version 2.0); National Occupational Standards for Management and Leadership; UK Standard for Professional Engineering Competence, Engineering Council, 2005. |

| 53 | Communication, participation and consultation | How does the organisation ensure that pertinent asset management information is effectively communicated to and from employees and other stakeholders, including contracted service providers? | The organisation has not recognised the need to formally communicate any asset management information. | There is evidence that the pertinent asset management information to be shared along with those to share it with is being determined. | The organisation has determined pertinent information and relevant parties. Some effective two way communication is in place but as yet not all relevant parties are clear on their roles and responsibilities with respect to asset management information. | Two way communication is in place between all relevant parties, ensuring that information is effectively communicated to match the requirements of asset management strategy, plan(s) and process(es). Pertinent asset information requirements are regularly reviewed. | The organisation's process(es) surpose the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 59 | Asset Management System documentation | What documentation has the organisation established to describe the main elements of its asset management system and interactions between them? | The organisation has not established documentation that describes the main elements of the asset management system. | The organisation is aware of the need to put documentation in place and is in the process of determining how to document the main elements of its asset management system. | documenting its asset management | The organisation has established documentation that comprehensively describes all the main elements of its asset management system and the interactions between them. The documentation is kept up to date. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 62 | information management | What has the organisation done to determine what its asset management information system(s) should contain in order to support its asset management system? | The organisation has not considered what asset management information is required. | The organisation is aware of the need to determine in a structured manner what its asset information system should contain in order to support its asset management system and is in the process of deciding how to do this. | The organisation has developed a structured process to determine what its asset information system should contain in order to support its asset management system and has commenced implementation of the process. | The organisation has determined what its asset information system should contain in order to support its asset management system. The requirements relate to the whole life cycle and cover information originating from both internal and external sources. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |
| 63 | Information management | How does the organisation maintain its asset management information system(s) and ensure that the data held within it (them) is of the requisite quality and accuracy and is consistent? | There are no formal controls in place or controls are extremely limited in scope and/or effectiveness. | The organisation is aware of the need for effective controls and is in the process of developing an appropriate control process(es). | The organisation has developed a controls that will ensure the data held is of the requisite quality and accuracy and is consistent and is in the process of implementing them. | The organisation has effective controls in place that ensure the data held is of the requisite quality and accuracy and is consistent. The controls are regularly reviewed and improved where necessary. | The organisation's process(es) surpass the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. |

SCHEDULE 13: REPORT ON ASSET MANAGEMENT MATURITY (cont)

| Question No. | Function | Question | Score | Evidence—Summary | User Guidance | Why | Who | Record/documented Information |
|--------------|--|--|-------|------------------|---------------|---|---|---|
| 64 | Information management | How has the organisation's ensured its asset management information system is relevant to its needs? | | | | Widely used AM standards need not be prescriptive about the form of the asset management information system, but simply require that the asset management information system is appropriate to the organisations needs, can be effectively used and can supply information which is consistent and of the requisite quality and accuracy. | The organisation's strategic planning team. The management team that has overall responsibility for asset management. Information management team. Users of the organisational information systems. | The documented process the organisation employs to ensure its asset management information system aligns with its asset management requirements. Minutes of information systems review meetings involving users. |
| 69 | Risk management process(es) | How has the organisation documented process(es) and/or procedure(s) for the identification and assessment of asset and asset management related risks throughout the asset life cycle? | | | | Risk management is an important foundation for proactive asset management. Its overall purpose is to understand the cause, effect and likelihood of adverse events occurring, to optimally manage such risks to an acceptable level, and to provide an audit trail for the management of risks. Widely used standards require the organisation to have process(es) and/or procedure(s) in place that set out how the organisation identifies and assesses asset and asset management related risks. The risks have to be considered across the four phases of the asset lifecycle (eg, para 4.3.3 of PAS 55). | The top management team in conjunction with the organisation's senior risk management representatives. There may also be input from the organisation's Safety, Health and Environment team. Staff who carry out risk identification and assessment. | that deal with risk control mechanisms. Evidence that |
| 79 | Use and maintenance of asset risk information | How does the organisation ensure that the results of risk assessments provide input into the identification of adequate resources and training and competency needs? | | | | Widely used AM standards require that the output from risk assessments are considered and that adequate resource (including staff) and training is identified to match the requirements. It is a further requirement that the effects of the control measures are considered, as there may be implications in resources and training required to achieve other objectives. | responsible for developing and approving resource and training plan(s). There may also be input from the | The organisations risk management framework. The organisation's resourcing plan(s) and training and competency plan(s). The organisation should be able to demonstrate appropriate linkages between the content of resource plan(s) and training and competency plan(s) to the risk assessments and risk control measures that have been developed. |
| 82 | Legal and other requirements | What procedure does the organisation have to identify and provide access to its legal, regulatory, statutory and other asset management requirements, and how is requirements incorporated into the asset management system? | | | | In order for an organisation to comply with its legal, regulatory, statutory and other asset management requirements, the organisation first needs to ensure that it knows what they are (eg. PAS 55 specifies this in s 4.4.8). It is necessary to have systematic and auditable mechanisms in place to identify new and changing requirements. Widely used AM standards also require that requirements are incorporated into the asset management system (e.g. procedure(s) and process(es)) | and safety team or advisors. The organisation's policy making team. | The organisational processes and procedures for ensuring information of this type is identified, made accessible to those requiring the information and is incorporated into asset management strategy and objectives |

| SCHEDULE 13 | : REPORT ON A | ASSET MANAGEMENT MATUR | ITY (cor | nt) | | | | | |
| Question No. | Function Life Cycle Activities | Question How does the organisation establish implement and maintain process(es) for the implementation of its asset management plan(s) and control of activities across the creation, acquisition or enhancement of assets. This includes design, modification, procurement, construction and commissioning activities? | Score | Evidence—Summary | User Guidance | Why Life cycle activities are about the implementation of asset management plan(s) i.e. they are the "doing" phase. They need to be done effectively and well in order for asset management to have any practical meaning. As a consequence, widely used standards (e.g. PAS 55 4.5) I require organisations to have in place appropriate process(es) and procedure(s) for the implementation of asset management plan(s) and control of lifecycle activities. This question expiores those aspects relevant to asset creation. | Asset managers, design staff, construction staff and project managers from other impacted areas of the business, e.g. Procurement | Record/documented Information Documented process(es) and procedure(s) which are relevant to demonstrating the effective management and control of life cycle activities during asset creation, acquisition, enhancement including design, modification, procurement, construction and commissioning. | |
| 91 | Life Cycle Activities | How does the organisation ensure that process(es) and/or procedure(s) for the implementation of asset management plan(s) and control of activities during maintenance (and inspection) of assets are sufficient to ensure activities are carried out under pectified conditions, are consistent with asset management strategy and control cost, risk and performance? | | | | Having documented process[es] which ensure the asset management plan(s) are implemented in accordance with any specified conditions, in a manner consistent with the asset management policy, strategy and objectives and in such a way that cost, risk and asset system performance are appropriately controlled is critical. They are an essential part of turning intention into action (eg, as required by PAS 55 s 4.5.1). | Asset managers, operations managers, maintenance managers and project managers from other impacted areas of the business | Documented procedure for review. Documented procedure for audit of process delivery. Records of previous audits, improvement actions and documented confirmation that actions have been carried out. | |
| 95 | Performance and condition monitoring | How does the organisation measure the performance and condition of its assets? | | | | Widely used AM standards require that organisations establish implement and maintain procedure(s) to monitor and measure the performance and/or condition of assets and asset systems. They further set out requirements in some detail for reactive and proactive monitoring, and leading/flagging performance indicators together with the monitoring or results to provide input to corrective actions and continual improvement. There is an expectation that performance and condition monitoring will provide input to improving asset management strategy, objectives and plan(s). | This should include contactors and other relevant third parties as appropriate. | Functional policy and/or strategy documents for performance or condition monitoring and measurement. The organisation's performance monitoring frameworks, balanced scorecards etc. Evidence of the reviews of any appropriate performance indicators and the action lists resulting from these reviews. Reports and trend analysis using performance and condition information. Evidence of the use of performance and condition information shaping improvements and supporting asset management strategy, objectives and plan(s). | |
| 99 | investigation of asset-related failures, incidents and nonconformities | How does the organisation ensure responsibility and the authority for the handling, investigation and mitigation of asset-related failures, incidents and emergency situations and non conformances is clear, unambiguous, understood and communicated? | | | | Widely used AM standards require that the organisation establishes implements and maintains process(es) for the handling and investigation of failures incidents and non-conformities for assets and sets down a number of expectations. Specifically this question examines the requirement to define clearly responsibilities and authorities for these activities, and communicate these unambiguously to relevant people including external stakeholders if appropriate. | management team. The team with overall | Process(es) and procedure(s) for the handling, investigation and mitigation of asset-related failures, incidents and emergency situations and non conformances. Documentation of assigned responsibilities and authority to employees. Job Descriptions, Audit reports. Common communication systems i.e. all Job Descriptions on Internet etc. | |

| SCHEDULE 13: REPORT ON ASSET MANAGEMENT MATURITY (cont) | | | | | | | | | |
| Question No. 88 | Function Life Cycle Activities | Question How does the organisation establish implement and maintain process(es) for the implementation of its asset management plan(s) and control of activities across the creation, acquisition or enhancement of assets. This includes design, modification, procurement, construction and commissioning activities? | Maturity Level 0 The organisation does not have process(es) in place to manage and control the implementation of asset management plan(s) during activities related to asset creation including design, modification, procurement, construction and commissioning. | have process(es) and procedure(s) in place to manage and control the implementation of asset management plan(s) during activities related to asset creation including design, modification, procurement, construction and | Maturity Level 2 The organisation is in the process of putting in place process(es) and procedure(s) to manage and control the implementation of asset management plan(s) during activities related to asset creation including design, modification, procurement, construction and commissioning. Gaps and inconsistencies are being addressed. | Maturity Level 3 Effective process(es) and procedure(s) are in place to manage and control the implementation of asset management plan(s) during activities related to asset creation including design, modification, procurement, construction and commissioning. | Maturity Level 4 The organisation's process(es) surpathe standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. | | |
| 91 | Life Cycle Activities | How does the organisation ensure that process(es) and/or procedure(s) for the implementation of asset management plan(s) and control of activities during maintenance (and inspection) of assets are sufficient to ensure activities are carried out under specified conditions, are consistent with asset management strategy and control cost, risk and performance? | The organisation does not have process(es)/procedure(s) in place to control or manage the implementation of asset management plan(s) during this life cycle phase. | have process(es) and procedure(s) in place to manage and control the implementation of asset management plan(s) during this life cycle phase but currently do not have these in place and/or there is no mechanism for | The organisation is in the process of putting in place process(es) and procedure(s) to manage and control the implementation of asset management plan(s) during this life cycle phase. They include a process for confirming the process(es)/procedure(s) are effective and if necessary carrying out modifications. | management plan(s) during this life cycle phase. They include a process, which is itself regularly reviewed to | The organisation's process(es) surpat the standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. | | |
| 95 | Performance and condition monitoring | How does the organisation measure the performance and condition of its assets? | The organisation has not considered how to monitor the performance and condition of its assets. | not developed a coherent approach. Measures are incomplete, predominantly | asset performance monitoring linked to asset management objectives. Reactive and proactive measures are in place. Use is being made of leading indicators | objectives is in place and universally used including reactive and proactive measures. Data quality management | The organisation's process(es) surpathe standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. | | |
| 99 | Investigation of asset-related failures, incidents and nonconformities | How does the organisation ensure responsibility and the authority for the handling, investigation and mitigation of asset-related failures, incidents and emergency situations and non conformances is clear, unambiguous, understood and communicated? | The organisation has not considered the need to define the appropriate responsibilities and the authorities. | requirements and is in the process of determining how to define them. | The organisation are in the process of defining the responsibilities and authorities with evidence. Alternatively there are some gaps or inconsistencies in the identified responsibilities/authorities. | The organisation have defined the appropriate responsibilities and authorities and evidence is available to show that these are applied across the business and kept up to date. | The organisation's process(es) surpathe standard required to comply with requirements set out in a recognised standard. The assessor is advised to note in the Evidence section why this is the case and the evidence seen. | | |

| HEDULE 13 | S: REPORT ON | ASSET MANAGEMENT MATUR | ITY (cor | nt) | | | | |
| Question No. | Function | Question | Score | Evidence—Summary | User Guidance | Why | Who | Record/documented Information |
| 105 | Audit | What has the organisation done to establish procedure(s) for the audit of its asset management system (process(es))? | | | | This question seeks to explore what the organisation has done to comply with the standard practice AM audit requirements (eg. the associated requirements of PAS 55 s 4.6.4 and its linkages to s 4.7). | The management team responsible for its asset management procedure(s). The team with overall responsibility for the management of the assets. Audit teams, together with key staff responsible for asset management. For example, Asset Management Director, Engineering Director. People with responsibility for carrying out risk assessments | The organisation's asset-related audit procedure(s). The organisation's methodology(s) by which it determined the scope and frequency of the audits a the criteral by which it identified the appropriate au personnel. Audit schedules, reports etc. Evidence of the procedure(s) by which the audit results are presented, together with any subsequent communications. The risk assessment schedule or registers. |
| 109 | Corrective & Preventative action | How does the organisation instigate appropriate corrective and/or preventive actions to eliminate or prevent the causes of identified poor performance and non conformance? | | | | Having investigated asset related failures, incidents and non-conformances, and taken action to mitigate their consequences, an organisation is required to implement preventative and corrective actions to address root causes. Incident and failure investigations are only useful if appropriate actions are taken as a result to assess changes to a businesses risk profile and ensure that appropriate arrangements are in place should a recurrence of the incident happen. Widely used AM standards also require that necessary changes arising from preventive or corrective action are made to the asset management system. | The management team responsible for its asset management procedure(s). The team with overall responsibility for the management of the assets. Audit and incident investigation teams. Staff responsible for planning and managing corrective and preventive actions. | Analysis records, meeting notes and minutes, modification records. Asset management plan(s), investigation reports, audit reports, improvement programmes and projects. Recorded changes to ass management procedure(s) and process(es). Conditional performance reviews. Maintenance reviews |
| 113 | Continual Improvement | How does the organisation achieve continual improvement in the optimal combination of costs, asset related risks and the performance and condition of assets and assets ystems across the whole life cycle? | | | | Widely used AM standards have requirements to establish, implement and maintain process(ess)/procest(ess) for identifying, assessing, prioritising and implementing actions to achieve continual improvement. Specifically there is a requirement to demonstrate continual improvement in optimisation of cost risk and performance/condition of assets across the life cycle. This question explores an organisation's capabilities in this area—looking for systematic improvement mechanisms rather that reviews and audit (which are separately examined). | The top management of the organisation. The manager/team responsible for managing the organisation's asset management system, including its continual improvement. Managers responsible for policy development and implementation. | Records showing systematic exploration of improvement. Evidence of new techniques being explored and implemented. Changes in procedure(s) and process(es) reflecting improved use of optimisat tools/techniques and available information. Evidenc of working parties and research. |
| 115 | Continual Improvement | How does the organisation seek and acquire knowledge about new asset management related technology and practices, and evaluate their potential benefit to the organisation? | | | | One important aspect of continual improvement is where an organisation looks beyond its existing boundaries and knowledge base to look at what 'new things are on the market'. These new things can include equipment, process(es), tooks, etc. An organisation which does this (eg, by the PAS 55 s 4.6 standards) will be able to demonstrate that it continually seeks to expand its knowledge of all things affecting its asset management approach and capabilities. The organisation will be able to demonstrate that it identifies any such opportunities to improve, evaluates them for suitability to its own organisation and implements them as appropriate. This question explores an organisation's approach to this activity. | The top management of the organisation. The manager/team responsible for managing the organisation's asset management system, including its continual improvement. People who monitor the various items that require monitoring for 'change'. People that implement changes to the organisation's policy, strategy, etc. People within an organisation with responsibility for investigating, evaluating, recommending and implementing new tools and techniques, etc. | Research and development projects and records, benchmarking and participation knowledge exchang professional forms. Evidence of correspondence relating to knowledge acquisition. Examples of char implementation and evaluation of new tools, and techniques linked to asset management strategy and objectives. |

Schedule 14 Mandatory Explanatory Notes

- 1. This <u>Ss</u>chedule requires EDBs to provide explanatory notes to information provided in accordance with clauses 2.3.1, 2.4.21, 2.4.22, <u>and subclauses</u> <u>2.5.1(1)(f)</u>, <u>2.5.1</u>, and <u>2.5.22.5.2(1)(e)</u>.
- 2. This <u>Ss</u>chedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.1. Information provided in boxes 1 to 12 of this schedule is part of the audited disclosure information, and so is subject to the assurance requirements specified in section 2.8.
- 3. Schedule 15 (Voluntary Explanatory Notes to Schedules) provides for EDBs to give additional explanation of disclosed information should they elect to do so.

Return on Investment (Schedule 2)

4. In the box below, comment on return on investment as disclosed in Schedule 2. This comment must include information on reclassified items in accordance with subclause_2.7.1(2).

Schedule 14a Mandatory Explanatory Notes on Forecast Information

- 1. This Schedule <u>requiresprovides for</u> EDBs to provide explanatory notes to reports prepared in accordance with clause <u>2.6.6</u>2.6.5.
- 2. This Schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause <u>2.7.22.7.1</u>. This information is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.

Commentary on difference between nominal and constant price capital expenditure forecasts (Schedule 11a)

3. In the box below, comment on the difference between nominal and constant price capital expenditure for the <u>current</u> disclosure year <u>and 10 year planning period</u>, as disclosed in Schedule 11a.

Box 1: Commentary on difference between nominal and constant price capital expenditure forecasts [Insert text here]

Commentary on difference between nominal and constant price operational expenditure forecasts (Schedule 11b)

4. In the box below, comment on the difference between nominal and constant price operational expenditure for the <u>current</u> disclosure year <u>and 10 year planning period</u>, as disclosed in Schedule 11b.

Box 2: Commentary on difference between nominal and constant price operational expenditure forecasts [Insert text here]

Schedule 14b Mandatory Explanatory Notes on Transitional Financial Information

- 1. This Schedule provides for EDBs to provide explanatory notes to the transitional financial information disclosed in accordance with clause 2.12.1.
- 2. This Schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.1. This information is part of the audited disclosure information, and so is subject to the assurance requirements specified in section 2.8.
- 3. In the box below provide explanatory comment on the tax effect of other temporary differences for the years ending 31 March 2010, 31 March 2011 and 31 March 2012 (as reported in Schedule 5h(vi)).

Box 1: Commentary on tax effect of other temporary differences (years ended 31 March 2010, 31 March 2011, and 31 March 2012)
[Insert text here]

4. To the extent that any change in regulatory profit and ROI reported for 2013 (compared to that reported for 2012) is attributable to the change in treatment of related party transactions, provide an explanation of the change in the box below.

Box 2: Change in regulatory profit and ROI due to change in treatment of related party transactions
[Insert text here]

5. In the box below, comment on asset allocation as disclosed in Schedule 5e. This comment must include information on reclassified items in accordance with clause 2.7.1(2) for disclosure years 2011 and 2012.

Box 3: Commentary on asset allocation [Insert text here]

Commerce Act (2015 Amendment to the Electricity Distribution Services Information Disclosure)
Determination 2012

163

Schedule 15 Voluntary Explanatory Notes

- 1. This <u>Ss</u>chedule enables EDBs to provide, should they wish to-
 - 1.1 additional explanatory comment to reports prepared in accordance with clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1 and 2.5.2, and 2.6.5;
 - information on any substantial changes to information disclosed in relation to a prior disclosure year, as a result of final wash-ups.
- 2. Information in this Schedule is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.
 - 3. Provide additional explanatory comment in the box below.

Schedule 16 Definitions of Terms used in Schedules 1 to 15

- 1. This Sschedule provides definitions for terms used in Schedules 1 to 15 of this Ddetermination.
- 2. Where terms used in the <code>Sschedules</code> are defined in section 1.4 of this determination but are not defined below, they have the meanings set out in section 1.4 of this determination. Terms used in the <code>Sschedules</code> that are defined in the IM determination have the meanings set out in the IM determination. Otherwise, unless defined below, terms used in the <code>Sschedules</code> have meanings consistent with industry practice.

| Torm | Definition |
|--------------------------|--|
| Term | Definition |
| % of asset forecast to | means the % of asset quantity forecast to be replaced in next 5 years consistent |
| be replaced in next 5 | with the capital expenditure forecast |
| years | |
| % variance | means: |
| | $q = \frac{a-b}{b} \times 100$ |
| | where: |
| | a = actual expenditure |
| | b = forecast expenditure |
| > 66 kV | means a circuit operating at a nominal voltage in excess of 66 kV |
| 6.6kV to 11kV | means a circuit operating at a nominal voltage of at least 6.6kV and no more than |
| (inclusive—other than | 11kV that is not a SWER circuit |
| <u>SWER)</u> | |
| 2009 disclosed asset | has the meaning set out in the IM determination |
| 22 kV (other than SWER) | means a circuit operating at a nominal voltage of 22 kV that is not a SWER circuit |
| 25th percentile estimate | means the 25th percentile estimate for the range of the mid-point post tax WACC or mid-point vanilla WACC determined by the Commission in accordance with clause 2.4.7 of the IM determination |
| 33 kV | means a circuit operating at a nominal voltage of 33 kV |
| 50 kV & 66 kV | means a circuit operating at a nominal voltage of 50 kV or 66 kV |

| | 75th percentile estimate | means the 75th percentile estimate for the range of the mid-point post tax WACC |
|---|---------------------------------------|--|
| | | or mid-point vanilla WACC determined by the Commission in accordance with |
| | | clause 2.4.7 of the IM determination |
| | | |
| Ш | 2013-2015 NPV wash-up | means a cost specified in clause 3.1.3(1)(s) of the IM determination |
| Ш | <u>allowance</u> | |
| Ш | | |
| Ш | Actual controllable opex | has the meaning givenset out in the IM determination |
| l | Actual expenditure | means, in relation to- |
| I | , , , , , , , , , , , , , , , , , , , | (a) a disclosure year, expenditure for the that disclosure year |
| • | | (b) regulatory period, expenditure for the disclosure years from the start of the |
| | | regulatory period to the current disclosure year |
| | Adjusted depreciation | has the meaning givenset out in the IM determination |
| | | |
| | Adjustment for | means for assets acquired from another regulated supplier, the value of the |
| | unamortised initial | unamortised initial differences in asset values for those assets acquired as |
| | differences in assets | unamortised initial differences in asset values is determined in accordance with |
| | acquired | the input methodologies that applyying to the regulated goods or services supplied |
| | | by that regulated supplier |
| | Adjustment for | means the value of opening unamortised initial differences in asset values for |
| | unamortised initial | assets that are disposed of during the disclosure year |
| | differences in assets | |
| | disposed | |
| | | |

| | 100 |
|---|--|
| Adjustment resulting | means |
| from asset allocation | (a) in relation to the works under construction roll-forward, the change in works under construction resulting from a change in asset allocation assumptions for assets included in works under construction, where increases in the value of works under construction are positive and decreases are negative |
| | (a)(b) in relation to the regulatory tax asset base roll-forward, the change in sum of regulatory tax asset values resulting from a change in asset allocation assumptions for assets included in sum of regulatory tax asset values, where increases in the value of sum of regulatory tax asset values are positive and decreases are negative (b)(c) in all other instances, the value of q calculated using the |
| | following formula: q = a - (b - c + d + e - f + g) |
| | where: |
| 1 | a _= total closing RAB value |
| | b _= total opening RAB value |
| | C = total depreciation |
| ıl | d _= —total CPI -revaluations |
| | e _= -assets commissioned |
| | |
| | f = —asset disposals |
| | g _= —lost and found assets adjustment |
| | The formula must be calculated using component values that relate to the RAB. These component values are the values that result from the application of clause 2.1.1 of the IM determination; |
| Adjustment to reinstate | means the value of the adjustment required to the 2009 modified asset values so |
| 2009 modified asset values to unallocated amounts | the resultant value represents the unallocated 2009 modified asset values |
| Adverse environment | meansTo capture all unplanned interruptions where the primary cause is adverse environment, such as slips or seismic events. |
| Adverse weather | -meansTo capture all unplanned interruptions where the primary cause is adverse weather, other than those caused by directly by lightning, vegetation contact or adverse environment |
| All other projects or | means, within an expenditure category, the total of projects and programmes that |
| programmes | are not material projects and programmes. |
| Allocator metric | has the meaning givenset out in the IM determination |
| Allocator type | has the meaning givenset out in the IM determination |
| Allowed controllable opex | has the meaning givenset out in the IM determination |
| <u> </u> | · |

| | Amortisation of initial differences in asset values | has the meaning givenset out in paragraph (a) of the defined term in the IM determination |
|----|--|---|
| | Amortisation of revaluations | has the meaning givenset out in paragraph (a) of the defined term in the IM determination |
| | Arm's length deduction | has the meaning givenset out in the IM determination |
| | Assets acquired from a regulated supplier | means- (a) in relation to the unallocated RAB, the sum of value of assets acquired from a related party as determined in accordance with clauses 2.2.11(1)(f) and (g) of the IM determination; (b) in relation to the RAB, means the sum of value of the assets (as determined in accordance with paragraph (a)) which is allocated to the gas transmission services in accordance with clause 2.1.1 of the IM determination |
| 1. | Asset category transfers | means the value of an asset transferred between asset categories |
| | Asset condition at start of planning period (percentage of units by grade) | means the pProportion of the quantity of each asset class assessed against the asset condition categories (grade 1 to 4), reflecting the likelihood of short, medium or longer term intervention. Suppliers are able to apply their own criteria for intervention when populating the table. |
| | Asset disposals | means- (a) in relation to the unallocated RAB, the sum of unallocated opening RAB values less regulatory depreciation of disposed assets, as determined in accordance with- input methodologies applicable to that asset in the IM determination; (b) in relation to the RAB, the value (as determined in accordance with paragraph (a)) which was allocated to electricity distribution services in accordance with clause 2.1.1 of the IM determination |
| • | Asset disposals (other than below) | means asset disposals other than asset disposals to a regulated supplier and asset disposals to a related party |
| | Assets commissioned (other than below) | means assets commissioned other than assets acquired from a regulated supplier and assets acquired from a related party |
| | Assets not used to supply electricity distribution services | means the value of assets identified in sub-clause (a) of the definition of excluded asset in the IM determination |
| 1 | Asset disposals to a regulated supplier | means asset disposals disposed of to a regulated supplier |
| | Asset disposals to a related party | means asset disposals disposed of to a related party |

| | Asset or assets with | means a description of assets or groups of assets where the supplier has changed |
|---|-------------------------|--|
| | changes to depreciation | the asset(s)' depreciation profile or the asset(s) was commissioned during the |
| | | disclosure year; and at least one of the following applies- |
| | | (a) the asset(s) is a reduced life asset or dedicated asset(s) as those terms are |
| | | used in clause 2.2.8(5) of the IM <mark>Dd</mark> etermination |
| ı | | (b) the asset(s) depreciation profile was changed or set in accordance with the CPP process |
| İ | | (c) the asset(s) physical service life potential was determined by an engineer in accordance with clause 2.2.8(3)(5) of the IM Deletermination |
| ı | | (d) the EDB chooses to disclose details about the asset(s) depreciation profile |
| | | (e) the asset is a composite asset (as that term is used in clause 2.2.8(5) of the IM <u>dP</u> etermination) and at least one of the clauses (a) to (d) above applies to one of its component assets |
| | Assets acquired from a | means- |
| 1 | regulated supplier | (a)—in relation to the unallocated RAB, the sum of value of assets acquired from |
| | | a <u>nother</u> regulated supplier party as determined in accordance with |
| | | clause s 2.2.11(1)(e)(f) and (g) of the IM determination; |
| | | <u>(a)</u> |
| | | (b) in relation to the RAB, means the value of the assets (as determined in |
| | | accordance with paragraph (a)) which is allocated to the electricity |
| | | distributiongas transmission services in accordance with clause 2.1.1 of the IM |
| | | determination |
| | Assets acquired from a | means- |
| | related party | (a) in relation to the unallocated RAB, the sum of value of assets acquired from a |
| | | related party as determined in accordance with clauses 2.2.11(1)(f) and (g) of |
| | | the IM determination; |
| | | (b) in relation to the RAB, the sum of value of the assets (as determined in |
| | | accordance with paragraph (a)) which is allocated to the electricity |
| | | distribution services in accordance with clause 2.1.1 of the IM determination |
| | Assets commissioned | means assets commissioned other than assets acquired from a regulated supplier |
| | (other than below) | and assets acquired from a related party |
| • | Attribution rate | means: $q = \frac{a \times b}{a}$ |
| | | c |
| | | where: |
| | | a = average opening and closing RAB values |
| | | b = a leverage rate of 44% |
| | | c = total book value of interest bearing debt |
| | Atypical expenditure | means expenditure on non-network assets that is 'one-off' or 'exceptional' |

169

| | 109 |
|--------------------------|---|
| Average opening and | means; |
| closing RAB values | a+b |
| | l a = —— |
| | 2 |
| | where: |
| | a = Total opening RAB values |
| | b = Total closing RAB values |
| Avoided transmission | means a cost specified in clause 3.1.3(1)(e) or (f) of the IM determination |
| charge | means a cost specified in clause 5.1.5(1)(c) or (i) or the livi determination |
| charge | |
| Basis for determining | means the subclause under either: |
| value | |
| | (a) clause 2.2.11(5) of the IM determination; or |
| | (b) clauses 2.3.6 or 2.3.7 of this determination |
| | applied in the valuation of basis for determining the value of the related party |
| | transactions in accordance with clause 2.3.6 and 2.3.7 of this determination |
| | transactions in accordance with clause 2.5.0 and 2.5.7 or this determination |
| Billed quantities | means the quantities associated with price components upon which the |
| | consumer's bill for electricity lines services is based expressed in the units of |
| | measure used by the EDB for setting prices (for example volumes of electricity |
| | delivered in kWh) . |
| | |
| Book value | means- |
| | (a) in relation to the issue date, the book value in New Zealand dollars of a |
| | qualifying debt or non-qualifying debt on the issue date |
| | (b) in relation to the date of financial statements, the book value in New Zealand |
| | dollars of a qualifying debt or non-qualifying debt as at the end of the period |
| Dusiness support | of the EDB's latest general purpose financial statements |
| <u>Business support</u> | means operational expenditure associated with the following corporate activities- |
| | (a) HR and training (other than operational training) |
| | (b) finance and regulation including compliance activities, valuations and auditing |
| | (c) CEO and director costs |
| | (d) legal services |
| | (e) consulting services (excluding engineering/technical consulting) |
| | (f) property management |
| | (g) corporate communications |
| | (h) corporate IT |
| | (i) industry liaison and participation |
| | (i) commercial activities including pricing, billing, revenue collection and |
| | marketing |
| | (k) liaison with Transpower, customers and electricity retailers |
| Distributed generation – | means the total capacity of all distributed generation added to the EDB's network |
| Capacity of distributed | in the disclosure year, measured in MVA |
| generation installed in | |
| year <u>(MVA)</u> | |
| | |
| Capex wash-up | means a cost specified in clause 3.1.3(1)(q) of the IM determination |
| <u>adjustment</u> | |

| li | Closing deferred tax | has the meaning givenset out in clause 2.3.7(2) of the IM determination |
| | | |
| | Closing RAB (tax value) | means the sum of regulatory tax asset values for assets that have a value included |
| | | in total closing RAB value |
| | Closing RAB value under | means the closing RAB value or sum of closing RAB values as determined in |
| | 'non-standard' | accordance with Part 2 subpart 2 of the IM determination for the relevant asset or |
| | depreciation | assets with non-standard depreciation |
| | • | ' |
| İ | Closing RAB value under | means- |
| | 'standard' depreciation | (a) in relation to assets or groups of assets where depreciation is included in |
| | | depreciation - no standard life asset, 'not applicable' |
| | | (b) in relation to assets or groups of assets where depreciation is included in |
| | | |
| | | depreciation - modified life assets or depreciation - alternative depreciation |
| | | determined in accordance with CPP, the sum of closing RAB values as |
| | | determined in accordance with the IM determination as if the closing RAB |
| | | value and all proceeding closing RAB values had been calculated in |
| | | accordance with clause 2.1.1 of the IM determination applying a physical |
| | | asset life determined in accordance with either clause 2.2.8(e)(iii) or (f) of the |
| | | IM determination |
| | | for the relevant asset or assets with non-standard depreciation |
| | | |
| Ш | Closing RIV | · |
| | Closing RIV | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax |
| | | means total closing RAB values less adjustment resulting from <u>asset</u> cost allocation |
| | Closing <u>sum of</u> | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax means the sum of regulatory tax asset values for assets that have a value included |
| | Closing sum of regulatory tax asset | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax means the sum of regulatory tax asset values for assets that have a value included in total closing RAB value plus the regulatory tax asset values of assets referred to |
| | Closing <u>sum of</u> | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax means the sum of regulatory tax asset values for assets that have a value included |
| | Closing <u>sum of</u> <u>regulatory tax asset</u> <u>valuesRAB (tax value)</u> | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax means the sum of regulatory tax asset values for assets that have a value included in total closing RAB value plus the regulatory tax asset values of assets referred to in clause 2.3.9(4)(b) of the IM determination |
| | Closing sum of regulatory tax asset | means total closing RAB values less adjustment resulting from asseteest allocation less lost and found assets adjustment plus closing deferred tax means the sum of regulatory tax asset values for assets that have a value included in total closing RAB value plus the regulatory tax asset values of assets referred to |

| Closing unamortised | means closing unamortised initial differences in asset values determined in |
|-------------------------------------|---|
| initial differences in | accordance with clause 2.3.5(5) of the IM determination |
| asset values | |
| | |
| Commerce Act levies | means a cost specified in clause 3.1.2(2)(b)(i) of the IM determination |
| Concernation area | manage and band on formal and the time |
| Conservation area | means any land or foreshore that is- |
| | (a) land or foreshore for the time being held under the Conservation Act 1987 for |
| | conservation purposes; or |
| | conservation purposes, or |
| | (b) land in respect of which an interest is held under the Conservation Act 1987 |
| | for conservation purposes" |
| | |
| Consumer type | means a category of consumers as defined by the EDB that is typical of the type of |
| | consumer connected to the network. This may refer to consumer groups as used |
| | for pricing, physical connection attributes or any other attribute that the EDB |
| | considers appropriate. |
| Corporate tax rate | has the meaning givenset out in the IM determination |
| | |
| Correct asset register | means the value of corrections to the 2004 ODV asset values determined in |
| errors for 2004 ODV | accordance with clause 2.2.1(1)(b) of the IM determination |
| assets | |
| | |
| Correct asset register | means the value of corrections to assets that were commissioned in 2005 – 2009 |
| errors for 2005 – 2009 | determined in accordance with clause 2.2.1(2)(b) of the IM determination |
| assets | |
| Cost of debt assumption | means the sum of the risk free rate, and debt premium estimates and debt |
| | issuance costs as published by the Commission in accordance with clauses |
| | 2.4.15.3.22 to 2.4.115.3.32 of the IM determination for each disclosure year |
| Cost of executing an | has the meaning given set out in the IM determination |
| interest rate swap | <u> </u> |
| Coupon rate | means- |
| | (a) where the information is available publicly, the nominal coupon rate of |
| | interest of a qualifying debt on the issue date; |
| | (b) where the nominal coupon rate of interest of a qualifying debt on the issue |
| | date is not available publicly, either the nominal coupon rate of interest or |
| | the basis for determining the nominal coupon rate of interest of a qualifying |
| | debt on the issue date |
| CPI ₄ | has the meaning given set out in clause 2.2.9(4) of the IM determination |
| | 1,7,111 |
| CPI ₄ ⁻⁴ | has the meaning givenset out in clause 2.2.9(4) of the IM determination |
| CDD specified pass | means a cost specified in clause 2.1.2(1)/b)/ii) of the IM determination |
| CPP specified pass through costs | means a cost specified in clause 3.1.2(1)(b)(ii) of the IM determination |
| unrough costs | |
| Current Peak Load | means the maximum total load measured as being supplied by the existing zone |
| Current reak Loau | substation at any time in the disclosure year, expressed in units of MVA |
| | Substitution at any time in the disclosure year, expressed in units of wive |
| | |

| | 173 |
|--|--|
| Current period tax losses | has the meaning given to that term-in clause 2.3.2(5) of the IM determination |
| Customer minutes lost | for each interruption, the customers impacted multiplied by the duration |
| Customers impacted | the number of customers affected by the interruption |
| Data accuracy (1–4) | means the EDB's assessment of the accuracy of the data provided, using one of the following options- |
| | 1 – means that good quality data is not available for any of the assets in the category and estimates are likely to contain significant error |
| | 2 – means that good quality data is available for some assets but not for others and the data provided includes estimates of uncounted assets within the category |
| | 3 – means that data is available for all assets but includes a level of estimation where there is understood to be some poor quality data for some of the assets within the category |
| | 4 – means that good quality data is available for all of the assets in the category |
| Date end | the date on which supply was restored to all ICPs affected by the interruption |
| Date start | the date on which the interruption commenced |
| Debt issue cost readjustment | has the meaning givenset out in clause 2.4.11(4) of the IM determination |
| Dedicated street lighting circuit length | means the length in km of circuit that only provides electricity to street lighting |
| Defective equipment | means To capture all unplanned customer interruptions resulting from equipment failure, either mechanical or electrical. |
| Deferred tax balance relating to assets acquired in the disclosure year | has the meaning givenset out in clause 2.3.7(3) of the IM determination |
| Deferred tax balance | means the amount of deferred tax associated with the assets disposed of by the |
| relating to assets | EDB disposals. The definition assumes a deferred tax asset position. If the deferred |
| disposed in the | tax balances relating to the asset disposals is a liability it must be entered as a |
| disclosure year | negative amount |
| Deferred tax cost allocation adjustment | means cost allocation adjustments as defined in clause 2.3.7(5) of the IM determination |
| Depreciation - alternative depreciation in accordance with CPP | means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation calculated in accordance with clause 2.2.6 of the IM determination; (b) in relation to the RAB, depreciation calculated in accordance with clause 2.2.6 or 2.2.8(4) of the IM determination |

| means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation calculated in accordance with clause 2.2.5(1) of the IM determination; (b) in relation to the RAB, depreciation calculated in accordance with clause 2.2.5(2) of the IM determination; |
|---|
| calculated in accordance with clause 2.2.5(1) of the IM determination; (b) in relation to the RAB, depreciation calculated in accordance with clause 2.2.5(2) of the IM determination; |
| of assets with a physical asset life determined in accordance with clauses 2.2.8(1)(b or 2.2.8(2) of the IM determination or where clauses 2.2.8(1)(d) and |
| 2.2.8(1)(e)(iv) of the IM determination apply with reference to assets with a physical asset life determined in accordance with clauses 2.2.8(1)(b) or 2.2.8(2) of the IM determination |
| means- |
| (a) in relation to the unallocated RAB, the sum of unallocated depreciation calculated in accordance with clause 2.2.5(1) of the IM determination; (b) in relation to the RAB, depreciation calculated in accordance with clause 2.2.5(2) of the IM determination; |
| of assets with a physical asset life determined in accordance with clauses |
| 2.2.8(1)(a) or 2.2.8(1)(e)(iv)-(v) of the IM determination or where clauses |
| 2.2.8(1)(d) and 2.2.8(1)(e)(iv) of the IM determination apply with reference to |
| assets with a physical asset life determined in accordance with clauses 2.2.8(1)(a) |
| or 2.2.8(1)(d) or 2.2.8(1)(e)(iv)-(v) or 2.2.8(1)(g) of the IM determination |
| means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation |
| calculated in accordance with clause 2.2.5(1) of the IM determination; (b) in relation to the RAB, depreciation calculated in accordance with clause 2.2.5(2) of the IM determination; |
| excluding depreciation - alternative depreciation in accordance with CPP, depreciation - modified life assets, and depreciation - no standard life assets |
| means the depreciation or sum of depreciation as determined in accordance with the IM determination for the relevant asset or assets with non-standard depreciation |
| means a brief description of the transaction with a related party, including the |
| goods or services provided to or by the EDB as part of that transaction |
| In relation to ICPs or a consumer, means invoiced directly by the EDB for electricity distribution services, rather than by an electricity retailer or other person in an interposed billing relationship between the EDB and the consumer |
| has the meaning given in paragraph (a) of the defined term in the IM determination |
| has the meaning set out in the IM determination |
| means the total capacity of all distributed generation added to the EDB's network in the disclosure year, measured in MVA |
| means a cost specified in clause 3.1.3(1)(f) of the IM determination |
| |

| Distributed generation – | means the number of distributed generation connections added to the EDB's |
|---|--|
| Number of connections | network in the disclosure year |
| made in year | network in the disclosure year |
| made in year | |
| Distributed generation | means the total rate of power output, coincident with the GXP demand, of all |
| output at HV and above | distributed generation that is connected to the network at a voltage of HV and |
| output at 11v and above | higher, measured in MW |
| Distribution and IV | |
| Distribution and LV | means all underground power cables operated at distribution voltage or low |
| <u>cables</u> | <u>voltage</u> |
| Bright at the state | |
| <u>Distribution and LV lines</u> | means all overhead power lines operated at distribution voltage or low voltage. |
| District 11 | |
| <u>Distribution cables</u> | means all underground power cables operated at distribution voltage excluding |
| (excluding LV) | low voltage cables |
| District Product | |
| <u>Distribution line charge</u> | means line charge revenue that is not transmission line charge revenue |
| <u>revenue</u> | |
| | |
| <u>Distribution lines</u> | means all overhead power lines operated at distribution voltage excluding low |
| (excluding LV) | <u>voltage lines</u> |
| District of | |
| <u>Distribution other</u> | means network assets operated at distribution voltage which are not distribution |
| (excluding LV) | cables or distribution lines and excluding low voltage assets |
| District Product | |
| Distribution line charge | means line charge revenue that is not transmission line charge revenue |
| revenue | |
| Distribution substations | |
| <u>Distribution substations</u> and transformers | means- |
| and transformers | (a) substations, including all associated pole mountings, ground pads and covers, |
| | and kiosks and components used to install transformers; and |
| | (b) transformers used to convert between distribution voltage and low voltage. |
| | For the purpose of the RAB disclosure this excludes distribution switchgear |
| | <u>installed at distribution substations but includes surge arrestors</u> |
| <u>Distribution switchgear</u> | means all switchgear operated at distribution voltage. This includes disconnectors, |
| | <u>fuses (including drop outs and fuse switches), circuit breakers, reclosers,</u> |
| | sectionalisers, ring main units and voltage regulators. For the purpose of RAB, the |
| | value of the switchgear includes the value of protection and controls equipment |
| 51.11.11.1 | installed on the switchgear. |
| Distribution transformer | means the sum of the capacities of all distribution transformers that are part of, or |
| capacity (EDB owned) | supplied by, the network and owned by the EDB, expressed in MVA |
| Distribution transformer | means the sum of the capacities of all distribution transformers that are part of, or |
| capacity (Non-EDB | supplied by, the network and not owned by the EDB, expressed in MVA. EDBs |
| 1.1 | Tappined by the network and not office by the 255, expressed in intrin 255 |
| owned <u>, estimated</u>) | should make reasonable inquiries in order to obtain an estimate where it is not |
| owned <u>, estimated</u>) | should make reasonable inquiries in order to obtain an estimate where it is not |
| | should make reasonable inquiries in order to obtain an estimate where it is not already known. |
| owned <u>, estimated</u>) Duration (Min) | should make reasonable inquiries in order to obtain an estimate where it is not |
| | should make reasonable inquiries in order to obtain an estimate where it is not already known. means the number of minutes between the start and end of the interruption |
| Duration (Min) | should make reasonable inquiries in order to obtain an estimate where it is not already known. |
| Duration (Min) | should make reasonable inquiries in order to obtain an estimate where it is not already known. means the number of minutes between the start and end of the interruption |
| Duration (Min) Easement land | should make reasonable inquiries in order to obtain an estimate where it is not already known. means the number of minutes between the start and end of the interruption has the meaning set out in the IM determination |
| Duration (Min) Easement land Electricity exports to | should make reasonable inquiries in order to obtain an estimate where it is not already known. means the number of minutes between the start and end of the interruption has the meaning set out in the IM determination means the total volume of electricity exported from the EDBs network through |

| Non-exempt EDB Eelectricity lines service charge payable to Transpower | means a cost specified in clause 3.1.3(1)(b) of the IM determination |
|---|--|
| Electricity losses (loss ratio) | means (for electricity losses) electricity entering system for supply to consumers' connection points less total energy delivered to ICPs and (for the loss ratio) is electricity losses divided by electricity entering system for supply to consumers' connection, expressed as a percentage. Non-metered energy supplied should be estimated. (Note: the resulting loss ratio will comprise both technical and non-technical losses) |
| Electricity supplied from distributed generation | means the net volume of electricity supplied into the EDB's network from all distributed generation connected to the network, measured in GWh |
| Electricity supplied from GXPs | means the total volume of electricity supplied into the EDB's network through every GXP to which the network is connected, measured in GWh |
| Electricity volumes carried | means the volume of electricity measured at the specified location within the power system in the specified year, in GWh |
| Embedded generation – Capacity installed (MVA) | Capacity installed means the total capacity of all distributed generation connections added to the EDB's network in the disclosure year |
| Embedded network | has the meaning set out in Part 1 of the Electricity Industry Participation Code 2010 |
| Energy efficiency and demand incentive allowance | means a cost specified in clause 3.1.3(1)(m) of the IM determination |
| Energy efficiency and demand side management, reduction of energy losses | -means_ in relation to expenditure, means_ expenditure on assets or operational expenditure where the primary driver is to improve the efficient provision of electricity line services by- |
| | (a) encouraging demand side management, including by managing consumers' rate or timing of electricity consumption; or (b) implementing initiatives that reduce electricity losses; |
| | (c) *(d) implementing initiatives that reduce reactive power flows in the network. |
| Existing zone substations | means the identifier of an existing zone substation |
| Expenditure on non- network assets | means expenditure on assets relating to non-network assets |
| Expenditure or loss deductible but not in regulatory profit / (loss) before tax | means expenditure or loss deductible but not in regulatory profit / (loss) before tax as determined in accordance with clause 2.3.3(4)(b) of the IM determination |

Formatted: Space After: 0 pt, Numbered + Level: 1 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 0 cm + Indent at: 0.63 cm

| Expenditure or loss in regulatory profit / (loss) before tax but not deductible Expenses cash outflow | means expenditure or loss in regulatory profit / (loss) before tax but not deductible as determined in accordance with clause 2.3.3(2)(b) of the IM determination means operational expenditure plus pass through and recoverable costs excluding financial incentives and wash-ups |
|--|---|
| Explanation | means a description or information relevant to the information provided in respect of the existing zone substation that provides additional context or clarification |
| Extended reserves allowance | means a cost specified in clause 3.1.3(1)(o) of the IM determination |
| Financial incentives | means the sum of- (a) net recoverable costs allowed under net incremental rolling incentive scheme; (b) purchased assets - avoided transmission charge; (c) energy efficiency and demand incentive allowance; (d) quality incentive adjustment; and (e) other financial incentives |
| Fault | means a physical condition that causes a device, component or network element to fail to perform in the required manner |
| FDC allowance of 2.45% | means the increase in value in assets resulting from assets being multiplied by 1.0245 in accordance with clause 2.2.3 of the IM determination |
| Gains / (losses) on asset disposals | means, in relation to- (a) asset disposals to a related party, nil; (b) asset disposals to a regulated supplier, nil; (c) asset disposals (other than below), means- q = a - b where a = total sale price of the assets b = asset disposals (other than below) |
| Grade 1 | means e End of serviceable life, immediate intervention required |
| Grade 2 | -means <u>Mm</u> aterial deterioration but asset condition still within serviceable life parameters. Intervention likely to be required within 3 years. |
| Grade 3 | means nNormal deterioration requiring regular monitoring |
| Grade 4 | means gGood or as new condition |
| Grade unknown | means cCondition unknown or not yet assessed |
| Gross term credit spread differential | means the sum of term credit spread difference, cost of executing an interest rate swap and debt issue cost readjustment for qualifying debt |
| GXP | means grid exit point |

| GXP demand | means the maximum coincident import demand of the total of each of the EDB's GXP demands, measured in MW. All exports from the EDB's network at the time of measurement should be subtracted from the total. |
|--|--|
| High voltage (HV) | mMeans high voltage, a nominal AC voltage of 1000 volts and more, or the assets of the EDB that are directly associated with the transport or delivery of electricity at those voltages |
| Highest rate of capitalised finance applied | means the highest rate of finance used as the cost of financing capitalised in works under construction |
| Human error | -means To capture all unplanned customer interruptions resulting from contractors or staff, commissioning errors, incorrect protection settings, SCADA problems, switching errors, dig-in and overhead contact. |
| Impact of financial incentives on ROIs | meansq = a - b where a = ROI - comparable to a vanilla WACC - reflecting all revenue earned b = ROI - comparable to a vanilla WACC - excluding revenue earned from financial incentives |
| Include load control relays | means the value of load control relay asset of 'included' type as determined in accordance with clause 2.2.1(2)(a) of the IM determination |
| Impact of wash-up costs on ROIs | meansq = a - b where a = ROI - comparable to a vanilla WACC - excluding revenue earned from financial incentives b = ROI - comparable to a vanilla WACC - excluding revenue earned from financial incentives and wash-up costs |
| Income included in regulatory profit / (loss) before tax but not taxable | means income included in regulatory profit / (loss) before tax but not taxable as determined in accordance with clause 2.3.3(4)(a) of the IM determination excluding total revaluations |
| Income not included in regulatory profit / (loss) before tax but taxable | means income not included in regulatory profit / (loss) before tax that is taxable as determined in accordance with clause 2.3.3(2)(a) of the IM determination |
| Incremental gain/(loss) in year | means the incremental change or incremental adjustment term for the disclosure year determined in accordance with clause 3.3.1 of the IM determination |
| Industry levies Input methodology | means a cost specified in clauses 3.1.2(1)(b)(i) and 3.1.2(2)(b)(ii)-(iii) of the IM determination means a cost specified in clause 3.1.3(1)(g) of the IM determination |
| claw-back | |
| Insurance | means a contract of insurance as defined in the Insurance (Prudential Supervision) Act 2010 |

| Input methodology claw-back | means a cost specified in clause 3.1.3(1)(g) of the IM determination |
|---|---|
| Installed Firm Capacity | means the <u>capacity</u> total of the transformer capacities of the transformers installed in the existing zone substation as at the last day of the disclosure year that can be delivered from an existing zone substation following: |
| | (a) -an outage of the highest capacity item of primary equipment within the zone substation; or |
| | (b) the highest capacity circuit supplying the zone substation., minus the transformer capacity of the largest transformer, |
| | For the purpose of this definition, primary equipment includes the low voltage circuit of a zone transformer and excludes the low voltage switchboard. Installed Firm Capacity shall be measured expressed in units of MVA |
| Installed Firm Capacity + 5 years | means the <code>il</code> nstalled <code>fE</code> irm <code>eC</code> apacity forecast by the EBD to be installed at the end of the year that is 5 years after the disclosure year, expressed in MVA |
| Installed <u>Ffirm Ceapacity</u> eConstraint +5 years (cause) | means the cause of any capacity constraint that is forecast by the EDB to impact the existing zone substation at the end of the year that is 5 years after the disclosure year. The cause must be selected from the following options- |
| | sub-transmission circuit |
| 1 | transformer |
| | ancillary equipment |
| | Transpower |
| | other |
| | no constraint forecast within 5 years |
| <u>Insurance</u> | means a contract of insurance as defined in the Insurance (Prudential Supervision) |
| IRR | Act 2010 means internal rate of return |
| Issue date | means the day on which a qualifying debt or non-qualifying debt is issued |
| Items at end of year (quantity) | means the total quantity of assets in the prescribed asset category and asset class installed in the network at the end of the disclosure year, expressed in the prescribed unit |
| Items at start of year (quantity) | means the total quantity of assets in the prescribed asset category and asset class installed in the network at the start of the disclosure year, expressed in the prescribed unit |
| <u>kWh</u> | means kilowatt-hour |

Formatted: Indent: Left: 0.06 cm,
Hanging: 0.75 cm, Outline numbered
+ Level: 4 + Numbering Style: a, b, c,
... + Start at: 1 + Alignment: Left +
Aligned at: 3.75 cm + Tab after: 5 cm

cm, List tab + Not at 5 cm

| Length of circuit within | means a circuit, or a section of a circuit, installed within 10 km of any coastline or |
|--------------------------------|---|
| = | • |
| 10km of coastline or | in any geothermal area, where this information is known to the EDB |
| geothermal areas | |
| (where known) | |
| Leverage | has the meaning givenset out in the IM determination |
| Levies | means a cost specified in clause 3.1.2(2)(b) of the IM determination |
| Lightning | -means To capture all unplanned customer interruptions where the primary cause is a lightning strike, resulting in insulation breakdown and or flashovers. Typically protection is the only observable operation. |
| Line item | has the meaning givenset out in the IM determination |
| Load factor | means |
| | <u>a</u> |
| | b x c |
| | where |
| | a = electricity entering system for supply to customers' connection points |
| | b = demand on the system for supply to customers' connection points |
| Lagation | c = number of hours in the disclosure year |
| Location | means pPhysical location of the embedded network |
| Lost and found assets | means- |
| adjustment | (a)—in relation to the unallocated RAB, the value of found assets as determined in |
| | accordance with clause 2.2.12 of the IM determination, less the value of lost |
| | assets. The value of a lost asset is the unallocated opening RAB value of the |
| | asset less regulatory depreciation as determined in accordance with the IM determination; |
| | (b) in relation to the RAB, the value of the asset (as determined in accordance |
| | with paragraph (a)) which is allocated to electricity distribution services in |
| | accordance with clause 2.1.1 of the IM determination |
| <u>LVow voltage (< 1kV)</u> | means a circuit operating at low voltage |
| Market value of asset | means the market value of disposed assets sold or transferred to a related party |
| disposals | , |
| Maximum coincident | means the aggregate peak demand for the EDB's network, being the coincident |
| system demand | maximum sum of GXP demand and <u>distributed</u> embedded generation output at HV |
| | and above, measured in MW |
| Merger and acquisition | means expenditure related to merger and acquisition activities irrespective of the |
| expenditure | outcome of the merger or acquisition, but proportionate to the extent the benefits |
| | of the merger or acquisition would relate to electricity distribution services. |
| | Disclosure of benefits to electricity distribution services is required for the merger |
| | or acquisition expenditure to be recognised. |
| Mid-point estimate of | means the mid-point estimate of post tax WACC for the 5 year period commencing |
| post tax WACC | on the first day of the disclosure year determined by the Commission in accordance |
| | with <u>clause 2.4.1subpart 4 of part 2</u> of the IM determination |
| ı <u></u> | |

| Mid-point estimate of | means the mid-point estimate of vanilla WACC for the 5 year period commencing | |
|--------------------------|---|---|
| vanilla WACC | on the first day of the disclosure year determined by the Commission in accordance | |
| | with <u>clause 2.4.1</u> subpart 4 of part 2 of the IM determination | |
| Mid-year net cash | means expenses cash outflow plus assets commissioned less asset disposals plus | |
| <u>outflows</u> | tax payments less other regulated income | |
| Monthly net cash | means expenses cash outflow plus assets com | omissioned loss asset disposals loss |
| outflows | other regulated income | illissioned less asset disposals less |
| <u>outnows</u> | other regulated income | |
| Monthly ROI -closing RIV | means total closing RAB value less adjustmen | t resulting from cost allocation less |
| | lost and found assets adjustment plus closing | deferred tax plus revenue related |
| | working capital | |
| Monthly ROI | means the monthly ROI comparable to the va | · · · · · · · · · · · · · · · · · · · |
| comparable to a post | cost of debt (%), the leverage and the corpora | ate tax rate |
| tax WACC | | |
| | | |
| Monthly ROI — | means the internal rate of return for a schedu | |
| comparable to a vanilla | to a schedule of dates where the schedules of | f cash flows and dates are- |
| WACC | <u>Cash flows</u> | <u>Dates</u> |
| | <u>- Opening RIV</u> | 365 days before year-end |
| | Monthly net cash outflows | 15 th of the month incurred |
| | <u>Line charge revenue</u> | 20 th of the month following accrual |
| | <u>- Tax payments</u> | 182 days before year-end |
| | Term credit spread differential allowance | <u>Year-end</u> |
| | Closing RIV | Year-end |
| | $q = (1 + monthly IRR)^{\frac{12}{2}} - 1$ | |
| | whore | |
| | where: monthly IRR = IRR (13 monthly amounts) | |
| | monthly hit = htt (13 monthly unloants) | |
| | where the 13 monthly amounts are- | |
| | the negative of alternative opening RIV | |
| | the 11 end of month notional net cash flows for October to August of the | |
| | assessment period | |
| | notional net cash flows for September for the assessment period plus | |
| | alternative closing RIV less term cro | edit spread differential |
| | allowance. | |
| Monthly ROI-opening | means the sum of total opening RAB value plu | us opening deferred tax plus revenue |
| RIV | related working capital | |
| Name of related party | means the legal name of the related party the | at has entered into a transaction with |
| Ivallie of related party | means the legal name of the related party that has entered into a transaction with the EDB- | |
| Net electricity supplied | means the volume of electricity supplied from | n (to) the disclosing EDB's network to |
| to (from) other EDBs | (from) other EDBs . | |
| Net incremental rolling | means the sum of previous years' incremental gain/loss from the 5 disclosure years | |
| incentive scheme | preceding the current disclosure year | |
| | | |

| | , | 102 |
|---|----------|--|
| Net recoverable allowed under | (| means, where- (a) net incremental rolling incentive scheme is positive, net incremental rolling |
| incremental rolli | · . | incentive scheme; (b) net incremental rolling incentive scheme is nil or negative, nil |
| Net transfers to other EDBs at HV above | | means the total rate of power transfer to (from) other EDB's networks to which the EDB's network is connected, measured in MW |
| Network opex | 6 | means the sum of operational expenditure relating to service interruptions and emergencies, vegetation management, routine and corrective maintenance and inspection, and asset replacement and renewal |
| New allocation | C | means the operating costs or regulated service asset values allocated to electricity distribution services in accordance with the new allocator and line items for each of the relevant disclosure years |
| New allocator or item | | means the allocator or line items that are used subsequent to the change in allocator or line items |
| No. <u>w</u> ₩ith age u | i | means the total quantility of assets in the prescribed asset category and asset class installed in the network for which no installation information is known and no default date has been assigned |
| No. with default | i | means the total quantity of assets in the prescribed asset category and asset class installed in the network at the end of the disclosure year where the original installation year is unknown and that have accordingly been allocated to a default installation year, expressed in the prescribed unit |
| Non-electricity distribution serv | | means services of the EDB that are not electricity distribution services |
| Non-exempt EDI electricity lines s charge payable t Transpower | ervice | means a cost specified in clause 3.1.3(b) of the IM determination |
| Non-network op | r | means the sum of operational expenditure relating to system operations and network support, and business support |
| Non-qualifying d | ebt r | means interest bearing debt that is not a qualifying debt |
| Non-standard co | nsumer r | means any consumer that is not a standard consumer |
| Normalised SAID |)I I | has the meaning specified in Attachment B |
| Normalised SAIF | l l | has the meaning specified in Attachment B |
| Notional deduct interest | | has the meaning given in clause 2.3.4(2) of the IM determination |
| Notional net cas | + | means, in relation to the- (a) ROI, operating surplus / (deficit) less regulatory tax allowance less assets commissioned plus asset disposals (b) alternative ROI, revenue less expenses less tax payments less assets commissioned plus asset disposals |

| Notional revenue foregone from posted discounts | means, for the purposes of Schedule 8, the revenue anticipated from posted discounts had they not been applied. Posted discounts has the meaning given in clause 3.1.1(5) of the IM determination. |
|--|---|
| Number of assets at disclosure year end by installation date | means the total quantity of assets in the prescribed asset category and asset class installed in the network at the end of the disclosure year that were first installed in the prescribed year, expressed in the prescribed unit |
| Number of connections (ICPs) | means the number of points of connection, as represented by unique ICP identifiers having a status of active or inactive recorded on the registry in accordance with the Electricity industry Participation Code 2010 |
| Number of ICPs served | means the nNumber of ICPs served by the embedded network |
| ОН | means overhead |
| Opening deferred tax | has the meaning givenset out in the IM determination |
| Opening RAB (tax value) | means the sum of regulatory tax asset values for assets included in the total opening RAB value |
| Opening RIV | means the sum of total opening RAB values plus opening deferred tax |
| Opening sum of RAB values without revaluations | means the sum of opening RAB values as determined in accordance with the IM determination, calculated as if no amount of revaluation calculated in accordance with the IM determination had been included in the calculation of any of those opening RAB values following the determination of the initial RAB |
| Opening <u>sum of</u> <u>regulatory tax asset</u> <u>valuesRAB (tax value)</u> | means the sum of regulatory tax asset values for assets included in the total opening RAB value_plus the regulatory tax asset values of assets referred to in clause 2.3.9(4)(b) of the IM determination |
| Opening tax losses | has the meaning given to that term in clause 2.3.2(3) of the IM determination |
| Opening unamortised initial differences in asset values | has the meaning given to that term in clause 2.3.5(2) of the IM determination |
| Opening value of fully depreciated, disposed and lost assets | means (a) in relation to the unallocated RAB, the sum of unallocated RAB included in the total opening RAB values, values of assets that are fully depreciated during the disclosure year, asset disposals and lost assets included in lost and found assets adjustment; (b) in relation to the RAB, the sum of RAB values of assets included in the total opening RAB values that are fully depreciated during the disclosure year, asset disposals and lost assets included in the lost and found assets adjustment |

| | Opening wWeighted | means |
|---------|----------------------------|--|
| | average remaining | $\phantom{aaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaa$ |
| | useful life of relevant | - <u>where:</u> |
| | assets (years) | a =the 2010 weighted average remaining assetuseful life of assets included in |
| | | the opening unamortised initial differences in asset values initial RAB |
| | | calculated by using the opening unamortised initial difference in assetinitial |
| | | RAB values as weights, where remaining asset life is the remaining asset life |
| | | as defined in the IM determination |
| | | |
| | | $b = \frac{\text{disclosure year less 2010}}{\text{disclosure year less 2010}}$ |
| 1 | Operating surplus / | means total regulatory income less operational expenditure less pass through and |
| | (deficit) | recoverable costs excluding financial incentives and wash-ups |
| l | (deficit) | recoverable costs excluding manetal meetaves and wash ups |
| ıŀ | Original allocation | means the operationals expenditure or regulated service asset values allocated to |
| 1 | onga. anodation | electricity distribution services in accordance with the allocations and line items |
| | | made in the previous disclosure year |
| ıŀ | Original allocator or line | means the allocator or line items that were used prior to the change in allocator or |
| Ц | items | line items |
| | items | ine items |
| ŀ | Original tenor | means- |
| | ongar terror | (a) where the qualifying debt or non-qualifying debt is not issued to a related |
| | | party, the term of a qualifying debt or non-qualifying debt at the issue date; |
| | | (b) where the qualifying debt or non-qualifying debt is issued to a related party, |
| | | the shorter of the- |
| | | |
| | | (i) the tenor of the qualifying debt; or |
| | | (ii) the period from the qualifying debt's issue date to the earliest date on |
| ļ | | which its repayment is or may be required |
| | Other adjustments to | means |
| | the RAB tax value | q = a - (b + c - d - e + f + g) |
| | | q = u (b + c + u + c + j + g) |
| | | where: |
| ıl | | alacina como eferendadore torrestrollos DAD (terrollos) |
| | | a _=closing sum of regulatory tax asset valuesRAB (tax value) |
| | | b _= opening sum of regulatory tax asset valuesRAB (tax value) |
| | | b Opening sain of regulatory tax asset values note (tax value) |
| | | c _= regulatory tax asset value of assets commissioned |
| 1 | | |
| I | | d _= regulatory tax asset value of asset disposals |
| 1 | | |
| | | $oldsymbol{e}$ = tax depreciation |
| | | |
| | | f _ = lost and found assets adjustment |
| | | |
| | | g _ = adjustment resulting from asset allocation |
| $\ \ $ | Other financial | means recoverable costs specified by the Commission under clause 53V(2)(c) of the |
| | incentives | Act, and classified by the Commission as a financial incentive |
| | | |
| | | |

| | 103 |
|--------------------------|---|
| Other network assets | means network assets used by the EDB to provide electricity lines services that are |
| | not subtransmission, zone substation, distribution and LV lines, distribution and LV |
| | cables, distribution substations and transformers or distribution switchgear, and |
| | includes central facilities for SCADA and telecommunications systems. |
| Other recoverable costs | means recoverable costs specified by the Commission under clause 53V(2)(c) of the |
| excluding financial | Act, excluding other financial incentives and other wash-ups |
| incentives and wash-ups | |
| | |
| Other regulated income | has the meaning given in the IM determination |
| | |
| Other regulated income | means other regulated income excluding gains / (losses) on asset disposals |
| (other than gains / | |
| (losses) on asset | |
| <u>disposals)</u> | |
| | |
| Other related party | means the value of related party transactions that are not disclosed as total |
| transactions | regulatory income, operational expenditure, capital expenditure or market value of |
| | asset disposals |
| Other wash-ups | means recoverable costs specified by the Commission under clause 53V(2)(c) of the |
| | Act, and classified by the Commission as a wash-up |
| | |
| Other specified pass- | means costs identified in clause 3.1.2(1)(b) of the IM determination |
| through costs | |
| | |
| OVABAA allocation | has the meaning givenset out in the IM determination |
| increase | |
| | |
| Overhead | means circuits installed as overhead lines, expressed in km |
| | |
| Overhead circuit length | means the total length of all circuits operating within the prescribed terrain type |
| by terrain (at year end) | |
| Overhead circuit | manns a circuit are a section of a circuit installed in an area that has hear |
| | means a circuit, or a section of a circuit, installed in an area that has been |
| requiring vegetation | identified as requiring ongoing vegetation management due to its proximity with |
| management | adjacent vegetation that may interfere with the safe and/or secure operation of the circuit |
| | the circuit |
| Overhead to | in relation to expenditure, means expenditure on assets incurred in developing |
| underground conversion | underground circuits in circumstances where these primarily replace equivalent |
| | existing overhead circuits. |
| | |
| - | |

| | 100 |
|--------------------------|---|
| Pass through and | means the sum of- |
| recoverable costs | (a) rates; |
| excluding financial | (b) Commerce Act levies; |
| incentives and wash-up | (c) industry levies; |
| <u>costs</u> | (d) CPP specified pass through costs; |
| | |
| | (e) electricity lines services charge payable to Transpower; |
| | (f) Transpower new investment contract charges; |
| | (g) system operator services; |
| | (h) distributed generation allowance; |
| | (i) extended reserves allowance; and |
| | (i) other recoverable costs excluding financial incentives and wash-ups |
| Posted discounts | has the meaning set out in the IM Determination |
| Previous years' | means the incremental change and- incremental adjustment term for the |
| incremental gain/(loss) | disclosure year in question determined in accordance with clause 3.3.1 of the IM |
| | determination |
| Previous years' | means the previous years' incremental gain/(loss) carried forward by applying the |
| | inflation rate in accordance with clause 3.3.2(1) of the IM determination |
| incremental gain/(loss) | initiation rate in accordance with clause 5.5.2(1) of the livi determination |
| adjusted for inflation | |
| | |
| Price category code | means the relevant code in the schedule published by the EDB that uniquely |
| | identifies a consumer group for an ICP |
| | |
| Pricing date | means the day on which a qualifying debt is priced |
| | |
| Purchased assets - | means a cost specified in clause 3.1.3(1)(e) of the IM determination |
| avoided transmission | |
| <u>charge</u> | |
| Pricing schedule | means the list of prices by price category code for the provision of electricity lines |
| | services that is publicly disclosed |
| | |
| Qualifying debt | has the meaning givenset out in paragraph (a) of the defined term in clause |
| 1 | 1.1.4(2) of the IM determination |
| Quality incentive | means a cost specified in clause 3.1.3(1)(p) of the IM determination |
| <u>adjustment</u> | ineans a cost specifica in clause 3:1:3(1)(p) of the five acternmetion |
| aujustinent | |
| Dates | means a cost specified in clause 3.1.2(2)(a) of the IM determination |
| Rates | means a cost specified in clause 3.1.2(2)(a) of the fivi determination |
| D :: 1 f 1 | |
| Rationale for change | means the rationale for changing the allocator or line items, including whether the |
| | change occurred because of change in circumstance or another reason |
| Re-apply a modified | means the change in value of assets after applying clause 2.2.1(2)(d) of the IM |
| multiplier to 2004 ODV | determination |
| assets | |
| | |
| Re-apply an existing | means the change in value of assets after applying clause 2.2.1(2)(c) of the IM |
| multiplier to 2004 ODV | determination |
| assets | |
| assets | |
| Do apply optimization an | moons the change in value of accets often applying eleves 2.2.4/2VeVeVeVeVeVeVeVeVeVeVeVeVeVeVeVeVeVeVe |
| Re-apply optimisation or | means the change in value of assets after applying clause 2.2.1(2)(e) of the IM |
| EV tests to 2004 ODV | determination |
| assets | |
| | |
| | |

187

| | 107 |
|----------------------------|---|
| Reason for non-standard | means- |
| depreciation | (a) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - no standard life asset, 'no standard life'; |
| | |
| | (b) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - modified life assets, 'modified life'; |
| | |
| | (c) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - alternative depreciation determined in accordance with |
| | CPP, 'CPP amendment' |
| | , |
| Reconsideration event | means a cost specified in clause 3.1.3(1)(t) of the IM determination |
| allowance | |
| | |
| Recoverable costs | has the meaning set out in the IM determination |
| | |
| Recoverable customised | means a-costs specified in either clause 3.1.3(1)(h),(i),(j),(k) or (l) of the IM |
| price-quality path costs | determination |
| | |
| Regulated supplier | has the meaning givenset out in the IM determination |
| Regulatory investment | means opening RIV |
| value | |
| Regulatory net taxable | has the meaning givenspecified in clause 2.3.1(2) of the IM determination |
| income | has the meaning given specimen in clause 2.3.1(2) of the init determination |
| Regulatory profit / (loss) | means the regulatory profit / (loss) before tax less the regulatory tax allowance |
| Regulatory profit / (loss) | means the regulatory profit γ (loss) before tax less the regulatory tax anomalies means the value of q calculated using the following formula: |
| before tax | |
| Defore tax | q = a-b+c |
| | where: |
| | a = operating surplus / (deficit) |
| | b = total depreciation |
| 1 | |
| | c = total CPI- revaluations |
| Regulatory profit / (loss) | means the regulatory profit / (loss) before tax less the regulatory tax allowance less |
| including financial | term credit spread differential allowance |
| incentives and wash-ups | |
| Regulatory tax | has the meaning givenset out in clause 2.3.1 of the IM determination |
| allowance | |
| Regulatory tax asset | has the meaning given set out in the IM determination |
| value | |
| Regulatory tax asset | means the sum of regulatory tax asset values for assets that have a value in asset |
| value of asset disposals | disposals |
| Regulatory tax asset | means the sum of regulatory tax asset values for assets that have a value in assets |
| value of assets | commissioned |
| | Commissioned |
| commissioned | has the magning given set out in the IM determine the |
| Regulatory taxable | has the meaning givenset out in the IM determination |
| income | |
| Remote | means a circuit, or a section of a circuit, installed in an area which are situated |
| İ | |
| | more than 75 km from the EDB's, or the EDB's contractor's, nearest works depot |

Field Code Changed

| Research and development | in relation to expenditure, means expenditure on assets or operational expenditure where the primary driver for the expenditure relates to increasing the efficient provision of electricity lines services through- implementing an original and planned investigation undertaken with the prospect of gaining new scientific or technical knowledge or understanding; or applying research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services before the start of commercial production or use. |
|---------------------------------|---|
| Revaluation rate | has the meaning givenset out in the IM determination |
| Revenue related working capital | the alternative opening RIV, the revenue for the last month of the previous disclosure year; and the alternative closing RIV, the revenue for the last month of the disclosure year |
| RMU | means ring main unit |
| ROI | means return on investment |

Year-end-ROI -_

comparable to a posttax WACC

means-

(a) in relation to the ROI – comparable to a post tax WACC reflecting all revenue earned

$$q = a - (d \times e \times f)$$

(b) in relation to the ROI – comparable to a post tax WACC excluding revenue earned from financial incentives

$$q = b - (d \times e \times f)$$

(c) in relation to the ROI – comparable to a post tax WACC excluding revenue earned from financial incentives and wash-ups

$$q = c - (d \times e \times f)$$

where

a = ROI - comparable to a vanilla WACC reflecting all revenue earned

 $b = {\sf ROI-comparable\ to\ a\ vanilla\ WACC\ excluding\ revenue\ earned\ from\ financial\ incentives}$

c = ROI – comparable to a vanilla WACC excluding revenue earned from financial incentives and wash-ups

 $d = \cos t$ of debt assumption

e = leverage

f =corporate tax rate means the ROI comparable to the vanilla WACC less the product of the cost of debt assumption(%), the leverage and the corporate tax rate

| | 190 | |
|----------------------------|--|---|
| Year-end -ROI – | means: | |
| comparable to a vanilla | means the internal rate of return for a schedule of | cash flows that occur according |
| WACC | to a schedule of dates | |
| WACC | where the schedules of cash flows and dates- | |
| | (a) in relation to the ROI — comparable to a va | anilla WACC reflecting all |
| | .,, | anna WACC reneeting an |
| | revenue earned, are- | |
| | | B . |
| | Cash flows | <u>Dates</u> |
| | - Opening RIV | 365 days before year-end |
| | Mid-year net cash outflows | 182 days before year-end |
| | <u>Line charge revenue</u> | 148 days before year-end |
| | Term credit spread differential allowance | <u>Year-end</u> |
| | Closing RIV | <u>Year-end</u> |
| | (b) in relation to the ROI — comparable to a value arned from financial incentives, are- | anilla WACC excluding revenue |
| | Cash flows | Dates |
| | - Opening RIV | 365 days before year-end |
| | | |
| | - (Mid-year net cash outflows less (financial | 182 days before year-end |
| | incentives multiplied by the corporate tax | |
| | rate)) | 440 |
| | Line charge revenue less financial incentives | 148 days before year-end |
| | - Term credit spread differential allowance | <u>Year-end</u> |
| | Closing RIV | <u>Year-end</u> |
| | (c) in relation to the ROI — comparable to a va | anilla WACC excluding revenue |
| | earned from financial incentives and wash | -ups, are- |
| | Cash flows | Dates |
| | - Opening RIV | 365 days before year-end |
| | - (Mid-year net cash outflows less (financial | 182 days before year-end |
| | | 182 days before year-end |
| | incentives and wash-ups multiplied by the | |
| | corporate tax rate)) | 440 days bafa |
| | <u>Line charge revenue less financial incentives</u> | 148 days before year-end |
| | and wash-up costs | |
| | - Term credit spread differential allowance | <u>Year-end</u> |
| | Closing RIV | <u>Year-end</u> |
| | $\frac{q}{} = \frac{(1 + half yearly IRR)^2 - 1}{}$ | |
| | where: | |
| | half yearly IRR = IRR (3 half yearly amounts) | |
| | nay yearly hin - min (5 hair yearly amounts) | |
| | where the 3 half yearly amounts are- | |
| | • the negative of opening RIV (year-start) | |
| | notional net cash flows (mid-year) | |
| | the closing RIV less term credit spread differential a | llowance (year end). |
| Routine expenditure | means expenditure on assets related to non-netwo | rk assets that are is not atypical |
| | <u>expenditure</u> | |
| • | • | |

| | 191 |
|-----------------------------------|---|
| Rugged | means a circuit, or a section of a circuit, installed in an area where normal line construction vehicles and plant cannot be used and where it is necessary to use helicopters, tracked vehicles, boats, or other specialised plant or where difficult physical or climatic conditions involving swampy ground, high winds or snow exist and non standard line construction designs are employed to accommodate these conditions |
| Rural | means a circuit, or a section of a circuit, installed in a ruralised area where the average HV span length is approximately 70 - 80 metres, and does not include those circuits located in remote and/or rugged areas |
| SAIDI reliability limit | means the SAIDI reliability limit that applies to the non-exempt EDB in respect of the disclosure year under an applicable s52P determination |
| SAIFI reliability limit | means the SAIFI reliability limit that applies to the non-exempt EDB in respect of the disclosure year under an applicable s52P determination |
| Secondary assets | means system fixed assets, including ripple injection systems, SCADA, protection and telecommunications systems, that do not carry the energy that is distributed to consumers |
| Security of supply classification | means the classification of the existing zone substation on the basis of the ability to supply the current peak load without curtailment or interruption if 1 or more zone substation transformers installed at the existing zone substation are not operating. Valid classification types are- N, means that the current peak load may only be supplied without curtailment or interruption if all zone substation transformers are operating; N minus 1 (or N-1), means that the current peak load may be supplied without curtailment or interruption including if the largest zone substation transformer is not operating; N minus 2 (or N-2), means that the current peak load may be supplied without curtailment or interruption including if the largest 2 zone substation transformers are not operating; N minus 1 switched (or N-1 switched), means that the current peak load may be supplied following a brief interruption during which switching is carried out to re-establish supply following an unexpected outage of the largest zone substation transformer; |
| Self-insurance allowance | means any self-insurance allowance allowed by the Commission through a CPP |
| Standard consumer | means a consumer of the EDB that has a standard contract with that EDB for the provision of electricity lines services |
| Sub-transmission cables | means all power cables operated at a subtransmission voltage |
| Sub-transmission lines | means all power lines operated at a subtransmission voltage |
| SWER | means single wire earth return |

| System operator services means a cost specified in clause 3.1.3(1)(d) of the IM determination Tax depreciation has the meaning givenset out in clause 2.3.8(3) of the IM determination Tax effect has the meaning givenset out in the IM determination Tax effect of adjusted depreciation, using the definitions of "tax effect depreciation and "adjusted depreciation" in this schedule Tax effect of amortisation of initial definition of "tax effect of amortisation of initial differences in asset values, using the definition of "tax effect of amortisation of initial difference in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
|--|---------------|
| Tax depreciation has the meaning givenset out in clause 2.3.8(3) of the IM determination Tax effect has the meaning givenset out in the IM determination Tax effect of adjusted depreciation means the tax effect of adjusted depreciation, using the definitions of "tax effect and "adjusted depreciation" in this schedule Tax effect of amortisation of initial differences in asset values, using the definition of "tax effect of amortisation of initial differences in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect has the meaning givenset out in the IM determination Tax effect of adjusted depreciation, using the definitions of "tax effect depreciation and "adjusted depreciation" in this schedule Tax effect of means the tax effect of amortisation of initial differences in asset values, using the definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect has the meaning givenset out in the IM determination Tax effect of adjusted depreciation means the tax effect of adjusted depreciation, using the definitions of "tax effect of and "adjusted depreciation" in this schedule Tax effect of means the tax effect of amortisation of initial differences in asset values, using to definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect of adjusted depreciation depreciation means the tax effect of adjusted depreciation, using the definitions of "tax effect and "adjusted depreciation" in this schedule Tax effect of means the tax effect of amortisation of initial differences in asset values, using the definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect of adjusted depreciation depreciation means the tax effect of adjusted depreciation, using the definitions of "tax effect and "adjusted depreciation" in this schedule Tax effect of means the tax effect of amortisation of initial differences in asset values, using the definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| depreciation and "adjusted depreciation" in this schedule Tax effect of amortisation of initial differences in asset values, using to definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| depreciation and "adjusted depreciation" in this schedule Tax effect of amortisation of initial definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect of means the tax effect of amortisation of initial differences in asset values, using t definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule values Tax effect of other means the tax effect of positive temporary differences less negative temporary | " |
| amortisation of initial definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule values Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| amortisation of initial definition of "tax effect" and "amortisation of initial difference in asset values" in this schedule values Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| differences in asset values this schedule Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| values Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| Tax effect of other means the tax effect of positive temporary differences less negative temporary | |
| . ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' | |
| . ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' ' | |
| | |
| temporary differences differences <u>but excluding deferred tax balances relating to assets disposed in the</u> | |
| disclosure year. Positive temporary differences and negative temporary differen | ces |
| have the meanings set out in clause 2.3.8(4) and (5) of the IM determination | |
| Tax effect of total tax depreciation using the definitions of "tax effect" | |
| depreciation and "tax depreciation" in this schedule | |
| and tax depreciation in this seriedate | |
| Tax payments means regulatory tax allowance recognised proportionally to how the EDB has p | id |
| (or would have paid tax) over the tax year preceding the end of the disclosure | |
| year less opening deferred tax plus closing deferred tax | |
| Term credit spread has the meaning givenset out in the IM determination | |
| difference | |
| | |
| Term credit spread has the meaning givenset out in the IM determination | |
| differential allowance | |
| | |
| Third party interference to capture means all unplanned customer interruptions resulting from external | |
| contractors or members of the public, includes Dig-In, Overhead Contact, | |
| Vandalism, and Vehicle Damage. | |
| Tanadasin, and Temple Samage. | |
| Total attributable to means the sum of directly attributable costs or assets and not directly attributable | le |
| regulated service costs or assets that are attributable to electricity distribution services | |
| | |
| Total book value of means the sum of book value of qualifying debt and non-qualifying debt at the d | ate |
| interest bearing debt of the latest general purpose financial statements | |
| and the latest of the latest o | |
| Total closing RAB values means- | |
| (a) in relation to the unallocated RAB, the sum of unallocated closing RAB values | ۵۵ |
| as determined in accordance with the IM determination; | CJ |
| | |
| | |
| accordance with the IM determination | |
| | |
| Total customers on the total number of customers supplied by the EDB on the network | |
| Total customers on network the total number of customers supplied by the EDB on the network | |

| 193 | | |
|---|--|--|
| Total depreciation Total distribution transformer capacity | means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination means the sum of the distribution transformer capacity (EDB owned) and the distribution transformer capacity (Non-EDB owned), expressed in MVA | |
| Total energy delivered to ICPs | means the volume of electricity supplied through the EDB's network to connection points, as measured at connection points, in GWh | |
| Total opening RAB values subject to revaluations | means- (a) in relation to the unallocated RAB, total opening RAB values - unallocated RAB less opening value of fully depreciated, disposed and lost assets - unallocated RAB; (b) in relation to the RAB, total opening RAB values - RAB less opening value of fully depreciated, disposed and lost assets - RAB | |
| Total regulatory income | means- (a) in relation to the Report on Regulatory Profit, the sum of line charge revenue, gains / (losses) on asset disposals and other regulated income (a) in relation to the Report on Related Party Transactions, the income from related party transactions after applying clauses 2.3.6 and 2.3.7 of this determination | |
| Total revaluations | means- (a) in relation to the unallocated RAB, the sum of unallocated revaluation as determined in accordance with the IM determination; (b) in relation to the RAB or regulatory profit, the sum of revaluations as determined in accordance with the IM determination | |
| Total revenue | means the tTotal line charge revenue collected from the embedded network | |
| Transfer capacity | means the additional capacity, transferable within the time frame of the EDB's security standards, that is available to augment the capacity of the existing zone substation by switching circuits, via the distribution feeder network, that may supply the existing zone substation from other zone substations. Eexpressed in units of MVA. | |
| Transformer capacity Transmission asset | in relation to a system, means the total capacity (in kVA) of the following transformers on the networkwithin the system: (a) (a) those transformers with secondary voltages of 230 volts or 400 volts (using the lower continuous rating if a dual rating is applied); and (a) (b) (b) any other transformers operating at voltages higher than those specified in paragraph (a) and through which electricity consumers are directly supplied with electricity (using the lower continuous rating if a dual rating is applied) means a cost specified in clause 3.1.3(1)(r) of the IM determination | |
| wash-up allowance | incars a cost specified in clause 3.1.5(1)(i) the five determination | |

| Transmission line charge revenue | means line charge revenue relating to transmission charges |
|--|--|
| Transpower | has the meaning as defined in s 54B of the Act |
| Transpower new investment contract charges | means a cost specified in clause 3.1.3(1)(c) of the IM determination |
| Unallocated initial RAB value | means the values of assets as determined in accordance with clause 2.2.3(1) of the IM determination |
| Unallocated overhead lines | means a circuit, or a section of a circuit, installed in an area that is not an urban, rural, remote or rugged area |
| Underground | means the total length of all circuits that are installed as underground cables, expressed in km |
| Unknown | means To capture all unplanned interruptions where the cause is not known |
| Urban | means a circuit, or a section of a circuit, installed in an area where the average HV span length is approximately 40 - 50 metres, located in urbanised locations but does not include those circuits located in rural, remote and/or rugged areas |
| Utilisation of Installed Firm Capacity % | means the current peak load expressed as a percentage of the <code>i</code> _Installed <code>f</code> _irm <code>Ceapacity</code> |
| Utilisation of Installed Firm Capacity + 5yrs % | means the <code>uUtilisation</code> of <code>iInstalled fEirm eCapacity</code> forecast by the EBD at the end of the year that is 5 years after the disclosure year, expressed in MVA |
| Utilised tax losses | has the meaning givenset out in paragraph (a) of the defined term in the IM determination |
| Value of commissioned assets | means the value of 'assets commissioned' |

| | 195 |
|---------------------------|--|
| Wash-up costs | means the sum of- |
| | (a) input methodology claw-back; |
| | (b) recoverable customised price-quality path costs; |
| | (c) catastrophic event allowance; |
| | (d) capex wash-up adjustment; |
| | (e) transmission asset wash-up allowance; |
| | (f) 2013-2015 NPV wash-up allowance; and |
| | (g) reconsideration event allowance; and |
| | (h) other wash_ups |
| Weighted average | means the weighted average expected total asset life of assets calculated by using |
| expected total asset life | the opening RAB values as weights where opening RAB value has the meaning |
| | givenset out in the IM determination |
| Weighted average | means the weighted average remaining asset life of assets calculated by using the |
| remaining asset life | opening RAB values as weights where remaining asset life and opening RAB values |
| | has the meaning givenset out in the IM determination |
| Weighted average | means the weighted average remaining useful life of assets included in opening |
| remaining useful life of | unamortised initial differences in asset values calculated by using the opening |
| relevant assets (years) | unamortised initial difference in asset values as weights |
| Wildlife | meansTo capture all unplanned customer interruptions resulting from wildlife |
| Villame | contact - includes birds, possums, vermin, cats etc. |
| Year change made | means- |
| | (a) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - no standard life asset, the year the asset was acquired; |
| | (b) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - modified life assets, the year the asset life was modified; |
| | (c) in relation to assets or groups of assets where depreciation is included in |
| | depreciation - alternative depreciation determined in accordance with CPP, |
| | the start of the CPP period |
| Year-end ROI – | means the <u>year-end</u> ROI comparable to the vanilla WACC less the product of the |
| comparable to a post | cost of debt assumption(%), the leverage and the corporate tax rate |
| tax WACC | |
| | |
| Year-end ROI – | means: |
| comparable to a vanilla | a-(b+c) |
| WACC | $q = \frac{1}{d + (e \times 5)}$ |
| | $q = \frac{a - (b + c)}{d + (e \times .5)}$ |
| | $(1 + half yearly IRR)^2 - 1$ |
| | where: |
| | a = Regulatory profit / (loss) including financial incentives and wash-ups |
| | b = Financial incentives |
| | c = Wash-ups |
| | d = Opening RIV |
| | e = Assets commissioned |
| | where the 3 half yearly amounts are the negative of opening RIV (year start) |
| | notional net cash flows (mid-year) |
| | |
| | the closing RIV less term credit spread differential allowance (year- |
| | end). |

Schedule 18 Certification for Year-end Disclosures

Clause 2.9.2 of section 2.9

We, [insert full names], being directors of [name of EDB] certify that, having made all reasonable enquiry, to the best of our knowledge-

- a) -the information prepared for the purposes of clauses 2.3.1, and 2.3.2,; and clauses 2.4.21, and 2.4.22; clauses 2.5.1, and 2.5.2,; and clauses 2.7.1 and 2.7.2 of the Electricity Distribution Information Disclosure Determination 2012 in all material respects complies with that determination; and
- b) the historical information used in the preparation of Schedules 8, 9a, 9b, 9c, 9d, 9e, 10, and 14, 14a and 14b has been properly extracted from the [name of EDB]'s accounting and other records sourced from its financial and non-financial systems, and that sufficient appropriate records have been retained [and if not, what records and systems were used]; and
- c) the forecasts in Schedules 11a, 11b, 12a, 12b and 12c are based on objective and reasonable assumptions which both align with [name of EDB]'s corporate vision and strategy and are documented in retained records.
- *[In respect of related party costs and revenues recorded in accordance with <u>sub</u>clauses 2.3.6(1) (when valued in accordance with clause 2.2.11(5)(h)(ii) of the Electricity Distribution Services Input Methodologies Determination 2010), <u>2.3.6(1)(f)2.3.6(2)(f)</u> and 2.3.7(2)(b), we certify that, having made all reasonable enquiry, including enquiries of our related parties, we are satisfied that to the best of our knowledge and belief the costs and revenues recorded for related party transactions reasonably reflect the price or prices that would have been paid or received had these transactions been at arm's-length.]
- * [in respect of the application of OVABAA in the allocation of costs or assets in accordance with clause 2.1.5 of the IM determination, we certify that, having made all reasonable enquiry, including enquiries of our related policies, we are satisfied that to the best of our knowledge and belief, the unregulated service would be unduly deterred if the OVABAA allocation was less than that disclosed.]
- * Delete if inapplicable
