

**Copper wire cables for telephone &
broadband. 15-7-2020**

**Where we are. Been on fibre cable for 2 yrs
at our residence, power goes off no phone.
Cell phone coverage slack to zero. Some yrs
back when Spark was called Telecom we
had an agreement that both phone at res &
just down road at other property be
connected with same phone no. Ratbags
putting fibre through disconnected phone to
other place. One of the installers at the
residence said no reason it cannot be
conned again, so both places can use same
line & phone no, as orig agreement with
Telecom. Thing is, Judges have ruled,
(precedent set in law), Cyf many change
name to OT, but what they did in past, still
liable for. I have law dg's and in my
Opinion, same applies to Spark, change name
still same outfit -organization. As such liable
for re-connecting. After I talked to the Min,
Communications, Spark said they could**

connect to copper wire at there, but new phone no & extra \$20 on our phone bill.

They disconnect phone without telling us! Broke an agreement to have the two places connected by phone. Their excuse—Not our policy to have 2 places connected to same line. Same side of the street with a gap between the 2 properties. Res is Official so is the one they blatantly broke agreement on that is Moriori- The Old People. (2 names 1st tourists who came here gave us- now called Maoris) This 2nd place; Equiv of a Maori Marae. In 2002 Hon. Margaret Wilson on behalf of NZ Govt -Crown recognized us and later that yr ratified such, Maori Affairs Min Hon, Parekura Horomia same plus Gazetted Res as part of the one down the road. Until I as; Hereditary Ieriki ieriki; say otherwise, it is so. I run the oldest Legal Authority in Tuwhenu (NZ). Unlike Maori, we have to fight for anything we get. Anyway, the point is Spark- Chorus have no respect for us pre-maori. I suggested they sort it back to what

we had at no cost as a PR exercise , good for them, good for us. Still waiting

We can send Wifi there by 2 nano stations (secure bridge) from Res. But without phone all office work now done at res, our Charities reg; Trust, Tribal Authority & Research unit Offices now back cluttering the res. Just peachy, arrogant huas.

Therefore there is still a place for copper landlines in some areas. We have no income, getting funding, near impossible.

Go in peace: 

Tuwhenu Moriori – The Old People Tua imi Ihi
