Subject: Feedback

Hello,

The Dunedin City Council who stripped Delta Utilities and Aurora Networks of their capital to pay for the financial over runs on the build of the Dunedin Stadium is the cause of the problem, with no money left in Aurora Networks to pay for network maintenance. This money should be repatriated by DCC or the increases applied only to DCC rate payers only. The lack of maintenance is directly at the direction of, and the responsibility of Dunedin City Council.

Sincerely,

[REDACTED]
