## Appendix

### Q# Consultation question

- 1 Do you agree that the UFB initiative POIs are those POIs that were implemented to satisfy the single POI per candidate area requirement under the NIPAs?  
Yes
- 2 Do you agree that the UFB initiative POIs are limited to POIs at layer 2 handover points?  
Yes
- 3 Is the list of UFB initiative POIs and their associated details in Attachment A complete and correct?  
*The correct name for the Northpower and Northpower LFC2 POI is "Alexander Street". The POI ID is "ALX".*
- 4 Do you agree with our proposal in paragraph 34 above? That is, for each specified POI, to specify that its related end-user premises, buildings, or other access points are those that are within the POI's associated geographic area/s under the UFB initiative, plus any other end-user premises, buildings, or other access points that are associated with the POI.  
Yes
- 5 Are you aware of any end-user premises, buildings, or other access points for whom fibre fixed line access services are available but that are not, or cannot be, associated with a UFB initiative POI? If so, how should we treat these?  
No
- 6 Do you see any advantages in alternative approach of identifying related end-user premises, buildings, or other access points by reference to SFAs?  
No
- 7 In circumstances where there is a future extension to a fibre network outside of the UFB initiative, rather than specifying a new POI, should we specify that end-user premises, buildings, or other access points served by the new fibre network be related to an existing UFB initiative POI?  
Yes
- 8 Are there any other details we should provide for each POI?  
No
- 9 Are you aware of any UFB initiative POIs that are not in the list in Attachment A but will exist as at the close of 31 December 2019?  
No
