Matthew Lewer  
Regulation Branch  
Commerce Commission  
PO Box 2351  
**WELLINGTON**

Dear Matthew

Centralines supports the proposed amendments to the Input Methodologies and Default Price Path Determination to ensure that EDBs can appropriately recognise discounts under their revenue caps.

We believe that the matter under consideration is a technical matter or error in expression, and the Commission should consider adjustments to its processes to allow for a swifter path for such amendments.

Yours sincerely,

Nathan Strong  
**GENERAL MANAGER BUSINESS ASSURANCE**
