

12 July 2012

Donald Gray  
General Manager  
Commercial Operator, Maui Pipeline  
Maui Development Limited  
P O Box 23 039  
Wellington 6140

Dear Donald

**Response to extension requests for information gathering notices**

1. This letter is in response to Maui Development Limited's (MDL) extension request, dated 22 June 2012, for responding to the Commerce Commission's 22 June 2012 information gathering notice.
2. We have considered MDL's request and agree to extend the timeframes for responding to parts of the 22 June 2012 information gathering notice. However, we still require the following information to be supplied by the original due date of 3 August 2012:
  - Weighted average price information - paragraph 5 of the 22 June 2012 information gathering notice
  - Commissioned and disposed assets information – Schedule A4 of the Request workbook (the MS Excel workbook that was provided with the 22 June 2012 information gathering notice)
  - Forecast information – Schedule B of the Request workbook
  - Revenue statistics – Schedule C of the Request workbook
  - Other regulated income – Schedule D of the Request workbook
  - Insurance cost information - Schedule E(B) of the Request workbook
3. The information listed above is to be provided with a cover letter signed by an authorised representative of MDL.
4. All other information required by the 22 June 2012 information gathering notice is to be supplied by no later than 5 pm Friday 31 August 2012. Any resubmitted information (eg, MDL's governance and audit processes may require information supplied by 3 August to be revised) is to be provided with an explanation of the

changes to the information supplied by 3 August 2012 and the reasons for those changes.

5. The directors' certificate and independent assurance report required by the 22 June 2012 information gathering notice is to be provided by Friday 31 August 2012.
6. The information sought by Nel Consulting Limited relating to MDL's proposed asset adjustments is to be provided by the due date of 17 July 2012.
7. Extending the timeframes as set out above will mean that our draft decisions on the initial default price-quality paths for gas pipeline services will only be able to include indicative starting prices. In light of this, we would publish any revised starting prices (that takes account of the information that is supplied after 3 August 2012) during the consultation period on the draft decisions. However, we do not propose to extend the proposed consultation period.
8. Please send information to [Regulation.Branch@comcom.govt.nz](mailto:Regulation.Branch@comcom.govt.nz), Attention: Matthew Lewer.

Yours sincerely

Dr Mark Berry  
Chair
