Subject: Oppose Aurora Plan

Hi.

I am a resident of [REDACTED]

I oppose allowing Aurora a Customised Price-quality Path.

Aurora should be held responsible for maintain their network responsibly within the adequate revenue they have received over the past 25 years.

Aurora have demonstrated they are not suitably qualified to run such a monopoly service for the district.

They should be divested of their interests specifically for the Central Otago / Queenstown lakes region and Comcom should be active in assistance of a customers trust whom should run the network.

Best Regards,
[REDACTED]
