Subject: Submission on Aurora Energy's investment plan key issues paper

Dear Sir or Madam. I'll try to make this as brief as possible ! Aurora is a monopoly.
If Aurora had competition it just could not raise funds and pass that cost onto clients .
I submit Aurora by normal commercial practice, should make a public share offer and leave consumers as is
!

Or leave the capital investment to recover delayed maintenance as is and compensate
consumers with a meaning full parcel of fully paid Aurora shares.

This has got to be an acknowledgement of past poor decisions by directors dating back to the time
Aurora's parent Company purchased Central Otago Electric Power Board circa. 1989 .

Please accept this as my submission to the Commerce Commission of NZ.

Yours sincerely , [REDACTED] , [REDACTED]
