Subject: Request for information on First Gas Distribution's asset replacement and renewal capex as discussed [CCNZ-iManage.FID200907]
Attachments: 2848949_20170406 Letter to ComCom_First Gas_Distribution AMP evidence - Apr 17.DOCX

Hi Ben

As discussed by phone this morning, we would like to hold a teleconference to discuss the following asset replacement and renewal capex forecasts in First Gas Distribution's 2016 AMP:

1. The main pipe programmes:
 - 1.1 pre-1985 PE pipeline replacement programme;
 - 1.2 Hamilton City small pipeline replacement programme (including the mechanical coupling upgrade);
 - 1.3 Hamilton City cathodic protection upgrade project.
2. DRS replacement and renewal programmes.

The letter we received from Strata following its review of the AMP which provides more information about the relevant issues is attached.

Please let me know a time that suits you for a phone call next week.

If you have any questions, please let me or Simon know.

Regards

Tricia Jennings
