

Good morning

As part of our September 2020 Process and Approach Paper, we indicated we were planning to hold a stakeholder workshop on quality measures under information disclosure and quality standards under price-quality regulation. Following supportive feedback in submissions we are now confirming the details for workshop, which are set out below.

Timing

Friday 26 February 2021

Location and remote attendance

Commerce Commission, Wellington office, 44 The Terrace. Our preference is for in-person attendance to better facilitate group discussion. However, if you are unable to attend in person, we can enable remote attendance.

Agenda

We are still developing the agenda for the workshop, which we intend to circulate within the next fortnight. In general, the workshop will focus on:

- Quality measures under information disclosure for all local fibre companies
- Quality standards under price-quality regulation for Chorus

RSVP

If you are interested in attending, please RSVP to telcofibre@comcom.govt.nz in response to this email. If you intend to attend remotely, please let us know.

Ngā mihi | Kind regards

Thomas Jones

Manager – Fibre price-quality regulation and information disclosure
