Submissions: *Powerco CPP-to-DPP Draft*
Commerce Commission
Via email infrastructure.regulation@comcom.govt.nz

Tēnā koutou,

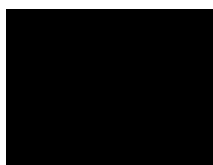

This cross-submission concludes the public consultation process on the Commission's draft decision relating to the reset of Powerco's electricity network revenues¹. In addition to Powerco, Aurora made a submission on the Commission's draft decision. At a high level, Aurora:

- supported the Commission's approach to updating inputs to the forecasting models
- suggested the Commission engage with Powerco to understand why our forecasts have changed between our 2021 and 2022 Asset Management Plans

We support these points – our submission provided some material to address how forecasts have changed and we welcome engagement with the Commission on any components of our AMP22 forecasts.

We look forward to engaging with the Commission on our revenue reset for 2024/25 and communicating the outcome with our customers in due course.

Nāku noa, nā,

Andrew Kerr

Head of Policy, Regulation, and Markets

POWERCO
