8. Price path

Starting prices
8.1 The starting prices that apply to a Non-exempt EDB, specified as maximum allowable revenue, and the Regulatory Period or CPP Regulatory Period to which they apply, are as set out in Schedule 1.

Rates of change
8.2 The annual rates of change in prices relative to CPI allowed for a Non-exempt EDB during a Regulatory Period or CPP Regulatory Period are as set out in Schedule 2.

Compliance with allowable notional revenue
8.3 The notional revenue of a Non-exempt EDB in an Assessment Period must not exceed the allowable notional revenue for the Assessment Period, such that:

\[ NR \leq ANR \]

where-

\( NR \) is the notional revenue for the Assessment Period, calculated in accordance with clause 8.5; and

\( ANR \) is the allowable notional revenue for the Assessment Period, calculated in accordance with clause 8.4.

How to calculate notional revenue and allowable notional revenue
8.4 Allowable notional revenue specifies the maximum Distribution Prices that may be charged during an Assessment Period, and is calculated in accordance with the formula –

(a) in Schedule 3A for the first Assessment Period of a Regulatory Period or CPP Regulatory Period; and

(b) in Schedule 3B for all other Assessment Periods.

8.5 The notional revenue of a Non-exempt EDB is calculated in accordance with the formula –

\[ \sum_i DP_{i,t} Q_{t,t-2} \]

where-

\( t \) is the year in which the Assessment Period ends;

\( i \) denotes each Distribution Price;

\( DP_{i,t} \) is the \( i^{th} \) Distribution Price during any part of the Assessment Period \( t \); and
$Q_{i,t-2}$ is the Quantity for the Assessment Period ending two years prior to year $t$ corresponding to the $i^{th}$ Distribution Price.

**Demonstration of recovery of Pass-through Costs and Recoverable Costs**

8.6 In respect of each Assessment Period –

(a) every Non-exempt EDB must calculate a Pass-through Balance in accordance with the formula –

$$PTB_t = \sum_i PTP_{i,t} Q_{i,t} - K_t - V_t + PTB_{t-1} (1 + r)$$

where-

- $t$ is the year in which the Assessment Period ends;
- $i$ denotes each Pass-through Price;
- $PTB_t$ is the Pass-through Balance for the Assessment Period $t$;
- $PTB_{t-1}$ is –
  (a) nil in the first Assessment Period in which a Non-exempt EDB must calculate a Pass-through Balance, and
  (b) in all other Assessment Periods the Pass-through Balance for the Assessment Period prior to year $t$, as calculated using any additional information available at the end of Assessment Period $t$;
- $PTP_{i,t}$ is the $i^{th}$ Pass-through Price during any part of the Assessment Period $t$;
- $Q_{i,t}$ is the Quantity for the Assessment Period $t$ corresponding to the $i^{th}$ Pass-through Price;
- $K_t$ is the sum of all Pass-through Costs that apply to the Assessment Period $t$;
- $V_t$ is the sum of all Recoverable Costs that apply to the Assessment Period $t$; and
- $r$ is the Cost of Debt; and

(b) the Pass-through Prices for the Assessment Period include:

(i) a demonstrably reasonable forecast of Pass-through Costs and Recoverable Costs that apply to the Assessment Period in accordance with Schedule 5; and
(ii) all or any portion of any over- or under-recovery of Pass-through Costs or Recoverable Costs from a prior Assessment Period, adjusted for the Cost of Debt, as reflected in the most recently calculated Pass-through Balance at the time the Non-exempt EDB sets Prices.

Restructure of prices

8.7 For the avoidance of doubt, a Restructure of Prices by a Non-exempt EDB during an Assessment Period does not change the allowable notional revenue for that Assessment Period.

8.8 Where a Non-exempt EDB undertakes a Restructure of Prices, the EDB must:

(a) in an Assessment Period during which a Restructure of Prices first applies, calculate notional revenue for that Assessment Period using the Quantities determined in accordance with clause 8.9; and

(b) in the Assessment Period immediately following the Assessment Period during which a Restructure of Prices first applies, calculate –

(i) allowable notional revenue using the Quantities determined in accordance with clause 8.9; and

(ii) notional revenue using the Quantities determined in accordance with clause 8.9.

8.9 For the purposes of clause 8.8, and subject to clause 8.10, where:

(a) a Restructure of Prices combines two or more Consumer Groups into one Consumer Group, the Quantities corresponding to the Prices in the combined Consumer Group must be the sum of the Quantities corresponding to each of the Prices that applied to the previous Consumer Groups; and

(b) a Restructure of Prices separates a Consumer Group into two or more new Consumer Groups, the Quantities corresponding to the Prices in each new Consumer Group must be based on the Quantities corresponding to the Prices that applied to the original Consumer Group, and the sum of the Quantities corresponding to each new Consumer Group must equal the sum of the Quantities corresponding to the original Consumer Group.

8.10 If as a result of a Restructure of Prices there are no Quantities for the Assessment Period two years prior that practically correspond to the restructured Prices, the Non-exempt EDB must derive a demonstrably reasonable estimate of the Quantities using any reasonable methodology, provided the Non-exempt EDB:

(a) does not use a forecast Quantity as the estimate of a Quantity;

(b) uses any available relevant Quantity information in the Assessment Period two years prior;
(c) considers any other relevant information reasonably available; and

(d) uses a substantially similar methodology for determining Quantities in each Assessment Period for which Quantities are determined under this clause.

9. Quality standards

Compliance with quality standards

9.1 A Non-exempt EDB must, in respect of each Assessment Period, either:

(a) comply with the annual reliability assessment specified in clause 9.2 for that Assessment Period; or

(c) for the Assessment Period in which the Major Transaction occurs, and each remaining Assessment Period of the Regulatory Period or CPP Regulatory
Period, re-calculate the quality measures applicable to the Non-exempt EDB in accordance with Schedule 4B.

10.5 For the purposes of this clause 10 and Schedules 3C and 4B, a Major Transaction occurs in the Assessment Period in which ICPs are first supplied Electricity Lines Services by another EDB as a result of the Major Transaction.

Alternative approach to determining the effect of a Major Transaction on quality measures

13. A Non-exempt EDB that enters into a Major Transaction may re-calculate its quality measures, including the applicable SAIDI Limit, SAIDI Unplanned Boundary Value, SAIDI Target, SAIDI Cap, and SAIDI Collar and SAIFI Limit, SAIFI Unplanned Boundary Value, SAIFI Target, SAIFI Cap, and SAIFI Collar, using an alternative approach approved by the Commission that delivers the equivalent quality standards for Consumers as those provided prior to the Major Transaction.

   (a) not have already been recovered in a previous Assessment Period;

   (b) not otherwise be or intended to be recovered other than through Prices; and

   (c) not be attributable to Pass-through Costs or Recoverable Costs that relate to an Assessment Period prior to 1 April 2015, except for the amount of any levies payable under regulations made under the Electricity Industry Act 2010 for the Assessment Period ending 31 March 2015 that were not recovered in that Assessment Period.

2. For the purposes of determining Pass-through Costs and Recoverable Costs:

   (a) any Energy Efficiency and Demand Side Management Incentive Allowance must be approved in accordance with Schedule 5A;

   (b) a Quality Incentive Adjustment must be calculated in accordance with Schedule 5B;

   (c) any claw-back that applies to a Non-exempt EDB for an Assessment Period is specified in Schedule 5C;

   (d) the 2013-15 NPV Wash-up Allowance is specified in Schedule 5D;
