Dear Paolo

Cross Submission on the IPP Draft Decision

This letter sets out our response to the submissions you received from stakeholders on the IPP Draft Decision. We attach a table which summarises points raised by submitters together with our response.

We have carefully considered the submissions and whether they raise any new or additional issues. This follows extensive and constructive engagement with stakeholders throughout the development of our proposal. We trust our responses in the attached table are of assistance both to the Commission and stakeholders.

Overall, most matters raised by submitters have now been addressed in our submission on the IPP Draft Decision. No new views, information or evidence has been provided which would lead to a change in our revised proposal and position as set out in our submission.

We note that we have not responded to issues raised by some submitters that are outside the scope of this consultation process (for example, in relation to asset valuation, WACC and pricing).

Yours sincerely

Ross Parry
Planning and Regulatory Manager
