

EDB DPP3 final determination – 27 November 2019

Changes in electricity distributor revenues in the first year of DPP3

(Includes effect of incentive schemes but excludes transmission charges)

Changes in residential consumer monthly electricity bills 2019/20 to 2020/21 per electricity distributor

(Includes effect of incentive schemes and transmission charges)

The consumer impact numbers above are indicative only. They represent changes in the limits on what distributors can charge, not necessarily changes in individual bills. Some distributors do not charge up to their full revenue allowances and distributors are able to make decisions about how to allocate their revenue allowances among different consumers.
