## SUBPART 2 Asset valuation

## 2.2.8 Physical asset life

- (1) Physical asset life means, subject to subclauses (2) and (5), in the case of-
  - (a) a fixed life easement, the fixed duration or fixed period (as the case may be) referred to in the definition of fixed life easement;
  - (b) an extended life asset or a refurbished asset, its physical service life potential as determined by the GTB;
  - (c) a reduced life asset an asset determined by the GTB to have a service life potential shorter than its standard physical asset life, its physical service life potential as determined by an engineer, subject to subclause (3);
  - (d) a **found asset** for which a similar asset exists as described in subclause 2.2.12(2)(b)(i), the **asset life** applying to the similar asset;
  - (e) a non-network asset, or right-of-use asset, its asset life as determined under GAAP;
  - (f) an asset acquired or transferred from a regulated supplier, the asset life that the vendor would have assigned to the asset at the end of its disclosure year had the asset not been transferred;
  - (g) an asset acquired or transferred from an entity other than a **regulated** supplier:
    - (i) where a similar asset exists, the **asset life** assigned to the similar asset; or
    - (ii) where a similar asset does not exist, the physical service life potential determined by an **engineer**, subject to subclause (3);
  - (h) an asset not referred to in paragraphs (a)-(g)-
    - (i) in the initial RAB and an included asset; or
    - (ii) not in the initial RAB,

and-

- (iii) having a standard physical asset life, its standard physical asset life;
- (iv) not having a standard physical asset life, the asset life applying to an asset with an unallocated opening RAB value that is similar in terms of asset type; or

- (v) in all other cases, its physical service life potential determined by an **engineer**, subject to subclause (3);
- (i) an asset (other than a composite asset) not referred to in paragraphs (a)(h), its remaining physical service life potential as on the last day of the
  disclosure year 2009 as determined in accordance with the method used
  to determine an allowance for depreciation, in the case of-
  - (i) Maui Development Limited, for the calculation of the 'Accounting Return on Total Assets' measured in the **2009 disclosure financial statements**; and
  - (ii) all other **GTBs**, for the purpose of the **2009 disclosure financial** statements;
- (j) a composite asset, the average asset life of the assets comprising it determined in accordance with paragraphs (a)–(i), with the modification that each such asset life must be weighted with respect to the proportion of its respective opening RAB value to the sum of the opening RAB values of the components in the earliest disclosure year in which all component assets were held by the GTB.
- (2) For the purpose of subclause (1), physical asset life means, in the case of a dedicated asset which is not expected to be used by the **GTB** to provide **gas transmission services** beyond the term of the fixed term agreement relating to the asset between the **GTB** and the **consumer**, at the **GTB's** election, the term of that agreement instead of the physical asset life that would otherwise apply under that subclause.
- (3) For the purpose of subclauses (1)(bc), 1(g)(ii) and (1)(h)(v), a determination made in accordance with this clause by an **engineer** of physical service life potential-
  - (a) in relation to an asset with an unallocated opening RAB value is deemed applicable to all assets of similar asset type for which there is a requirement in this clause for an engineer's determination of physical service life potential; and
  - (b) must be evidenced by a report written by the engineer in question that includes an acknowledgement by the engineer that the report may be publicly disclosed by a GTB pursuant to an ID determination.
- (4) In this clause-
  - (a) 'dedicated asset' means an asset operated for the benefit of a particular consumer pursuant to a fixed term agreement for the supply of gas transmission services between the GTB in question and that consumer;

- (b) 'extended life asset' means an asset whose physical service life potential is greater than its **standard physical asset life**;
- (c) 'refurbished asset' means an asset on which work (other than maintenance) has been carried out resulting in an extension to its physical service life potential;
- (d) 'reduced life asset' means an asset determined by the GTB to have a physical service life potential shorter than its standard physical asset life; and
- (d) 'composite asset' means a configuration of two or more assets that is not capable of operation in the absence of any of those assets.
- (5) If the **Commission** has applied an adjustment factor under clause 4.2.2(3) and (4) for a **DPP Regulatory Period**, a **GTB** must-
  - (a) in respect of the first **transitional disclosure year** for which an adjustment factor is applied by the **Commission** for that **DPP regulatory period**, reduce or extend (as the case may be) the asset life of some or all assets that have an **unallocated opening RAB value**, such that:
    - (i) the forecast depreciation in respect of existing assets for the first transitional disclosure year and each subsequent disclosure year that ends in the DPP regulatory period, in aggregate, is equivalent to the value of the forecast depreciation for existing assets in the applicable DPP determination for that GTB; and
    - (ii) subject to subclause (5)(a)(i), the remaining average asset life for existing assets in the first **transitional disclosure year** calculated in accordance with subclause (6) approximates the value of the **transitional adjusted asset life for existing assets** in the applicable **DPP determination** for that **GTB**; and
  - (b) for assets commissioned during that DPP regulatory period, apply a percentage reduction or extension (as the case may be) to the applicable asset life for those assets equal to the percentage reduction or extension to the asset life of the existing assets of a similar asset type as made under subclause (5)(a).
- (6) For the purposes of subclause (5)(a), the 'remaining average asset life for existing assets' for the first **transitional disclosure year** means the value determined in accordance with the formula-

"sum of **opening RAB value** for all assets **÷** sum of **depreciation** for all assets."

# PART 4 INPUT METHODOLOGIES FOR DEFAULT PRICE-QUALITY PATHS

#### SUBPART 2 Asset valuation

## 4.2.2 <u>Total depreciation</u>

- (1) Total depreciation means the sum of depreciation for **existing assets** and **additional assets** calculated under subclause (2).
- (2) For the purpose of subclause (1), 'depreciation' means, subject to subclause (3), in the case of-
  - (a) existing assets of the GTB, for-
    - (i) the **base year**, the sum of all amounts of 'depreciation' determined in accordance with Part 2 for that **disclosure year**; and
    - (ii) each **disclosure year** thereafter, the value determined in accordance with the formula-
    - [1 ÷ remaining asset life for existing assets] × aggregate opening RAB value for existing assets; and
  - (b) **additional assets** of the **GTB**, the value determined in accordance with the formula-
    - $[1 \div remaining \ asset \ life \ for \ additional \ assets] \times aggregate \ opening \ RAB$  value for additional assets.
- (3) For the purpose of subclause (2)-
  - (a) 'remaining asset life for existing assets' for a disclosure year means-
    - (i) unless subclause (3)(a)(ii) applies, the value determined in accordance with the formula
      - aggregate opening RAB value for existing assets for the base year ÷ total depreciation for the base year,
      - less the number of **disclosure years** from the **base year** to the **disclosure year** in question; and or
    - (ii) if the **Commission** applies an adjustment factor for the relevant **DPP** regulatory period under subclause (4), the value determined in accordance with the formula—

adjustment factor × (aggregate opening RAB value for existing assets for the base year ÷ total depreciation for the base year)

less the number of **disclosure years** from the **base year** to the **disclosure year** in question; and

- (b) 'remaining asset life for additional assets' for a disclosure year means-
  - (i) unless subclause (3)(b)(ii) applies, 45 years less the number of disclosure years from the disclosure year for which the forecast aggregate value of commissioned assets for the relevant additional assets is determined to the disclosure year in question; or
  - (ii) if the Commission applies an adjustment factor for the relevant DPP regulatory period under subclause (4), the value determined in accordance with the formula—
     adjustment factor × 45 years

less the number of disclosure years from the disclosure year for which the forecast aggregate value of commissioned assets for the relevant additional assets is determined to the disclosure year in question.

(4) The **Commission** may apply an adjustment factor in respect of a **DPP regulatory period** for the purpose of determining the **remaining asset life for existing assets** and the **remaining asset life for additional assets**, provided the **Commission** is satisfied that applying an adjustment factor would better reflect economic asset lives and doing so would better promote the purpose of Part 4 of the **Act**.

# SUBPART 5 Reconsideration of the default price-quality path

## 4.5.4A Capacity Event

'Capacity event' means an event for which a GTB demonstrates that -

- (a) the GTB's network needs additional capacity to provide gas transmission services;
- (b) the primary reason for the need for additional capacity is to meet established or reasonably anticipated demand for
  - (i) customer connection capex;
  - (ii) system growth capex;

50

Gas Transmission Services Input Methodologies Amendment Determination (No.2) 2022 4388058

- (iii) asset relocations capex;
- (iv) asset replacement and renewal capex; or
- (v) a combination of customer connection capex and system growth capex;
- (c) when the **DPP** was determined, the need for the additional capacity
  - (i) was not sufficiently certain as to timing and was therefore not provided for in the **DPP**; or
  - (ii) could not reasonably have been foreseen by a prudent **GTB**;
- (d) addressing the need for additional capacity -
  - (i) would require First Gas Limited, to incur costs of at least two million dollars of capex during the DPP regulatory period, above any capital contributions to be received by the GTB and any allowance provided for in the DPP, in respect of the capacity event;
  - (ii) would not require First Gas to Limited to incur costs greater than fifteen million dollars of capex, above any capital contributions to be received by the GTB, or any amounts included in the GTB's capex forecasts and provided for in the DPP, in respect of the capacity event; and
  - (iii) meets the expenditure objective.

#### 4.5.4B Risk event

'Risk event' means the deterioration of one or more assets that has occurred, that will have the effect in (a)(i) or (a)(ii), or both effects, and meets the criteria in (b) and (c); or an event for which a **GTB** demonstrates that-

- (a) based on a **probabilistic risk assessment**, one or more of the assets in the **GTB's network** will deteriorate to such an extent that failing to take steps in the **DPP regulatory period** to remedy the deterioration would
  - (i) have a materially adverse effect on the **GTB's** ability to meet its quality standards; or
  - (ii) compromise safety for -
    - (A) any **person**;
    - (B) any equipment; or
    - (C) the **network**;

- (b) when the **DPP** was determined, the need to remedy the deterioration
  - (i) was not sufficiently certain as to timing and was therefore not provided for in the **DPP**; or
  - (ii) could not reasonably have been foreseen by a prudent GTB; and
- (c) taking steps to remedy the deterioration
  - (i) would require First Gas Limited to incur costs of at least two million dollars of opex or capex, or both, during the DPP regulatory period above any capital contributions to be received by the GTB and any allowance provided for in the DPP, in respect of the risk event;
  - (ii) would not require First Gas Limited to incur costs greater than fifteen million dollars of capex or opex, or both, above any capital contributions to be received by the GTB, or any amounts included in the GTB's capex or opex forecasts and provided for in the DPP, in respect of the risk event;
  - (iii) cannot be delayed until a future **DPP regulatory period** without having a materially adverse effect on the **GTB's** ability to meet its quality standards or compromise **safety** as referred to in paragraph (a)(ii); and
  - (iv) meets the expenditure objective.

## 4.5.5 When price-quality paths may be reconsidered

- (1) A **DPP** may be reconsidered by the **Commission** if-
  - (a) the **Commission** considers, or the **GTB** applies to the **Commission** and satisfies the **Commission**, that-
    - (i) subject to subclause (2), a **catastrophic event** has occurred;
    - (ii) a **change event** has occurred;
    - (iii) there has been an error event;
    - (iv) a major transaction has occurred; or
    - (v) false or misleading information has been provided; or
  - (b) the GTB applies to the Commission and satisfies the Commission, that-
    - (i) a capacity event has occurred; or
    - (ii) a **risk event** has occurred.
- (2) For the purpose of subclause (1)(b)(i), where the costs to rectify the adverse consequences of the **catastrophic event** are fully covered by –

- (a) the **DPP** (e.g. through an **operational expenditure** allowance for self-insurance); or
- (b) commercial insurance held by the **GTB**, the **Commission** will only reconsider the quality standards of the **DPP**.
- (3) For the purpose of subclause (1)(a)(v), 'false or misleading information' means-
  - false or misleading information relating to the making or amending of a
     DPP determination has been knowingly-
    - (i) provided by a GTB or its agents to the Commission; or
    - (ii) disclosed pursuant to the Gas (Information Disclosure) Regulations 1997 or an **ID determination**; and
  - (b) the **Commission** relied on that information in making or amending a **DPP** determination.
- (4) The Commission will not reconsider a DPP in respect of a capacity event or risk event, if -
  - (a) the need for the expenditure to address the **capacity event** or **risk event** was already considered when setting the **DPP** and there was no new event that changed the circumstances that existed at the time the **DPP** was set; or
  - (b) the **capacity event** or **risk event** has already been the subject of a reconsideration of the **DPP** by the **Commission**.
- (5) In the case of a **capacity event** the **Commission** may only reconsider the **capex** included in the price path and may not reconsider the quality standards.
- (6) In the case of a **risk event** the **Commission** may only reconsider the **opex** and **capex** included in the price path and may not reconsider the quality standards.
- (7) In the case of a **risk event** the **Commission** may only reconsider the **opex** included in the price path where **opex** is demonstrably more cost effective than **capex** in addressing the **risk event**.
- (8) In the case of a **capacity event** the **Commission** will only consider an application for additional **capex** in respect of expenditure that is to be incurred after the date the application for reconsideration of the **DPP** is submitted to the **Commission**.
- 4.5.6 Amending price-quality path after reconsideration
- (1) Where, after reconsidering a **DPP**, the **Commission** determines that the **DPP** should be amended, the **Commission** may amend either or both of the price path or the quality standards specified in the **DPP determination**, subject to the rest of this clause.
- (2) The **Commission** will not amend the-

- (a) price path more than is reasonably necessary to mitigate the effect of-
  - (i) the catastrophic event;
  - (ii) the change event;
  - (iii) the error event;
  - (iv) the major transaction; or
  - (v) the provision of false or misleading information,;
  - (vi) the capacity event; or
  - (vii) the risk event,

on **price**; or

- (b) quality standards more than are reasonably necessary to mitigate the effect of-
  - (i) the catastrophic event;
  - (ii) the change event;
  - (iii) the error event;
  - (iv) the major transaction; or
  - (v) the provision of false or misleading information,

on quality.
