

Submission To The Commerce Commission

(URGENT: closing date February 14)

!we wish to register opposition to the proposed alliance between Air NZ and Qantas. It is not in the best interests of New Zealanders for the following reasons:

Economic impact: It is anti-competitive and is likely to result in higher airfares. The Government has only recently bought Air NZ back; the proposed alliance risks seeing its services and infrastructure eroded.

National interest: It detracts from, rather than strengthens, New Zealand's identity as a unique multicultural society, with our new-found and growing sense of mana, brought about through our remarkable physical environment and our endeavours in arts, sports and business.
