

**Addendum to Second Draft Determination
Cavalier Wool Holdings Limited and
New Zealand Wool Services International Limited**

1 October 2015

On 29 September 2015, following an information request from the Commission, Cavalier provided the Commission with additional information concerning the costs and revenues for the Clive wool scour for the year ended 30 June 2015 and scouring usage for the previous four seasons (the **additional information**).

The Commission has not yet had an opportunity to analyse and assimilate this information, and the information has not been incorporated in its Second Draft Determination.

A public version of the additional information is **attached** to this addendum.

The Commission has issued its Second Draft Determination in accordance with the timetable rather than delay while the additional information is considered. Interested parties are invited to provide submissions on the additional information as part of the submissions process.

Accordingly, as indicated in the Commission's media release, we invite the applicant and interested parties to provide submissions on this and other issues by 15 October 2015.
