Dear Tom

Request for extension to deadline for cross-submissions: UBA and UCLL FPP draft determinations

Thank you for your letter dated 3 February 2015 (received 3 March 2015 by email).

As you are aware, the Commission has already provided an extension to the UCLL and UBA price review submission period. We are therefore declining a general extension request.

However, we will allow an extension to all parties for providing cross-submissions relating to geospatial modelling to **12 pm on Thursday 2 April 2015**.

We are publishing your letter and this response on our website so that all parties are aware of this extension. We require that Vodafone and any other parties wishing to avail themselves of this extension request provide the Commission with a specific statement of what the Commission can expect to receive in cross-submissions relating to geospatial modelling so that we, and other parties, are able to plan accordingly. We will also publish these specific statements on our website.

Yours sincerely

Dr Stephen Gale
Telecommunications Commissioner
