Subject: Boost HD Cross submission from TUANZ

Hi

This brief cross-submission is to support the cross-submissions from InternetNZ & Wigley & Co.

Our position remains based on 2 principles:

1.0 Supporting the integrity and intention of our regulatory environment from cynical manipulation and gaming.

2.0 Chorus have yet to justify the 'freezing' in time of the regulated services to create an artificial class of commercial services.

Kind Regards

Chris O'Connell

Acting CEO

TUANZ

Telecommunications Users Association of New Zealand
