The Part 3 Schedules that are not included in this document were published with this document on 30 November 2021 and are available as Microsoft Excel workbooks with the same titles as listed above, at:

 $\frac{https://comcom.govt.nz/regulated-industries/telecommunications/projects/fibre-price-quality-path-and-information-disclosure\#projecttab.$

Under Part 6 of the Telecommunications Act 2001, the Commerce Commission makes the following determination:

PART 1 GENERAL PROVISIONS

1.1 TITLE

1.1.1 This determination is the Fibre Information Disclosure Determination 2021.

1.2 COMMENCEMENT DATE

1.2.1 This determination comes into force on 1 January 2022.

1.3 APPLICATION

1.3.1 This determination applies to **ID-regulated providers.**

1.4 INTERPRETATION

- 1.4.1 In this determination, unless the context otherwise requires—
 - (1) Except where subclauses (2) and (3) apply, terms in bold type in this determination (including the main body and the schedules) have the meanings given to those terms in clause 1.4.3;
 - (2) Terms that are not defined under clause 1.4.3, but which are in bold type in the reports in the schedules required under—
 - (a) clauses 2.3.1, 2.3.2, 2.4.2, and 2.4.3, are defined in Schedule 16 (Financial and Asset Management report definitions);
 - (b) clauses 2.3.3 and 2.4.4, are defined in Schedule 23 (Quality report definitions); and
 - (c) clauses 2.3.3(1) 2.4.5, 2.4.6(1), 2.4.4 2.4.6(3), are defined in Schedule 26 (Pricing report definitions);
 - (3) If a defined term in the main body of this determination conflicts with a defined term in a schedule of this determination, the defined term in the schedule prevails;
 - (4) Terms used in this determination that are defined in the **Act** but not in this determination have the same meanings as in the **Act**;
 - (5) Terms used in this determination that are defined in the IM determination but not in this determination have the same meanings as in the IM determination;
 - (6) A word which denotes the singular also denotes the plural and vice versa;
 - (7) An obligation to do something is deemed to include an obligation to cause that thing to be done;
 - (8) Financial items must be measured and disclosed in accordance with **GAAP** unless otherwise required by this determination or the **IM determination**;

- (9) Non-financial items must be measured and disclosed in accordance with standard industry practice unless otherwise required in this determination;
- (10) Guidance notes in this determination are italicised and are for guidance purposes only. Guidance notes do not form part of the determination, and in the event of a conflict between a guidance note and this determination, the determination prevails; and
- (11) Materials incorporated by reference into this determination, including standards promulgated by other bodies, are incorporated under the terms of Schedule 5 of the Commerce Act 1986 (applied by s 15(2)(e) of the **Act**).
- 1.4.2 For the purpose of disclosure year 2022, an information disclosure requirement in this determination that applies to an ID-only regulated provider in respect of a disclosure year must be interpreted and applied as if a reference to 'disclosure year' in the particular information disclosure requirement was a reference to 'disclosure period'.

Guidance note: clause 1.4.2 and the definition of 'disclosure period' provide for the fact that the start of disclosure year 2022 for each ID-only regulated provider does not coincide with the commencement date of this determination. To ensure each ID-only regulated provider can apply information disclosure requirements in this determination from the commencement date to the end of disclosure year 2022 (the 'disclosure period'), it is therefore necessary to 'pro-rate' or limit those requirements so they are interpreted and applied on the basis of a disclosure period rather than on the basis of a disclosure year;

1.4.3 In this determination the words or phrases in bold type bear the following meanings—

Α

access seeker	has the meaning set out in paragraph (d) of the definition of 'access seeker' in s 5 of the Act ;
Act	means the Telecommunications Act 2001;
allocated works under construction	means the total value of unallocated works under construction allocated to PQ FFLAS or ID-only FFLAS (as applicable);
arm's-length transaction	has the meaning given in the IM determination;

Guidance note: (refer to clause 1.4.1(11) of this determination)

This definition used in the **IM determination** is identical to the definition in **ISA (NZ) 550**;

asset allocator

has the meaning given in the **IM determination**;

asset value

has the meaning given in the **IM determination**;

assets commissioned

means, as applicable,—

- (a) in relation to the unallocated RAB or unallocated works under construction, as applicable, the sum of the value of commissioned core fibre assets as determined in a manner consistent with clause 2.2.13 of the IM determination;
- (b) in relation to the RAB or allocated works under construction, as applicable, the value of the assets (as determined in accordance with paragraph (a)) allocated to PQ FFLAS or ID-only FFLAS (as applicable); or
- (c) in relation to forecast information, a forecast of the value of the assets (as determined in accordance with paragraph (b)) for a future disclosure year;

audited disclosure information

means information for which an **ID-regulated provider** procures an assurance report under clause 2.7.1(1), and which is disclosed under (as applicable)—

- (a) clauses 2.3.1(1) to 2.3.1(16), 2.3.3(1), 2.4.4(1), 2.4.2(1) to 2.4.2(12); and
- (b) the **related party transaction** provisions in clauses 2.5.4 and 2.5.6;

C

capital expenditure

means,—

- (a) in relation to unallocated works under construction, costs-
 - (i) incurred in a disclosure year in acquiring or developing an asset that is, or is intended to be, commissioned; and
 - (ii) that are included or are intended to be included in the value of assets commissioned relating to the unallocated RAB;
- (b) in all other instances, costs-
 - incurred or forecast to be incurred in acquiring or developing a core fibre asset in the disclosure year that is, or is intended to be, commissioned; and
 - (ii) that are included or are intended to be included in the value of assets commissioned relating to the RAB;

causal relationship

has the meaning given in the $\ensuremath{\text{IM}}$

determination;

central office

means a physical building or cabinet used to house a **termination point** of a **fibre network**;

Chorus

means Chorus Limited or any subsidiary of, or

successor to, that company;

commencement date

means the date specified in clause 1.2.1 of

this determination;

Commission

has the meaning given in s 5 of the Act;

commissioned

has the meaning given in the IM

determination;

connection

has the meaning given in the IM

determination;

contract

means a contract for the provision of

regulated FFLAS whether or not the contract, or any part of the contract, is in writing and

includes-

- (a) a contract under which regulated FFLAS
 is being provided, although some or all of
 the terms and conditions in relation to
 the provision of the regulated FFLAS
 have not been settled; and
- (b) any operating agreement, side letter, or documentation that influences, adjusts or amends the terms and conditions of the contract;

core fibre asset

has the meaning given in the **IM determination**;

cost allocator

has the meaning given in the **IM**

determination;

cost of financing

means the cost of financing incurred by an **ID-regulated provider** in the construction phase of a project that creates a new **network asset**, determined in accordance with clause 2.2.13(4) of the **IM determination** and allocated to **PQ FFLAS** or **ID-only FFLAS** (as applicable) in accordance with clauses 2.1.1 and 2.1.2 (as applicable) of the

IM determination;

D

directly attributable

has the meaning given in the $\ensuremath{\mathbf{IM}}$

determination;

director

has the meaning given in the IM

determination;

disclosure period

means the period for an **ID-only regulated provider** from the **commencement date** to

the end of the disclosure year 2022;

disclosure year

means—

- (a) for Chorus, the 12-month period ending on 31 December of the year the disclosure relates to or, if the term 'disclosure year' is combined with a year (for example 'disclosure year 2022'), the 12-month period ending on 31 December of that year;
- (b) for Enable, the 12-month period ending on 30 June of the year the disclosure relates to or, if the term 'disclosure year' is combined with a year (for example 'disclosure year 2022'), the 12-month period ending on 30 June of that year; and
- (c) for Tuatahi and Northpower Fibre, the 12-month period ending on 31 March of the year the disclosure relates to or, if the term 'disclosure year' is combined with a year (for example 'disclosure year 2022'), the 12-month period ending on 31 March of that year;

Ε

Enable means Enable Networks Limited or

any subsidiary of, or successor to, that

company;

end-user has the same meaning as defined in s

5 of the Act;

E-NNI means an external network-to-

network interface;

E-NNI/ co-location connection means an instance of ID FFLAS or PQ

FFLAS being provided by an ID-

regulated provider to an E-NNI or to a

co-location at a central office;

equivalent non-standard

contract

means a **non-standard contract** for the provision of **regulated FFLAS** that is in all material respects the same as that provided

under a standard contract;

equivalent standard contract means a standard contract for the provision

of regulated FFLAS that is in all material

respects the same as that provided under a **non-standard contract**;

error

means incorrect information disclosed under this determination in such a way that-

- (a) the data is incorrect;
- (b) a statement is incorrect; or
- (c) the compilation of disclosed information is inconsistent with the determination; but

is not where-

- (d) the incorrect information concerns the initial RAB; or
- (e) an estimate has changed due to new information becoming available;

extending the network

means capital expenditure to extend the fibre network to new streets or developments, and to infill the network to accommodate address growth;

F

fibre asset has the same meaning as defined in s 177(6)

of the **Act**, and is either—

- (a) a core fibre asset; or
- (b) the financial loss asset;

fibre network has the same meaning as defined in s 5 of the

Act;

fibre to the premise (FTTP) means **fibre network** constructed to

terminate at an end-user's premises;

financial loss asset has the meaning given in the IM

determination;

G

GAAP has the meaning given in the **IM**

determination;

GST has the same meaning given in the **IM**

determination;

ı

ID FFLAS has the meaning given in the **IM**

determination;

ID-only FFLAS has the meaning given in the **IM**

determination;

ID-regulated provider means a **person** who is prescribed in

regulations made under s 226 of the **Act** as being subject to information disclosure

regulation;

ID-only regulated provider means a **person** who is prescribed in

regulations made under s 226 of the **Act** as being subject to information disclosure

regulation, but excludes Chorus;

IM determination means the *Fibre Input Methodologies*

Determination 2020 [2020] NZCC 21, including

any amendments to that determination;

incentive includes a promotion, rebate, discount, or

financial incentive;

incentive clawback payment means a payment made by an access seeker

to reimburse an **ID-regulated provider** for any **connections** that received an **incentive**, but for which the **access seeker** subsequently

cancelled the relevant service;

independent appraiser mea

means—

- (a) an independent auditor; or
- (b) a person who-
 - (i) an **ID-regulated provider**reasonably considers is qualified to
 publicly offer professional services
 to clients that would satisfy the
 requirements in clauses 2.7.3(2)
 and 2.7.4;
 - (ii) has no relationship with, or interest in, the **ID-regulated provider** that is

likely to give rise to a conflict of interest;

- (iii) has not assisted with the compilation of the information or provided advice or opinions (other than in relation to audit reports) on the methodologies or processes used in compiling the information the **person** proposes to review; and
- (iv) is not associated with or directed by any **person** who has provided any assistance, advice, or opinion under subparagraph (iii);

independent auditor

means a person who—

- (a) is qualified for appointment as auditor of a company under the Companies Act 1993 or, where an ID-regulated provider is a public entity (as defined in s 4 of the Public Audit Act 2001), is the Auditor-General:
- (b) has no relationship with, or interest in, the ID-regulated provider that is likely to give rise to a conflict of interest;
- (c) has not assisted with the compilation of the information or provided advice or opinions (other than in relation to audit reports) on the methodologies or processes used in compiling the information the **person** proposes to audit; and
- (d) is not associated with nor directed by any person who has provided any such assistance, advice, or opinion under paragraph (c);

indirectly affected data and statements

means data or statements which are incorrect only because they relied on disclosed data or statements that are affected by an **error**;

initial RAB

has the meaning given in the **IM determination**;

installation means capital expenditure to establish a

physical link between the **fibre network** and an **ONT** at an end point, and includes capitalised costs of associated **provisioning**

and incentives;

ISA (NZ) 550 means International Standard on Auditing

(New Zealand) 550, Related Parties, issued by the New Zealand Auditing and Assurance Standards Board of the External Reporting Board in July 2011 and amended effective 15 December 2016, under s 24(1)(b) of the

Financial Reporting Act 1993;

ISAE (NZ) 3000 means International Standard on Assurance

Engagements (New Zealand) 3000, Assurance Engagements Other than Audits or Reviews of Historical Financial Information, issued by the

New Zealand Auditing and Assurance Standards Board of the External Reporting Board in July 2014, under s 12(b) of the Financial Reporting Act 2013, as incorporated

by reference into this determination

Guidance note: (refer to clause 1.4.1(11)))
Commerce Commission "Input
methodologies review final decision —
Related party transactions — Final
decision and determinations guidance"
(21 December 2017), Attachment D notes
the process by which materials are

incorporated by reference in this

determination;

L

layer 1 has the meaning given in s 155ZS of the Act;

layer 2 has the meaning given in s 155ZS of the Act;

level 1 category means the level of detail to which a ID

regulated-provider must **publicly disclose** or provide information to the **Commission** (as

applicable) under this determination;

level 2 category means the level of detail (that is more

disaggregated than level 1 category) to which

a **ID-regulated provider** must **publicly disclose** or provide information to the **Commission** (as applicable) under this determination;

Ν

network & customer IT means capital expenditure on systems and

platforms across information technology domains that support **fibre network** and customer activities, including product development, customer experience and optimisation, lifecycle, and compliance;

network asset means a fixed **core fibre asset** employed by a

regulated provider to provide regulated

FFLAS;

network capacity means **capital expenditure** on network

electronics and associated systems to optimise for capacity growth and lifecycle

requirements;

network sustain and enhance means **capital expenditure** to sustain or

enhance physical fibre network performance,

manage risk or satisfy compliance

requirements, including replacing end-of-life assets, ensuring compliance with health and safety regulations, adding resilience to the **fibre network**, reducing the risk profile of the **fibre network**, and developing new products

for the provision of regulated FFLAS;

non-standard contract means a **contract** for the provision of

regulated FFLAS between an ID-regulated

provider and an access seeker that—

(a) has **prescribed terms and conditions**; and

(b) is not a **standard contract**;

non-network asset means a **core fibre asset** employed by a

regulated provider to provide **regulated FFLAS**, but which is not a **network asset**, and

includes-

(a) information and technology systems;

(b) asset management systems;

(c) office buildings, depots and workshops;

(d) office furniture and equipment;

(e) motor vehicles; and

(f) tools, plant and machinery;

;

non-network IT & support

means capital expenditure on information technology systems and corporate support;

Northpower Fibre

means Northpower Fibre Limited or any subsidiary of, or successor to, that company;

0

operating cost

has the meaning given in the $\ensuremath{\text{IM}}$

determination;

operational expenditure

means **operating costs** after applying either clause 2.1.1 or clause 2.1.2 of the **IM determination** (as applicable), except in relation to the Report on Related Party Transactions in Schedule 9 where it means

operating costs from related party

transactions as determined after applying clause 2.1.1 or clause 2.1.2 of the **IM**

determination (as applicable) and clause 2.5.2

of this determination;

optical line terminal (OLT)

means a piece of **PON** rack-mounted or terminal card network equipment that terminates many **layer 1** fibres from **ONUs** and is installed in network buildings or roadside cabinets;

optical network terminal (ONT)

means a device that connects an end-user

modem to a fibre network;

optical network unit (ONU)

means a piece of network equipment that terminates a single **layer 1** fibre and is located

at the **end-user's** premises;

original disclosure

means a disclosure made under this determination that contains a material or

non-material error;

Ρ

person includes a corporation sole, a body corporate,

and any association of persons whether

incorporated or not;

POI means a specified point of interconnection

listed in the most recent notice of points of interconnection under section 231 of the Telecommunications Act 2001 issued by the

Commission;

POI area means a 'UFB geographic area' listed in the

most recent notice of points of interconnection under section 231 of the Telecommunications Act 2001 issued by the **Commission** and comprising **POIs** specified in that notice;

passive optical network (PON) means a type of telecommunications network

that uses a point-to-multipoint **FTTP** which uses unpowered **splitters** to enable a single feeder

optical fibre to serve multiple premises;

PQ FFLAS has the meaning given in the IM

determination;

PQ determination has the meaning given in the **IM**

determination;

prescribed terms and conditions means, in relation to a standard contract or

non-standard contract, the terms and

conditions that—

(a) describe the **regulated FFLAS** to be

provided;

(b) determine the quantity or amount of those

regulated FFLAS;

(c) specify or determine—

(i) the **price** at which the **regulated FFLAS**

is to be provided;

(ii) the timing of payment for the regulated

FFLAS;

(iii) any security for payment for the

regulated FFLAS;

- (iv) any guarantee(s) regarding the IDregulated provider's performance or the quality at which the ID-regulated provider will provide the regulated FFLAS;
- (v) any incentive; and
- (vi) the ID-regulated provider's obligations and responsibilities (if any) to access seekers in the event the provision of the regulated FFLAS is impeded or interrupted;
- (d) comprise the operations manual for providing regulated FFLAS;

means an individual tariff, fee, or charge, in nominal terms exclusive of **GST**, in a **standard contract** or **non-standard contract**;

has the meaning given in the **IM determination**, and **provisioned** has the corresponding meaning;

has the meaning given in the **IM** determination;

has the meaning given in the **IM determination**;

means to-

- (a) disclose information on a prominent, publicly accessible page on the IDregulated provider's main website where other related information is disclosed;
- (b) make copies of the information available for inspection by any **person** during ordinary office hours, at the principal office of the **ID-regulated provider**;
- (c) within 10 working days of being requested to do so by any person, provide that person with a copy of the information, either by post or for collection (during ordinary office hours) from that principal office, whichever the person prefers; and

price

provisioning

proxy asset allocator

proxy cost allocator

publicly disclose

(d) within 5 working days after the information is disclosed to the public, provide a copy of the information to the Commission in the form that it is disclosed to the public and in an electronic format that is compatible with Microsoft Excel or Microsoft Word (as applicable),

and **public disclosure** and **publicly disclosing** have corresponding meanings;

Q

qualifying provider has the meaning specified in clause 2.4.6(2) of

the IM determination;

quarter means a three-month period in a **disclosure**

year beginning on the first, fourth, seventh or

tenth month of the disclosure year;

R

RAB has the meaning given in the IM

determination;

record has the meaning given in s 4 of the Public

Records Act 2005;

regulated FFLAS has the meaning given in the IM

determination;

regulatory period has the meaning given in the

IM determination;

related party has the meaning given in the

IM determination;

related party transaction has the meaning given in the

IM determination;

RSP means a retail service provider;

S

SAE 3100

means Standard on Assurance Engagements 3100 – Compliance Engagements, issued by the External Reporting Board in October 2014 and incorporating amendments up to August 2014 under s 24(1)(b) of the Financial Reporting Act 1993, as incorporated by reference into this determination

Guidance note: (refer to clause 1.4.1(11) of this determination)

Commerce Commission "Input methodologies review final decision – Related party transactions – Final decision and determinations guidance" (21 December 2017), Attachment D notes the process by which materials are incorporated by reference in this determination;

service description

means a description of an **ID FFLAS**, such as by capacity or speed;

splitter

means a fibre optic splitter, which is a passive optical device that splits light into two or more fibre strands;

standard contract

means a contract for the provision of regulated FFLAS between an ID-regulated provider and an access seeker, and in respect of which, at least 3 other access seekers have the same prescribed terms and conditions, and none of those other access seekers is a related party of the ID-regulated provider, or a related party of any of those other access seekers:

Т

target operating revenue

means the **total FFLAS revenue** that an **ID-regulated provider** expects to obtain from **prices**;

termination point

means the termination of fibre on-

(a) the **central office's** main distribution frame;

- (b) the OLT or ethernet switch at a central office;
- (c) the RSP's equipment at the central office co-location site; or
- (d) the backhaul equipment at the **central office**:

total closing RAB value

means-

- (a) in relation to the **unallocated RAB**, the sum of:
 - (i) all 'unallocated closing RAB values' of **core fibre assets** determined under clause 2.2.5(2) of the **IM determination**; and
 - (ii) the 'closing RAB value' of the financial loss asset determined under clause 2.2.6(2) of the IM determination;
- (b) in relation to the RAB, the sum of:
 - (i) all 'closing RAB values' of core fibre assets determined under clause 2.2.5(4) of the IM determination; and
 - (ii) the 'closing RAB value' of the financial loss asset determined under clause 2.2.6(2) of the IM determination;

total FFLAS revenue

has the meaning given in the **IM determination**;

total opening RAB value

means-

- (a) in relation to the **unallocated RAB**, the sum of:
 - (i) all 'unallocated opening RAB values' of core fibre assets
 determined under clause 2.2.5(1)
 of the IM determination; and
 - (ii) the 'opening RAB value' of the **financial loss asset** determined under clause 2.2.6(1) of the **IM determination**;
- (b) in relation to the RAB, the sum of:

- (i) all 'opening RAB values' of core fibre assets determined under clause 2.2.5(3) of the IM determination; and
- (ii) the 'opening RAB value' of the financial loss asset determined under clause 2.2.6(1) of the IM determination;

Tuatahi

means Tuatahi First Fibre Limited or any subsidiary of, or successor to, that company;

U

unallocated RAB

means a **RAB** before clause 2.1.1 or clause 2.1.2 (as applicable) of the **IM determination** is applied;

unallocated works under construction

means the total value of works under construction before allocation to PQ FFLAS or ID-only FFLAS (as applicable), and is the value of q calculated using the following formula:

q = a + b - c

where:

a = works under construction (for the preceding disclosure year) before allocation to PQ FFLAS or ID-only FFLAS, which, for disclosure year 2022, is works under construction under GAAP as at the end of 31 December 2021;

b = capital expenditure; and
 c = assets commissioned;

V

value of capital contributions

means the value of capital contributions received or expected to be received by an **ID-regulated provider** in respect of the costs accumulated in the construction phase of a project that creates a new **network asset**, and

is determined in accordance with clause 2.2.13(2)(h) of the **IM determination** and allocated to **regulated FFLAS** in accordance with clause 2.1.1 or clause 2.1.2 (as applicable) of the **IM determination**;

W

working day has the same meaning as defined in s 5 of the

Act; and

works under construction has the meaning given in the

IM determination.

PART 2 INFORMATION DISCLOSURE REQUIREMENTS

2.1 INFORMATION DISCLOSURE

2.1.1 From the **commencement date**, each **ID-regulated provider** must comply with the information disclosure requirements set out in this determination.

2.2 APPLICABLE INPUT METHODOLOGIES

- 2.2.1 Each **ID-regulated provider** must apply the requirements set out in the following subparts of the **IM determination** as applicable, when complying with this determination:
 - (1) Subpart 1 of Part 2, Cost Allocation;
 - (2) Subpart 2 of Part 2, Asset Valuation;
 - (3) Subpart 3 of Part 2, Taxation;
 - (4) Subpart 4 of Part 2, Cost of Capital; and
 - (5) Subpart 5 of Part 2, Quality Dimensions.

2.3 INFORMATION DISCLOSURE REQUIREMENTS FOR CHORUS

Chorus disclosures relating to historical financial information, forecast capex and forecast opex, and asset management

- 2.3.1 No later than 5 months after the end of each disclosure year, Chorus must complete and publicly disclose each of the following reports in respect of the relevant disclosure year:
 - (1) the Report on ID FFLAS Return on Investment set out in Schedule 1a;
 - (2) the Report on PQ FFLAS Return on Investment set out in Schedule 1b;
 - (3) the Report on ID-only FFLAS Return on Investment set out in Schedule 1c;
 - (4) the Report on Regulatory Profit set out in Schedule 2;
 - (5) the Report on Regulatory Tax Allowance set out in Schedule 3;
 - (6) the Report on Value of the ID FFLAS Regulatory Asset Base (Rolled Forward) set out in Schedule 4b;
 - (7) the Report on Asset Allocations set out in Schedule 4a;
 - (8) the Report on Value of the PQ FFLAS Regulatory Asset Base (Rolled Forward) set out in Schedule 4c;
 - (9) the Report on Value of the ID-only FFLAS Regulatory Asset Base (Rolled Forward) set out in Schedule 4d;

- (10) the Report on Operating Expenditure set out in Schedule 5, for level 1 category and level 2 category;
- (11) the Report on Cost Allocations set out in Schedule 5a;
- the Report on Capital Expenditure set out in Schedule 6, for **level 1 category** and **level 2 category**;
- (13) the Report on Comparison of Forecast to Actual Expenditure set out in Schedule 7, for level 1 category and level 2 category;
- (14) if **Chorus** is a **qualifying provider**, the Report on Term Credit Spread Differential Allowance set out in Schedule 8a;
- (15) the Report on Crown Financing and Notional Deductible Interest in Schedule8b;
- (16) the Report on Related Party Transactions set out in Schedule 9, for level 1 category and level 2 category;
- (17) the Report on Forecast Capital Expenditure set out in Schedule 11, for level 1 category and level 2 category, except that—
 - (a) **Chorus** is not required to complete and **publicly disclose** this report in respect of a **disclosure year** in which—
 - (i) Chorus submits an expenditure proposal to the Commission for the purposes of the Commission making a PQ determination for the next regulatory period; or
 - (ii) the Commission makes a PQ determination;
 - (b) for each of **disclosure years** 2022, 2023, and 2024, the information on 'CY+4' and 'CY+5' in this report is not required to be **publicly disclosed**, but must be provided to the **Commission**;
- (18) the Report on Forecast Operating Expenditure set out in Schedule 11a, for level 1 category and level 2 category, except that—
 - (a) **Chorus** is not required to complete and **publicly disclose** this report in respect of a **disclosure year** in which—
 - (i) Chorus submits an expenditure proposal to the Commission for the purposes of the Commission making a PQ determination for the next regulatory period; or
 - (ii) the **Commission** makes a **PQ determination**; and
 - (b) for each of **disclosure years** 2022, 2023, and 2024, the information on 'CY+4' and 'CY+5' in this report is not required to be **publicly disclosed**, but must be provided to the **Commission**;
- (19) the Report on Forecast Capacity and Utilisation set out in Schedule 12, except that—

- (a) for each of **disclosure years** 2022, 2023, and 2024, **Chorus** is only required to complete and **publicly disclose** 'current year' information and '3-year forecast' information from this report; and
- (b) for each **disclosure year** after **disclosure year** 2024, **Chorus** is only required to complete and **publicly disclose** 'current year' information and '5-year forecast' information from this report;
- (20) the Report on Forecast Network Demand set out in Schedule 12a, except that—
 - (a) for each of **disclosure years** 2022, 2023, and 2024, **Chorus** is only required to only complete and **publicly disclose** 'current year' information and '3-year forecast' information from this report;
 - (b) for each **disclosure year** after **disclosure year** 2024, **Chorus** is only required to complete and **publicly disclose** 'current year' information and '5-year forecast' information from this report; and
 - (c) for each disclosure year, the following information in this report is not required to be publicly disclosed, but must be provided to the Commission:
 - (i) **PON connections** by **service description** in section 12a(i); and
 - (ii) demand by **POI area** in section 12a(ii);
- (21) the Report on Asset Management Capability set out in Schedule 13.
- 2.3.2 No later than 5 months after the end of each **disclosure year**, **Chorus** must, in respect of the relevant **disclosure year**,—
 - (1) except for the information required under column 'r' regarding the forecast cost of assets to be replaced in the next 5 disclosure years, complete and publicly disclose the Report on PQ FFLAS Asset Register set out in Schedule 10a; and
 - (2) complete and **provide** to the **Commission**:
 - (a) a copy of the Report on PQ FFLAS Asset Register set out in Schedule 10a, including the information required under column 'r'; and
 - (b) the Report on ID-only FFLAS Asset Register set out in Schedule 10b.

Chorus disclosures relating to quality

- 2.3.3 Chorus must complete and publicly disclose—
 - (1) no later than 5 months after the end of each **disclosure year** (except in respect of the first three **quarters** of **disclosure year** 2022), a Report on Quality in Schedule 19 in respect of each month of the relevant **disclosure**

- **year**, and must apply the Schedule 22 Methodologies for Calculating Port Utilisation and Traffic Performance;
- (2) no later than 1 month after the relevant **quarter**, a Transitional Report on Quality in Schedule 19a for each month of the first three **quarters** of **disclosure year** 2022; and
- (3) the questions for, and the results of, an End-User Connection Satisfaction Survey conducted each quarter according to the requirements of Schedule 21.

Chorus disclosures relating to pricing

- 2.3.4 Except as provided under clauses 2.3.5 and 2.3.6, **Chorus** must complete and **publicly disclose** a Report on Pricing in Schedule 24—
 - (1) for each month of the first and second quarters of each disclosure year after disclosure year 2022, no later than 1 month after the second quarter; and
 - (2) for each month of the third and fourth **quarters** of each **disclosure year** after **disclosure year** 2022, no later than 5 months after the fourth **quarter**.
- 2.3.5 Except as provided under clauses 2.3.6, **Chorus** must, for **disclosure year** 2022, complete a Report on Pricing in Schedule 24 for each month of that **disclosure year**, and **publicly disclose** those reports no later than 5 months after **disclosure year** 2022.

2.3.6 **Chorus**—

- (1) may withhold or redact from each Report on Pricing in Schedule 24 that Chorus publicly discloses under clauses 2.3.4 or 2.3.5, information relating to—
 - (a) numbers of connections and ENNI/ co-location connections; and
 - (b) incentive clawback payments; but
- must, at the same time as it **publicly discloses** a Report on Pricing in Schedule 24 under clauses 2.3.4 or 2.3.5, provide to the **Commission** a copy of that report that includes the information relating to—
 - (a) numbers of **connections** and **ENNI/ co-location connections**; and
 - (b) incentive clawback payments.

2.4 INFORMATION DISCLOSURE REQUIREMENTS FOR ID-ONLY REGULATED PROVIDERS

Altered requirements for public disclosure of ID-only regulated provider reports for disclosure year 2022

- 2.4.1 In respect of disclosure year 2022, each ID-only regulated provider—
 - (1) is not required to complete and **publicly disclose** the reports required under clauses 2.4.2(9) and 2.4.2(12) to (16); and

(2) no later than 5 months after the end of **disclosure year** 2023, must complete and **publicly disclose** the other reports required under clauses 2.4.2, 2.4.3, and 2.6.1.

ID-only regulated provider disclosures relating to historical financial information, forecast capex and forecast opex, and asset management for disclosure years following disclosure year 2022

- 2.4.2 Except as provided under clause 2.4.1 in relation to **disclosure year** 2022, no later than 5 months after the end of each **disclosure year**, each **ID-only regulated provider** must complete and **publicly disclose** each of the following reports in respect of the relevant **disclosure year**:
 - (1) the Report on ID FFLAS Report on Investment set out in Schedule 1;
 - (2) the Report on Regulatory Profit set out in Schedule 2;
 - (3) the Report on Regulatory Tax Allowance set out in Schedule 3;
 - (4) the Report on Value of the ID FFLAS Regulatory Asset Base (Rolled Forward) set out in Schedule 4;
 - (5) the Report on Asset Allocations set out in Schedule 4a;
 - (6) the Report on Operating Expenditure set out in Schedule 5,—
 - (a) in respect of **disclosure years** 2022, 2023, and 2024, only for **level 1** category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
 - (7) the Report on Cost Allocations set out in Schedule 5a—
 - (a) in respect of **disclosure years** 2022, 2023, and 2024, only for **level 1** category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
 - (8) the Report on Capital Expenditure set out in Schedule 6,—
 - (a) in respect of **disclosure years** 2022, 2023, and 2024, only for **level 1** category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
 - (9) the Report on Comparison of Forecast to Actual Expenditure set out in Schedule 7, except that—
 - (a) in respect of **disclosure year** 2022, only section 7(i) of this report must be **publicly disclosed**, and only for **level 1 category**;

- (b) in respect of disclosure years 2023 and 2024, only for level 1 category;and
- (c) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
- (10) the Report on the Calculation Inputs set out in Schedule 8, including, if the **ID-only regulated provider** is a **qualifying provider**, sections 8(i) and 8(ii);
- (11) the Report on Related Party Transactions set out in Schedule 9,—
 - (a) in respect of disclosure years 2022, 2023, and 2024, only for level 1 category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
- (12) the Report on Forecast Capital Expenditure set out in Schedule 11,—
 - (a) in respect of disclosure years 2022, 2023, and 2024, only for level 1 category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
- (13) the Report on Forecast Operating Expenditure set out in Schedule 11a,—
 - (a) in respect of **disclosure years** 2022, 2023, and 2024, only for **level 1** category; and
 - (b) for each disclosure year after disclosure year 2024, for level 1 category and level 2 category;
- (14) the Report on Forecast Capacity and Utilisation set out in Schedule 12, except that—
 - (c) for each of disclosure years 2022, 2023, and 2024, the ID-only regulated provider is only required to complete and publicly disclose 'current year' information and '3-year forecast' information in this report; and
 - (d) for each disclosure year after disclosure year 2024, the ID-only regulated provider is only required to complete and publicly disclose 'current year' information and '5-year forecast' information in this report;
- (15) the Report on Forecast Network Demand set out in Schedule 12a, except that—
 - (a) for each of disclosure years 2022, 2023, and 2024, the ID-only regulated provider is only required to complete and publicly disclose information in this report for the relevant disclosure year, and three years after that disclosure year;

- (b) for each disclosure year after disclosure year 2024, the ID-only regulated provider must complete and publicly disclose information in this report for the relevant disclosure year and five years after that disclosure year; and
- (c) for each **disclosure year**, the following information in the Report on Forecast Network Demand set out in Schedule 12a is not required to be **publicly disclosed**, but must be provided to the **Commission**:
 - (i) **PON connections** by **service description** in section 12a(i); and
 - (ii) demand by **POI area** in section 12a(ii);
- (16) the Report on Asset Management Capability set out in Schedule 13.
- 2.4.3 Except as provided under clause 2.4.1(2) in relation to **disclosure year** 2022, no later than 5 months after the end of each **disclosure year**, each **ID-only regulated provider** must, in respect of the relevant **disclosure year**,—
 - (1) except for the information required under column 'r' regarding the forecast cost of assets to be replaced in next 5 disclosure years, complete and publicly disclose the Report on ID FFLAS Asset Register set out in Schedule 10; and
 - (2) complete and provide to the **Commission**, a copy of the Report on ID FFLAS Asset Register set out in Schedule 10, including the information required under column 'r'.

ID-only regulated provider disclosures relating to quality

- 2.4.4 Each ID-only regulated provider must complete and publicly disclose—
 - (1) no later than 5 months after the end of the disclosure year (except in respect of the first nine months following the commencement date), a Report on Quality in Schedule 20 in respect of each month of the relevant disclosure year, and must apply the Schedule 22 Methodologies for Calculating Port Utilisation and Traffic Performance;
 - (2) no later than 1 month after the relevant 3-month period, a Transitional Report on Quality in Schedule 20a for each month of the relevant 3-month period, for the first nine months following the **commencement date**; and
 - (3) no later than 1 month after the relevant quarter, the questions for, and the results of, an End-User Connection Satisfaction Survey conducted each quarter according to the requirements of Schedule 21.

ID-only regulated provider disclosures relating to pricing

- 2.4.5 Except as provided under clause 2.4.6, each **ID-only regulated provider** must complete and **publicly disclose** a Report on Pricing in Schedule 25—
 - (1) for each month of the first and second **quarters** of each **disclosure year**, no later than 1 month after the second **quarter**; and

(2) for each month of the third and fourth **quarters** of each **disclosure year**, no later than 5 months after the fourth **quarter**.

2.4.6 Each ID-only regulated provider—

- (1) must, for disclosure years 2022 and 2023,—
 - (a) complete a Report on Pricing in Schedule 25 for each month of the relevant disclosure year and publicly disclose all such reports no later than 5 months after disclosure year 2023; and
 - (b) in each report completed and **publicly disclosed** under paragraph (a), include—
 - (i) in Schedule 25(iii), information to the most detailed level of geographical aggregation, up to and including **central office** level, the **ID-only regulated provider** is able to report on; and
 - (ii) information on the level of geographical aggregation reported on (ie, which **central offices** are grouped together);
- (2) may withhold or redact from each report the **ID-only regulated provider publicly discloses** under subclause (1)(a) or clause 2.4.5, information required relating to—
 - (a) numbers of connections and ENNI/ co-location connections; and
 - (b) incentive clawback payments; but
- (3) must, at the same time the **ID-only regulated provider publicly discloses** a report under subclause (1)(a) or clause 2.4.5, provide to the **Commission** a copy of that report that includes information required relating to:
 - (a) numbers of **connections** and **ENNI/ co-location connections**; and
 - (b) incentive clawback payments.

2.5 INFORMATION DISCLOSURE REQUIREMENTS FOR ALL ID-REGULATED PROVIDERS

Allocation of assets and operating costs

- 2.5.1 In completing the Report on Asset Allocations set out in Schedule 4a and the Report on Cost Allocations set out in Schedule 5a, each ID-regulated provider must publicly disclose, for each asset category in Schedule 4a and each operational expenditure category in Schedule 5a, which includes asset values or operating costs (as applicable) that are not directly attributable,—
 - (1) a description of the operating costs and asset values that are not directly attributable;
 - (2) the **asset allocator** or **cost allocator** used (as applicable) and the rationale for using the **asset allocator** or **cost allocator**;

- (3) whether the **asset allocators** used are based on a **causal relationship**, or are equal to a **proxy asset allocator**;
- (4) whether the **cost allocators** used are based on a **causal relationship**, or are equal to a **proxy cost allocator**;
- (5) where **proxy asset allocators** or **proxy cost allocators** are used, an explanation of:
 - (a) why a **causal relationship** cannot be established or why it is impractical to apply a **causal relationship**; and
 - (b) the rationale for the quantifiable measure used for each **proxy asset** allocator or **proxy cost allocator**.

Related party transactions

- 2.5.2 For the purpose of completing the reports required under clauses 2.3.1(16) and 2.4.2(11),—
 - (1) the value of—
 - a good or a service an ID-regulated provider procures in a related party transaction must be given a value no greater than if the transaction was an arm's-length transaction; and
 - (b) an asset, good, or a service an ID-regulated provider sells or provides in a related party transaction must be given a value not less than if the transaction was an arm's-length transaction;
 - (2) an objective and independent measure must be used in determining the terms of an **arm's-length transaction** for the purpose of subclause (1)(a) and (b).
- 2.5.3 For the purpose of clause 2.5.2(1)(a), a **related party transaction** will be treated as if it was an **arm's-length transaction** if the good or service procured from a **related party** is valued at the cost incurred by the **related party** in providing that good or service, provided that cost is—
 - (1) fair and reasonable to the **ID-regulated provider**; and
 - substantially the same as the cost that would be incurred by the **related party** in providing the same type of good or service to a third party.
- 2.5.4 If an **ID-regulated provider** has procured a good, a service, or a **core fibre asset** under a **related party transaction** in a **disclosure year**, the **ID-regulated provider** must **publicly disclose** a diagram or a description showing:
 - (1) the relationship between the **ID-regulated provider** and the **related party**;
 - (2) the principal activities of the **related party**; and
 - (3) the total annual expenditure incurred by the **ID-regulated provider** with the **related party**.

- 2.5.5 If in any disclosure year, the ID-regulated provider's related party transactions comprise less than 10% of the combined value of the ID-regulated provider's capital expenditure and operational expenditure, the ID-regulated provider is not required to comply with clause 2.5.6 and clauses 2.7.2 to 2.7.5 in that disclosure year.
- 2.5.6 Subject to clause 2.5.5, if an **ID-regulated provider** has procured a good, a service, or a **core fibre asset** under a **related party transaction** in a **disclosure year**, then no later than 5 months after the **disclosure year**, the **ID-regulated provider** must—
 - (1) publicly disclose—
 - (a) a summary of either of the following in effect at the time of the **related party transaction**:
 - (i) the **ID-regulated provider's** policy for procuring goods, services, or **core fibre assets** from a **related party**; or
 - (ii) the **ID-regulated provider's** alternative documentation equivalent to a policy for procuring goods, services, or **core fibre assets** from a **related party**;
 - (b) a description of at least one representative example **related party transaction** from the **disclosure year** illustrating each of the following:
 - (i) how the ID-regulated provider applied in practice its policy (or alternative documentation) in effect at the time of the related party transaction for procuring goods, services, or core fibre assets from a related party, including a description of how and when the ID-regulated provider last tested whether such a related party transaction was an arm's-length transaction; and
 - (ii) how the ID-regulated provider applied its policy (or alternative documentation) in effect at the time of the related party transaction for procuring goods, services, or core fibre assets from a related party in a materially different manner between expenditure categories;
 - (c) a description of any of the ID-regulated provider's policies or procedures that require an access seeker to purchase goods, services, or core fibre assets from a related party that relate to the provision of regulated FFLAS;
 - (2) provide to the **Commission** the **ID-regulated provider's** policy (or alternative documentation) for procuring goods, services, or **core fibre assets** from a **related party**.

Disclosure of standard contracts

- 2.5.7 No later than 20 working days after entering into a standard contract, an ID-regulated provider must publicly disclose the prescribed terms and conditions of the standard contract.
- 2.5.8 Subject to s 188(4) of the **Act**, if an **ID-regulated provider** amends any **prescribed terms and conditions** of a **standard contract** (including a **standard contract** that was entered into before the **commencement date**), the **ID-regulated provider** must, no later than 20 **working days** after the amendment takes effect,—
 - (1) identify the relevant standard contract; and
 - (2) **publicly disclose** the amendment made to the **prescribed terms and conditions**.

Disclosure of non-standard contracts

- 2.5.9 No later than 20 working days after entering into a non-standard contract, an ID-regulated provider must—
 - (1) publicly disclose—
 - (a) the prescribed terms and conditions of the non-standard contract, with the exception of any prescribed terms and conditions that specify or determine an incentive or the price at which the regulated FFLAS is to be provided; and
 - (b) a summary of how the prescribed terms and conditions (except those specifying or determining an incentive or the price at which the regulated FFLAS is to be provided) of the non-standard contract differ from those of the equivalent standard contract, if there is one;
 - (2) provide to the Commission any prescribed terms and conditions of the nonstandard contract that specify or determine an incentive or the price at which the regulated FFLAS is to be provided.
- 2.5.10 Subject to s 188(4) of the Act, if an ID-regulated provider amends the prescribed terms and conditions of a non-standard contract (including a non-standard contract entered into before the commencement date), the ID-regulated provider must, not later than 20 working days after the amendment takes effect,—
 - (1) identify the **non-standard contract** concerned;
 - (2) publicly disclose the amendment made to the prescribed terms and conditions, with the exception of an amendment to the prescribed terms and conditions specifying or determining an incentive or the price at the regulated FFLAS is to be provided; and

(3) if the amendment is to prescribed terms and conditions of the non-standard contract that specify or determine an incentive or the price at which the regulated FFLAS is to be provided, provide the amendment to the Commission.

Requirements relating to standard and non-standard contracts

- 2.5.11 Subject to s 188(4) of the **Act** and clause 2.5.12, before the start of each **disclosure year**, each **ID-regulated provider** must—
 - (1) **publicly disclose** the following:
 - (a) for each **standard contract** the **ID-regulated provider** intends to use in the relevant **disclosure year**,—
 - (i) if the standard contract existed in the most recent disclosure year, the number of access seekers on the standard contract compared to the number of access seekers on all equivalent nonstandard contract the ID-regulated provider used in that disclosure year; and
 - (ii) the percentage of target operating revenue the ID-regulated provider expects to collect from the provision of regulated FFLAS in that disclosure year under—
 - (A) the standard contract; and
 - (B) all equivalent non-standard contracts;
 - (b) how the ID-regulated provider decides whether to use a non-standard contract, including any criteria the ID-regulated provider uses to make this decision;
 - (2) provide the following information to the **Commission**:
 - (a) for each standard contract the ID-regulated provider intends to use in the disclosure year, the target operating revenue the ID-regulated provider expects to collect from the provision of regulated FFLAS in the disclosure year under the standard contract and all equivalent nonstandard contracts; and
 - (b) an explanation of any criteria or factor used for determining **prices** and **incentives** for **access seekers** on **non-standard contracts**.
- 2.5.12 For the purpose of clause 2.5.11,—
 - (1) in respect of disclosure year 2022,—
 - (a) **Chorus** must **publicly disclose** the information under clause 2.5.11(1) and provide to the **Commission** the information under clause 2.5.11(2), no later than 3 months after the start of **disclosure year** 2022; and

- (b) each **ID-only regulated provider** must **publicly disclose** the information under clause 2.5.11(1), and provide to the **Commission** the information under clause 2.5.11(2), before the start of **disclosure year** 2023;
- (2) in respect of each of **disclosure years** 2022 and 2023, clause 2.5.11(1)(b) and (2)(b) does not apply if the percentage of **target operating revenue** calculated under clause 2.5.11(1)(a)(ii)(B) is less than 10%.

2.6 EXPLANATORY NOTES TO DISCLOSED INFORMATION

- 2.6.1 No later than 5 months after each **disclosure year**, each **ID-regulated provider** must complete and **publicly disclose** the Schedule of Mandatory Explanatory Notes in Schedule 14 or 14a, as applicable.
- 2.6.2 In relation to details of any insurance cover for the **fibre assets** used to provide **PQ FFLAS**, **ID FFLAS**, or **ID-only FFLAS** (as applicable), the explanatory notes in Schedule
 14 or 14a must include-
 - (1) the **ID-regulated provider's** approach and practices in regard to insuring assets, including the level of insurance; and
 - in respect of any self-insurance, the level of reserves, details of how reserves are managed and invested, and details of any reinsurance.
- 2.6.3 Where an item from a report disclosed in accordance with clauses 2.3.1, 2.3.2, and 2.4.2 (as applicable) is classified differently to the most recent previous disclosure, the explanatory notes in Schedule 14 or 14a must include the-
 - (1) nature of the item classified differently;
 - value or volume of the item in the current **disclosure year** (or **quarter**, as applicable) and in the previous **disclosure year** (or **quarter**, as applicable);
 - (3) classification of the item in the previous **disclosure year** (or **quarter**, as applicable);
 - (4) classification of the item in the current **disclosure year** (or **quarter**, as applicable); and
 - (5) reason why the item has been classified differently.
- 2.6.4 No later than 5 months after each **disclosure year**, each **ID-regulated provider** must complete and **publicly disclose** the Mandatory Explanatory Notes on Forecast Information in Schedule 14b by inserting all relevant information relating to information disclosed in accordance with clause 2.3.1(17) to (21) or clause 2.4.2(12) to (16), (as applicable).
- 2.6.5 No later than 5 months after each **disclosure year**, each **ID-regulated provider** may **publicly disclose** any further comments on the information disclosed in accordance

with clauses 2.3.1, 2.3.2, 2.3.4, 2.3.5, 2.4.2, 2.4.3, 2.4.5, 2.4.6(1) (as applicable) in the Voluntary Explanatory Notes in Schedule 15.

2.7 ASSURANCE REPORTS

- 2.7.1 If an **ID-regulated provider** is required to **publicly disclose** any **audited disclosure** information, the **ID-regulated provider** must—
 - (1) procure an assurance report from an **independent auditor** that is:
 - (a) prepared in accordance with **SAE 3100** and **ISAE (NZ) 3000**, signed by the **independent auditor** (either in his or her own name or that of his or her firm);
 - (b) addressed to the **directors** of the **ID-regulated provider** and to the **Commission** as the intended users of the assurance report;
 - (c) states
 - that the assurance report has been prepared in accordance with SAE 3100 and ISAE (NZ) 3000;
 - (ii) the work done by the **independent auditor**;
 - (iii) the scope and limitations of the assurance engagement;
 - (iv) the existence of any relationship (other than that of auditor) which the independent auditor has with, or any interests which the independent auditor has in, the ID-regulated provider or any of its subsidiaries;
 - (v) whether the independent auditor has obtained sufficient recorded evidence and explanations that he or she required from the ID-regulated provider, and, if not, the nature of the evidence or explanations not obtained;
 - (vi) whether, in the independent auditor's opinion, as far as appears from an examination, the information used in the preparation of the audited disclosure information has been properly extracted from the ID-regulated provider's accounting and other records, sourced from its financial and non-financial systems; and
 - (vii) whether, in the independent auditor's opinion, as far as appears from an examination of them, proper records to enable the complete and accurate compilation of the audited disclosure information required under this determination have been kept by the ID-regulated provider and, if not, the records not so kept;
 - (d) states whether (and, if not, in which respects), in the **independent** auditor's opinion, the **ID-regulated provider** has complied, in all

- material respects, with this determination in preparing the **audited disclosure information**;
- (e) states whether, based on the independent auditor's examination of the evidence supporting the relevant audited disclosure information, anything has come to their attention that causes the independent auditor to believe that that evidence and the audited disclosure information do not provide a reasonable basis for the information publicly disclosed in boxes 1 to 14 of Schedule 14 or boxes 1 to 14 of Schedule 14a (as applicable); and
- (f) states whether, in the **independent auditor's** opinion, the **ID-regulated provider's** basis for valuing **related party transactions** in the **disclosure year** has complied in all material respects with clause 2.5.2 of this determination and clauses 2.2.13(3)(g) and 2.2.15 of the **IM determination**;
- (2) without limiting the application of **SAE 3100** and **ISAE (NZ) 3000** under subclause (1), the assurance report must state any key audit matters, being those matters that-
 - required significant attention by the independent auditor in carrying out its assurance engagement;
 - (b) are selected from matters communicated with those charged with governance of the ID-regulated provider; and
 - (c) the **independent auditor** has identified, taking into account—
 - areas of higher assessed risk of material misstatement of audited disclosure information;
 - (ii) significant auditor judgments relating to areas in the **audited disclosure information** that involved significant judgment of the
 management of the **ID-regulated provider**; and
 - (iii) the effect on the assurance engagement of any significant events or transactions by the ID-regulated provider that occurred in the disclosure year;

Guidance note: (refer to clause 1.4.1Part 1(11) of this determination) This is a similar requirement to that which applies for the audit of financial statements under International Standard on Auditing (New Zealand) 701, Communicating Key Audit Matters in the Independent Auditor's Report, issued by the New Zealand Auditing and Assurance Standards Board of the External Reporting Board in October 2015, under s 12(b) of the Financial Reporting Act 2013.

- (3) **publicly disclose** the **independent auditor**'s assurance report prepared in accordance with subclauses (1) and (2) at the same time the **ID-regulated provider publicly discloses** the **audited disclosure information**.
- 2.7.2 Subject to clauses 2.5.5, 2.7.3, and 2.7.5, at the same time an ID-regulated provider publicly discloses audited disclosure information for a disclosure year, the ID-regulated provider must procure and publicly disclose a report prepared in accordance with clause 2.7.4, if any of the following apply:
 - (1) the proportion of the ID-regulated provider's total capital expenditure accounted for by related party transactions involving a procurement from a related party exceeds 65% in the disclosure year;
 - the proportion of the **ID-regulated provider's** total **operational expenditure** accounted for by **related party transactions** involving a procurement from a **related party** exceeds 65% in the **disclosure year**; or
 - (3) the **independent auditor** cannot conclude that the valuation or disclosures of **related party transactions** in the **disclosure year** comply, in all material respects, with clause 2.5.2 of this determination and clauses 2.2.13(3)(g) and 2.2.15 of the **IM** determination.
- 2.7.3 If clause 2.7.2 applies in respect of a disclosure year, but time constraints do not permit the preparation of a report for that disclosure year, before the independent auditor issues its assurance report for that disclosure year under clause 2.7.1, an ID-regulated provider must, subject to clause 2.7.5,—
 - (1) no later than 5 months after the **disclosure year**, **publicly disclose** a statement indicating that the **ID-regulated provider** will procure and **publicly disclose** a report under clause 2.7.4 for the subsequent **disclosure year**; and
 - (2) procure and **publicly disclose** a report from an **independent appraiser**, prepared in accordance with clause 2.7.4, at the same time the **ID-regulated provider publicly discloses audited disclosure information** for the subsequent **disclosure year**.
- 2.7.4 For the purpose of clauses 2.7.2 and 2.7.3, a report prepared by an **independent** appraiser must—
 - (1) be addressed to the **directors** of the **ID-regulated provider** and to the **Commission** as the intended users of the report;
 - (2) be a separate report from the **independent auditor's** assurance report prepared in accordance with clause 2.7.1;
 - (3) state—
 - (a) whether, in the **independent appraiser's** opinion based on the information obtained, a sampling of **related party transactions**, and analysis undertaken, the **ID-regulated provider's related party**

- **transactions** would comply, in all material respects, with clause 2.5.2 of this determination and clauses 2.2.13(3)(g) and 2.2.15 of the **IM determination**;
- (b) the grounds for the **independent appraiser's** opinion under paragraph (a); and
- (c) if the independent appraiser's opinion under paragraph (a) is that the ID-regulated provider's related party transactions would not comply with clause 2.5.2 of this determination or clauses 2.2.13(3)(g) and 2.2.15 of the IM determination; the alternative terms the independent appraiser considers could enable the related party transactions to comply;
- (4) set out the independent appraiser's qualifications underpinning the opinion in the report;
- (5) set out the scope and any limitations of the **ID-regulated provider's** engagement of the **independent appraiser**;
- (6) state the **independent appraiser's** key assumptions on which the analysis in the report relies;
- (7) describe the basis used for sampling **related party transactions** to inform the opinion in the report;
- (8) describe the steps and analysis undertaken in preparing the report;
- (9) summarise the steps the **ID-regulated provider** has taken to test whether **related party transactions** comply with clause 2.5.2 of this determination and clauses 2.2.13(3)(g) and 2.2.15 of the **IM determination**;
- (10) state whether, in the opinion of the **independent appraiser**, the steps taken by the **ID-regulated provider** specified in subclause (9) are, in all material respects, reasonable in the circumstances; and
- (11) state whether the **independent appraiser** has obtained the recorded information and explanations that they required and, if not, the nature of the information and explanations not able to be obtained.
- 2.7.5 An **ID-regulated provider** may elect not to procure and **publicly disclose** a report under clause 2.7.2 or clause 2.7.3(2) in respect of a **disclosure year** if,—
 - (1) for that disclosure year, the proportion of either the ID-regulated provider's total capital expenditure or total operational expenditure accounted for by related party transactions involving a procurement from a related party has not increased by more than 5% from the disclosure year for which the ID-regulated provider most recently procured and publicly disclosed a report under clause 2.7.2 or clause 2.7.3(2); and

- the **ID-regulated provider** has **publicly disclosed** a report for at least one of the two previous **disclosure years** under clause 2.7.2 or 2.7.3(2).
- 2.7.6 Subject to clause 2.7.72.7.6, if an ID-regulated provider publicly discloses information under clause 2.11.1 or 2.11.2 and the ID-regulated provider was required to procure an assurance report under clause 2.7.1(1) for the original disclosure, the ID-regulated provider must procure and publicly disclose an assurance report in respect of the information disclosed under clause 2.11.1 or 2.11.2 to the same standard of the assurance report procured for the original disclosure.
- 2.7.7 In applying clause 2.7.62.7.7, the assurance required for indirectly affected data and statements disclosures is whether the disclosed error has been corrected and subsequently correctly reflected in the revised indirectly affected data and statements.

2.8 CERTIFICATES

- 2.8.1 Each **ID-regulated provider** must **publicly disclose** a certificate in the form set out in Schedule 17, duly signed by 2 **directors** of the **ID-regulated provider**, in respect of information under clauses 2.5.11 and 2.5.12(1), at the time the **ID-regulated provider publicly discloses** or provides the relevant information to the **Commission** (as applicable).
- 2.8.2 Each **ID-regulated provider** must **publicly disclose** a certificate in the form set out in Schedule 18, duly signed by 2 **directors** of the **ID-regulated provider**, in respect of information under any of clauses 2.3.1, 2.3.2, 2.3.3(1), 2.3.4, 2.3.5, 2.3.6(2), 2.4.2, 2.4.3, 2.4.4(1), 2.4.5, 2.4.6(1), 2.4.6(3), and 2.6.1, at the time the **ID-regulated provider publicly discloses** or provides the relevant information to the **Commission** (as applicable).
- 2.8.3 Subject to clause 2.8.4, if an **ID-regulated provider publicly discloses** information under clause 2.11.1 or 2.11.2, the **ID-regulated provider** must **publicly disclose** a certificate under clause 2.11.1 or 2.11.2 to the standard of the certificate disclosed with the **original disclosure**.
- 2.8.4 In applying clause 2.8.3, the certification required for **indirectly affected data and statements** disclosures is whether the disclosed **error** has been corrected and subsequently correctly reflected in the revised **indirectly affected data and statements**.

2.9 RETENTION AND CONTINUING DISCLOSURES

2.9.1 An **ID-regulated provider** that is required by this determination to **publicly disclose** any information must retain, and continuously **publicly disclose**, that information for

at least 7 years from the date that information is first required to be **publicly disclosed**.

2.10 EXEMPTIONS

- 2.10.1 The Commission may by written notice to an ID-regulated provider—
 - (1) exempt the **ID-regulated provider** from any requirement of this determination, for a period and on such terms and conditions as the **Commission** specifies in the notice; and
 - (2) amend or revoke any such exemption.

2.11 DISCLOSURE OF ERRORS IN PREVIOUSLY DISCLOSED INFORMATION

- 2.11.1 No later than 7 months after identifying a material **error**, an **ID-regulated provider** must:
 - (1) publicly disclose—
 - (a) a description of the **error** including the quantum of the **error** and a summary of the disclosures, data, and statements affected by the **error**;
 - (b) the reason(s) for the **error**;
 - (c) the data and statements from the **original disclosure** affected by the **error**;
 - (d) in a manner consistent with this determination, including any amendments in effect at the time of the **original disclosure**, correct revised data or statements affected by the **error**;
 - (e) a certificate in accordance with clause 2.8.3; and
 - (f) where applicable, an assurance report in accordance with clause 2.7.6;
 - (2) disclose the information outlined in subclause (1) when **publicly disclosing** the **original disclosure** in accordance with clause 2.9.1.
- 2.11.2 If an **ID-regulated provider** identifies a non-material **error**, the **ID-regulated provider** may, within 7 months of identifying the non-material **error**, **publicly disclose** it in accordance with clause 2.11.1.
- 2.11.3 Information disclosed in accordance with this determination that refers to or relies on information contained in a previous disclosure must be consistent with the

- previous disclosure, unless an **error** disclosure related to that information has been made in accordance with clause 2.11.1 or 2.11.2.
- 2.11.4 Information disclosed after an **error** disclosure is made in accordance with clause 2.11.1 or 2.11.2 must be consistent with the **error** disclosure made in accordance with clause 2.11.1 or 2.11.2 (as applicable).

PART 3 SCHEDULES INCLUDED IN THIS DOCUMENT

SCHEDULE 14:	MANDATORY EXPLANATORY NOTES (CHORUS)	46
SCHEDULE 14A:	MANDATORY EXPLANATORY NOTES (ID-ONLY REGULATED PROVIDER)	53
SCHEDULE 14B:	MANDATORY EXPLANATORY NOTES ON FORECAST INFORMATION	60
SCHEDULE 15:	VOLUNTARY EXPLANATORY NOTES	63
SCHEDULE 16:	FINANCIAL AND ASSET MANAGEMENT REPORT DEFINITIONS	64
SCHEDULE 17:	CERTIFICATION FOR INTRA-YEAR DISCLOSURES	83
SCHEDULE 18:	CERTIFICATION FOR YEAR-END DISCLOSURES	84
SCHEDULE 21:	END-USER CONNECTION SATISFACTION SURVEY	85
SCHEDULE 22:	METHODOLOGIES FOR CALCULATING PORT UTILISATION AND TRAFFIC	
	PERFORMANCE	86
SCHEDULE 23:	QUALITY REPORT DEFINITIONS	
SCHEDULE 26:	PRICING REPORT DEFINITIONS	

[For Schedules 1-13, 19 -20a, and 24-25 not included in this document, see the Microsoft Excel workbooks published on 30 November 2021, at: https://comcom.govt.nz/regulated-industries/telecommunications/projects/fibre-price-quality-path-and-information-disclosure#projecttab]

Schedule 14b:	Mandatory Explanatory	y Notes on Forecast Information
---------------	-----------------------	---------------------------------

Company name:	
For disclosure year ended:	
n this Schedule, clause references are to the Fibre Inform	nation Disclosure Determination

In this Schedule, clause references are to the Fibre Information Disclosure Determination 2021.

- 1. This Schedule requires each **ID-regulated provider** to provide explanatory notes on reports prepared in accordance with clause 2.6.4.
- 2. This Schedule is mandatory: each **ID-regulated provider** must provide the explanatory comment specified below, in accordance with clause 2.6.4.

Commentary on difference between nominal and constant price capital expenditure forecasts (Schedule 11a)

3. In the box below, comment on the difference between nominal and constant price capital expenditure for the current disclosure year and applicable planning period, as disclosed in Schedule 11a.

Box 1: Commentary on difference between nominal and constant price capital expenditure forecasts
[Insert text here]

Commentary on difference between nominal and constant price operational expenditure forecasts (Schedule 11b)

4. In the box below, comment on the difference between nominal and constant price operational expenditure for the current disclosure year and applicable planning period, as disclosed in Schedule 11b.

Box 2: Commentary on difference between nominal and constant price operational expenditure forecasts [Insert text here]

- 5. In the boxes below provide information on the link between the forecast expenditure in Schedule 11a and—
 - 5.1. forecast **operational expenditure** in Schedule 11b, and;
 - 5.2. network quality performance (availability and port utilisation).

expe	Box 3a: Commentary on link between the forecast expenditure in Schedule 11a and forecast operational expenditure in Schedule 11b [Insert text here]

Schedule 16: Financial and Asset Management Report Definitions

Term	Definition	
% forecast to be	means the percentage of an asset class by unit for which	
replaced in next 5	replacement expenditure has been forecast in the Report on	
years	Forecast Capital Expenditure set out in Schedule 11a;	
% variance	means:	
	$q = \frac{a - b}{b} \times 100$	
	where:	
	a = actual expenditure	
200000	b = forecast expenditure;	
access access network	means relating to access network activities; means a network that enables end-user connections to the fibre	
access network	network and includes ONTs, OLTs, and 'Element Management Platform' software which manages network configuration and	
	alarms;	
active forecast	means all PON and P2P connections;	
connections		
actual allowable revenue	has the meaning given in the IM determination ;	
adjusted	means total depreciation for all assets calculated as if no amount	
depreciation	of revaluation had been included in the calculation of any opening RAB value following the determination of the initial RAB , where any remaining asset lives used in the calculation must be	
	consistent with the remaining asset lives used for calculating total depreciation ;	
adjustment	means:	
resulting from asset allocation	(a) in relation to works under construction, the change in works under construction resulting from a change in asset allocation assumptions for assets included in works under construction, where increases in the value of works under construction are positive and decreases are negative;	
	(b) in relation to the regulatory tax asset base, the change in sum of regulatory tax asset values resulting from a change in asset allocation assumptions for assets included in the sum of regulatory tax asset values, where increases in the value of the sum of regulatory tax asset values are positive and decreases are negative; and	
	(c) in all other instances, the value of q calculated using the following formula:	

	q = a - (b - c + d + e - f - g)
	q - u - (b - c + u + e - j - g)
	where:
	a = total closing RAB value
	b = total opening RAB value
	C = total depreciation
	d = total revaluations
	e = assets commissioned
	f = asset disposals
	g = adjustment to financial loss asset due to deregulation, if
	applicable.
	The formula must be calculated using compenent values that
	The formula must be calculated using component values that relate to the RAB. These component values are the values that
	result from the application of clause 2.1.1 or 2.1.2 (as applicable) of
	the IM determination ;
adjustment to	has the meaning given to 'deregulation adjustment' under the IM
financial loss asset	determination;
due to deregulation	,
aggregate	means the sum of maximum peak demand across all ports by POI
coincident	area measured in respect of each POI area on the busiest 5
maximum peak	minutes of the relevant disclosure year;
demand across all	
ports by POI area	
aggregation	means relating to aggregation network activities;
aggregation	means a network that links access networks to RSP POI, and
network	consists of switches (rack-mounted equipment with interface
	cards) and the links between them;
annual benefit of	means in respect of-
crown financing	(a) forecast annual benefit of Crown financing , the result of applying clause 3.5.11 in the IM determination ; and
	(b) actual annual benefit of Crown financing , the result of
	applying clause 2.4.10 or 2.4.11 (as applicable) in the IM
	determination;
annual benefit of	means the forecast annual benefit of Crown financing less the
crown financing	actual annual benefit of Crown financing;
wash-up accrual	
asset allocation	means an adjustment arising from the asset value allocation
adjustment	process specified in clause 2.1.1 or 2.1.2 (as applicable) of the IM
	determination;
asset category for	means a description of an asset or a group of assets for which-
assets with changes	(a) the regulated provider has changed the asset's depreciation
to depreciation	profile;
	(b) the asset was commissioned during the relevant disclosure
	year , and the asset's depreciation profile was changed or set in
	accordance with a PQ determination ; or

	(c) the asset is a composite asset and at least one of the
	paragraphs (a) to (b) applies to one of its constituent assets;
asset category	means the value of an asset transferred between asset categories;
transfer	illeans the value of all asset transferred between asset categories,
asset condition at	means the proportion of assets in each asset class assessed against
start of planning	the asset condition categories (H1 to H5) reflecting the likelihood
period (percentage	of short, medium or longer-term intervention, applying criteria for
' ''	
of units by grade)	intervention developed by each regulated provider;
asset disposals	means-
	(a) in relation to the unallocated RAB , the sum of unallocated
	opening RAB value less depreciation of disposed assets, as
	determined under clause 3.3.1 of the IM determination ; and
	(b) in relation to the RAB , the value (as determined in accordance
	with paragraph (a)) allocated to regulated FFLAS in
	accordance with clause 2.1.1 or 2.1.2 (as applicable) of the IM
	determination;
asset management	means activities such as strategic planning, investment
	management and technology operations for the fibre network and
	supporting IT systems, and activities such as programme
	management, contract management, property operations, consent
	acquisition, network scoping, health, safety and environment, and
	process optimisation;
asset stranding	is the amount calculated for a disclosure year using the formula
allowance	under clause 3.3.5(2) of the IM determination , adjusted to reflect
	the operating revenue cash flow date specified in the definition of
	ROI – comparable to a vanilla WACC;
asset value	has the meaning given in the IM determination ;
assets acquired	means-
from a regulated	(a) in relation to the unallocated RAB , the sum of asset values
provider	acquired from another regulated provider as determined in
	accordance with clause 2.2.13(3)(e) of the I M determination ;
	and
	(b) in relation to the RAB , the asset values (as determined in
	accordance with paragraph (a)) allocated to regulated FFLAS in
	accordance with clause 2.1.1 or 2.1.2 (as applicable) of the IM
	determination;
assets acquired	means-
from a related party	(a) in relation to the unallocated RAB , the sum of asset values
	acquired from a related party as determined in accordance
	with clauses 2.2.15 of the IM determination; and
	(b) in relation to the RAB , the sum of asset values (as determined
	in accordance with paragraph (a)) allocated to regulated
	FFLAS in accordance with clause 2.1.1 or 2.1.2 (as applicable)
	of the IM determination ;
	or the nivi determination,

assets	means assets (other than assets acquired from a regulated
commissioned	provider or assets acquired from a related party) that have been
	commissioned;
attribution rate	·
	means: $q = \frac{a \times b}{c}$
	\mathcal{C}
	where:
	a = average opening and closing RAB value
	b = a leverage rate of 42%
	C = total book value of interest-bearing debt;
atypical	means expenditure on a non-network asset that is 'one-off' or
expenditure	'exceptional';
augmentation	means creating a new address within the existing footprint of a
	network (infill) and extension work to extend coverage to
	communities outside the UFB contracts ;
average demand by	means the average of peak demand measurements in gigabits per
poi area (gigabits	second for each POI area for the busiest day of the disclosure year ;
per second)	
average opening	means;
and closing RAB	
values	$q = \frac{a+b}{2}$
	<u> </u>
	where:
	a = total opening RAB value
	b = total closing RAB value;
average speed (bits	means the sum of connection speeds divided by the number of
per second)	connections;
average throughput	means the system peak throughput divided by the number of
per user (bits per	connections;
second)	
book value	means-
	(a) in relation to the issue date, the book value in New Zealand
	dollars of a qualifying debt or non-qualifying debt on the
	issue date; and
	(b) in relation to the date of financial statements, the book value
	in New Zealand dollars of a qualifying debt or non-qualifying
	debt as at the end of the period of the regulated provider's
	latest general-purpose financial statements;
business IT	means systems and applications across IT domains that support
24311103311	business activities;
capital contribution	has the meaning given in the IM determination ;
	nas and meaning given in the lift determination,
capital expenditure	means-
Capital expellattale	means

	,
	(a) in relation to the unallocated works under construction , costs-
	(i) incurred in the acquisition or development of an asset
	during the disclosure year that it is, or is intended to be,
	commissioned; and
	(ii) that are included or are intended to be included in the
	value of assets commissioned relating to the unallocated
	RAB;
	(b) in relation to the Report on related party transactions , costs-
	(i) incurred in the acquisition or development of an asset
	during the disclosure year that is, or is intended to be,
	commissioned; and
	(ii) that are included or are intended to be included in the
	value of assets commissioned relating to the RAB; and
	(iii) that result from one or more related party transactions;
	(c) in all other instances, has the meaning given to 'capital
	expenditure' in the IM determination ;
catastrophic event	has the meaning given in the IM determination;
satastrankia susat	mans an allowance in relation to a saturate while events
catastrophic event allowance	means an allowance in relation to a catastrophic event;
change in asset	means change in asset value due to a change in allocator value;
value allocation	means change in asset value due to a change in anocator value,
change in cost	means change in cost value due to a change in allocator value;
allocation	22 2 3 3 3 3 3 4 3 4 3 4 3 4 3 4 3 4 3 4
closing RAB value	has the meaning given in the IM determination;
closing sum of	means the sum of regulatory tax asset values for assets that have
regulatory tax asset	a value included in total closing RAB value plus the regulatory tax
values	asset values of assets referred to in clause 2.3.2(4)(b) of the IM
	determination;
closing tax losses	has the meaning given in clause 2.3.3(4) of the IM determination ;
company - GAAP	means the sum of total regulated FFLAS-GAAP and unregulated
annula test U.S.	activities - GAAP;
complex installation	means the design and build of an installation for specific business
connection capex	requirements; has the meaning given in the IM determination ;
variable adjustment	nas the meaning given in the nyi determination ,
variable aujustillellt	
connection revenue	means the one-off amounts payable by an RSP to an ID-regulated
	provider for the provisioning of regulated FFLAS;
connection volumes	means the number of revenue-generating regulated FFLAS
- opening	connections at the beginning of a disclosure year;
connections	means the number of revenue-generating regulated FFLAS
volumes – closing	connections at the end of a disclosure year;
corporate capex	means sundry business capital expenditure in relation to corporate
	functional units;

corporate opex	means sundry business operating expenditure in relation to
	corporate functional units including accommodation, insurance,
	and professional services;
corporate tax rate	has the meaning given in the IM determination ;
cost of debt	means the sum of the risk-free rate, average debt premium
assumption	estimates, and debt issuance costs, as determined by the
	Commission in accordance with clause 2.4.1 of the IM
	determination for each disclosure year;
cost of financing	means the borrowing costs under GAAP incurred by an ID-
	regulated provider accumulated during the construction phase of a
	project that creates a new network asset , determined in
	accordance with clause 2.2.13(4) of the IM determination and
	allocated to regulated FFLAS in accordance with clause 2.1.1 or
	2.1.2 (as applicable) of the IM determination ;
coupon rate (%)	means-
	(a) where the information is available publicly, the nominal
	coupon rate of interest of a qualifying debt on the issue
	date; and
	(b) where the nominal coupon rate of interest of a qualifying
	debt on the issue date is not available publicly, either the
	nominal coupon rate of interest or the basis for
	·
	determining the nominal coupon rate of interest of a
	qualifying debt on the issue date;
CPI _T	has the meaning given in clause 2.2.11(4) to (6) (as applicable) of
	the IM determination;
CPI _{T-1}	has the meaning given in clause 2.2.11(4) to (6) (as applicable) of
	the IM determination;
customer	means operating expenditure in relation to the teams that connect
operations opex	consumers by managing installations and provisioning network
	services including higher-volume demand-driven activity (such as
	call centres), lower-volume demand driven activity (such as
	coordinating complex installations and multi-unit extensions) and
	project work (such as managed migrations programmes);
data accuracy	is an ID-regulated provider's numerical estimate from 1 to 4 of the
	quality of data underpinning a disclosure relating to assets,
	where—
	1 – means that good quality data is only available for less than or
	equal to 20% of the assets in the relevant category and estimates
	are likely to contain significant error;
	2 – means that good quality data is available for less than or equal
	to 50% of assets but not for the others and the data provided
	includes estimates of uncounted assets within the relevant
	category;
	3 – means that good quality data is available for 85% of assets but includes a level of estimation where there is understood to be

	some poor quality data for the remainder of the assets within the
	relevant category; and
	4 – means that good quality data is available for all of the assets in
	the relevant category;
debt issue cost re-	has the meaning in 2.4.8(4) of the IM determination ;
adjustment	
depreciation	has the meaning given in the IM determination ;
depreciation -	means-
alternative method	(a) in relation to the unallocated RAB, the sum of unallocated
	depreciation calculated under any other method in
	accordance with clause 2.2.7 or 2.2.8 (as applicable) of the
	IM determination; and
	(b) in relation to the RAB , depreciation calculated under any
	other method in accordance with clause 2.2.7 or 2.2.8 (as
	applicable) of the IM determination ;
depreciation	means adjusted depreciation less tax depreciation;
temporary	
differences	
dispute resolution	has the meaning in clause 3.1.2(1)(d) of the IM determination ;
scheme levy	
excluding revenue	means excluding revenue from any wash-up accrual;
earned from wash-	
ups	
expenditure	means operating expenditure plus pass-through costs;
expenditure on	means the expenditure relating to costs included, or expected to
assets	be included, in a closing RAB value and is equal to capital
	expenditure plus value of capital contributions less cost of
	financing , where capital expenditure has either the meaning under
	paragraph (c), or, in respect of related party transactions , the
	meaning under paragraph (b), as defined above for the purpose of
	the relevant Schedules of this determination;
expenditure or loss	means expenditure or loss deductible under tax rules , but not as
deductible but not	regulatory profit / (loss) before tax;
in regulatory profit	
/ (loss) before tax	
expenditure or loss	means expenditure or loss in regulatory profit / (loss) before tax,
in regulatory profit	but not deductible under tax rules;
/ (loss) before tax	
but not deductible	
fibre flexibility	means an enclosure which provides a connectivity point between
point (FFP)	the feeder fibres from the central office to the distribution fibre to
	premises;
fibre to the node	means fibre network constructed to terminate at an active
(FTTN)	cabinet;
field sustain	means capital expenditure on physical network assets outside of
	network sites, such as poles, fibre, and terminators;
	income and percept merely and community

finance lease	has the meaning given in the IM determination.
	has the meaning given in the IM determination ;
forecast cost of	means the value of forecast replacement expenditure for asset
assets to be	class included in a Report on Forecast Capital Expenditure;
replaced in next 5	
years \$000	
gains / (losses) on	means, in relation to-
asset disposals	(a) an asset disposal to a regulated supplier, nil;
	(b) an asset disposal to a related party,
	q = a - b
	where:
	α = total sale price of the assets being no less than the
	value determined under the related party provisions of
	this determination
	b = asset disposals; and
	s asset disposais) and
	(c) any other asset disposal , means-
	q = a - b
	q w z
	where:
	a = total sale price of the assets
	b = asset disposals;
gross term credit	means the sum of term credit spread difference and debt issue
spread differential	•
-	cost readjustment for qualifying debt;
H1	is an as-new asset condition rating – only normal maintenance
	required;
H2	is an asset condition rating where the asset has minor defects only,
	is serviceable, and only requires minor maintenance (5%);
H3	is an asset condition rating where significant maintenance (10-
	20%) is required to return the asset to an accepted level of service;
H4	is an asset condition rating where renewal is required – significant
	renewal/upgrade required (20-40%);
H5	is an asset condition rating where the asset is unserviceable – over
	50% of asset requires replacement;
handover site	means a site of handover data traffic to RSPs, which occurs in a
	building with a core or mesh function;
highest rate of	means the highest rate of finance used as the cost of financing
capitalised finance	capitalised in works under construction;
applied	
ID FFLAS-GAAP	means the value of ID FFLAS transactions calculated under GAAP;
identifiable non-	has the meaning given in the IM determination ;
monetary asset	
ID-only FFLAS-GAAP	means the value of ID-only FFLAS transactions calculated under
ID-UIIIY I I LAS-GAAP	GAAP;
impact of wash up	·
impact of wash-up	means-
accruals and other	a-b
adjustments on the	where:

ROI to a vanilla	a = ROI - comparable to a vanilla WACC
WACC	b = ROI - comparable to a vanilla WACC - excluding
	wash-up accruals and other adjustments;
income	has the same meaning as under GAAP;
income included in	means income that is included in regulatory profit / (loss) before
regulatory profit /	tax, but which is not taxable under tax rules;
(loss) before tax but	tax, but winding not taxable under tax rules,
not taxable	
income not	means income that is not included in regulatory profit / (loss)
included in	before tax , but which is taxable under tax rules ;
regulatory profit /	before tax, but witten is taxable under tax rules,
(loss) before tax but	
taxable	
installation	means capital expenditure in relation to standard installations
expenditure	and complex installations;
insurance	means expenditure in relation to a 'contract of insurance' as
expenditure	defined in the Insurance (Prudential Supervision) Act 2010;
issue date	means the day on which a qualifying debt or non-qualifying debt is
	issued;
issuing party	means the party issuing the qualifying debt or non-qualifying
	debt;
leverage	has the meaning given in the IM determination ;
maintenance	means network operating expenditure relating to reactive work
	(work to address an issue identified through a fault, alarm or
	inspection); recoverable work (work for which all or part of the
	cost can be recovered from another party); and preventative work
	(routine inspection works, including testing and survey);
market value of	means the market value of disposed assets sold or transferred to a
asset disposals	related party;
merger and	means expenditure related to merger or acquisition activities
acquisition	irrespective of the outcome of the merger or acquisition, but
expenditure	proportionate to the extent the benefits of the merger or
	acquisition would relate to regulated FFLAS;
mid-point estimate	means the 'mid-point estimate of post-tax WACC' for the
of post-tax WACC	regulatory period commencing on the first day of the disclosure
	year determined by the Commission in accordance with clause
	2.4.1(2) of the IM determination ;
mid-point estimate	means the 'mid-point estimate of vanilla WACC' for the regulatory
of vanilla WACC	period commencing on the first day of the disclosure year
	determined by the Commission in accordance with clause 2.4.1(1)
	of the IM determination;
mid-year net cash	means expenditure plus assets commissioned less asset disposals
outflows	plus tax payments less other regulated income;
monthly access	means recurring amounts payable by an RSP to a regulated
revenue	provider for a service under a UFB contract;

	·		
net additional	means the additional units added to a layer 1 asset class or layer 2		
volume	asset class during the disclosure year;		
net income	means the total regulatory income of the ID-regulated provider ;		
network &	means network & customer IT expenditure less capital		
customer IT less	contributions;		
capital			
contributions			
network	means operating expenditure on outsourced physical network		
expenditure	maintenance activities, physical network operating costs (such as		
	power and leases), and outsourced costs of network and security		
	operating centres;		
network land and	means a network asset that is land or a building;		
buildings			
network operating	means costs arising from leases, electricity, security operations,		
costs	and fire protection and building compliance;		
network operations	means operating expenditure in respect of network operations		
	and associated support resources, including management of		
	network electronics alarms, technical support and configuration		
	services, and provision of network electronics equipment repair		
	and return;		
noturoul onov	manys the sum of analysting averagiture relating to sustamor		
network opex	means the sum of operating expenditure relating to customer		
	operations, product, sales and marketing, maintenance, network		
network spares	operations, operating costs, and other network costs; has the meaning given in the IM determination ;		
new allocation	means the operating expenditure or asset values allocated to		
new anocation	regulated FFLAS in accordance with a new allocator or line item for		
	each of the relevant disclosure years ;		
new property	means capital expenditure on work with developers to extend the		
developments	fibre network into new developments, such as residential		
-	subdivisions or office parks;		
non-network opex	means the sum of operating expenditure relating to asset		
	management, corporate, and technology costs;		
non-qualifying debt	means interest-bearing debt that is not a qualifying debt;		
notional deductible	has the meaning given in clauses 2.3.1(7) to 2.3.1(9) (as applicable)		
interest	of the IM determination;		
number of cabinets	means the number of cabinets in a POI area that are used to		
with regulated	connect regulated FFLAS;		
FFLAS fibre			
connections			
number of PON	means the number of PON end-users in a POI area that are		
end-users from CO	connected directly to the central office (ie, not via a cabinet);		
opening RAB value	has the meaning given in the IM determination ;		

opening sum of	means the sum of regulatory tax asset values of assets included in			
regulatory tax asset	the total opening RAB value plus the regulatory tax asset values of			
values	assets referred to in clause 2.3.2(4)(b) of the IM determination;			
opening tax losses	has the meaning given in clause 2.3.3(3) of the IM determination ;			
opening value of	means-			
fully depreciated	(a) in relation to the unallocated RAB ; the sum of unallocated			
and disposed assets	RAB included in the total opening RAB values, asset values			
	that are fully depreciated during the disclosure year , and			
	asset disposals; and			
	(b) in relation to the RAB ; the sum of asset values included in			
	the total opening RAB values that are fully depreciated			
	during the disclosure year, and asset disposals;			
operating revenue	means the total revenue from prices ;			
operating surplus /	means total regulatory income less operating expenditure less			
(deficit)	pass-through costs;			
optical fibre	means an optical fibre distribution frame installed in the central			
distribution frame	office to provide connectivity between the regulated provider's			
(OFDF)	active transmission equipment and outside plant network;			
original allocation	means the operating expenditure or asset values allocated to			
original anotation	regulated FFLAS in accordance with the allocations and line items			
	made in the previous disclosure yea r;			
original tenor	means-			
	(a) where the qualifying debt or non-qualifying debt is not issued			
	to a related party, the term of a qualifying debt or non-			
	qualifying debt at the issue date;			
	(b) where the qualifying debt or non-qualifying debt is issued to			
	a related party , the shorter of the-			
	(i) the tenor of the qualifying debt ; or			
	(ii) the period from the qualifying debt's issue date to the			
	earliest date on which its repayment is or may be			
	required;			
OSI model	has the meaning given in s 155ZS of the Act;			
other adjustments	means:			
to the RAB tax				
value	q = a - (b + c - d - e + f)			
	where:			
	a = closing sum of regulatory tax asset values			
	b = opening sum of regulatory tax asset values			
	C = regulatory tax asset value of assets commissioned			
	d = regulatory tax asset value of asset disposals			
	e = tax depreciation			
	f = adjustment resulting from asset allocation			
	/ - aujustinent resulting from asset allocation			

other network asset	means, in respect of Schedules 4, 4a and 4b of this determination,		
	a network asset used by the regulated provider to provide		
	regulated FFLAS that is not a layer 1 asset, a layer 2 asset, or		
	network land and buildings;		
other network costs	means costs that relate to network opex which are not included in:		
	(a) customer operations;		
	(b) product, sales & marketing;		
	(c) maintenance;		
	(d) network operations; and		
	(e) network operating costs;		
other non-network	means an asset that is necessary for the operation of the fibre		
asset	network but which is not a layer 1 asset, layer 2 asset, or a		
	network land and building;		
other product-	means any other revenues relating to a specific regulated FFLAS		
specific revenue	not captured in the connection revenue and monthly access		
	revenue categories;		
other regulated	means income associated with the provision of regulated FFLAS,		
income	including gains and losses on disposed assets, but excluding-		
	(a) operating revenue;		
	(b) investment-related income; and		
	(c) vested assets.		
other regulated	means other regulated income excluding gains / (losses) on asset		
income (other than	disposals;		
gains / (losses) on			
asset disposals)			
other related party	means the value of related party transactions that are not		
transactions	disclosed as total regulatory income, operating expenditure,		
	capital expenditure, or market value of asset disposals;		
other reopener	means a reopener event allowance specified in a PQ		
event-allowance	determination other than a catastrophic event allowance;		
other wash-up	means any 'wash-up amount' specified by the Commission in a PQ		
accrual	determination that is not listed in the definition of 'wash-up		
	accruals and other adjustments' below;		
P2P	means a point-to-point connection between two communication		
	endpoints or nodes;		
pass-through costs	has the meaning specified in clause 3.1.2 of the IM determination ;		
permanent	means the sum of-		
differences	(a) income-		
	(i) treated as taxable if tax rules were applied to determine		
	income tax payable in respect of the regulated provider's		
	provision of regulated FFLAS; and		
	(ii) not included as amounts of income in determining		
I			
	regulatory profit / (loss) before tax: and		
	regulatory profit / (loss) before tax; and (b) expenditure or loss-		

	(i) included as amounts of expenditure or loss in determining		
	regulatory profit / (loss) before tax; and		
	(ii) not treated as deductions were the tax rules applied to		
	determine income tax payable in respect of the regulated		
	provider's provision of regulated FFLAS;		
PQ determination	means a price-quality path determination under s 170 of the Act ;		
PQ FFLAS-GAAP	means the value of PQ FFLAS transactions calculated under GAAP;		
premises passed	means when a fibre network bypasses a premises with communal		
	infrastructure and is capable of connection from the nearest point		
	to the private boundary or nearest pole;		
price	means a fee or charge, in nominal terms exclusive of GST, for the		
	provision of regulated FFLAS, incentives taken up by access		
	seekers, adjusted in accordance with GAAP;		
pricing date	means the day on which a qualifying debt is priced;		
primary driver	means the primary reason for a decision to incur a cost in the year		
	the cost was incurred or forecast to be incurred. Where there is		
	more than one driver for a cost, and the cost is a significant		
	proportion of operational expenditure or expenditure on assets,		
	expenditure may be apportioned between expenditure categories		
	according to the relative importance of each driver to the decision,		
	or the project divided into cost categories;		
product, sale &	means operating expenditure directed at attracting and retaining		
marketing	access seekers, managing RSP relationships, and evolving the		
	regulated provider's product suite;		
property, plant, and	means-		
equipment	(a) in respect of ID FFLAS-GAAP, the closing RAB value of assets		
	classified as 'property, plant, and equipment' under this		
	determination;		
	(b) in respect of PQ FFLAS-GAAP , the closing RAB value of assets		
	used to provide regulated FFLAS classified as 'property, plant,		
	and equipment' under GAAP, but excluding works under		
	construction; and		
	(c) for company-GAAP, the value of the regulated provider's		
	property, plant, and equipment determined in accordance		
	with GAAP, but excluding works under construction;		
qualifying debt	has the meaning given in paragraph (a) of the defined term in		
	clause 1.1.4(2) of the IM determination;		
rates	means a cost specified in clause 3.1.2(2)(a) of the IM		
	determination;		
l uationala fau abanca			
rationale for change	means the rationale for changing the allocator or line items,		
rationale for change	including whether the change occurred because of a change in		
regulated service			

regulatory net taxable income	has the meaning given in the IM determination ;		
regulatory profit /	means the value of q calculated using the following formula:		
(loss) before tax			
(1033) Before tax	q = a - b + c		
	where:		
	a = operating surplus / (deficit)		
	b = total depreciation		
	c = total revaluations		
regulatory	has the meaning given in the IM determination ;		
profit/(loss)			
regulatory tax	has the meaning given in clause 2.3.1 of the IM determination ;		
allowance			
regulatory tax asset	has the meaning given in the IM determination ;		
value			
regulatory tax asset	means the sum of regulatory tax asset values for assets that have		
value of asset	a value in asset disposals;		
disposals	· · ·		
regulatory tax asset	means the sum of regulatory tax asset values for assets that have		
value of assets	a value in assets commissioned;		
commissioned	,		
regulatory taxable	has the meaning given to in clause 2.3.1(3) of the IM		
income	determination;		
regulatory/GAAP	means the difference between the values of ID FFLAS and		
adjustment	regulated FFLAS - GAAP;		
relocations	means capital expenditure in relation to relocation of network		
	assets arising from roading authority work programmes,		
	undergrounding (overhead to underground programmes), and		
	third-party requests;		
remaining asset life	has the meaning given in the IM determination;		
research and	means, in relation to expenditure, expenditure on assets, or		
development	operating expenditure where the primary driver for the		
	expenditure relates to increasing the efficient provision of		
	regulated FFLAS through-		
	(a) implementing an original and planned investigation		
	undertaken with the prospect of gaining new scientific or		
	technical knowledge or understanding; or		
	1		
	(b) applying research findings or other knowledge to a plan or		
	design for the production of new or substantially improved		
	materials, devices, products, processes, systems or services		
	before the start of commercial production or use;		
resilience	means the ability to keep the network running through adverse		
	events (diversity, robustness or contingency);		
revaluation rate	has the meaning given in the IM determination ;		
revaluations	has the meaning given in the IM determination;		

ROI	means return on investment;		
ROI – before benefit	· ·		
	means ROI – comparable to a vanilla WA		
of crown financing	back the annual benefit of crown financing treated as a mid-year net cash outflow;		
ROI – comparable	means-		
to a post-tax WACC	(a) in relation to the 'ROI – comparable to a post-tax WACC' reflecting all revenue earned,		
	$q = a - (d \times e \times f \times g)$		
	(b) in relation to the 'ROI – comparable to a post-tax WACC' excluding revenue earned from financial incentives and wash- up accruals,		
	$q = b - (d \times e \times d)$ where:	$f \times g$)	
	a = ROI – comparable to a vanilla WACC reflecting all revenue earned		
	b = ROI - comparable to a vanilla WACC excluding revenue earned from wash-up accruals and other adjustments $d = cost of debt$ assumption		
	e = leverage		
	f = corporate tax rate		
	g = proportion of the RAB that is subject to the calculation		
	of notional deductible interest;		
ROI – comparable	means the internal rate of return for a schedule of cash flows that		
to a vanilla WACC	occur according to a schedule of dates where the schedules of cash		
	flows and dates-		
	(a) in relation to the 'ROI – comparable to a vanilla WACC'		
	reflecting all revenue earned, are-		
	<u>Cash flows</u>	<u>Dates</u>	
	- opening RAB value	365 days before the	
		end of the disclosure	
		year	
	- mid-year net cash outflows	182 days before the	
		end of the disclosure	
		year	
	- operating revenue	148 days before the	
		end of the disclosure year	
	- term credit spread differential	at the end of the	
	allowance	disclosure year	
	- closing RAB value	at the end of the	
	בוסטווק ונחם שמועכ	disclosure year	
		3.00.003.00 100.	

	(b) in relation to the (BOL comparable to	a a vanilla MACC'	
	(b) in relation to the 'ROI – comparable to a vanilla WACC'		
	excluding revenue earned from financial incentives and wash-		
	up accruals, are-	_	
	<u>Cash flows</u>	<u>Dates</u>	
	- opening RAB value	365 days before the	
		end of the disclosure	
		year;	
	- (mid-year net cash outflows less	182 days before the	
	(wash-up accruals and other	end of the disclosure	
	adjustments multiplied by the	year;	
	corporate tax rate))		
	- operating revenue less wash-up	148 days before the	
	accruals and other adjustments	end of the disclosure	
	year;		
	- term credit spread differential	at the end of the	
	allowance	disclosure year;	
	- closing RAB value	at the end of the	
		disclosure year;	
routine expenditure	means expenditure on a non-network asset that is not atypical		
	expenditure;		
self-insurance	means any allowance for self-insurance allowed by the		
allowance	Commission under a PQ determination;		
site sustain	means capital expenditure in relation to r	network buildings and	
	their power, cooling, and management services;		
standard error	has the meaning given in the IM determin	nation;	
standard	means installations that are not complex installations, and		
installations	associated investment in incentives ;		
sum of connection	means theoretical demand on the networ	•	
speeds (bits per	downloaded its maximum plan speed at the same time;		
second)	moone a device was dear sustant suitable.		
switch	means a device used for optical switching		
system peak (maximum	means the maximum peak demand measured day of the disclosure year ;	urement on the busiest	
observed peak in	day of the disclosure year,		
gigabits per second)			
tax depreciation	means depreciation determined using tax	depreciation rules	
tax depreciation	has the meaning given the IM determinat		
rules	nus the meaning given the in accermina	,	
tax opening RAB	means the sum of opening tax asset value	es;	
value		,	
tax payable	means the income tax payable determined using the tax		
1 - 1		_	
	depreciation rules;		

means the non-capitalised costs of operating business IT and network & customer IT systems, including licences, support and maintenance; Telecommunication		·		
s Act levies determination; term credit spread difference term credit spread differential allowance total attributable to regulated service values and operating costs or asset values that are not directly attributable to regulated service values and operating costs or asset values that are not directly attributable (but are attributable) to regulated FFLAS; total book value of interest-bearing debt means the sum of book value of qualifying debt and non-interest-bearing debt at the date of the latest general-purpose financial statements; means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination applies; total opening RAB value subject to revaluation means the RAB value to which clause 2.2.11 of the IM determination applies; total regulated FFLAS-GAAP means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory income (b) gains / losses on asset disposals; and (c) other regulated income;	technology	network & customer IT systems, including licences, support and		
term credit spread difference term credit spread difference term credit spread difference term credit spread difference total attributable to regulated service total attributable to regulated service total book value of interest-bearing debt total depreciation (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; total opening RAB value subject to revaluation total regulated prevaluation total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals; and (c) other regulated income; total regulatory income has the meaning given in the IM determination; means the sum of directly attributable operating costs or asset values and operating costs or asset values and operating costs or asset values and operating costs or asset value statements flow all fire the latest general-purpose financial statements; means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; total opening RAB value to which clause 2.2.11 of the IM determination applies; means the RAB value to which clause 2.2.11 of the IM determination applies; means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; total regulatory income means the sum of: (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;		, , , , , , , , , , , , , , , , , , , ,		
differential allowance total attributable to regulated service values and operating costs or asset values that are not directly attributable (but are attributable) to regulated FFLAS; total book value of interest-bearing debt at the but are of the latest general-purpose financial statements; total depreciation (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination; means the RAB value to which clause 2.2.11 of the IM determination applies; means the RAB value to which clause 2.2.11 of the IM determination applies; means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; means the sum of: (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	•			
regulated service values and operating costs or asset values that are not directly attributable (but are attributable) to regulated FFLAS; total book value of interest-bearing debt total depreciation means the sum of book value of qualifying debt and non-qualifying debt at the date of the latest general-purpose financial statements; means- (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination; means the RAB value to which clause 2.2.11 of the IM determination applies; means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; means the sum of: (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	differential	has the meaning given in the IM determination;		
interest-bearing debt total depreciation (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination; means the RAB value to which clause 2.2.11 of the IM determination applies; revaluation total regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory income (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;		values and operating costs or asset values that are not directly		
(a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM determination; total opening RAB value subject to revaluation total regulated FFLAS-GAAP means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory means the sum of: (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	interest-bearing	qualifying debt at the date of the latest general-purpose financial		
value subject to revaluation total regulated FFLAS-GAAP means the value of all regulated FFLAS transactions calculated under GAAP; total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory income (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	total depreciation	 (a) in relation to the unallocated RAB, the sum of unallocated depreciation as determined in accordance with the IM determination; and (b) in relation to the RAB or regulatory profit, the sum of depreciation as determined in accordance with the IM 		
total regulatory income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory income (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	value subject to			
income (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; total regulatory means the sum of: (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	_			
income (a) operating revenue; (b) gains / losses on asset disposals; and (c) other regulated income;	income	 (a) for the purposes of the Report on Regulatory Profit set out in Schedule 2 of this determination, the sum of operating revenue, gains / losses on asset disposals, and other regulated income; and (b) for the purposes of the Report on Related Party Transactions set out in Schedule 9 of this determination, the income from related party transactions after applying clause 2.5.2 of this determination; 		
	1	(a) operating revenue; (b) gains / losses on asset disposals; and		
	total revaluations	<u> </u>		

	(a) in relation to the unallocated RAB , the sum of unallocated		
	revaluation as determined in accordance with the IM		
	determination; and		
	(b) in relation to the RAB or regulatory profit , the sum of		
	revaluations as determined in accordance with the IM		
	determination;		
total value of	,		
transactions	means the total value of related party transactions , as determined		
transactions	in accordance with clause 2.3.6 of this determination and clauses		
	2.2.13(3)(g) and 2.2.15 of the IM determination ;		
transport	means capital expenditure on the transport network;		
transport network	means the fibre network , or part of the fibre network , which		
	provides high-capacity connectivity over long distances between		
	aggregation nodes and OLT, consisting of equipment supporting		
	transmission links over core, transport and access cables;		
UFB communal	means an ID-regulated provider's contracted commitments with		
	the government under the UFB initiative ;		
UFB contract	has the meaning given in clause 7 of Schedule 1AA of the Act;		
UFB initiative	has the same meaning as defined in s 5 of the Act ;		
unallocated	has the meaning given in the IM determination;		
depreciation			
unallocated RAB	means the sum of asset values included in the RAB ;		
unregulated	means the value of transactions measured under GAAP that are		
activities - GAAP	not in relation to regulated FFLAS ;		
utilised tax losses	has the meaning given in paragraph (a) of the defined term in the		
	IM determination;		
value of vested	means the consideration incurred or expected to be incurred by an		
assets	ID-regulated provider in respect of vested assets that are or are		
	expected to be accumulated during the construction phase of a		
	project that creates a new network asset , and is determined in		
	accordance with clause 2.2.13 of the IM determination and		
	allocated to regulated FFLAS in accordance with clause 2.1.1 or		
	2.1.2 (as applicable) of the IM determination ;		
vested assets	has the meaning given in the IM determination ;		
volumes for new	means the number of asset units employed in the provision of		
fibre investment	regulated FFLAS;		
WACC rate used to	means-		
set regulatory price	(a) in relation to an ID-regulated provider subject to a PQ		
path	determination , the WACC estimate determined in accordance		
	with clause 2.4.1 of the IM determination for the regulatory		
	period the disclosure year falls within; and		
	(b) in relation to a regulated provider not subject to a PQ		
	determination, 'n/a';		
wash-up accrual	has the meaning given in the IM determination ;		
wasii-up acciuai	nas the meaning given in the nyi determination ,		

wash-up accruals	means the sum of-	
and other	(a) annual benefit of Crown financing wash-up accrual;	
adjustments	(b) other wash-up accruals; and	
	(c) connection capex variable adjustment;	
weighted average	means the weighted average expected total asset life of assets	
expected total life	calculated using the total opening RAB values as weights; and	
weighted average	means the weighted average remaining asset life of assets	
remaining asset life	calculated using the total opening RAB values as weights.	

Schedule 17: Certification for Intra-Year Disclosures

Clause 2.8.2

We, [insert full names], being directors of [name of **ID-regulated provider**] certify that, having made all reasonable enquiry, to the best of our knowledge, the following attached information of [name of **ID-regulated provider**] prepared for the purposes of clauses 2.5.11 and 2.5.12(1) of the Fibre Information Disclosure Determination 2021 complies in all material respects with that determination.

[Signatures of 2 directors] [Date]

Schedule 18: Certification for Year-end Disclosures

Clause 2.8.2

We, [insert full names], being directors of [name of **ID-regulated provider**] certify that, having made all reasonable enquiry, to the best of our knowledge-

- a) the information prepared for the purposes of clauses 2.3.1, 2.3.2, 2.3.3(1), 2.3.4, 2.3.5, 2.3.6(2), 2.4.2, 2.4.3, 2.4.4(1), 2.4.5, 2.4.6(1), 2.4.6(3), and 2.6.1 of the Fibre Information Disclosure Determination 2021 complies in all material respects with that determination;
- b) the historical information used in the preparation of the attached information has been properly extracted from the [name of ID-regulated provider]'s accounting and other records sourced from its financial and non-financial systems, and that sufficient appropriate records have been retained [and if not, what records and systems were used]; and
- c) the forecasts in Schedules [11, 11a, 12 and 12a] are based on objective and reasonable assumptions which both align with [name of ID-regulated provider]'s corporate vision and strategy and are documented in retained records.
- d) *[In respect of information concerning assets, goods, and services valued or disclosed in accordance with clause 2.5.2 of the Fibre Information Disclosure Determination 2021 and clauses 2.2.13(3)(g) and 2.2.15 of the Fibre Input Methodologies Determination 2020, we are satisfied that
 - i. the costs and values of any assets, goods, and services acquired from a related party comply, in all material respects, with clauses 2.5.2(1)(a) and 2.5.2(2) of the Fibre Information Disclosure Determination 2021 and clauses 2.2.13(3)(g) and 2.2.15 of the Fibre Input Methodologies Determination 2020; and
 - ii. the value of any assets, goods, and services sold or supplied to a **related party** comply, in all material respects, with clauses 2.5.2(b) and 2.5.2(2) (b)of Fibre Information Disclosure Determination 2021.]

[Signatures of 2 directors] [Date]

^{*} Delete if inapplicable

Schedule 21: End-User Connection Satisfaction Survey

- 1) For the purpose of clauses 2.3.3(3) and 2.4.4(3) (as applicable) of the body of this determination, each **ID-regulated provider** must conduct an End-User Connection Satisfaction Survey by
 - a) developing a question for each matter under paragraphs 2), 3), and 4) below;
 - b) surveying no fewer than 30 **end-users** by asking each **end-user** the questions developed for the matters under paragraphs 2), 3), and 4); and
 - c) document the questions used in each **quarter** and the responses from each **end-user**.
- 2) Installation quality satisfaction: A question asking how satisfied the end-user was with the job the ID-regulated provider did in installing the end-user's FFLAS connection, to which an end-user gives a response out of 10, where '1' means strongly dissatisfied, '10' means strongly satisfied;
- 3) Installation process satisfaction: A question asking how satisfied the end-user was with the process of getting their FFLAS connection installed, to which an end-user gives a response out of 10, where '1' means strongly dissatisfied, '10' means strongly satisfied; and
- 4) **Fibre broadband performance satisfaction**: A question asking how satisfied the **end-user** is with the performance of their fibre broadband since installation of their **FFLAS connection**, to which an **end-user** gives a response out of 10, where '1' meaning strongly dissatisfied, and '10' means strongly satisfied.

Schedule 22: Methodologies for Calculating Port Utilisation and Traffic Performance

Methodology for calculating port utilisation

1) Each **ID-regulated provider** must calculate and record **port utilisation** for all **ports** on their **fibre network** as a percentage figure by applying the following formula:

$$\frac{octets \times 8}{5 \times 60 \ seconds \times PS} \times 100$$

where:

octets means the number of octets at a port, being the greater of the

inOctets or the **outOctets**, measured over a five-minute interval in accordance with **RFC 2863**, and includes framing characters, but excludes Ethernet preamble, start frame delimiter, and

interpacket gaps; and

PS means **port** speed and is measured in **bps**.

2) Using its calculations under paragraph 1), each **ID-regulated provider** must record the percentage of **ports** each month that exceed each of the following **port utilisation** thresholds:

- a) 70%;
- b) 90%; and
- c) 95%.

Methodology for calculating traffic performance

3) Each **ID-regulated provider** must calculate and record traffic performance of their **fibre network** according to the following requirements:

Reference network

 a) A reference network must be used to collect traffic performance information for frame delay, frame delay variation, frame loss ratio for high-priority traffic, and for frame loss ratio for low-priority traffic;

Reference probes

- b) **Reference probes** used must comply with **ITU** standards G.8013/Y.1731 (08/2015) End-Point;
- Reference probes may be software-based or hardware-based and may be external to the ONT or POI switch;
- d) Hardware-based OLT reference probes must terminate on a UNI with no ID FFLAS provisioned;

- e) OLT reference probes will be located on a test ONT, or will be a separate device connected to a test ONT;
- f) The **test ONT** must connect to the **OLT** via a **production splitter**;

Requirements for POI reference probes

- g) POI reference probes must terminate on a POI switch;
- h) There must be a minimum of one **POI reference probe** for each **EAS** that hosts **E-NNI** at the **POI**;
- i) The POI reference probe-
 - (i) may be a virtual probe hosted in the **EAS** or an external device; and
 - (ii) must, together with any links to the **probe**, be dimensioned to carry the test traffic without introducing any congestion;

Number of OLT reference probes

- j) The number of **OLT reference probes** must be the greater of:
 - (i) 96 probes, distributed randomly across all **OLT chassis**; and
 - (ii) one probe per OLT chassis;

Distribution of OLT reference probes

- k) OLT reference probes are to be distributed randomly with:
 - (i) no more than one **probe** per **OLT chassis**, and
 - (ii) a minimum number of **probes** per **POI** according to Table 1 (this ensures a minimum number of **POI probes** in each **POI** that forms part of a **POI area**).

Table 1: Minimum number of OLT reference probes per POI

Area size in terms of active connections	Minimum number of OLT reference probes	
1 - 50,000	1	
50,000 - 100,000	2	
100,000 – 200,000	3	
200,000 – 400,000	4	
More than 400,000	5	

Probe connectivity

 Each OLT reference probe must be configured with a dedicated test OVC terminating on a POI reference probe;

- m) The test OVC and the synthetic test traffic it carries must not be prioritised or otherwise treated differently from any other drop-ineligible traffic within the fibre network;
- n) The reference probes and test OVC must be configured using an anchor service bitstream profile under clause 3.7 of Schedule 2 of the Telecommunications (Regulated Fibre Services) Regulations 2021 of 100Mbps downstream, 20Mbps upstream, and 2.5Mbps CIR in each direction, tagged to treat high-priority traffic and low-priority traffic appropriately;

Measurements required

- o) The reference probes will be used to measure-
 - (i) for high-priority traffic,-
 - (A) frame delay;
 - (B) frame delay variation; and
 - (C) frame loss ratio;
 - (ii) for low-priority traffic, frame loss ratio;
- p) The measurements under subparagraph o) must be recorded against the following thresholds in Table 2:

Table 2: Traffic thresholds

	Frame delay	Frame delay variation	Frame loss ratio
High-priority traffic	≤ 5 ms	≤ 3 ms	≤ 0.1%
Low-priority traffic	Not currently	Not currently	≤ 2%
	measured	measured	

Synthetic test traffic

- q) The performance monitoring functions required for **reference probes** are defined in the **ITU** standards G.8013 and Y.1731 (08/2015):
 - (i) for Single-Ended Synthetic Loss One-Way SLR (ETH-SLM); and
 - (ii) for Single-Ended Delay:
 - (A) one-way frame delay/ frame delay variation (ETH-DM); or
 - (B) two-way frame delay/ frame delay variation (ETH-DM); and
- r) **synthetic test traffic** must be generated by the **POI probe** and must be:

- (i) injected continuously at a minimum rate of 10 frames per second (ie, a minimum of 3,000 frames per five-minute measurement interval) for each synthetic test traffic frame type;
- (ii) marked as drop-ineligible, as per ITU standards G.8013 and Y.1731;
- (iii) marked as **high-priority traffic** or **low-priority traffic**, as required by the measurement; and
- (iv) treated by the **fibre network** elements in the same way that service frames are treated;

Traffic performance reporting

- s) Traffic performance reporting must be based on the number of **synthetic test traffic samples** that experience a **traffic performance exceedance**;
- t) All **reference probes** must function continuously to generate **synthetic test traffic** samples from back-to-back five-minute measurement intervals;
- u) **Traffic performance exceedance** must be reported on a monthly basis under the templates in Schedule 19 or Schedule 20 (as applicable); and
- v) The reports under Schedule 19 and Schedule 20 (as applicable) must also include:
 - (i) the number of **OLT reference probes** active during the relevant month;
 - (ii) the number of **synthetic test traffic samples** collected during the reporting period for each measurement type (i.e., **FD**, **FDV**, and **FLR**); and
 - (iii) information on any **fibre network** events or **reference probe** failures that may have affected the quality of the data collected or be material in interpreting any data that is **publicly disclosed**.

Schedule 23: Quality Report Definitions

Term	Definition	
≥90% threshold	means the percentage of ports with port utilisation equal to or greater than 90%;	
≥95% threshold	means the percentage of ports with port utilisation equal to or greater than 95%;	
≤70% threshold	means the percentage of ports with port utilisation equal to less than 70%;	
average number of connections	means the sum of the connections on the first day of the calendar month, and the connections on the last day of the calendar month, divided by two;	
average unplanned downtime	means unplanned downtime divided by the average number of connections;	
average unplanned downtime excluding force majeure events	means the unplanned downtime (excluding unplanned downtime attributable to force majeure events) divided by the average number of connections;	
bitstream PON service	means single or multi-class ID FFLAS provided by a PON , including, anchor services, bitstream services, bitstream 2, 3, and 3A, bitstream accelerate services, 10-gigabits-persecond PON services, network NG PON services, and multicast services);	
bps	means bits per second, and is a measure of the speed of network data transmission;	
business service	means an ID FFLAS intended by the ID-regulated provider as being a business service;	
complex new connection	means a connection- (a) that is the first connection to an address on a ROW at which a communal fibre network is not fully installed; (b) that is the first connection to an address within an MDU at which horizontal reticulation is not fully installed; (c) that either- (i) meets any one or more of the following requirements: (A) the connection requires consent to proceed; (B) the connection requires a quote to proceed; (C) the connection is to an NBAP; (D) the connection requires diversity;	

/=\		
	(E) the connection is to an address with an aerial lead-in and the third-party pole needs replacement;	
	(F) the connection is part of a bulk request to	
	provision FFLAS; and (G) the connection is for a P2P FFLAS	
	connection; or	
	(ii) is not a simple new connection ;	
communal fibre network	has the meaning given in the IM determination;	
EAS	means an Ethernet Aggregation Switch;	
ETH-DM	means ethernet delay measurement function, as defined in the ITU standards G.8013/Y.1731 (08/2015);	
ETH-SLM	means ethernet synthetic loss measurement, as defined in the ITU standards G.8013/Y.1731 (08/2015);	
	means the date an ID-regulated provider notifies to an	
expected restore date	access seeker by the end of which the ID-regulated provider expects a fault to be remedied, or another date as	
date	agreed by the ID-regulated provider and the access seeker ;	
	means—	
	(a) for the purposes of Schedules 19(ii): Faults, and	
	20(ii): Faults, has the meaning given in paragraph	
	(a)(i) of the definition of 'fault' in the IM	
	determination; and	
	(b) for the purposes of Schedules 19(iii): Availability, and 20(iii): Availability,-	
fault	(i) has the meaning given in paragraph (a)(i) of	
	the definition of 'fault' in the IM	
	determination; and	
	(ii) has the meaning given in paragraph (a)(ii) of the definition of 'fault' in the IM	
	determination, and for the purposes of that	
	paragraph, means a port utilisation of equal	
	to or greater than 95%;	
	means a fault caused at either layer 1 , layer 2 , an ONT , or	
fault cause	by an end-user or an access seeker , or where no fault is found;	
faults per 100	means the number of faults divided by the average number	
connections	of connections in the calendar month divided by 100;	
	means an event or circumstance beyond the ID-regulated	
	provider's control which makes it impossible or illegal to provide ID FFLAS , including:	
fama masia		
force majeure event	(a) fire, floods, storms, earthquake, or other act of	
event	God;	
	(b) any act of a public enemy, war, riot, or act of civil	
	or military authority;	

(c) nuclear, chemical or biological contamination; and (d) any act of a third party (not being an employee, agent or subcontractor of that party) engaged in subversive or terrorist activity or sabotage; but does not include an event to the extent that the effect of that event could have been substantially prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID-regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; Iayer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to meet standards for frame loss ratio;		
agent or subcontractor of that party) engaged in subversive or terrorist activity or sabotage; but does not include an event to the extent that the effect of that event could have been substantially prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID-regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame loss ratio means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		(c) nuclear, chemical or biological contamination; and
subversive or terrorist activity or sabotage; but does not include an event to the extent that the effect of that event could have been substantially prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID- regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inoctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		(d) any act of a third party (not being an employee,
but does not include an event to the extent that the effect of that event could have been substantially prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID-regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS; intact (truck roll required) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means a tenternational Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		agent or subcontractor of that party) engaged in
effect of that event could have been substantially prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID-regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inoctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS; to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		subversive or terrorist activity or sabotage;
prevented, avoided, overcome or mitigated by: (e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID- regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		but does not include an event to the extent that the
(e) implementation of any contracted business continuity or disaster recovery service, or any contingency plans agreed between the ID-regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		effect of that event could have been substantially
continuity or disaster recovery service, or any contingency plans agreed between the ID- regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		prevented, avoided, overcome or mitigated by:
contingency plans agreed between the ID- regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		(e) implementation of any contracted business
regulated provider and the Commission or which ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		continuity or disaster recovery service, or any
ID-regulated provider has represented it has in place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; Iayer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		contingency plans agreed between the ID-
place; (f) exercising a reasonable standard of care; or (g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		regulated provider and the Commission or which
(f) exercising a reasonable standard of care; or		ID-regulated provider has represented it has in
(g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		place;
(g) using information provided by the Commission or which is available in the public domain; frame delay has the meaning set out in the IM determination; frame delay variation has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		(f) exercising a reasonable standard of care; or
which is available in the public domain; frame delay frame delay variation has the meaning set out in the IM determination; means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
frame delay variation has the meaning set out in the IM determination; frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		
frame delay variation means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	frame delay	·
means the percentage of frames that are lost between the ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	-	
ingress interface and the egress interface of the PON fibre network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service means traffic tagged with a PCP = 0 that is only expected to		has the meaning set out in the IM determination ;
network; means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		means the percentage of frames that are lost between the
means traffic tagged with a PCP = 5 that is expected to meet frame delay, frame delay variation, and frame loss ratio standards; inOctets means the number of octets received by a port; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	frame loss ratio	
high-priority traffic standards; inOctets means the number of octets received by a port; intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; low-priority traffic means traffic tagged with a PCP = 0 that is only expected to		
inOctets intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	high pulguity tuoffic	
inOctets intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	nign-priority trainic	
intact (remote activation) means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; low-priority traffic means traffic tagged with a PCP = 0 that is only expected to	inOctets	
but has been previously, provided to an address, and ID FFLAS to that address can be activated remotely; means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		
means a context in which ID FFLAS is not currently being, but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	•	
intact (truck roll required) but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; low-priority traffic but has been previously, provided to an address, and an installer is required to attend the address to activate ID FFLAS; means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	activation)	FFLAS to that address can be activated remotely;
installer is required to attend the address to activate ID FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		means a context in which ID FFLAS is not currently being,
FFLAS; ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to	-	
## ITU means the International Telecommunications Union, being the United Nations specialized agency, which deals with issues concerning information and communication technologies; Iayer 1 service	required)	•

issues concerning information and communication technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		
technologies; layer 1 service has the meaning set out in the IM determination; layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		
layer 2 service has the meaning set out in the IM determination; means traffic tagged with a PCP = 0 that is only expected to		
neans traffic tagged with a PCP = 0 that is only expected to	layer 1 service	has the meaning set out in the IM determination;
neans traffic tagged with a PCP = 0 that is only expected to	layer 2 service	has the meaning set out in the IM determination;
meet standards for frame loss ratio;	-	
	iow-priority traffic	meet standards for frame loss ratio;

	manage the modice and initiation time from all of on ID
median	means the median provisioning time from all of an ID -
provisioning time	regulated provider's provisioning times over a calendar
	month;
multi-dwelling unit	means a premises containing within its boundaries more
(MDU)	than one residential occupancy or business occupancy (or
	both);
non-building	means a location (other than the premises of an end user ,
access point	an ID-regulated provider, or an access seeker) which may
(NBAP)	not have a physical address, and at which an ID-regulated
(· · · · · · · · · · · · · · · · · · ·	provider has provisioned FFLAS;
number met	means the number of connections provisioned that were
agreed date	provisioned on or before the date agreed with an access
	seeker and/or end-user;
_	means the number of scheduled provisioning appointments
number of	missed by an installer, or rescheduled by the installer or the
provisioning	ID-regulated provider; but does not include scheduled
appointments	provisioning appointments that an end-user reschedules or
missed	in respect of which the end-user is not present when the
	installer attends at the appointed time;
number of faults	means the number of faults that are attributable to each
- Hamber of faults	fault cause;
number of	means the total number of provisioning appointments for
provisioning	the calendar month;
appointments	the calchad month,
number of traffic	means the number of times a traffic performance
performance	exceedance has occurred;
exceedances	·
number surveyed	means the number of end-users surveyed for each survey
- Turniber surveyeu	question in Schedule 21 in a calendar month;
octet	means a unit of digital information consisting of eight bits;
outOctets	means the number of octets sent by a port ;
OLT probe	means an ITU standards G.8013/Y.1731-compliant probe
	connected to an OLT via a production splitter that
	measures layer 2 traffic between it and the POI probe and
	provides the Y.1731 reflector. The probe may be a virtual
	probe within a dedicated ONT or a physical device
	connected to a dedicated ONT ;
OLT chassis	means the physical chassis for an OLT ;
OLT reference	means a reference probe that is an OLT probe;
probe	
OVC	means operator virtual connection;
	means the number of connections provisioned that were
percentage met	provisioned on or before the date agreed with the access
percentage met agreed date	•
=	provisioned on or before the date agreed with the access
=	provisioned on or before the date agreed with the access seeker and/or end-user, divided by the total connections

facilia ilbai masi	
faults that met	
expected restore	
date	
percentage of	
regulated provider	means the number of faults an ID-regulated provider fails
faults not restored	to remedy within 48 hours of being notified of the faults by
within 2 calendar	access seekers, divided by the total number of faults;
days	
	means the sum (expressed as a percentage) of the number
percentage of	of planned outages that an ID-regulated provider notifies
notified planned	to access seekers 6 or more calendar days before the
outages	planned outage occurs, divided by the total number of
	planned outages;
	means the sum (expressed as a percentage) of the number
percentage of	of unplanned outages that an ID-regulated provider
notified	notifies to access seekers within 2 hours of the unplanned
unplanned	outage occurring, divided by the total number of
outages	unplanned outages;
	means the percentage of ports utilised within each POI
noveentees of	
percentage of	area up to (and including) or down to (and including) (as
ports	applicable) the specified threshold, divided by the total
	number of ports in that POI area ;
percentage of	
simple new	means the percentage of simple new connections that
connection orders	were provisioned in 50 calendar days or more;
that took ≥ 50	Were providence in so calendar days or more)
calendar days	
percentage of	
complex new	manns the percentage of complex new connections that
connection orders	means the percentage of complex new connections that
that took ≥ 120	were provisioned in 120 calendar days or more;
calendar days	
planned downtime	has the meaning given in the IM determination , expressed
(minutes)	in minutes;
planned outage	has the meaning given in the IM determination;
POI probe	means an ITU standards G.8013/Y.1731-compliant probe
_	located at a POI and connected to a handover switch that
	measures layer 2 traffic, and generates synthetic test traffic
	between it and an OLT probe ;
POI reference	means a reference probe that is a POI probe or an OLT
probe	probe;
POI switch	means the Ethernet switch at the POI that hosts E-NNI ;
PON port	means a single OLT port on an OLT line card;
. Oit poit	means all physical, virtual and sub-interfaces for the
nort	
port	exchange of traffic on a fibre network , excluding UNI , E-NNI
	and PON ports ;

port utilisation	has the meaning given in the IM determination , and is the amount calculated in accordance with the relevant methodology under Schedule 22;	
production splitter	means a PON splitter carrying FFLAS traffic that is managed by normal capacity management rules;	
provisioning time	means the time from when an ID-regulated provider receives a request for the provisioning of ID FFLAS to when the ID FFLAS is provisioned;	
reference network	means a network of OVCs between OLT probes and POI probes selected to provide a statistically significant sample of traffic paths for the purposes of ensuring the fibre network is correctly managed to deliver acceptable traffic performance;	
reference probe	means an OLT probe or a POI probe used in a reference network ;	
residential service	means an ID FFLAS categorised by the ID-regulated provider as being for a residential end-user;	
RFC 2863	means <i>The Interfaces Group MIB</i> Internet Official Protocol Standard, issued by the ETF Interfaces MIB Working Group in June 2000;	
ROW	means a private road, right of way, driveway, laneway, service lane or alleyway, the entrance of which adjoins a public road, and which has between two to 10 premises located down it which are accessed by such private road, right of way, driveway, laneway, service lane or alleyway, but excludes a private road, right of way, driveway, laneway, service lane or alleyway forming part of a property;	
simple new connection	 means- (a) the first connection to an address for an SDU at which a communal fibre network is installed; (b) a subsequent connection to an address on a ROW at which a communal fibre network is installed; and (c) a subsequent connection to an address within an MDU at which a communal fibre network is installed; or (d) a connection to an address on a ROW, or within an MDU, that can be installed as if it were a connection to an address for an SDU; 	
single-dwelling unit (SDU)	means a premises containing within its boundaries only one residential occupancy or business occupancy;	
SLR	means synthetic loss reply;	
synthetic test traffic	means test traffic injected into the fibre network solely for the purposes of testing fibre network performance;	
synthetic test traffic samples	means a summary of synthetic test traffic results from a single five-minute interval on a single reference OVC	

	consisting of a minimum of 3,000 frames transmitted at
	regular intervals of 100msec or less;
test ONT	means the ONT to which a test probe is connected or within
	which it is housed, and which connects to the OLT through a
	production splitter;
test OVC	means an OVC that connects a POI probe with an OLT
	probe as part of the reference network;
total connections provisioned	means the total number of connections provisioned;
	means, for bitstream PON services,-
	(a) frame delay and frame delay variation measurements
	in which less than 99% of the frames in a five-minute
traffic	synthetic test traffic sample meet the applicable target;
performance	and
exceedance	(b) frame loss ratio measurements in which a five-minute
	synthetic test traffic sample fails to meet the applicable
	frame loss ratio under Schedule 22, table 2, traffic
	thresholds;
	means a layer 1, or managed throughput, ID FFLAS to
transport services	transport voice and data traffic between central offices,
-	including central offices that are also POIs;
	means, for the purpose of the Transitional Report on
	Quality under Schedule 19a and 20a (as applicable), the
transition average	average unplanned downtime for a calendar month,
unplanned	calculated on a rolling basis by adding together the average
downtime	unplanned downtime for last 12 calendar months and
	dividing that figure by 12;
UNI	has the meaning given in the IM determination ;
unplanned	
downtime	has the meaning given in the IM determination ;
unplanned	
downtime	means unplanned downtime, as expressed in minutes;
(minutes)	
unplanned	
downtime	maans unplanned downtime that is attributable to a
attributable to	means unplanned downtime that is attributable to a
force majeure	force majeure event; and
events	
unplanned outage	has the meaning given in the IM determination.

Schedule 26: Pricing Report Definitions

	_
Term	Definition
ARPU connection charge	means the total connection charges received for each ID FFLAS during a month divided by the difference between the number of connections (closing) and the number of connections (opening) during the same month;
ARPU monthly charge	means the total monthly charges received for each ID FFLAS during a month divided by the average number of connections during the same month;
average number of connections	means half of the sum of the number of connections (opening) and the number of connections (closing);
connection charge	means an ID-regulated provider's one-off charge for provisioning an ID FFLAS ;
incentive description	means a short description of the incentive for each regulated FFLAS provided with an incentive , including any conditions linked to the availability of the incentive ;
layer 1 FFLAS	means regulated FFLAS an ID-regulated provider provides that operates at layer 1;
layer 2 FFLAS	means regulated FFLAS an ID-regulated provider provides that operates at layer 2;
list connection charge	means the connection charge per connection or E-NNI/ co-location connection listed in a standard contract between an ID-regulated provider and an access seeker, before any incentive is applied;
list monthly charge	means the monthly charge per connection or E- NNI/ co-location connection listed in a standard contract between an ID-regulated provider and the access seeker, before any incentive is applied;
monthly charge	means an ID-regulated provider's recurring monthly charge for an ID FFLAS ;
monthly incentive	means the value of a recurring monthly incentive per connection or E-NNI/ co-location connection for each regulated FFLAS provided with an incentive;
number of connections (closing)	means the number of connections and E-NNI/ colocation connections for each ID FFLAS that the ID-regulated provider has on the last day of each month;

number of connections (opening)	means the number of connections and E-NNI/ co- location connections for each ID FFLAS that the ID-regulated provider has on the first day of each month;
one-off incentive	means the value of a one-off incentive per connection or E-NNI/ co-location connection for each regulated FFLAS provided with an incentive;
other charge	means any charge other than the connection charge and monthly charge set by an ID-regulated provider for an ID FFLAS (such as transaction charges);
other FFLAS	means regulated FFLAS an ID-regulated provider provides that is not layer 1 FFLAS or layer 2 FFLAS;
reporting area	means each distinct geographical PQ FFLAS area or ID-only FFLAS area determined from applying regulations made under section 226 of the Act ;
total connection charges	means the sum of connection charges received for each ID FFLAS during a month- (a) in nominal terms, excluding GST ; and (b) subtracting incentives taken up by customers, adjusted in accordance with GAAP ;
total monthly charges	means the sum of monthly charges received for each ID FFLAS during a month- (a) in nominal terms, excluding GST; and (b) subtracting incentives taken up by customers, adjusted in accordance with GAAP;
total monthly incentive	means the total value of a recurring monthly incentive over a month for each regulated FFLAS provided with an incentive;
total one-off incentive	means the total value of a one-off incentive over a month for each regulated FFLAS provided with an incentive ;
total other charges	means the sum of other charges received for each ID FFLAS during a month- (a) in nominal terms, excluding GST ; and (b) subtracting incentives taken up by customers, adjusted in accordance with GAAP ;
total receiving monthly incentive	means the number of connections and E-NNI/ co- location connections that received a monthly incentive for each regulated FFLAS provided with an incentive in a month;
total receiving one-off incentive	means the number of connections and E-NNI/ co- location connections that received a one-off

	incentive for each regulated FFLAS provided with
	an incentive in a month; and
total revenues	means the sum of total connection charges, total
total revenues	monthly charges and total other charges.
