<b>SECTION 3</b>	<b>Commission consideration of whether and how to amend PQ determination .....</b>	<b>114</b>
<b>SCHEDULE A</b>	<b>MINIMUM LEVELS OF SPECIFICITY TO DESCRIBE ASSETS IN RAB .....</b>	<b>117</b>
<b>SCHEDULE B</b>	<b>METHODOLOGY FOR DETERMINING THE FINANCIAL LOSSES .....</b>	<b>119</b>

Under Part 6 of the Telecommunications Act 2001, the Commerce Commission makes the following determination:

## PART 1 GENERAL PROVISIONS

### 1.1.1 Title

- (1) This determination is the Fibre Input Methodologies Determination 2020.

### 1.1.2 Application

- (1) The **input methodologies** in this determination apply to **regulated FFLAS**.
- (2) The **input methodologies** in-
  - (a) Part 2 of this determination apply to information disclosure regulation under Part 6 Subpart 4 of the **Act**; and
  - (b) Part 3 of this determination apply to price-quality regulation under Part 6 Subpart 5 of the **Act**.

### 1.1.3 Commencement

- (1) This determination comes into force on the day after the date on which **public notice** of it is given under s 180 of the **Act**.

### 1.1.4 Interpretation

- (1) In this determination-
  - (a) unless stated otherwise, references to-
    - (i) 'Sections' are to sections within the same subpart in which the reference is made; and
    - (ii) 'Subparts' are to Subparts within the same part in which the reference is made;
  - (b) unless stated otherwise, references to Schedules, Parts, Subparts and Sections are to named and numbered schedules, parts, subparts and sections of the determination;
  - (c) unless stated otherwise, references to clauses are to clauses of the main determination (not Schedule A or B);
  - (d) unless the context otherwise requires, a word which denotes the singular also denotes the plural and vice versa;
  - (e) unless stated otherwise, any reference to an allowance, amount, cost, sum or value is a reference to an allowance, amount, cost, value or sum calculated or determined in relation to a **regulated provider** in respect of a **disclosure year**;
  - (f) unless stated otherwise, any reference to “includes” means “includes, but is not limited to”;
  - (g) examples in this determination are for guidance purposes only and do not form part of the determination; and

- (h) materials incorporated by reference into this determination, including standards promulgated by other bodies, are incorporated in accordance with section 223 of the **Act** and Schedule 5 of the Commerce Act 1986.

- (2) In this determination, including in the schedules, words or phrases in bold type bear the following meanings:

## #

**50th percentile estimate of WACC**

means, for the purpose of-

- (a) Part 2, the 50th percentile estimate of post-tax **WACC**, determined in accordance with clause 2.4.5(1);
- (b) Part 2, the 50th percentile estimate of vanilla **WACC**, determined in accordance with clause 2.4.5(1);
- (c) Part 3, the 50th percentile estimate of post-tax **WACC**, determined in accordance with clause 3.5.5(2);
- (d) Part 3, the 50th percentile estimate of vanilla **WACC**, determined in accordance with clause 3.5.5(1);

## A

**ABAA**

means the accounting-based allocation approach of using **cost allocators** to allocate **operating costs**, or **asset allocators** to allocate **asset values**, as provided for in:

- (a) Part 2, in clauses 2.1.1(5)-(6) and 2.1.2(5)-(6); and
- (b) Part 3, in clauses 3.2.1(7)-(8);

**access seeker**

has the same meaning as defined in s 5(d) of the **Act**;

**Act**

means the Telecommunications Act 2001;

**additional FFLAS class**

means any class of **FFLAS** provided by a **regulated provider** as the **Commission** may from time to time specify for the purposes of Part 6 of the **Act**, where that class of **FFLAS** is a subset of and does not encompass all:

- (a) **ID FFLAS**;
- (b) **PQ FFLAS**; or

<b>additional RAB</b>	<p>(c) <b>ID-only FFLAS</b>;</p> <p>any collection of <b>fibre assets</b> that are <b>employed</b> in the provision of a <b>FFLAS class</b> as the <b>Commission</b> may from time to time specify for the purposes of Part 6 of the <b>Act</b>, where that collection of <b>fibre assets</b> is a subset of and does not encompass all <b>fibre assets</b> in the:</p> <p>(a) <b>ID RAB</b>;</p> <p>(b) <b>PQ RAB</b>; or</p> <p>(c) <b>ID-only RAB</b>;</p>
<b>adjusted tax value</b>	has the same meaning as in the <b>tax rules</b> ;
<b>allocator type</b>	<p>means the basis for the attribution or allocation of an <b>operating cost</b> or <b>asset value</b> to <b>regulated FFLAS</b> and <b>services that are not regulated FFLAS</b>;</p> <p><i>Example: if the <b>allocator type</b> for central office costs is 'floor area', and 30 square meters of the floor area of a 120-square metre central office is used for <b>regulated FFLAS</b>, then the 'asset allocator' is 1/4 (ie, 30/120).</i></p>
<b>allocator value</b>	<p>means a value in units for each <b>cost allocator</b> or <b>asset allocator</b> that is used to calculate the ratio of <b>operating costs</b> or <b>asset values</b> to be allocated to <b>regulated FFLAS</b> or <b>services that are not regulated FFLAS</b>;</p> <p><i>Example: if the <b>allocator type</b> for a central office's <b>asset value</b> is 'floor area', and 30 square metres of the floor area of a 120-square metre central office is used for <b>regulated FFLAS</b>, then the 'allocator values' used to calculate the <b>asset allocator</b> (used for attributing <b>asset values</b> to <b>regulated FFLAS</b>) would be a numerator of 30 and a denominator of 120.</i></p>
<b>allowable revenue</b>	has the meaning specified in clause 3.1.1(2);
<b>approved timeframes</b>	means the proposed timeframe set out in the <b>individual capex design proposal</b> in accordance with clause 3.7.23(2)(d); and

	approved by the <b>Commission</b> in accordance with clause 3.7.24(1)(a) or (b);
<b>arm's-length transaction</b>	means a transaction conducted on such terms and conditions as between a willing buyer and a willing seller who are unrelated and who are acting independently of each other and pursuing their own best interests;
<b>assessment factors</b>	means the component or elements of information that need to be considered when evaluating whether <b>capex</b> meets the <b>capital expenditure objective</b> as set out in clause 3.8.6(1);
<b>asset allocator</b>	means a ratio used to allocate <b>asset values</b> whose quantum is- <ul style="list-style-type: none"> <li>(a) based on a <b>causal relationship</b>; or</li> <li>(b) equal to a <b>proxy asset allocator</b>;</li> </ul>
<b>asset life</b>	has the meaning specified in clause 2.2.10(1);
<b>asset value</b>	means, in respect of a <b>core fibre asset</b> , the <b>unallocated opening RAB value</b> ;
<b>auditor</b>	means a person who- <ul style="list-style-type: none"> <li>(a) is qualified for appointment as auditor of a company under the Companies Act 1993;</li> <li>(b) is <b>independent</b>;</li> <li>(c) is not an <b>independent verifier</b> of the <b>capex proposal</b>;</li> <li>(d) has not assisted with the compilation of the information in the <b>capex proposal</b>;</li> <li>(e) has not provided opinions or advice (other than in relation to audit reports) on the methodologies or processes used or to be used in compiling the information in that proposal; and</li> <li>(f) is neither professionally associated with nor directed by any person who has provided such assistance, opinions or advice;</li> </ul>
<b>availability</b>	means:

- (a) for the purpose of Part 2, the extent to which **ID FFLAS** is not subject to **downtime**; and
- (b) for the purpose of Part 3, the extent to which **PQ FFLAS** is not subject to **downtime**;

**average debt premium**

has the meaning specified in, and is the amount determined in accordance with-

- (a) Part 2, clause 2.4.4(2); and
- (b) Part 3, clause 3.5.4(2);

**B**

**base capex**

means **capital expenditure** approved by the **Commission** as part of the **base capex allowance** and incurred by **Chorus** in relation to one or more **base capex sub-categories**;

**base capex allowance**

means the amount determined by the **Commission** in accordance with clause 3.7.12(1);

**base capex information request**

means the request made by the **Commission** to **Chorus** in accordance with clause 3.7.8(9);

**base capex proposal**

means a written application submitted by **Chorus** to the **Commission** for approval of expenditure in relation to one or more **base capex sub-categories** in accordance with the requirements set out in clauses 3.7.8-3.7.11;

**base capex sub-category**

means an expenditure category identified and agreed between the **Commission** and **Chorus** for the **base capex proposal** in accordance with clause 3.7.8(3) or (4);

**base year**

means a **disclosure year** determined by the **Commission**;

**brownfield**

means existing dwellings or premises;

**building blocks revenue**

means the amount of revenue the **Commission** specifies for the purpose of determining the **allowable revenue** for a **regulatory year**, being the application of any

relevant building blocks components (which may have positive or negative values);

**business day**

means any day on which statistics relating to trading in New Zealand government bonds are published by a financial information service such as Bloomberg or Reuters;

**C**

**capex allowance**

means one or more of the following:

- (a) **base capex allowance;**
- (b) **connection capex allowance;** and
- (c) **individual capex allowance;**

**capex category**

means a category specified in clause 3.7.1(1);

**capex proposal**

means a **base capex proposal**, a **connection capex baseline proposal**, or an **individual capex proposal**;

**capital contribution**

means:

- (a) money or the monetary value of other considerations charged to or received in relation to the construction, acquisition or enhancement of a **core fibre asset** or **UFB asset** by a **regulated provider** from 1 or more of the following:
  - (i) an **access seeker**;
  - (ii) an **end-user**; or
  - (iii) any other party; but
- (b) does not include any **Crown financing**;

**capital expenditure (capex)**

means costs that-

- (a) have been, or are intended to be, incurred in the acquisition or development of a **core fibre asset** or **UFB asset** that is, or is intended to be, **commissioned**; and
- (b) are eligible, or would be eligible, to be included in the **value of commissioned asset**;

**capital expenditure objective**

has the meaning in clause 3.8.5(2);

<b>catastrophic event</b>	has the meaning in clause 3.9.3(1);
<b>causal relationship</b>	<p>means, in relation to-</p> <ul style="list-style-type: none"> <li>(a) <b>operating costs</b>, a circumstance in which a cost driver leads to an <b>operating cost</b> being incurred during the 12-month period terminating on the last day of the <b>disclosure year</b> in respect of which the cost allocation is carried out; and</li> <li>(b) <b>asset values</b>, a circumstance in which a factor influences the <b>employment</b> of an asset: <ul style="list-style-type: none"> <li>(i) for information disclosure purposes, during the <b>disclosure year</b> in respect of which the asset allocation is carried out; and</li> <li>(ii) for price-quality regulation purposes, in each <b>regulatory year</b> in respect of the next <b>regulatory period</b> of which the asset allocation is forecast to be carried out,</li> </ul> </li> </ul> <p>which in each case is:</p> <ul style="list-style-type: none"> <li>(c) consistent with similar circumstances, both within a <b>disclosure year</b> and from year to year; and</li> <li>(d) objectively justifiable and demonstrably reasonable;</li> </ul>
<b>CEO</b>	means the Chief Executive Officer of a company or equivalent comparable senior executive;
<b>certification</b>	means the process specified in clause 3.7.3 and in accordance with any specific certification requirements for the relevant <b>capex category</b> related to a <b>capex proposal</b> ;
<b>change event</b>	has the meaning in clause 3.9.4(1);
<b>Chorus</b>	means Chorus Limited or any subsidiary of, or successor to, that company;

<b>closing RAB value</b>	means the value- <ul style="list-style-type: none"> <li>(a) determined, in respect of a <b>core fibre asset</b> for the purpose of Part 2, in accordance with clause 2.2.5(4);</li> <li>(b) determined, in respect of the <b>financial loss asset</b> for the purpose of Part 2, in accordance with clause 2.2.6(2);</li> <li>(c) determined, in respect of a <b>core fibre asset</b> for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7); and</li> <li>(d) determined, in respect of the <b>financial loss asset</b> for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7);</li> </ul>
<b>closing RAB value before deregulation impact</b>	has the meaning specified in clause 2.2.6(12);
<b>Commission</b>	has the same meaning as defined in s 5 of the <b>Act</b> ;
<b>commissioned</b>	means <b>employed</b> by the <b>regulated provider</b> in providing <b>regulated FFLAS</b> or <b>services that are not regulated FFLAS</b> (whether or not the asset is also <b>employed</b> in providing other services),  and <b>commission</b> has a corresponding meaning;
<b>commissioned for FFLAS</b>	means <b>employed</b> by the <b>regulated provider</b> in providing <b>regulated FFLAS</b> (whether or not the <b>fibre asset</b> is also <b>employed</b> in providing other services),  and <b>commission for FFLAS</b> has a corresponding meaning;
<b>commissioning date</b>	means the date that an asset is first <b>commissioned</b> ;
<b>communal fibre network</b>	means a <b>fibre network</b> that is independent of any <b>end-user</b> specific infrastructure and that is not located on <b>end-user</b> premises;

<b>connection capex</b>	means <b>capital expenditure</b> approved by the <b>Commission</b> as part of the <b>connection capex baseline allowance</b> or the <b>connection capex variable adjustment</b> and directly incurred by <b>Chorus</b> in relation to connecting new <b>end-user</b> premises, building or other access points where the <b>communal fibre network</b> already exists or will exist at the time of connection, and includes: <ul style="list-style-type: none"> <li>(a) <b>UFB initiative brownfield</b> connection expenditure;</li> <li>(b) <b>UFB initiative greenfield</b> and <b>infill</b> connection expenditure; and</li> <li>(c) <b>Chorus</b> initiated migration from <b>copper fixed line access services</b> to <b>PQ FFLAS</b>;</li> </ul>
<b>connection capex allowance</b>	means the amount determined by the <b>Commission</b> in accordance with clause 3.7.13;
<b>connection capex annual report</b>	means a written statement made by <b>Chorus</b> under clause 3.7.18;
<b>connection capex baseline allowance</b>	means the amount determined by the <b>Commission</b> in accordance with clause 3.7.20(1);
<b>connection capex baseline proposal</b>	means a written application submitted by <b>Chorus</b> to the <b>Commission</b> in accordance with the requirements set out in clauses 3.7.14(1)-(2);
<b>connection capex information request</b>	means the information required by the <b>Commission</b> from <b>Chorus</b> in accordance with clause 3.7.14(7);
<b>connection capex unit cost</b>	means a per <b>end-user</b> connection cost by <b>connection type</b> for: <ul style="list-style-type: none"> <li>(a) <b>variable connection costs</b>; and</li> <li>(b) <b>non-linear connection costs</b>;</li> </ul>
<b>connection capex variable adjustment</b>	means the amount determined by the <b>Commission</b> in accordance with clause 3.7.21;
<b>connection type</b>	means a category or class of <b>end-user</b> connections specified by the <b>Commission</b> for

	<b>connection capex</b> that are similar in characteristics and cost;
<b>copper fixed line access services</b>	has the same meaning as defined in s 5 of the <b>Act</b> ;
<b>core fibre asset</b>	means a <b>fibre asset</b> that is <b>employed</b> in the provision of <b>regulated FFLAS</b> (whether or not the asset is also <b>employed</b> in the provision of other services), and excludes- <ul style="list-style-type: none"> <li>(a) the <b>financial loss asset</b>;</li> <li>(b) intangible assets, unless they are- <ul style="list-style-type: none"> <li>(i) <b>finance leases</b>; or</li> <li>(ii) <b>identifiable non-monetary assets</b> whose costs do not include (wholly or partly) <b>pass-through costs</b>; and</li> </ul> </li> <li>(c) works under construction;</li> </ul>
<b>corporate tax rate</b>	means the rate of income taxation applying to companies as specified in the <b>tax rules</b> ;
<b>cost allocator</b>	means a ratio used to allocate <b>operating costs</b> whose quantum is- <ul style="list-style-type: none"> <li>(a) based on a <b>causal relationship</b>; or</li> <li>(b) equal to a <b>proxy cost allocator</b>;</li> </ul>
<b>cost of debt</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of clause 2.3.1(7), clause 2.4.10(1) and 2.4.11(1), the amount specified for <math>r_d</math> in clause 2.4.1(3); and</li> <li>(b) for the purpose of Part 3, the amount specified for <math>r_d</math> in clause 3.5.1(3);</li> </ul>
<b>cost of equity</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of Part 2, the amount specified for <math>r_e</math> in clause 2.4.1(3); and</li> <li>(b) for the purpose of Part 3, the amount specified for <math>r_e</math> in clause 3.5.1(3);</li> </ul>
<b>CPI</b>	means: <ul style="list-style-type: none"> <li>(a) subject to paragraph (b), the consumer price index stipulated for each quarter in the 'All Groups Index SE9A' as</li> </ul>

published by Statistics New Zealand;  
and

- (b) in respect of quarters prior to any quarter in which the rate of **GST** is amended after this determination comes into force, the same index as described in paragraph (a), multiplied by the Reserve Bank of New Zealand's forecast change in that index (expressed as a decimal) arising from the amendment;

**Crown financing** has the same meaning as defined in s 164(1) of the **Act**;

**current value of initial core fibre asset base** has the meaning specified in clause 2.2.6(7);

**customer service** means:

- (a) for the purpose of Part 2, the way a **regulated provider** interacts with **access seekers** and **end-users** in relation to the supply of **ID FFLAS**; and
- (b) for the purpose of Part 3, the way a **regulated provider** interacts with **access seekers** and **end-users** in relation to the supply of **PQ FFLAS**;

## D

**debt issuance costs** means costs associated with the issuance of debt by a **regulated provider**;

**debt premium** has the meaning specified in clause 2.4.4(4);

**debt premium reference year** means a 12-month period ending on 31 August;

*Example:*

*'debt premium reference year 2022' means the 12-month period ending 31 August 2022;*

**dedicated asset** means a **core fibre asset** operated solely for the benefit of a particular customer under a fixed term agreement for the provision of

**regulated FFLAS** between the **regulated provider** in question and customer, and which is not expected to be **employed** by the **regulated provider** to provide **regulated FFLAS** beyond the term of the fixed term agreement;

**depreciation**

means an allowance to account for the diminution in a **fibre asset's** remaining service life potential in the **disclosure year** in question with respect to its **opening RAB value** and the amount of such allowance is,-

- (a) for **regulated providers** subject only to information disclosure regulation in regulations made under s 226 of the **Act**, determined in respect of a **fibre asset** in the **ID RAB**, in accordance with clause 2.2.7(3); and
- (b) for **regulated fibre service providers** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**,
  - (i) determined, subject to paragraph (b)(ii), in respect of **fibre assets** in the **ID RAB**, in accordance with clause 2.2.8(3); and
  - (ii) determined, in respect of **fibre assets** in the **ID-only RAB** that are **employed** in the provision of **ID-only FFLAS**, in accordance with clause 2.2.8(6); and
- (c) for **regulated providers** subject to price-quality regulation in regulations made under s 226 of the **Act**, determined in respect of **fibre assets** in the **PQ RAB**, in accordance with clause 3.3.2(3);

**deregulated asset**

has the meaning specified in clause 2.2.6(8);

<b>deregulated asset value</b>	has the meaning specified in clause 2.2.6(9);
<b>deregulated shared asset</b>	has the meaning specified in clause 2.2.6(10);
<b>deregulated shared asset value</b>	has the meaning specified in clause 2.2.6(11);
<b>deregulation adjustment</b>	means the amount determined in accordance with clause 2.2.6(3);
<b>directly attributable</b>	means- <ul style="list-style-type: none"> <li>(a) in relation to <b>operating costs</b>, where a cost is wholly and solely incurred in the provision of a particular service; and</li> <li>(b) in relation to <b>asset values</b>, where an asset is wholly and solely <b>employed</b> by a <b>regulated provider</b> in the provision of a particular service;</li> </ul>
<b>director</b>	means, in the case of a <b>regulated provider</b> that is- <ul style="list-style-type: none"> <li>(a) a company (as ‘company’ is defined in s 2 of the Companies Act 1993), an individual occupying the position of director of the <b>regulated provider</b>, by whatever name that position is called;</li> <li>(b) a partnership (other than a special partnership), a partner;</li> <li>(c) a special partnership, a general partner; and</li> <li>(d) any other body corporate or unincorporated body, an individual occupying a position in the body that is comparable with that of director of a company;</li> </ul>
<b>disclosure year</b>	means: <ul style="list-style-type: none"> <li>(a) for the purposes of specifying the price-quality path for the <b>first regulatory period</b>, a 12-month period ending on 31 December, where if the term “disclosure year” is combined with a year, the 12-month period ending on 31 December of that year (for example, “<b>disclosure year</b></li> </ul>

2019” means the 12-month period ending on 31 December 2019); and

- (b) in all other instances, a 12-month period ending on the date specified in an **ID determination**;

**disposed asset**

means a **fibre asset** that, in the **disclosure year** in question, has been sold or transferred, or has been irrecoverably removed from the **regulated provider’s** possession without consent;

**downtime**

means:

- (a) for the purpose of Part 2, the length of time an **access seeker** or **end-user** experiences a **planned outage** or **unplanned outage** to their **ID FFLAS**; and
- (b) for the purpose of Part 3, the length of time an **access seeker** or **end-user** experiences a **planned outage** or **unplanned outage** to their **PQ FFLAS**;

**E**

**easement**

means a right to use but not possess **land** belonging to another person or a right to prevent certain uses of another person’s **land**;

**easement land**

means **land** acquired with the intention of-

- (a) creating an **easement** in respect of it; and
- (b) disposing of the **land** thereafter;

**employ**

means available for use,

and **employed** and **employment** have a corresponding meaning;

**end-user**

has the same meaning as defined in s 5 of the **Act**;

**error event**

has the meaning in clause 3.9.6(1);

**F**

**fault**

means:

- (a) for the purpose of Part 2:
  - (i) an **unplanned outage** in **ID FFLAS**;  
or
  - (ii) a reduction in the **performance** of **ID FFLAS** below any levels specified in an **ID determination**;  
and
- (b) for the purpose of Part 3:
  - (i) an **unplanned outage** in **PQ FFLAS**; or
  - (ii) a reduction in the **performance** of **PQ FFLAS** below any levels specified in a **PQ determination**;

**FFLAS**

has the same meaning as ‘fibre fixed line access service’ defined in s 5 of the **Act**;

**FFLAS class**

means a class of **FFLAS** that is subject to regulations under s 226 of the **Act**, and includes:

- (a) **ID FFLAS**;
- (b) **PQ FFLAS**;
- (c) **ID-only FFLAS**; and
- (d) any **additional FFLAS class**;

*Example 1: Where a **regulated provider** is subject to information disclosure regulation in respect of “all **FFLAS**” and price-quality regulation in respect of “certain **FFLAS**” in regulations made under s 226 of the **Act**:*

- **FFLAS** provided by that **regulated provider** is “**ID FFLAS**”; and
- “certain **FFLAS**” provided by that **regulated provider** is “**PQ FFLAS**”.

*Example 2: Where a **regulated provider** is subject to information disclosure regulation and price-quality regulation in respect of “all **FFLAS**” in regulations made under s 226 of*

*the Act, FFLAS provided by that regulated provider is both “ID FFLAS” and “PQ FFLAS”.*

<b>FFLAS commissioning date</b>	means the date that a <b>fibre asset</b> is first <b>commissioned for FFLAS</b> ;
<b>fibre asset</b>	has the same meaning as defined in s 177(6) of the <b>Act</b> , and is either- (a) a <b>core fibre asset</b> ; or (b) the <b>financial loss asset</b> ;
<b>fibre network</b>	has the same meaning as defined in s 5 of the <b>Act</b> ;
<b>fibre network operator</b>	means a <b>network operator</b> of a <b>fibre network</b> ;
<b>finance lease</b>	has the same meaning as under <b>GAAP</b> ;
<b>financial loss asset</b>	means the <b>fibre asset</b> each <b>regulated provider</b> is treated as owning under s 177(2) of the <b>Act</b> ;
<b>financial loss period</b>	means the period starting on 1 December 2011 and ending on the close of the day immediately before the <b>implementation date</b> ;
<b>financial loss year</b>	means, for the purpose of determining the <b>financial losses</b> in accordance with clause 2.2.4, a period of 12 months beginning on 1 July in any year within the <b>financial loss period</b> and ending on 30 June in the following year, where if the term “financial loss year” is combined with a year, the 12-month period ending on 30 June of that year (for example, “ <b>financial loss year 2013</b> ” means the 12-month period ending on 30 June 2013), and: (a) the period from 1 December 2011 to 30 June 2012 is considered “ <b>financial loss year 2012</b> ”; and (b) the period from 1 July 2021 to the close of the day immediately before the <b>implementation date</b> is considered “ <b>financial loss year 2022</b> ”;
<b>financial losses</b>	means the losses incurred by a <b>regulated provider</b> in providing <b>FFLAS</b> under the <b>UFB</b>

	<b>initiative</b> for the <b>financial loss period</b> as specified in accordance with Schedule B;
<b>first regulatory period</b>	means the <b>regulatory period</b> that starts on the <b>implementation date</b> and lasts for a period of 3 years;
<b>fixed life easement</b>	means an <b>easement</b> that- <ul style="list-style-type: none"> <li>(a) is of a fixed duration; or</li> <li>(b) is of an indefinite duration but is to be held for a fixed period;</li> </ul>
<b>frame delay</b>	means the time taken for a data frame to transit a <b>fibre network</b> between points of ingress and egress;
<b>frame delay variation</b>	means the variation in <b>frame delay</b> over a time interval;
<b>frame loss ratio</b>	means the portion of frames that are lost between the ingress interface and the egress interface of the <b>fibre network</b> , expressed as a percentage;

## G

<b>GAAP</b>	means generally accepted accounting practice in New Zealand, save that, where the cost of an asset is being determined in accordance with this determination, only the cost model of recognition is applied insofar as an election may be made between the cost model of recognition and the fair value model of recognition;
<b>GAAP change</b>	has the meaning in clause 3.9.5(1);
<b>good telecommunications industry practice</b>	means the exercise of a degree of skill, diligence, prudence, foresight and economic management, that would reasonably be expected from a skilled and experienced asset owner engaged in the management of a <b>fibre network</b> under comparable conditions. A decision on good telecommunications industry practice should take into account domestic and international best practice, including

	international standards and factors such as the relative size, age and technology of the relevant <b>fibre network</b> and domestic regulatory and market conditions, including applicable law;
<b>greenfield</b>	means the establishment of new dwellings or premises on previously undeveloped land;
<b>GST</b>	has the same meaning as defined in s YA 1 of the Income Tax Act 2007;
<b>I</b>	
<b>ID determination</b>	means an information disclosure determination in relation to a <b>regulated provider</b> made under s 170 of the <b>Act</b> ;
<b>identifiable non-monetary asset</b>	has the same meaning as under <b>GAAP</b> (which, for the avoidance of doubt, includes <b>right-of-use assets</b> ) except that it excludes goodwill;
<b>ID FFLAS</b>	means, in respect of a <b>regulated provider</b> , all <b>FFLAS</b> provided by that <b>regulated provider</b> that is subject to information disclosure regulation in regulations made under s 226 of the <b>Act</b> ;
<b>ID-only FFLAS</b>	means, in respect of a <b>regulated provider</b> , all <b>FFLAS</b> provided by that <b>regulated provider</b> that: <ul style="list-style-type: none"> <li>(a) is subject to information disclosure regulation in regulations made under s 226 of the <b>Act</b>; and</li> <li>(b) is not subject to price-quality regulation in regulations made under s 226 of the <b>Act</b>;</li> </ul>
<b>ID-only RAB</b>	means, in respect of a <b>regulated provider</b> , all <b>fibre assets</b> that are <b>employed</b> by that <b>regulated provider</b> in the provision of <b>ID-only FFLAS</b> ;
<b>ID RAB</b>	means, in respect of a <b>regulated provider</b> , all <b>fibre assets</b> that are <b>employed</b> by that

	<b>regulated provider</b> in the provision of ID FFLAS;
<b>impairment losses</b>	has the same meaning as under <b>GAAP</b> ;
<b>implementation date</b>	has the same meaning as defined in s 5 of the <b>Act</b> ;
<b>independent</b>	means a person having neither a relationship with, nor an interest in, the <b>regulated provider</b> in question that is likely to involve them or it in a conflict of interest between their or its duties to the <b>regulated provider</b> and their or its duties to the <b>Commission</b> ;
<b>independent verification report</b>	means a report prepared by an <b>independent verifier</b> to verify the information provided with a <b>capex proposal</b> according to the verification requirements for that <b>capex category</b> ;
<b>independent verifier</b>	means a person who – <ul style="list-style-type: none"> <li>(a) is <b>independent</b>; and</li> <li>(b) has been engaged to verify part or all of <b>Chorus’s capex proposal</b>;</li> </ul>
<b>individual capex</b>	means <b>capital expenditure</b> approved by the <b>Commission</b> as part of the <b>individual capex allowance</b> in accordance with clause 3.7.28(1)(a) or (b) and (2)(a), and incurred by <b>Chorus</b> in relation to a <b>project</b> or <b>programme</b> required for an <b>individual capex proposal</b> under clause 3.7.22(3);
<b>individual capex allowance</b>	means the amount determined by the <b>Commission</b> in accordance with clause 3.7.28(1)(a) or (b);
<b>individual capex design proposal</b>	means a written notification submitted by <b>Chorus</b> to the <b>Commission</b> in accordance with clause 3.7.23;
<b>individual capex programme</b>	means a <b>programme</b> that is the subject of an <b>individual capex proposal</b> specified in clause 3.7.22(3)(c);

<b>individual capex project</b>	means a <b>project</b> that is the subject of an <b>individual capex proposal</b> specified in clause 3.7.22(3)(c);
<b>individual capex proposal</b>	means a written application submitted by <b>Chorus</b> to the <b>Commission</b> for approval of an <b>individual capex project</b> or <b>individual capex programme</b> in accordance with the requirements in clauses 3.7.25;
<b>infill</b>	means the establishment of new dwellings or premises within an existing suburb or developed area;
<b>initial RAB</b>	has the meaning specified in clause 2.2.2;
<b>initial RAB value</b>	means the value- <ul style="list-style-type: none"> <li>(a) in respect of a <b>core fibre asset</b> in an <b>initial RAB</b>, determined in accordance with clause 2.2.3(2);</li> <li>(b) in respect of the <b>financial loss asset</b> in an <b>initial RAB</b>, determined in accordance with clause 2.2.4(1);</li> </ul>
<b>input methodology</b>	has the same meaning, as the case may require, as defined in s 164 of the <b>Act</b> or s 52C of the Commerce Act 1986;
<b>integrated fibre plan</b>	means a collection of documents as set out in clause 3.7.7, that provides the <b>Commission</b> with an overview of <b>Chorus's capital expenditure</b> related to the management of its <b>fibre network</b> and the provision of <b>PQ FFLAS</b> ;
<b>investment grade credit rated</b>	means endorsed with a credit rating by an established credit rating agency (such as Standard and Poor's) of "investment grade" on that agency's credit rating scale applicable to long-term investments;
<b>L</b>	
<b>land</b>	excludes <b>easements</b> ;
<b>layer 1 service</b>	has the same meaning as defined in s 155ZS of the <b>Act</b> ;

<b>layer 2 service</b>	has the same meaning as defined in s 155ZS of the <b>Act</b> ;
<b>leverage</b>	means the ratio of debt capital to total capital and is 29%;
<b>local authority</b>	has the same meaning as defined in s 5(1) of the Local Government Act 2002;

## **M**

<b>major transaction</b>	has the meaning in clause 3.9.7(1);
<b>mid-point estimate of WACC</b>	means, for the purpose of- <ul style="list-style-type: none"> <li>(a) Part 2, the mid-point estimate of- <ul style="list-style-type: none"> <li>(i) vanilla <b>WACC</b> as estimated in accordance with clause 2.4.1(1);</li> <li>or</li> <li>(ii) post-tax <b>WACC</b> as estimated in accordance with clause 2.4.1(2), as the case may be;</li> </ul> </li> <li>(b) Part 3, the mid-point estimate of- <ul style="list-style-type: none"> <li>(i) vanilla <b>WACC</b> as estimated in accordance with clause 3.5.1(1);</li> <li>or</li> <li>(ii) post-tax <b>WACC</b> as estimated in accordance with clause 3.5.1(2), as the case may be;</li> </ul> </li> </ul>

<b>multi-rate PIE</b>	has the same meaning as defined in s YA 1 of the Income Tax Act 2007;
-----------------------	---

## **N**

<b>Nelson-Siegel-Svensson approach</b>	means a method for modelling yield curves and term structures of interest rates which establishes a relationship between terms to maturity and the <b>debt premium</b> , where a curve is generated by changing the parameters of a yield curve's functional form to minimise the squared deviation between estimated and observed values;
<b>network operator</b>	has the meaning as defined in s 5 of the <b>Act</b> ;

<b>network spare</b>	means an asset that is held by a <b>regulated provider</b> to replace any other <b>core fibre asset</b> it holds should that other <b>core fibre asset</b> be withdrawn from use owing to failure or damage;
<b>non-linear connection cost</b>	means a cost that is directly driven by the demand for new <b>end-user</b> connections but does not vary in a linear way with the number of new <b>end-user</b> connections;
<b>non-linear connection cost function</b>	means the relationship between the number of <b>end-user</b> connections and <b>non-linear connection cost</b> for a <b>connection type</b> that is: <ul style="list-style-type: none"> <li>(a) specified by the <b>Commission</b>;</li> <li>(b) expressed as a mathematical formula, in tabular form, or by some other description; and</li> <li>(c) used to determine the <b>connection capex unit costs</b> for <b>non-linear connection costs</b>;</li> </ul>
<b>notional deductible interest</b>	has the meaning in clause 2.3.1(7);
<b>notional tax asset value</b>	for the purpose of a <b>fibre asset</b> , has the meaning in clause 2.3.2(3);
<b>NZ IAS 24</b>	means <i>New Zealand Equivalent to International Accounting Standard 24, Related Party Disclosures (NZ IAS 24)</i> , issued by the New Zealand Accounting Standards Board of the External Reporting Board in November 2009, incorporating amendments to 31 December 2015, under s 24(1)(a) of the Financial Reporting Act 1993, as incorporated by reference into this determination;

## O

<b>opening RAB value</b>	means the value- <ul style="list-style-type: none"> <li>(a) determined, in respect of a <b>core fibre asset</b> for the purpose of Part 2, in accordance with clause 2.2.5(3);</li> <li>(b) determined, in respect of the <b>financial loss asset</b> for the purpose of Part 2, in accordance with clause 2.2.6(1);</li> </ul>
--------------------------	---

- (c) subject to paragraph (d), determined, in respect of a **core fibre asset** for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7);
- (d) determined, in respect of a **core fibre asset** for the purposes of:
  - (i) “c” in clause 3.5.7(3); and
  - (ii) clause 3.9.7(1),
 in accordance with clause 2.2.5(3);
- (e) subject to paragraph (f), determined, in respect of the **financial loss asset** for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7); and
- (f) determined, in respect of the **financial loss asset** for the purposes of:
  - (i) “c” in clause 3.5.7(3); and
  - (ii) clause 3.9.7(1),
 in accordance with clause 2.2.6(1);

**operating cost**

means a cost incurred by a **regulated provider** in the provision of-

- (a) **regulated FFLAS** alone;
- (b) **services that are not regulated FFLAS** alone; or
- (c) **regulated FFLAS** and one or more **services that are not regulated FFLAS**,

and excludes-

- (d) a cost that is treated as a cost of an asset by **GAAP**;
- (e) amounts that are depreciation, tax, subvention payments, revaluations or an interest expense, in accordance with their meanings under **GAAP**;
- (f) **debt issuance costs**;
- (g) **pecuniary penalties**;
- (h) the legal costs of any appeals against input methodology determinations under Part 6 of the **Act**; and
- (i) **pass-through costs**;

**operating expenditure**

means:

- (a) in respect of subparts 7 and 8 of Part 3, means the value of **operating costs** attributable to **PQ FFLAS** supplied by **Chorus** which are incurred in a **regulatory period**; and
- (b) in all other instances, means the value of **operating costs** attributable to **PQ FFLAS** supplied by a **regulated provider** which are incurred in a **regulatory period**;

**ordering**

means:

- (a) for the purpose of Part 2, processing and management of a request from an **access seeker** to provide **ID FFLAS**, change **ID FFLAS**, change an **end-user's ID FFLAS** connection from one **access seeker** to another **access seeker**, and disconnect **ID FFLAS**, including how the request is accepted or rejected; and
- (b) for the purpose of Part 3, processing and management of a request from an **access seeker** to provide **PQ FFLAS**, change **PQ FFLAS**, change an **end-user's PQ FFLAS** connection from one **access seeker** to another **access seeker**, and disconnect **PQ FFLAS**, including how the request is accepted or rejected;

**outage**

means:

- (a) for the purpose of Part 2, a cessation in the supply of **ID FFLAS**; and
- (b) for the purpose of Part 3, a cessation in the supply of **PQ FFLAS**;

**P**

**Part 4 regulated service**

means a service that is subject to regulation under Part 4 of the Commerce Act 1986;

**Part 4 regulated supplier**

means a supplier of **regulated goods or services**;

<b>pass-through cost</b>	has the meaning specified in clause 3.1.2;
<b>pecuniary penalties</b>	means fines or penalties imposed- <ul style="list-style-type: none"> <li>(a) by a court; or</li> <li>(b) by any other body with a statutory power to impose such fines or penalties;</li> </ul>
<b>performance</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of Part 2, the technical functioning of <b>ID FFLAS</b>, including the extent to which this affects the experience of an <b>access seeker</b> or <b>end-user</b>; and</li> <li>(b) for the purpose of Part 3, the technical functioning of <b>PQ FFLAS</b>, including the extent to which this affects the experience of an <b>access seeker</b> or <b>end-user</b>;</li> </ul>
<b>planned outage</b>	means a scheduled <b>outage</b> that a <b>regulated provider</b> has notified to <b>access seekers</b> : <ul style="list-style-type: none"> <li>(a) in advance; and</li> <li>(b) in accordance with relevant procedures as: <ul style="list-style-type: none"> <li>(i) agreed between the <b>regulated provider</b> and <b>access seeker</b>;</li> <li>(ii) prescribed in regulations made under Part 6 of the <b>Act</b>; or</li> <li>(iii) prescribed in a determination made under s 170 of the <b>Act</b>;</li> </ul> </li> </ul>
<b>port utilisation</b>	means the amount of traffic on a <b>fibre network</b> port relative to the port's capacity over time;
<b>PQ determination</b>	means a price-quality determination made under s 170 of the <b>Act</b> in respect of a <b>regulatory period</b> ;
<b>PQ FFLAS</b>	means, in respect of a <b>regulated provider</b> , all <b>FFLAS</b> provided by that <b>regulated provider</b> that is subject to price-quality regulation in regulations made under s 226 of the <b>Act</b> ;

<b>PQ RAB</b>	means, in respect of a <b>regulated provider</b> , all <b>fibre assets</b> that are <b>employed</b> by that <b>regulated provider</b> in the provision of <b>PQ FFLAS</b> ;
<b>prescribed investor rate</b>	has the same meaning as defined in the Income Tax Act 2007;
<b>product groups</b>	means a group of <b>regulated FFLAS</b> that differ in configuration but bear essentially the same costs;
<b>programme</b>	means a group of related <b>projects</b> with a common purpose;
<b>project</b>	means a temporary endeavour requiring concerted effort, undertaken to create a defined outcome;
<b>proposed capex</b>	means <b>capital expenditure</b> that is part of a <b>capex proposal</b> ;
<b>provisioning</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of Part 2, the process by which a <b>regulated provider</b> installs, activates, changes (including bulk migrations from one type of <b>ID FFLAS</b> to another) and disconnects <b>ID FFLAS</b>; and</li> <li>(b) for the purpose of Part 3, the process by which a <b>regulated provider</b> installs, activates, changes (including bulk migrations from one type of <b>PQ FFLAS</b> to another) and disconnects <b>PQ FFLAS</b>;</li> </ul>
<b>proxy asset allocator</b>	means a ratio- <ul style="list-style-type: none"> <li>(a) used to allocate <b>asset values</b> for which a <b>causal relationship</b> cannot be established; and</li> <li>(b) whose quantum is based on factors in existence during the 12-month period terminating on the last day of the most recent <b>disclosure year</b> in respect of which the proxy allocation is carried out,</li> </ul> which in each case-

- (c) is consistent with similar measures, both within a **disclosure year** and from year to year; and
- (d) is objectively justifiable and demonstrably reasonable;

**proxy cost allocator**

means a ratio-

- (a) used to allocate **operating costs** for which a **causal relationship** cannot be established; and
- (b) whose quantum is based on factors in existence during the 12-month period terminating on the last day of the most recent **disclosure year** in respect of which the cost allocation is carried out,

which in each case-

- (c) is consistent with similar measures, both within a **disclosure year** and from year to year; and
- (d) is objectively justifiable and demonstrably reasonable;

**public notice**

has the same meaning as defined in s 6 of the **Act**;

**Q**

**qualifying debt**

has, for the purpose of-

- (a) Part 2, the meaning specified in clause 2.4.6(1); and
- (b) Part 3, the meaning specified in clause 3.5.8(1);

**qualifying issuer**

means a New Zealand resident limited liability company that-

- (a) undertakes the majority of its business activities in Australia and New Zealand; or
- (b) is part of a corporate group that undertakes the majority of its business activities in Australia and New Zealand;

and-

- (c) does not operate predominantly in the banking or finance industries; or
- (d) is part of a corporate group that does not operate predominantly in the banking or finance industries; and
- (e) that issues **vanilla NZ\$ denominated bonds** that are publicly traded;

**qualifying provider**

has, for the purpose of-

- (a) Part 2, the meaning specified in clause 2.4.6(2); and
- (b) Part 3, the meaning specified in clause 3.5.8(2);

**qualifying rating**

means-

- (a) a Standard and Poor’s long-term credit rating of the specified grade; or
- (b) an equivalent long-term credit rating of another internationally recognised rating agency;

**quality dimensions**

has the same meaning as defined in s 164(1) of the **Act**;

**R**

**RAB**

means, in respect of a **regulated provider**:

- (a) **ID RAB**;
- (b) **PQ RAB**;
- (c) **ID-only RAB**; and
- (d) any **additional RAB**;

**regulated FFLAS**

means any and all **FFLAS classes** as the case may be and context requires;

*Example: Where a **regulated provider** is subject to information disclosure regulation and price-quality regulation in respect of “all **FFLAS**” in regulations made under s 226 of the **Act** and that **regulated provider** constructs or acquires an asset and **employs** that asset in the provision of any **FFLAS**, that asset will be a “**fibre asset**”.*

*That asset is **employed** in the provision of “regulated FFLAS” because it is **employed** in the provision of **ID FFLAS** and **PQ FFLAS**.*

*That asset:*

- *will be in the **ID RAB** and **PQ RAB**; and*
- *may also be in an **additional RAB** (as the **Commission** may from time to time specify for the purposes of Part 6 of the **Act**).*

<b>regulated fibre service provider</b>	has the same meaning as ‘regulated fibre service provider’ as defined in s 5 of the <b>Act</b> ;
<b>regulated goods or services</b>	has the same meaning as defined in s 52C of the Commerce Act 1986;
<b>regulated provider</b>	(a) for the purpose of Part 2, means a person who is prescribed in regulations made under s 226 of the <b>Act</b> as being subject to information disclosure regulation; and (b) for the purpose of Part 3, means a person who is prescribed in regulations made under s 226 of the <b>Act</b> as being subject to price-quality regulation;
<b>regulatory net taxable income</b>	has the meaning in clause 2.3.1(2);
<b>regulatory period</b>	means the relevant regulatory period for price-quality regulation applicable to a <b>regulated provider</b> as notified in a <b>PQ determination</b> ;
<b>regulatory period term</b>	means a period of time in years that matches the length of the current <b>regulatory period</b> , but which may commence at a different time to the current <b>regulatory period</b> ;
<b>regulatory profit / (loss) before tax</b>	has, for the purpose of: (a) Part 2, the meaning specified in clause 2.3.1(5); and (b) Part 3, the meaning specified in clause 3.4.1(4);
<b>regulatory tax asset value</b>	for the purpose of a <b>fibre asset</b> , has the meaning in clause 2.3.2(1);

<b>regulatory taxable income</b>	has the meaning in clause 2.3.1(3);
<b>regulatory template</b>	means tables of information requirements regarding <b>Chorus’s</b> proposed <b>base capex</b> and proposed <b>connection capex</b> as agreed under clauses 3.7.8(3) and 3.7.14(3) or as specified under clauses 3.7.8(4) and 3.7.14(4);
<b>regulatory year</b>	means a 12-month period ending on 31 December, where if the term “regulatory year” is combined with a year, the 12-month period ending on 31 December of that year (for example, “ <b>regulatory year 2022</b> ” means the 12-month period ending on 31 December 2022);
<b>related party</b>	means- <ul style="list-style-type: none"> <li>(a) a person that is related to the <b>regulated provider</b>, where the <b>regulated provider</b> would be considered as the ‘reporting entity’ as specified in the definition of ‘related party’ in <b>NZ IAS 24</b>; or</li> <li>(b) any part of the <b>regulated provider</b> that does not provide <b>regulated FFLAS</b>;</li> </ul>
<b>related party transaction</b>	means- <ul style="list-style-type: none"> <li>(a) the procurement of a <b>core fibre asset</b> or good or service from a <b>related party</b> by the part of the <b>regulated provider</b> that provides <b>regulated FFLAS</b>; or</li> <li>(b) the sale or supply of a <b>core fibre asset</b> or good or service to a <b>related party</b> by the part of the <b>regulated provider</b> that provides <b>regulated FFLAS</b>;</li> </ul>
<b>remaining asset life</b>	means the term remaining of the <b>fibre asset’s asset life</b> ;
<b>reopener event</b>	has the meaning specified in clause 3.9.1(2);
<b>restore</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of Part 2, when <b>ID FFLAS</b> functions again following a <b>fault</b>; and</li> <li>(b) for the purpose of Part 3, when <b>PQ FFLAS</b> functions again following a <b>fault</b>;</li> </ul>

<b>result of asset allocation ratio</b>	where <b>regulatory tax asset value</b> is determined at <b>implementation date</b> or thereafter, has the meaning in clause 2.3.2(4);
<b>revaluation</b>	means the amount, which may be a negative number- <ul style="list-style-type: none"> <li>(a) determined, for the purpose of Part 2, in accordance with clause 2.2.11(2); and</li> <li>(b) determined, for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7);</li> </ul>
<b>revaluation rate</b>	means the amount specified in clause 2.2.11(4);
<b>right-of-use asset</b>	has the same meaning as under <b>GAAP</b> except that it excludes any part of the cost of that asset that is a <b>pass-through cost</b> ;

## S

<b>sale adjustment</b>	has the meaning specified in clause 2.2.6(4);
<b>sale adjustment value</b>	has the meaning specified in clause 2.2.6(6);
<b>second regulatory period</b>	means the <b>regulatory period</b> that starts on 1 January 2025, where the duration of this <b>regulatory period</b> must be determined by the <b>Commission</b> ;
<b>services that are not regulated FFLAS</b>	means- <ul style="list-style-type: none"> <li>(a) <b>telecommunications services that are not regulated FFLAS</b>;</li> <li>(b) any <b>Part 4 regulated service</b>; or</li> <li>(c) any service that is not regulated under Part 6 of the <b>Act</b> or Part 4 of the Commerce Act 1986;</li> </ul>
<b>sold asset</b>	means a <b>UFB-related core fibre asset</b> that, in the <b>disclosure year</b> in question, has been sold;
<b>standard error</b>	means estimated standard deviation;
<b>switching</b>	means: <ul style="list-style-type: none"> <li>(a) for the purpose of Part 2, the process by which a <b>regulated provider</b> changes an <b>end-user's ID FFLAS</b> connection from</li> </ul>

one **access seeker** to another **access seeker**; and

- (b) for the purpose of Part 3, the process by which a **regulated provider** changes an **end-user's PQ FFLAS** connection from one **access seeker** to another **access seeker**;

## T

<b>tax asset value</b>	for the purpose of a <b>fibre asset</b> , has the meaning in clause 2.3.2(2);
<b>tax depreciation rules</b>	means, in respect of a <b>fibre asset</b> , the <b>tax rules</b> that relate to the determination of <b>depreciation</b> allowances for tax purposes;
<b>tax effect</b>	means the product of multiplication by the <b>corporate tax rate</b> ;
<b>tax rules</b>	means the rules applicable to a <b>regulated provider</b> for determining income tax payable under the Income Tax Act 2007;
<b>telecommunications service</b>	has the same meaning as defined in s 5 of the <b>Act</b> ;
<b>telecommunications service provider</b>	means an entity where a majority of its business relates to providing telecommunications services;
<b>telecommunications services that are not regulated FFLAS</b>	means any <b>telecommunications service</b> provided by a <b>regulated provider</b> that is not <b>regulated FFLAS</b> ;
<b>term credit spread difference</b>	means the amount determined: <ul style="list-style-type: none"><li>(a) for the purpose of Part 2, in accordance with clause 2.4.7(1); and</li><li>(b) for the purpose of Part 3, in accordance with clause 3.5.9(1);</li></ul>
<b>term credit spread differential</b>	means the amount determined: <ul style="list-style-type: none"><li>(a) for the purpose of Part 2, in accordance with clause 2.4.8(3);</li><li>(b) for the purpose of Part 3, in accordance with clause 3.5.10(1);</li></ul>

**term credit spread differential allowance** for the purpose of-

- (a) Part 2, means the sum of **term credit spread differentials**;
- (b) Part 3, in respect of the **first regulatory period**, means the amount determined in accordance with clause 3.5.7(2); and
- (c) Part 3, in respect of the **second regulatory period** and subsequent **regulatory periods**, means the amount determined in accordance with clause 3.5.7(3);

**total FFLAS revenue** means all revenue derived by a **regulated provider** from the providing of **PQ FFLAS**:

- (a) in nominal terms, excluding **GST**; and
- (b) subtracting discounts and rebates taken up by customers, adjusted in accordance with **GAAP**;

## U

**UFB asset** has the meaning specified in Schedule B;

**UFB FFLAS** has the meaning specified in Schedule B;

**UFB initiative** has the same meaning as defined in s 5 of the **Act**;

**UFB-related core fibre asset** means **core fibre assets** that were **UFB assets** prior to the **implementation date**;

**unallocated closing RAB value** means the value determined in respect of a **core fibre asset**, in accordance with clause 2.2.5(2);

**unallocated depreciation** means an allowance to account for the diminution in a **fibre asset's** remaining service life potential in the **disclosure year** in question with respect to its **unallocated opening RAB value** and the amount of such allowance is determined in respect of a **fibre asset**:

- (a) for **regulated providers** subject only to information disclosure regulation in regulations made under s 226 of the **Act**, in accordance with clause 2.2.7(2);

- (b) for **regulated fibre service providers** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**:
  - (i) subject to paragraph (b)(ii), in accordance with clause 2.2.8(2); and
  - (ii) in respect of **fibre assets** in the **ID-only RAB** that are **employed** in the provision of **ID-only FFLAS**, in accordance with clause 2.2.8(5); and
- (c) for **regulated providers** subject to price-quality regulation in regulations made under s 226 of the **Act**, determined in respect of **fibre assets** in the **PQ RAB**, in accordance with clause 3.3.2(2);

<b>unallocated initial RAB value</b>	means the value of a <b>core fibre asset</b> in an <b>initial RAB</b> determined in accordance with clause 2.2.3(1);
<b>unallocated opening RAB value</b>	means the value determined in respect of a <b>core fibre asset</b> , in accordance with clause 2.2.5(1);
<b>unallocated revaluation</b>	means the amount determined in accordance with clause 2.2.11(1);
<b>unplanned outage</b>	means an <b>outage</b> that is not a <b>planned outage</b> ;
<b>utilised tax losses</b>	means the amount determined in accordance with clause 2.3.3(1);

## V

<b>value of commissioned asset</b>	<ul style="list-style-type: none"> <li>(a) means the value determined, for the purpose of Part 2, in respect of <b>core fibre assets commissioned</b> prior to the <b>implementation date</b>, in accordance with clause 2.2.13(1);</li> <li>(b) means the value determined, for the purpose of Part 2, in respect of <b>core fibre</b></li> </ul>
------------------------------------	--

	<p><b>assets commissioned</b> on or after the <b>implementation date</b>, in accordance with clause 2.2.13(2); and</p> <p>(c) means the value determined, for the purpose of Part 3, in accordance with clause 3.3.1(2) and 3.3.1(7);</p>
<b>valuer</b>	<p>means an individual who-</p> <p>(a) is registered as a valuer under the Valuers Act 1948;</p> <p>(b) holds a current practising certificate issued by-</p> <p style="padding-left: 40px;">(i) the Property Institute of New Zealand; or</p> <p style="padding-left: 40px;">(ii) the New Zealand Institute of Valuers;</p> <p>(c) has been engaged to act in their professional capacity as a valuer; and</p> <p>(d) is <b>independent</b>;</p>
<b>vanilla NZ\$ denominated bonds</b>	<p>means senior unsecured nominal debt obligations denominated in New Zealand dollars without callable, puttable, conversion, profit participation, credit enhancement or collateral features;</p>
<b>variable connection cost</b>	<p>means a cost that is directly driven by the demand for new <b>end-user</b> connections and that varies with each new <b>end-user</b> connection;</p>
<b>vested asset</b>	<p>means a <b>core fibre asset</b> received by a <b>regulated provider</b>-</p> <p>(a) without provision of consideration; or</p> <p>(b) with provision of nominal consideration;</p>
<b>W</b>	
<b>WACC</b>	<p>means weighted average cost of capital;</p>
<b>wash-up amount</b>	<p>means the wash-up amount the <b>Commission</b> specifies in a <b>PQ determination</b> for a <b>regulatory year</b>, including amounts in relation</p>

	to the wash-up mechanism referred to in s 196(2) of the <b>Act</b> ;
<b>working day</b>	has the same meaning as defined in s 5 of the <b>Act</b> ; and
<b>works under construction</b>	means an asset, or a collection of assets that- <ul style="list-style-type: none"> <li>(a) has been, is being or is forecast to be constructed by, or on behalf of, a <b>regulated provider</b>;</li> <li>(b) has not been <b>commissioned</b>; and</li> <li>(c) the <b>regulated provider</b> intends to <b>commission</b>.</li> </ul>

## PART 2 INPUT METHODOLOGIES FOR INFORMATION DISCLOSURE

### SUBPART 1 Cost allocation

#### 2.1.1 Allocation of FFLAS for regulated fibre service providers subject to both information disclosure regulation and price-quality regulation

- (1) This clause applies if a **regulated fibre service provider** is subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**.
- (2) **Operating costs** or **asset values** that are **directly attributable** to the provision of-
  - (a) **PQ FFLAS** must be allocated to **PQ FFLAS**;
  - (b) **ID-only FFLAS** must be allocated to **ID-only FFLAS**; and
  - (c) any **additional FFLAS class** specified by the **Commission** must be allocated to that **additional FFLAS class**.
- (3) The following must not be allocated to **PQ FFLAS**, **ID-only FFLAS**, or any **additional FFLAS class** specified by the **Commission**:
  - (a) any **operating cost** that is **directly attributable** to the provision of **services that are not regulated FFLAS**;
  - (b) any **asset value** that is **directly attributable** to the provision of **services that are not regulated FFLAS**; or
  - (c) any other cost that is recovered in respect of a **Part 4 regulated service**.
- (4) **ABAA** must be applied in accordance with subclause (5) and (6) when any of the following are allocated:
  - (a) **operating costs** that are not **directly attributable** to the provision of **PQ FFLAS**, **ID-only FFLAS**, or **services that are not regulated FFLAS**; and
  - (b) **asset values** that are not **directly attributable** to the provision of **PQ FFLAS**, **ID-only FFLAS**, or **services that are not regulated FFLAS**.
- (5) In respect of **operating costs** that are not **directly attributable** to the provision of **PQ FFLAS**, **ID-only FFLAS**, or **services that are not regulated FFLAS**, **cost allocators** must be used to allocate those **operating costs** to either:
  - (a) **PQ FFLAS**; or
  - (b) **ID-only FFLAS**.
- (6) In respect of **asset values** that are not **directly attributable** to the provision of **PQ FFLAS**, **ID-only FFLAS**, or **services that are not regulated FFLAS**, **asset allocators** must be used to allocate those **asset values** to either:
  - (a) **PQ FFLAS**; or

- (b) **ID-only FFLAS.**
- (7) For the purpose of subclause (2), the **financial loss asset** must be treated as being **directly attributable to PQ FFLAS.**
- (8) If the **Commission** specifies an **additional FFLAS class**, any **operating costs** or **asset values** that are not **directly attributable** to that **additional FFLAS class** must be allocated using an approach that:
  - (a) is specified by the **Commission** when it specifies the **additional FFLAS class**; and
  - (b) results in a total amount of **operating costs** or **asset values** allocated to each **FFLAS class** that does not exceed the total **operating costs** or total **asset values** attributable to **PQ FFLAS** and **ID-only FFLAS** combined.
- (9) For the purpose of subclauses (2), (5)-(6), and (8), where the **Commission** specifies an **additional FFLAS class**, any **operating costs** or **asset values** may be simultaneously allocated to both:
  - (a) that particular **additional FFLAS class** or any other **additional FFLAS class** specified by the **Commission** (where applicable); and
  - (b) either **PQ FFLAS** or **ID-only FFLAS** (whichever is applicable).

2.1.2 Allocation of FFLAS for regulated providers subject only to information disclosure regulation

- (1) This clause applies if a **regulated provider** is subject only to information disclosure regulation in regulations made under s 226 of the **Act**.
- (2) **Operating costs** or **asset values** that are **directly attributable** to the provision of-
  - (a) **ID FFLAS** must be allocated to **ID FFLAS**; and
  - (b) any **additional FFLAS class** specified by the **Commission** must be allocated to that **additional FFLAS class**.
- (3) The following must not be allocated to **ID FFLAS**, or any **additional FFLAS class** specified by the **Commission**:
  - (a) any **operating cost** that is **directly attributable** to the provision of **services that are not regulated FFLAS**;
  - (b) any **asset value** that is **directly attributable** to the provision of **services that are not regulated FFLAS**; or
  - (c) any other cost that is recovered in respect of a **Part 4 regulated service**.
- (4) **ABAA** must be applied in accordance with subclause (5) and (6) when any of the following are allocated:
  - (a) **operating costs** that are not **directly attributable** to the provision of **ID FFLAS** or **services that are not regulated FFLAS**; and

- (b) **asset values** that are not **directly attributable** to the provision of **ID FFLAS** or **services that are not regulated FFLAS**.
- (5) **Cost allocators** must be used to allocate to **ID FFLAS** any **operating costs** that are not **directly attributable** to the provision of **ID FFLAS** or **services that are not regulated FFLAS**.
  - (6) **Asset allocators** must be used to allocate to **ID FFLAS** any **asset values** that are not **directly attributable** to the provision of **ID FFLAS** or **services that are not regulated FFLAS**.
  - (7) For the purpose of subclause (2), the **financial loss asset** must be treated as being **directly attributable** to **ID FFLAS**.
  - (8) If the **Commission** specifies an **additional FFLAS class**, any **operating costs** or **asset values** that are not **directly attributable** to that **additional FFLAS class** must be allocated using an approach that:
    - (a) is specified by the **Commission** when it specifies the **additional FFLAS class**; and
    - (b) results in a total amount of **operating costs** or **asset values** allocated to each **FFLAS class** that does not exceed the total **operating costs** or total **asset values** attributable to **ID FFLAS**.
  - (9) For the purpose of subclauses (2), (5)-(6), and (8), where the **Commission** specifies an **additional FFLAS class**, any **operating costs** or **asset values** may be simultaneously allocated to both:
    - (a) that particular **additional FFLAS class** or any other **additional FFLAS class** specified by the **Commission** (where applicable); and
    - (b) **ID FFLAS**.

### 2.1.3 Allocation requirements for ABAA

- (1) A **regulated provider** or **regulated fibre service provider** (whichever the case may be) must:
  - (a) update the **allocator values** it uses to apply **cost allocators** and **asset allocators** in accordance with clause 2.1.1 or 2.1.2 (whichever the case may require) no less than once every 12 months;
  - (b) review its choice of **allocator types** for **cost allocators**, **proxy cost allocators**, **asset allocators** and **proxy asset allocators** no less than once every 18 months; and
  - (c) when using **ABAA** to allocate an **operating cost** or an **asset value** to different **FFLAS classes**, use the same **cost allocator** or **asset allocator** (or combination of the same **cost allocators** or **asset allocators**) to allocate to **PQ FFLAS**, **ID-only FFLAS**, and any **additional FFLAS class**.

- (2) Where a **regulated provider** or **regulated fibre service provider** (whichever the case may be) uses a **proxy cost allocator** for the purposes of clause 2.1.1(5), 2.1.1(8), 2.1.2(5) or 2.1.2(8) or a **proxy asset allocator** for the purposes of clause 2.1.1(6), 2.1.1(8) 2.1.2(6) or 2.1.2(8), it must, in accordance with the requirements in the relevant **ID determination**, explain-
- (a) why a **causal relationship** cannot be established; and
  - (b) the rationale used for the **proxy cost allocator** or **proxy asset allocator**.
- (3) For the purposes of establishing an **initial RAB**, a **regulated provider** must apply the same **allocator types** as those used to determine the **financial losses** in accordance with Schedule B.
- (4) A **regulated fibre service provider** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act** must apply the same cost allocation approach as used in Subpart 2 of Part 3 when the actual expenditure is reported, unless-
- (a) the **regulated fibre service provider** can show that it is objectively justifiable and demonstrably reasonable to use an alternative **allocator type**, where the requirements of satisfying that alternative approach are specified in an **ID determination**; or
  - (b) it uses an **allocator type** that is comparable, in all material respects, to the **allocator type** used in Subpart 2 of Part 3.
- (5) Subject to subclause (6), when a **regulated provider** allocates either an **asset value** or an **operating cost** that is not **directly attributable** to **PQ FFLAS**, **ID-only FFLAS**, or **ID FFLAS** (whichever is applicable), the total **asset values** or **operating costs** allocated to **PQ FFLAS** and **ID-only FFLAS** combined, or **ID FFLAS** (whichever is applicable) must not be more than the total **asset values** or total **operating costs** that the **regulated provider** could not have avoided if it ceased supplying **services that are not regulated FFLAS**.
- (6) Subclause (5) only applies to an allocation or allocations of an **asset value** or an **operating cost** that would have a material effect on the total **asset values** or total **operating costs** allocated to **PQ FFLAS** and **ID-only FFLAS** combined, or **ID FFLAS** (whichever is applicable), and for which some of the **asset value** or **operating cost** was allocated to **services that are not regulated FFLAS**.

#### 2.1.4 Costs or values in respect of regulated FFLAS

- (1) Subject to subclause (2), a **regulated provider** must, in accordance with the requirements in the relevant **ID determination**, identify-
- (a) **operating costs** that are **directly attributable** to **PQ FFLAS**, **ID-only FFLAS**, or **ID FFLAS** (whichever is applicable);

- (b) **asset values** that are **directly attributable** to **PQ FFLAS, ID-only FFLAS, or ID FFLAS** (whichever is applicable);
  - (c) **operating costs** which are not **directly attributable** to **PQ FFLAS, ID-only FFLAS, or ID FFLAS** (whichever is applicable), but are incurred in the provision of such **PQ FFLAS, ID-only FFLAS, or ID FFLAS** (whichever is applicable); and
  - (d) **asset values** which are not **directly attributable** to **PQ FFLAS, ID-only FFLAS, or ID FFLAS** (whichever is applicable) but relate to **fibre assets** that are **employed** in the provision of such **PQ FFLAS, ID-only FFLAS, or ID FFLAS** (whichever is applicable).
- (2) As required under an **ID determination**, a **regulated provider** must specify the **operating costs** and **asset values** in subclause (1) in terms of one or more of:
- (a) **product groups**;
  - (b) geographic coverage; or
  - (c) level of **fibre network** functionality or other functionality.

## SUBPART 2 **Asset valuation**

### 2.2.1 RAB

- (1) The relevant **ID determination** must require the disclosure of information for the **ID RAB** and **PQ RAB**.
- (2) The relevant **ID determination** may require the disclosure of information for the **ID-only RAB** and any **additional RAB**.

### 2.2.2 Composition of an initial RAB

- (1) 'Initial RAB', in respect of a **regulated provider**, means the collection of **fibre assets** in a given **RAB** as at:
  - (a) in respect of the **ID RAB**, the **implementation date**;
  - (b) in respect of the **PQ RAB**, the **implementation date**;
  - (c) in respect of the **ID-only RAB**, the **implementation date**;
  - (d) in respect of an **additional RAB**, the date specified by the **Commission** as the date when that **additional RAB** is first determined.

### 2.2.3 Initial RAB values of core fibre assets

- (1) The 'unallocated initial RAB value' of a **core fibre asset** as at the **implementation date** is its **value of commissioned asset** as calculated in accordance with clause 2.2.13(1).
- (2) The 'initial RAB value' of a **core fibre asset** as at the **implementation date** is the **unallocated initial RAB value** allocated to **regulated FFLAS** as a result of-

- (a) adopting its **unallocated initial RAB value**; and
  - (b) applying:
    - (i) in respect of actual values, clause 2.1.1 or 2.1.2 (whichever the case may require) to it; and
    - (ii) in respect of forecast values, clause 3.2.1.
- (3) If an asset is both a **UFB asset** and a **core fibre asset**, it ceases to be a **UFB asset** at **implementation date**.

#### 2.2.4 Initial RAB value of financial loss asset

- (1) The ‘initial RAB value’ of the **financial loss asset** for a **regulated provider** is equal to the **financial losses** determined by the **Commission** in respect of the **financial loss period** in accordance with s 177(2) of the **Act** and Schedule B.

#### 2.2.5 RAB roll forward of core fibre assets

- (1) ‘Unallocated opening RAB value’ in respect of a **core fibre asset** in relation to-
- (a) the **disclosure year 2022**, is the **core fibre asset’s unallocated initial RAB value**; and
  - (b) a **disclosure year** thereafter, is the **core fibre asset’s unallocated closing RAB value** in the preceding **disclosure year**.
- (2) ‘Unallocated closing RAB value’ in respect of a **core fibre asset** means, in the case of-
- (a) a **disposed asset**, nil;
  - (b) a **core fibre asset** with a **FFLAS commissioning date** in the **disclosure year** in question, its **value of commissioned asset**; and
  - (c) any other **core fibre asset** with an **unallocated opening RAB value**, the value determined in accordance with the formula-
 
$$\textit{unallocated opening RAB value} - \textit{unallocated depreciation} + \textit{unallocated revaluation}.$$
- (3) ‘Opening RAB value’ in respect of a **core fibre asset** in relation to-
- (a) the **disclosure year 2022**, is the **core fibre asset’s initial RAB value**; and
  - (b) a **disclosure year** thereafter, is the **core fibre asset’s closing RAB value** in the preceding **disclosure year**.
- (4) ‘Closing RAB value’, in respect of a **core fibre asset**, is the value allocated to **regulated FFLAS** as a result of-
- (a) adopting the **core fibre asset’s unallocated closing RAB value**; and
  - (b) applying:
    - (i) in respect of actual values, either clause 2.1.1 or 2.1.2 (whichever the case may require) to the **core fibre asset**; and

(ii) in respect of forecast values, clause 3.2.1.

#### 2.2.6 RAB roll forward of financial loss asset

- (1) 'Opening RAB value' in respect of the **financial loss asset** in relation to-
- (a) the **disclosure year 2022**, is the **initial RAB value** of the **financial loss asset**; and
  - (b) a **disclosure year** thereafter, is the **financial loss asset's closing RAB value** in the preceding **disclosure year** multiplied by (1 - **deregulation adjustment** for the preceding **disclosure year** - **sale adjustment** for the preceding **disclosure year**).
- (2) 'Closing RAB value' in respect of the **financial loss asset** means the value determined in accordance with the formula-

$$\textit{opening RAB value} - \textit{depreciation} + \textit{revaluation}$$

- (3) The 'deregulation adjustment' in subclause (1):
- (a) is in respect of the **ID RAB**, nil, where no service has been deregulated from information disclosure regulation in regulations made under s 226 of the **Act** in a **disclosure year**;
  - (b) is in respect of the **PQ RAB**, nil where no service has been deregulated from price-quality regulation in regulations made under s 226 of the **Act** in a **disclosure year**;
  - (c) is in respect of the **ID RAB**, calculated in accordance with the following formula where a service has been deregulated from information disclosure regulation in regulations made under s 226 of the **Act** in a **disclosure year**-

$$\frac{DAVsum}{CVICFAB}$$

where:

*DAVsum* is the sum of all **deregulated asset values** and **deregulated shared asset values** for the **disclosure year**, as determined by the **Commission** following deregulation of a service from information disclosure regulation in regulations made under s 226 of the **Act**; and

*CVICFAB* is the **current value of initial core fibre asset base**; and

- (d) is in respect of the **PQ RAB**, calculated in accordance with the following formula where a service has been deregulated from price-quality

regulation in regulations made under s 226 of the **Act** in a **disclosure year**-

$$\frac{DAVsum}{CVICFAB}$$

where:

*DAVsum* is the sum of all **deregulated asset values** and **deregulated shared asset values** for the **disclosure year**, as determined by the **Commission** following deregulation of a service from price-quality regulation in regulations made under s 226 of the **Act**; and

*CVICFAB* is the **current value of initial core fibre asset base**.

- (4) The 'sale adjustment' in subclause (1) must be calculated in accordance with the formula-

$$\frac{SAVsum}{CVICFAB}$$

where:

*SAVsum* is the sum of all **sale adjustment values** for the **disclosure year** for **sold assets**; and

*CVICFAB* is the **current value of initial core fibre asset base**.

- (5) For the purpose of subclause (4), where the purchaser is a **regulated provider** or **Part 4 regulated supplier**, it may add to its regulatory asset base an amount equal to the value of the **financial loss asset** removed from the seller's **RAB**.
- (6) 'Sale adjustment value' means the **opening RAB value** for the asset in the **disclosure year** in which the asset was sold.
- (7) 'Current value of initial core fibre asset base' means the sum of all **closing RAB values** for all **UFB-related core fibre assets** for the **disclosure year**.
- (8) 'Deregulated asset' means:
- (a) for the purposes of the **ID RAB**, an asset, being an asset that:
    - (i) immediately prior to regulations made under s 226 of the **Act** was a **core fibre asset employed** in the provision of **ID FFLAS**; and
    - (ii) immediately after those regulations ceased to be a **core fibre asset employed** in the provision of **ID FFLAS**; and
  - (b) for the purposes of the **PQ RAB**, an asset, being an asset that:
    - (i) immediately prior to regulations made under s 226 of the **Act** was a **core fibre asset employed** in the provision of **PQ FFLAS**; and

- (ii) immediately after those regulations ceased to be a **core fibre asset employed** in the provision of **PQ FFLAS**.
- (9) ‘Deregulated asset value’ means, in respect of a **deregulated asset** that was a **UFB-related core fibre asset**, the value of that asset immediately prior to it becoming a **deregulated asset**.
- (10) ‘Deregulated shared asset’ means:
  - (a) for the purposes of the **ID RAB**, a **core fibre asset** with an **asset value** that is not **directly attributable** to the provision of **regulated FFLAS**, where either:
    - (i) a service for which that **core fibre asset** is **employed** is no longer subject to information disclosure regulation in regulations made under s 226 of the **Act**; or
    - (ii) the circumstances in which a service which that **core fibre asset** has been **employed** in supplying is no longer subject to information disclosure regulation in regulations made under s 226 of the **Act**; and
  - (b) for the purposes of the **PQ RAB**, a **core fibre asset** with an **asset value** that is not **directly attributable** to the provision of **regulated FFLAS**, where either:
    - (i) a service for which that **core fibre asset** is **employed** is no longer subject to price-quality regulation in regulations made under s 226 of the **Act**; or
    - (ii) the circumstances in which a service which that **core fibre asset** has been **employed** in supplying is no longer subject to price-quality regulation in regulations made under s 226 of the **Act**.
- (11) ‘Deregulated shared asset value’ means in respect of a **deregulated shared asset** that is a **UFB-related core fibre asset**, the value of that asset calculated in accordance with the following formula:

$$\text{deregulated shared asset value} = a - b$$

where:

$a$  = the **closing RAB value before deregulation impact** of that asset for the most recent **disclosure year**;

$b$  = the **closing RAB value** of that asset for the most recent **disclosure year** in which any of the following occurred:

- (a) a service for which that asset is **employed** is no longer subject to information disclosure regulation in regulations made under s 226 of the **Act**;

- (b) the circumstances in which a service which that asset has been **employed** in supplying is no longer subject to information disclosure regulation in regulations made under s 226 of the **Act**;
- (c) a service for which that asset is **employed** is no longer subject to price-quality regulation in regulations made under s 226 of the **Act**; or
- (d) the circumstances in which a service which that asset has been **employed** in supplying is no longer subject to price-quality regulation in regulations made under s 226 of the **Act**.

(12) 'Closing RAB value before deregulation impact' means:

- (a) for the purposes of the **ID RAB**, in respect of a **deregulated shared asset** that is a **UFB-related core fibre asset**, its **closing RAB value** for the most recent **disclosure year** as if no service had been deregulated from information disclosure regulation in regulations made under s 226 of the **Act** in that **disclosure year**; and
- (b) for the purposes of the **PQ RAB**, in respect of a **deregulated shared asset** that is a **UFB-related core fibre asset**, its **closing RAB value** for the most recent **disclosure year** as if no service had been deregulated from price-quality regulation in regulations made under s 226 of the **Act** in that **disclosure year**.

#### 2.2.7 Depreciation for regulated providers subject only to information disclosure regulation

- (1) **Regulated providers** subject only to information disclosure regulation in regulations made under s 226 of the **Act** must apply a depreciation method consistent with the expected time profile of revenue recovery it applies for the **disclosure year**.
- (2) For the purpose of subclause (1), and subject to clause 2.2.9, in the case of a **fibre asset** with an **unallocated opening RAB value**, 'unallocated depreciation' must be determined consistently with the expected time profile of revenue recovery that the **regulated provider** applies for the **disclosure year** in accordance with an **ID determination**, and use:
  - (a) a depreciation method consistent with **GAAP**; or
  - (b) any other method.
- (3) For the purpose of subclause (1), in the case of a **fibre asset** with an **opening RAB value**, 'depreciation' must be determined consistently with the expected time profile of revenue recovery that the **regulated provider** applies for the **disclosure year**, and use:
  - (a) a depreciation method consistent with **GAAP**; or
  - (b) any other method.
- (4) For the purposes of subclauses (2) and (3)-

- (a) 'unallocated depreciation' and 'depreciation' are nil in the case of-
  - (i) **land**; and
  - (ii) an **easement** other than a **fixed life easement**; and
- (b) in all other cases, where the **fibre asset's remaining asset life** at the end of the **disclosure year** is nil-
  - (i) 'unallocated depreciation' is the **fibre asset's unallocated opening RAB value**; and
  - (ii) 'depreciation' is the **fibre asset's opening RAB value**.

2.2.8 Depreciation for regulated fibre service providers subject to both information disclosure regulation and price-quality regulation

- (1) Subject to subclause (4), in respect of **regulated fibre service providers** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**, 'unallocated depreciation' and 'depreciation' are determined in accordance with subclauses (2)-(3).
- (2) For the purpose of subclause (1), in the case of a **fibre asset** with an **unallocated opening RAB value**, a **regulated fibre service provider** must determine 'unallocated depreciation' using a depreciation method consistent with **GAAP**, unless:
  - (a) an alternative depreciation method is applied for some or all **fibre assets** in accordance with clause 3.3.2(5); or
  - (b) a different depreciation method is applied for some or all **fibre assets** in accordance with clause 3.3.2(6).
- (3) For the purpose of subclause (1), in the case of a **fibre asset** with an **opening RAB value**, a **regulated fibre service provider** must determine 'depreciation' using a depreciation method consistent with **GAAP**, unless:
  - (a) an alternative depreciation method is applied for some or all **fibre assets** in accordance with clause 3.3.2(5); or
  - (b) a different depreciation method is applied for some or all **fibre assets** in accordance with clause 3.3.2(6).
- (4) Where a **regulated fibre service provider** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act** provides **ID-only FFLAS**, it must apply a depreciation method for that **ID-only FFLAS** consistent with the expected time profile of revenue recovery it applies for the **disclosure year**.
- (5) For the purpose of subclause (4), and subject to clause 2.2.9, in respect of **fibre assets** that are **employed** in the provision of **ID-only FFLAS**, where one of those **fibre assets** has an **unallocated opening RAB value**, 'unallocated depreciation' in respect of that **ID-only FFLAS** must be determined consistently with the expected time profile of

revenue recovery that the **regulated provider** applies for the **disclosure year** in accordance with an **ID determination**, and use:

- (a) a depreciation method consistent with **GAAP**; or
  - (b) any other method.
- (6) For the purpose of subclause (4), and subject to clause 2.2.9, in respect of **fibre assets** that are **employed** in the provision of **ID-only FFLAS**, where one of those **fibre assets** has an **opening RAB value**, 'depreciation' in respect of that **ID-only FFLAS** must be determined consistently with the expected time profile of revenue recovery that the **regulated provider** applies for the **disclosure year** in accordance with an **ID determination**, and use:
  - (a) a depreciation method consistent with **GAAP**; or
  - (b) any other method.
- (7) For the purposes of subclauses (2), (3), (5), and (6)-
  - (a) 'unallocated depreciation' and 'depreciation' are nil in the case of-
    - (i) **land**; and
    - (ii) an **easement** other than a **fixed life easement**; and
  - (b) in all other cases, where the **fibre asset's remaining asset life** at the end of the **disclosure year** is nil-
    - (i) 'unallocated depreciation' is the **fibre asset's unallocated opening RAB value**; and
    - (ii) 'depreciation' is the **fibre asset's opening RAB value**.
- (8) Subject to clause (4), a **regulated fibre service provider** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act** must apply the following depreciation methods when disclosing information in accordance with an **ID determination**:
  - (a) for the final **disclosure year** in a **regulatory period**, the depreciation method applicable for that **regulatory period** under a **PQ determination**; and
  - (b) for any other **disclosure year** in a **regulatory period**, the depreciation method applicable to the corresponding **regulatory period** under a **PQ determination**.

#### 2.2.9 Unallocated depreciation constraint

- (1) For the purposes of clause 2.2.7(1) and 2.2.8(4), the sum of **unallocated depreciation** calculated for a **fibre asset** over its **asset life** must not exceed the sum of-
  - (a) all **unallocated revaluations** applying to that asset in all **disclosure years**; and

- (b) in the case of a **fibre asset**-
  - (i) in an **initial RAB**, the **fibre asset's unallocated initial RAB value**; or
  - (ii) not in an **initial RAB**, the **fibre asset's value of commissioned asset**, less-
- (c) the **fibre asset's unallocated opening RAB value** in the **disclosure year** in which it becomes a **deregulated asset**.

#### 2.2.10 Asset life

- (1) 'Asset life' means, in the case of-
  - (a) a **fixed life easement**, the fixed duration or fixed period (as the case may be) referred to in the definition of **fixed life easement**;
  - (b) a **dedicated asset**, the duration of the fixed term agreement for the provision of **regulated FFLAS** between the **regulated provider** and customer;
  - (c) a **right-of-use asset**, its asset life determined under **GAAP**;
  - (d) the **financial loss asset**, either:
    - (i) the period equivalent to the weighted average life of the **UFB-related core fibre assets** in an **initial RAB** as at the **implementation date**, where the weights used are the **initial RAB values** of those **UFB-related core fibre assets**; or
    - (ii) a period adopted by the **regulated provider** under an alternative method; and
  - (e) all other **fibre assets**, the asset life adopted by the **regulated provider** under **GAAP**.

#### 2.2.11 Revaluation

- (1) Subject to subclause (3), 'unallocated revaluation' in respect of a **fibre asset** is the amount determined in accordance with the formula-

$$\textit{unallocated opening RAB value} \times \textit{revaluation rate}$$

- (2) Subject to subclause (3), 'revaluation' in respect of a **fibre asset** is the amount determined in accordance with the formula-

$$\textit{opening RAB value} \times \textit{revaluation rate}$$

- (3) For the purposes of subclauses (1) and (2), **unallocated revaluation** and **revaluation** for that **fibre asset** are nil if a **fibre asset's asset life** at the end of the **disclosure year** is nil.

- (4) 'Revaluation rate' means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$\left( \frac{CPI_t}{CPI_{t-1}} \right) - 1$$

where-

$CPI_t$  means **CPI** for the quarter that coincides with the end of the **disclosure year**; and

$CPI_{t-1}$  means **CPI** for the quarter that coincides with the end of the preceding **disclosure year**.

#### 2.2.12 Revaluation treated as revenue

- (1) For the purposes of determining profitability, **revaluation** must be treated as revenue.

#### 2.2.13 Value of commissioned assets

- (1) Subject to subclause (3) and (4), 'value of commissioned asset', in relation to a **core fibre asset** with a **commissioning date** prior to the **implementation date** (including a **core fibre asset** in respect of which **capital contributions** were received, or a **vested asset**), means-

- (a) the cost as of the **commissioning date**-
  - (i) incurred by a **regulated provider** under **GAAP** in constructing or acquiring the **core fibre asset**, net of **capital contributions**; or
  - (ii) if **Chorus** owned the **core fibre asset** before 1 December 2011, recorded by **Chorus** for the **core fibre asset** in its published general purpose financial statements as of 1 December 2011; and
- (b) adjusting that cost for accumulated depreciation and **impairment losses** (if any) recognised by the **regulated provider** (ignoring any accounting adjustment for **Crown financing**), as at the **implementation date**, under **GAAP**.

- (2) Subject to subclause (3) and (4), 'value of commissioned asset', in relation to a **core fibre asset** with a **commissioning date** on or after the **implementation date** (including a **core fibre asset** in respect of which **capital contributions** were received, or a **vested asset**), means-

- (a) the cost as of the **commissioning date**-
  - (i) incurred by a **regulated provider** under **GAAP** in constructing or acquiring the **core fibre asset**, net of **capital contributions**; or
  - (ii) if **Chorus** owned the **core fibre asset** before 1 December 2011, recorded by **Chorus** for the **core fibre asset** in its published general purpose financial statements as of 1 December 2011; and

- (b) adjusting that cost for accumulated depreciation and **impairment losses** (if any) recognised by the **regulated provider** (ignoring any accounting adjustment for **Crown financing**), as at the **FFLAS commissioning date**, under **GAAP**.
- (3) For the purposes of subclauses (1)-(2), the **value of commissioned asset** of-
- (a) an **easement**, is limited to its market value as on its **FFLAS commissioning date** as determined by a **valuer**;
  - (b) **easement land** is nil;
  - (c) a **network spare** is nil, where it is not held in accordance with **good telecommunications industry practice**;
  - (d) a **network spare** whose cost is not treated wholly as or part of the cost of a **core fibre asset** under **GAAP**, is nil;
  - (e) a **core fibre asset** acquired from another **regulated provider** and **employed** by that **regulated provider** in the provision of **regulated FFLAS**, is limited to the **unallocated closing RAB value** of the **core fibre asset** that would have applied for the other **regulated provider** in the **disclosure year** when the **core fibre asset** was transferred;
  - (f) a **core fibre asset** that was previously **employed** by a **regulated provider** or another entity in the supply of **Part 4 regulated services**, is limited to the ‘unallocated opening RAB value’ of the **core fibre asset** in relation to those **Part 4 regulated services** as on the day before the **FFLAS commissioning date** (as ‘unallocated opening RAB value’ is defined in the **input methodologies** as applying to the supply of **Part 4 regulated services** supplied by the **regulated provider** or other entity);
  - (g) a **core fibre asset** or a component of a **core fibre asset** acquired in a **related party transaction**, is the cost specified in clause 2.2.15; and
  - (h) a **vested asset**, in respect of which the **vested asset’s** fair value is treated as its cost under **GAAP**, must exclude any amount of the fair value of the **vested asset** determined under **GAAP** that exceeds the amount of consideration provided by the **regulated provider**.
- (4) When applying **GAAP** for the purposes of subclauses (1)-(2), the cost of financing is-
- (a) applicable only in respect of the period commencing on the date an asset becomes a **works under construction** and terminating on its **commissioning date**; and
  - (b) for each applicable **disclosure year**, calculated using a rate not greater than the **regulated provider’s** weighted average of borrowing costs for each applicable **disclosure year**.
- (5) For the purposes of subclause (4)(b), the ‘weighted average of borrowing costs’ is calculated for a **disclosure year** using principles set out in **GAAP**, where:

- (a) the cost of financing rate is the weighted average of the costs applicable to borrowings in respect of **capital expenditure** that are outstanding during the **disclosure year**;
- (b) the total costs applicable to borrowings outstanding, as used in calculating the weighted average, must include costs of borrowings made specifically for the purpose of any particular **capital expenditure projects** or **capital expenditure programmes**;
- (c) the amount of borrowing costs capitalised during the **disclosure year** must not exceed the amount of borrowing costs incurred during the **disclosure year**;
- (d) if a **regulated provider** receives a **capital contribution**, the relevant asset becomes **works under construction** for the purposes of calculating the cost of financing;
- (e) subject to paragraph (i), a **capital contribution** will reduce the cost of **works under construction** for the purpose of the calculation of the finance cost, even if the resulting value of **works under construction** is negative;
- (f) subject to paragraph (g), if the value of **works under construction** is negative in accordance with paragraph (e), the cost of financing for the period ending on the **commissioning date** will be negative;
- (g) if the cost of financing an asset which is **works under construction** is negative under paragraph (f), the value of the relevant asset or assets will reduce by that negative amount if such a reduction is not otherwise made under **GAAP**;
- (h) for the purpose of paragraph (d), **works under construction** includes assets that are forecast to be enhanced or acquired; and
- (i) if the cost of financing is derived as income in relation to **works under construction** and is both negative and included in regulatory income under an **ID determination**, the value of the relevant asset or assets will not reduce if such a reduction is not otherwise made under **GAAP**.

(6) For the avoidance of doubt-

- (a) revenue derived in relation to **works under construction** that is not included in regulatory income under an **ID determination** or preceding regulatory information disclosure requirements reduces the cost of an asset by the amount of the revenue if such a reduction is not otherwise made under **GAAP**; and
- (b) if, after a **core fibre asset** is **commissioned**, a **regulated provider** incurs expenditure on the **core fibre asset** that forms part of the cost of that **core fibre asset** under **GAAP**, such expenditure is treated as relating to a separate asset.

#### 2.2.14 Minimum levels of specificity required to describe assets in RAB

- (1) A **regulated provider** must ensure it maintains adequate records, recording the regulatory characteristics of assets that make up the **fibre assets** in an **initial RAB** and any subsequent **closing RAB value** and **opening RAB value**, to satisfy the following minimum levels of specificity-
  - (a) in respect of the **financial loss period**:
    - (i) the level of specificity required under **GAAP**; and
    - (ii) with such additional records as are necessary to satisfy the minimum level of asset specificity consistent with **good telecommunications industry practice**;
  - (b) on or after the **implementation date**, as set out in Table A.1 of Schedule A.

#### 2.2.15 Related party transactions

- (1) For the purposes of clause 2.2.13(3)(g), the cost of a **core fibre asset**, or a component of a **core fibre asset**, acquired in a **related party transaction**, must be determined on the basis that-
  - (a) it must be given a value not greater than if that transaction had the terms of an **arm's-length transaction**;
  - (b) an objective and independent measure must be used in determining the terms of an **arm's-length transaction**; and
  - (c) the value that qualifies for recognition as the cost of the **core fibre asset** or the component of a **core fibre asset** must not exceed the actual amount charged to the **regulated provider** by the **related party**.
- (2) For the purpose of subclause (1)(a), a **related party transaction** will be treated as if it had the terms of an **arm's-length transaction** if the **core fibre asset**, or component of the **core fibre asset**, acquired from a **related party** is valued at the cost incurred by the **related party**, provided that this is-
  - (a) fair and reasonable to the **regulated provider**; and
  - (b) substantially the same as the cost that has been incurred or would be incurred by the **related party** in providing the same type of **core fibre asset** to third parties.

### SUBPART 3 **Taxation**

#### 2.3.1 Regulatory tax allowance

- (1) Regulatory tax allowance is, where **regulatory net taxable income** is-

- (a) nil or a positive number, the **tax effect of regulatory net taxable income**;  
and
  - (b) a negative number, nil.
- (2) 'Regulatory net taxable income' is **regulatory taxable income** less **utilised tax losses**.
- (3) Subject to subclause (4), 'regulatory taxable income' is the amount determined after applying the **tax rules**, excluding the **tax rules** that apply to the effect of any tax losses, to **regulatory profit / (loss) before tax**.
- (4) For the purposes of determining **regulatory taxable income**, if the **tax rules** allow for a choice of methods in calculating taxable income, the same method as that elected to be used by the **regulated provider** must also be used to determine the **regulatory taxable income**.
- (5) 'Regulatory profit / (loss) before tax' means the amount of regulatory profit / (loss) before tax as determined in accordance with an **ID determination**.
- (6) For the purpose of subclause (3), in applying the **tax rules** in respect of particular items of income and expenses included in **regulatory profit / (loss) before tax**-
- (a) in respect of **fibre assets**, any tax deduction for interest incurred in relation to debt must be substituted with a tax deduction for **notional deductible interest**;
  - (b) any tax deduction for depreciation is only available in respect of a **fibre asset** or **UFB asset** and must be calculated by applying the **tax depreciation rules** to the **regulatory tax asset value** of the **fibre asset** or **UFB asset** in question; and
  - (c) the following must be ignored:
    - (i) any **revaluation** included in **regulatory profit / (loss) before tax**;  
and
    - (ii) the effect of any tax losses (other than those produced from the provision of **regulated FFLAS** in respect of **fibre assets** and the provision of **UFB FFLAS** in respect of **UFB assets**) made by a **regulated provider**.
- (7) 'Notional deductible interest' means the value determined in accordance with the following formula:

$$\frac{(\text{sum of all opening RAB values} - \text{Crown financing outstanding}) \times \text{leverage}}{\text{cost of debt}}$$

where:

*Crown financing outstanding* is the amount of **Crown financing** outstanding as of the last day of the preceding **disclosure year**.

### 2.3.2 Regulatory tax asset value

- (1) 'Regulatory tax asset value', in relation to a **fibre asset**, means the value determined in accordance with the formula-

$$\textit{tax asset value} \times \textit{result of asset allocation ratio}$$

- (2) 'Tax asset value' means-

- (a) in respect of the following **fibre assets**, the value of the **fibre asset** determined by applying the **tax depreciation rules** to its **notional tax asset value**:
- (i) a **fibre asset** in an **initial RAB** where, as of the date when the 'regulatory tax asset value' is determined at **implementation date**, the sum of **unallocated initial RAB values** is less than the sum of the **adjusted tax values** of all **fibre assets** in an **initial RAB**;
  - (ii) a **fibre asset** acquired from a **regulated provider** who used it to provide **regulated FFLAS**;
  - (iii) a **fibre asset** acquired from a **Part 4 regulated supplier** who used it to supply **Part 4 regulated services**;
  - (iv) a **core fibre asset** acquired or transferred from a **related party**; and
- (b) in respect of any other **fibre asset**, its **adjusted tax value**.

- (3) 'Notional tax asset value' means-

- (a) for the purpose of subclause (2)(a)(i), **adjusted tax value** of the **fibre asset** as of the **implementation date** adjusted to account proportionately for the difference between:
- (i) the sum of the **unallocated initial RAB values** for all **core fibre assets**; and
  - (ii) sum of the **adjusted tax values** of all **fibre assets** in an **initial RAB**;
- (b) for the purpose of subclause (2)(a)(ii), value after applying the **tax depreciation rules** to the 'tax asset value' in respect of the **regulated provider** from which the **fibre asset** was acquired in respect of the **disclosure year** in which the **fibre asset** was acquired;
- (c) for the purpose of subclause (2)(a)(iii), value after applying the **tax depreciation rules** to the tax asset value (as 'tax asset value' is defined in the **input methodologies** applying to the **Part 4 regulated service** in question) in respect of the **disclosure year** in which the **fibre asset** was acquired; and
- (d) for the purpose of subclause (2)(a)(iv), value in respect of the **disclosure year** in which the **core fibre asset** was acquired or transferred that is-
- (i) consistent with the **tax rules**; and

- (ii) limited to its **value of commissioned asset** or, if relevant **capital contributions** are treated for tax purposes in accordance with section CG 8 of the Income Tax Act 2007 (or subsequent equivalent provisions), limited to the **value of commissioned asset** plus any taxed **capital contributions** applicable to the **core fibre asset** and does not include any **Crown financing**.
- (4) Where 'regulatory tax asset value' is determined at **implementation date** or thereafter, 'result of asset allocation ratio' means-
- (a) where a **core fibre asset** or group of **core fibre assets** maintained under the **tax rules** has a matching **core fibre asset** or group of **core fibre assets** maintained for the purposes of an **ID determination**, the value obtained in accordance with the formula-

$$\frac{\textit{opening RAB value or sum of opening RAB values}}{\textit{unallocated opening RAB value or sum of unallocated opening RAB values}},$$

applying the formula in respect of the **core fibre asset** or smallest group of **core fibre assets** maintained for the purposes of an **ID determination** that has a matching **core fibre asset** or group of **core fibre assets** maintained under the **tax rules**; and

- (b) where a **core fibre asset** or group of **core fibre assets** maintained under the **tax rules** does not have a matching **core fibre asset** or group of **core fibre assets** maintained for the purposes of an **ID determination**, the value of the **core fibre asset** allocated to the provision of **regulated FFLAS** were Subpart 1 to apply to the **core fibre asset** or group of **fibre assets**; and
- (c) in respect of the **financial loss asset**, nil.

### 2.3.3 Tax losses

- (1) 'Utilised tax losses' means opening tax losses, subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) In this clause, 'opening tax losses'-
  - (a) for **disclosure year 2022**, are UFB closing tax losses as determined under Schedule B on the last day of **financial loss year 2022**; and
  - (b) for a **disclosure year** that commenced after **disclosure year 2022**, are closing tax losses for the preceding **disclosure year**.

- (4) For the purpose of subclause (3)(b), ‘closing tax losses’ means the amount determined in accordance with the following formula, in which each term is an absolute value:

$$\textit{opening tax losses} + \textit{current period tax losses} - \textit{utilised tax losses}$$

- (5) For the purpose of subclause (4), ‘current period tax losses’ is, where **regulatory taxable income** is-
- (a) nil or a positive number, nil; and
  - (b) a negative number, **regulatory taxable income**.

## SUBPART 4 **Cost of capital**

### 2.4.1 Methodology for estimating the weighted average cost of capital

- (1) The **Commission** will determine a mid-point estimate of vanilla **WACC** for each **disclosure year**-
- (a) in respect of the **regulatory period term** commencing on the first day of the **disclosure year** in question;
  - (b) within 1 month of the start of the **disclosure year** in question; and
  - (c) in accordance with the formula-

$$r_d L + r_e(1 - L).$$

- (2) The **Commission** will determine a mid-point estimate of post-tax **WACC** for each **disclosure year**-
- (a) in respect of the **regulatory period term** commencing on the first day of the **disclosure year** in question;
  - (b) within 1 month of the start of the **disclosure year** in question; and
  - (c) in accordance with the formula-

$$r_d(1 - T_c)L + r_e(1 - L).$$

- (3) In this clause-

$L$  is leverage;

$r_d$  is the cost of debt and is estimated in accordance with the formula-

$$r_f + p + d;$$

$r_e$  is the cost of equity and is estimated in accordance with the formula-

$$r_f(1 - T_i) + \beta_e TAMRP;$$

$T_c$  is the average corporate tax rate;

$r_f$  is the risk-free rate;

$p$  is the **average debt premium**;  
 $d$  is the debt issuance costs;  
 $T_i$  is the average investor tax rate;  
 $\beta_e$  is the equity beta; and  
 $TAMRP$  is the tax-adjusted market risk premium.

- (4) For the purpose of this clause-
- (a) the average investor tax rate, the equity beta, the debt issuance costs, the leverage, the average corporate tax rate and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 2.4.2; and
  - (b) the risk-free rate must be estimated in accordance with clause 2.4.3.

#### 2.4.2 Fixed WACC parameters

- (1) 'Leverage' means the ratio of debt capital to total capital and is 29%.
- (2) 'Average investor tax rate' is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the **regulatory period term** commencing on the first day of the **disclosure year** in question.
- (3) For the purpose of subclause (2), 'investor tax rate' is, for each **disclosure year**, the maximum **prescribed investor rate** applicable at the start of that **disclosure year** to an individual who is-
  - (a) a resident in New Zealand; and
  - (b) an investor in a **multi-rate PIE**.
- (4) The 'average corporate tax rate' is the average of the **corporate tax rates** that, as at the date that the estimation is made, will apply during the **regulatory period term** commencing on the first day of the **disclosure year** in question.
- (5) The 'Equity beta' is 0.70.
- (6) 'Debt issuance costs' are costs associated with the issuance of debt by a **regulated provider** and are determined by the term of the **regulatory period**, where-
  - (a) for a five year **regulatory period**, this is 0.2%;
  - (b) for a four year **regulatory period**, this is 0.25%; and
  - (c) for a three year **regulatory period**, this is 0.33%.
- (7) 'Tax-adjusted market risk premium' is 7.5%.

#### 2.4.3 Methodology for estimating risk-free rate

- (1) The **Commission** will estimate a risk-free rate-
  - (a) for each **disclosure year**; and

- (b) within 1 month of the start of the **disclosure year** in question,
- by-
- (c) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly-interpolated bid yield to maturity for a residual period to maturity equal to the **regulatory period term** on each **business day** in the 3 months preceding the start of the **disclosure year**;
  - (d) calculating the annualised interpolated bid yield to maturity for each **business day**; and
  - (e) calculating the unweighted arithmetic average of the daily annualised interpolated bid yields to maturity.

#### 2.4.4 Methodology for estimating average debt premium

- (1) The **Commission** will determine an estimate of an amount for the **average debt premium**-
  - (a) for each **disclosure year**; and
  - (b) within 1 month of each **disclosure year**.
- (2) For the purpose of subclause (1), ‘average debt premium’ means the unweighted arithmetic average of the five **debt premium** values estimated in accordance with subclauses (4) and (5) for-
  - (a) the current **debt premium reference year**; and
  - (b) the four previous **debt premium reference years**.
- (3) For the purpose of subclause (2)(a), ‘current debt premium reference year’ refers to the **debt premium reference year** that contains the start of the **disclosure year**.
- (4) ‘Debt premium’ means the spread between-
  - (a) the bid yield to maturity on **vanilla NZ\$ denominated bonds** that-
    - (i) are issued by a **regulated fibre service provider**;
    - (ii) are publicly traded;
    - (iii) have a **qualifying rating** of grade BBB; and
    - (iv) have a remaining term to maturity of 5 years; and
  - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (5) For the purpose of subclause (2), the amount of the **debt premium** will be estimated by-
  - (a) identifying publicly traded **vanilla NZ\$ denominated bonds** issued by a **qualifying issuer** that are-

- (i) **investment grade credit rated**; and
    - (ii) of a type described in the paragraphs of subclause (6);
  - (b) for each **business day** in the 12 months preceding the start of the **debt premium reference year**, in respect of each bond identified in accordance with paragraph (a)-
    - (i) obtaining its wholesale market annualised bid yield to maturity;
    - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and
    - (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity, by deducting the yield calculated in accordance with sub-paragraph (ii) from the yield obtained in accordance with sub-paragraph (i).
  - (c) calculating, for each bond identified in accordance with paragraph (a), the un-weighted arithmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and
  - (d) subject to subclause (6), estimating, by taking account of the average spreads identified in accordance with paragraph (c) and having regard to the debt premium estimated from applying the **Nelson-Siegel-Svensson approach**, the average spread that would reasonably be expected to apply to a **vanilla NZ\$ denominated bond** that-
    - (i) is issued by a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
    - (ii) is publicly traded;
    - (iii) has a **qualifying rating** of grade BBB; and
    - (iv) has a remaining term to maturity of 5 years.
- (6) For the purpose of subclauses (5)(a) and (5)(d), the **Commission** will have regard, subject to subclause (7), to the spreads observed on the following types of **vanilla NZ\$ denominated bonds** issued by a **qualifying issuer**:
- (a) those that-
    - (i) have a **qualifying rating** of grade BBB; and

- (ii) are issued by a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (b) those that-
    - (i) have a **qualifying rating** of grade BBB; and
    - (ii) are issued by a **telecommunications service provider** other than a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (c) those that-
    - (i) have a **qualifying rating** of grade BBB; and
    - (ii) are issued by an entity other than a **regulated fibre service provider** or **telecommunications service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (d) those that-
    - (i) have a **qualifying rating** of a grade different to BBB; and
    - (ii) are issued by a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (e) those that-
    - (i) have a **qualifying rating** of a grade different to BBB; and
    - (ii) are issued by an entity other than a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**; and
  - (f) those that are-
    - (i) **investment grade credit rated**; and
    - (ii) issued by an entity that is 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**.
- (7) For the purpose of subclause (6)-

- (a) progressively lesser regard will ordinarily be given to the spreads observed on the bond types described in accordance with the order in which the bond types are described in subclause (6);
- (b) the spread on any bond of the type described in subclause (6) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
- (c) the **Commission** will adjust spreads observed on bonds described under subclauses (6)(b) to (6)(f) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (6)(a).

#### 2.4.5 Methodology for estimating the 50<sup>th</sup> percentile of WACC

- (1) The **Commission** will determine a WACC for each **mid-point estimate of WACC**-
  - (a) for each **disclosure year**; and
  - (b) within 1 month of the start of the **disclosure year** in question.
- (2) For the purpose of subclause (1), the **mid-point estimate of WACC** must be treated as the 50th percentile, where the **standard error** of the relevant **mid-point estimate of WACC** is 0.0131.

#### 2.4.6 Interpretation of terms relating to term credit spread differential

- (1) 'Qualifying debt' means a line of debt-
  - (a) with an original tenor greater than 5 years; and
  - (b) issued by a **qualifying provider**.
- (2) 'Qualifying provider' means a **regulated provider** whose debt portfolio, as at the date of that provider's most recently published audited financial statements, has a weighted average original tenor greater than 5 years.

#### 2.4.7 Term credit spread difference

- (1) 'Term credit spread difference' is determined in accordance with the formula-

$$T \times U,$$

where-

- (a)  $T$  is whichever is the lesser of the amount determined in accordance with the formula-
  - (i)  $0.00075 \times (\text{original tenor of the } \textit{qualifying debt} - 5)$ ; or
  - (ii)  $0.00075 \times 5$ ;

- (b)  $U$  is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.
- (2) For the purpose of this clause, if the **qualifying debt** is issued to a **related party**, 'original tenor of the **qualifying debt**' means whichever is the shorter of the-
- (a) tenor of the **qualifying debt**; or
  - (b) period from the **qualifying debt**'s date of issue to the earliest date on which its repayment is or may be required.

#### 2.4.8 Methodology for estimating term credit spread differential

- (1) This clause applies to the determination of the amount of any **term credit spread differential** in respect of a **qualifying debt** for the purpose of disclosure under an **ID determination** of a-
- (a) **term credit spread differential allowance**; or
  - (b) **term credit spread differential**.
- (2) Disclosure to which this clause applies may only be made by a **qualifying provider**.
- (3) 'Term credit spread differential' is the amount determined in accordance with the formula-

$$(A \div B) \times C \times D,$$

where-

- (a)  $A$  is the sum of the **term credit spread difference** and debt issuance cost re-adjustment;
  - (b)  $B$  is the book value of the **qualifying provider's** total interest-bearing debt as at the balance date of the provider's financial statements audited and published in the **disclosure year** in question;
  - (c)  $C$  is **leverage**; and
  - (d)  $D$  is, in relation to the **qualifying provider**, the average of-
    - (i) the sum of **opening RAB values** for all **core fibre assets** and the **opening RAB value** for the **financial loss asset**; and
    - (ii) the sum of **closing RAB values** for all **core fibre assets** and the **closing RAB value** for the **financial loss asset**.
- (4) For the purpose of subclause (3)(a), 'debt issuance cost re-adjustment' is the amount determined in accordance with the formula (which, for the avoidance of doubt, will be a negative number)-

$$(0.01 \div \textit{original tenor of the } \mathbf{qualifying\ debt} - 0.002) \times \textit{book value in New Zealand dollars of the } \mathbf{qualifying\ debt\ at\ its\ date\ of\ issue}.$$

#### 2.4.9 Publication of estimates

- (1) The **Commission** will publish all determinations and estimates that it is required to make under clauses 2.4.1-2.4.8-
- (a) on the **Commission's** website; and
  - (b) no later than 1 month after having made them.

#### 2.4.10 Annual benefit of Crown financing building block for regulated fibre service providers subject to both information disclosure regulation and price-quality regulation

- (1) In respect of **regulated fibre service providers** subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**, 'annual benefit of Crown financing building block' for a **disclosure year** is calculated in accordance with the following formula-

$$(A \times B) + (C \times D),$$

where-

- (a) *A* is the amount determined in accordance with the following formula:  
 $(\text{proportion of 'B' that is senior debt} \times \text{cost of debt for that disclosure year}) + (\text{proportion of 'B' that is subordinated debt} \times (\text{cost of debt for that disclosure year} + 0.41\%));$
- (b) *B* is the amount of **Crown financing** outstanding in respect of the **regulated provider** (or related party as referred to in section 164 of the **Act**) on the first day of the **disclosure year** that is debt (whether senior or subordinated);
- (c) *C* is the amount determined in accordance with the following formula:  
 $(0.75 \times \text{cost of equity for that disclosure year}) + (0.25 \times \text{cost of debt for that disclosure year});$  and
- (d) *D* is the amount of **Crown financing** outstanding in respect of the **regulated provider** (or related party as referred to in section 164 of the **Act**) on the first day of the **disclosure year** that is equity.

#### 2.4.11 Annual benefit of Crown financing building block for regulated providers subject only to information disclosure regulation

- (1) In respect of **regulated providers** subject only to information disclosure regulation in regulations made under s 226 of the **Act**, 'annual benefit of Crown financing building block' for a **disclosure year** is calculated in accordance with the following formula:

$$A \times B$$

where:

- (a) *A* is:

- (i) where **Crown financing** is provided, in substance, by way of a combination of debt and equity, the amount calculated in accordance with the following formula:

$$(C \times D) + ((1 - C) \times E)$$

where:

*C* is the proportion of **Crown financing** outstanding which, in substance, is debt;

*D* is the **cost of debt** for that **disclosure year**; and

*E* is the **cost of equity** for that **disclosure year**;

- (ii) where **Crown financing** is provided, in substance, by way of debt, the **cost of debt** for that **disclosure year**; and
- (iii) where **Crown financing** is provided, in substance, by way of equity, the **cost of equity** for that **disclosure year**; and
- (b) *B* is the amount of **Crown financing** outstanding in respect of the **regulated provider** (or related party as referred to in section 164 of the **Act**) as of the first day of that **disclosure year**.

## SUBPART 5 **Quality dimensions**

### 2.5.1 Mandatory quality dimensions

- (1) In setting information relating to quality that a **regulated provider** is required to disclose in an **ID determination**, the **Commission** must specify quality performance measures and statistics for the following **quality dimensions**:
- (a) **availability**, which may include:
- (i) maximum **downtime**;
  - (ii) average **downtime**; and
  - (iii) notification to **access seekers** of **outages**;
- (b) **performance**, which may include:
- (i) **frame delay**;
  - (ii) **frame loss ratio**;
  - (iii) **frame delay variation**;
  - (iv) **port utilisation**;
- (c) **faults**, which may include:
- (i) incidence of faults, where “incidence of faults” is defined in an **ID determination**; and
  - (ii) time to **restore ID FFLAS**; and
- (d) **customer service**, which may include:

- (i) **end-user** connection satisfaction, where “end-user connection satisfaction” is defined in an **ID determination**;
- (ii) missed appointments, where “missed appointments” is defined in an **ID determination**; and
- (iii) the time to establish an **access seeker**, where “time to establish an **access seeker**” is defined in an **ID determination**.

#### 2.5.2 Optional quality dimensions

- (1) The **Commission** may also specify quality performance measures and statistics for one or more of the following **quality dimensions**:
  - (a) **ordering**, which may include the time to accept or reject a request;
  - (b) **provisioning**, which may include:
    - (i) the time to provision **ID FFLAS**; and
    - (ii) the time to disconnect from one type of **ID FFLAS** and connect to another; and
  - (c) **switching**, which may include the time to disconnect **ID FFLAS** from a losing **access seeker** and connect to a gaining **access seeker**.

#### 2.5.3 Quality performance measures and statistics

- (1) An **ID determination** may include requirements to disclose information on quality performance measures and statistics that are differentiated by:
  - (a) **regulated providers**;
  - (b) geography;
  - (c) **fibre network** architecture;
  - (d) **ID FFLAS**, such as a **layer 1 service** or **layer 2 service**; and
  - (e) classes of **end-users**, such as rural, urban, business or residential.

## PART 3 INPUT METHODOLOGIES FOR PRICE-QUALITY PATHS

### SUBPART 1 Specification of Price and Revenues

#### 3.1.1 Price and revenues

- (1) For the purpose of s 194(2)(b) and s 195 of the **Act**, the ‘maximum revenues’ that may be recovered by a **regulated provider** for a **regulatory year** in a **regulatory period** will be specified in a **PQ determination** as a revenue cap, whereby the **total FFLAS revenue** derived by a **regulated provider** in a **regulatory year** must not exceed **allowable revenue** specified in the **PQ determination** for that **regulatory year**.
- (2) ‘Allowable revenue’ means the sum of the following for a **regulatory year**:
  - (a) **building blocks revenue**;
  - (b) **pass-through costs**; and
  - (c) the **wash-up amount**.
- (3) For the purpose of this clause, subclauses (2)(b) and (c) can be positive or negative amounts.

#### 3.1.2 Pass-through costs

- (1) Subject to subclause (2), a ‘pass-through cost’ is a cost payable by a **regulated provider** on or after the **implementation date**, being:
  - (a) an amount levied by regulations made under sections 11 or 12 of the **Act**;
  - (b) the telecommunications development levy, as determined by the **Commission** under sections 87 and 88 of the **Act**;
  - (c) rates on **fibre assets** paid or payable by a **regulated provider** to a **local authority** under the Local Government (Rating) Act 2002; and
  - (d) a fixed membership fee relating to, or a fixed amount payable as a member of:
    - (i) Utilities Disputes Limited’s dispute resolution scheme;
    - (ii) the Telecommunications Dispute Resolution Scheme; and
    - (iii) any other dispute resolution scheme specified in a **PQ determination**.
- (2) If the cost under subclause (1) relates to **PQ FFLAS** and other services supplied by the **regulated provider**, only the proportion of the cost allocated to **PQ FFLAS** (where applicable) according to the following requirements is a ‘pass-through cost’:
  - (a) if the cost is an actual cost, it must be allocated according to clause 2.1.1 as if it was an actual ‘operating cost’; and
  - (b) if the cost is a forecast cost, it must be allocated according to clause 3.2.1(1), (2), and (3) as if it was a forecast ‘operating cost’.

## SUBPART 2 **Cost allocation**

### 3.2.1 Calculation of price-quality path forecast values

- (1) For the purposes of specifying a price-quality path any **operating costs** or **asset values** that are forecast as **directly attributable** to the provision of-
  - (a) **PQ FFLAS** must be allocated to **PQ FFLAS**;
  - (b) **ID-only FFLAS** must be allocated to **ID-only FFLAS**; and
  - (c) any **additional FFLAS class** specified by the **Commission** must be allocated to that **additional FFLAS class**.
- (2) The following must not be allocated to **PQ FFLAS**, **ID-only FFLAS**, or any **additional FFLAS class** specified by the **Commission**:
  - (a) any **operating cost** that is forecast as **directly attributable** to the provision of **services that are not regulated FFLAS**;
  - (b) any **asset value** that is forecast as **directly attributable** to the provision of **services that are not regulated FFLAS**; or
  - (c) any other cost that is forecast to be recovered in respect of a **Part 4 regulated service**.
- (3) Subject to subclauses (1)-(2), for the purposes of specifying a price-quality path, any **operating cost** must be:
  - (a) determined by applying, as required:
    - (i) **cost allocators** in accordance with subclause (7), and, where applicable, subclause (9); or
    - (ii) **proxy cost allocators** (whichever the case may require); and
  - (b) calculated by applying forecasts, subject to subclauses (5) and (6).
- (4) Subject to subclauses (1)-(2), for the purposes of specifying a price-quality path, any **asset value** must be:
  - (a) determined by applying, as required:
    - (i) **asset allocators** in accordance with subclause (8), and, where applicable, subclause (9); or
    - (ii) **proxy asset allocators** (whichever the case may require); and
  - (b) calculated by applying forecasts, subject to subclauses (5) and (6).
- (5) For the purpose of subclauses (1), (2), (7), (8) and (9), all forecasts must be:
  - (a) based on relevant and demonstrably reasonable assumptions, data, methods and judgements; or

- (b) if the **Commission** has approved the forecast values in accordance with an **input methodology** or other process relating to an **ID determination** or **PQ determination**, consistent with those forecast values.
- (6) Subclause (5) relates to, but is not limited to, forecasts of **operating costs, capital expenditure**, revenue, or any of the **allocator types** and **allocator values** that may be used in forecasting an **asset allocator** or **cost allocator**.
- (7) For the purpose of subclause (3), in respect of **operating costs** that are forecast as not **directly attributable** to the provision of **PQ FFLAS, ID-only FFLAS, or services that are not regulated FFLAS**, **cost allocators** must be used to allocate those **operating costs** to either:
  - (a) **PQ FFLAS**; or
  - (b) **ID-only FFLAS**.
- (8) For the purpose of subclause (4), in respect of **asset values** that are forecast as not **directly attributable** to the provision of **PQ FFLAS, ID-only FFLAS, or services that are not regulated FFLAS**, **asset allocators** must be used to allocate those **asset values** to either:
  - (a) **PQ FFLAS**; or
  - (b) **ID-only FFLAS**.
- (9) If the **Commission** specifies an **additional FFLAS class**, any **operating costs** or **asset values** that are forecast as not **directly attributable** to that **additional FFLAS class** must be allocated using an approach that is specified by the **Commission** when it specifies the **additional FFLAS class**.
- (10) For the purpose of subclause (1), if a **regulated fibre service provider** is subject to both information disclosure regulation and price-quality regulation in regulations made under s 226 of the **Act**, the **financial loss asset** must be treated as being **directly attributable** to **PQ FFLAS**.
- (11) Subject to subclause (12), when either a forecast **asset value** or a forecast **operating cost** that is not **directly attributable** to **PQ FFLAS** or **ID-only FFLAS** is allocated to **PQ FFLAS** and **ID-only FFLAS**, the total forecast **asset values** or forecast **operating costs** allocated to **PQ FFLAS** and **ID-only FFLAS** combined must not be more than the total forecast **asset values** or total forecast **operating costs** that the **regulated provider** could not have avoided if it ceased supplying **services that are not regulated FFLAS**.
- (12) Subclause (11) only applies to an allocation or allocations of a forecast **asset value** or a forecast **operating cost** that would have a material effect on the total forecast **asset values** or total forecast **operating costs** allocated to **PQ FFLAS** and **ID-only FFLAS** combined, and for which some of the **asset value** or **operating cost** is forecast to be allocated to **services that are not regulated FFLAS**.

- (13) For the purpose of subclauses (1) and (7)-(9), where the **Commission** specifies an **additional FFLAS class**, any forecast **operating costs** or forecast **asset values** may be simultaneously allocated to both:
- (a) that particular **additional FFLAS class** or any other **additional FFLAS class** specified by the **Commission** (where applicable); and
  - (b) either **PQ FFLAS** or **ID-only FFLAS** (whichever is applicable).

## SUBPART 3 **Asset valuation**

### 3.3.1 Calculation of price-quality path forecast values

- (1) Subject to subclauses (6)-(8), for the purposes of specifying a price-quality path, any of the following values must be determined in accordance with the **input methodologies** specified in Subpart 2 of Part 2 and determined in accordance with subclause (2):
- (a) **opening RAB value;**
  - (b) **value of commissioned asset;**
  - (c) **disposed asset;**
  - (d) **revaluation;**
  - (e) **closing RAB value;** and
  - (f) any other allowance, amount, cost or sum referred to in Subpart 2 of Part 2.
- (2) The values referred to in subclause (1) must be determined by:
- (a) subject to clauses 3.3.2-3.3.4, adopting any relevant value calculated under Subpart 2 of Part 2 for the **PQ RAB** in respect of the **base year** of a **regulated provider**-
    - (i) in respect of a disclosure made by a **regulated provider** for that **base year** under an **ID determination**; or
    - (ii) if disclosure under an **ID determination** has not been required or made by the **regulated provider**, obtained by the **Commission**; and
  - (b) subject to subclauses (3), (4) and (5), applying forecasts of all values required to determine the values referred to in paragraphs (a) to (f) of subclause (1) by applying the **input methodologies** specified in Subpart 2 of Part 2.
- (3) For the purpose of subclauses (1) and (7)(b), all forecasts, subject to subclause (4), must be:
- (a) based on relevant and demonstrably reasonable assumptions, data, methods and judgements; or

- (b) if the **Commission** has approved the forecast values in accordance with an **input methodology** or other process relating to an **ID determination** or **PQ determination**, consistent with those forecast values.
- (4) For the purpose of subclauses (2) and (7)(b), where **CPI** is required to be forecast, it must be determined as follows:
  - (a) for a quarter prior to the quarter for which the vanilla **WACC** applicable to the relevant **regulatory period** was determined, **CPI** as per paragraph (a) of the **CPI** definition and excluding any adjustments made under paragraph (b) of the **CPI** definition arising as a result of an event that occurs after the issue of the Monetary Policy Statement referred to in paragraph (b) below;
  - (b) for each subsequent quarter for which a forecast of the change in headline **CPI** is included in the Monetary Policy Statement last issued by the Reserve Bank of New Zealand prior to the date for which the vanilla **WACC** applicable to the relevant **regulatory period** was determined, the **CPI** last applying under paragraph (a) extended by the forecast change; and
  - (c) in respect of subsequent quarters, the forecast last applying under paragraph (b) adjusted such that an equal increment or decrement made to that forecast for each of the following three years results in the forecast for the last of those years being equal to the target mid-point for the change in headline **CPI** set out in the Monetary Policy Statement referred to in paragraph (b).
- (5) For the purposes of subclauses (2)(b) and (6), a **regulated provider** is not required to maintain the minimum levels of specificity prescribed in clause 2.2.14 for any forecasts of the values referred to:
  - (a) in paragraphs (a)-(f) of subclause (1); and
  - (b) in paragraphs (a)-(f) of subclause (6).
- (6) For the purposes of specifying the price-quality path for the **first regulatory period**, any of the following values must be determined in accordance with subclause (7):
  - (a) **opening RAB value**;
  - (b) **value of commissioned asset**;
  - (c) **disposed asset**;
  - (d) **revaluation**;
  - (e) **closing RAB value**; and
  - (f) any other relevant allowance, amount, cost or sum referred to in Subpart 2 of Part 2.
- (7) The values referred to in subclause (6) must be determined by:

- (a) adopting the “opening RAB value” of all **fibre assets** for the **PQ RAB** as of the **implementation date** in accordance with subclause (8); and
  - (b) subject to subclauses (3), (4) and (5), applying forecasts of all values required to determine those values for each **regulatory year** in the **first regulatory period** by:
    - (i) subject to paragraph (b)(ii), applying the **input methodologies** specified in Subpart 2 of Part 2 for the **PQ RAB**; and
    - (ii) in respect of ‘depreciation’ and ‘revaluation’, applying clauses 3.3.2-3.3.4.
- (8) For the purpose of subclause (7)(a), the “opening RAB values” of all **fibre assets** for the **PQ RAB** as of the **implementation date** must be determined by:
- (a) adopting any relevant actual values prepared in accordance with **GAAP** and obtained from a **regulated provider** by the **Commission** prior to the **implementation date**, provided those **GAAP** values are applied in accordance with s 177 of the **Act** relating to the “initial value of a fibre asset”;
  - (b) where relevant actual values are not available in respect of any **disclosure year** (or part thereof) prior to the **implementation date**, applying forecasts of all values required to determine the “opening RAB values” as of the **implementation date** using **GAAP** values obtained under paragraph (a) to inform or support those forecast values,
- where:
- (c) all forecasts applied under paragraph (b) must be:
    - (i) based on relevant and demonstrably reasonable assumptions, data, methods and judgements; or
    - (ii) if the **Commission** has approved the forecast values in accordance with an **input methodology** or other process relating to an **ID determination** or **PQ determination**, consistent with those forecast values;
  - (d) the relevant actual values contributing to the “opening RAB value” of the **financial loss asset**, as adopted under paragraph (a), are determined in accordance with Schedule B; and
  - (e) the relevant forecast values contributing to the “opening RAB value” of the **financial loss asset**, as applied under paragraph (b), are determined in accordance with Schedule B.

### 3.3.2 Depreciation

- (1) ‘Unallocated depreciation’ and ‘depreciation’ are determined in accordance with subclauses (2)-(3).

- (2) For the purpose of subclause (1), subject to subclause (7), in the case of a **fibre asset** with an **unallocated opening RAB value**, ‘unallocated depreciation’ must be determined using a depreciation method consistent with **GAAP** or in the case of the **financial loss asset**, clause 2.2.10(1)(d)(i), unless:
- (a) an alternative depreciation method is applied for some or all **fibre assets** in accordance with subclause (5); or
  - (b) a different depreciation method is applied for some or all **fibre assets** in accordance with subclause (6).
- (3) For the purpose of subclause (1), subject to subclause (7), in the case of a **fibre asset** with an **opening RAB value**, ‘depreciation’ must be determined using a depreciation method consistent with **GAAP** or in the case of the **financial loss asset**, clause 2.2.10(1)(d)(i), unless:
- (a) an alternative depreciation method is applied for some or all **fibre assets** in accordance with subclause (5); or
  - (b) a different depreciation method is applied for some or all **fibre assets** in accordance with subclause (6).
- (4) For the purposes of subclauses (2) and (3)-
- (a) ‘unallocated depreciation’ and ‘depreciation’ are nil in the case of-
    - (i) **land**; and
    - (ii) an **easement** other than a **fixed life easement**; and
  - (b) in all other cases, where the **fibre asset’s remaining asset life** at the end of the **regulatory year** is nil-
    - (i) ‘unallocated depreciation’ is the **fibre asset’s unallocated opening RAB value**; and
    - (ii) ‘depreciation’ is the **fibre asset’s opening RAB value**.
- (5) For the purposes of subclauses (2)-(3), an alternative depreciation method may be applied for some or all **fibre assets** if the **Commission** is satisfied that the result of applying the alternative method-
- (a) better promotes the purpose of Part 6 of the **Act**;
  - (b) where relevant, best gives, or is likely to best give, effect to s 166(2)(b) of the **Act**; and
  - (c) where relevant, is consistent with the **Commission’s** smoothing of prices or revenue under s 197 of the **Act**.
- (6) After the **first regulatory period**, a different depreciation method may be applied for a **regulatory period** to that applied in the previous **regulatory period** if the **Commission** is satisfied, for the purposes of a price-quality path, that the new depreciation method-

- (a) better promotes the purpose of Part 6 of the **Act**;
  - (b) where relevant, best gives, or is likely to best give, effect to s 166(2)(b) of the **Act**; and
  - (c) where relevant, is consistent with the **Commission's** smoothing of prices or revenue under s 197 of the **Act**.
- (7) Where an alternative depreciation method has been applied under subclause (5), a different depreciation method has been adopted under subclause (6), or the **Commission** has altered depreciation under clause 3.3.3, 'unallocated depreciation' and 'depreciation' must be applied using that method for subsequent **regulatory periods** unless:
- (a) the **Commission** is satisfied that a different depreciation method may be applied for that **regulatory period** in accordance with subclause (6); or
  - (b) the **Commission** alters depreciation for that **regulatory period** in accordance with clause 3.3.3.

### 3.3.3 Altering depreciation to smooth revenues and prices

- (1) For the purposes of clause 3.3.2, **unallocated depreciation** and **depreciation** calculated for any **core fibre asset** or the **financial loss asset** for any **regulatory period** may instead be calculated by the **Commission** in a manner it thinks fit under s 197 of the **Act**.

### 3.3.4 Revaluation treated as income

- (1) For the purposes of specifying a price-quality path, **revaluation** must be treated as revenue.

### 3.3.5 Ex-ante allowance for asset stranding

- (1) This clause applies to the determination of the amount of the annual ex-ante allowance for asset stranding for the purpose of specifying a price-quality path.
- (2) The annual ex-ante allowance for asset stranding is the amount determined in accordance with the formula-

$$A \times B$$

where-

- (a)  $A$  is 0.001; and
- (b)  $B$  is the average of-
  - (i) the sum of **opening RAB values** for each **regulatory year** of the **regulatory period** for all **core fibre assets** and the **opening RAB value** for the **financial loss asset**; and
  - (ii) the sum of **closing RAB values** for each **regulatory year** of the **regulatory period** for all **core fibre assets** and the **closing RAB value** for the **financial loss asset**.

## SUBPART 4 **Taxation**

### 3.4.1 Regulatory tax allowance

- (1) For the purposes of specifying a price-quality path, any value of regulatory tax allowance for any **regulatory year** within a **regulatory period** must be determined in accordance with the **input methodologies** specified in Subpart 3 of Part 2, and determined, subject to subclauses (2) and (3), by applying forecasts in respect of **PQ FFLAS** for all **regulatory years** after the **base year** of-
  - (a) **notional deductible interest**;
  - (b) tax deductions for depreciation using **tax depreciation rules**; and
  - (c) any other amount, determined after applying the **tax rules**, where the following must be ignored:
    - (i) any **revaluation** included in **regulatory profit / loss before tax**; and
    - (ii) the effect of any tax losses (other than those incurred in the provision of **regulated FFLAS**) made by a **regulated provider**.
- (2) For the purposes of determining 'regulatory tax allowance', if the **tax rules** allow for a choice of methods in calculating taxable income, the same methods used by the **regulated provider** must be used to determine the 'regulatory tax allowance'.
- (3) For the purposes of subclause (1), all forecasts must be:
  - (a) based on relevant and demonstrably reasonable:
    - (i) assumptions;
    - (ii) data;
    - (iii) methods; and
    - (iv) judgements; or
  - (b) if the **Commission** has approved the forecast values in accordance with an **input methodology** or other process relating to an **ID determination** or **PQ determination**, consistent with those forecast values.
- (4) For the purposes of subclause (1), 'regulatory profit / loss before tax' means 'regulatory profit / loss before tax' as determined by the **Commission** when specifying a price-quality path.

## SUBPART 5 **Cost of capital**

### 3.5.1 Methodology for estimating the weighted average cost of capital

- (1) The **Commission** will determine a mid-point estimate of vanilla **WACC**-
  - (a) as of the first **business day** of the month 7 months prior to the start of each **regulatory period**;
  - (b) in respect of the **regulatory period**;

- (c) no later than 6 months prior to the start of each **regulatory period**; and
- (d) in accordance with the formula-

$$r_d L + r_e(1 - L).$$

(2) The **Commission** will determine a mid-point estimate of post-tax **WACC**-

- (a) as of the first **business day** of the month 7 months prior to the start of each **regulatory period**;
- (b) in respect of the **regulatory period**;
- (c) no later than 6 months prior to the start of each **regulatory period**; and
- (d) in accordance with the formula-

$$r_d(1 - T_c)L + r_e(1 - L).$$

(3) In this clause-

$L$  is leverage;

$r_d$  is the cost of debt and is estimated in accordance with the formula:

$$r_f + p + d;$$

$r_e$  is the cost of equity and is estimated in accordance with the formula:

$$r_f(1 - T_i) + \beta_e TAMRP;$$

$T_c$  is the average corporate tax rate;

$r_f$  is the risk-free rate;

$p$  is the **average debt premium**;

$d$  is the debt issuance costs;

$T_i$  is the average investor tax rate;

$\beta_e$  is the equity beta; and

$TAMRP$  is the tax-adjusted market risk premium.

(4) For the purpose of this clause-

- (a) the average investor tax rate, the average corporate tax rate, the equity beta, the debt issuance costs, the leverage and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 3.5.2; and
- (b) the risk-free rate must be estimated in accordance with clause 3.5.3.

### 3.5.2 Fixed WACC parameters

(1) 'Leverage' means the ratio of debt capital to total capital and is 29%.

- (2) 'Average investor tax rate' is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **regulatory years** in the **regulatory period** commencing on the first day of the **regulatory period** in question.
- (3) For the purpose of subclause (2), 'investor tax rate' is, for each **regulatory year**, the maximum **prescribed investor rate** applicable at the start of the **regulatory period** to an individual who is-
  - (a) resident in New Zealand; and
  - (b) an investor in a **multi-rate PIE**.
- (4) The 'average corporate tax rate' is the average of the **corporate tax rates** that, as at the date that the estimation is made, will apply during the **regulatory period term** commencing on the first day of the **regulatory period**.
- (5) 'Equity beta' is 0.70.
- (6) 'Debt issuance costs' are costs associated with the issuance of debt by a **regulated provider** and are determined by the term of the **regulatory period**, where-
  - (a) for a five year **regulatory period**, this is 0.2%;
  - (b) For a four year **regulatory period**, this is 0.25%; and
  - (c) For a three year **regulatory period**, this is 0.33%.
- (7) 'Tax-adjusted market risk premium' is 7.5%.

### 3.5.3 Methodology for estimating risk-free rate

- (1) The **Commission** will estimate a risk-free rate-
  - (a) as of the first **business day** of the month 7 months prior to the start of each **regulatory period**;
  - (b) in respect of a period equal to the **regulatory period**; and
  - (c) no later than 6 months prior to the start of each **regulatory period**,by-
  - (d) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly interpolated bid yield to maturity for a residual period to maturity equal to the **regulatory period term** on each **business day** in the 3-month period of 8 to 10 months prior to the start of the **regulatory period**;
  - (e) calculating the annualised interpolated bid yield to maturity for each **business day**; and
  - (f) calculating the unweighted arithmetic average of the daily annualised interpolated bid yields to maturity.

#### 3.5.4 Methodology for estimating average debt premium

- (1) The **Commission** will determine an estimate of an amount for the **average debt premium**-
  - (a) for each **regulatory period**; and
  - (b) no later than 6 months prior to the start of each **regulatory period**.
- (2) For the purpose of subclause (1), 'average debt premium' means the unweighted arithmetic average of the five **debt premium** values estimated in accordance with subclauses (4) and (5) for:
  - (a) the current **debt premium reference year**; and
  - (b) the four previous **debt premium reference years**.
- (3) For the purpose of subclause (2)(a), 'current debt premium reference year' refers to the **debt premium reference year** that contains the start of the **regulatory year**.
- (4) Debt premium means the spread between-
  - (a) the bid yield to maturity on **vanilla NZ\$ denominated bonds** that-
    - (i) are issued by a **regulated fibre service provider**;
    - (ii) are publicly traded;
    - (iii) have a **qualifying rating** of grade BBB; and
    - (iv) have a remaining term to maturity of 5 years; and
  - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (5) For the purpose of subclause (2), the amount of the debt premium will be estimated by-
  - (a) identifying publicly traded **vanilla NZ\$ denominated bonds** issued by a **qualifying issuer** that are-
    - (i) **investment grade credit rated**; and
    - (ii) of a type described in the paragraphs of subclause (6);
  - (b) for each **business day** in the 12 months preceding the start of the **debt premium reference year**, in respect of each bond identified in accordance with paragraph (a)-
    - (i) obtaining its wholesale market annualised bid yield to maturity;
    - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and

- (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity, by deducting the yield calculated in accordance with sub-paragraph (ii) from the yield obtained in accordance with sub-paragraph (i);
  - (c) calculating, for each bond identified in accordance with paragraph (a), the un-weighted arithmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and
  - (d) subject to subclause (6), estimating, by taking account of the average spreads identified in accordance with paragraph (c) and having regard to the debt premium estimated from applying the **Nelson-Siegel-Svensson approach**, the average spread that would reasonably be expected to apply to a **vanilla NZ\$ denominated bond** that-
    - (i) is issued by a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
    - (ii) is publicly traded;
    - (iii) has a **qualifying rating** of grade BBB; and
    - (iv) has a remaining term to maturity of 5 years.
- (6) For the purpose of subclauses (5)(a) and (5)(d), the **Commission** will have regard, subject to subclause (7), to the spreads observed on the following types of **vanilla NZ\$ denominated bonds** issued by a **qualifying issuer**:
- (a) those that-
    - (i) have a **qualifying rating** of grade BBB; and
    - (ii) are issued by a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (b) those that-
    - (i) have a **qualifying rating** of grade BBB; and
    - (ii) are issued by a **telecommunications service provider** other than a **regulated fibre service provider** that is not 100% owned by:
      - (A) the Crown; or
      - (B) a **local authority**;
  - (c) those that-

- (i) have a **qualifying rating** of grade BBB; and
  - (ii) are issued by an entity other than a **regulated fibre service provider** or **telecommunications service provider** that is not 100% owned by:
    - (A) the Crown; or
    - (B) a **local authority**;
- (d) those that-
- (i) have a **qualifying rating** of a grade different to BBB; and
  - (ii) are issued by a **regulated fibre service provider** that is not 100% owned by:
    - (A) the Crown; or
    - (B) a **local authority**;
- (e) those that-
- (i) have a **qualifying rating** of a grade different to BBB; and
  - (ii) are issued by an entity other than a **regulated fibre service provider** that is not 100% owned by:
    - (A) the Crown; or
    - (B) a **local authority**; and
- (f) those that are-
- (i) **investment grade credit rated**; and
  - (ii) issued by an entity that is 100% owned by:
    - (A) the Crown; or
    - (B) a **local authority**.
- (7) For the purpose of subclause (6)-
- (a) progressively lesser regard will ordinarily be given to the spreads observed on the bond types described in accordance with the order in which the bond types are described in subclause (6);
  - (b) the spread on any bond of the type described in subclause (6) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
  - (c) the **Commission** will adjust spreads observed on bonds described under subclauses (6)(b) to (6)(f) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (6)(a).

### 3.5.5 Methodology for estimating the 50<sup>th</sup> percentile estimate of WACC

- (1) The **Commission** will determine a 50<sup>th</sup> percentile estimate of vanilla **WACC**-
  - (a) for each **regulatory period**; and
  - (b) no later than 6 months prior to the start of each **regulatory period**.
- (2) The **Commission** will determine a 50<sup>th</sup> percentile estimate of post-tax **WACC**-
  - (a) for each **regulatory period**; and
  - (b) no later than 6 months prior to the start of each **regulatory period**.
- (3) For the purposes of subclause (1) or (2), the **mid-point estimate of WACC** must be treated as the 50th percentile, where the **standard error of the mid-point estimate of WACC** is 0.0131.

### 3.5.6 Publication of estimates

- (1) The **Commission** will publish all determinations and estimates that it is required to make by this subpart-
  - (a) on its website; and
  - (b) no later than 1 month after having made them.

### 3.5.7 Application of cost of capital methodology

- (1) Where the **Commission** takes into account the cost of capital in making a **PQ determination**, the **Commission** will use the **50th percentile estimate of WACC** determined in accordance with clause 3.5.5(1) and most recently published in accordance with clause 3.5.6.
- (2) ‘Term credit spread differential allowance’ for a **regulatory year** in respect of the **first regulatory period** and a **regulated provider** is the maximum of nil and the amount determined in accordance with the formula-

$$a \times b \div c,$$

where-

*a* means the sum of the **term credit spread differentials** calculated in accordance with clause 3.5.10(1) for **disclosure year 2020**;

*b* means:

- (a) the sum of forecast **opening RAB values** for all **core fibre assets** and the forecast **opening RAB value** for the **financial loss asset** for the **regulatory year** in question; and
- (b) the sum of forecast **value of commissioned assets** for all **core fibre assets** for the **regulatory year** in question; and

*c* means the sum of:

- (c) the relevant actual values for **disclosure year 2020**, as determined in accordance with clause 3.3.1(8)(a); and
- (d) the relevant actual values as of 1 January 2021 contributing to the “opening RAB value” of the **financial loss asset**, as determined in accordance with clause 3.3.1(8)(d).

- (3) ‘Term credit spread differential allowance’ for a **regulatory year** in respect of the **second regulatory period** and subsequent **regulatory periods** and a **regulated provider** is the maximum of nil and the amount determined in accordance with the formula-

$$a \times b \div c,$$

where-

*a* means the 'term credit spread differential allowance' calculated in accordance with Part 2 for the **base year**;

*b* means:

- (a) the sum of forecast **opening RAB values** for all **core fibre assets** and the forecast **opening RAB value** for the **financial loss asset** for the **regulatory year** in question; and
- (b) the sum of forecast **value of commissioned assets** for all **core fibre assets** for the **regulatory year** in question; and

*c* means the sum of the **opening RAB values** for **core fibre assets** and the **opening RAB value** for the **financial loss asset** for the **base year**.

- (4) Where a **qualifying provider** discloses a **term credit spread differential allowance** under an **ID determination**, the **Commission**, for the purpose of assessing the **qualifying provider's** profitability, will treat such an allowance as an expense in the **disclosure year** in respect of which that allowance was disclosed.

### 3.5.8 Interpretation of terms relating to term credit spread differential

- (1) ‘Qualifying debt’ means a line of debt-
- (a) with an original tenor greater than 5 years; and
  - (b) issued by a **qualifying provider**.
- (2) ‘Qualifying provider’ means a **regulated provider** whose debt portfolio, as at the date of that provider's most recently published audited financial statements, has a weighted average original tenor greater than 5 years.

### 3.5.9 Term credit spread difference

- (1) ‘Term credit spread difference’ is determined in accordance with the formula-

$$T \times U,$$

where-

- (a)  $T$  is whichever is the lesser of the amount determined in accordance with the formula-
    - (i)  $0.00075 \times (\text{original tenor of the **qualifying debt** - 5})$ ; or
    - (ii)  $0.00075 \times 5$ ; and
  - (b)  $U$  is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.
- (2) For the purpose of this clause, if the **qualifying debt** is issued to a **related party**, 'original tenor of the **qualifying debt**' means whichever is the shorter of the-
- (a) tenor of the **qualifying debt**; or
  - (b) period from the **qualifying debt**'s date of issue to the earliest date on which its repayment is or may be required.

#### 3.5.10 Methodology for estimating term credit spread differential

- (1) 'Term credit spread differential' is the amount determined in accordance with the formula-

$$(A \div B) \times C \times D,$$

where-

- (a)  $A$  is the sum of the **term credit spread difference** and debt issuance cost re-adjustment;
- (b)  $B$  is the book value of the **qualifying provider's** total interest-bearing debt as at the balance date of the provider's financial statements audited and published in the year in question;
- (c)  $C$  is **leverage**; and
- (d)  $D$  is, in relation to the **qualifying provider**, the average of-
  - (i) the sum of:
    - A. the relevant actual values for **disclosure year 2019**, as determined in accordance with clause 3.3.1(8)(a); and
    - B. the relevant actual values as of 1 January 2020 contributing to the "opening RAB value" of the **financial loss asset**, as determined in accordance with clause 3.3.1(8)(d); and
  - (ii) the sum of:
    - A. the relevant actual values for **disclosure year 2020**, as determined in accordance with clause 3.3.1(8)(a); and

B. the relevant actual values as of 1 January 2021 contributing to the “opening RAB value” of the **financial loss asset**, as determined in accordance with clause 3.3.1(8)(d).

- (2) For the purpose of subclause (1)(a), 'debt issuance cost re-adjustment' is the amount determined in accordance with the formula (which, for the avoidance of doubt, will be a negative number)-

$$(0.01 \div \textit{original tenor of the **qualifying debt** - 0.002}) \times \textit{book value in New Zealand dollars of the **qualifying debt** at its date of issue.}$$

### 3.5.11 Annual benefit of Crown financing building block

- (1) For the purposes of specifying a price-quality path, “annual benefit of Crown financing building block” for a **regulatory year** in a **regulatory period** is determined in accordance with the following formula-

$$(A \times B) + (C \times D),$$

where-

- (a) *A* is the amount determined in accordance with the following formula:

$$(\textit{proportion of 'B' that is forecast to be senior debt} \times \textit{cost of debt for that **regulatory period**}) + (\textit{proportion of 'B' that is forecast to be subordinated debt} \times (\textit{cost of debt for that **regulatory period** + 0.41\%}));$$

- (b) *B* is the forecast amount of **Crown financing** outstanding in respect of the **regulated provider** (or related party as referred to in section 164 of the **Act**) on the first day of the **regulatory year** that is debt (whether senior or subordinated);

- (c) *C* is the amount determined in accordance with the following formula:

$$(0.75 \times \textit{cost of equity for that **regulatory period**}) + (0.25 \times \textit{cost of debt for that **regulatory period**}); \textit{and}$$

- (d) *D* is the forecast amount of **Crown financing** outstanding in respect of the **regulated provider** (or related party as referred to in section 164 of the **Act**) on the first day of the **regulatory year** that is equity.

## SUBPART 6 **Quality dimensions**

### 3.6.1 Mandatory quality dimensions

- (1) In specifying quality standards for a **PQ determination**, the **Commission** must specify quality standards for the following **quality dimensions**:

- (a) **availability**, which may include:

- (i) maximum **downtime**;
  - (ii) average **downtime**; and
  - (iii) notification to **access seekers** of **outages**; and
- (b) **performance**, which may include:
- (i) **frame delay**;
  - (ii) **frame loss ratio**;
  - (iii) **frame delay variation**; and
  - (iv) **port utilisation**.

### 3.6.2 Optional quality dimensions

- (1) The **Commission** may also specify quality standards for one or more of the following **quality dimensions**:
- (a) **ordering**, which may include the time to accept or reject a request;
  - (b) **provisioning**, which may include:
    - (i) the time to provision **PQ FFLAS**; and
    - (ii) the time to disconnect from one type of **PQ FFLAS** and connect to another;
  - (c) **switching**, which may include the time to disconnect **PQ FFLAS** from a losing **access seeker** and connect to a gaining **access seeker**;
  - (d) **faults**, which may include:
    - (i) incidence of faults, where “incidence of faults” is defined in an **ID** or **PQ determination**; and
    - (ii) time to **restore PQ FFLAS**; and
  - (e) **customer service**, which may include:
    - (i) **end-user** connection satisfaction, where “end-user connection satisfaction” is defined in a **PQ determination**;
    - (ii) missed appointments, where “missed appointments” is defined in a **PQ determination**; and
    - (iii) the time to establish an **access seeker**, where “time to establish an **access seeker**” is defined in a **PQ determination**.

### 3.6.3 Quality standards

- (1) When specifying quality standards in a **PQ determination**, the **Commission** may include quality standards that are differentiated by:
- (a) **regulated providers**;
  - (b) geography;
  - (c) **fibre network** architecture;
  - (d) **PQ FFLAS**, such as a **layer 1 service** or **layer 2 service**; and

- (e) classes of **end-users**, such as rural, urban, business or residential.

## SUBPART 7 **Capital expenditure**

### SECTION 1 **General rules and processes for capital expenditure proposals**

#### 3.7.1 Overview of capex

- (1) The **Commission** will determine a **capex allowance**, after **Chorus** submits a **capex proposal** that relates to one of the following **capital expenditure** categories:
  - (a) a **base capex proposal** meeting the specific requirements set out in section 2;
  - (b) a **connection capex baseline proposal** meeting the specific requirements set out in section 3; and
  - (c) an **individual capex proposal** meeting the specific requirements set out in section 4.
- (2) **Chorus** will submit one or more **capex proposals** to the **Commission** as follows:
  - (a) **Chorus** will submit a **base capex proposal** and a **connection capex baseline proposal** for a **regulatory period** before the start of that **regulatory period**; and
  - (b) **Chorus** may submit one or more **individual capex proposals** before or during a **regulatory period**.
- (3) After receiving a **capex proposal**, the **Commission** will determine the **capex allowance** for each **regulatory year** of a **regulatory period** in accordance with the general evaluation requirements in Subpart 8 and any specific requirements set out for each category of **capex proposal** in sections 2, 3 and 4.
- (4) When the **Commission** determines a **capex allowance** or a **connection capex variable adjustment** in respect of a **regulatory period**:
  - (a) any **capex allowance** determined before that **regulatory period** commences will be used to calculate the **building blocks revenue** for that **regulatory period**; and
  - (b) any **capex allowance** determined after that **regulatory period** commences, or any **connection capex variable adjustment** in respect of that **regulatory period**, will be used to calculate a **wash-up amount**.

#### 3.7.2 General rule for capital contributions

- (1) All **proposed capex** and **capex allowances** must be net of **capital contributions**.

#### 3.7.3 General certification requirements for capex proposals and other documents

- (1) If a **director** or **CEO** of **Chorus** is required to provide **certification** in relation to a **capex proposal** or other document, the **director** or **CEO** must certify in writing, that having made all reasonable enquiries, it is their belief that:

- (a) the **capex proposal** or document being certified is derived from and accurately represents, in all material respects, the operations of **Chorus**; and
  - (b) the **capex proposal** or document being certified complies, in all material respects, with the requirements set out in Part 3.
- (2) During the period between **Chorus** providing a **capex proposal** or other document to the **Commission** and the **Commission** making a determination relating to the **capex proposal** or documents, **Chorus** must notify the **Commission**:
- (a) where the information that was the basis of the **capex proposal** or document being certified under subclause (1) has materially changed; and
  - (b) where notice is provided under paragraph (a), by providing information that identifies and explains the changes referred to in paragraph (a).
- (3) The notice and information required under subclause (2) must be provided to the **Commission** as soon as practicable.

#### 3.7.4 General audit requirements for capex proposals

- (1) If an audit is required for a **capex proposal**, it must include a report by an **auditor** that states whether:
- (a) the historical financial information used in the preparation of the **capex proposal** has been:
    - (i) compiled, in all material respects, in accordance with the requirements set out in Part 3;
    - (ii) properly extracted from **Chorus's** financial records sourced from its financial systems; and
    - (iii) audited in accordance with applicable auditing standards issued by the External Reporting Board in accordance with its functions under the Financial Reporting Act 2013 or any equivalent standards that replace these standards;
  - (b) the historical non-financial information used in the preparation of the **capex proposal** has been:
    - (i) compiled, in all material respects, in accordance with the requirements set out in Part 3;
    - (ii) properly compiled on the basis of the relevant underlying source information; and
    - (iii) examined in accordance with applicable assurance standards;
  - (c) the forecast financial information provided in the **capex proposal** has been:
    - (i) compiled, in all material respects, in accordance with the requirements set out in Part 3;

- (ii) properly compiled on the basis of disclosed assumptions and relevant underlying source information; and
- (iii) examined in accordance with applicable assurance standards; and
- (d) the forecast non-financial information provided in the **capex proposal** has been:
  - (i) compiled in all material respects in accordance with the requirements set out in Part 3;
  - (ii) properly compiled on the basis of disclosed assumptions and relevant underlying source information; and
  - (iii) examined in accordance with applicable assurance standards.

### 3.7.5 General rule for information required for more than one purpose

- (1) Where **Chorus** must provide information under this subpart, an information requirement may be met by **Chorus** providing a reference to information in another document, provided that:
  - (a) where the information is required to be certified, audited or independently verified, the information is covered by a relevant **certification**, audit report, or independent verification;
  - (b) the reference provides the required information without the need for additional analysis, explanation or interpretation;
  - (c) the referenced information is provided under this subpart and available to the **Commission** when the information is required; and
  - (d) in respect of each reference relied on, **Chorus** provides an index specifying:
    - (i) the relevant requirement being met; and
    - (ii) the precise location of the referenced information within the document relied on.

### 3.7.6 General rule for information claimed to be confidential

- (1) Where **Chorus** considers that it has a right to confidentiality in any information it provides the **Commission** in relation to this subpart and it does not waive the right, it must:
  - (a) include that information in an appendix; and
  - (b) clearly mark the information as confidential.
- (2) For the avoidance of doubt:
  - (a) nothing in subclause (1) prevents the **Commission** publishing such information if it considers **Chorus** has no right to confidentiality; and
  - (b) nothing in paragraph (a) affects **Chorus's** rights or remedies for breach of any right to confidentiality.

### 3.7.7 Information requirements for integrated fibre plan

- (1) At the same time as **Chorus** provides its **base capex proposal** and **connection capex baseline proposal**, **Chorus** must provide an **integrated fibre plan** that includes the following component reports:
- (a) An overview of the **integrated fibre plan**: a summary and commentary on forecast expenditure for the five **regulatory years** after the start of the **regulatory period** (commencing with the **regulatory year** that starts on the same day as the **regulatory period**), including past expenditure and linkages with **PQ FFLAS** quality outcomes, **operating costs** and delivery performance.
  - (b) Quality report: a report on the forecast **PQ FFLAS** quality outcomes and the linkages between forecast expenditure and **PQ FFLAS** quality outcomes for the five **regulatory years** after the start of the **regulatory period** (commencing with the **regulatory year** that starts on the same day as the **regulatory period**), including sensitivity of forecast **PQ FFLAS** quality outcomes to varying levels of forecast expenditure and the demonstration of past performance.
  - (c) Governance report: a report describing **Chorus'** organisational governance, risk management and high-level asset management approach.
  - (d) Demand report: a report describing anticipated **PQ FFLAS** demand for the five **regulatory years** after the start of the **regulatory period** (commencing with the **regulatory year** that starts on the same day as the **regulatory period**), including linkages between **PQ FFLAS** uptake, data growth, and types of **PQ FFLAS**, including by reference to historic demand and past trends.
  - (e) Investment report: a report on investment plans and forecast **capital expenditure** for the five **regulatory years** after the start of the **regulatory period** (commencing with the **regulatory year** that starts on the same day as the **regulatory period**), including categories of investment and **capex** set out in the **regulatory templates** and the investment approach to each.
  - (f) Delivery report: a report on anticipated and actual past delivery of **capital expenditure**, including **capex projects** and **programmes**. The report must include any linkages with **operating costs** and network performance (such as **fault** rates).
  - (g) Engagement plan: a report outlining the engagement and consultation on **capital expenditure** undertaken and planned by **Chorus**. This includes consultation and engagement prior to submitting the **base capex proposal** and **connection capex baseline proposal** and planned consultation on any aspect of **capex** for the **regulatory period** relevant to the **capex proposal** or subsequent **regulatory periods**. The report is to identify consultation objectives, processes, stakeholders consulted, and

any other aspect of engagement that is relevant to **proposed capex** and **PQ FFLAS** quality outcomes.

- (2) The **integrated fibre plan** may be one or more documents if the component reports are separate reports and clearly identified.
- (3) The **integrated fibre plan** must include following detail for the relevant reports:
  - (a) in relation to subclauses (1)(a)-(b), (1)(d)-(e) and (1)(f), the key assumptions relied on for the forecasts and uncertainties associated with the forecasts;
  - (b) in relation to subclause (1)(e), a description of synergies between **projects** and **programmes** and **capital expenditure** and **operating expenditure** trade-offs; and
  - (c) in relation to subclauses (1)(a)-(b), and (1)(d)-(f), activity volumes and trends as relevant to each report.
- (4) For the **second regulatory period** and subsequent **regulatory periods**, the **integrated fibre plan** component reports must include updates and changes from the **integrated fibre plan** for the previous **regulatory period**.

## SECTION 2 Base capex

### 3.7.8 Base capex proposal process and timeframes

- (1) **Chorus** must submit a **base capex proposal** to the **Commission**:
  - (a) for the **first regulatory period**, as soon as practicable but no later than 31 December 2020; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, at least 14 months before the start of the **regulatory period**.
- (2) The **base capex proposal** must:
  - (a) state any proposed **base capex** that **Chorus** considers should be included in the **base capex allowance** for each **regulatory year** of the **regulatory period**;
  - (b) provide enough information to enable the **Commission** to evaluate the **base capex proposal** in accordance with Subpart 8, including:
    - (i) **regulatory templates** agreed under subclause (3) or specified under subclause (4); and
    - (ii) information required by the **Commission's base capex information request**; and
  - (c) be accompanied by the required assurance reports, including an **independent verification report, certification**, and **auditor** report in accordance with clauses 3.7.10-3.7.11.
- (3) The **Commission** and **Chorus** must use reasonable endeavours to agree the form of the **regulatory templates** and the content of the **regulatory templates** to be provided in the **base capex proposal** for the relevant **regulatory period**, including a list of **base capex sub-categories** and a description of each.

- (4) If no agreement is reached on the matters in subclause (3), then, subject to subclause (6), the **Commission** must specify those matters and notify **Chorus**.
- (5) The **regulatory templates** must be agreed in accordance with subclause (3) or specified in accordance with subclause (4):
  - (a) for the **first regulatory period**, as soon as it is practicable; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**; before the first **working day** in March which is at least 22 months before the start of the **regulatory period**.
- (6) When specifying the matters in subclause (4), the **Commission** must have regard to the views **Chorus** expressed during discussion on the **regulatory templates**.
- (7) For each **base capex sub-category** identified in the **regulatory template** as requiring geographic information, **Chorus** must provide a breakdown of its **capital expenditure** for the **base capex sub-category** by one or more geographical locations including:
  - (a) urban areas;
  - (b) rural areas; and
  - (c) any further or other geographical breakdown set out in the **regulatory templates**.
- (8) For **capital expenditure** identified in the **regulatory templates** as relating to both **PQ FFLAS** and **services that are not regulated FFLAS**, **Chorus** must provide information specified in the **base capex information request** on the **asset allocator** used and on **regulated FFLAS** and **services that are not regulated FFLAS** to enable the **Commission** to assess the expenditure proposal as a whole.
- (9) The **Commission** must issue a **base capex information request** to **Chorus** related to the **base capex proposal** in accordance with information requirements set out in clause 3.7.9:
  - (a) for the first **regulatory period**, as soon as it is practicable; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, at least 22 months before the start of the **regulatory period**.

### 3.7.9 Base capex information request - information requirements

- (1) The **base capex information request** may include information relating to any or all of the following areas:
  - (a) governance relating to proposed **capital expenditure**, including evidence that appropriate policies and processes have been applied;
  - (b) historic **capital expenditure** and consideration of historic rates of investment;
  - (c) approach to forecasting **capital expenditure**, including models used to develop the **capital expenditure** forecasts;
  - (d) the extent of the uncertainty related to:
    - (i) the need for the proposed **base capex**;

- (ii) the economic case justifying the proposed **base capex**;
- (iii) the timing of the proposed **base capex**;
- (e) the extent that a risk-based approach has been applied to the proposed **base capex**;
- (f) relevant financial information including evidence of efficiency improvements in proposed **capital expenditure**;
- (g) quantitative or economic analysis related to the proposed **capital expenditure**, including sensitivity analysis and impact analysis undertaken;
- (h) consideration and analysis of alternatives to the proposed **capital expenditure**, including the impact of the alternatives on **PQ FFLAS** quality outcomes;
- (i) **fibre asset** and **fibre network** information;
- (j) competition effects, including specific information for **base capex sub-categories** that have potential impacts on competition in **PQ FFLAS** and other telecommunications markets;
- (k) the impact that the proposed **capital expenditure** has on a **layer 1 service** in respect of **PQ FFLAS**;
- (l) common costs and benefits between **PQ FFLAS**, **ID-only FFLAS** and **services that are not regulated FFLAS**;
- (m) the linkages between proposed **capex** and quality, including the impact the **capital expenditure** would have on **PQ FFLAS** quality outcomes; and
- (n) the extent of consultation by **Chorus** with its **access seekers** and **end-users**, how input from consultation is incorporated into the forecast **capital expenditure** and what impact it has had on the **base capex proposal**;
- (o) any **non-linear connection costs** proposed for **base capex**, (and such costs must not include any **non-linear connection costs** proposed for **connection capex**); and
- (p) procurement, resourcing and deliverability of the proposed **capex**.

#### 3.7.10 Base capex independent verification

- (1) For the **second regulatory period** and subsequent **regulatory periods**, the **base capex proposal** must be verified by an **independent verifier** approved by the **Commission**.
- (2) The intended independent verifier, scope and the terms and conditions proposed by **Chorus** for the **independent verification report** must be submitted to the **Commission** for approval prior to the start of the verification process.
- (3) The verification information submitted to the **Commission** in accordance with subclause (2) must include enough information for the **Commission** to be satisfied that:

- (a) the verifier is **independent** and capable of undertaking the verification; and
- (b) the terms and conditions of engagement and the scope of the **independent verification report** will provide the appropriate assurance needed to assess the **base capex proposal**.

#### 3.7.11 Other assurance for base capex: certification and audit

- (1) At least 2 **directors** of **Chorus** must provide **certification** in relation to the **base capex proposal** in accordance with clause 3.7.3.
- (2) The **base capex proposal** must include a report by an **auditor** in accordance with clause 3.7.4.

#### 3.7.12 Commission processes and rules for base capex allowance

- (1) After the **Commission** evaluates a **base capex proposal** in accordance with Subpart 8, the **Commission** must determine a **base capex allowance** for each **regulatory year** of that **regulatory period**:
  - (a) for the **first regulatory period**, no later than 3 months before the start of that **regulatory period**; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, no later than 6 months before the start of that **regulatory period**.
- (2) **Chorus** does not exceed the total **base capex allowance** for the **regulatory period** simply because the actual **capital expenditure** varies between **base capex sub-categories** or between **regulatory years** from the forecast **capital expenditure** set out in the **base capex proposal** for the **regulatory period**.
- (3) The **Commission** may determine that **proposed capex** in a **base capex proposal** must be excluded from the **base capex allowance** if the **Commission** is satisfied that the **proposed capex** should not be part of the **base capex allowance** after having regard to at least the following matters:
  - (a) the size and complexity of the **project** or **programme**;
  - (b) the extent of the uncertainty related to the:
    - (i) need for the **proposed capex**;
    - (ii) economic case justifying the **proposed capex**; and
    - (iii) timing of the **proposing capex**; and
  - (c) whether **capital expenditure** for the **project** or **programme** should be:
    - (i) approved only for the **project** or **programme** to which the **proposed capex** relates; and
    - (ii) reported separately from the **base capex** to assist the **Commission** in its evaluation of the **capital expenditure**.

- (4) If the **Commission** makes a determination in accordance with subclause (3), **Chorus** may submit an **individual capex proposal** for that **capital expenditure** in accordance with the staged application process specified in clause 3.7.22-3.7.27.

### **SECTION 3 Connection capex**

#### **3.7.13 General rules for connection capex allowances**

- (1) The **Commission** will determine two components for the **connection capex allowance**:
- (a) a **connection capex baseline allowance** prior to the **regulatory period** in accordance with clause 3.7.20; and
  - (b) a **connection capex variable adjustment** after the final **connection capex annual report** of the **regulatory period** in accordance with clause 3.7.21.
- (2) The **capital expenditure** determined for the **connection capex allowance** must be additional to the **base capex allowance** and any **individual capex allowance**.
- (3) The **capital expenditure** determined for the **connection capex allowance** is not substitutable for **capital expenditure** determined for the **base capex allowance** or any **individual capex allowance** for a **regulatory year** of the **regulatory period**.

#### **3.7.14 Connection capex baseline proposal process and timeframes**

- (1) **Chorus** must submit a **connection capex baseline proposal** to the **Commission** for a **regulatory period** at the same time that it submits the **base capex proposal** for that **regulatory period**.
- (2) A **connection capex baseline proposal** must:
- (a) state any **connection capex** that **Chorus** considers should be included in the **connection capex baseline allowance** for each **regulatory year** of the **regulatory period**;
  - (b) only propose **connection capex** additional to the **base capex allowance** proposed for each **regulatory year** of the **regulatory period**;
  - (c) provide enough information to enable the **Commission** to evaluate the **connection capex baseline proposal** in accordance with Subpart 8, including:
    - (i) **regulatory template** agreed under subclause (3) or specified under subclause (4); and
    - (ii) information required by the **Commission's connection capex information request**; and
  - (d) be accompanied by the required assurance reports, including an **independent verification report, certification**, and an **auditor** report in accordance with clauses 3.7.16-3.7.17.
- (3) The **Commission** and **Chorus** must use reasonable endeavours to agree the form of the **regulatory templates** and the content of the **regulatory templates** to be provided in the **connection capex baseline proposal** for the relevant **regulatory period**.

- (4) If no agreement is reached on the matters in subclause (3), then, subject to subclause (6), the **Commission** must specify those matters and notify **Chorus**.
- (5) The **regulatory templates** must be agreed in accordance with subclause (3) or specified in accordance with subclause (4):
  - (a) for the **first regulatory period**, as soon as it is practicable; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, before the first **working day** in March which is at least 22 months before the start of the **regulatory period**.
- (6) When specifying the matters in subclause (4), the **Commission** must have regard to the views **Chorus** expressed during discussion on the **regulatory templates**.
- (7) The **Commission** must issue a **connection capex information request** to **Chorus** related to the **connection capex baseline proposal** in accordance with information requirements set out in clause 3.7.15:
  - (a) for the **first regulatory period**, as soon as it is practicable; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, at least 22 months before the start of the **regulatory period**.

#### 3.7.15 Connection capex information request - information requirements

- (1) The **connection capex information request** may include information relating to any or all of the following areas:
  - (a) governance relating to proposed **capital expenditure**, including evidence that appropriate policies and processes have been applied;
  - (b) historic **capital expenditure** and consideration of historic rates of investment;
  - (c) approach to forecasting **capital expenditure**, including models used to develop the **capital expenditure** forecasts;
  - (d) procurement, resourcing, and deliverability of the proposed **capital expenditure**;
  - (e) relevant financial information including evidence of efficiency improvements in proposed **capital expenditure**;
  - (f) quantitative or economic analysis related to the proposed **capital expenditure**, including sensitivity analysis and impact analysis undertaken;
  - (g) **fibre asset** and **fibre network** information;
  - (h) competition effects, including specific information for **capital expenditure** that may have potential impacts on competition in **PQ FFLAS** and other telecommunications markets;
  - (i) the linkages between the proposed **capital expenditure** and quality, including the impact the **capital expenditure** would have on **PQ FFLAS** quality outcomes;

- (j) consideration and analysis of alternatives to the proposed **capital expenditure**, including the impact of the alternatives on **PQ FFLAS** quality outcomes;
- (k) the extent of consultation by **Chorus** with its **access seekers** and **end-users**, how input from consultation is incorporated into the forecast **capital expenditure** and what impact it has had on the **connection capex baseline proposal**;
- (l) forecast **variable connection costs** by proposed **connection type** and the related **connection capex unit costs**; and
- (m) any **non-linear connection costs** proposed as **connection capex** by proposed **connection type** and the related **non-linear connection cost functions** and **connection capex unit costs**.

#### 3.7.16 Connection capex baseline independent verification

- (1) For the **second regulatory period** and subsequent **regulatory periods**, the **connection capex baseline proposal** must be verified by an **independent verifier** approved by the **Commission**.
- (2) The intended independent verifier, scope and terms and conditions proposed by **Chorus** for the **independent verification report** must be submitted to the **Commission** for approval before the start of the verification process.
- (3) The verification information submitted to the **Commission** in accordance with subclause (2) must include enough information for the **Commission** to be satisfied that:
  - (a) the verifier is **independent** and capable of undertaking the verification; and
  - (b) the terms and conditions of engagement and the scope of the **independent verification report** will provide the appropriate assurance needed to assess the **connection capex baseline proposal**.
- (4) The **independent verification report** must be submitted with the **connection capex baseline proposal**.

#### 3.7.17 Other connection capex assurance: certification and audit

- (1) At least two **directors** of **Chorus** must provide **certification** in relation to the **connection capex baseline proposal**, in accordance with clause 3.7.3.
- (2) The **connection capex baseline proposal** must include a report by an **auditor** in accordance with clause 3.7.4.

#### 3.7.18 Connection capex annual report

- (1) **Chorus** must provide a **connection capex annual report** to the **Commission** for each **regulatory year** of a **regulatory period** no later than 3 months after the end of the relevant **regulatory year**.
- (2) The **connection capex annual report** must include the following **connection capex** information for the **regulatory year** which is the subject of the annual report:

- (a) actual **variable connection costs** by **connection type** and related **connection capex unit costs**;
  - (b) actual **non-linear connection costs** by **connection type** and the related **non-linear connection cost functions** and related **connection capex unit costs**;
  - (c) actual connection volumes by **connection type**;
  - (d) updated forecasts for the information in paragraphs (a)-(c) by **connection type** for any remaining **regulatory years** of the **regulatory period**.
- (3) The **connection capex annual report** must be accompanied by the required assurance, including the **certification** in accordance with clause 3.7.19(1) and an **auditor** report in accordance with clause 3.7.19(2).

#### 3.7.19 Connection capex annual report assurance processes

- (1) At least 2 **directors** of **Chorus** must provide a **certification** for the **connection capex annual report**.
- (2) The **connection capex annual report** must be audited in accordance with clause 3.7.4.

#### 3.7.20 Commission processes and timeframes for determining connection capex baseline allowance

- (1) After the **Commission** evaluates a **connection capex baseline proposal** in accordance with Subpart 8, the **Commission** must determine a **connection capex baseline allowance**:
  - (a) for the **first regulatory period**, no later than 3 months before the start of that **regulatory period**; and
  - (b) for the **second regulatory period** and subsequent **regulatory periods**, no later than 6 months before the start of that **regulatory period**.
- (2) For the purposes of subclause (1), the **connection capex baseline allowance** determination must include:
  - (a) the **connection capex baseline allowance** by **connection type** for each **regulatory year** of the **regulatory period**;
  - (b) the **connection capex unit costs** and any **non-linear connection cost functions**, used to calculate the **connection capex baseline allowance** for each **regulatory year** of the **regulatory period**; and
  - (c) the forecast volumes, by **connection type**, used to calculate the **connection capex baseline allowance** for each **regulatory year** of the **regulatory period**.

#### 3.7.21 The connection capex variable adjustment

- (1) A **connection capex variable adjustment** will be determined at the end of the **regulatory period** after the **Commission** receives the **connection capex annual report** for the last **regulatory year** of the **regulatory period**.

- (2) The **connection capex variable adjustment** will be the difference between:
- (a) the **connection capex baseline allowance** for the **regulatory period** which is based on forecast connection volumes; and
  - (b) subject to subclause (3), a **capital expenditure** amount that is the sum of:
    - (i) **connection capex unit costs** for **variable connection costs** multiplied by actual connection volumes by **connection type**; and
    - (ii) **connection capex unit costs** for **non-linear connection costs** applied to actual connection volumes by **connection type**, in accordance with the relevant **non-linear connection cost functions**.
- (3) For the purpose of subclause (2)(b), the **connection capex unit costs** and **non-linear connection cost functions** used when calculating the **capital expenditure** amount must be the same as those used in the **connection capex baseline allowance** for that **connection type** for each **regulatory year** of the **regulatory period**.

#### SECTION 4 Individual capex proposals

##### 3.7.22 Overview of individual capex proposal process and timeframes

- (1) **Chorus** may apply to the **Commission** to determine an additional **capex allowance** before or during a **regulatory period** by submitting an **individual capex proposal** in accordance with the staged application process specified in subclause (6).
- (2) An **individual capex proposal** must, in relation to a **regulatory period**, state any **individual capex** that **Chorus** considers should be included in the **individual capex allowance** for each **regulatory year** of that **regulatory period**.
- (3) The **individual capex proposal** must meet the following requirements:
- (a) the **proposed capex** must be additional to any **base capex allowance** and **connection capex baseline allowance** for the **regulatory years** of each **regulatory period** relevant to the **individual capex proposal**;
  - (b) the **proposed capex** must relate to one or more **base capex sub-categories** included in the **base capex proposal** for the first **regulatory period** relevant to the **individual capex proposal**;
  - (c) the proposed **individual capex** must relate to a **project** or **programme**, where the forecast **capital expenditure** for **PQ FFLAS** on that **project** or **programme** is at least \$5 million over the life of the **project** or **programme**; and
  - (d) the **proposed capex** has the characteristics specified in either or both subclause (4) or (5).
- (4) For the purposes of subclause (3)(d), at the time when the **base capex proposal** for the first **regulatory period** relevant to the **individual capex proposal** is submitted to the **Commission**, it is unreasonable to accurately forecast the **capital expenditure** for that **project** or **programme** due to the uncertainty in one or more of the following:

- (a) the need for the **project** or **programme**;
  - (b) the economic case justifying the **capital expenditure** for the **project** or **programme**; or
  - (c) the timing of the **project** or **programme**.
- (5) For the purposes of subclause (3)(d), the **Commission** is satisfied that the **capital expenditure** for the **project** or **programme** should be:
- (a) approved only for the **project** or **programme** to which the **proposed capex** relates; and
  - (b) reported separately from the **base capex** to assist the **Commission** in its evaluation of the **capital expenditure**.
- (6) Where **Chorus** intends to submit an **individual capex proposal** to the **Commission**, the following staged application process will occur:
- (a) a notification stage, where **Chorus** must notify the **Commission** of its intention to submit an **individual capex proposal** and provide an **individual capex design proposal** to the **Commission** for approval in accordance with clause 3.7.23; and
  - (b) if the **Commission** approves **Chorus's individual capex design proposal**, a final proposal stage, where **Chorus** must submit to the **Commission** an **individual capex proposal** in accordance with clause 3.7.25-3.7.27 that is consistent with the **individual capex design proposal**.

### 3.7.23 Notification stage - individual capex design proposal

- (1) **Chorus** must notify the **Commission** in writing that it intends to submit an **individual capex proposal** to the **Commission** and must include an **individual capex design proposal** with the notice.
- (2) The **individual capex design proposal** must include a description of:
- (a) key parameters of the **individual capex project** or **individual capex programme** that the proposed **capital expenditure** relates to in accordance with subclause (3);
  - (b) the proposed information to be provided to the **Commission** in the final **individual capex proposal** based on the **individual capex** information requirements in clause 3.7.26;
  - (c) the assurance processes to be undertaken, based on the **individual capex** requirements in clause 3.7.27; and
  - (d) the proposed timeframe for **Chorus** to submit the final proposal.
- (3) For the purposes of subclause (2)(a), the key parameters in the **individual capex design proposal** must include:
- (a) the need for investment and the timing of the **individual capex project** or **individual capex programme** and the extent of any related uncertainty;

- (b) the assumed technical parameters for the **individual capex project** or **individual capex programme**;
- (c) any relevant technology development plans;
- (d) identification of alternatives considered;
- (e) impact of the proposed **individual capex** on **PQ FFLAS** quality outcomes;
- (f) any impact of the proposed **individual capex** on previously determined or forecast **base capex** and **operating expenditure**;
- (g) the possible expected costs, benefits and risks associated with the **individual capex project** or **individual capex programme**;
- (h) any previous or planned consultation undertaken and the reasons that the consultation is commensurate with the scale and complexity of the proposed **capital expenditure** on the **individual capex project** or **individual capex programme**;
- (i) if **Chorus** considers the **capital expenditure** related to the proposed **individual capex project** or **individual capex programme** should be substitutable with other **capital expenditure** within the **base capex allowance**, sufficient information and reasons to assist the **Commission** in deciding whether a waiver is justified in accordance with clause 3.7.28(3); and
- (j) a proposal for independent verification that is commensurate with the size and complexity of the **individual capex proposal**, including:
  - (i) details of the intended independent verifier and enough information to demonstrate that verifier is **independent** and capable of undertaking the intended **independent verification report**;
  - (ii) the proposed terms and conditions of the verifier's engagement and the scope of the proposal for independent verification, including enough information to demonstrate the scope and terms of engagement for the intended **independent verification report** is appropriate for the size and complexity of the **individual capex project** or **individual capex programme**; and
  - (iii) if **Chorus** considers there is no need for an **independent verification report**, sufficient information and reasons to assist the **Commission** in deciding whether a waiver is justified in accordance with clause 3.7.24(2).

#### 3.7.24 Commission approval of the individual capex design proposal

- (1) Within one month of the **Commission** receiving the **individual capex design proposal** from **Chorus**, the **Commission** must do one of the following:
  - (a) approve the **individual capex design proposal**;
  - (b) approve the **individual capex design proposal** with conditions; or

- (c) decline the **individual capex design proposal**.
- (2) Subject to subclause (3), the **Commission** may approve the **individual capex design proposal** and waive the requirement for an **independent verification report**, if satisfied that the information and reasons provided in the **individual capex design proposal** in accordance with clause 3.7.23(3)(j)(iii) justifies the waiver.
- (3) For the purposes of subclause (2), when considering the waiver, the **Commission** will have regard to:
  - (a) the size and complexity of the proposed **capital expenditure** and related **project** or **programme**; and
  - (b) the extent to which an **independent verification report** might assist the **Commission** in its determination of the **individual capex allowance**.
- (4) If the **individual capex design proposal** is not approved, or approved with conditions not acceptable to **Chorus**, **Chorus** may resubmit a revised **individual capex design proposal** at a later date.

#### 3.7.25 The final individual capex proposal

- (1) Where the **Commission** approves or approves with conditions an **individual capex design proposal** in whole or in part, **Chorus** must provide an **individual capex proposal** in accordance with the **approved timeframes** specified in the approved **individual capex design proposal**.
- (2) The **individual capex proposal** must be consistent with the key parameters, information requirements, assurance processes and any conditions approved by the **Commission** in relation to the **individual capex design proposal**.

#### 3.7.26 Individual capex information requirements

- (1) The **Commission** may require additional information in relation to the **individual capex design proposal** and **individual capex proposal** including information relating to the following:
  - (a) governance relating to proposed **capital expenditure**, including evidence that appropriate policies and processes have been applied;
  - (b) historic **capital expenditure** and consideration of historic rates of investment;
  - (c) approach to forecasting **capital expenditure**, including models used to develop the **capital expenditure** forecasts;
  - (d) relevant financial information including evidence of efficiency improvements in proposed **capital expenditure**;
  - (e) quantitative or economic analysis undertaken to justify the **individual capex project** or **individual capex programme**;
  - (f) the linkages between the proposed **capex expenditure** and quality, including the impact the **capital expenditure** would have on **PQ FFLAS**

- quality outcomes and forecast **PQ FFLAS** quality outcomes and where applicable an assessment of the updated forecast **PQ FFLAS** quality outcomes against the quality standards within the **PQ determination**;
- (g) consideration and analysis of alternatives to the proposed **capital expenditure**, including the impact of the alternatives on **PQ FFLAS** quality outcomes;
  - (h) competition effects, including specific information for the **individual capex project** or **individual capex programme**, that may have potential impacts on competition in **PQ FFLAS** and other telecommunications markets;
  - (i) the extent of the uncertainty related to the proposed **individual capex project** or **individual capex programme**;
  - (j) the impact that the proposed **capital expenditure** has on a **layer 1 service** in respect of **PQ FFLAS**;
  - (k) common costs and benefits between **PQ FFLAS**, **ID-only FFLAS** and **services that are not regulated FFLAS**;
  - (l) any technical information and standards relied upon in the development of the **capital expenditure proposal**;
  - (m) the extent of consultation by **Chorus** on the **individual capex project** or **individual capex programme**, how input from consultation is incorporated into the forecast **capital expenditure** and what impact it has had on the **individual capex proposal**;
  - (n) procurement, resourcing, and deliverability of the proposed **capital expenditure**;
  - (o) the impact the **capital expenditure** would have on any previously determined **base capex allowance** and **operating expenditure** or forecast **base capex allowance** and forecast **operating expenditure**; and
  - (p) any expert reports or advice that contributed to the **individual capex proposal**.

### 3.7.27 Individual capex assurance requirements

- (1) Subject to clause 3.7.24(2), the **individual capex proposal** must be verified by an **independent verifier** identified in the **individual capex design proposal** and approved by the **Commission** in accordance with clause 3.7.24(1)(a) or (b).
- (2) If an **independent verification report** is required, the scope and the terms and conditions of the report must be consistent with the approved **individual capex design proposal**.
- (3) The verification information submitted to the **Commission** in accordance with subclause (2) must include enough information for the **Commission** to be satisfied that:

- (a) the verifier is **independent** and capable of undertaking the verification; and
  - (b) the terms and conditions of engagement and the scope of the **independent verification report** will provide the appropriate assurance needed to assess the **individual capex proposal**.
- (4) An **individual capex proposal** must be certified by the **CEO** of **Chorus** in accordance with clause 3.7.3.
- (5) An **individual capex proposal** must be audited in accordance with clause 3.7.4 and must include a statement from the **auditor**:
- (a) that the **individual capex proposal** complies, in all material respects, with the information requirements, key parameters and conditions in the approved **individual capex design proposal**; and
  - (b) on whether the proposed **individual capex** is additional to and not a substitute for the determined **base capex allowance**.

### 3.7.28 Commission processes for final individual capex proposal

- (1) The **Commission** must evaluate the final **individual capex proposal** in accordance with Subpart 8 and do one of the following:
- (a) determine the **individual capex allowance**;
  - (b) determine the **individual capex allowance**, with conditions; or
  - (c) decline the **individual capex proposal**.
- (2) If the **Commission** determines an **individual capex allowance**, the determination must include:
- (a) the **individual capex allowance** for that **regulatory period** and any subsequent **regulatory periods**;
  - (b) any reporting requirements; and
  - (c) any other conditions of the **Commission's** determination of that **individual capex allowance**.
- (2) Subject to subclause (4), an **individual capex allowance** determined by the **Commission** must be restricted to the **project** or **programme** to which that **individual capex allowance** relates.
- (3) Subject to subclause (5), the **Commission** may waive the requirement that the **individual capex allowance** must be restricted to the **project** or **programme** to which that **individual capex allowance** relates, if satisfied that the information and reasons provided in the **individual capex proposal** justifies the waiver.
- (4) For the purposes of subclause (4), when considering the waiver, the **Commission** must have regard to at least the following matters:
- (a) the size and complexity of the **proposed capex** and related **project** or **programme**; and
  - (b) whether **proposed capex** for the **project** or **programme** should be:

- (i) approved only for the **project** or **programme** to which the **proposed capex** relates; and
- (ii) reported separately from **base capex** to assist the **Commission** in its evaluation of the **proposed capex**.

## SUBPART 8 **Capital expenditure evaluation by the Commission**

### SECTION 1 **General rules for Commission determination processes**

#### 3.8.1 Commission determination of capex proposals

- (1) After receiving a **capex proposal**, the **Commission** must determine the **capex allowance** in relation to each **capex proposal** in accordance with the general evaluation criteria in section 1 of Subpart 7 and any specific requirements set out for each category of **capex proposal** in sections 2, 3 and 4 of Subpart 7.
- (2) A determined **capex allowance** must be net of **capital contributions**.
- (3) For the purpose of subclause (1), as appropriate, the **Commission** may consider further information provided to it when determining the **capex allowance** for that **capex proposal**.

#### 3.8.2 Consequences of evaluation and other process timeframes not being met by Commission

- (1) None of the **Commission's** functions or decisions described in this determination are invalidated on account of the **Commission's** failure to meet any timeframes applying to the **Commission** specified in this determination.
- (2) Notwithstanding subclause (1), the **Commission** will, as soon as practicable after it believes that a timeframe applying to the **Commission** is not likely to be met or has not been adhered to, notify **Chorus** and, where relevant, interested persons, of the new timeframe that applies.

#### 3.8.3 Publication of determinations

- (1) The **Commission** will publish all determinations that it is required to make under section 2-4 of Subpart 7:
  - (a) on the **Commission's** website; and
  - (b) no later than 1 month after having made them.

#### 3.8.4 Commission consultation

- (1) After receiving a **base capex proposal** or a **connection capex baseline proposal**, the **Commission** must, for each **capex proposal**:
  - (a) if deemed necessary by the **Commission**, seek the views of any person the **Commission** considers has expertise on a relevant matter;

- (b) publish the relevant **capex proposal**, subject to withholding any information the **Commission** considers commercially sensitive or otherwise confidential;
  - (c) make and publish a draft determination or determinations; and
  - (d) consult with interested persons.
- (2) Subject to subclause (3), after receiving an **individual capex proposal**, the **Commission** may take any of the actions referred to in subclauses (1)(a)-(d).
- (3) When determining whether to consult under subclause (2), the **Commission** must have regard to at least the following matters:
- (a) the size and complexity of the **proposed capex** and related **project** or **programme**;
  - (b) any consultation already undertaken by **Chorus** related to the **capital expenditure** (for example, when consulting on the **base capex proposal**);
  - (c) the extent to which the consultation might assist the **Commission** when determining the **individual capex allowance**;
  - (d) the commercial sensitivity of the proposed **project** or **programme** and whether consultation might adversely impact competition; and
  - (e) the impact of the **capital expenditure** on **PQ FFLAS** quality outcomes for **access seekers** and **end-users**.
- (4) Where the **Commission** takes any of the actions referred to in subclauses (1)(a)-(d) or (2), the **Commission** may do so in accordance with such timeframes and processes as it considers appropriate.

## **SECTION 2 Evaluation criteria – expenditure objective and assessment factors**

### **3.8.5 Commission evaluation**

- (1) The **Commission** must evaluate a **capex proposal** by:
- (a) considering whether the **proposed capex** meets the **capital expenditure objective** and reflects **good telecommunications industry practice**; and
  - (b) having regard to the **assessment factors** in clause 3.8.6 when considering whether a **capex proposal** has met the **capital expenditure objective**.
- (2) A **capex proposal** or proposed **capital expenditure** meets the ‘capital expenditure objective’ if the expenditure reflects the efficient costs that a prudent **fibre network operator** would incur to deliver **PQ FFLAS** of appropriate quality, during the relevant **regulatory period** and over the longer term.

### **3.8.6 Assessment factors**

- (1) The **Commission** must have regard to as many of the following ‘assessment factors’ as are relevant when evaluating a **capex proposal**:
- (a) whether the **proposed capex** complies with all applicable legal and regulatory obligations associated with the provision of **PQ FFLAS**;

- (b) governance relating to **proposed capex**, including evidence that appropriate policies and processes have been applied;
- (c) historic **capital expenditure** and consideration of historic rates of investment;
- (d) quantitative or economic analysis related to the **proposed capex**, including sensitivity analysis and impact analysis undertaken;
- (e) approach to forecasting **capital expenditure**, including models used to develop the **capital expenditure** forecasts;
- (f) relevant financial information including evidence of efficiency improvements in **proposed capex**;
- (g) competition effects, including specific information for sub-categories of **capital expenditure** that have potential impacts on competition in **PQ FFLAS** and other telecommunications markets;
- (h) the linkages between the **proposed capex** and quality, including the impact the **capital expenditure** would have on **PQ FFLAS** quality outcomes;
- (i) consideration and analysis of alternatives to the **proposed capex**, including the impact of the alternatives on **PQ FFLAS** quality outcomes;
- (j) the extent and effectiveness of consultation and engagement with stakeholders and the extent that feedback received has been incorporated into the **capex proposal**;
- (k) procurement, resourcing, and deliverability of the **proposed capex**;
- (l) common costs and benefits between **PQ FFLAS, ID-only FFLAS** and **services that are not regulated FFLAS**;
- (m) **fibre asset** and **fibre network** information;
- (n) mechanisms for controlling actual **capital expenditure** with respect to the **proposed capex** and achieving the **PQ FFLAS** quality outcomes;
- (o) the extent of the uncertainty related to the:
  - (i) need for the **proposed capex**;
  - (ii) economic case justifying the **proposed capex**; and
  - (iii) timing of the **proposed capex**;
- (p) the extent that a risk-based approach has been applied;
- (q) the impact that the **proposed capex** has on a **layer 1 service** in respect of **PQ FFLAS**;
- (r) the dependency and trade-off between the **proposed capex** and related **operating expenditure** to ensure least whole-of-life cost for managing assets and cost-efficient solutions;
- (s) the accuracy and reliability of data; and

- (t) the reasonableness of the key assumptions, methodologies, planning and technical standards relied upon.

## SUBPART 9 **Reconsideration of a price-quality path**

### SECTION 1 **When Commission can reconsider and amend PQ determination**

#### 3.9.1 When a price-quality path may be reconsidered and amended

- (1) The **Commission** may reconsider and amend a **regulated provider's PQ determination** if the **Commission** is satisfied that-
  - (a) a **reopener event** has occurred under clause 3.9.2(5);
  - (b) the **PQ determination** should be amended, after having regard to at least the matters under clause 3.9.8(1); and
  - (c) the proposed amendment to the **PQ determination** would be consistent with the applicable requirements of clause 3.9.9 and s 166(2) of the **Act**.
- (2) A 'reopener event' is an event, or a series of related events, specified in subclause (3), that occurs within six months before or during the **regulatory period** of the **PQ determination** that may be reconsidered.
- (3) For the purpose of subclause (2), the following events are an 'event':
  - (a) a **catastrophic event**;
  - (b) a **change event**;
  - (c) a **GAAP change**;
  - (d) an **error event**; and
  - (e) a **major transaction**.

#### 3.9.2 Procedural requirements for the reconsideration process

- (1) A **reopener event** can be nominated by:
  - (a) the **Commission**; or
  - (b) a **regulated provider**, by notifying the **Commission**.
- (2) A **regulated provider** that nominates a **reopener event** and requests that the **Commission** reconsider and amend the **PQ determination** must provide enough information to the **Commission** to enable it to assess:
  - (a) whether a **reopener event** has occurred;
  - (b) having regard to relevant matters under clause 3.9.8(1), whether and how the **PQ determination** should be amended; and
  - (c) whether the proposed amendment to the **PQ determination** is consistent with the applicable requirements of clause 3.9.9 and the **Act**.
- (3) The **Commission** must publish notice on its website as soon as practicable after:
  - (a) a **reopener event** is nominated in accordance with subclause (1)(b); and

- (b) the **Commission** decides whether:
  - (i) it is satisfied a **reopener event** has occurred;
  - (ii) to reconsider the **PQ determination**; and
  - (iii) to amend the relevant **PQ determination**.
- (4) The **Commission** may publish one or more of the notices under subclause (3)(b) separately or in combination with each other as it considers appropriate.
- (5) If a **regulated provider** or the **Commission** nominates a **reopener event**, the **Commission** must decide whether it is satisfied that a **reopener event** has occurred.

## SECTION 2 Events that may be reopener events

### 3.9.3 Catastrophic event

- (1) 'Catastrophic event' means an event, or the credible threat of an event, that:
  - (a) is beyond the reasonable control of the **regulated provider** affected or likely to be affected by the event or the credible threat of an event;
  - (b) the **regulated provider** could not reasonably have foreseen when the **base capex proposal** and **connection capex baseline proposal** were made for the **regulatory period**; and
  - (c) does at least one of the following:
    - (i) imposes a cost on the **regulated provider** (whether **capital expenditure** or **operating costs**) for responding to, mitigating, or preventing the adverse consequences of the event or credible threat of the event on **core fibre assets** or **allowable revenues** that, net of any insurance or compensatory entitlements, is at least 1% of the **allowable revenues** for the first **regulatory year** of the **PQ determination**; or
    - (ii) results in a **regulated provider** failing to meet its quality standards under the **PQ determination**.

*Examples of an event that, provided it meets the above requirements, is a catastrophic event:*

- *an act of God, fire, earthquake, tsunami, storm, cyclone, or flood;*
- *an explosion or collision; or*
- *a civil disturbance, insurrection, epidemic, pandemic, national emergency (whether in fact or law), cyber security incident, act of war (whether declared or not), or an act of terrorism.*

### 3.9.4 Change event

- (1) 'Change event' means an event that:
  - (a) is a change in a regulatory requirement that applies to a **regulated provider** arising from-

- (i) new or amended legislation; or
  - (ii) judicial clarification of the interpretation of legislation; and
- (b) has at least one of the following effects:
- (i) increases the costs (whether **capital expenditure** or **operating costs**) the **regulated provider** needs to incur in providing **PQ FFLAS** by at least 1% of the **allowable revenues** for the first **regulatory year** of the **PQ determination**;
  - (ii) reduces the costs the **regulated provider** needs to incur in providing **PQ FFLAS** by at least 1% of the **allowable revenues** for the first **regulatory year** of the **PQ determination**; or
  - (iii) results in a **regulated provider** failing to meet its quality standards under the **PQ determination**.

### 3.9.5 GAAP change

- (1) 'GAAP change' means an event that amounts to a change-
- (a) in a requirement that applies to a **regulated provider** under **GAAP** and results in a change in the recognition or measurement (including timing) of:
    - (i) **operating expenditure**;
    - (ii) **capital expenditure**;
    - (iii) **fibre assets**;
    - (iv) liabilities; or
    - (v) **total FFLAS revenue**; and
  - (b) that, if the change was in effect at the time the price path was determined, the aggregate amount of the **allowable revenues** for all **regulatory years** of the **PQ determination** would have differed by at least 1% as a result of a difference in the forecast amounts or values relied on in setting the price path.

### 3.9.6 Error event

- (1) Subject to subclause (2), 'error event' means, a circumstance in which the **PQ determination** was made or amended based on an error, including where:
- (a) incorrect, false, or misleading information was used in setting the price path or a quality standard; or
  - (b) information was incorrectly used in setting the price path or a quality standard.
- (2) For the purposes of subclause (1):

- (a) an error relating to a quality standard specified in the **PQ determination** will not constitute an **error event** unless it is an error in the value of a quality standard, including any value used to prescribe a target, band or formula; and
- (b) a discrepancy between forecast values and actual values will not constitute an error event.

### 3.9.7 Major transaction

- (1) 'Major transaction' means a transaction, whether contingent or not, that has or is likely to result in:
  - (a) the **regulated provider** acquiring or agreeing to acquire, a **fibre asset** with a value of more than 10% of the sum of that **regulated provider's opening RAB values** in the **PQ RAB** in the **disclosure year** of acquisition;
  - (b) the **regulated provider** disposing of, or agreeing to dispose of, a **fibre asset** of a **regulated provider** with a value of more than 10% of the sum of that **regulated provider's opening RAB values** in the **PQ RAB** in the **disclosure year** of disposal;
  - (c) a **regulated provider** acquiring rights or interests in a **fibre asset** with a value of more than 10% of the sum of that **regulated provider's opening RAB values** in the **PQ RAB** in the **disclosure year** of acquisition; or
  - (d) a **regulated provider** incurring obligations or liabilities related to a **fibre asset**, excluding loans or borrowing costs in respect of the **fibre asset**, with a value of more than 10% of the sum of that **regulated provider's opening RAB values** in the **PQ RAB** in the **disclosure year** of incurring the obligation or liabilities.
- (2) For the purpose of subclause (1), a transaction includes an amalgamation under Part 13 of the Companies Act 1993.

## SECTION 3 Commission consideration of whether and how to amend PQ determination

### 3.9.8 Commission consideration of whether to amend the price-quality path

- (1) If the **Commission** is satisfied under clause 3.9.2(5) that a **reopener event** has occurred, then the **Commission** must have regard to at least the following matters when deciding whether to amend the relevant **PQ determination**:
  - (a) the impact of the **reopener event** given the relevant circumstances, including both positive and negative effects, on the **regulated provider's** costs, revenues, and **PQ FFLAS** quality outcomes;
  - (b) the extent to which the relevant **PQ determination** provides explicitly or implicitly for the **reopener event**; and
  - (c) if a **regulated provider** nominates a **reopener event** under clause 3.9.2(1)(b):

- (i) whether the action required to respond to the **reopener event's** adverse consequences can be delayed until a future **regulatory period** without the relevant **regulated provider** failing to meet its quality standards under the relevant **PQ determination** or its other legal or regulatory obligations;
- (ii) the extent to which the **regulated provider**:
  - (A) contributed to the adverse consequences of the **reopener event** by its action or omission; and
  - (B) could have prevented or overcome the adverse consequences of the **reopener event** by exercising reasonable diligence at reasonable cost; and
- (iii) whether the **regulated provider's** planned **capital expenditure** and **operating expenditure** for the remainder of the **regulatory period** has been reviewed and reprioritised to the extent possible without adversely affecting the **regulated provider's** ability to meet the quality standards under the relevant **PQ determination**.

### 3.9.9 Amending the price-quality path after consideration

- (1) Subject to subclause (2), if the **Commission** decides that the **PQ determination** should be amended, the **Commission** may amend the price path and the quality standards to take account of part or all of the net effects of the **reopener event** on costs, revenues, and **PQ FFLAS** quality outcomes.
- (2) When amending the **PQ determination** under subclause (1), the **Commission** must not amend-
  - (a) the price path more than is reasonably necessary to:
    - (i) take account of the change in costs, net of any insurance or compensatory entitlements, resulting from the relevant **reopener event**; and
    - (ii) address the relevant differences in values that contribute to the price path resulting from the relevant **reopener event**; and
  - (b) quality standards more than is reasonably necessary to address the effect of the relevant **reopener event**.
- (3) If the **Commission** considers that **capital expenditure** may be required to respond to, mitigate, or prevent adverse consequences relating to the **reopener event**, the **Commission**:
  - (a) if a **regulated provider** nominates a **reopener event** under clause 3.9.2(1)(b), must evaluate whether the proposed **capital expenditure** meets the **capital expenditure objective** and reflects **good**

**telecommunications industry practice** in accordance with clause 3.8.5(1)(a) of Subpart 8 as if the proposed **capital expenditure** was a **capex proposal**; and

- (b) may apply any other requirements in Subparts 7 and 8 that the **Commission** considers should be applied to the proposed **capital expenditure**.

## SCHEDULE A      **MINIMUM LEVELS OF SPECIFICITY TO DESCRIBE ASSETS IN RAB**

**Table A.1: Minimum levels of specificity to describe assets in RAB**

Category of asset	Minimum levels of specificity to describe assets
Network layer	Whether a <b>core fibre asset</b> or collection of <b>core fibre assets</b> corresponds to a <b>layer 1 service</b> or <b>layer 2 service</b>
Asset class	To reflect <b>GAAP</b> depreciation categories
Geographic location	<p>Location, as recorded in the <b>regulated provider's</b> asset management or geographical information systems, that allows identification of the physical location or the geographic area in which the <b>fibre asset</b> is installed</p> <p><i>Example: the location of <b>fibre assets</b>, such as cables, that naturally span a large physical area, must be identifiable to a level of detail that would allow the general location of the <b>fibre asset</b> to be identified.</i></p>
Shared with other parties	<p>Information that is sufficient to permit an objectively justifiable and demonstrably reasonable assessment of the:</p> <ul style="list-style-type: none"> <li>(a) factors influencing the use of the <b>fibre asset</b> by the <b>regulated provider</b>, another <b>regulated provider</b>, a <b>Part 4 regulated supplier</b> or non-regulated party (who shall be treated as one group for the purposes of identifying such factors); or</li> <li>(b) the circumstances when a cost driver leads to an <b>operating cost</b> being incurred in respect of the use of the <b>fibre asset</b> by the <b>regulated provider</b>, the <b>regulated provider</b>, another <b>regulated provider</b>, a <b>Part 4 regulated supplier</b> or non-regulated party (who shall be treated as one group for the purposes of identifying such factors),</li> </ul> <p>where-</p> <p>information must be kept current, such that any <b>asset allocators</b>, <b>cost allocators</b>, <b>proxy asset allocators</b> or</p>

	<p><b>proxy cost allocators</b> that rely on it can be reviewed and, where relevant, updated at least once every 12 months; and</p> <p>any <b>fibre asset</b> shared with another <b>regulated provider</b>, <b>Part 4 regulated supplier</b> or any non-regulated party is a <b>right-of-use asset</b>, the information held for <b>GAAP</b> purposes on that <b>right-of-use asset</b> provides sufficient specificity</p>
<p>Shared with <b>services that are not regulated FFLAS</b> or <b>FFLAS</b> not regulated under Part 6 of the <b>Act</b></p>	<p>Information that is sufficient to permit an objectively justifiable and demonstrably reasonable assessment of the:</p> <ul style="list-style-type: none"> <li>(a) factors influencing the use of the <b>core fibre asset</b>; or</li> <li>(b) the circumstances when a cost driver leads to an <b>operating cost</b> being incurred, where</li> </ul> <p>information must be kept current, such that any <b>asset allocators</b>, <b>cost allocators</b>, <b>proxy asset allocators</b> or <b>proxy cost allocators</b> that rely on it can be reviewed and, where relevant, updated at least once every 12 months</p>
<p>Related to <b>additional RABs</b></p>	<p>Information that is sufficient to permit an objectively justifiable and demonstrably reasonable assessment of any of the following <b>fibre assets</b> specified by the <b>Commission</b>:</p> <ul style="list-style-type: none"> <li>(a) <b>fibre assets</b> in any <b>additional RAB</b>;</li> <li>(b) a subset of <b>fibre assets</b> relating to any <b>additional RAB</b>, where the <b>Commission</b> may from time to time specify subsets of <b>core fibre assets</b> for the purposes of Part 6 of the <b>Act</b>; or</li> <li>(c) <b>fibre assets</b> that were not part of the <b>UFB initiative</b></li> </ul>

**SCHEDULE B      METHODOLOGY FOR DETERMINING THE FINANCIAL  
LOSSES**

[XX]
