Dear Jo

CIAL CROSS SUBMISSION ON PROCESS, TIMING AND CHANGES TO PROPOSED SECTION 53B PROCESS

CIAL has read the New Zealand Airports Association (NZAA) cross submission on the process and issues paper that was released as part of the review of CIAL's and AIAL's Third Price Setting Events and supports that cross submission.

In particular, CIAL supports NZAA's opposition to the Air New Zealand, Qantas and BARNZ submission that the scope and extent of the review should be significantly expanded and a timeframe extended. We would encourage the Commission to retain the originally proposed scope and timeframe for its review, for the reasons outlined in the NZAA submission.

Should you wish to discuss any aspects of this submission or any other aspects in relation to the review, please do not hesitate to contact me.

Yours sincerely

Michael Singleton
