Pursuant to Part 4 of the Commerce Act 1986 the Commerce Commission makes the following determination:

PART 1 GENERAL PROVISIONS

1.1.1 Title

This determination is the Gas Transmission Services Input Methodologies Determination 2012.

1.1.2 Application

- (1) The **input methodologies** in this determination apply to **gas transmission services**.
- (2) The **input methodologies** relating to cost allocation in Part 2 Subpart 1, Part 5 Subpart 3 Section 2 and Part 5 Subpart 5 Section 3 also apply to any **other regulated service supplied** by a **GTB**, as provided by the provision in question.
- (3) The input methodologies in-
 - (a) Part 2 apply in relation to information disclosure regulation under Subpart 4;
 - (b) Part 3 apply to default/customised price-quality regulation under Subpart 6;
 - (c) Part 4 apply in relation to default price-quality paths under sections 530 and 53P of Subpart 6; and
 - (d) Part 5 apply in relation to customised price-quality paths under sections 53Q to 53ZA of Subpart 6,

of Part 4 of the Act.

1.1.3 <u>Commencement</u>

This determination comes into force on the day after the date on which notice of it is given in the New Zealand Gazette under s 52W of the **Act**.

1.1.4 Interpretation

- (1) In this determination-
 - (a) unless otherwise stated, references to-
 - (i) 'Sections' are to sections within the same subpart; and
 - (ii) 'Subparts' are to subparts within the same part,

in which the reference is made;

- (b) unless stated otherwise, references to Parts, Subparts and Sections are to named and numbered parts, subparts and sections of the determination;
- (c) unless the context otherwise requires, a word which denotes the singular also denotes the plural and vice versa; and
- (d) unless stated otherwise, any reference to an allowance, amount, cost, sum or value is a reference to an allowance, amount, cost, sum or value calculated in relation to a GTB in respect of a disclosure year.
- (2) In this determination, including in the schedules, the words or phrases in bold type bear the following meanings:

75th percentile estimate of WACC means, estimate, made in accordance with, for the purpose of-

- (a) Part 2, clause 2.4.7(3)(b)(i), of the 75th percentile for the post-tax **mid-point** estimate of WACC;
- (b) Part 4, clause 4.4.7(2), of the 75th percentile for the **mid-point estimate of WACC**; and
- (c) Part 5, clause 5.3.24, of the 75th percentile for the **mid-point estimate of WACC**;

2009 disclosed assets means, in relation to-

- (a) Maui Development Limited, assets relating to the calculation of the 'Accounting Return on Total Assets' measured in the 2009 disclosure financial statements; and
- (b) any other **GTB**, assets included by the **GTB** in question in the 'Non-Current Assets' category in the **2009 disclosure financial statements**;

2009 disclosure financial statements means, the financial statements disclosed by the **GTB** in question in accordance with the Gas (Information Disclosure) Regulations 1997 for the **disclosure year** 2009;

Α

ABAA means accounting-based allocation approach, as described in, in the case of-

- (a) **operating costs**, clause 2.1.3(1); and
- (b) regulated service asset values, clause 2.1.3(2);

ACAM means avoidable cost allocation methodology, as described in clause 2.1.4;

Act means the Commerce Act 1986;

actual controllable opex means the amount of **operating expenditure** made by the **GTB** in the categories to which **allowed controllable opex** relates;

additional assets means assets of a **GTB** which are not **existing assets** and are forecast to be **commissioned**;

adjusted tax value has the same meaning as in the tax depreciation rules;

adjustment process has the meaning specified in clause 2.2.1(1);

aggregate closing RAB value for additional assets means the amount determined in accordance with clause 4.2.1(5);

aggregate closing RAB value for existing assets means the amount determined in accordance with clause 4.2.1(3);

aggregate opening RAB value for additional assets means the amount determined in accordance with clause 4.2.1(4);

aggregate opening RAB value for existing assets means the amount determined in accordance with clause 4.2.1(2);

allocation methodology type means one of ACAM, ABAA or OVABAA;

allocator metric means the value in units (e.g., number of employees or kilometres of pipeline) for each **cost allocator** or **asset allocator** used to calculate the proportion of **operating costs** or **regulated service asset values** to be allocated to each of-

- (a) gas transmission services,
- (b) where applicable, each other regulated service; and
- (c) where applicable, each unregulated service;

allocator type means the basis for the attribution or allocation of an **operating cost** or **regulated service asset value** to **gas transmission services** and **other regulated services**, *viz.* 'directly attributable', 'causal' or 'proxy';

allowable notional revenue has the meaning specified in clause 3.1.1(4);

allowable revenue before tax means allowable revenue before tax as determined by the **Commission**;

allowed controllable opex means the allowance (which is reasonable in light of the **expenditure objective**) specified in a **CPP determination** for **operating expenditure** in categories specified as controllable;

amalgamate means amalgamate in accordance with Part 13 of the Companies Act 1993 and **amalgamation** is to be construed accordingly;

arm's-length deduction means in respect of-

- (a) operating costs not directly attributable, an amount of operating costs incurred by a GTB in the supply of unregulated services that have been recouped in an arm's-length transaction; and
- (b) regulated service asset values not directly attributable, the amount of regulated service asset values in respect of assets used by a GTB in the supply of unregulated services for which a recoupment of capital costs has been made by the GTB in an arm's-length transaction,

in respect of which the **GTB** wishes account to be taken for cost allocation purposes; **arm's-length transaction** means a dealing or transaction that does not -

- (a) include terms that parties in their respective positions would usually omit; and
- (b) omit terms that parties in their respective positions would usually include, if the parties were-
- (c) connected or related only by the dealing or transaction in question;
- (d) acting independently; and
- (e) each acting in its own best interests;

assessment period means the period between the end of the most recent **disclosure year** prior to submission of the **CPP application** in question and the **GTB's** anticipated commencement date of the **CPP**, assuming that-

- (a) the **CPP application** is neither discontinued in accordance with s 53S of the **Act** nor deferred in accordance with s 53Z of the **Act**; and
- (b) reasonable time is allotted for the **Commission** to undertake its assessment of the **CPP application** in accordance with ss 53S, 53T and 53U of the **Act**;

asset adjustment process has the meaning specified in clause 2.2.1;

asset allocator means a proportion of a quantifiable measure used to allocate **regulated service asset values** that are not **directly attributable** and whose quantum is-

- (a) based on a causal relationship; or
- (b) equal to a proxy asset allocator;

asset category has the meaning specified in Schedule D;

asset life means a finite period in respect of an asset, being-

- (a) its physical asset life; or
- (b) where an alternative asset life to the **physical asset life** is sought for the purpose of a **CPP** pursuant to clause 5.5.10(2)(b), the alternative asset life determined pursuant to clause 5.3.8;

auditor means-

- (a) where the **GTB** is a public entity (as defined in s 4 of the Public Audit Act 2001), the Auditor-General; or
- (b) in all other cases, a person who-
 - (i) is qualified for appointment as auditor of a company under the Companies Act 1993;
 - (ii) is **independent**; and

where the GTB is a CPP applicant-

- (iii) is not a **verifier** of the **GTB's CPP proposal**;
- (iv) has not assisted with the compilation of the information in that proposal;
- (v) has not provided opinions or advice (other than in relation to audit reports) on the methodologies or processes used or to be used in compiling the information in the proposal; and
- (vi) is neither professionally associated with nor directed by any **person** who has provided such assistance, opinions or advice;

В

base year means the disclosure year selected by the Commission;

building blocks allowable revenue after tax means the amount determined in accordance with clause 5.3.3;

building blocks allowable revenue before tax means the amount determined in accordance with clause 5.3.2;

business has the same meaning as defined in s 2 of the Act;

business day means any day on which statistics relating to trading in New Zealand government bonds are published by a financial information service such as Bloomberg or Reuters;

C

capex means capital expenditure;

capex forecast means the part of the **CPP proposal**, provided pursuant to clause 5.5.24, that forecasts **capex** for the **next period**;

capital contributions means, for the purpose of-

- (a) Part 2, money or the monetary value of other consideration charged to or received from consumers or other parties for the purposes of asset construction or enhancement;
- (b) Part 4, money or the monetary value of other consideration to be charged to or received from **consumers** or other parties for the purposes of asset construction or enhancement; and
- (c) Part 5, money or the monetary value of other consideration forecast to be charged to or received from consumers or other parties for the purposes of asset construction or enhancement;

capital costs means either or both the return on or return of regulated service asset values;

capital expenditure means costs, for the purposes of-

- (a) Part 2-
 - (i) incurred in the acquisition or development of an asset that is, or is intended to be, **commissioned**; and
 - (ii) that are or are intended to be included in the value of commissioned asset;
- (b) Part 4-
 - (i) forecast to be incurred in the acquisition or development of an additional asset; and
 - (ii) that are included in the **forecast aggregate value of commissioned asset**, but only to the extent that the costs are forecast to be included in an **aggregate closing RAB value for additional assets**; and
- (c) Part 5-

- (i) incurred or forecast to be incurred in the acquisition or development of an asset that is, or is intended to be, **commissioned**; and
- (ii) that are included or are intended to be included in the value of commissioned asset or forecast value of commissioned asset, as the case may be, but only to the extent that the costs are included or are intended to be included in a closing RAB value;

catastrophic event has the meaning specified in clause 5.7.1;

causal relationship means, in relation to-

- (a) **operating costs**, a circumstance in which a cost driver leads to an **operating cost** being incurred during the 18 month period terminating on the last day of the **disclosure year** in respect of which the cost allocation is carried out; and
- (b) regulated service asset values, a circumstance in which a factor influences the utilisation of an asset during the 18 month period terminating on the last day of the disclosure year in respect of which the asset allocation is carried out;

change event has the meaning specified in clause 5.7.2;

closing RAB value means the value determined in accordance with, for the purpose of-

- (c) Part 2, clause 2.2.4(4); and
- (d) Part 5, clause 5.3.6(3);

closing tax losses means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.3.2(4);
- (b) Part 4, clause 4.3.2(3)(b); and
- (c) Part 5, clause 5.3.14(5);

closing works under construction means the amount determined in accordance with clause 5.3.12(3);

Commission has the same meaning as defined in s 2 of the Act;

commissioned means used by a **GTB** to provide **gas transmission services** and **commission** shall be construed accordingly;

commissioning date means the date that an asset is or is forecast to be first **commissioned**, as the case may be;

committed means, in respect of a **project** or **programme**, one that has received all approvals internal and external to the **GTB** that are required in order for work on the **project** or **programme** to commence;

consumer has the same meaning as defined in s 2(1) of the Gas Act 1992;

contingent project has the meaning specified in clause 5.7.3(1);

corporate tax rate means the rate of income taxation applying to companies as specified in the **tax rules**;

cost of executing an interest rate swap has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.4.9(3); and
- (b) Part 5, clause 5.3.26(3);

cost allocator means a proportion of a quantifiable measure used to allocate **operating costs** that are not **directly attributable**, and whose quantum is-

- (a) based on a causal relationship; or
- (b) equal to a proxy cost allocator;

cost of debt means the amount specified for r_d in, for the purpose of-

- (a) Part 2, clause 2.4.1(4);
- (b) Part 4, clause 4.4.1(2); and
- (c) Part 5, clause 5.3.18(3);

CPI means-

- (a) subject to paragraph (c), in respect of the December 2010 quarter and subsequent quarters, the consumer price index stipulated in the 'All Groups Index SE9A' as published by Statistics New Zealand;
- (b) subject to paragraph (c) in respect of each quarter prior to the December 2010 quarter, the same index as described in paragraph (a) multiplied by 1.02; and
- (c) in respect of quarters prior to any quarter in which the rate of **GST** is amended after this determination comes into force, the same index as described in paragraph (a), multiplied by the Reserve Bank of New Zealand's forecast change in that index (expressed as a decimal) arising from the amendment;

CPP means customised price-quality path;

CPP applicant means a GTB who-

- (a) is preparing a CPP proposal; or
- (b) has made a **CPP proposal** that has not been determined;

CPP application has the meaning specified in clause 5.1.1(2);

CPP determination means a determination of a **CPP** in relation to **gas transmission services** made by the **Commission** under s 52P of the **Act**;

CPP proposal means a proposal made by a **GTB** to the **Commission** for a **CPP** comprising the information specified in Part 5 Subpart 5;

CPP regulatory period means-

- (a) in relation to a **CPP proposal**, the 5 **disclosure years** following the **assessment period**: and
- (b) in relation to a particular CPP, the period to which the relevant CPP determination relates;

current period means the 5 **disclosure years** preceding the **disclosure year** in which the **CPP application** is submitted;

D

debt premium has the meaning specified in and is the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.4.4;
- (b) Part 4, clause 4.4.4; and
- (c) Part 5, clause 5.3.21;

demand group means a pricing category (irrespective of the pricing methodology used), in the case of-

(a) Vector Limited, that has a discrete rate of growth in the demand for gas transmission services over the CPP regulatory period;

Examples: each delivery point or a specified group of delivery points; and

(b) Maui Development Limited, applicable to shippers of gas on Maui Development Limited's network;

depreciation means an allowance to account for the diminution in an asset's remaining service life potential in the disclosure year in question with respect to its opening RAB value, or, for the purpose of Part 4, its aggregate opening RAB value for existing assets and aggregate opening RAB value for additional assets, and the amount of such allowance is determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.5(2);
- (b) Part 4, clause 4.2.2(2); and
- (c) Part 5, clause 5.3.7(2);

depreciation temporary differences has the meaning specified, for the purpose of-

- (a) Part 2, clause 2.3.5(2);
- (b) Part 4, clause 4.3.3; and
- (c) Part 5, clause 5.3.16(2);

designated individual means an individual who is-

- (a) **independent**; and
- (b) engaged or instructed by a **person** falling within paragraph (a) of the definition of verifier to verify (in accordance with Schedule G) part or all of the **CPP proposal** which that **person** is engaged to verify;

directly attributable means, in relation to-

- (a) **operating costs**, wholly and solely incurred by the **GTB** in or in relation to its **supply** of one **regulated service**; and
- (b) **regulated service asset values**, wholly and solely related to an asset used by the **GTB** in or in relation to its **supply** of one **regulated service**;

director means, in the case of a GTB that is-

- (a) a company (as 'company' is defined in s 2 of the Companies Act 1993), an individual occupying the position of director of the **GTB**, by whatever name that position is called;
- (b) a partnership (other than a special partnership), a partner;
- (c) a special partnership, a general partner; and
- (d) any other body corporate or unincorporate, an individual occupying a position in the body that is comparable with that of director of a company;

disclosure year shall be construed as a 12 month period ending on the date specified in-

- (a) whilst they are in force, the Gas (Information Disclosure) Regulations 1997; or
- (b) thereafter, an **ID determination**,

as the last date in the period to which annual disclosure relates, save that, in relation to Maui Development Limited, "disclosure year" followed by a specified calendar year means the preceding calendar year to that specified;

Example: under clause 6(2) of the Gas (Information Disclosure) Regulations 1997, a pipeline owner that is a company must publish financial statements in respect of the 12 month period ending on the balance date of the company as defined by the Financial Reporting Act 1993. Until an ID determination is made, 'disclosure year' for a GTB that is a company with a balance date of 31 March means 12 month period ending on 31 March, and 'disclosure year 2010' means 12 month period ending on 31 March 2010, save for Maui Development Limited, for whom the reference is to the 12 month period ending 31 December 2009;

disposed asset means, for the purpose of-

- (a) Part 2, an asset that, in the **disclosure year** in question, has been sold or transferred, or has been irrecoverably removed from the **GTB's** possession without consent but is not a **lost asset**; and
- (b) Part 5, an asset that, in relation to a disclosure year, is-
 - (i) sold or transferred but is not a lost asset; or
 - (ii) forecast to be sold or transferred;

distribution network has the same meaning as 'network' is defined in the Gas Distribution Services Input Methodologies Determination 2012;

document has the same meaning as defined in s 2 of the Act;

DPP means default price-quality path;

DPP determination means **DPP** determination in relation to **gas transmission services** made by the **Commission** under s 52P of the **Act**;

DPP regulatory period means the period to which the relevant **DPP determination** relates;

E

easement means a right to use but not possess **land** belonging to another **person** or a right to prevent certain uses of another **person's land**;

easement land means land acquired with the intention of-

- (a) creating an **easement** in respect of it; and
- (b) disposing of the **land** thereafter;

EDB has the same meaning as in the Electricity Distribution Input Methodologies Determination 2012;

engineer means an individual who is-

- (a) a chartered professional engineer as defined in s 6 of the Chartered Professional Engineers Act 2002;
- (b) acting in that professional capacity; and
- (c) independent;

error has the meaning specified in, for the purpose of-

- (a) Part 4, clause 4.5.1; and
- (b) Part 5, clause 5.7.5;

excluded asset means an asset that is-

- (a) not used to **supply gas transmission services** as on the last day of the **disclosure year** 2009;
- (b) designated as 'excluded' type as a result of the asset adjustment process; or
- (c) easement land;

existing assets means assets of a GTB for which an aggregate closing RAB value for existing assets is calculated for the base year;

expenditure objective means objective that **capital expenditure** and **operating expenditure** reflect the efficient costs that a prudent **non-exempt GTB** would require to-

- (a) meet or manage the expected demand for gas transmission services, at appropriate service standards, during the CPP regulatory period and over the longer term; and
- (b) comply with applicable regulatory obligations associated with those **services**;

F

finance lease has the same meaning as under GAAP;

fixed life easement means an easement that-

- (c) is of fixed duration; or
- (d) whilst of indefinite duration, is to be held for a fixed period;

forecast aggregate value of commissioned assets means the amount determined in accordance with clause 4.2.5;

forecast aggregate value of disposed assets means the amount determined in accordance with clause 4.2.6;

forecast CPI means, for the purpose of-

- (a) Part 4, for-
 - (i) a quarter prior to the quarter for which the vanilla **WACC** applicable to the relevant **DPP regulatory period** was determined, **CPI** excluding any adjustments made under paragraphs (b) or (c) of the definition of 'CPI' arising as a result of an event that occurs after the issue of the Monetary Policy Statement referred to in subparagraph (ii);
 - (ii) each later quarter for which a forecast of the change in headline CPI has been included in the Monetary Policy Statement last issued by the Reserve Bank of New Zealand prior to the date for which the vanilla WACC applicable to the relevant DPP regulatory period was determined, the CPI last applying under subparagraph (i) extended by the forecast change; and
 - (iii) in respect of later quarters, the forecast last applying under subparagraph (ii) adjusted such that an equal increment or decrement made to that forecast for each of the following three years results in the forecast for the last of those years being equal to the target midpoint for the change in headline CPI set out in the Monetary Policy Statement referred to in subparagraph (ii); and
- (b) Part 3 and Part 5, **CPI**, unless **CPI** does not apply to the period in question, in which case it means the most recent **CPI** extended by-
 - in the case of a quarter for which a forecast of the annual percent change in the headline CPI contained in the current Monetary Policy Statement issued by the Reserve Bank of New Zealand has been made, that forecast; and
 - (ii) in respect of later quarters, a constant annual percent change equal to the arithmetic mean of the values forecast in the most recent four quarters in respect of which a forecast described in subparagraph (i)has been made;

forecast operating expenditure has the meaning specified in clause 5.3.2(7);

forecast regulatory tax allowance has the meaning specified in clause 5.3.13;

forecast value of commissioned asset means the value determined in accordance with clause 5.3.11;

found asset has the meaning specified in clause 2.2.12(1);

G

GAAP means generally accepted accounting practice in New Zealand, save that, where the cost of an asset is being determined in accordance with this determination, only the

cost model of recognition is applied insofar as an election may be made between the cost model of recognition and the fair value model of recognition;

gas transmission services means any gas pipeline services (as defined in s 55A of the **Act**) supplied across a **network**;

GPB means GDB (as 'GDB' is defined in the Gas Distribution Input Methodologies Determination 2012) or **GTB**;

GST has the same meaning as defined in s YA 1 of the Income Tax Act 2007 as amended from time to time, and any equivalent legislation that supplements or replaces that definition;

GTB means supplier of gas transmission services;

Н

highly probable means one in respect of which the following conditions have been met at the time the **CPP application** is made:

- (a) the **directors** have approved a plan to sell either or both the **other regulated service** or **unregulated service**, as the case may be;
- (b) the GTB is taking active steps to-
 - (i) locate a buyer for the assets; and
 - (ii) complete the plan,

referred to in paragraph (a);

- (c) the **GTB** is actively marketing the assets for sale at a price that is reasonable;
- (d) the directors expect the sale to complete within 12 months of the CPP application being made; and
- (e) actions to date do not contemplate that significant amendment to the plan may be made or that it will be withdrawn;

١

ID determination means an information disclosure determination in relation to a **GTB** made by the **Commission** under s 52P of the **Act**;

identifiable non-monetary asset has the same meaning as under **GAAP** save that goodwill is excluded;

identified programme has the meaning specified in clause D1;

included asset means an asset which, as a result of the **asset adjustment process**, is designated as 'included';

included value means value assigned to an included asset;

incremental adjustment term means the amount determined in accordance with clause 3.3.1(4);

independent means neither in a relationship with, nor having an interest in, the **GTB** in question that is likely to involve him her or it in a conflict of interest between his, her or its duties to the **GTB** and his, her or its duties to the **Commission**;

inflation rate has the meaning specified in clause 3.3.1(5);

initial RAB has the meaning specified in clause 2.2.2;

initial RAB value means value of of an asset in the **initial RAB** determined in accordance with clause 2.2.3(3);

input methodology has the same meaning as defined in s 52C of the Act;

investment grade credit rated means endorsed with a credit rating by an established credit rating agency (such as Standard and Poor's) of "investment grade" on that agency's credit rating scale applicable to long-term investments;

L

land excludes easements;

leverage means the ratio of debt capital to total capital and is the amount specified in, for the purpose of-

- (a) Part 2, clause 2.4.2(1);
- (b) Part 4, clause 4.4.2(1); and
- (c) Part 5, clause 5.3.19(1);

levy means a tax, charge or fee directly imposed by or under legislation-

- (a) on-
 - (i) **GTB**s alone; or
 - (ii) a class of persons (other than the general public or **businesses** in general) that includes **GTB**s; or
- (b) in relation to gas transmission services;

line item means, in respect of-

- (a) assets, a group of assets within an **asset category** for which the same **asset allocator** is used to allocate their **regulated service asset values**; and
- (b) costs, a group of **operating costs** within an **opex category** for which the same **cost allocator** is used to allocate them,

to gas transmission services and other regulated services;

local authority has the same meaning as defined in s 5(1) of the Local Government Act 2002;

lost asset means an asset-

- (a) not included in the initial RAB; and
- (b) having, in relation to the disclosure year in question, an unallocated opening RAB value,

but determined by the **GTB** in that **disclosure year** never to have been used to provide **gas transmission services**;

M

maximum allowable revenue after tax means the amount determined in accordance with clause 5.3.4:

maximum allowable revenue before tax means the amount determined in accordance with clause 5.3.4;

mid-point estimate of WACC means, for the purpose of-

- (a) Part 2, the mid-point estimate of-
 - (i) vanilla **WACC** as estimated in accordance with clause 2.4.1(1); or
 - (ii) post-tax **WACC** as estimated in accordance with clause 2.4.1(2), as the case may be;
- (b) Part 4, the mid-point estimate of vanilla **WACC**, as estimated in accordance with clause 4.4.1; and
- (c) Part 5, the mid-point estimate of vanilla WACC for a-
 - (i) 3 year period;
 - (ii) 4 year period; or
 - (iii) 5 year period,

as the case may be, as each is estimated in accordance with clause 5.3.18;

modified value means the value of a **value modified asset** assigned in accordance with clause 2.2.1;

multi-rate PIE has the same meaning as defined in s YA 1 of the Income Tax Act 2007;

Ν

negative temporary differences means the amount determined in accordance with clause 5.3.16(5);

network means the high pressure transmission pipeline systems under the control of one **person** between the place where gas enters those transmission pipeline systems (commonly referred to as a 'receipt point') and the place where gas exits them, provided that where the place of exit is a delivery point to a **distribution network** owned by the same **person** who owns the transmission pipeline system in question, the delivery point is the place specified by that **person**;

network spare means an asset that is held by a **GTB** to replace any other asset it holds should that other asset be withdrawn from use owing to failure or damage;

next period means the period commencing on the first day of the **disclosure year** during which the **CPP application** is submitted and terminating on the last day of the 5 **disclosure years** following the **assessment period**;

notional deductible interest means, for the purpose of-

- (a) Part 4, the amount specified in clause 4.3.4
- (b) Part 5, the amount determined in accordance with clause 5.3.13(5);

notional revenue has the meaning specified in clause 3.1.1(5);

0

opening RAB value means the value determined in accordance with, for the purpose of-

- (c) Part 2, clause 2.2.4(3); and
- (d) Part 5, clause 5.3.6(1);

opening tax losses means the amount determined in accordance with, for the purpose of –

- (a) Part 2, clause 2.3.2(3);
- (b) Part 4, clause 4.3.2(3)(a); and
- (c) Part 5, clause 5.3.14(3);

opening works under construction has the meaning specified in clause 5.3.12(1);

operating cost means a cost incurred by the GTB in question relating to the supply of-

- (a) regulated services alone; or
- (b) regulated services and one or more unregulated service,

and excludes-

- (c) a cost that is treated as a cost of an asset by **GAAP**;
- (d) amounts that are depreciation, tax, subvention payments, revaluations or an interest expense, in accordance with their meanings under GAAP;
- (e) pass-through costs; and
- (f) recoverable costs;

operating expenditure, for the purpose of-

- (a) Part 4, means the value of **operating costs** attributable to **gas transmission services** supplied by a **GTB** which are forecast to be incurred in the **disclosure year** in question as determined by the **Commission**; and
- (b) Part 5, means **operating costs** after application of clause 5.3.5;

opex means operating expenditure;

opex category has the meaning specified in Schedule D;

opex forecast means the part of a **CPP proposal** provided pursuant to clause 5.5.24 that forecasts **operating expenditure** for the **next period**;

other regulated income, for the pupose of -

(a) Part 4, means forecast income associated with the supply of gas transmission services other than-

- (i) through **prices**;
- (ii) investment-related income;
- (iii) capital contributions; or
- (iv) vested assets,

as determined by the Commission; and

(b) Part 5, has the meaning specified in clause 5.3.2(8);

other regulated service means a **regulated service**, other than **gas transmission services**, **supplied** by the **GTB** in question;

OVABAA means the optional variation to accounting-based allocation approach, as described in clause 2.1.5;

OVABAA allocation increase means, in respect of either or both-

- (a) operating costs; and
- (b) regulated service asset values,

not **directly attributable**, as the case may be, allocated to **gas transmission services**, the dollar difference between the amount determined pursuant to the last application of clause 2.1.5(7)(c) and the application of clause 2.1.5(2)(a) or 2.1.5(3)(a), as the case may be;

Р

pass-through cost has the meaning specified in clause 3.1.2(1);

permanent differences means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.3.3; and
- (b) Part 5, clause 5.3.15;

person has the same meaning as defined in s 2 of the Act;

physical asset life has the meaning specified in clause 2.2.8;

positive temporary differences means the amount determined in accordance with clause 5.3.16(4);

prescribed investor rate has the same meaning as defined in the Income Tax Act 2007 or any subsequent legislation that supplements or replaces the provisions relating to prescribed investor rate in the Income Tax Act 2007;

prices has the meaning specified in clause 3.1.1(6);

pricing principles means the principles specified in clause 2.5.2;

programme means a group of related projects with a common purpose;

project means a temporary endeavour requiring concerted effort, undertaken to create a defined outcome;

proxy asset allocator means a proportion of a quantifiable measure-

- (a) used to allocate **regulated service asset values** for which a **causal relationship** cannot be established; and
- (b) whose quantum is based on factors in existence during the 18 month period terminating on the last day of the most recent **disclosure year** in respect of which the asset allocation is carried out;

proxy cost allocator means a proportion of a quantifiable measure-

- (a) used to allocate **operating costs** for which a **causal relationship** cannot be established; and
- (b) whose quantum is based on factors in existence during the 18 month period terminating on the last day of the most recent **disclosure year** in respect of which the cost allocation is carried out;

Q

qualifying debt has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.4.9(1); and
- **(b)** Part 5, clause 5.3.26(1);

qualifying issuer means a New Zealand resident limited liability company-

- (a) that-
 - (i) undertakes the majority of its business activities in Australia and New Zealand; or
 - (ii) is part of a corporate group that undertakes the majority of its business activities in Australia and New Zealand;
- (b) that-
 - (i) does not operate predominantly in the banking or finance industries; or
 - (ii) is part of a corporate group that does not operate predominantly in the banking or finance industries; and
- (c) that issues vanilla NZ\$ denominated bonds that are publicly traded;

qualifying rating means-

- (a) a Standard and Poor's long term credit rating of the specified grade; or
- (b) an equivalent long term credit rating of another internationally recognised rating agency;

qualifying supplier has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.4.9(2); and
- **(b)** Part 5, clause 5.3.26(2);

R

recoverable cost has the meaning specified in clause 3.1.3;

regulated goods or services has the same meaning as defined in s 52C of the Act;

regulated service means a type of service **supplied** by a **GTB** pursuant to the **supply** of a **regulated good or service**, which, for the avoidance of doubt, includes the following types of **services**:

- (a) gas transmission services;
- (b) gas distribution services, as defined in the Gas Distribution Services Input Methodologies Determination 2012; and
- (c) electricity distribution services, as defined in the Electricity Distribution Services Input Methodologies Determination 2012);

regulated service asset value means, in respect of an asset-

- (a) used by a GTB in the supply of-
 - (i) one or more regulated service; or
 - (ii) one or more regulated service and one or more unregulated service;

where at least one of those regulated services is a gas transmission service-

- (iii) in the disclosure year 2009, its unallocated initial RAB value; and
- (iv) in all other disclosure years, its unallocated closing RAB value; and
- (b) used by a **GTB** only in the **supply** of-
 - (i) one or more other regulated service; or
 - (ii) one or more other regulated service and one or more unregulated service;

in-

- (iii) the disclosure year 2009, its unallocated initial RAB value; and
- (iv) all other **disclosure years**, its unallocated closing RAB value,

determined in accordance with the **input methodologies** applicable to the **other regulated service**.

regulated supplier means a supplier of regulated goods or services;

regulatory investment value has the meaning specified in clause 5.3.2(3);

regulatory net taxable income has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.3.1(2);
- (b) Part 4, clause 4.3.1(2); and
- (c) Part 5, clause 5.3.13(2);

regulatory period means the regulatory period for default/customised price-quality regulation applicable to a **GTB** as specified in a determination made under s 52P of the **Act**:

regulatory profit / (loss) before tax has the meaning specified in, for the purpose of-

(a) Part 2, clause 2.3.1(4);

- (b) Part 4, clause 4.3.1(4); and
- (c) Part 5, clause 5.3.13(4);

regulatory tax allowance has the meaning specified, for the purpose of-

- (a) Part 2, clause 2.3.1; and
- (b) Part 4, clause 4.3.1;

regulatory taxable income means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.3.1(3);
- (b) Part 4, clause 4.3.1(3); and
- (c) Part 5, clause 5.3.13(3);

regulatory tax asset value has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.3.6; and
- (b) Part 5, clause 5.3.17;

regulatory templates has the meaning specified in clause 5.5.24(2); **related party** means-

- (a) a **person** that, in accordance with **GAAP**, is related to the **GTB** in question; or
- (b) any part of the **GTB** in question that does not **supply gas transmission** services;

remaining asset life means the term remaining of an asset's **asset life** at the commencement of the **disclosure year** in question;

remaining asset life for additional assets has the meaning specified in clause 4.2.2(3)(b); **remaining asset life for existing assets** has the meaning specified in clause 4.2.2(3)(a); **revaluation** means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.9(2);
- (b) Part 4, clause 4.2.3(2); and
- (c) Part 5, clause 5.3.10(2);

which, for the avoidance of doubt, may be a negative number;

revaluation rate has the meaning specified in, for the purpose of-

- (a) Part 2, clause 2.2.9(4);
- (b) Part 4, clause 4.2.3(3); and
- (c) Part 5, clause 5.3.10(4);

reversal and reverse have the same meanings as under GAAP;

S

selection rationale means a description of either or both of the-

(a) criteria applied; and

(b) fundamental reasons used,

for, either or both-

- (c) determining; and
- (d) selecting,

each-

- (e) asset allocator and associated allocator metric; and
- (f) **cost allocator** and associated **allocator metric**;

services has the same meaning as defined in s 2 of the Act;

standard depreciation method means, in respect of an asset whose **remaining asset life** is the term remaining of its **physical asset life** at the commencement of the **disclosure year** in question, method specified in clause 5.3.7 excluding any method referred to in the whole clauses to which clause 5.3.7 is subject;

standard error means estimated standard deviation;

standard physical asset life means life for an asset as specified in Schedule A;

supply has the same meaning as defined in s 2 of the **Act**, and **supplied** must be construed accordingly;

Т

tax depreciation rules means the **tax rules** that relate to the determination of depreciation allowances for tax purposes;

tax effect means the product of multiplication by the corporate tax rate;

tax rules means the rules applicable to a **GTB** for determining income tax payable in the Income Tax Act 2007 (as amended from time to time, and any equivalent preceding legislation, or any subsequent legislation that supplements or replaces that Act);

temporary differences means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.3.5; and
- (b) Part 2, clause 5.3.16;

term credit spread difference means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.4.10; and
- (b) Part 5, clause 5.3.27;

term credit spread differential means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.4.11(3); and
- (b) Part 5, clause 5.3.28(3);

term credit spread differential allowance, for the purpose of-

- (a) Part 2 and Part 5, means the sum of term credit spread differentials; and
- (b) Part 4, means the amount determined in accordance with clause 4.4.9(2);

total depreciation means, for the purpose of-

- (a) Part 2 and Part 5, the sum of **depreciation** for all assets; and
- (b) Part 4, the value determined in accordance with clause 4.2.2;

total opening RAB value, for the purpose of-

- (a) Part 4, the amount determined in accordance with clause 4.2.1(1); and
- (b) Part 5, has the meaning specified in clause 5.3.6(7);

total revaluation means, for the purpose of-

- (a) Part 2 and Part 5, the sum of **revaluation** for all assets; and
- (b) Part 4, the value determined in accordance with clause 4.2.3;

transitional pricing methodology has the meaning specified in clause 5.4.1(3);

trigger event has the meaning specified in clause 5.7.3(3);

U

unallocated closing RAB value means value determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.4(2); and
- (b) Part 5, clause 5.3.6(6);

unallocated depreciation means, in relation to a disclosure year, an allowance to account for the diminution in an asset's remaining service life potential in the disclosure year in question with respect to its unallocated opening RAB value and the amount of such allowance is determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.5(1); and
- (b) Part 5, clause 5.3.7(1);

unallocated initial RAB value means value of an asset in the **initial RAB** determined in accordance with clause 2.2.3(1);

unallocated opening RAB value means value determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.4(1); and
- (b) Part 5, clause 5.3.6(5);

unallocated revaluation means amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.9(1); and
- (b) Part 5, clause 5.3.10(1);

unduly deterred means, solely as a result of an allocation to the **unregulated service** in question of either or both of-

- (a) operating costs not directly attributable; and
- (b) regulated service asset values not directly attributable,

the **operating costs** not **directly attributable** or **capital costs** associated with the **regulated service asset values** not **directly attributable** (as the case may be) to be borne by that **unregulated service** would cause that **unregulated service** to be-

- (c) discontinued; or
- (d) not provided,

and 'unduly deter' must be construed accordingly;

unforeseen project has the meaning specified in clause 5.7.4;

unregulated service means any good or service **supplied** by the **GTB** that is not a **regulated service**;

utilised tax losses means the amount determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.3.2;
- (b) Part 4, clause 4.3.2(1); and
- (c) Part 5 clause 5.3.14;

V

value modified asset means an asset which, as a result of the asset adjustment process, is designated as 'value modified' type;

value of commissioned asset means the value determined in accordance with clause 2.2.11;

value of found asset means the value of a found asset determined in accordance with clause 2.2.12(2);

valuer means an individual who-

- (a) is registered as a valuer under the Valuers Act 1948;
- (b) holds a current practising certificate issued by-
 - (i) the Property Institute of New Zealand; or
 - (ii) the New Zealand Institute of Valuers;
- (c) has been engaged to act in his or her professional capacity as a valuer; and
- (d) is **independent**;

vanilla NZ\$ denominated bonds means senior unsecured nominal debt obligations denominated in New Zealand dollars without callable, puttable, conversion, profit participation, credit enhancement or collateral features;

verification report means a report prepared by a **verifier** in accordance with Schedule G; **verifier** means-

- (a) a **person** who-
 - (i) is independent; and
 - (ii) has been engaged to verify the **CPP applicant's CPP proposal** in accordance with Schedule G; or
- (b) a **designated individual** of a **person** described in paragraph (a);

vested asset means an asset associated with the **supply** of **gas transmission services** received by a **GTB**-

- (a) without provision of consideration; or
- (b) with provision of nominal consideration;

W

WACC means weighted average cost of capital;

working day has the same meaning as defined in s 2 of the Act; and

works under construction means an asset, or a collection of assets that-

- (a) has been or is being or is forecast to be constructed by, or on behalf of, aGTB;
- (b) has not been commissioned; and
- (c) the **GTB** intends to **commission**.

PART 2 INPUT METHODOLOGIES FOR INFORMATION DISCLOSURE

SUBPART 1 Cost allocation

2.1.1 Cost allocation process

- (1) Any-
- (a) **operating costs**; and
- (b) regulated service asset values,

that are **directly attributable** to **gas transmission services supplied** by the **GTB** must be allocated to **gas transmission services**.

- (2) Any-
- (a) **operating costs**; and
- (b) regulated service asset values,

that are **directly attributable** to any **other regulated service supplied** by the **GTB** must be allocated to the **other regulated service** to which they are **directly attributable**.

- (3) Any **operating costs** and **regulated service asset values** that are not allocated in accordance with subclauses (1) and (2) must be allocated to **gas transmission services** and **other regulated services** using, at the supplier's election-
 - (a) ABAA; or
 - (b) subject to clause 2.1.2, another allocation methodology type.

2.1.2 Allocation approaches

- (1) For the purpose of clause 2.1.1(3)(b), whether the supplier may elect to use **ACAM** or **OVABAA** to allocate-
 - (a) **operating costs**; and
 - (b) regulated service asset values,

not directly attributable, must be determined in accordance with this clause.

- (2) Where, in respect of a **disclosure year**, revenues received by a **GTB** from the **supply** of all **unregulated services** by that **GTB** are-
 - (a) less than 20% of revenues received from the **supply** of all **regulated services supplied** by the **GTB**, subclause (3) applies; and
 - (b) in all other cases, subclause (4) applies.
- (3) Where this subclause applies-
 - (a) **operating costs**; and
 - (b) regulated service asset values,

not **directly attributable** may be allocated to **regulated services**, in aggregate, using **ACAM**.

- (4) Where this subclause applies-
 - (a) where, in a disclosure year, operating costs not directly attributable less any arm's-length deduction are less than 15% of operating costs, ACAM may be applied to the allocation of operating costs not directly attributable;
 - (b) where, in a disclosure year, the total value of regulated service asset values not directly attributable less any arm's-length deduction is less than 10% of the aggregated unallocated closing RAB value, ACAM may be applied to the allocation of regulated service asset values not directly attributable; and
 - (c) in all other cases, **ABAA** or **OVABAA**, at the supplier's election, may be applied to the allocation of either or both of-
 - (i) operating costs not directly attributable; or
 - (ii) regulated service asset values not directly attributable,

as the case may be.

- (5) For the purpose of subclause (4)(b), 'aggregated unallocated closing RAB value' means the sum of, in respect of assets used to **supply**-
 - (a) gas transmission services, unallocated closing RAB values; and
 - (b) any other regulated service, unallocated closing RAB values as determined in accordance with input methodologies applicable to that other regulated service;
- 2.1.3 Accounting-based allocation approach (ABAA)
- (1) Cost allocators must be used to allocate operating costs not directly attributable, less any arm's-length deduction, to-
 - (a) gas transmission services; and
 - (b) other regulated services.
- (2) Asset allocators must be used to allocate regulated service asset values not directly attributable, less any arm's-length deduction, to-
 - (a) gas transmission services; and
 - (b) other regulated services.
- 2.1.4 Avoidable cost allocation methodology (ACAM)
- (1) In respect of-
 - (a) **operating costs**; and
 - (b) regulated service asset values,

not **directly attributable**, less any **arm's-length deduction**, an assessment must be made as to the proportion of each that would be non-avoidable were the **GTB** not to **supply unregulated services**.

- (2) The amounts of non-avoidable-
 - (a) **operating costs**; or

- (b) regulated service asset values,
- not **directly attributable**, assessed in accordance with subclause (1), must be allocated to **regulated services** in aggregate.
- (3) Where the **GTB** supplies **other regulated services**, **the** amounts allocated in accordance with subclause (2) must be allocated to each **regulated service supplied** by the **GTB** using the **ABAA**.
- 2.1.5 Optional variation to accounting-based allocation approach (OVABAA)
- (1) This clause applies to the allocation of-
 - (a) only operating costs not directly attributable;
 - (b) only regulated service asset values not directly attributable; or
 - (c) **operating costs** not **directly attributable** and **regulated service asset values** not **directly attributable**,

as elected in accordance with clause 2.1.2(4)(c).

- (2) Operating costs not directly attributable less any arm's-length deduction must be initially allocated to-
 - (a) gas transmission services;
 - (b) other regulated services; and
 - (c) each unregulated service,

using cost allocators.

- (3) Regulated service asset values not directly attributable less any arm's-length deduction must be initially allocated to-
 - (a) gas transmission services;
 - (b) other regulated services; and
 - (c) each unregulated service,

using asset allocators.

- (4) Where, after application of-
 - (a) subclause (2)(c);
 - (b) subclause (3)(c); or
 - (c) subclauses (2)(c) and (3)(c),

an unregulated service would-

- (d) be **unduly deterred**, subclause (5) applies; and
- (e) not be **unduly deterred**, the allocation of either or both of-
 - (i) operating costs not directly attributable; and
 - (ii) regulated service asset values not directly attributable

as the case may be, must remain as carried out in accordance with either or both of subclauses (2)(c) and (3)(c), as the case may be.

- (5) Where this subclause applies, any-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** that were allocated to an **unregulated service** in accordance with either or both of subclauses (2)(c) and (3)(c), as the case may be, may be reduced to the amount at which the **unregulated service** would no longer be **unduly deterred**.

- (6) For the avoidance of doubt, the adjusted amounts determined in accordance with subclause (5) must be treated as the share of either or both, as the case may be, of-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** to be borne by the **unregulated service** in question.

- (7) The adjusted amounts determined in accordance with subclause (5) must be deducted from either or both the-
 - (a) operating costs not directly attributable; and
 - (b) regulated service asset values not directly attributable,

as the case may be, to which subclause (2) or (3) applied after any **arm's-length deduction** was made, and the remaining costs or values reallocated between-

- (c) gas transmission services;
- (d) other regulated services; and
- (e) each remaining unregulated service,

in accordance with subclauses (2) and (3), as the case may be.

- (8) Where, after application of subclause (7), the-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** allocated to another **unregulated service unduly deter** that **unregulated service**, the process in subclauses (5) and (7) may be repeated subject to the modifications specified in subclause (9).

- (9) When re-applying-
 - (a) subclause (5) to another **unregulated service**, the starting values of-
 - (i) operating costs; and
 - (ii) regulated service asset values,

- not **directly attributable** allocated to that **unregulated service** must be the values obtained in relation to that **unregulated service** as a result of the previous application of subclause (7); and
- (b) subclause (7), for "to which subclause (2) or (3) applied after any **arm's-length deduction** was made", substitute "to which this subclause previously applied".
- (10) Subclauses (5) and (7) may be re-applied sequentially in respect of each unregulated service which is unduly deterred until any remaining regulated service asset values or operating costs or both are of such quantum that their allocation to the remaining unregulated services does not result in any of those services being unduly deterred.
- (11) For the avoidance of doubt, the reallocation undertaken in accordance with subclause (7) is carried out by grossing up allocation percentages used to make allocations to gas transmission services, other regulated services and each remaining unregulated service based on the same cost allocators or asset allocators, as the case may be, used under subclauses (2) and (3), to take into account the omission of the allocation percentages for the unregulated service to which allocation has already been made under subclause (5).

2.1.6 Allocation constraints

- (1) For the avoidance of doubt, all allocations of-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** to **other regulated services supplied** by the **GTB** must be consistent with allocations made in accordance with **input methodologies** relating to cost allocation applying to those **other regulated services**.

- (2) Where the **OVABAA** is applied to both **operating costs** not **directly attributable** and **regulated service asset values** not **directly attributable**, the combined amount of such costs and values that is re-allocated in accordance with clause 2.1.5(5) must not exceed the amount required to ensure that the **unregulated service** is not **unduly deterred**.
- (3) For the avoidance of doubt, after application of this subpart, notwithstanding anything else that may suggest otherwise, each unregulated service must bear at least the total-
 - (a) operating costs; and
 - (b) value of assets,

directly attributable to that unregulated service.

- (4) Notwithstanding anything else in this Subpart, the maximum value of-
 - (a) operating costs that may be allocated to gas transmission services and other regulated services, in aggregate, must not exceed the total value of operating costs; and

 regulated service asset values that may be allocated to gas transmission services and other regulated services, in aggregate, must not exceed the total regulated service asset values,

that would be allocated to gas transmission services and other regulated services, in aggregate, using ACAM.

SUBPART 2 Asset valuation

- 2.2.1 Asset adjustment process for setting initial RAB
- (1) Asset adjustment process means the process of assets-
 - (a) being designated as one of the following asset types:
 - (i) 'excluded';
 - (ii) 'included'; or
 - (iii) 'value modified';
 - (b) of 'value modified' type being assigned a **modified value**; and
 - (c) of 'included' type being assigned an **included value**.
- (2) Subject to subclauses (3) to (6), under the asset adjustment process, a **GTB** may elect to undertake none, some or all of the following things:
 - (a) modify the value of an asset owned by NGC Holdings Limited or a subsidiary company thereof, which asset is designated as of 'value modified' type;
 - (b) designate an asset, except one of those described in subclause (4), used by a GTB to supply gas transmission services, as of 'included' type; and
 - (c) correct the following types of error found in a **GTB's** asset register where the error relates to **2009 disclosed assets**:
 - (i) assets omitted in error, which assets are designated as of 'included' type;
 - (ii) assets included in error which assets are designated as of 'excluded' type; and
 - (iii) assets allocated to the incorrect asset category, or given an estimation of quantity, age, category or location now known to be incorrect, which assets are designated as of 'value modified' type;
- (3) The modified value of an asset to which subclause (2)(a) is applied is determined by adjusting its value-
 - (a) in respect of an asset identified to which subclause (2)(b) or (2)(c) was applied and valued pursuant to subclause (5) or (6), as the case may be; or
 - (b) where neither subclause (2)(b) or (2)(c) was applied, included in 'Non-Current Assets' in the **2009 disclosure financial statements**,

to the value it would have had as of the last day of the **disclosure year 2009** had it been revalued to take account of changes in the consumer price index since the first

day of the **disclosure year** 2006 consistent with the method used by the **Commission** in its 'Gas Control Model' for the purpose of authorising the supply of services to which clause 5 of the Commerce (Control of Natural Gas Services) Order 2005 applies.

- (4) For the purpose of subclause (2)(b), the assets are-
 - (a) 2009 disclosed assets;
 - (b) assets that were eligible to be **2009 disclosed assets**;
 - (c) easement land; and
 - (d) intangible assets, unless they are-
 - (i) finance leases; or
 - (ii) identifiable non-monetary assets.
- (5) The included value of an asset to which subclause (2)(b) is applied is-
 - (a) its depreciated historic cost determined by applying GAAP as of the last day of the disclosure year 2009; or
 - (b) where sufficient records do not exist to establish this cost, its depreciated carrying value in the general purpose financial statements of the **GTB**.
- (6) The included value or modified value, as the case may be, of an asset to which subclause (2)(c) is applied is determined by-
 - (a) taking its value, subject to subclause (7), that resulted, or for an omitted asset, would have resulted, from application of the Gas (Information Disclosure) Regulations 1997 as of the date-
 - (i) the asset was first **commissioned**; or
 - (ii) that fixed assets were most recently revalued, other than for the sole purpose of accounting for inflation, under the Gas (Information Disclosure) Regulations 1997,
 - whichever is the later;
 - (b) implementing the corrections or modifications required to account for the matters specified in subclause (2)(c) as the case may be; and
 - (c) adjusting that value to the value as of the last day of the **disclosure year** 2009 by taking account of-
 - unallocated depreciation in accordance with the standard depreciation method, where the total asset life used for the purpose of that method is the total asset life used for the purpose of the 2009 disclosure reports; and
 - (ii) revaluation to account for consumer price index changes using a method consistent with that used to account for such revaluation in the 2009 disclosure reports.

(7) Where subclause (6)(a)(ii) applies, the value must be obtained using the revaluation methodology that was applied, or would have been applied, in respect of that asset as of the date in question.

2.2.2 Composition of initial RAB

Initial RAB means-

- (a) 2009 disclosed assets; and
- (b) included assets,

less-

- (c) **excluded assets**;
- (d) intangible assets, unless they are-
 - (i) finance leases; or
 - (ii) identifiable non-monetary assets; and
- (e) works under construction.

2.2.3 Initial RAB values for assets

- (1) Subject to subclause (2), the unallocated initial RAB value of-
 - (a) an **included asset** or **value modified asset**, is its **included value** or **modified value**, as the case may be;
 - (b) any other asset, is, in the case of-
 - (i) Maui Development Limited, its value used for the calculation of the 'Accounting Return on Total Assets' measured in the **2009 disclosure financial statements**; and
 - (ii) any other **GTB**, its value included in 'Non-Current Assets' in the **2009** disclosure financial statements.
- (2) For the purpose of subclause (1), where an asset is used by a **GTB** in the **supply** of-
 - (a) one or more regulated service; or
 - (b) one or more regulated service and one or more unregulated service,

where at least one of those **regulated services** is a **gas transmission service**, the unallocated initial RAB value is the value of the asset had no allocation of asset value relevant to regulatory disclosures been undertaken.

- (3) The initial RAB value of an asset is determined as the value allocated to **gas transmission** services as a result of-
 - (a) adopting its unallocated initial RAB value; and
 - (b) applying clause 2.1.1 to it.

2.2.4 RAB roll forward

- (1) Unallocated opening RAB value in respect of an asset in relation to-
 - (a) the disclosure year 2010, is its unallocated initial RAB value; and

- (b) a disclosure year thereafter is its unallocated closing RAB value in the preceding disclosure year.
- (2) Unallocated closing RAB value means in the case of-
 - (a) a found asset, its value of found asset;
 - (b) a **disposed asset**, nil;
 - (c) a **lost asset**, nil;
 - (d) any other asset with an **unallocated opening RAB value**, the value determined in accordance with the formula-

unallocated opening RAB value - unallocated depreciation + unallocated revaluation; and

- (e) any other asset having a **commissioning date** in the **disclosure year** in question, its **value of commissioned asset**.
- (3) Opening RAB value, in respect of an asset, is, for-
 - (a) the disclosure year 2010, its initial RAB value; and
 - (b) a disclosure year thereafter, its closing RAB value in the preceding disclosure year.
- (4) Closing RAB value, in respect of an asset, is determined as the value allocated to **gas transmission services** as a result of-
 - (a) adopting its unallocated closing RAB value; and
 - (b) applying clause 2.1.1 to it.

2.2.5 Depreciation

- (1) Unallocated depreciation, in the case of an asset with an **unallocated opening RAB value**, is determined, subject to subclause (3) and clauses 2.2.6 and 2.2.7, in accordance with the formula-
 - [1 ÷ remaining asset life] × unallocated opening RAB value.
- (2) Depreciation, in the case of an asset with an **opening RAB value**, is determined, subject to subclause (3) and clause 2.2.6, in accordance with the formula-
 - [1 ÷ remaining asset life] × opening RAB value.
- (3) For the purposes of subclauses (1) and (2)-
 - (a) unallocated depreciation and depreciation are nil in the case of-
 - (i) land;
 - (ii) an easement other than a fixed life easement; and
 - (iii) a **network spare** in respect of the period before which depreciation for the **network spare** in question commences under **GAAP**; and
 - (b) in all other cases, where the asset's **physical asset life** at the end of the **disclosure year** is nil-

- unallocated depreciation is the asset's unallocated opening RAB value;
 and
- (ii) depreciation is the asset's **opening RAB value**.

2.2.6 <u>Depreciation - alternative method</u>

Where, under a **CPP**, in accordance with clause 5.3.8, an alternative depreciation method is applied to an asset, unallocated depreciation and depreciation for that asset, in respect of each **disclosure year** of the **CPP regulatory period**, are determined in accordance with that alternative depreciation method, subject to, in the case of unallocated depreciation, clause 2.2.7.

2.2.7 Unallocated depreciation constraint

For the purpose of clause 2.2.5, the sum of **unallocated depreciation** of an asset calculated over its **asset life** may not exceed the sum of-

- (a) all unallocated revaluations applying to that asset in all disclosure years; and
- (b) in the case of an asset-
 - (i) in the initial RAB, its unallocated initial RAB value; or
 - (ii) not in the **initial RAB**, its **value of commissioned asset** or **value of found** asset.

2.2.8 Physical asset life

- (1) Physical asset life means, subject to subclauses (2) and (4), in the case of-
 - (a) a **fixed life easement**, the fixed duration or fixed period (as the case may be) referred to in the definition of **fixed life easement**;
 - (b) an extended life asset or a refurbished asset, its physical service life potential as determined by the **GTB**;
 - (c) a reduced life asset, its physical service life potential as determined by an **engineer**, subject to subclause (3);
 - (d) a **found asset** for which a similar asset exists as described in subclause 2.2.12(2)(b)(i), the **asset life** applying to the similar asset;
 - (e) an asset not referred to in paragraphs (a)-(d)-
 - (i) in the initial RAB and an included asset; or
 - (ii) not in the initial RAB,

and-

- (iii) having a standard physical asset life, its standard physical asset life;
- (iv) not having a standard physical asset life, the asset life applying to an asset with an unallocated opening RAB value that is similar in terms of asset type; and
- (v) in all other cases, the physical service life potential determined by an **engineer**, subject to subclause (3);

- (f) an asset (other than a composite asset) not referred to in paragraphs (a)-(e), its remaining physical service life potential as on the last day of the **disclosure year** 2009 as determined in accordance with the method used to determine an allowance for depreciation, in the case of-
 - Maui Development Limited, for the calculation of the 'Accounting Return on Total Assets' measured in the 2009 disclosure financial statements; and
 - (ii) all other **GTBs**, for the purpose of the **2009 disclosure financial** statements;
- (g) a composite asset, the average asset life of the assets comprising it determined in accordance with paragraphs (a)-(f), with the modification that each such asset life must be weighted with respect to the proportion of its respective opening RAB value to the sum of the opening RAB values of the components in the earliest disclosure year in which all component assets were held by the GTB.
- (2) For the purpose of subclause (1), physical asset life means, in the case of a dedicated asset which is not expected to be used by the **GTB** to provide **gas transmission services** beyond the term of the fixed term agreement relating to the asset between the **GTB** and the **consumer**, at the **GTB's** election, the term of that agreement instead of the physical asset life that would otherwise apply under that subclause.
- (3) For the purpose of subclauses (1)(c) and (1)(e)(v), a determination made in accordance with this clause by an **engineer** of physical service life potential-
 - (a) in relation to an asset with an unallocated opening RAB value is deemed applicable to all assets of similar asset type for which there is a requirement in this clause for an engineer's determination of physical service life potential; and
 - (b) must be evidenced by a report written by the **engineer** in question that includes an acknowledgement by the **engineer** that the report may be publicly disclosed by a **GTB** pursuant to an **ID determination**.
- (4) In the case of a **GTB** subject to a **CPP**, the physical asset life at the start of a **CPP** regulatory period of an asset that would, in accordance with subclause (1), become fully depreciated during that regulatory period, is equal to the duration of the **CPP** regulatory period.
- (5) In this clause-
 - 'dedicated asset' means an asset operated for the benefit of a particular consumer pursuant to a fixed term agreement for the supply of gas transmission services between the GTB in question and that consumer;
 - (b) 'extended life asset' means an asset whose physical service life potential is greater than its **standard physical asset life**;

- (c) 'refurbished asset' means an asset on which work (other than maintenance) has been carried out resulting in an extension to its physical service life potential;
- (d) 'reduced life asset' means an asset determined by the GTB to have a physical service life potential shorter than its standard physical asset life; and
- (e) 'composite asset' means a configuration of two or more assets that is not capable of operation in the absence of any of those assets.

2.2.9 Revaluation

(1) Unallocated revaluation is the amount determined, subject to subclause (3), in accordance with the formula-

unallocated opening RAB value × revaluation rate.

(2) Revaluation is the amount determined, subject to subclause (3), in accordance with the formula-

opening RAB value × revaluation rate.

- (3) For the purposes of subclauses (1) and (2), where-
 - (a) the asset's **physical asset life** at the end of the **disclosure year** in question is nil; or
 - (b) the asset is a-
 - (i) **disposed asset**; or
 - (ii) lost asset,

unallocated revaluation and revaluation are nil.

(4) Revaluation rate means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$(CPI_4 \div CPI_4^{-4}) - 1,$$

where-

CPI₄ means CPI for the quarter that coincides with the end of the disclosure year; and

 CPI_4^{-4} means **CPI** for the quarter that coincides with the end of the preceding **disclosure year**.

2.2.10 Revaluation treated as income

Revaluation, for the purpose of determining profitability, must be treated as income.

2.2.11 Value of commissioned assets

(1) Value of commissioned asset, in relation to an asset (including an asset in respect of which capital contributions were received or a vested asset), is the cost of the asset to a GTB determined by applying GAAP to the asset as on its commissioning date, except that, subject to subclause (2), the cost of-

- (a) an intangible asset, unless it is-
 - (i) a finance lease; or
 - (ii) an identifiable non-monetary asset,

is nil;

- (b) an **easement**, is limited to its market value as on its **commissioning date** as determined by a **valuer**;
- (c) easement land is nil;
- (d) a network spare-
 - (i) which is not required, in light of the historical reliability and number of the assets it is held to replace; or
 - (ii) whose cost is not treated wholly as or part of the cost of an asset under GAAP,

is nil;

- (e) an asset-
 - (i) acquired from another regulated supplier; and
 - (ii) used by that regulated supplier in the supply of regulated goods or services,

is limited to the unallocated opening RAB value of the asset for the **regulated supplier** as on the the day before the **commissioning date** (as 'unallocated opening RAB value' is defined in the **input methodologies** applying to the **regulated goods or services supplied** by the **regulated supplier**);

- (f) an asset that was previously used by a GTB in its supply of other regulated services is limited to the unallocated opening RAB value of the asset in relation to those other regulated services as on the day before the commissioning date (as 'unallocated opening RAB value' is defined in the input methodologies applying to the regulated goods or services supplied by the GTB);
- (g) an asset acquired from a **related party**, other than an asset to which paragraphs (e) or (f) apply, determined in accordance with subclause (5);
- (h) an asset in respect of which capital contributions were received where such contributions do not reduce the cost of the asset when applying GAAP, is the cost of the asset by applying GAAP reduced by the amount of the capital contributions; and
- (i) a vested asset in respect of which its fair value is treated as its cost under GAAP, must exclude any amount of the fair value of the asset determined under GAAP that exceeds the amount of consideration provided by the GTB.
- (2) When applying GAAP for the purpose of subclause (1), the cost of financing is-

- (a) applicable only in respect of the period commencing on the date the asset becomes a works under construction and terminating on its commissioning date; and
- (b) calculated using, subject to subclause (3), a rate no greater than the **75th percentile estimate of WACC** applying in respect of the relevant date for its calculation under **GAAP**.
- (3) For the purpose of subclause (2)(b)-
 - (a) where no WACC in respect of the relevant date has been published pursuant to clause 2.4.8, the rate is calculated using a rate no greater than the GTB's estimate of its post-tax WACC as at the relevant date for its calculation under GAAP; and
 - (b) where an asset has not been **commissioned** within the period to which the **75th percentile estimate of WACC** referred to in subclause (2)(b) applied, the cost of financing after that period is calculated using a rate no greater than the **75th percentile estimate of WACC** applying to that later period.
- (4) For the avoidance of doubt-
 - (a) revenue derived in relation to **works under construction** that is not included in regulatory income under an **ID determination** or preceding regulatory information disclosure requirements reduces the cost of an asset by the amount of the revenue where such reduction is not otherwise made under **GAAP**; and
 - (b) where expenditure on an asset which forms part of the cost of that asset under **GAAP** is incurred by a **GTB** after that asset was **commissioned**, such expenditure is treated as relating to a separate asset.
- (5) For the purpose of paragraph **Error! Reference source not found.**2.2.11(1)(g), the cost of a commissioned asset, or component of a commissioned asset, acquired from a **related party** must be one of the following
 - (a) the price paid by the **GTB** for the asset, where the cost of all assets acquired from the related party first **commissioned** in that **disclosure year** is less than—
 - (i) one percent of the sum of **opening RAB values** for the **GTB** for that **disclosure year**, or
 - (ii) 20% of the cost of all assets first commissioned by the **GTB** in that **disclosure year**;
 - (b) the price paid by the GTB for the asset, where-
 - at least 50% of the related party's sales of assets are to third parties, and third parties may purchase the same or substantially similar assets from the related party on substantially the same terms and conditions, including price; or
 - (ii) that price is substantially the same as the price paid for substantially similar assets (including any adjustments for inflation using CPI or other

appropriate input price index) in the preceding 3 **disclosure year**s from a party other than a **related party**;

- (c) the price paid by the **GTB** to the **related party** following a competitive tender process, provided that—
 - the price is no more than 5% higher than the price of the lowest conforming tender received;
 - (ii) all relevant information material to consideration of a proposal was provided to third parties, or made available upon request;
 - (iii) at least one other qualifying proposal was received; and
 - (iv) the GTB retains for a period of 7 years following the closing date of tender proposals a record of the tender and tender process, including request for information and/or proposal, the criteria used for the assessment of proposals, reasons for acceptance or rejection of proposals, and all proposals and requests for information on the tender for the purposes of making proposals;
- (d) its depreciated historic cost on the day before the acquisition by the GTB determined in accordance with GAAP;
- (e) its inventory value on the day before the acquisition by the GTB determined in accordance with GAAP;
- (f) its market value as at its **commissioning date** as determined by a **valuer**;
- (g) its directly attributable cost as would be incurred by the group to which the GTB and related party are a part, determined in accordance with GAAP, as if the consolidated group was the GTB;
- (h) the price paid by the GTB for the asset, provided-
 - (i) the price cannot otherwise be determined under paragraphs (a) (g), and
 - (ii) no fewer than 2 **directors** of the **GTB** provide a written certification that they are satisfied that the price of any assets determined in accordance with this paragraph reflect the price or prices for those assets that would be received in an arm's-length transaction; or
- (i) nil.

2.2.12 Value of found assets

- (1) Found asset means, in relation to a disclosure year, an asset-
 - (a) other than easement land;
 - (b) other than an intangible asset, unless it is-
 - (i) a **finance lease**; or
 - (ii) an identifiable non-monetary asset;
 - (c) not having a **commissioning date** in the **disclosure year** in question;
 - (d) the value of which-

- (i) is not included as an **unallocated opening RAB value** in the **disclosure year** in question nor was so included in any prior **disclosure year** pursuant to clause 2.2.4(1); and
- (ii) was not included in an unallocated closing RAB value in any prior disclosure year in accordance with clause 2.2.4(2); and
- (e) first determined by the **GTB** in the **disclosure year** in question to have a **commissioning date** after the **disclosure year** 2009.
- (2) The value of found asset for a **found asset** is-
 - (a) the found asset's cost calculated consistently with GAAP; or
 - (b) where sufficient records do not exist to establish the **found asset's** cost for the purposes of **GAAP**,
 - (i) where an asset with an unallocated opening RAB value for that disclosure year is similar (in terms of asset type and age) to the found asset, the unallocated opening RAB value of the similar asset; and
 - (ii) in all other cases, its market value as determined by a **valuer** as at the date that the asset was first determined to have been **commissioned** in a prior **disclosure year** after the **disclosure year** 2009.

SUBPART 3 Treatment of taxation

2.3.1 Regulatory tax allowance

- (1) Regulatory tax allowance is, where **regulatory net taxable income** is-
 - (a) nil or a positive number, the tax effect of regulatory net taxable income; and
 - (b) a negative number, nil.
- (2) Regulatory net taxable income is **regulatory taxable income** less **utilised tax losses**.
- (3) Regulatory taxable income is determined in accordance with the formula-

regulatory profit / (loss) before tax + permanent differences + temporary differences - notional deductible interest.

- (4) Regulatory profit / (loss) before tax means the amount of 'regulatory profit / (loss) before tax' as determined in accordance with an **ID determination**.
- (5) For the purpose of subclause (3), 'notional deductible interest' means the amount determined in accordance with the formula-

(regulatory investment value ×leverage × cost of debt) + term credit spread differential allowance.

(6) For the purpose of subclause (5), 'regulatory investment value' means the value for 'regulatory investment value' determined in accordance with the **ID determination** applicable to the **disclosure year** and the **regulated good or service** in question.

2.3.2 Tax losses

(1) Utilised tax losses means opening tax losses, subject to subclause (2).

- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) In this clause, 'opening tax losses' in relation to a disclosure year that commenced-
 - (a) in 2009, is nil; and
 - (b) after 2009, is closing tax losses for the preceding **disclosure year**.
- (4) For the purpose of subclause (3)(b), 'closing tax losses' means the amount determined in accordance with the following formula, in which each term is an absolute value:

opening tax losses + current period tax losses - utilised tax losses.

- (5) For the purpose of subclause (4), 'current period tax losses' is, where **regulatory taxable income** is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

2.3.3 Permanent differences

- (1) Permanent differences is the amount determined in accordance with the formulapositive permanent differences - negative permanent differences.
- (2) For the purpose of subclause (1), 'positive permanent differences' means the sum of-
 - (a) all amounts of income-
 - (i) treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
 - (ii) not included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as deductions were the **tax rules** applied to determine income tax payable in respect of the **GTB's supply** of **gas transmission services**,

if the difference in treatment of amounts of-

- (c) income under paragraphs (a)(i) and paragraph (a)(ii); or
- (d) expenditure or loss under paragraph (b)(i) and paragraph (b)(ii),

is a difference that-

- (e) is not a **reversal** or partial **reversal** of a difference for a prior **disclosure year**; and
- (f) will not **reverse** in a subsequent **disclosure year**.
- (3) For the purpose of subclause (1), 'negative permanent differences' means the sum of-
 - (a) all amounts of income-

- (i) included as amounts of income in determining regulatory profit / (loss) before tax; and
- (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
- (b) all amounts of expenditure or loss-
 - treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services;
 and
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

if there are differences between the values in-

- (c) paragraphs (a)(i) and paragraph (a)(ii); and
- (d) paragraphs (b)(i) and paragraph (b)(ii),

and such differences-

- (e) are not the **reversal** of a difference in a prior **disclosure year**; and
- (f) will not **reverse** in a subsequent **disclosure year**.
- (4) For the purpose of subclause (3), negative permanent differences excludes amounts that are-
 - (a) expenditure or loss determined in accordance with the tax rules that is-
 - (i) interest; or
 - (ii) incurred in borrowing money; and
 - (b) any-
 - (i) tax losses; or
 - (ii) subvention payment made or received by a **GTB**.

2.3.4 <u>Deferred tax</u>

Deferred tax in relation to any disclosure year is nil.

2.3.5 Temporary differences

- (1) Temporary differences is the amount determined in accordance with the formula
 - depreciation temporary differences + positive temporary differences negative temporary differences.
- (2) For the purpose of this clause, 'depreciation temporary differences' means **total depreciation** less tax depreciation.
- (3) For the purpose of subclause (2) 'tax depreciation' means the sum of the amounts determined by application of the **tax depreciation rules** to the **regulatory tax asset value** of each asset.
- (4) For the purpose of subclause (1), 'positive temporary differences' means the sum of-

- (a) all amounts of income-
 - (i) treated as taxable if the tax rules were applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
 - (ii) not included as amounts of income in determining regulatory profit / (loss) before tax; and
- (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining **regulatory profit / (loss) before tax**; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services,

less any amount that are depreciation temporary differences, if there are differences between the values in-

- (c) paragraphs (a)(i) and (a)(ii); and
- (d) paragraphs (b)(i) and(b)(ii),

and such differences-

- (e) are the reversal of a difference in a prior disclosure year; or
- (f) will **reverse** in a subsequent **disclosure year**.
- (5) For the purpose of subclause (1), 'negative temporary differences' means the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
 - (b) all amounts of expenditure or loss
 - treated as deductions were the **tax rules** applied to determine income tax payable in respect of the **GTB's supply** of **gas transmission services**;
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

less any amount that are depreciation temporary differences, if there are differences between the values in-

- (c) paragraphs (a)(i) and (a)(ii); and
- (d) paragraphs (b)(i) and (b)(ii),

and such differences-

(e) are the **reversal** of a difference in a prior **disclosure year**; or

(f) will **reverse** in a subsequent **disclosure year**.

2.3.6 Regulatory tax asset value

(1) Regulatory tax asset value, in relation to an asset, means the value determined in accordance with the formula-

tax asset value \times result of asset allocation ratio.

- (2) For the purpose of subclause (1), 'tax asset value' means, in respect of-
 - (a) an asset-
 - (i) in the initial RAB where, in the disclosure year 2010, the sum of unallocated initial RAB values is less than the sum of the adjusted tax values of all assets in the initial RAB;
 - (ii) acquired from a **regulated supplier** who used it to **supply regulated goods or services**; or
 - (iii) acquired or transferred from a related party,

the value of the asset determined by applying the **tax depreciation rules** to its notional tax asset value; and

- (b) any other asset, its adjusted tax value.
- (3) 'Notional tax asset value' means, for the purpose of-
 - (a) subclause (2)(a), **adjusted tax value** of the asset in the **disclosure year** 2010 adjusted to account proportionately for the difference between the-
 - (i) sum of the unallocated initial RAB values; and
 - (ii) sum of the adjusted tax values,

of all assets in the initial RAB;

- (b) subclause (2)(a)(ii), value after applying the **tax depreciation rules** to the tax asset value (as 'tax asset value' is defined in the **input methodologies** applying to the **regulated goods or services** in question) in respect of the **disclosure year** in which the asset was acquired; and
- (c) subclause (2)(a)(iii), value in respect of the **disclosure year** in which the asset was acquired or transferred that is-
 - (i) consistent with the tax rules; and
 - (ii) limited to its value of commissioned asset.
- (4) For the purpose of subclause (1), 'result of asset allocation ratio' means, where an asset or group of assets maintained under the **tax rules**-
 - (a) has a matching asset or group of assets maintained for the purpose of Subpart 2, the value obtained in accordance with the formula-

opening RAB value or sum of **opening RAB values**, as the case may be

÷

unallocated opening RAB value or sum of unallocated opening RAB values, as the case may be,

applying the formula in respect of the asset or smallest group of assets maintained for the purpose of Subpart 2 that has a matching asset or group of assets maintained under the **tax rules**; and

(b) does not have a matching asset or group of assets maintained for the purpose of Subpart 2, the value of the asset allocated to the **supply** of **gas transmission services** were clause 2.1.1 to apply to the asset or group of assets.

SUBPART 4 Cost of capital

2.4.1 Methodology for estimating the weighted average cost of capital

- (1) The Commission will determine mid-point estimates of vanilla WACC for each GTB for the disclosure year 2011 and each disclosure year thereafter-
 - (a) in respect of the 5 years commencing on the first day of the **disclosure year** in question;
 - (b) subject to subclause (3), within 1 month of the start of the **disclosure year** in question; and
 - (c) in accordance with the formula-

$$r_d L + r_e (1 - L)$$
.

- (2) The **Commission** will calculate mid-point estimates of post-tax **WACC** for each **GTB** for the **disclosure year** 2011 and each **disclosure year** thereafter-
 - (a) in respect of the 5 years commencing on the first day of the **disclosure year** in question;
 - (b) subject to subclause (3), within 1 month of the start of the **disclosure year** in question; and
 - (c) in accordance with the formula-

$$r_d (1 - T_c)L + r_e (1 - L).$$

- (3) The **Commission** will estimate or determine, as the case may be, the amounts or values-
 - (a) to which this subclause applies; and
 - (b) in respect of the **disclosure year** 2011,

as soon as practicable after this determination comes into force.

(4) In this clause-

L is **leverage**;

 r_d is the cost of debt and is estimated in accordance with the formula $r_f + p + d$;

 r_e is the cost of equity and is estimated in accordance with the formula-

$$r_f(1 - T_i) + \theta_e TAMRP;$$

- T_c is the average corporate tax rate;
- r_f is the risk-free rate;
- p is the **debt premium**;
- d is the debt issuance costs;
- T_i is the average investor tax rate;
- θ_e is the equity beta; and

TAMRP is the tax-adjusted market risk premium.

- (5) For the purpose of this clause-
 - (a) the average investor tax rate, the equity beta, the debt issuance costs, the average corporate tax rate and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 2.4.2; and
 - (b) the risk-free rate must be estimated in accordance with clause 2.4.3.

2.4.2 Fixed WACC parameters

- (1) Leverage is 44%.
- (2) The average investor tax rate is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the 5 year period commencing on the first day of the **disclosure year** in question.
- (3) For the purpose of subclause (2), 'investor tax rate' is-
 - (a) for the **disclosure year** 2011, in respect of-
 - (i) Maui Development Limited, 29.5%; and
 - (ii) all other GTBs, 28.5%; and
 - (b) for a **disclosure year** thereafter, the maximum **prescribed investor rate** applicable at the start of that **disclosure year** to an individual who is-
 - (i) resident in New Zealand; and
 - (ii) an investor in a multi-rate PIE.
- (4) The average corporate tax rate is the average of the **corporate tax rates** that, as at the date that the estimation is made, will apply during the 5 year period commencing on the first day of the **disclosure year** in question.
- (5) The equity beta is 0.79.
- (6) The debt issuance costs are 0.35%.
- (7) The tax-adjusted market risk premium is, for a 5 year period commencing on the first day of-
 - (a) the disclosure year 2011, 7.1%; and
 - (b) a disclosure year thereafter, 7.0%.

2.4.3 Methodology for estimating risk-free rate

The Commission will estimate a risk-free rate-

- (a) for each disclosure year; and
- (b) subject to clause 2.4.1(3), within 1 month of the start of the **disclosure year** in question,

by-

- (c) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly-interpolated bid yield to maturity for a residual period to maturity equal to 5 years on each **business day** in the month preceding the start the **disclosure vear**:
- (d) calculating the annualised interpolated bid yield to maturity for each **business day**; and
- (e) calculating the un-weighted arithmetic average of the daily annualised interpolated bid yields to maturity.

2.4.4 Methodology for estimating debt premium

- (1) Debt premium means the spread between-
 - (a) the bid yield to maturity on vanilla NZ\$ denominated bonds that-
 - (i) are issued by a **GPB** or an **EDB**;
 - (ii) are publicly traded;
 - (iii) have a qualifying rating of grade BBB+; and
 - (iv) have a remaining term to maturity of 5 years; and
 - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (2) The Commission will estimate an amount for a debt premium-
 - (a) for each disclosure year; and
 - (b) subject to clause 2.4.1(3), within 1 month of the start of each **disclosure year**.
- (3) The amount of the debt premium will be estimated by-
 - (a) identifying publicly traded vanilla NZ\$ denominated bonds issued by a qualifying issuer that are-
 - (i) **investment grade credit rated**; and
 - (ii) of a type described in the paragraphs of subclause (4);
 - (b) in respect of each bond identified in accordance with paragraph (a)-
 - (i) obtaining its wholesale market annualised bid yield to maturity; and
 - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for

- a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and
- (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity, by deducting the yield calculated in accordance with sub-paragraph (ii) from the yield obtained in accordance with sub-paragraph (i),

for each **business day** in the month preceding the start of the **disclosure year**;

- (c) calculating, for each such bond identified in accordance with paragraph (a), the un-weighted artihmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and
- (d) subject to subclause (4), estimating, by taking account of the average spreads identified in accordance with paragraph (c), the average spread that would reasonably be expected to apply to a vanilla NZ\$ denominated bond that-
 - (i) is issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (ii) is publicly traded;
 - (iii) has a qualifying rating of grade BBB+; and
 - (iv) has a remaining term to maturity of 5 years.
- (4) For the purpose of subclause (3)(d), the **Commission** will have regard, subject to subclauses (5) and (5)(c), to the spreads observed on the following types of **vanilla NZ\$** denominated bonds issued by a qualifying issuer:
 - (a) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (b) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by an entity other than a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (c) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by a GPB or an EDB that is neither majority owned by the Crown nor a local authority;
 - (d) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by an entity, other than a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**; and

- (e) those that are-
 - (i) investment grade credit rated; and
 - (ii) issued by an entity that is majority owned by the Crown or a **local** authority.
- (5) For the purpose of subclause (4)-
 - (a) progressively lesser regard will ordinarily be given to the spreads observed on the bond types described in subclause (4) in accordance with the order in which the bond types are described;
 - (b) the spread on any bond of the type described in subclause (4) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
 - (c) the **Commission** will adjust spreads observed on bonds described under subclauses (4)(b) to (4)(e) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (4)(a).

2.4.5 Standard error of debt premium

- (1) The Commission will estimate an amount for a standard error of a debt premium-
 - (a) subject to clause 2.4.1(3), within 1 month of the start of the **disclosure year** in question; and
 - (b) as either-
 - (i) the result of the formula specified in subclause (2); or
 - (ii) 0.0015,

whichever is the greater.

(2) For the purpose of subclause (1)(b)(i), the formula is-

$$\sqrt{\frac{1}{N-1}\sum_{i=1}^{N} \Phi_{i} - \bar{p}^{2}}$$

where-

N is the number of **qualifying issuers** issuing bonds of the type described in the subparagraphs of clause 2.4.4(3)(d);

 p_i is each **qualifying issuer's** arithmetic average the spread for its bonds of the type described in the subparagraphs of clause 2.4.4(3)(d); and

 \overline{p} is the **debt premium**,

provided that for the purposes of determining N and p_i , no regard may be had to any bonds of the types described in clauses 2.4.4(4)(b) to 2.4.4(4)(d).

2.4.6 Methodology for estimating the WACC standard error

- (1) The Commission will determine an amount for a standard error of a mid-point estimate of WACC-
 - (a) subject to clause 2.4.1(3), within 1 month of the start of the **disclosure year** in question; and
 - (b) in accordance with this clause.
- (2) The **standard error** for a mid-point estimate of vanilla **WACC** determined in accordance with clause 2.4.1(1) will be determined in accordance with the formula-

$$\sqrt{0.000048 + 0.0196E^2(TA\hat{M}RP) + 0.1936\text{var}(\hat{p})}$$

(3) The **standard error** for a mid-point estimate of post-tax **WACC** determined in accordance with clause 2.4.1(2) will be determined in accordance with the formula-

$$\sqrt{0.000048 + 0.0196E^2(TAMRP) + (-T_c)^2(0.1936var(\hat{p}))}$$

- (4) In this clause-
 - (a) $E^2(TA\hat{M}RP)$ is the square of the tax-adjusted market risk premium determined in accordance with clause 2.4.2(7);
 - (b) $var(\hat{p})$ is the square of the **standard error** of the **debt premium** determined in accordance with clause 2.4.5; and
 - (c) T_c is the average corporate tax rate determined in accordance with clause 2.4.2(4).

2.4.7 Methodology for estimating the WACC range

- (1) The Commission will determine a WACC range for each mid-point estimate of WACC-
 - (a) for each disclosure year; and
 - (b) subject to clause 2.4.1(3), within 1 month of the start of the **disclosure year** in question.
- (2) For the purpose of subclause (1), 'WACC range' means the values falling between the 25th percentile and 75th percentile inclusive of the **mid-point estimate of WACC**.
- (3) For the purpose of subclause (2)-
 - (a) the mid-point estimate of WACC must be treated as the 50th percentile; and
 - (b) the-
 - (i) 75th percentile must be determined in accordance with the formulamid-point estimate of WACC + 0.674 × standard error; and
 - (ii) 25th percentile must be determined in accordance with the formulamid-point estimate of WACC - 0.674 × standard error,

where 'standard error' means the **standard error** of the relevant **mid-point estimate of WACC**, as determined in accordance with clause 2.4.6(2) or 2.4.6(3), as the case may be.

2.4.8 Publication of estimates

The **Commission** will publish all determinations and estimates that it is required to make by this subpart-

- (a) on its website; and
- (b) no later than 1 month after having made them.

2.4.9 <u>Interpretation of terms relating to term credit spread differential</u>

- (1) Qualifying debt means a line of debt-
 - (a) with an original tenor greater than 5 years; and
 - (b) issued by a qualifying supplier.
- (2) Qualifying supplier means a **regulated supplier** whose debt portfolio, as at the date of that supplier's most recently published audited financial statements, has a weighted average original tenor greater than 5 years.
- (3) Cost of executing an interest rate swap means the amount determined in accordance with the formula-

 $A \times B$,

where-

- (a) 'A' is the amount that is half of the New Zealand dollar wholesale bid and offer spread for a vanilla interest rate swap determined at the time of pricing the **qualifying debt** (which, for the avoidance of doubt, is expressed in terms of basis points per annum; and
- (b) 'B' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.

2.4.10 Term credit spread difference

(1) Term credit spread difference is determined in accordance with the formula-

 $T \times U$,

where-

(a) 'T' is the amount determined in accordance with the formula-

$$(V - W) - (X - Y);$$

except that where that amount is-

- (i) less than 0.0015, T is 0.0015; and
- (ii) more than 0.006, T is 0.006; and
- (b) 'U' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.

- (2) For the purpose of subclause (1)-
 - (a) 'V' is the yield shown on the Bloomberg New Zealand 'A' fair value curve for a bond with a tenor equal to, or closest to, the original tenor of the qualifying debt;
 - (b) 'W' is the New Zealand swap rate quoted by Bloomberg for a tenor equal to the original tenor of the **qualifying debt**;
 - (c) 'X' is the yield shown on the Bloomberg New Zealand 'A' fair value curve for a bond with a tenor of 5 years;
 - (d) 'Y' is the New Zealand swap rate quoted by Bloomberg for a tenor of 5 years; and
 - (e) V, W, X and Y are determined as at the same time on the same pricing date of the **qualifying debt**.
- (3) For the purpose of this clause, where the **qualifying debt** is issued to a **related party**, 'original tenor of the **qualifying debt**' means the-
 - (a) tenor of the qualifying debt; or
 - (b) period from the **qualifying debt's** date of issue to the earliest date on which its repayment is or may be required,

whichever is the shorter.

2.4.11 Methodology for estimating term credit spread differential

- (1) This clause applies to the determination of the amount of any **term credit spread differential** in respect of a **qualifying debt** for the purpose of disclosure pursuant to an **ID determination** of a-
 - (a) term credit spread differential allowance; or
 - (b) term credit spread differential.
- (2) Disclosure to which this clause applies may only be made by a qualifying supplier.
- (3) Term credit spread differential is the amount determined in accordance with the formula-

$$(A \div B) \times C \times D$$

where-

- (a) 'A' is the sum of the-
 - (i) term credit spread difference;
 - (ii) cost of executing an interest rate swap; and
 - (iii) debt issuance cost re-adjustment;
- (b) 'B' is the book value of the qualifying supplier's total interest-bearing debt as at the date to which the supplier's financial statements audited and published in the disclosure year in question relate;
- (c) 'C' is **leverage**; and
- (d) 'D' is, in relation to the qualifying supplier, the average of-

- (i) the sum of **opening RAB values**; and
- (ii) the sum of closing RAB values.
- (4) For the purpose of subclause (3)(a)(iii), 'debt issuance cost re-adjustment' is the amount determined in accordance with the formula-

(0.0175 ÷ original tenor of the qualifying debt - 0.0035) × book value in New Zealand dollars of the qualifying debt at its date of issue,

which amount, for the avoidance of doubt, will be a negative number.

SUBPART 5 Pricing methodologies

2.5.1 <u>Disclosure of pricing methodologies</u>

For the purpose of any requirement in an ID determination to disclose-

- (a) an explanation of the extent of consistency of a **GTB's** pricing methodology with the pricing principles; or
- **(b)** reasons for any inconsistency between a **GTB's** pricing methodology with the pricing principles,

'pricing principles' means the **pricing principles**.

2.5.2 Pricing principles

- (1) Prices are to signal the economic costs of service provision, by-
 - (a) being subsidy free, that is, equal to or greater than incremental costs and less than or equal to standalone costs, except where subsidies arise from compliance with legislation and/or other regulation;
 - (b) having regard, to the extent practicable, to the level of available service capacity; and
 - (c) signalling, to the extent practicable, the effect of additional usage on future investment costs.
- (2) Where prices based on 'efficient' incremental costs would under-recover allowed revenues, the shortfall is made up by prices being set in a manner that has regard to **consumers'** demand responsiveness, to the extent practicable.
- (3) Provided that prices satisfy (1) above, prices are responsive to the requirements and circumstances of **consumers** in order to-
 - (a) discourage uneconomic bypass; and
 - (b) allow negotiation to better reflect the economic value of services and enable consumers to make price/quality trade-offs or non-standard arrangements for services.
- (4) Development of prices is transparent, promotes price stability and certainty for **consumers**, and changes to prices have regard to the effect on **consumers**.

PART 3 INPUT METHODOLOGIES FOR BOTH DEFAULT AND CUSTOMISED PRICE-QUALITY PATHS

SUBPART 1 Specification of price

- 3.1.1 Specification and definition of prices
- (1) For the purpose of s 53M(1)(a) of the **Act**, the maximum-
 - (a) price or prices that may be charged; or
 - (b) revenues that may be recovered,

by a GTB will be specified in a s 52P determination as a-

- (c) weighted average price cap; or
- (d) total revenue cap,

applying to that **GTB** for a **regulatory period**, defined in terms of a relationship between **allowable notional revenue** and **notional revenue** whereby **notional revenue** must not exceed **allowable notional revenue**.

- (2) When determining whether to specify **price** by a weighted average price cap or total revenue cap the **Commission** will take into account the extent to which, in **supplying regulated services**, a **GTB**-
 - (a) manages capacity through contract carriage arrangements; and
 - (b) **supplies services** on the basis of non-standard pricing arrangements.
- (3) For the purpose of subclause (1)(c)-
 - (a) the same quantities are used to determine **notional revenue** and **allowable notional revenue**; and
 - (b) the maximum weighted average price that may be charged during the regulatory period will not be affected by the actual prices charged by the GTB during that period.
- (4) Allowable notional revenue means, in respect of a 12 month period, a function of-
 - (a) relevant **CPIs**;
 - (b) the X factor applicable to the **GTB**;
 - (c) where price is specified by a weighted average price cap, **prices** in the preceding 12 month period multiplied by quantities net of-
 - (i) the sum of relevant pass-through costs; and
 - (ii) the sum of relevant recoverable costs; and
 - (d) where price is specified by a total revenue cap, the maximum revenue that may be recovered at the beginning of the **regulatory period** net of-
 - (i) the sum of relevant pass-through costs; and
 - (ii) the sum of relevant recoverable costs.

- (5) Notional revenue means, in respect of a 12 month period, **prices** in that period multiplied by quantities net of-
 - (a) the sum of relevant pass-through costs; and
 - (b) the sum of relevant recoverable costs.
- (6) Prices means-
 - (a) individual tariffs, fees or charges; or
 - (b) individual components thereof,

in nominal terms exclusive of **GST** for the **supply** of a **gas transmission service**.

(7) In this clause, 'quantities' means the amounts **supplied** (other than forecast) of **gas transmission services** corresponding to the extent practicable to **prices**.

3.1.2 Pass-through costs

- (1) Subject to subclause (4), a pass-through cost is-
 - (a) a cost listed in subclause (2); or
 - (b) subject to subclause (3)-
 - (i) a **levy** other than one listed in subclause (2), specified by way of amendment to the **DPP determination**; or
 - (ii) a cost in respect of the **GTB** in question specified in a **CPP** determination.
- (2) For the purpose of subclause (1)(a), the costs are-
 - (a) rates on system fixed assets paid or payable by a **GTB** to a **local authority** under the Local Government (Rating) Act 2002; and
 - (b) levies payable-
 - (i) under regulations made under s 53ZE of the **Act**; or
 - (ii) under regulations made under the Gas Act 1992.
- (3) For the purpose of subclause (1)(b), the **levy** or cost in question must-
 - (a) be-
 - (i) associated with the **supply** of **gas transmission services**;
 - (ii) outside the control of the **GTB**;
 - (iii) not a **recoverable cost**; and appropriate to be passed through to **consumers**; and
 - (iv) one in respect of which provision for its recovery is not made explicitly or implicitly in the **DPP** or, where applicable, **CPP**;
 - (b) come into effect during a **DPP regulatory period** or, where applicable, **CPP regulatory period**; and
 - (c) have been reasonably unforeseen at the time the **DPP determination** or, where applicable, the **CPP determination**, was made.

(4) For the purpose of subclause (1), where a cost relates to both **gas transmission services** and other services **supplied** by the **GTB**, only the proportion of the cost attributable to the **supply** of **gas transmission services** (as determined in accordance with clause 2.1.1), may be a pass-through cost.

3.1.3 Recoverable costs

- (1) A recoverable cost is a cost that is-
 - (a) any positive net balance determined in accordance with 3.3.2(2), provided that any requirements pursuant to an **ID determination** regarding **auditor** certification of any value determined in accordance with Subpart 3 have been met;
 - (b) claw-back applied by the **Commission** under sections 55F(2), 55F(4) or 53ZB(3) of the **Act**;
 - (c) a cost or a credit arising from the **GTB's** purchase or sale of balancing gas that has not been allocated to a **person** shipping gas on the **GTB's network**, subject to the requirement specified in subclause (2);
 - (d) a standard application fee for a **CPP proposal** under 53Q(2)(c), subject to the proviso specified in subclause (3);
 - (e) a fee notified by the **Commission** as payable by the **GTB** in respect of the **Commission** assessing a **CPP proposal** and determining a **CPP** in accordance with s 53Y of the **Act**, subject to the proviso specified in subclause (3);
 - (f) a fee payable to a **verifier** subject to the requirement specified in subclause (4);
 - (g) any **auditor's** cost incurred for the purpose of meeting clauses 5.1.4 or 5.6.3, subject to the requirement specified in subclause (4); or
 - (h) a fee payable to an **engineer** for the purpose of meeting a requirement of clause 5.5.10(4)(c), subject to the requirement specified in subclause (4).
- (2) For the purpose of subclause (1)(c), the requirement is that in respect of each cost or credit, the **Commission's** approval of its amount has been obtained in accordance with any process relating to the recovery of that cost or credit specified in a **DPP determination**.
- (3) For the purposes of subclauses (1)(d) and (1)(e), the proviso is that the **CPP proposal** is not discontinued by the **Commission** under s 53S of the **Act**.
- (4) For the purposes of subclauses (1)(f) (1)(h), the requirement is that the amount that may be recovered in respect of a particular **GTB** must be specified by the **Commission** in a **CPP determination**.

SUBPART 2 Amalgamations

3.2.1 <u>Treatment of amalgamations</u>

(1) The **DPPs** of **GTBs** subject to **DPPs** that have **amalgamated** must be aggregated from the start of the **disclosure year** following the **amalgamation**.

- (2) A **DPP** for an amalgamated **GTB** formed from a **GTB** subject to a **DPP** and a **GTB** subject to a **CPP** applies at the end of the existing **CPP**.
- (3) A **DPP** for an amalgamated **GTB** formed from 2 **GTBs** each subject to a **CPP** applies at the end of the existing **CPPs**.
- (4) Nothing in subclauses (2) and (3)-
 - (a) precludes a **CPP** applying to the amalgamated **GTB** at the end of the existing **CPP** or **CPPs**, as the case may be; nor
 - (b) derogates from the application of a **DPP** to **gas transmission services** that are-
 - (i) supplied by the amalgamated GTB; and
 - (ii) not specified services,

pending expiry of any **DPP** or **CPP** applying to the specified services.

- (5) A **CPP** for an amalgamated **GTB** may not apply before 3 **disclosure years** of each **CPP** applying to the **GTBs** from which it was formed have been completed.
- (6) Upon the determination of a **CPP** for an amalgamated **GTB**, the termination date of any **CPP** to which the amalgamated **GTB** is subject, pursuant to subclauses (2) and (3), is treated as amended to the day before the day on which the **CPP** for the amalgamated **GTB** will apply.
- (7) Following an **amalgamation**, the **Commission** may not reset starting prices for specified services to take effect during the remainder of the **regulatory period** applicable to the specified services except-
 - (a) for the purpose of s 54K; or
 - (b) when making, upon application and in accordance with this clause, a **CPP determination** for the amalgamated **GTB**.
- (8) For the purposes of this clause, 'specified services' means **regulated goods or services supplied** by the amalgamated **GTB** that, at the time of amalgamation, were subject to a **DPP** or a **CPP**.

SUBPART 3 Incremental rolling incentive scheme

- 3.3.1 Calculation of annual incremental changes and adjustment term
- (1) The incremental change for the first disclosure year of a CPP regulatory period is determined as the difference between allowed controllable opex and actual controllable opex.
- (2) The incremental change for a **disclosure year** of a **CPP regulatory period** other than the first or final **disclosure year** year must be determined in accordance with the formula-

(allowed controllable opex_t - actual controllable opex_t) - (allowed controllable opex_{t-1} - actual controllable opex_{t-1}),

where-

t means the disclosure year in question; and

_{t-1} means the **disclosure year** preceding the **disclosure year** in question.

- (3) The incremental change for the final **disclosure year** of the **CPP regulatory period** is treated as nil.
- (4) The incremental adjustment term is determined-
 - (a) in the next disclosure year following a CPP regulatory period; and
 - (b) by applying the **inflation rate** to the result of the formula-

(allowed controllable opex_{t-1} - actual controllable opex_{t-2}) - (allowed controllable opex _{t-2} - actual controllable opex _{t-2})

where-

 $_{t-1}$ means the final **disclosure year** of the preceding **CPP regulatory period**; and

 $_{t-2}$ means the penultimate **disclosure year** of the preceding **CPP regulatory period**.

(5) Inflation rate means the amount determined in accordance with the formula-

$$[(CPI_1 + CPI_2 + CPI_3 + CPI_4) \div (CPI_1^{-4} + CPI_2^{-4} + CPI_3^{-4} + CPI_4^{-4})] -1,$$

where-

 CPI_n means forecast CPI for the nth quarter of the disclosure year in question; and CPI_n^{-4} means forecast CPI for the equivalent quarter in the preceding disclosure year.

- 3.3.2 Determination of amount to be taken into account as a recoverable cost
- (1) Each incremental change and **incremental adjustment term** determined in accordance with clause 3.3.1 is notionally carried forward, subject to clause 3.3.3, into each of the subsequent 5 **disclosure years** by applying the **inflation rate**.
- (2) In each of the **disclosure years** after a **CPP regulatory period** into which an amount has been carried pursuant to subclause (1), a net balance must be determined by addition of-
 - (a) any incremental changes carried into that disclosure year from a preceding regulatory period; and
 - (b) any incremental adjustment term carried into that disclosure year.
- 3.3.3 Calculating gains and losses after a catastrophic event

Where-

- (a) a price-quality path is amended pursuant to clause 5.7.7 by reason of a catastrophic event; and
- (b) incremental changes calculated in the remainder of the **regulatory period** in accordance with clauses 3.3.1(1) and 3.3.1(2) are negative,

clause 3.3.2(1) does not apply to those incremental changes.

PART 4 INPUT METHODOLOGIES FOR DEFAULT PRICE-QUALITY PATHS

SUBPART 1 Cost allocation

- 4.1.1 Allocation of operating costs and asset costs
- (1) Operating expenditure forecast for a GTB must be determined by the Commission consistent with the allocation by the GTB of operating costs to gas transmission services for the base year in accordance with clause 2.1.1.
- (2) Capital expenditure forecast to be the forecast aggregate value of commissioned assets will be included in the aggregate closing RAB for additional assets, but only to the extent that the forecast value of commissioned assets is consistent with the value found after application of clause 2.1.1.

SUBPART 2 Asset valuation

4.2.1 RAB values and roll forward

- (1) Total opening RAB value for a **disclosure year** means the sum of-
 - (a) **aggregate opening RAB value for existing assets** calculated under subclause (2); and
 - (b) aggregate opening RAB value for additional assets calculated under subclause (4) for those additional assets which have a forecast aggregate value of commissioned assets determined for a prior disclosure year occurring after the base year.
- (2) Aggregate opening RAB value for existing assets means, for-
 - (a) the **base year**, the sum of each 'opening RAB value' for all assets calculated in accordance with Part 2 for that **disclosure year**; and
 - (b) each disclosure year thereafter, the aggregate closing RAB value for existing assets for the preceding disclosure year.
- (3) Aggregate closing RAB value for existing assets means, for-
 - (a) the **base year**, the sum of each 'closing RAB value' for all assets calculated in accordance with Part 2 for that **disclosure year**; and
 - (b) each **disclosure year** thereafter, the value determined in accordance with the formula-

aggregate opening RAB value for existing assets – depreciation for existing assets + revaluation for existing assets – forecast aggregate value of disposed assets.

- (4) Aggregate opening RAB value for additional assets means the aggregate closing RAB value for additional assets for the preceding disclosure year.
- (5) Aggregate closing RAB value for additional assets means, for-

- (a) additional assets in respect of the disclosure year for which their forecast aggregate value of commissioned assets is determined, the forecast aggregate value of commissioned assets; and
- (b) additional assets for a disclosure year following that for which their forecast aggregate value of commissioned assets is determined, the value determined for those additional assets in accordance with the formula-

aggregate opening RAB value for additional assets – depreciation for additional assets + revaluation for additional assets.

4.2.2 <u>Total depreciation</u>

- (1) Total depreciation means the sum of depreciation for **existing assets** and **additional assets** calculated under subclause (2).
- (2) For the purpose of subclause (1), 'depreciation' means, subject to subclause (3), in the case of-
 - (a) existing assets of the GTB, for-
 - (i) the **base year**, the sum of all amounts of 'depreciation' determined in accordance with Part 2 for that **disclosure year**; and
 - (ii) each **disclosure year** thereafter, the value determined in accordance with the formula-
 - [1 ÷ remaining asset life for existing assets] × aggregate opening RAB value for existing assets; and
 - (b) **additional assets** of the **GTB**, the value determined in accordance with the formula-

[1 ÷ remaining asset life for additional assets] × aggregate opening RAB value for additional assets.

- (3) For the purpose of subclause (2)-
 - (a) 'remaining asset life for existing assets' for a **disclosure year** means the value determined in accordance with the formula-

aggregate opening RAB value for existing assets for the base year ÷ total depreciation for the base year,

less the number of **disclosure years** from the **base year** to the **disclosure year** in question; and

(b) 'remaining asset life for additional assets' for a disclosure year means 45 years less the number of disclosure years from the disclosure year for which the forecast aggregate value of commissioned assets for the relevant additional assets is determined to the disclosure year in question.

4.2.3 <u>Total revaluation</u>

(1) Total revaluation means the sum of revaluation for **existing assets** and **additional assets** calculated under subclause (2).

- (2) For the purpose of subclause (1), 'revaluation' means, subject to subclause (3), in the case of-
 - (a) existing assets, the value determined in accordance with the formula-

(aggregate opening RAB value for existing assets \times 0.999 – forecast aggregate value of disposed assets) \times revaluation rate; and

- (b) **additional assets**, the value determined in accordance with the formula**aggregate opening RAB value for additional assets** × *revaluation rate*.
- (3) For the purpose of subclause (2), 'revaluation rate' means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$(CPI_4 \div CPI_4^{-4}) - 1,$$

where-

*CPI*₄ means **forecast CPI** for the quarter that coincides with the end of the **disclosure year**; and

 CPI_4^{-4} means forecast CPI for the quarter that coincides with the end of the preceding disclosure year.

4.2.4 Revaluation treated as income

Total revaluation, for the purpose of determining profitability, must be treated as income.

4.2.5 Forecast aggregate value of commissioned assets

Forecast aggregate value of commissioned assets means the forecast cost of **additional assets** if **GAAP** were to be applied to determine the cost of the assets to the **GTB** in the **disclosure year** in question, and is equal to forecast **capital expenditure** for the relevant **disclosure year**, as determined by the **Commission**.

4.2.6 Forecast aggregate value of disposed assets

Forecast aggregate value of disposed assets means the value of assets forecast to be **disposed** of by a **GTB** in the **disclosure year** in question, and is equal to the portion of the forecast **aggregate opening RAB value for existing assets** relating to assets forecast to be **disposed** of for the **disclosure year** in question as determined by the **Commission**.

SUBPART 3 Treatment of taxation

4.3.1 Regulatory tax allowance

- (1) Regulatory tax allowance is, where regulatory net taxable income is-
 - (a) nil or a positive number, the tax effect of regulatory net taxable income; and
 - (b) a negative number, nil.

- (2) For the purpose of subclause (1), 'regulatory net taxable income' means, subject to subclause (3), regulatory taxable income less utilised tax losses
- (3) For the purpose of subclause (2) 'regulatory taxable income' means, subject to subclause (4), the amount determined in accordance with the formula-

regulatory profit / (loss) before tax + depreciation temporary differences – notional deductible interest.

(4) For the purpose of subclause (3), 'regulatory profit / (loss) before tax' is the amount determined in accordance with the following formula-

allowable revenue before tax + other regulated income – operating expenditure – total depreciation – term credit spread differential allowance.

4.3.2 Tax losses

- (1) Utilised tax losses means opening tax losses, subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) In this clause-
 - (a) 'opening tax losses' for a **disclosure year** means closing tax losses for the preceding **disclosure year**; and
 - (b) 'closing tax losses' means, for-
 - (i) the **base year**, the 'closing tax losses' determined in accordance with Part 2 for that **disclosure year**; and
 - (ii) each **disclosure year** thereafter, the amount determined in accordance with the formula, in which each term is an absolute value:

opening tax losses + current period tax losses — utilised tax losses.

- (4) For the purpose of subclause (3)(b)(ii), 'current period tax losses' is, where **regulatory taxable income** is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

4.3.3 <u>Depreciation temporary differences</u>

(1) Depreciation temporary differences means, subject to subclause (2), the amount determined in accordance with the formula-

total depreciation – *tax depreciation*.

- (2) For the purpose of subclause (1), 'tax depreciation' for a disclosure year means, for-
 - (a) the **base year**, the 'tax depreciation' determined in accordance with Part 2 for that **disclosure year**; and
 - (b) each **disclosure year** thereafter, subject to subclause (3), determined in accordance with the formula-

total opening regulatory tax asset value × average DV rate.

- (3) For the purpose of subclause (2)-
 - (a) 'total opening regulatory tax asset value' for a disclosure year means, for-
 - (i) the **base year**, the sum of each 'regulatory tax asset value' determined in accordance with Part 2 for that **disclosure year**; and
 - (ii) each **disclosure year** thereafter, the total closing regulatory tax asset value for the preceding **disclosure year**;
 - (b) 'average DV rate' is the amount determined in accordance with the formulatax depreciation for the base year ÷ total opening regulatory tax asset value for the base year; and
 - (c) 'total closing regulatory tax asset value' means the amount determined in accordance with the formula-

total opening regulatory tax asset value – tax depreciation + forecast aggregate value of commissioned assets.

4.3.4 Notional deductible interest

(1) Notional deductible interest means the amount determined in accordance with the formula-

(opening investment value × leverage × cost of debt) + term credit spread differential allowance.

(2) For the purpose of subclause (1), 'opening investment value' means the **total opening**RAB value.

SUBPART 4 Cost of capital

- 4.4.1 Methodology for estimating the weighted average cost of capital
- (1) The **Commission** will determine a mid-point estimate of vanilla **WACC**-
 - (a) as of the first **business day** of the month 7 months prior to the start of each **DPP regulatory period**;
 - (b) in respect of a 5 year period;
 - (c) no later than 6 months prior to the start of each **DPP regulatory period**; and
 - (d) in accordance with the formula-

$$r_d L + r_e (1 - L)$$
.

(2) In this clause-

L is **leverage**;

 r_d is the cost of debt and is estimated in accordance with the formula $r_f + p + d$;

 r_e is the cost of equity and is estimated in accordance with the formula-

$$r_f(1 - T_i) + \theta_e TAMRP;$$

- r_f is the risk-free rate;
- p is the **debt premium**;
- d is the debt issuance costs;
- T_i is the average investor tax rate;
- θ_e is the equity beta; and

TAMRP is the tax-adjusted market risk premium.

- (3) For the purpose of this clause-
 - (a) the average investor tax rate, the equity beta, the debt issuance costs and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 4.4.2; and
 - (b) the risk-free rate must be estimated in accordance with clause 4.4.3.

4.4.2 Fixed WACC parameters

- (1) Leverage is 44%.
- (2) The average investor tax rate is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the 5 year period commencing on the first day of the **DPP regulatory period** in question.
- (3) For the purpose of subclause (2) the investor tax rate-
 - (a) for the **disclosure year** 2011, is 29%; and
 - (b) for a **disclosure year** thereafter, is the maximum **prescribed investor rate** that will apply at the start of that **disclosure year** to an individual who is-
 - (i) resident in New Zealand; and
 - (ii) an investor in a multi-rate PIE.
- (4) The equity beta is 0.61.
- (5) The debt issuance costs are 0.35%.
- (6) The tax-adjusted market risk premium is, for a 5 year period commencing on the first day of-
 - (a) the disclosure year 2011, 7.1%; and
 - (b) a disclosure year thereafter, 7.0%.

4.4.3 Methodology for estimating risk-free rate

The Commission will estimate a risk-free rate-

- (a) as of the first **business day** of the month 7 months prior to the start of each **DPP regulatory period**;
- (b) in respect of a 5 year period; and
- (c) no later than 6 months prior to the start of each **DPP regulatory period**,

by-

- (d) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly interpolated bid yield to maturity for a residual period to maturity equal to 5 years on each business day in the month 8 months prior to the start of the DPP regulatory period;
- (e) calculating the annualised interpolated bid yield to maturity for each business day; and
- (f) calculating the un-weighted arithmetic average of the daily annualised interpolated bid yields to maturity.

4.4.4 Methodology for estimating debt premium

- (1) Debt premium means the spread between-
 - (a) the bid yield to maturity on vanilla NZ\$ denominated bonds that-
 - (i) are issued by a **GPB** or an **EDB**;
 - (ii) are publicly traded;
 - (iii) have a qualifying rating of grade BBB+; and
 - (iv) have a remaining term to maturity of 5 years; and
 - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (2) The **Commission** will estimate an amount for the debt premium-
 - (a) for each **DPP regulatory period**; and
 - (b) no later than 6 months prior to the start of each **DPP regulatory period**.
- (3) The amount of the debt premium will be estimated as of the first **business day** of the month 7 months prior to the start of each **DPP regulatory period** by-
 - (a) identifying publicly traded vanilla NZ\$ denominated bonds issued by a qualifying issuer that are-
 - (i) **investment grade credit rated**; and
 - (ii) of a type described in the paragraphs of subclause (4);
 - (b) in respect of each bond identified in accordance with paragraph (a)-
 - (i) obtaining its wholesale market annualised bid yield to maturity;
 - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and
 - (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity,

by deducting the yield calculated in accordance with sub-paragraph (ii) from the yield obtained in accordance with sub-paragraph (i),

for each **business day** in the month 8 months prior to the start of the **DPP regulatory period**;

- (c) calculating, for each such bond identified in accordance with paragraph (a), the un-weighted arithmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and
- (d) subject to subclause (4), estimating, by taking account of the average spreads identified in accordance with paragraph (c), the average spread that would reasonably be expected to apply to a **vanilla NZ\$ denominated bond** that-
 - (i) is issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (ii) is publicly traded;
 - (iii) has a qualifying rating of grade BBB+; and
 - (iv) has a remaining term to maturity of 5 years.
- (4) For the purpose of subclause (3)(d), the **Commission** will have regard, subject to subclause (5), to the spreads observed on the following types of **vanilla NZ\$** denominated bonds issued by a qualifying issuer:
 - (a) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (b) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by an entity other than a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (c) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (d) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by an entity, other than a GPB or an EDB that is neither majority owned by the Crown nor a local authority; and
 - (e) those that are-
 - (i) investment grade credit rated; and
 - (ii) issued by an entity that is majority owned by the Crown or a **local** authority.

- (5) For the purpose of subclause (4)-
 - (a) progressively lesser regard will ordinarily be given to the spreads observed on the bonds types described in subclause (4) in accordance with the order in which the bond types are described;
 - (b) the spread on any bond of the type described in subclause (4) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
 - (c) the **Commission** will adjust spreads observed on bonds described under subclauses (4)(b)to (4)(e) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (4)(a).

4.4.5 Standard error of debt premium

- (1) The Commission will estimate an amount for a standard error of the debt premium-
 - (a) no later than 6 months prior to the start of each **DPP regulatory period**; and
 - (b) as either-
 - (i) the result of the formula specified in subclause (2); or
 - (ii) 0.0015,

whichever is the greater.

(2) For the purpose of subclause (1)(b)(i), the formula is-

$$\sqrt{\frac{1}{N-1}\sum_{i=1}^{N} \mathbf{\Phi}_{i} - \overline{p}^{2}}$$

where-

N is the number of **qualifying issuers** issuing bonds of the type described in the subparagraphs of clause 4.4.4(3)(d);

 p_i is each **qualifying issuer's** arithmetic average spread for its bonds of the type described in the subparagraphs of clause subclause 4.4.4(3)(d); and

 \overline{p} is the **debt premium**,

provided that for the purposes of determining N and p_i , no regard may be had to any bonds of the types described in clauses 4.4.4(4)(b) to 4.4.4(4)(e).

4.4.6 Methodology for estimating the WACC standard error

A **standard error** for the **mid-point estimate of WACC** will be determined by the **Commission**-

- (a) no later than 6 months prior to the start of each **DPP regulatory period**; and
- (b) in accordance with the formula-

$$\sqrt{0.000144 + 0.1936 \text{var}(\hat{p})}$$

where $var(\hat{p})$ is the square of the **standard error** of the **debt premium** determined in accordance with clause 4.4.5.

4.4.7 Methodology for estimating the 75th percentile of the WACC

- (1) The Commission will determine a 75th percentile estimate of WACC-
 - (a) for each **DPP regulatory period**; and
 - (b) no later than 6 months prior to the start of each **DPP regulatory period**.
- (2) For the purpose of subclause (1)-
 - (a) the mid-point estimate of WACC must be treated as the 50th percentile; and
 - (b) the 75th percentile must be determined in accordance with the formula-

mid-point estimate of WACC + 0.674 × standard error,

where 'standard error' means the **standard error** of the **mid-point estimate of WACC**, as determined in accordance with clause 4.4.6(b).

4.4.8 Publication of estimates

The **Commission** will publish all determinations and estimates that it is required to make by this subpart-

- (a) on its website; and
- (b) no later than 1 month after having made them.

4.4.9 Application of cost of capital methodology

- (1) Where the **Commission** takes into account the cost of capital in making a **DPP determination**, the **Commission** will use the **75th percentile estimate of WACC** most recently published in accordance with clause 4.4.8.
- (2) **Term credit spread differential allowance** for a **disclosure year** and a **GTB** is the maximum of nil and the amount determined in accordance with the formula-

$$a \times b \div c$$
,

where-

 α means the 'term credit spread differential allowance' calculated in accordance with Part 2 for the **base year**;

b means the **total opening RAB value** for the **disclosure year** in question; and c means the **aggregate opening RAB value for existing assets** for the **base year**

(3) Where a **qualifying supplier** discloses a **term credit spread differential allowance** pursuant to an **ID determination**, the **Commission**, for the purpose of assessing the **qualifying supplier's** profitability pursuant to its powers relating to default price-quality

regulation in s 53P of the **Act**, will treat such an allowance as an expense in the **disclosure year** in respect of which that allowance was disclosed.

SUBPART 5 Reconsideration of the default price-quality path

4.5.1 Error

Error means incorrect data-

- (a) discovered in a DPP determination and clearly unintended by the **Commission** to be included in it; or
- (b) relied upon by the **Commission** in making or amending a DPP determination and clearly unintended by the Commission to be relied upon in making or amending it,

determined by the **Commission** to have an impact on the price path by an amount at least equivalent to 1% of the aggregated **allowable notional revenue** for the **disclosure years** of the **DPP** affected by the incorrect data.

4.5.2 When price-quality paths may be reconsidered

- (1) A GTB's DPP may be reconsidered by the Commission if-
 - (a) the **Commission** considers; or
 - (b) the **GTB** in question satisfies it, upon application,

that-

- (c) there has been error; or
- (d) subclause (2) applies.
- (2) This subclause applies if-
 - (a) false or misleading information relating to the making or amending of a **DPP determination** has been knowingly-
 - (i) provided by a **GTB** or its agents to the **Commission**; or
 - (ii) disclosed pursuant to the Gas (Information Disclosure) Regulations 1997 or an ID determination; and
 - (b) the Commission relied on that information in making or amending a DPP determination.

4.5.3 Amending price-quality path after reconsideration

- (1) Where, after reconsidering a **DPP**, the **Commission** determines that the **DPP** should be amended, the **Commission** may amend either or both of the price path or the quality standards specified in the **DPP determination**, subject to the rest of this clause.
- (2) The **Commission** will not amend the-
 - (a) price path more than is reasonably necessary to mitigate the effect of-
 - (i) **error**; or

- (ii) the provision of false or misleading information,on price; or
- (b) quality standards more than are reasonably necessary to mitigate the effect of-
 - (i) **error**; or
 - (ii) the provision of false or misleading information, on quality.

SUBPART 6 Treatment of periods that are not 12 month periods

4.6.1 Treatment of periods that are not 12 month periods

Where the start or end date of any **disclosure year** is not aligned with the start or end date of a **DPP regulatory period**, the **Commission** may apply the **input methodologies** modified to the extent necessary to allow any allowance, amount, cost, sum or value for that **disclosure year** to be calculated or determined in a way commensurate with the change in the length of the **disclosure year** to a period other than 12 months.

SUBPART 7 Availability of Information

4.7.1 Availability of information

- (1) Where a GTB has not disclosed the information necessary to calculate any allowance, amount, cost, sum or value referred to in this Part in accordance with Part 2 for a base year or a later disclosure year, then the information may instead be determined by the Commission using information disclosed by the GTB in accordance with an ID determination, prior information disclosure requirements or a request for information by the Commission under s 53ZD of the Act.
- (2) Any information determined in accordance with subclause (1) must be determined in accordance with Part 2 using such assumptions or modifications to the information that are reasonably necessary in light of the nature of the calculation or determination to be made and the nature of the information available.

PART 5 INPUT METHODOLOGIES FOR CUSTOMISED PRICE-QUALITY PATHS

SUBPART 1 Contents of a CPP application

5.1.1 Applying for a CPP

- (1) A **GTB** seeking a **CPP** in accordance with s 53Q of the **Act** must provide the **Commission** with a **CPP application**.
- (2) CPP application means the information specified in-
 - (a) this subpart; and
 - (b) Subpart 5.

5.1.2 Evidence of consumer consultation

For the purpose of clause 5.1.1(2)(a), in respect of **consumer** consultation, the specified information is-

- (a) a description as to how the requirements of clause 5.6.1 were met;
- (b) a list of respondents to the consultation required by that clause;
- a description of all issues raised by consumers in response to the CPP applicant's intended CPP proposal;
- (d) a summary of the arguments raised in respect of each issue described in accordance with paragraph (c); and
- (e) in respect of the issues described in accordance with paragraph (c), an explanation as to whether its **CPP proposal** accommodates the arguments referred to in (d); and
 - (i) if so, how; and
 - (ii) if not, why not.

5.1.3 Verification-related material

- (1) For the purpose of clause 5.1.1(2)(a), in respect of verification, the specified information is-
 - (a) a **verification report**; and
 - (b) any information relating to the CPP proposal, other than information required to be included in a CPP proposal by Subpart 5, provided to the verifier by or on behalf of the CPP applicant, pursuant to clause 5.6.2(3);
 - Examples: instructions as to how to interpret information provided to the **verifier**; details as to the source of the information; and
 - (c) subject to subclause (2), a certificate signed by the **verifier** stating that the relevant parts of the **CPP proposal** were verified and **verification report** was prepared in accordance with Schedule G.

(2) For the purpose of subclause (1)(c), the **CPP applicant** must ensure that the certificate required by that subclause relates to verification of the relevant parts of the **CPP proposal** as submitted to the **Commission**.

5.1.4 Audit report

- (1) For the purpose of clause 5.1.1(2)(a), in respect of audit, the specified information is a report written by an **auditor** and signed by that **auditor** (either in an individual's own name or that of a firm) in respect of an audit undertaken of the matters specified in clause 5.6.3, stating-
 - (a) the work done by the **auditor**;
 - (b) the scope and limitations of the audit;
 - (c) the existence of any relationships (other than that of **auditor**) which the **auditor** has with, or any interests which the **auditor** has in, the **CPP applicant** or any of its subsidiaries;
 - (d) whether the **auditor** obtained all information and explanations that he or she required to undertake the audit, and, if not-
 - (i) details of the information and explanations not obtained; and
 - (ii) any reasons provided by the CPP applicant for its or their non-provision;
 - (e) the **auditor's** opinion of the matters in respect of which the audit was undertaken.
- (2) For the avoidance of doubt, an audit report of an audit undertaken other than expressly for the purpose of clause 5.6.3 is an audit report complying with subclause (1) if the report relates to an audit fulfilling the requirements of clause 5.6.3.
- (3) The **CPP applicant** must ensure that the audit report required by this clause relates to the **CPP proposal** as submitted to the **Commission**.
- (4) For the avoidance of doubt, the audit report required by this clause need not be-
 - (a) prepared in advance of the verifier undertaking verification of the CPP proposal; nor
 - (b) provided to the verifier.
- (5) If, notwithstanding subclause (4), an audit report prepared in accordance with this clause is provided to the **verifier**, subclause (3) continues to apply.

5.1.5 Certification

- (1) For the purpose of clause 5.1.1(2)(a), in respect of certification, the specified information is the certificates recording the certifications specified in clause 5.6.4.
- (2) For the avoidance of doubt, one physical **document** may contain more than one of the certifications specified in clause 5.6.4.

SUBPART 2 Commission assessment of a customised price-quality path proposal

5.2.1 Evaluation criteria

The **Commission** will use the following evaluation criteria to assess each **CPP proposal**:

- (a) whether the **CPP proposal** is consistent with the **input methodologies** specified in Part 5;
- (b) the extent to which a **CPP** in accordance with the **CPP proposal** would promote the purpose of Part 4 of the **Act**;
- (c) whether data, analysis, and assumptions underpinning the **CPP proposal** are fit for the purpose of the **Commission** determining a **CPP** under s 53V, including consideration as to the accuracy and reliability of data and the reasonableness of assumptions and other matters of judgement;
- (d) whether proposed **capital expenditure** and **operating expenditure** meet the **expenditure objective**; and
- (e) the extent to which
 - the CPP applicant has consulted with consumers on its CPP proposal;and
 - (ii) the **CPP proposal** is supported by **consumers**, where relevant.

SUBPART 3 Determination of customised price-quality paths

SECTION 1 Determination of annual allowable revenues

5.3.1 Annual allowable revenues

Amounts for-

- (a) controllable opex for the CPP regulatory period;
- (b) **building blocks allowable revenue before tax** for the **next period**;
- (c) building blocks allowable revenue after tax for the next period;
- (d) maximum allowable revenue before tax for the CPP regulatory period; and
- (e) maximum allowable revenue after tax for the CPP regulatory period,

will be determined.

5.3.2 **Building blocks** allowable revenue before tax

(1) Building blocks allowable revenue before tax for each **disclosure year** of the **next period**, is, subject to subclause (2), determined in accordance with the formula-

(regulatory investment value $\times cost\ of\ capital + term\ credit\ spread\ differential\ allowance - total\ revaluation + total\ depreciation) <math>\div$ (1- corporate tax rate)

- + forecast operating expenditure
- other regulated income

- + (permanent differences + positive temporary differences negative temporary differences tax depreciation notional deductible interest utilised tax losses) \times (corporate tax rate \div (1- corporate tax rate)).
- (2) For the purpose of subclause (1), where regulatory net taxable income determined in accordance with clause 5.3.13(2), is negative using, for the purpose of clause 5.3.13(4), the amount of building blocks allowable revenue before tax determined in accordance with subclause (1), building blocks allowable revenue before tax is determined in accordance with the formula-

(regulatory investment value × cost of capital + term credit spread differential allowance - total revaluation + total depreciation)

- + forecast operating expenditure
- other regulated income.
- (3) Regulatory investment value means the amount obtained in accordance with the formula-

total opening RAB value + *RAB proportionate investment*.

- (4) For the purpose of subclause (3), 'RAB proportionate investment' means the sum of proportionate value of each asset forecast to be **commissioned** less the sum of proportionate value of each **disposed asset**.
- (5) For the purpose of subclause (4), 'proportionate value' means for-
 - (a) an asset forecast to be commissioned, its forecast value of commissioned asset multiplied by the proportion of that disclosure year in question from the forecast commissioning date to the end of that disclosure year out of the whole disclosure year; and
 - (b) a disposed asset, its opening RAB value multiplied by the proportion of the disclosure year in question from the start of that disclosure year to the date of sale or transfer out of the whole disclosure year.
- (6) For the purpose of subclause (1), 'cost of capital' means the 75th percentile estimate of WACC published most recently prior to submission of the CPP proposal, in respect of the term that the Commission has determined is the appropriate duration of the CPP.
- (7) Forecast operating expenditure means, in relation to a CPP proposal-
 - (a) that has not been assessed by the **Commission**, the amount of **operating expenditure** for the relevant **disclosure year** included by the **CPP applicant** in its **opex forecast**; or
 - (b) undergoing assessment by the **Commission**, the amount of **operating expenditure** determined for the relevant **disclosure year** by the **Commission**after assessment of the amount in paragraph (a) against the **expenditure objective**.
- (8) Other regulated income means income associated with the **supply** of **gas transmission** services other than-

- (a) through **prices**;
- (b) investment-related income;
- (c) capital contributions; or
- (d) vested assets.
- (9) For the purpose of this clause, all values and amounts are expressed in nominal terms.

5.3.3 **Building blocks** allowable revenue after tax

- (1) Building blocks allowable revenue after tax is **building blocks allowable revenue before** tax less forecast regulatory tax allowance.
- (2) For the purpose of this clause, all values and amounts are expressed in nominal terms.

5.3.4 Price path

- (1) The present value of the series of values of maximum allowable revenues after tax must equal the present value of the series of **building blocks allowable revenues after tax** less any value of claw-back for the **CPP regulatory period**, where present values are determined in accordance with subclause (3).
- (2) In subclause (1)-
 - (a) the reference to claw-back is a reference to claw-back, determined by the **Commission** pursuant to s 53V(2)(b), in response to a **CPP proposal** made in accordance with provisions in a **DPP determination** relating to the submission of **CPP proposals** in response to a **catastrophic event**; and
 - (b) each reference to a series of values is a reference to the value determined in respect of each **disclosure year** of the **CPP regulatory period**.
- (3) For the purpose of subclause (1), the present value of each series must be determined using a discount rate equal to the **75th percentile estimate of WACC** published most recently prior to submission of the **CPP proposal** in respect of the term that the **Commission** has determined is the appropriate duration of the **CPP**.
- (4) For the avoidance of doubt, claw-back will only be determined in respect of the period between the date of the **catastrophic event** and the date the **CPP determination** will come into effect.
- (5) The maximum allowable revenue before tax for the first **disclosure year** of the **CPP regulatory period** is the amount of maximum allowable revenue before tax in the first **disclosure year** of the **CPP regulatory period** required for subclause (1) to be satisfied.
- (6) The maximum allowable revenue before tax for each disclosure year of the CPP regulatory period except the first must equal-

$$MAR_{v-1} \times (1 + \triangle CPI) \times (1 - X) \times (1 + \triangle Q),$$

where-

 MAR_{y-1} is the maximum allowable revenue before tax in the preceding disclosure year;

 $\triangle CPI$ is the **inflation rate**;

X is the X factor for the **GTB**, being the same value in each year of the **CPP** regulatory period; and

 $\triangle Q$ is the forecast weighted average growth in quantities (in percentage terms) from the preceding **disclosure year** to the current **disclosure year**.

- (7) The forecast weighted average growth in quantities (in percentage terms) for each **disclosure year** must be weighted by taking into account-
 - (a) the relative growth in demand for each **demand group**; and
 - (b) the relative proportion of fixed and variable components in **prices** charged to either or both of-
 - (i) retailers; and
 - (ii) consumers.
- (8) Maximum allowable revenue after tax is **maximum allowable revenue before tax** less forecast regulatory tax allowance.
- (9) For the purpose of subclause (8), 'forecast regulatory tax allowance' means-
 - (a) where **opening tax losses** are nil in every **disclosure year** of the **next period**, **forecast regulatory tax allowance**; and
 - (b) in all other cases, the amount calculated in accordance with clause 5.3.13 with the modification that the reference in clause 5.3.13(4) to 'building blocks allowable revenue before tax' is substituted with 'maximum allowable revenue before tax'.

SECTION 2 Cost allocation and asset valuation

- 5.3.5 Allocating forecast values of operating costs not directly attributable
- (1) Forecasts of **operating costs** in each **disclosure year** of the **next period** must, in the case of an **operating cost** for which disclosure pursuant to an **ID determination** has-
 - (a) been made for the last **disclosure year** of the **current period**, be consistent with the **operating cost** allocated to **gas transmission services** in that disclosure; and
 - (b) not been so made, be consistent with an allocation of operating costs to gas transmission services carried out in respect of the last disclosure year of the current period in accordance with clause 2.1.1.
- (2) Where a sale of the assets used to supply gas transmission services and either or both-
 - (a) an other regulated service; and
 - (b) an unregulated service,

is-

- (c) completed between the start of the assessment period and the time the CPP application is made; or
- (d) highly probable,

operating costs attributable to **gas transmission services**, in respect of each **operating cost** not **directly attributable** affected by the sale, is determined as the value allocated to **gas transmission services** as a result of applying clause 2.1.1 in respect of the last **disclosure year** of the **assessment period**.

5.3.6 RAB roll forward

- (1) The opening RAB value of an asset in relation to-
 - (a) the disclosure year 2010, is the initial RAB value; and
 - (b) a disclosure year thereafter, is, where the disclosure year-
 - follows a disclosure year in respect of which disclosure pursuant to an ID determination relating to that asset has been made, that asset's disclosed closing RAB value;
 - (ii) is the first disclosure year of the next period for which disclosure pursuant to an ID determination relating to that asset for the preceding disclosure year has not been made, determined in accordance with subclause (2); or
 - (iii) is any other disclosure year, the closing RAB value for the preceding disclosure year.
- (2) For the purpose of subclause (1)(b)(ii), the opening RAB value of an asset to which this subclause applies is determined as the value allocated to **gas transmission services** as a result of applying clause 2.1.1 to its **unallocated closing RAB value** for the preceding **disclosure year**.
- (3) Closing RAB value means, subject to subclause (4), for an asset-
 - (a) with an **opening RAB value**, the value determined in accordance with the formula-

opening RAB value - depreciation + revaluation;

- (b) having or forecast to have a commissioning date in that disclosure year, where the asset-
 - (i) has been **commissioned** by the date the **CPP application** is made, its **value of commissioned asset**; or
 - (ii) has not been **commissioned** by the date the **CPP application** is made, its **forecast value of commissioned asset**,

but only to the extent that the value would be included in the closing RAB value consistent with application of clause 2.1.1; or

- (c) that is or is forecast to be a **disposed asset**, nil.
- (4) For the purpose of subclause (3), where a sale of the assets used to **supply gas transmission services** and either or both-
 - (a) an other regulated service; and
 - (b) an unregulated service,

is-

- (c) completed between the start of the assessment period and the time the CPP application is made; or
- (d) highly probable,

closing RAB value in respect of each asset not **directly attributable** affected by the sale is determined as the value allocated to **gas transmission services** as a result of applying clause 2.1.1 in respect of its **unallocated closing RAB value** of the last **disclosure year** of the **assessment period**.

- (5) The unallocated opening RAB value of any asset in relation to-
 - (a) the disclosure year 2010, is the unallocated initial RAB value;
 - (b) a disclosure year thereafter, is, where the disclosure year-
 - (i) follows a **disclosure year** in respect of which disclosure pursuant to an **ID determination** relating to that asset has been made, that asset's disclosed **unallocated closing RAB value**; and
 - (ii) is any other **disclosure year**, its **unallocated closing RAB value** in the preceding **disclosure year**.
- (6) Unallocated closing RAB value means, in relation to-
 - (a) an asset that is or is forecast to be a disposed asset, nil;
 - (b) any other asset with an **unallocated opening RAB value**, the value determined in accordance with the formula-

unallocated opening RAB value - unallocated depreciation + unallocated revaluation; and

- (c) any other asset-
 - that has a commissioning date between the commencement of the disclosure year in which the CPP application is made and the application's submission, its value of commissioned asset; or
 - (ii) forecast to have a commissioning date thereafter, its forecast value of commissioned asset.
- (7) The total opening RAB value in relation to-
 - (a) the disclosure year 2010, is the sum of all initial RAB values; and
 - (b) any **disclosure year** thereafter, is the total closing RAB value in the preceding **disclosure year**.
- (8) For the purpose of subclause (7), 'total closing RAB value' means, in relation to a **disclosure year**, the sum of **closing RAB values** for all assets.

5.3.7 Depreciation

(1) Unallocated depreciation, in the case of an asset with an **unallocated opening RAB value**, is determined, subject to subclause (3) and clauses 5.3.8 and 5.3.9, in accordance with the formula-

[1 ÷ remaining asset life] × unallocated opening RAB value.

(2) Depreciation, in the case of an asset with an **opening RAB value**, is determined, subject to subclause (3) and clause 5.3.8, in accordance with the formula-

[1 ÷ remaining asset life] × opening RAB value.

- (3) For the purposes of subclauses (1) and (2)-
 - (a) unallocated depreciation and depreciation are nil in the case of-
 - (i) **land**; and
 - (ii) an easement other than a fixed life easement; and
 - (iii) **network spare** in respect of the period before which depreciation for the **network spare** in question commences under **GAAP**; and
 - (b) in all other cases, where the asset's **physical asset life** of an asset at the end of the **disclosure year** is nil-
 - (i) unallocated depreciation is the asset's **unallocated opening RAB value**; and
 - (ii) depreciation is the asset's **opening RAB value**.

5.3.8 Depreciation - alternative method

- (1) Depreciation and, subject to clause 5.3.9, unallocated depreciation may be determined in respect of a **CPP regulatory period** using an alternative method to the **standard depreciation method**, provided the **Commission** is satisfied that the result of applying the alternative method would better promote the purpose of Part 4 than the result of applying the **standard depreciation method**.
- (2) For the avoidance of doubt, subclause (1) does not apply to the determination of depreciation or unallocated depreciation in the **assessment period**.

5.3.9 Unallocated depreciation constraint

For the purposes of clauses 5.3.7 and 5.3.8, the sum of **unallocated depreciation** of an asset calculated over its **asset life** may not exceed the sum of-

- (a) all unallocated revaluations applying to that asset in all disclosure years; and
- (b) in the case of an asset-
 - (i) in the initial RAB, its unallocated initial RAB value; and
 - (ii) not in the **initial RAB**, its **value of commissioned asset** or **forecast value of commissioned asset**, as the case may be.

5.3.10 Revaluation

(1) Unallocated revaluation, subject to subclause (3), is determined in accordance with the formula-

unallocated opening RAB value × revaluation rate.

(2) Revaluation, subject to subclause (3), is determined in accordance with the formula-

opening RAB value × revaluation rate.

- (3) For the purposes of subclauses (1) and (2), where-
 - (a) the asset's physical asset life at the end of the disclosure year in question is nil; or
 - (b) the asset is a-
 - (i) disposed asset; or
 - (ii) lost asset,

unallocated revaluation and revaluation are nil.

(4) Revaluation rate means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$(CPI_4 \div CPI_4^{-4}) -1,$$

where-

CPI₄ means forecast CPI for the quarter that coincides with the end of the disclosure year; and

 CPI_4^{-4} means forecast CPI for the quarter that coincides with the end of the preceding disclosure year.

5.3.11 Forecast value of commissioned assets

- (1) Forecast value of commissioned asset, in relation to an asset for which **capital expenditure** is included in forecast capital expenditure (including an asset in respect of which **capital contributions** are or are forecast to be received, or a **vested asset**), is the forecast cost of the asset to a **GTB** determined by applying **GAAP** to the asset as on its forecast **commissioning date**, except that, subject to subclauses (2) and (3), the cost of-
 - (a) an intangible asset, unless it is-
 - (i) a **finance lease**; or
 - (ii) an identifiable non-monetary asset,

is nil;

- (b) an **easement**, is limited to its forecast market value as on its forecast **commissioning date** as determined by a **valuer**;
- (c) easement land is nil;
- (d) a network spare-
 - (i) which is not required, in light of the historical reliability and number of the assets it is held to replace; or
 - (ii) whose cost is not treated as the cost of an asset under **GAAP**, whether wholly or in part,

is nil;

(e) an asset-

- (i) to be acquired from another regulated supplier; and
- (ii) used by that regulated supplier in the supply of regulated goods or services,

is limited to its value determined in accordance with **input methodologies** applicable to the **services supplied** by that other **regulated supplier** as on the forecast **commissioning date**;

- (f) an asset that was previously used by a GTB in its supply of other regulated services is limited to its value determined in accordance with input methodologies applicable to those other regulated services as on the day before the forecast commissioning date;
- (g) an asset or assets, or components of assets, forecast to be acquired from a related party, and forecast to be commissioned during any disclosure year of the CPP regulatory period other than assets to which paragraphs (e) or (f) apply, are the forecast values as determined by the GTB, supported by a written certification by no fewer than 2 directors of the GTB that they are reasonably satisfied that the asset values are consistent with values determined in accordance with subclause (6);
- (h) an asset in respect of which capital contributions are or are forecast to be received where such contributions are not taken into account when applying GAAP, is the cost of the asset by applying GAAP reduced by the amount of the capital contributions; and
- (i) a vested asset in respect of which its fair value is or would be treated as its cost under GAAP, must exclude any amount of the fair value of the asset determined under GAAP that exceeds the amount of consideration provided or forecast to be provided by the GTB.
- (2) For the purpose of subclause (1), where an **asset** forecast to be **commissioned** is forecast to be used to **supply** either or both an **other regulated service** and an **unregulated service**, its **regulated service asset value** borne by **regulated services**, in aggregate-
 - (a) may not exceed the total value of the asset that would be allocated to regulated services, in aggregate, using ACAM; and
 - (b) must be based only on forecast changes in the **GTB's** business of **supplying** gas transmission services.
- (3) When applying **GAAP** for the purpose of subclause (1), the cost of financing is-
 - (a) applicable only in respect of the period commencing on the date the asset becomes or is forecast to become a **works under construction** and terminating on its **commissioning date** or forecast **commissioning date**, as the case may be; and
 - (b) calculated using, subject to subclause (4), a rate no greater than the 75th percentile estimate of post-tax **WACC**-
 - (i) published pursuant to clause 2.4.8 applicable in respect of the relevant date for its calculation under **GAAP**; or

- (ii) where no estimate has been published in respect of that date, the most recently published estimate.
- (4) For the avoidance of doubt-
 - (a) revenue derived or forecast to be derived in relation to works under construction that is not included in regulatory income under an ID determination or preceding regulatory information disclosure requirements reduces the cost of an asset by the amount of the revenue where such reduction is not otherwise made under GAAP; and
 - (b) where expenditure on an asset which forms or is forecast to form part of the cost of that asset under GAAP is incurred or forecast to be incurred by a GTB after that asset is commissioned or forecast to be commissioned, such expenditure is treated as relating to a separate asset.
- (5) In this clause, 'forecast capital expenditure' means, in relation to a CPP proposal-
 - (a) that has not been assessed by the Commission, the amount of capital expenditure for the relevant disclosure year of the next period included by the CPP applicant in its capex forecast; and
 - (b) undergoing assessment by the Commission, the amount of capital expenditure determined for the relevant disclosure year of the next period by the Commission after assessment of the amount in paragraph (a) against the expenditure objective.
- (6) For the purpose of paragraph **Error! Reference source not found.**5.3.11(1)(g), the forecast value of any assets, or components of assets, must be consistent with values determined in accordance with one of the following
 - (a) the forecast price to be paid by the **GTB** for the asset, where the forecast cost of all assets to be acquired from the **related party** and first **commissioned** in any **disclosure year** of the **CPP regulatory period** will be less than
 - (i) one percent of the sum of **opening RAB values** for the **GTB** for that **disclosure year**, or
 - (ii) 20% of the cost of all assets to be first **commissioned** by the **GTB** in that **disclosure year**;
 - (b) the forecast price to be paid by the GTB for the asset, where-
 - (i) it is reasonably expected that at least 50% of the related party's sales of assets will be to third parties in the disclosure year in which the asset is first commissioned, and third parties may purchase the same or substantially similar assets from the related party on substantially the same terms and conditions, including price; or
 - that forecast price is substantially the same as the price paid for substantially similar assets (including any adjustments for inflation using CPI or an appropriate input price index) in the preceding 3 disclosure years from a party other than a related party;

- (c) the price to be paid by the GTB to the related party for an asset to be commissioned in a disclosure year in the CPP regulatory period has been determined following a completed competitive tender process, provided that—
 - (i) the price is no more than 5% higher than the price of the lowest conforming tender received;
 - (ii) all relevant information material to consideration of the proposal was provided to third parties, or made available upon request;
 - (iii) at least one other qualifying proposal was received; and
 - (iv) the GTB retains for a period of 7 years following the closing date of tender proposals a record of the tender and tender process, including request for information and/or proposal, the criteria used for the assessment of proposals, reasons for acceptance or rejection of proposals, and all proposals and requests for information on the tender for the purposes of making proposals;
- (d) its forecast depreciated historic cost on the day before the forecast acquisition by the **GTB** determined in accordance with **GAAP**;
- (e) its forecast inventory value on the day before the forecast acquisition by theGTB determined in accordance with GAAP;
- (f) its forecast market value as at its commissioning date as determined by a valuer;
- (g) its forecast directly attributable cost as would be incurred by the group to which the GTB and related party are a part, determined in accordance with GAAP, as if the consolidated group was the GTB;
- (h) the forecast price to be paid by the **GTB** for the asset reflects the price or prices that would be paid in an arm's-length transaction, provided the price cannot otherwise be determined under paragraphs (a) (g).

5.3.12 Works under construction

- (1) Opening works under construction means, in respect of-
 - (a) the first disclosure year of the next period where that year is consecutive to a disclosure year in respect of which disclosure pursuant to an ID determination-
 - (i) has not been made, initial works under construction; and
 - (ii) has been made, the value of works under construction last disclosed in accordance with the **ID determination**; and
 - (b) any year other than the first disclosure year of the next period, closing works under construction of the preceding disclosure year.
- (2) For the purpose of subclause (1)(a)(i), 'initial works under construction' means expenditure incurred on **works under construction** as of the first day of the **disclosure year** in question, calculated in accordance with clause 5.3.11, modified in that references

- in that clause to "forecast **commissioning date**" are substituted with "forecast date that expenditure is incurred".
- (3) Closing works under construction is the amount determined in accordance with the formula-

opening works under construction + sum of capital expenditure - (sum of value of commissioned assets + sum of forecast value of commissioned assets).

where-

- (a) the sum of value of commissioned assets only includes values to the extent that they are included in closing RAB values disclosed pursuant to an ID determination: and
- (b) the sum of **forecast value of commissioned assets** only includes values to the extent that they are included in the sum of **closing RAB values** provided pursuant to clause 5.5.9(d)(ii).

SECTION 3 Treatment of taxation

5.3.13 Forecast regulatory tax allowance

- (1) Forecast regulatory tax allowance is, where forecast regulatory net taxable income is-
 - (a) nil or a positive number, the **tax effect** of forecast **regulatory net taxable income**; and
 - (b) a negative number, nil.
- (2) Regulatory net taxable income means regulatory taxable income less utilised tax losses.
- (3) Regulatory taxable income is determined in accordance with the formula-

regulatory profit / (loss) before tax + permanent differences + temporary differences - notional deductible interest.

(4) Regulatory profit / (loss) before tax means the value determined in accordance with the formula-

building blocks allowable revenue before tax + other regulated income - operating expenditure - total depreciation.

(5) Notional deductible interest means the amount determined in accordance with the formula-

(regulatory investment value \times leverage \times cost of debt) + term credit spread differential allowance.

5.3.14 Tax losses

- (1) Utilised tax losses means **opening tax losses** subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable** income.
- (3) Opening tax losses in relation to-

- (a) the first **disclosure year** of the **next period**, is nil, subject to subclause (4); and
- (b) subsequent **disclosure years** of the **next period**, is closing tax losses for the preceding **disclosure year**.
- (4) For the purpose of subclause (3)(a), if the **Commission** is satisfied that a **GTB** will incur forecast tax losses, opening tax losses is the amount of losses in respect of which the **Commission** is satisfied.
- (5) For the purpose of subclause (3)(b), 'closing tax losses' means the amount determined in accordance with the following formula, in which each term is an absolute value:

opening tax losses + current period tax losses - utilised tax losses.

- (6) In this clause, 'current period tax losses' is, where forecast regulatory taxable income is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

5.3.15 Permanent differences

- (1) Permanent differences is the amount determined in accordance with the formulapositive permanent differences - negative permanent differences.
- (2) For the purpose of subclause (1), 'positive permanent differences' means the sum of-
 - (a) all amounts of income-
 - (i) treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
 - (ii) not included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining **regulatory profit / (loss) before tax**; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services,

if the difference in treatment of amounts of-

- (c) income under paragraph (a)(i) and paragraph (a)(ii); or
- (d) expenditure or loss under paragraph (b)(i) and paragraph (b)(ii),

is a difference that is not-

- (e) a reversal or partial reversal of a difference for a prior disclosure year; and
- (f) forecast to **reverse** in a subsequent **disclosure year**.
- (3) For the purpose of subclause (1), 'negative permanent differences' means, subject to subclause (4), the sum of-

- (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss)before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
- (b) all amounts of expenditure or loss-
 - treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services;
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i) and paragraph (b)(ii),

and such differences are not-

- (e) the reversal of a difference in a prior disclosure year; and
- (f) forecast to **reverse** in a subsequent **disclosure year**.
- (4) For the purpose of subclause (3), negative permanent differences excludes any amounts that are-
 - (a) expenditure or loss determined in accordance with the tax rules that is-
 - (i) interest; or
 - (ii) forecast to be incurred in borrowing money; and
 - (b) any-
 - (i) tax losses; and
 - (ii) subvention payment made or received by a GTB.

5.3.16 <u>Temporary differences</u>

(1) Temporary differences is the amount determined in accordance with the formula-

depreciation temporary differences + positive temporary differences - negative temporary differences.

- (2) For the purpose of this clause, 'depreciation temporary differences' means **total depreciation** less tax depreciation.
- (3) For the purpose of subclause (2) 'tax depreciation' means the sum of the amounts determined by application of the **tax depreciation rules** to the **regulatory tax asset value** of each asset.
- (4) Positive temporary differences means the sum of-
 - (a) all amounts of income-

- (i) treated as taxable if the tax rules were applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
- (ii) not included as amounts of income in determining regulatory profit / (loss) before tax; and
- (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining **regulatory profit / (loss) before tax**; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services,

less any amount that is depreciation temporary differences, if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i) and paragraph (b)(ii),

and such differences-

- (e) are the **reversal** of a difference in a prior **disclosure year**; or
- (f) are forecast to **reverse** in a subsequent **disclosure year**.
- (5) Negative temporary differences means the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss)before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services;
 and
 - (b) all amounts of expenditure or loss-
 - treated as deductions were the tax rules applied to determine income tax payable in respect of the GTB's supply of gas transmission services; and
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

less any amount that is depreciation temporary differences, if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i)b)(i) and paragraph (b)(ii),

and such differences-

- (e) are the reversal of a difference in a prior disclosure year; or
- (f) are forecast to **reverse** in a subsequent **disclosure year**.

5.3.17 Regulatory tax asset value

(1) Regulatory tax asset value, in relation to an asset, means the value determined in accordance with the formula-

tax asset value \times result of asset allocation ratio.

- (2) For the purpose of subclause (1) 'tax asset value' means, in respect of-
 - (a) an asset-
 - (i) in the initial RAB where, in the disclosure year 2010, the sum of unallocated initial RAB values is less than the sum of the adjusted tax values of all assets in the initial RAB;
 - (ii) acquired from a regulated supplier who used it to supply regulated goods or services; or
 - (iii) acquired or transferred from a related party,

the value of the asset determined by applying the **tax depreciation rules** to its notional tax asset value: and

- (b) in respect of any other asset, its forecast adjusted tax value.
- (3) 'Notional tax asset value' means, for the purpose of-
 - (a) subclause (2)(a)(i), **adjusted tax value** of the asset in the **disclosure year** 2010 adjusted to account proportionately for the difference between the-
 - (i) sum of the unallocated initial RAB values; and
 - (ii) sum of the adjusted tax values,

of all assets in the initial RAB;

- (b) subclause (2)(a)(ii), value after applying the tax depreciation rules to the tax asset value (as 'tax asset value' is defined in the input methodologies applying to the regulated goods or services in question) in respect of the disclosure year in which the asset was acquired; and
- (c) subclause (2)(a)(iii), value in respect of the **disclosure year** in which the asset was acquired or transferred that is-
 - (i) consistent with the tax rules; and
 - (ii) limited to its value of commissioned asset.
- (4) For the purpose of subclause (1), 'result of asset allocation ratio' means, where an asset or group of assets maintained under the **tax rules**-
 - (a) has a matching asset or group of assets maintained for the purpose of Part 2 Subpart 2, the value obtained in accordance with the formula-

opening RAB value or sum of **opening RAB values**, as the case may be

÷

unallocated opening RAB value or sum of unallocated opening RAB values, as the case may be,

- applying the formula in respect of the asset or smallest group of assets maintained for the purpose of Part 2 Subpart 2 that has a matching asset or group of assets maintained under the **tax rules**; and
- (b) does not have a matching asset or group of assets maintained for the purpose of Part 2 Subpart 2, the value of the asset allocated to the supply of gas transmission services were clause 2.1.1 to apply to the asset or group of assets.

SECTION 4 Cost of capital

5.3.18 Methodology for estimating the weighted average cost of capital

- (1) The **Commission** will determine mid-point estimates of vanilla **WACC** for the **disclosure year** 2012 and each **disclosure year** thereafter-
 - (a) in respect of-
 - (i) a 3 year period;
 - (ii) a 4 year period; and
 - (iii) a 5 year period,

commencing on the first day of the month 7 months prior to the start of the **disclosure year**;

- (b) in the month 7 months prior to the start of the **disclosure year**; and
- (c) in accordance with the formula-

$$r_d L + r_e (1 - L)$$
.

- (2) The **Commission** will estimate or determine, as the case may be, the amounts or values-
 - (a) to which this subclause applies; and
 - (b) in respect of the **disclosure year** 2011,

as soon as practicable after this determination comes into force.

- (3) In this clause-
 - L is **leverage**;
 - r_d is the cost of debt and is estimated in accordance with the formula $r_f + p + d$;
 - r_e is the cost of equity and is estimated in accordance with the formula $r_f(1 T_i) + \theta_e TAMRP$;
 - r_f is the risk-free rate;
 - p is **debt premium**;
 - d is the debt issuance costs;
 - T_i is the average investor tax rate;
 - θ_e is the equity beta; and

TAMRP is the tax-adjusted market risk premium.

- (4) For the purpose of this clause-
 - (a) the average investor tax rate, the equity beta, the debt issuance costs, and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 5.3.19; and
 - (b) the risk-free rate must be estimated in accordance with clause 5.3.20.

5.3.19 Fixed WACC parameters

- (1) Leverage is 44%.
- (2) The average investor tax rate is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the **CPP regulatory period** in question.
- (3) For the purpose of subclause (2), 'investor tax rate' is the maximum **prescribed investor** rate applicable at the start of the **disclosure year** to an individual who is-
 - (a) resident in New Zealand; and
 - (b) an investor in a multi-rate PIE.
- (4) The equity beta is 0.79.
- (5) The debt issuance costs are, for the purpose of calculating a vanilla WACC to match—
 - (a) a 3 year period, 0.58%;
 - (b) a 4 year period, 0.44%; and
 - (c) a 5 year period, 0.35%.
- (6) The tax-adjusted market risk premium is 7.0%.

5.3.20 Methodology for estimating risk-free rate

- (1) The **Commission** will estimate a risk-free rate in respect of the 5 year period-
 - (a) commencing on the first day of the month 7 months prior to the start of each disclosure year; and
 - (b) in the month 7 months prior to the start of each **disclosure**;

by-

- (c) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly-interpolated bid yield to maturity for a residual period to maturity equal to 5 years on each **business day** in the month 8 months prior to the start of the **disclosure year**;
- (d) calculating the annualised interpolated bid yield to maturity for each business day; and
- (e) calculating the un-weighted arithmetic average of the daily annualised interpolated bid yields to maturity.
- (2) The risk-free rate for the purpose of calculating a vanilla **WACC** to match a-
 - (a) 3 year period must be estimated by applying subclause (1) with the modification that each reference to "5" is substituted with "3"; and

(b) 4 year period must be estimated by applying subclause (1) with the modification that each reference to "5" is substituted with "4".

5.3.21 Methodology for estimating debt premium

- (1) Debt premium means the spread between-
 - (a) the bid yield to maturity on vanilla NZ\$ denominated bonds that-
 - (i) are issued by a GPB or an EDB;
 - (ii) are publicly traded;
 - (iii) have a qualifying rating of grade BBB+; and
 - (iv) have a remaining term to maturity of 5 years; and
 - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (2) The **Commission** will estimate an amount for the debt premium in the month 7 months prior to the start of each **disclosure year**.
- (3) For the purpose of calculating a vanilla **WACC** to match a 5 year period, an amount for the debt premium will be estimated in respect of the first **business day** of the month 7 months prior to the start of each **disclosure year** by-
 - (a) identifying publicly traded vanilla NZ\$ denominated bonds issued by a qualifying issuer that are-
 - (i) investment grade credit rated; and
 - (ii) of a type described in the paragraphs of subclause (4);
 - (b) in respect of each bond identified in accordance with paragraph (a)-
 - (i) obtaining its wholesale market annualised bid yield to maturity;
 - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and
 - (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity, by deducting the yield calculated in accordance with sub-paragraph (ii) from the yield obtained in accordance with sub-paragraph (i),

for each **business day** in the month 8 months prior to the start of the **disclosure year**;

(c) calculating, for each bond identified in accordance with paragraph (a), the unweighted arithmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and

- (d) subject to subclause (4), estimating, by taking account of the average spreads identified in accordance with paragraph (c), the average spread that would reasonably be expected to apply to a vanilla NZ\$ denominated bond that-
 - (i) is issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (ii) is publicly traded;
 - (iii) has a qualifying rating of grade BBB+; and
 - (iv) has a remaining term to maturity of 5 years.
- (4) For the purpose of subclause (3)(d), the **Commission** will have regard, subject to subclause (5), to the spreads observed on the following types of **vanilla NZ\$** denominated bonds:
 - (a) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (b) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by an entity other than a **GPB** or an **EDB** that is neither majority owned by the Crown nor a **local authority**;
 - (c) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by a GPB or an EDB that is neither majority owned by the Crown nor a local authority;
 - (d) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by an entity, other than a GPB or an EDB that is neither majority owned by the Crown nor a local authority; and
 - (e) those that are-
 - (i) investment grade credit rated; and
 - (ii) issued by an entity that is majority owned by the Crown or a **local** authority.
- (5) For the purpose of subclause (4)-
 - (a) progressively lesser regard will ordinarily be given to the spreads observed on the bond types described in subclause (4) in accordance with the order in which the bond types are described;
 - (b) the spread on any bond of the type described in subclause (4) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an

- equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
- (c) the **Commission** will adjust spreads observed on bonds described under subclauses (4)(b) to (4)(e) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (4)(a).
- (6) An amount of a **debt premium** for the purpose of calculating vanilla **WACC** to match a-
 - (a) 3 year period will be estimated by applying the preceding subclauses of this clause with the modification that each reference to "5" is substituted with "3"; and
 - (b) 4 year period will be estimated by applying the preceding subclauses of this clause with the modification that each reference to "5" is substituted with "4".

5.3.22 Standard error of debt premium

- (1) The Commission will make all estimates of standard errors of debt premiums-
 - (a) in accordance with this clause; and
 - (b) in the month 7 months prior to the start of each **disclosure year**.
- (2) The **Commission** will estimate an amount for a **standard error** of a **debt premium** for the purpose of calculating a vanilla **WACC** to match a 5 year period as either-
 - (a) the result of the formula-

$$\sqrt{\frac{1}{N-1}\sum_{i=1}^{N} \mathbf{\Phi}_{i} - \overline{p}^{2}}$$

where-

N is the number of **qualifying issuers** issuing bonds of the type described in the subparagraphs of clause 5.3.21(3)(d);

 p_i is each **qualifying issuer's** arithmetic average spread for its bonds of the type described in the clause subclause 5.3.21(3)(d); and

 \overline{p} is the **debt premium** obtained in accordance with clause 5.3.21(3),

provided that for the purposes of determining N and p_i , no regard may be had to any bonds of the types described in clauses 5.3.21(4)(b) to 5.3.21(4)(e); or

(b) 0.0015,

whichever is the greater.

- (3) The **Commission** will estimate an amount for a **standard error** of a **debt premium** for the purpose of calculating a vanilla **WACC** to match a 3 year period as either-
 - (a) the product of the formula-

$$\sqrt{\frac{1}{N-1}\sum_{i=1}^{N} \boldsymbol{\phi}_{i} - \overline{p}^{2}}$$

where-

N is the number of **qualifying issuers** issuing bonds of the type described in the subparagraphs of clause 5.3.21(3)(d) as modified by clause 5.3.21(6)(a);

 p_i is each **qualifying issuer's** arithmetic average spread on its bonds of the type described in the subparagraphs of clause 5.3.21(3)(d) as modified by clause 5.3.21(6)(a); and

 \overline{p} is the **debt premium** obtained in accordance with clause 5.3.21(3) as modified by clause 5.3.21(6)(a),

provided that for the purposes of determining N and p_i , no regard may be had to any bonds of the types described in clauses 5.3.21(4)(b) to 5.3.21(4)(e) as modified by clause 5.3.21(6)(a); or

(b) 0.0015,

whichever is the greater.

- (4) The **Commission** will estimate an amount for the purpose of calculating a vanilla **WACC** to match a 4 year period as either-
 - (a) the result of the formula-

$$\sqrt{\frac{1}{N-1}\sum_{i=1}^{N} \mathbf{\Phi}_i - \overline{p}^{2}}$$

where-

N is the number of **qualifying issuers** issuing bonds of the type described in the subparagraphs of clause 5.3.21(3)(d) as modified by clause 5.3.21(6)(b);

 p_i is each **qualifying issuer's** arithmetic average spread for its bonds of the type described in the subparagraphs of clause 5.3.21(3)(d) as modified by clause 5.3.21(6)(b); and

 \overline{P} is the **debt premium** obtained in accordance with clause 5.3.21(3) as modified by clause 5.3.21(6)(b),

provided that for the purposes of determining N and p_i , no regard may be had to any bonds of the types described in clauses 5.3.21(4)(b) to 5.3.21(4)(e) as modified by clause 5.3.21(6)(b); or

(b) 0.0015,

whichever is the greater.

5.3.23 Methodology for estimating the WACC standard error

- (1) The Commission will determine standard errors for mid-point estimates of WACC-
 - (a) to match periods of-
 - (i) 3 years;
 - (ii) 4 years; and
 - (iii) 5 years,

commencing on the first day of the month 7 months prior to the start of each **disclosure year**;

- (b) in the month 7 months prior to the start of each disclosure year; and
- (c) in accordance with the formula-

$$\sqrt{0.000144 + 0.1936 \text{var}(\hat{p})}$$

where $\operatorname{var}(\hat{p})$ is the square of the **standard error** of the **debt premium** determined in accordance with clause 5.3.22(3), 5.3.22(4) or 5.3.22(1) to match a term of 3 years, 4 years or 5 years, as the case may be.

5.3.24 Methodology for estimating the 75th percentile of the vanilla WACC

- (1) The **75th percentile estimates** of the **WACC** will be estimated by the **Commission**, subject to clause (2), in respect of **mid-point estimates of WACC**-
 - (a) to match terms of-
 - (i) 3 years;
 - (ii) 4 years; and
 - (iii) 5 years,

commencing on the first day of the month 7 months prior to the start of each **disclosure year**; and

- (b) in the month 7 months prior to the start of each disclosure year.
- (2) For the purpose of subclause (1)-
 - (a) a mid-point estimate of WACC must be treated as the 50th percentile; and
 - (b) its corresponding 75th percentile must be determined in accordance with the formula-

mid-point estimate of WACC + 0.674 × standard error,

where 'standard error' means the **standard error** of the relevant **mid-point estimate of WACC**, as determined in accordance with clause 5.3.22(4)(b).

5.3.25 Publication of estimates

The **Commission** will publish all determinations and estimates that it is required to make by this section-

(a) on its website; and

(b) no later than 1 month after having made them.

5.3.26 Interpretation of terms relating to term credit spread differential

- (1) Qualifying debt means a line of debt-
 - (a) with an original tenor greater than, for the purpose of calculating a vanilla **WACC** to match a-
 - (i) 3 year period, 3 years;
 - (ii) 4 year period, 4 years; or
 - (iii) 5 year period, 5 years; and
 - (b) issued by a qualifying supplier.
- (2) Qualifying supplier means a **CPP applicant** whose debt portfolio, as at the date of that supplier's audited financial statements published most recently prior to making the **CPP application**, has a weighted average original tenor greater than, for the purpose of calculating a vanilla **WACC** to match a-
 - (a) 3 year period, 3 years;
 - (b) 4 year period, 4 years; or
 - (c) 5 year period, 5 years.
- (3) Cost of executing an interest rate swap means the amount determined in accordance with the formula-

 $A \times B$,

where-

- (a) 'A' is the amount that is half of the New Zealand dollar wholesale bid and offer spread for a vanilla interest rate swap determined at the time of pricing the qualifying debt (which, for the avoidance of doubt, is expressed in terms of basis points per annum); and
- (b) 'B' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.

5.3.27 Term credit spread difference

(1) Term credit spread difference is determined in accordance with the formula-

 $T \times U$,

where-

(a) 'T' is the amount determined in accordance with the formula-

$$(V - W) - (X - Y);$$

except that where that amount is-

- (i) less than 0.0015, T is 0.0015; and
- (ii) more than 0.006, T is 0.006; and

- (b) 'U' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.
- (2) For the purpose of subclause (1)-
 - (a) 'V' is the yield shown on the Bloomberg New Zealand 'A' fair value curve for a bond with a tenor equal to, or closest to, the original tenor of the qualifying debt;
 - (b) 'W' is the New Zealand swap rate quoted by Bloomberg for a bond with a tenor equal to the original tenor of the qualifying debt;
 - (c) 'X' is the yield shown on the Bloomberg New Zealand 'A' fair value curve for a bond with a tenor of 5 years;
 - (d) 'Y' is the New Zealand swap rate quoted by Bloomberg for a bond with a tenor of 5 years; and
 - (e) V, W, X and Y are determined as at the same time on the same pricing date of the **qualifying debt**.
- (3) For the purpose of this clause, where the **qualifying debt** is issued to a **related party**, 'original tenor of the **qualifying debt**' means the-
 - (a) tenor of the qualifying debt; or
 - (b) period from the **qualifying debt**'s date of issue to the earliest date on which its repayment is or may be required,

whichever is the shorter.

- (4) The term credit spread difference for the purpose of calculating a vanilla **WACC** to match a–
 - (a) 3 year period will be estimated by applying the preceding subclauses of this clause with the modification that each reference to '5 years' is substituted with '3 years'; and
 - (b) 4 year period will be estimated by applying the preceding subclauses of this clause with the modification that each reference to '5 years' is substituted with '4 years'.

5.3.28 Methodology for estimating term credit spread differential

- (1) This clause applies to the determination of the amount of any **term credit spread differential** in respect of a **qualifying debt** proposed in a **CPP proposal**.
- (2) **Term credit spread differentials** may only be determined in respect of a **qualifying supplier**.
- (3) Term credit spread differential is the amount determined in accordance with the formula-

$$(A \div B) \times C \times D$$
,

where-

(a) 'A' is the sum of the-

- (i) term credit spread difference;
- (ii) cost of executing an interest rate swap; and
- (iii) debt issuance cost re-adjustment, as determined in accordance with subclause (4);
- (b) 'B' is the book value of the **qualifying supplier's** total interest-bearing debt as at the date to which the supplier's financial statements audited and published most recently before the **CPP proposal** is made relate;
- (c) 'C' is leverage; and
- (d) 'D' is, in relation to the qualifying supplier, the average of-
 - (i) the sum of opening RAB values; and
 - (ii) the sum of closing RAB values.
- (4) For the purpose of subclause (3)(a)(iii), the amount of the debt issuance cost readjustment is determined in accordance with the formula-

 $(0.0175 \div original\ tenor\ of\ the\ qualifying\ debt)$ - $(0.0175 \div orig$

which amount, for the avoidance of doubt, will be a negative number.

SUBPART 4 Pricing methodologies

- 5.4.1 Determination of pricing methodology
- (1) The **Commission** will determine a pricing methodology for a **GTB** in a **CPP determination** if the **Commission**, in its most recent summary and analysis made pursuant to s 53B(2)(b) of the **Act** prior to submission of the **CPP application**, has identified that the **GTB** in question would be required to submit its pricing methodology for approval were it to apply for a **CPP**.
- (2) Any pricing methodology so determined-
 - (a) must be-
 - (i) consistent with the pricing principles; or
 - (ii) a transitional pricing methodology; and
 - (b) must be specified in a CPP determination.
- (3) Transitional pricing methodology means-
 - (a) a pricing methodology inconsistent with the **pricing principles** for a term no longer than the **CPP regulatory period**; and
 - (b) a plan providing for the **GTB** to transition to a pricing methodology consistent with the **pricing principles** in a reasonable period.
- 5.4.2 Pricing methodology information during the CPP regulatory period
- (1) This clause applies to **GTBs** in respect of whom a pricing methodology has been specified in a **CPP determination**.

- (2) In each **disclosure year** of a **CPP regulatory period** save the last, a **GTB** must, by the date specified in the applicable **CPP determination**-
 - (a) provide the **Commission** with the same type of information as is required by clause 5.5.29, modified in that the relevant period to which the information relates is the start of the next **disclosure year** of the **CPP regulatory period** to the end of the **CPP regulatory period**; and
 - (b) state whether or not the information so provided reveals the proposed use of a pricing methodology different to the pricing methodology specified in its CPP determination;
 - (c) describe and give reasons for any such differences; and
 - (d) explain whether, and if so how, the proposed changes better meet the purpose of Part 4.

5.4.3 Amendments to a pricing methodology

- (1) Subject to subclause (2), after considering the most recent information provided in accordance with clause 5.4.2, the **Commission** may only-
 - (a) amend the pricing methodology specified in the relevant CPP determination;or
 - (b) substitute a new pricing methodology for that specified in the relevant **CPP determination**,

otherwise than in accordance with the information provided by the **GTB** where the **Commission** considers that the information reveals the proposed use of a pricing methodology materially different to that specified in the relevant **CPP determination**.

- (2) For the purpose of subclause (1), any amended or substituted pricing methodology must be-
 - (a) consistent with the pricing principles; or
 - (b) a transitional pricing methodology.
- (3) The **Commission** will not make any amendment or substitution permitted by this clause more than once in any **disclosure year** of the **CPP regulatory period**.

SUBPART 5 Information required in a CPP proposal

SECTION 1 General matters

5.5.1 Application of this subpart

- (1) Subject to subclause (2), a **CPP proposal** must contain at least the information specified in this subpart.
- (2) For the purpose of subclause (1), Section 9 only applies to a **GTB** if the **Commission**, in its most recent summary and analysis made pursuant to s 53B(2)(b) of the **Act** prior to submission of the **CPP application**, has identified that the **GTB** in question would be required to submit a pricing methodology for approval were it to apply for a **CPP**.

5.5.2 Reasons for the proposal

A CPP proposal must contain a-

- (a) detailed description of the CPP applicant's rationale for seeking a CPP; and
- (b) summary of the key evidence in the proposal supporting that rationale.

5.5.3 Duration of regulatory period

Where a CPP applicant seeks a CPP of 3 years' or 4 years' duration-

- (a) the duration of the CPP sought must be stated in the CPP proposal; and
- (b) the **CPP proposal** must contain an explanation as to why that duration better meets the purpose of Part 4 of the **Act** than 5 years.

SECTION 2 Price path information

5.5.4 <u>Interpretation</u>

- (1) In this section, the meanings of defined terms that are values or amounts to be determined by the **Commission** when making a **CPP determination** are modified to mean the values or amounts proposed by the **CPP applicant**, subject to any other provision to the contrary.
- (2) Any values and amounts used by a **CPP applicant** to determine the quantum of allowances, amounts, sums or values required by this section must be consistent with other information provided in accordance with this part.

5.5.5 Proposed building blocks allowable revenue

- (1) A CPP proposal must contain amounts for-
 - (a) **building blocks allowable revenue before tax** for each **disclosure year** of the **next period**; and
 - (b) **building blocks allowable revenue after tax** for each **disclosure year** of the **next period**.
- (2) A **CPP proposal** must contain all data, information, calculations and assumptions used to determine the amounts required by subclause (1), including but not limited to-
 - (a) forecasts of-
 - (i) regulatory investment value;
 - (ii) total depreciation;
 - (iii) total revaluation;
 - (iv) regulatory tax allowance; and
 - (v) other regulated income;
 - (b) all data, information, calculations and assumptions used to derive the forecasts of other regulated income provided pursuant to paragraph (a);
 - (c) forecast operating expenditure; and
 - (d) any proposed term credit spread differential allowance.
- (3) A **CPP proposal** must contain the following information:

- (a) actual other regulated income for each disclosure year of the current period;
 and
- (b) data, calculations and assumptions demonstrating how the forecast of **other regulated income** provided pursuant to subclause (2)(a)(v) is consistent with information provided in accordance with paragraph (a).
- (4) All calculations, values and amounts required by this clause must be presented in a spreadsheet format which-
 - (a) clearly demonstrates how building blocks allowable revenue before tax and building blocks allowable revenue after tax for each disclosure year of the next period have been derived using the formulae specified in clauses 5.3.2 and 5.3.3; and
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, makes the underlying formulae accessible.

5.5.6 Maximum Allowable Revenues

- (1) A CPP proposal must contain amounts for-
 - (a) maximum allowable revenue before tax for each disclosure year of the CPP regulatory period; and
 - (b) maximum allowable revenue after tax for each disclosure year of the CPP regulatory period.
- (2) For the purpose of subclauses (1)(a) and (1)(b), the CPP applicant must-
 - (a) apply an X factor; and
 - (b) state the value of the X factor.
- (3) For the purpose of subclause (2) the X factor is that defined in the **CPP applicant's DPP determination**, subject to subclause (4).
- (4) For the purpose of subclause (3), a different X factor may be used provided that the **CPP proposal** contains an explanation and supporting evidence as to why it would better meet the purpose of Part 4 of the **Act**.
- (5) A **CPP proposal** must contain all data, calculations and assumptions used to derive the forecast weighted average growth in quantities in accordance with clause 5.3.4(7), including-
 - (a) a description of each **demand group**;
 - (b) the rationale for the selection of **demand groups**;
 - (c) the forecast growth in demand for each **demand group**;
 - (d) the basis for the forecast growth in demand for each **demand group**;
 - (e) evidence that the forecast growth in demand for each demand group is consistent with all other relevant demand forecasts included in the CPP proposal;

- (f) the basis for the assumptions used concerning the relative proportion of fixed and variable components in the **prices** charged to each **demand group** selected in paragraph (a);
- (g) reconciliation between the assumptions referred to in paragraph (f) and the calculation of **notional revenue** made pursuant to any requirement pursuant to s 53N of the **Act** (whether that requirement is contained in a s 52P determination or otherwise) relating to compliance with the price-quality path; and
- (h) the basis for each weighting term.
- (6) For the purpose of this clause, 'DPP annual compliance statement' means the most recent annual compliance statement made by the supplier in accordance with a DPP determination.
- (7) All calculations and values required by this clause must be presented in a spreadsheet format which clearly demonstrates how maximum allowable revenue before tax and maximum allowable revenue after tax for each disclosure year of the CPP regulatory period have been derived from building blocks allowable revenue after tax and the variables in clause 5.5.5.
- (8) For the purpose of subclause (7), the spreadsheet must be provided in a format that-
 - (a) shows clearly how the values required by subclause (1) were derived in accordance with the formulae specified in clauses 5.3.2 to 5.3.4; and
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, makes the underlying formulae accessible.

SECTION 3 Cost allocation information

5.5.7 Cost allocation information

- (1) Where a CPP applicant-
 - (a) makes allocations of **operating costs** not **directly attributable** pursuant to clause 5.3.5(1); or
 - (b) determines **opening RAB values** pursuant to clause 5.3.6(1)(b)(ii),

the CPP proposal must contain the information specified in subclause (2).

- (2) For the purpose of subclause (1), the information is that specified in the applicable tables in Schedule D, subject to subclause (4), which tables comprise-
 - (i) Table 1, relating to allocation of the **unallocated initial RAB value**;
 - (ii) Table 2, relating to allocation of the unallocated closing RAB value;
 - (iii) Table 3, relating to allocation of operating costs not directly applicable;
 - (iv) Table 4, relating to arm's-length deductions from regulated service asset values for assets wth an unallocated closing RAB value in the last disclosure year of the current period; and
 - (v) Table 5, relating to arm's-length deductions from operating costs.
- (3) In respect of-

- (a) operating costs not directly attributable allocated to gas transmission services in accordance with clause 5.3.5(2); or
- (b) **closing RAB values** determined in accordance with clause 5.3.6(4),

the **CPP proposal** must contain the information specified in Schedule C, subject to subclause (4), which tables comprise-

- (c) Table 1, relating to allocation of the unallocated closing RAB value;
- (d) Table 2 relating to allocation of **operating costs** not **directly applicable**;
- (e) Table 3, relating to arm's-length deductions from regulated service asset values for assets wth an unallocated closing RAB value at the end of the last disclosure year of the assessment period; and
- (f) Table 4, relating to arm's-length deductions from operating costs.
- (4) For the purpose of this clause-
 - (a) the information specified in the tables of the schedules referred to must be provided on spreadsheets; and
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, all underlying formulae must be accessible.

5.5.8 <u>Certification requirements</u>

(1) Where any **arm's-length deduction** was applied for the purpose of this Section, the **CPP proposal** must contain certification by no fewer than 2 of the **GTB's directors** in the following terms, where words in bold bear the meanings specified in this determination:

"I, [insert name], **director** of [insert name of supplier of **services** regulated under Part 4 of the Commerce Act] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information [information required by clause 5.5.7(2)] for the purpose of the supplier's **CPP proposal**, it was appropriate to make the **arm's-length deductions** the amount and nature of which are detailed in the tables below, namely:

Table 4 of Schedule B / Table 5 of Schedule B / Table 3 of Schedule C / Table 4 of Schedule C [delete as appropriate]."

(2) Where, in relation to **regulated service asset values**, **OVABAA** was applied for the purpose of this clause in accordance with Subpart 3 Section 2, the **CPP proposal** must contain certification by no fewer than 2 of the **GTB's directors** in respect of its application in the following terms, where words in bold bear the meanings specified in this determination:

"I, [insert name], **director** of [insert name of Supplier of **services** regulated under Part 4 of the Commerce Act] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information (being information required by clause 5.5.7(2)) for the purpose of the supplier's **CPP proposal**-

(a) the attached information is accurate;

- (b) the **OVABAA** was applicable in accordance with clause 2.1.2; and
- (c) the following unregulated services would be unduly deterred had adjustments to allocations of regulated service asset values (in accordance with clause 2.1.5) not been made: [list relevant unregulated services]."
- (3) Where, in relation to **operating costs** provided in a **CPP proposal** in accordance with subclause 5.5.6(1) and Schedule C, the **OVABAA** was applied, the **CPP proposal** must contain certification by no fewer than 2 of the **GTB's directors** in respect of application of the **OVABAA** in the following terms:

"I, [insert name], **director** of [insert name of Supplier of **services** regulated under Part 4 of the Commerce Act] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information (being information required by clause 5.5.7(2)) for the purpose of the supplier's **CPP proposal**-

- (a) the attached information is accurate;
- (b) the **OVABAA** was applicable in accordance with clause 2.1.2; and
- (c) the following **unregulated services** would be **unduly deterred** had adjustments to allocations of **operating costs** (in accordance with clause 2.1.5) not been made: [list relevant **unregulated services**]."

SECTION 4 Asset valuation information

5.5.9 RAB roll forward information

In respect of each disclosure year commencing after-

- (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
- (b) where disclosure has not been made pursuant to an **ID determination**, the **disclosure year** 2009,

to the last **disclosure year** of the **next period**, provide values, in accordance with Subpart 3 Section 2, for the-

- (c) total opening RAB value; and
- (d) sum of each of the following things:
 - (i) forecast value of commissioned assets; and
 - (ii) closing RAB values.

5.5.10 Depreciation information

- (1) In respect of each **disclosure year** of the **CPP regulatory period**, provide the information specified in this clause.
- (2) The sum of **depreciation** for each type of asset-
 - (a) for which the proposed method of determining depreciation is the **standard depreciation method**; and
 - (b) for which the proposed method of determining depreciation is something other than the **standard depreciation method**.

- (3) For each type of asset to which subclause (2)(b) applies-
 - (a) a description of type of asset;
 - (b) a description of the proposed depreciation method;
 - (c) where the proposed **asset life** is different to the **physical asset life**, the proposed **asset life** for the type of asset;
 - (d) where the proposed asset life for the type of asset is different to the **physical** asset life, the proposed remaining asset life;
 - forecast depreciation over the asset life for the type of asset, including details of all assumptions made;
 - (f) forecast **depreciation** over the **asset life** for the type of asset determined in accordance with the **standard depreciation method**;
 - (g) evidence to demonstrate that the proposed depreciation method including, where applicable, any proposed asset life different to the physical asset life, better meets the purpose of Part 4 of the Act than the standard depreciation method; and
 - (h) a description of any consultation undertaken with **consumers** on the proposed depreciation method, including-
 - (i) the extent of any consumer disagreement; and
 - (ii) the **GTB's** view in response.
- (4) For each asset or type of asset for which a different **physical asset life** to the **standard physical asset life** is proposed-
 - (a) a description of the assets or types of asset;
 - (b) to which clauses 2.2.8(1)(c) and 2.2.8(1)(e)(v) apply, an **engineer's** report addressing the suitability of the proposed **physical asset life**; and
 - (c) any other evidence to demonstrate that the requirements of clause 2.2.8 in respect of the particular type of asset are met.

5.5.11 Revaluation information

- (1) In respect of each disclosure year commencing after-
 - (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
 - (b) where disclosure has not been made pursuant to an **ID determination**, the disclosure year 2009,

to the last **disclosure year** of the **next period** provide the following things:

- (c) sum of opening RAB values;
- (d) **forecast CPI** for the last quarter of the **dislosure year**;
- (e) **forecast CPI** for the last quarter of the preceding **disclosure year**; and
- (f) revaluation rate.

5.5.12 Commissioned assets information

(1) In respect of each **disclosure year** commencing after-

- (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
- (b) where disclosure has not been made pursuant to an **ID determination**, the disclosure year 2009,

to the last disclosure year of the next period, provide the-

- (c) sum value of commissioned assets; and
- (d) sum forecast value of commissioned assets,

in respect of each of the following groups of assets:

- (e) assets-
 - (i) acquired or intended to be acquired from a **related company**; or
 - (ii) transferred from a part of the GTB that supplies unregulated services;
- (f) assets-
 - acquired or intended to be acquired from another regulated supplier and used by that regulated supplier in the supply of regulated services; or
 - (ii) transferred or intended to be transferred from a part of the **GTB** that supplies **other regulated services**;
- (g) network spares; and
- (h) all other assets having a **commissioning date** or forecast to have a **commissioning date** in that period.
- (2) In respect of each value provided in accordance with subclause (1), provide-
 - (a) all data, information, calculations and assumptions used to derive it from relevant data provided in the **capex forecast**; and
 - (b) where **capital contributions** are taken into account in any value disclosed pursuant to subclause (1)-
 - (i) the amount of such **capital contributions**, with respect to asset types and quantities; and
 - (ii) policies relevant to such capital contributions.
- (3) In respect of each asset to which subclause (1)(e) applies, provide-
 - (a) the name of the relevant **person** or other part of the **GTB**, as the case may be; and
 - (b) where the acquisition was or is intended to be from a **related company**, a description of the relationship between the **GTB** and that **person**.
- (4) In respect of the likely vendor of each asset to which subclause (1)(f) applies, provide-
 - (a) the name of the vendor;
 - (b) a description of each asset likely to be acquired from that vendor; and
 - (c) the forecast **closing RAB value** of each asset in the vendor's regulatory asset base for the **disclosure year** in which the acquisition is intended.

5.5.13 Asset disposals information

- (1) In respect of each disclosure year commencing after-
 - (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
 - (b) where disclosure has not been made pursuant to an **ID determination**, the **disclosure year** 2009,

to the last **disclosure year** of the **next period**, in respect of each of the following groups of assets:

- (c) assets likely to be-
 - (i) sold to a **related company**; or
 - (ii) transferred to another part of the GTB; and
- (d) all other disposed assets,

provide the-

- (e) sum of unallocated opening RAB values; and
- (f) sum of opening RAB values.
- (2) In respect of each asset to which the values provided for the purpose of subclause (1) relate, provide-
 - (a) the name of the relevant person or other part of the **GTB**, as the case may be; and
 - (b) where the disposal is proposed to be to a **related company**, a description of the relationship between the **GTB** and that person.

5.5.14 Works under construction information

In respect of each disclosure year commencing after-

- (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
- (b) where disclosure has not been made pursuant to an **ID determination**, the **disclosure year** 2009,

to the last disclosure year of the next period, provide-

- (c) opening works under construction;
- (d) sum of capital expenditure;
- (e) sum of value of commissioned assets but only to the extent that values are included in closing RAB values disclosed pursuant to an ID determination;
- (f) sum of **forecast value of commissioned assets** but only to the extent that values are included in the sum of **closing RAB values** provided pursuant to clause 5.5.9(d)(ii); and
- (g) sum of closing works under construction.

SECTION 5 Tax information

5.5.15 Interpretation

In this section, a term that is not emboldened but is defined for the purpose of a specific clause in Subpart 3 Section 3 bears the same meaning as it does in the clause of Subpart 3 Section 3 in which it is defined.

5.5.16 Period in respect of which information to be provided

A **CPP proposal** must contain, the information specified in this section in respect of each **disclosure year** commencing after-

- (a) where disclosure has been made pursuant to an **ID determination**, the last disclosure so made; or
- (b) where disclosure has not been made pursuant to an **ID determination**, the **disclosure year** 2009,

to the last disclosure year of the next period, in accordance with Subpart 3 Section 3.

5.5.17 Regulatory tax allowance information

- (1) **forecast regulatory tax allowance** and particulars of how it was calculated
- (2) other regulated income
- (3) notional deductible interest and the cost of debt assumptions relied upon in its calculation

5.5.18 Tax losses information

- (1) amount of opening tax losses (if any) and particulars of how it was calculated
- (2) information describing the nature and amounts of significant items giving rise to any opening tax losses
- (3) information demonstrating that any **opening tax losses** arose from the **supply** of **gas transmission services**

5.5.19 Permanent differences information

- (1) sum of positive permanent differences
- (2) sum of negative permanent differences
- (3) amounts and nature of items used to determine-
 - (a) positive permanent differences; and
 - (b) negative permanent differences

5.5.20 Tax depreciation rates

description of the methodology and depreciation rates by **asset category** used to determine the forecast tax depreciation

5.5.21 Regulatory tax asset value information

- (1) sum of tax asset values at the start of the disclosure year
- (2) sum of tax asset values by asset category at the start of the disclosure year
- (3) sum of regulatory tax asset values at the start of the disclosure year

- (4) sum of regulatory tax asset values by asset category at the start of the disclosure year
- (5) weighted average remaining tax life of assets and tax depreciation methodology employed, by **asset category**
- (6) particulars of the calculation used to derive the **regulatory tax asset values** at the start of the **disclosure year** from the tax asset values at the start of the **disclosure year**
- (7) sum of regulatory tax asset values at the end of the disclosure year
- (8) reconciliation between the sum of **regulatory tax asset values** at the start of the **disclosure year** and the sum of **regulatory tax asset values** at the end of the **disclosure year**, by **asset category**, showing the values of capital additions, disposals, tax depreciation and other asset adjustments including cost allocation adjustments

SECTION 6 Cost of capital information

5.5.22 Information regarding WACC

- (1) A **CPP proposal** must identify the **75th percentile estimate of WACC** used for the purpose of clause 5.5.5(1).
- For the purpose of subclause (1), the identified **75th percentile estimate of WACC** must be the amount most recently published by the **Commission** in accordance with clause 5.3.25 prior to submission of the **CPP proposal** corresponding to the **GTB's** proposed duration of the **CPP regulatory period**.
- (3) Where a **term credit spread differential allowance** is proposed, a **CPP proposal** must contain all data, information, calculations, Bloomberg print-outs and assumptions used to determine any proposed **term credit spread differential**.

SECTION 7 Expenditure information

5.5.23 Capex, opex, demand and network qualitative information

The information specified in Schedule D must be-

- (a) contained in a CPP proposal; and
- (b) provided in accordance with the requirements of that schedule.

5.5.24 Capex, opex, demand and network quantitative information

- (1) A **CPP proposal** must contain the information specified in the **regulatory templates** and that information must be-
 - in spreadsheet format whereby each item of data is linked between all cells to which it is relevant, irrespective of whether such cells are on the same or different tabs; and
 - (b) provided in accordance with the instructions specified in clause 5.5.25.
- (2) Regulatory templates means the tables included in Schedule E named-
 - (a) Table 1: Top 5;
 - (b) Table 2: Capex Summary;
 - (c) Table 3: Opex Summary;
 - (d) Table 4: Capex Project Programme;
 - (e) Table 5: Opex Project Programme;

- (f) Table 6: Overheads;
- (g) Table 7: Unit rate escalators;
- (h) Table 8: Cost allocation A; and
- (i) Table 9: Cost allocation B.
- (3) Where data provided in accordance with subclause (1) has been computed or derived from other amounts or values on the spreadsheet through the use of formulae, the underlying formulae for the cells containing the data must be accessible.
- (4) For the purpose of subclause (1), terms used in the **regulatory templates** must be interpreted in the same way as those terms are defined for the purpose of Schedule D.

5.5.25 <u>Instructions for completion of the regulatory templates</u>

- (1) Provide the information specified in the Capex Project Programme and Opex Project Programme tables of the **regulatory templates** for each **project** and for each **programme**.
- (2) For the purpose of specifying the relevant **capex category** or **opex category** in accordance with subclause (1), where expenditure within each **project** or **programme** is relevant to more than one **capex category** or **opex category**-
 - (a) select the **capex category** or **opex category** that is most relevant based on the nature of the expenditure; or
 - (b) redefine the **project** or **programme** into two or more new **projects** or **programmes** and reallocate the expenditure so as to resolve the overlap.
- (3) For the purpose of specifying the relevant service category in accordance with subclause (1), where expenditure within each project or programme is relevant to more than one service category-
 - (a) select the **service category** that is most relevant based on the nature of the expenditure; or
 - (b) redefine the **project** or **programme** into two or more new **projects** or **programmes** and reallocate the expenditure so as to resolve the overlap.
- (4) For the purpose of subclause (1), the total Project/Programme amounts provided in the Asset Category sub-table must reconcile to the total Project/Programme amounts provided in the Project Costs by Source sub-table.
- (5) Provide the information specified in the Overheads table of the **regulatory templates** in respect of **general management, administration and overheads opex**.
- (6) Provide the information specified in the Unit rate escalators table of the **regulatory templates** for each unit rate for which an escalator has been applied.
- (7) Provide the information specified in the Top 5 table of the regulatory templates-
 - (a) in respect of **projects** or **programmes** meeting paragraph (a) or (b) of the definition in clause D1 of Schedule D of identified programme; and
 - (b) using the information provided in accordance with subclause (1).

- (8) Provide the information specified in the Capex Summary and Opex Summary tables of the **regulatory templates** using the information provided in accordance with subclause (1).
- (9) Where clause 5.3.5(2) applies, provide the information specified in the Cost allocation B table of the **regulatory templates**.

5.5.26 <u>Transitional information format provisions</u>

- (1) For **CPP proposals** made on or before 31 March 2016, the **CPP proposal** may contain actual and forecast expenditure information-
 - (a) relating to the **current period** and **next period** using the **opex categories** and **capex categories**; or
 - (b) in accordance with the-
 - (i) **CPP applicant's** own **opex** categories and **capex** categories in respect of the **current period** and **next period**; and
 - (ii) opex categories and capex categories in respect of the next period.
- (2) For the avoidance of doubt, where information is provided in accordance with subclause (1)(b), project or programme total expenditures in each disclosure year of the next period must be consistent between the forecasts.

SECTION 8 Information relevant to prices

5.5.27 Information on proposed new pass-through costs

A **CPP proposal** must contain details of any cost not specified in clause 3.1.2(2) that is sought to be specified as a new pass-through cost in accordance with clause 3.1.2(1)(b), including information on-

- (a) how the cost is likely to arise;
- (b) who the cost would be payable to;
- (c) how the cost would be calculated;
- (d) any good or service the GTB would receive in exchange; and
- (e) how the cost meets the criteria specified in clause 3.1.2(3).

5.5.28 <u>Information on proposed recoverable costs relating to costs of making CPP application</u>

Where a **CPP applicant** seeks specification in the **CPP determination** of a **recoverable cost** to which clause 3.1.3(1)(f), 3.1.3(1)(g), or 3.1.3(1)(h) applies, it must provide, in relation to each **auditor**, **verifier** or **engineer** who was engaged to provide an opinion on some aspect of the **CPP proposal** in accordance with a requirement of this Part-

- (a) any **document** making a public or limited circulation request for proposals to carry out the work;
- (b) the terms of reference for the work;
- (c) invoices for services undertaken in respect of the work; and
- (d) receipts for payment by the CPP applicant.

SECTION 9 Pricing methodology information

5.5.29 What pricing methodology information must be submitted

- (1) The **CPP proposal** must contain the same type of information as is required under an **ID determination** in respect of pricing methodologies, subject to subclauses (2) and (3).
- (2) For the purpose of subclause (1), information in respect of pricing methodologies of the type sought by the **ID determination** is required in respect of the **CPP regulatory period** only.
- (3) Where, pursuant to subclause (1), a CPP applicant proposes a transitional pricing methodology, the CPP applicant must also provide-
 - (a) justification for proposing a **transitional pricing methodology** rather than a pricing methodology consistent with the **pricing principles**;
 - (b) the duration of the intended transitional period;
 - (c) an explanation as to why the proposed duration of the transitional period is reasonable;
 - (d) a plan demonstrating how the GTB intends to transition to a pricing methodology consistent with the pricing principles by the end of the transitional period; and
 - (e) an explanation as to why that plan is reasonable.

SUBPART 6 Consumer consultation, verification, audit and certification

5.6.1 Consumer consultation

- (1) By no later than 40 working days prior to submission of the CPP proposal, the CPP applicant must have adequately notified its consumers-
 - (a) that it intends to make a CPP proposal;
 - (b) of the expected effect on the revenue and quality of its gas transmission services were the Commission to determine a CPP entirely in accordance with the intended CPP proposal;
 - (c) where Subpart 5 Section 9 applies to the GTB, of the expected effect of the CPP on each pipeline charge, were the Commission to determine a CPP entirely in accordance with the intended CPP proposal;
 - (d) of the process for making submissions to the **GTB** in respect of the intended **CPP proposal**;
 - (e) where and how further information in respect of the intended **CPP proposal** may be obtained; and
 - (f) of their opportunity to participate in the consultation process required of the Commission by s 53T of the Act after any CPP proposal is received and considered compliant by the Commission.
- (2) For the purpose of subclause (1)(e), where further information is available in hard copy only, the applicant must have ensured that any further information was readily available for inspection at the stated location.

- (3) For the purpose of subclause (1), the CPP applicant must-
 - (a) provide all relevant information;
 - (b) provide information in a manner that promotes **consumer** engagement;
 - (c) make best endeavours to express information clearly, including by use of plain language and the avoidance of jargon; and
 - (d) provide **consumers** with (or notified them where to obtain) the information through a medium or media appropriate to the natures of the **consumer** base.

Examples:

- (i) by placing the information on the **GTB's** website;
- (ii) by providing the information to groups or organisations that represent the **consumers'** relevant interests;
- (iii) by including the information in **consumers'** or gas retailers' bills; and/or
- (iv) by placing advertisements in local newspapers.

5.6.2 <u>Verification</u>

- (1) A CPP proposal must be verified by a verifier.
- (2) The verifier must be engaged in accordance with Schedule F.
- (3) The CPP applicant must provide the verifier with-
 - (a) the materials-
 - (i) required by the **verifier** to verify the **CPP proposal** in accordance with the terms of his, her or its engagement and Schedule G; and
 - (ii) that it intends to submit to the **Commission** as a **CPP proposal**;
 - (b) subject to paragraph (c), the materials referred to in paragraph (a) prior to the **verifier** commencing verification in accordance with Schedule G;
 - (c) the information required by Schedule D pertaining to projects or programmes meeting paragraph (c) of the definition in Schedule D of identified programme after the verifier has notified the CPP applicant of his, her or its selection of projects or programmes meeting paragraph (c) of the definition of identified programme to the CPP applicant;
 - (d) any information requested by the **verifier** pursuant to the **verifier's** right to ask for such information pursuant to his, her or its deed of engagement, as specified in clause F5(2)(d).

5.6.3 Audit

A CPP proposal must be audited by an auditor as to whether or not-

 (a) as far as appears from an examination of them, proper records to enable the complete and accurate compilation of information required by 5.4.3(3) have been kept by the CPP applicant;

- (b) in the case of actual financial information relating to the current period, that information has been prepared in all material respects in accordance with this determination;
- (c) in the case of forecast financial information relating to the **next period**, that information has been compiled in all material respects in accordance with this determination and the records examined pursuant to paragraph (a); and
- (d) in the case of quantitative information provided in spreadsheets, that information is accurately presented.

5.6.4 Certification

- (1) In the case of all information of a quantitative nature, other than forecast information, provided in accordance with this Part, no fewer than 2 **directors** of the **CPP applicant** must certify in writing his or her belief that-
 - (a) the information was derived and is provided in accordance with the relevant requirements; and
 - (b) it properly represents the results of financial or non-financial operations as the case may be.
- (2) In the case of all information of a qualitative nature, other than forecast information, provided in accordance with this Part, no fewer than 2 directors of the CPP applicant must certify in writing his or her belief that-
 - the information is provided in accordance with the relevant requirements;
 and
 - (b) it properly represents the events that occurred during the **current period**.
- (3) In the case of all forecast information provided in accordance with this Part, no fewer than 2 **directors** of the **CPP applicant** must certify in writing his or her belief that-
 - (a) the information was derived and is provided in accordance with the relevant requirements; and
 - (b) the assumptions made are reasonable.
- (4) No fewer than 2 directors of the CPP applicant must certify in writing-
 - (a) that, to the best of his or her knowledge, the **verifier** was engaged by the **CPP applicant** in accordance with Schedule F;
 - (b) that, to the best of his or her knowledge, the CPP applicant provided the verifier with all the information specified in Part 5, including its schedules, relevant to Schedule F;
 - (c) that, to the best of his or her knowledge, the information referred to in paragraph (b), save that relating to projects or programmes meeting paragraph (c) of the definition in Schedule D of identified programme, was provided to the verifier in advance of the verifier's selection of projects or programmes meeting paragraph (c) of the definition in Schedule D of identified programme, in accordance with clause G3;

- (d) a description of any information not provided to the **verifier** following the **verifier's** request;
- (e) reasons, which, in his or her opinion, justified any non-provision of such information;
- (f) that, to the best of his or her knowledge, the-
 - (i) matters the **auditor** was engaged to audit included the matters specified in clause 5.6.3; and
 - (ii) **auditor** was instructed to report on at least the matters described in clause 5.1.4; and
- (g) that the-
 - (i) audit report provided pursuant to clause 5.1.4;
 - (ii) verification report; and
 - (iii) other certifications required by this clause,

all relate to the same CPP proposal.

- (5) Where-
 - (a) a **director** has certified a matter of opinion in accordance with this clause; and
 - (b) his or her opinion has changed before the **Commission's** determination of the **CPP** in question,

that **director** must notify the **Commission** as soon as reasonably practicable.

- (6) Where-
 - (a) a director has certified a matter of fact in accordance with this clause; and
 - (b) before the **Commission's** determination of the **CPP** in question he or she-
 - (i) becomes aware that the fact is untrue; or
 - (ii) has significant cause to doubt the accuracy of that fact,

that **director** must notify the **Commission** as soon as reasonably practicable.

(7) For the avoidance of doubt, the certifications required by the different subclauses of this clause may be made by the same or different **directors**.

SUBPART 7 Catastrophic events and reconsideration of a customised pricequality path

5.7.1 Catastrophic event

Catastrophic event means an event-

- (a) beyond the reasonable control of the GTB;
- (b) in relation to which expenditure-
 - (i) was neither sought in a CPP proposal; nor
 - (ii) is explicitly or implicitly provided for in the **DPP** or **CPP**,

as the case may be;

- (c) that could not have been reasonably foreseen at the time the CPP or DPP was determined; and
- (d) in respect of which-
 - action required to rectify its adverse consequences cannot be delayed until a future **regulatory period** without quality standards being breached;
 - (ii) remediation requires either or both of capital expenditure or operating expenditure during the regulatory period;
 - (iii) the full remediation costs are not provided for in the **DPP** or **CPP**; and
 - (iv) in respect of a GTB subject to a CPP, the cost of remediation net of any insurance or compensatory entitlements would have an impact on the price path over the disclosure years of the CPP remaining on and after the first date at which a remediation cost is proposed to be or has been incurred by an amount at least equivalent to 1% of the aggregated allowable notional revenue for the disclosure years of the CPP in which the cost was or will be incurred.

5.7.2 Change event

Change event means-

- (a) change in a; or
- (b) a new,

legislative or regulatory requirement applying to a **GTB** subject to a **CPP** the effect of which-

- (c) must take place during the current regulatory period;
- (d) is not explicitly or implicitly provided for in the CPP; and
- (e) will necessitate incursion of costs in response, which costs, over the disclosure years of the CPP remaining on and after the date at which they are reasonably incurred, have an impact on the price path by an amount at least equivalent to 1% of the aggregated allowable notional revenue for the disclosure years of the CPP in which the cost was or will be incurred.

5.7.3 Contingent projects

- (1) A contingent project is a project that has been listed as a 'contingent project' with an associated **trigger event** in a **CPP determination**.
- (2) For the purpose of subclause (1), a **project** may only be so listed if it is a **project**-
 - (a) that the Commission considers-
 - (i) is reasonably required of a **GTB**; and
 - (ii) is one whose associated assets are likely to be **commissioned**,

during the CPP regulatory period;

- (b) for which a commencement date cannot be forecast with an appropriate degree of specificity by comparison with other proposed projects; and
- (c) in respect of which the **Commission** considers that its required **capital expenditure**-
 - (i) as disclosed in a CPP proposal exceeds 10% of the value of the GTB's annual revenue in the most recently completed disclosure year in respect of which disclosure has been made pursuant to the Gas (Information Disclosure) Regulations 1997 or an ID determination, as the case may be; and
 - (ii) would be likely, when forecast with reasonable certainty, to meet the **expenditure objective**.
- (3) Trigger event means a condition or event, subject to subclause (4), that would reasonably cause a **GTB** to undertake **capital expenditure** of the nature and extent required by an associated **contingent project**.
- (4) For the purpose of subclause (3), the condition or event must-
 - (a) not be within the control of the GTB;
 - (b) be capable of being-
 - (i) specifically defined; and
 - (ii) objectively verified as having occurred; and
 - (c) be something the occurrence of which the **Commission** considers is probable during the **CPP regulatory period**.
- (5) For the avoidance of doubt, the **Commission** has discretion as to-
 - (a) whether to list a project that satisfies subclause (2) as a **contingent project** in a **CPP determination**; and
 - (b) the selection and description of **trigger events**.

5.7.4 Unforeseen projects

- (1) Unforeseen project means a **project** or **programme**, subject to subclause (2), that, in respect of the services supplied by the **GTB** in question at the time that **GTB** submitted its **CPP proposal**, would have been unforeseeable to a prudent **GTB**.
- (2) For the purpose of subclause (1), the project's **project** or **programme's capital expenditure** proposed to the **Commission** pursuant to clause 5.7.6(7) must exceed 10%
 of the value of the **GTB's** annual revenue in the most recently completed **disclosure year**in respect of which disclosure has been made pursuant to the Gas (Information
 Disclosure) Regulations 1997 or an **ID determination**, as the case may be.

5.7.5 Error

Error means incorrect data-

- (a) discovered in a **CPP determination** and clearly unintended by the **Commission** to be included in it; or
- (b) relied upon by the Commission in making or amending a CPP determination and clearly unintended by the Commission to be relied upon in making or amending it,

determined by the **Commission** to have an impact on the price path by an amount at least equivalent to 1% of the aggregated **allowable notional revenue** for the **disclosure years** of the **CPP** affected by the incorrect data.

5.7.6 When price-quality paths may be reconsidered

- (1) A **CPP** may be reconsidered if-
 - (a) the **Commission** considers; or
 - (b) the **GTB** in question satisfies the **Commission**, upon application,

that subclause (2) or subclause (4) applies.

- (2) This subclause applies if-
 - (a) subject to subclause (3), a **catastrophic event** has occurred;
 - (b) there has been error; or
 - (c) a **change event** has occurred.
- (3) For the purpose of subclause (2)(a), where the costs to rectify the adverse consequences of a **catastrophic event** are fully covered by-
 - (a) the **CPP** (*e.g.* through an **operational expenditure** allowance for self-insurance); or
 - (b) commercial insurance held by the GTB,

the **Commission** will only reconsider the quality standards of the **CPP**.

- (4) This subclause applies if-
 - (a) false or misleading information relating to the making of a **CPP determination** has been knowingly-
 - (i) provided by a **GTB**, any of its agents or a **verifier** to the **Commission**; or
 - (ii) disclosed pursuant to the Gas (Information Disclosure) Regulations 1997 or an **ID determination**, as the case may be; and
 - (b) the **Commission** relied on that information in making or amending a **CPP** determination.
- (5) The price-quality path may be reconsidered by the **Commission** if a **GTB** satisfies it, upon application, that-
 - (a) a trigger event has occurred; or
 - (b) an unforeseen project-
 - (i) has commenced; or
 - (ii) is **committed** during the current **CPP regulatory period**.

- (6) The **Commission** need not consider an application under subclause (5)(a) unless the **GTB** has provided it with-
 - (a) a written statement from no fewer than 2 of the GTB's directors certifying-
 - (i) that the **trigger event** has occurred;
 - (ii) full particulars of the occurrence; and
 - (iii) the date on which it occurred;
 - (b) detailed cost information relating to proposed expenditure on the **contingent project** for its duration; and
 - (c) any other information required by the **Commission**.
- (7) The **Commission** need not consider an application under subclause (5)(b) unless the **GTB** has provided it with-
 - (a) information demonstrating that the **project** or **programme** is an **unforeseen project**;
 - (b) detailed cost information relating to proposed expenditure on the **unforeseen project** for its duration; and
 - (c) any other information required by the **Commission**.

5.7.7 Amending price-quality path after reconsideration

- (1) Where, after reconsidering a **CPP** in accordance with clause 5.7.6, the **Commission** determines that it should be amended, the **Commission** may amend either or both of the price path or the quality standards specified in the **CPP determination**, subject to the rest of this clause and clause 5.7.6(3).
- (2) In determining the extent of any amendment to the price path, the **Commission** must take into account the **expenditure objective**.
- (3) The **Commission** must not amend the-
 - (a) price path more than is reasonably necessary to take account of the change in costs net of any insurance or compensatory entitlements; and
 - (b) quality standards more than are reasonably necessary to take into account any necessary change in quality,

arising from-

- (c) the catastrophic event;
- (d) the change event;
- (e) **error**;
- (f) the provision of false or misleading information;
- **(g)** the **contingent project**; or
- (h) the unforeseen project,

as the case may be.

(4) Where the **Commission's** reconsideration of the **CPP** was-

- (a) triggered by a catastrophic event, in determining the extent of the amendment to the price-quality path, the Commission will consider the extent to which a GTB has demonstrated that it has reviewed its capital expenditure and operating expenditure plans for the remainder of the regulatory period and made such substitutions as is possible without adversely affecting its ability to meet its quality standards.
- (b) pursuant to the occurrence of an unforeseen project-
 - (i) the **Commission** need not amend the **CPP** unless the amount of required **capex** determined by the **Commission** exceeds 10% of the value of the **GTB's** annual revenue in the relevant **disclosure year** for the purpose of clause 5.7.4(2); and
 - (ii) any such amendment may not take effect until the disclosure year in which assets constructed as part of the relevant unforeseen project are forecast to be commissioned; and
- (c) pursuant to the occurrence of a trigger event, any amendment to the CPP may not take effect until the disclosure year in which assets constructed as part of the relevant contingent project are forecast to be commissioned.

SCHEDULE A STANDARD PHYSICAL ASSET LIVES

Standard Physical Asset Lives for GTBs

| ASSET DESCRIPTION | UNIT | NOTES | STANDARD PHYSICAL ASSET LIFE (YEARS) |
|---|------|----------|--------------------------------------|
| HP PIPELINES – various diameters | m | (a) | 80 |
| IP PIPELINES (suburban, standard ground | m | (b) | 70 |
| conditions, trenched construction) – 50mm to | | | |
| 300mm | | | |
| MP PIPELINES (suburban, standard ground | m | (c), (d) | 60 |
| conditions) – 32mm to 200 mm | | | |
| IP SERVICES | | | |
| 32 mm (suburban, standard ground | m | | 70 |
| conditions) | | | |
| Mains connection, riser and valve | No. | | 70 |
| MP SERVICES | | | |
| 20 mm (suburban, standard ground | m | | 60 |
| conditions) | | | |
| Mains connection, riser and valve | No. | | 60 |
| STATIONS | | | |
| Site Development and Buildings | | | 50 |
| METERS (cubic metres / hour) | | | |
| 0 to 25 | No. | | 25 |
| 25 to 60 | No. | | 15 |
| Other station equipment: regulators; valves, | No. | | 35 |
| pipework and fittings; instrumentation and | | | |
| RTUs; electrical fittings | | | |
| VALVES | | (e) | |
| HP Pipeline Valves (includes Pits and Covers) | No. | | 80 |
| IP Pipeline Valves (includes Pits and Covers) | No. | | 70 |
| MP Pipeline Valves (includes Pits and Covers) | No. | | 60 |
| SCADA / CONTROL SYSTEMS | | | |
| SCADA Master Station; telecommunications | No. | | 10 |
| systems | | | |
| SPECIAL CROSSINGS | No | (f) | |
| SPARES | | (g) | |

Notes:

- (a) 'HP' means high pressure pipelines with operating pressures above 20 barg.
- (b) 'IP' means intermediate pressure pipelines with operating pressures between 4 and 20 barg.
- (c) 'MP' means medium pressure pipelines with operating pressures up to 4 barg.

- (d) For MP pipelines of PE construction installed prior to 1985, the maximum asset life should be 50 years.
- (e) Asset lives for valves should correspond to the associated pipeline.
- (f) Asset lives for special crossings should correspond to the type of pipeline for which the crossing is constructed. Where more than one type uses a single crossing, the asset type with the longest standard life should be used as reference.
- (g) Spares should be given the same asset lives as the network assets they support.

SCHEDULE D CAPITAL AND OPERATING EXPENDITURE INFORMATION

D1 Interpretation

In this Subpart, words in bold type bear the following meanings: actual capex means the capex incurred during the current period; actual opex means the opex incurred during the current period; asset category means one of the following asset types:

- (a) transmission pipelines operating at high pressure;
- (b) stations, including:
 - (i) gate stations; and
 - (ii) compressor stations;

and in respect of each station:

- (iii) land;
- (iv) site development and buildings;
- (v) regulators;
- (vi) valves, pipework and fittings;
- (vii) instrumentation and RTUs; and
- (viii) electrical fittings;
- (c) valves, meaning valves other than those located at stations;
- (d) SCADA / Control systems, including:
 - (i) master stations;
 - (ii) telecommunications systems;
- (e) network spares; and
- (f) other;

asset management plan means any asset management plan required by an **ID determination**;

asset relocations capex means **capex** principally incurred in relocating assets where the relocation does not result in the assets having service potentials materially different to their service potentials in their original location;

asset replacement and renewal capex means capex predominantly associated with-

- (a) the progressive physical deterioration of the condition of **network** assets or their immediate surrounds; or
- (b) expenditure arising as a result of the obsolescence of **network** assets;

base year means historical 12 month period;

base year approach means forecasting data regarding the supply of gas transmission services in the future based on data obtained in a base year;

capex category means one of the categories in the following list which comprises, for the purpose of a **CPP proposal**, a classification of the types of **capex** that **GTBs** make when providing **gas transmission services** to consumers and **capex categories** means all of the following categories:

- (a) customer connection capex;
- (b) system growth capex;
- (c) reliability, safety and environment capex;
- (d) asset replacement and renewal capex;
- (e) asset relocations capex; and
- (f) non-system fixed assets capex;

connection point means a physical connection point on the **network** with another pipeline, at which gas is imported into or exported from the **network**, also commonly referred to as a welded point;

customer connection capex means **capex** predominantly associated with the establishment of new **connection points** of consumers to the **network**, or alterations to existing **connection points** where the expenditure relates to connection assets and/or parts of the **network** for which the expenditure is recoverable in total, or in part, by a **capital contribution**;

deliverability means the extent to which the activities to which the **capex forecast** and **opex forecast** relate are likely to be undertaken by the **GTB** during the **next period** by reference to the **GTB's** ability to-

- (a) source and secure physical resources (such as appropriately skilled personnel and materials) and planning consents from external authorities; and
- (b) prioritise, manage and undertake the work involved, including the ability to implement any planned step change from historical levels of investment and workload;

document means correspondence, notices, circulars, memoranda, minutes, reports, **policies**, contracts or agreements in the possession or control of the **GTB**, whether in electronic or paper format;

fault and emergency maintenance opex means **opex** principally incurred in responding (by way of undertaking remedial work) to an unplanned instantaneous event that

impairs the normal operation of **network** assets but does not include expenditure on work to prevent or mitigate the impact such an event would have should it occur;

general management, administration and overheads opex means **opex** that is principally incurred on administration or which is not directly incurred in the physical operation and maintenance of the **network**, including expenditure on-

- (a) accounting;
- (b) corporate management;
- (c) finance;
- (d) human resources;
- (e) information technology;
- (f) insurance paid to an insurer;
- (g) legal;
- (h) occupational health and safety;
- (i) procurement;
- (j) property; and
- (k) regulation;

identified programme means a **project** or a **programme** which is planned to be undertaken during the **next period** and which is one of the-

- (a) 5 largest **projects** or **programmes** by expenditure that fall within the **capex forecast**:
- (b) 5 largest **projects** or **programmes** by expenditure that fall within the **opex forecast**; or
- (c) 10 additional **projects** or **programmes** selected by the **verifier** for detailed assessment in accordance with clause G3;

key assumptions means-

- (a) any significant assumption made by a GTB in the preparation of its proposal, clearly identified in a manner that makes its significance to the proposal understandable to the Commission, including-
 - (i) forecasts of peak demand;
 - (ii) forecasts of weighted average remaining life of assets;
 - (iii) forecasts of gas delivered;
 - (iv) forecasts of material changes in gas imports into or exports from the **network**;
 - (v) forecasts of receipt and delivery points required by **consumers**;

- (vi) forecasts of pipeline length;
- (vii) labour unit rates applied to key items of plant and equipment;
- (viii) materials unit rates applied to key items of plant and equipment;
- (ix) labour escalators as required by clause D18(2); and
- (x) materials escalators as required by clause D18(2); and
- (b) a description of the-
 - (i) basis on which those assumptions were prepared; and
 - (ii) the principal sources of information from which those assumptions were derived:

non-system fixed assets capex means **capex** incurred in relation to assets not directly related to the **network** used in the **supply** of **gas transmission services**, including in relation to-

- (a) information and technology systems;
- (b) asset management systems;
- (c) office buildings, depots and workshops;
- (d) office furniture and equipment;
- (e) motor vehicles; and
- (f) tools, plant, and machinery;

obligation means a legally enforceable duty owed by a **GTB**, whether arising under legislation, at common law or in contract, but excludes a contractual obligation commencing after this determination takes effect;

opex means operating expenditure;

opex category means one of the categories in the following list which comprises, for the purpose of a **CPP proposal**, a classification of the types of **opex** that **GTBs** make when providing **gas transmission services** to consumers, and **opex categories** means all of the following categories:

- (a) general management, administration and overheads opex;
- (b) system management and operations opex;
- (c) routine and preventative maintenance opex;
- (d) refurbishment and renewal maintenance opex;
- (e) fault and emergency maintenance opex; and
- (f) other opex;

other opex means opex that is not captured by the other opex categories;

planning standards means **policies** adopted by the **GTB** which relate to the planning of the **network** and the forecasting of **capex** and **opex** for that purpose, including in relation to-

- (a) long term **network** development;
- (b) **network** maintenance; and
- (c) system operations;

policies means documented and **director** or management-approved short-term and long-term policies, procedures, strategies, guidelines, plans and approaches including those relating to-

- (a) asset management;
- (b) asset security;
- (c) augmentation and planning;
- (d) business cases, including cost-benefit analyses;
- (e) capex (e.g. capex approval and replacement);
- (f) condition monitoring and replacement;
- (g) corporate governance;
- (h) disaster recovery;
- (i) energy supply and consumer growth forecasting;
- (j) gas balancing;
- (k) gas odorisation;
- (I) information technology;
- (m) internal reviews;
- (n) investment decision making and evaluation;
- (o) land and easement acquisition;
- (p) **network spares**;
- (q) prioritisation and options analysis;
- (r) procurement;
- (s) project management;
- (t) regulatory compliance;
- (u) risk management and assessment; or
- (v) self insurance;

refurbishment and renewal maintenance opex means **opex** that is predominantly associated with the replacement, refurbishment or renewal of asset components;

reliability, safety and environment capex means capex predominantly associated with-

- (a) the improvement of reliability or service standards;
- (b) maintaining or improving the safety of the **network** for consumers, employees and the public; or
- (c) activities to-
 - (i) meet new or enhanced legislative requirements; or
 - (ii) achieve enhancements,

relating to the environment;

routine and preventative maintenance opex means **opex** that is predominantly associated with planned work and-

- (a) includes-
 - (i) fault rectification work that is undertaken at a time or date subsequent to any initial fault response and restoration activities;
 - (ii) routine inspection;
 - (iii) testing; and
 - (iv) easement inspection; and
- (b) excludes expenditure on initial fault or emergency maintenance;

service category means one of the categories in the following list which comprises, for the purpose of a **CPP proposal**, a classification of the **services** that the **CPP applicant** provides to its **consumers**, and **service categories** means all of the following categories:

- (a) provide and operate **network** infrastructure between **connection points** and deliver gas through the **network**;
- (b) provide connection services, including changes of **connection point** capacity and/or reliability;
- (c) provide for rearrangement of **network** assets at third party request;
- (d) provide gas odorisation services;
- (e) provide Critical Contingency Operator services;
- (f) provide gas balancing services; and
- (g) provide an additional service (or services if necessary) to those listed in paragraphs (a)–(f), specified by the CPP applicant;

service level means the magnitude of a service measure;

service measure means an objectively measurable characteristic or feature of a **service category**;

step change means a new, changed or ceased **obligation**;

system fixed assets means all fixed assets owned, provided, maintained, or operated by a **GTB** that are directly related to the **network** and used, or intended to be used, for the **supply** of **gas transmission services**;

system growth capex means **capex** principally incurred in implementing a change in demand on the **network** assets, and includes expenditure that is not recoverable (in total or in part) from the **consumer supplied** at the point of connection to the **network** who is the source of the change in demand; and

system management and operations opex means **opex** that is predominantly associated with the management and operation of the **network** including-

- (a) system operations;
- (b) system studies and planning;
- (c) gas balancing;
- (d) gas odorisation;
- (e) design;
- (f) **network** record keeping; and
- (g) standards and manuals.

D2 Instructions relating to provision of information

- (1) A CPP proposal must-
 - (a) assemble all information that this schedule requires in a section of the CPP proposal entitled "Capex/Opex/Demand Qualitative Information"; and
 - (b) contain a table that, in respect of each clause of this schedule-
 - (i) provides a reference to the place where, in the Capex/Opex/Demand Qualitative Information section of the CPP proposal, a response is provided; and
 - (ii) gives the title and page reference to any separate **document** identified in response, including in the case where the **document** in question is provided in the **CPP proposal**.
- (2) Where information provided in accordance with these requirements differs from the most recent information provided by the **GTB** to the **Commission** in accordance with any obligation under Part 4 of the **Act**, a **CPP proposal** must-
 - (i) identify the differences; and
 - (ii) give reasons for such differences.
- (3) Where information required by this Schedule is omitted from a **CPP proposal**, the **CPP proposal** must contain an explanation for each such omission.

- (4) A **CPP applicant** may, without provision of additional information, reproduce information from its most recently published **asset management plan** in response to a requirement of this Schedule, subject to subclause (5).
- (5) For the purpose of subclause (4), reproduction of such material is only permitted where the relevant section of the **asset management plan** clearly and succinctly provides the required information, without the need for analysis or interpretation on the part of the **verifier** or the **Commission**.
- (6) For the avoidance of doubt-
 - (a) the content of the CPP proposal as initially provided to the verifier will not include information required by this schedule in relation to projects or programmes falling under paragraph (c) of the definition in this schedule of identified programme; and
 - (b) such information-
 - (i) need only be provided to the verifier upon the verifier's request; and
 - (ii) is required to be included in the **CPP proposal** as provided to the **Commission**.

D3 Qualitative Information

- (1) Provide-
 - (a) all **policies** relied upon in whole or in part in preparing the response to-
 - (i) this schedule; and
 - (ii) any other requirement of Subpart 5 Section 7 of Part 5; and
 - (b) where the rationale is not already included in the **policies** themselves, the rationale for the **policies** provided in accordance with paragraph (a), including any consultants' reports relied upon in preparing the **policies**.
- (2) Identify all consultants' reports commissioned for the purpose of preparing the capex forecast or opex forecast.
- (3) Where information from the **CPP applicant's** most recently published **asset** management plan has been included in the **CPP proposal** in response to a requirement of this clause, provide an index of explicit references to the sections and paragraphs of the **asset management plan** relied upon.

D4 Categorisation of services

For each **service category** relevant to the **gas transmission services** provided by the **GTB**, provide-

- (a) a description of the **GTB's** services that fall within it, including-
 - (i) its key service features and specifications;

- (ii) the identity of the intended **consumers** of the services;
- (iii) the processes used to determine the features and specifications of each service; and
- (iv) any material changes to the services proposed for the **next period**;
- (b) the **service measures**, including a description as to how these have been defined, relating to-
 - (i) categories of **consumers**;
 - (ii) asset performance, asset efficiency and effectiveness;
 - (iii) efficiency of the GTB's business activities; and
 - (iv) the **GTB's** obligations;
- (c) a corresponding target **service level** for each **service measure**;
- (d) a description as to how each target service level-
 - (i) was determined, including a description of any **consumer** consultation used to specify it; and
 - (ii) relates to the **GTB's** relevant **policies**;
- (e) a comparison and evaluation of each actual **service level** achieved for each **disclosure year** in the **current period** against each relevant target **service level** for each relevant **service measure**, including explanations for all significant variances and, for each significant variance, an explanation of the action being taken or proposed to improve performance; and
- (f) details of all proposed changes to the target **service levels** for each **service measure**, including-
 - the rationale for all proposed changes with reference to relevant consumer demands and the GTB's obligations; and
 - (ii) a description of how the proposed changes were taken into account in preparing the **CPP proposal**.

D5 Network asset information

- (1) Provide details of the GTB's existing network assets including-
 - (a) a high-level description of the transmission **network** that includes-
 - (i) a map showing all of the **GTB's network**;
 - (ii) identification of large gas producers and consumers that have a significant impact on **network** operations or asset management priorities;
 - (iii) a description of the demand characteristics for different parts of the **network**; and

- (iv) the peak demand and total quantity of gas delivered in each disclosure year of the current period, broken down by geographically noncontiguous network, if any;
- (b) a description of the existing **network** configuration, including-
 - (i) identification of **connection points** and the existing capacity and current peak demand of each;
 - (ii) a description of the **network** fed from the gate stations, including identification and capacity of pressure reducing stations and the maximum operating pressure of the individual sections of **network**; and
 - (iii) an overview of secondary assets such as SCADA and telecommunications systems;
- (c) a description of the existing **network** assets by **asset category**, including-
 - (i) pressure levels;
 - (ii) a description and quantity of assets;
 - (iii) age profiles;
 - (iv) a discussion of the condition of the assets, further broken down as appropriate, including historic failure rates; and
 - (v) identification of any relevant systemic issues that may lead to the need to prematurely replace assets or parts of assets;
- (d) the sum of **regulated service asset values** by **asset category** consistent with those disclosed by the **GTB** prior to making the **CPP application** in respect of the most recently completed **disclosure year** pursuant to the Gas (Information Disclosure) Regulations 1997 or an **ID determination**; and
- (e) at the **GTB's** election, a sum of **regulated service asset values** by any **asset category** sub-category (as 'sub-category' is defined by the **GTB**);
- (2) For the purpose of subclause (1)-
 - (a) where information is based on estimates, this must be explicitly stated;
 - (b) quantities of assets must be presented in a way that clearly describes the size of the regulatory asset base, but need not include detailed lists or schedules as would be included in a complete asset register or inventory.

D6 Demand forecasts

- (1) For each key assumption relating to maximum demand or gas supplied-
 - (a) explain how it was relied upon in the CPP proposal; and
 - (b) provide an outline of the treatment of any **consumer** demands directly connected to the **network**, uncertain demands and significant demands

transferred, or expected to be transferred, between different parts of the **network**.

- (2) For each key assumption that is a demand forecast-
 - (a) describe the methodology used to prepare it, including-
 - (i) any sensitivity analysis undertaken; and
 - (ii) the models used (including each model's key inputs and assumptions);
 - (b) describe and explain it in respect of each **disclosure year** in the **next period** by reference to each **demand group**; and
 - (c) explain the extent to which the forecasting methodology used is consistent with-
 - (i) and has taken into account historical observations; and
 - (ii) the methodology used to derive the forecast quantities as required by clause 5.3.4(7).

D7 Capital expenditure

- (1) For each capex category included in the capex forecast-
 - (a) provide an overall description including the aims and objectives of the capex category;
 - (b) provide an explanation as to its **deliverability**, with reference to factors likely to affect the **capex category** as a whole; and
 - (c) identify all relevant documents, **policies** and consultant's reports that were taken into account in preparing the **capex forecast**.
- (2) For each identified programme included in the capex forecast-
 - (a) provide an overall description including the aims and objectives of the **identified programme**;
 - (b) provide an explanation as to its **deliverability**, with reference to factors likely to specifically affect that **identified programme**;
 - (c) provide details of all contingency factors provided for, including how they were calculated and what uncertainties they account for;
 - (d) state-
 - (i) each relevant **key assumption**;
 - (ii) each relevant **obligation**; and
 - (iii) any **step change** and its effect on the **capex forecast** for the **identified programme**;

- (e) explain all departures from any conclusions and recommendations contained in each consultant's report identified in accordance with subclause (1)(c); and
- (f) explain the methodology used to generate the **capex forecast** for the **identified programme**, including but not limited to details regarding-
 - (i) any cost benchmarking undertaken by or for the GTB;
 - (ii) internal historical cost trends (for specific asset categories) relied upon;
 - (iii) material changes to work backlogs;
 - (iv) all **network** alternative projects and/or programmes considered;
 - (v) all cost-benefit analyses undertaken;
 - (vi) all contingency factors provided for, including how they were calculated and what uncertainties they account for; and
 - (vii) any **step change** from historical costs in any cost component included in the **identified programme** and its effect on the **capex forecast**.
- (3) For each **policy** identified in response to subclause subclause (1)(c), explain-
 - (a) how it was taken into account and complied with; and
 - (b) how relevant **planning standards** have been incorporated.
- (4) For each **key assumption** identified in accordance with subclause (2)(d)(i)-
 - (a) provide the method and information used to develop the assumption; and
 - (b) explain how the assumption has been applied and its effect on the **capex forecast**.
- (5) Where any **identified programme**, other than a **project** or **programme** to be undertaken for the foreseeable future, is forecast to terminate after the end of the **next period**, in addition to the information required by subclause (2), provide any additional information relevant to **capex forecast** to the end of the **identified programme**.
- (6) For each **project** and **programme** (other than **identified programmes**) included in the **capex forecast**-
 - (a) explain-
 - (i) how each relevant **policy** identified in response to subclause (1)(c) was taken into account and complied with; and
 - (ii) how the relevant **planning standards** have been incorporated; and
 - (b) provide details of all contingency factors provided for, including how they were calculated and what uncertainties they account for.

D8 System growth capital expenditure information

For system growth capex, provide-

- (a) a description of the relevant planning standards and relevant key assumptions;
- (b) a description of the prioritisation methodology adopted for system growth **projects** and **programmes**;
- details of the specific **network** locations where constraints are expected due to forecast demand increases;
- (d) relevant **policies** for purchasing **land** and **easements** for future use;
- (e) where rationale is not already included in the **policy** documents, rationale for the **policies** provided in accordance with paragraph (d);
- (f) an analysis of the **network** development options available;
- (g) details of the planning decisions made to meet each relevant target service level; and
- (h) a description and identification of the system growth **programme** including-
 - (i) actions to be taken, including clear linkages to the forecast expenditures in each of the associated **projects** and **programmes**;
 - (ii) a detailed description of each project in the capex forecast that has commenced or is committed; and
 - (iii) a description of each project that is not committed but is planned to commence in the next period, the information being provided to be commensurate with the project's current status in the planning process.

D9 Asset replacement and renewal capital expenditure information

- (1) For asset replacement and renewal capex provide-
 - (a) a description of the relevant **policies** and **key assumptions relating** to the circumstances in which **capex** should be incurred based on-
 - (i) the age or reliability profile of an asset by comparison with the condition of an asset and vice versa; and
 - (ii) replacement of an asset rather than renewing it and vice versa;
 - (b) where rationale is not already included in the policy documents, the rationale for the policies and key assumptions provided in accordance with paragraph (a);
 - (c) any asset replacement models developed by or for the **GTB** to determine asset replacement and renewal capex, including-
 - (i) all supporting documentation for the models used; and

- (ii) any other relevant considerations; and
- (d) a description and identification of replacement and renewal **programmes** or actions to be taken for each **asset category**.
- (2) Explain whether and how the matters provided and identified in accordance with subclause (1)-
 - (a) were taken into account in the capex forecast; and
 - (b) affected forecast **asset replacement and renewal capex** by comparison with the equivalent **actual capex** incurred.
- (3) Explain how any proposed system growth associated with the replacement of assets before the end of their **asset life** has been taken into account in the **asset replacement and renewal capex** for the **next period**.

D10 Reliability, safety and environment capital expenditure information

For reliability, safety and environment capex-

- (a) describe the implications (including timing) of complying with any-
 - (i) new **obligation**; or
 - (ii) substantive amendment to any current such **obligation** that is reasonably anticipated to occur during the **next period**,
 - concerned with safety or environmental protection relevant to the **supply** of **gas transmission services** by the **GTB**;
- (b) explain how these new obligations or substantive amendments to **obligations** have been taken into account in the **CPP proposal**;
- (c) describe-
 - (i) the relevant risk management **policies**;
 - (ii) risk assessments and risk mitigation or risk prevention measures employed during the **current period**, including those pursuant to or in response to an **obligation** or a **step change** to an **obligation**; and
 - (iii) all risk mitigation measures identified and proposed to be deployed in the **next period**, including methods, details and conclusions of risk assessments and details of emergency response and contingency plans; and
- (d) where rationale is not already included in the **policy** documents provide the rationale for the **policies** provided in accordance with paragraph (c).

D11 Non-system fixed assets capital expenditure information

For **non-system fixed assets capex** in the **capex forecast** provide the rationale for the expenditure in the largest two of the following expenditure categories by dollar value:

- (a) asset management systems;
- (b) information and technology systems;
- (c) motor vehicles;
- (d) office buildings, depots and workshops;
- (e) office furniture and equipment; and
- (f) tools, plant and machinery.

D12 Operating and maintenance expenditure

- (1) For each opex category included in the opex forecast-
 - (a) provide an overall description including the aims and objectives of the opex category;
 - (b) provide an explanation as to its **deliverability**, with reference to factors likely to affect the **opex category** as a whole; and
 - (c) identify all relevant documents, **policies** and consultants' reports that were taken into account in preparing the **opex forecast**.
- (2) For each identified programme included in the opex forecast-
 - (a) provide-
 - (i) an overall description including the aims and objectives of the **identified programme**;
 - (ii) an explanation as to its **deliverability**, with reference to factors likely to affect that **identified programme** specifically; and
 - (iii) details of all contingency factors provided for, including how they were calculated and what uncertainties they account for;
 - (b) identify-
 - (i) each relevant **key assumption**;
 - (ii) each relevant obligation; and
 - (iii) any **step change** and its effect on the **opex forecast** for the **identified programme**; and
 - (c) explain-
 - (i) whether a base year approach was used in forecasting, and if so, identify the base year used and, if it is not a year in the current period (for which data will have been provided), provide the relevant data from that base year;

- (ii) all departures from any conclusions and recommendations contained in each consultant's report identified in accordance with subclause (1)(c);
 and
- (iii) the methodology used to generate the **opex forecast** for the **identified programme**.
- (3) For the purpose of subclause (2)(c)(iii), such methodology must include, as a minimum, details regarding-
 - (a) any cost benchmarking undertaken by or for the **GTB**;
 - (b) internal historical cost trends (for specific asset categories) relied upon;
 - (c) descriptions of inspections, tests and condition monitoring carried out and the intervals at which they were done;
 - (d) material changes to work backlogs;
 - (e) alternative programmes considered;
 - (f) all cost-benefit analyses undertaken;
 - (g) all contingency factors provided for, including how they were calculated and the uncertainties they account for;
 - (h) any **step change** from historical costs in any cost component included in the **identified programme** and its effect on the **opex forecast**; and
 - (i) how the **service measures** identified in accordance with clause D4(b) were taken into account.
- (4) For each relevant **policy** identified in response to subclause (1)(c), explain-
 - (a) how it was taken into account and complied with; and
 - (b) how the relevant **planning standards** were incorporated in it.
- (5) For each **key assumption** identified in accordance with subclause (2)(b)(i), explain-
 - (a) the method and information used to develop the assumption; and
 - (b) how the assumption has been applied and its effect on the opex forecast.

D13 General management, administration and overheads operating expenditure category

- (1) For the general management, administration and overheads opex category-
 - (a) identify-
 - (i) each relevant key assumption;
 - (ii) each relevant obligation; and
 - (iii) any **step change** and its effect on the **opex forecast** for this category; and

- (b) explain-
 - (i) whether a base year approach was used in forecasting, and if so, identify the base year used and, if it is not a year in the current period (for which data is required to be provided in a CPP proposal), provide the relevant data from that base year;
 - (ii) all departures from any conclusions and recommendations contained in each consultant's report identified in accordance with clause D12(1)(c);
 and
 - (iii) the methodology used to generate the **opex forecast** for this category.
- (2) For the purpose of subclause (1)(b)(iii), such methodology must include, as a minimum, details regarding-
 - (a) any cost benchmarking undertaken by or for the **GTB**;
 - (b) internal historical cost trends relied upon;
 - (c) all contingency factors provided for, including how they were calculated and the uncertainties they account for; and
 - (d) the effect of any **step change** on the costs in the **general management**, administration and overheads opex category.
- (3) For each relevant **policy** identified in the response to clause D12(1)(c) explain how it was taken into account and complied with.
- (4) For each **key assumption** identified in accordance with subclause (1)(a)(i), explain-
 - (a) the method and information used to develop the assumption; and
 - (b) how the assumption has been applied and its effect on the **opex forecast** for this **opex category**.

D14 Operating expenditure projects and programmes

For each **project** and **programme** (other than **identified programmes**) included in the **opex forecast**-

- (a) explain how each of the relevant **policies** identified in the response to clause D12(1)(c) was taken into account and complied with;
- (b) explain how the relevant planning standards have been incorporated; and
- (c) provide details of all contingency factors provided for, including how they were calculated and what uncertainties they account for.

D15 Self-insurance

- (1) For any proposed self-insurance allowance-
 - (a) provide-

- (i) a description of the uncertainties covered by the allowance;
- (ii) the methodology used to calculate the self-insurance risk premium (e.g. probability multiplied by consequence);
- (iii) a report on the calculation of each self-insurance risk premium from an actuary who is qualified to provide such advice; and
- (iv) any quotes obtained from external insurers; and
- (b) explain why compensation should be provided for the uncertainty.
- (2) In respect of each quote provided in accordance with subclause (1)(a)(iv)-
 - (a) state-
 - (i) the amount insured for which the quote related (if not included in the quote itself);
 - (ii) the annual premium payable or paid by the GTB;
 - (iii) the size of any deductible;
 - (iv) the terms and conditions of the insurance; and
 - (v) why it is not considered suitable.
- (3) Explain whether and, if so, how the costs of remediating the effects of each uncertainty for which the allowance is sought may be recovered through any other mechanism.

D16 Controllable opex

For each disclosure year of the next period provide-

- (a) a description of the types of **opex** comprised in the forecast for **controllable opex**; and
- (b) justification for why the **opex** referred to in paragraph (a) should be determined as **controllable opex**, including a description of how the **GTB** is able to control the amount of **opex** over the **CPP regulatory period**.

D17 Related parties

- (1) Identify and describe all **related parties** in respect of whom costs are disclosed in accordance with the **regulatory templates**.
- (2) For each **person** to whom subclause (1) applies identify each **project** or **programme** with which he, she or it is associated.
- (3) For each **person** to whom subclause (1) applies, describe, in respect of each relevant **project** and **programme** the-
 - (a) nature of the **services** undertaken by that **person**; and
 - (b) the date and term of the contract in respect of that **service**.

- (4) For each **service** identified in accordance with subclause (3)(a)-
 - (a) provide a description of the tendering process used to procure the **service**;
 - (b) identify all relevant documents used to tender for its provision, including but not limited to requests for tender and tender submissions; and
 - (c) explain-
 - (i) why that **service** is outsourced instead of being undertaken by the **GTB** itself;
 - (ii) whether the **services** procured are provided under a discrete contract or provided as part of a broader operational contract (or similar);
 - (iii) whether the **service** was procured on a genuinely competitive basis and if not, why not; and
 - (iv) whether the **service** (or any component thereof) was sub-contracted to another provider.
- (5) For each contract identified in accordance with subclause (3)(b), identify methodologies, consultants' reports, or assumptions used to determine components of the costs included in the contract price.

D18 Unit costs and expenditure escalators

- (1) For each key assumption that is a unit rate-
 - (a) identify-
 - (i) source material from which it was derived;
 - (ii) the date it was developed; and
 - (iii) the historical unit rates adopted for key items of plant and equipment for the **capex forecast** and the **opex forecast**; and
 - (b) explain-
 - (i) how it was developed with reference to the responses to paragraph (a); and
 - (ii) whether, and if so an explanation as to why, its quantum is reasonable.
- (2) For each **key assumption** that is a labour or materials escalator-
 - (a) provide the class of labour and materials to which each escalator relates;
 - (b) provide-
 - (i) the **base year** and the labour and materials unit rates for that year;
 - (ii) the escalator used in percentage terms for each year from the **base year** to the end of the **next period**;

- (iii) the quantum of the labour costs in the **capex forecast** and the **opex forecast** which is the result of application of the labour escalator;
- (iv) the quantum of the materials costs in the **capex forecast** and the **opex forecast** which is the result of application of the materials escalator; and
- (v) confirmation of whether the escalator used is expressed in real or nominal terms and, if real, the indexation assumptions used; and
- (c) explain-
 - the methodology underlying the calculation of each escalator, including sources, data conversions and the use of any assumptions, including lags;
 - (ii) the weightings given to each escalator and how these weightings were developed, including any assumptions;
 - (iii) whether the same expenditure escalators have been used in the **capex** forecast and opex forecast;
 - (iv) where the response to sub-paragraph (iii) is no, why different expenditure escalators were applied, using supporting evidence; and
 - (v) whether, in applying the relevant labour or material escalator, additional contingency factors have been applied and, if so, what uncertainties they account for and how they were calculated.

D19 Contingent project information

- (1) For each proposed contingent project-
 - (a) provide-
 - (i) an overall description including the aims and objectives of the **project**;
 - (ii) a completed **regulatory template** for **capex forecast** using the best available information to hand; and
 - (iii) information as to how the **project** satisfies the criteria specified in clause 5.7.3(2);
 - (b) propose a **trigger event** and explain how the event meets the requirements of clause 5.7.3(3);
 - (c) provide-
 - all relevant documents (including policies and consultants' reports) that were taken into account in preparing the capex forecast for the contingent project, including those that relate to its deliverability;
 - (ii) each relevant **key assumption**; and
 - (iii) each relevant obligation;

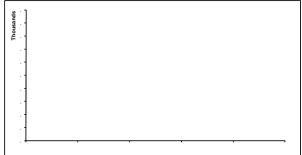

- (d) explain-
 - (i) all departures from any conclusions and recommendations contained in each consultant's report identified in accordance with paragraph (c)(i); and
 - (ii) the methodology used to generate the **capex forecast** for the proposed **contingent project**;
- (e) explain for each **policy** identified in response to paragraph (c)(i)-
 - (i) how it was taken into account and complied with; and
 - (ii) how the relevant planning standards were incorporated; and
- (f) describe for each **key assumption** identified in accordance with paragraph (c)(ii)-
 - (i) the method and information used to develop the assumption; and
 - (ii) how its has been applied and its effect on the capex.
- (2) Where any proposed **contingent project** is likely to terminate after the end of the **next period**, in addition to the information required by subclause (1), provide any additional information relevant to forecast **capex** to the end of the **contingent project**.

SCHEDULE E CAPITAL AND OPERATING EXPENDITURE - REGULATORY TEMPLATES

Table 1: Top 5

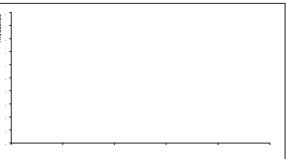

Table 2: Capex Summary

| - | Related Capex | Assessme | nt Poriod | | Po | gulatory Per | riod | | |
|--|--|----------|-----------|--------|--------|--------------|--------|--------|-------|
| Service Categories | Categories | Year 1 | Year 2 | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Total |
| | Customer Connection | - | - | - | - | - | - | - | - |

SCHEDULE F ENGAGEMENT OF A VERIFIER

F1 Proposing a verifier

Before submitting a **CPP proposal**, a **CPP applicant** must, by notice in writing to the **Commission**-

- (a) propose a **person** (or a selection of **persons** for the **Commission** to choose from) to act as a **verifier**; and
- (b) provide the information specified in clauses F2 and F3 in respect of each proposed verifier.

F2 Independence

- (1) Reasons why the **CPP applicant** considers that each proposed verifier is **independent**.
- (2) A written statement signed by the proposed verifier-
 - (a) confirming that-
 - his, her or its involvement in the formulation of the CPP proposal has not extended nor will not extend beyond acting in accordance with Schedule G;
 - (ii) he, she or it has not acted nor will not act as an **auditor** pursuant to clause 5.6.1 in respect of the **CPP proposal**; and
 - (iii) he, she or it has no direct or indirect pecuniary or other interest in the success or failure of the CPP proposal, including any entitlement to a success fee, contingency fee, or remuneration other than a fee for providing a verification report; and
 - (b) explaining the extent of any-
 - (i) ongoing role he, she or it has as auditor of, or advisor to, the CPP applicant, (on matters unrelated to the CPP proposal) including any advisory activities which the verifier may expect to undertake for the CPP applicant during the next period in relation to the CPP applicant's capex and opex and the existing or expected basis of remuneration for such activities; and
 - (ii) prior or existing relationship (whether professional or otherwise) that he, she or it has had with the CPP applicant during the current period in relation to the CPP applicant's capex and opex and the basis of remuneration for such activities.

F3 Qualifications and experience

- (1) Reasons why the **CPP applicant** considers that each proposed verifier is sufficiently qualified and experienced to assess and report on the **CPP proposal** in accordance with the tasks and duties specified in Schedule G.
- (2) A written statement signed by each proposed verifier explaining the nature and extent of his, her or its qualifications and experience relevant to assessing and reporting on the CPP proposal in accordance with the tasks and duties specified in Schedule G.

F4 Commission's assessment

- (1) The **Commission** must notify the **CPP applicant** no later than 10 **working days** after receiving a notification in accordance with clause F1 as to whether it approves the proposed verifier.
- (2) If the **Commission** does not approve a proposed verifier-
 - (a) it must provide reasons for this decision; and
 - (b) the **CPP applicant** may propose an alternative verifier in accordance with clause F1.
- (3) If the **Commission** approves a proposed verifier, the **CPP applicant** may engage that **person**, as soon as practicable, in accordance with clause F5.
- (4) The **Commission's** approval of a proposed verifier remains valid until the **Commission** has completed its assessment of the **CPP proposal**.

F5 Engaging the verifier

- (1) If the **Commission** approves a proposed verifier, the approved **person** may not undertake any service in relation to the **CPP applicant's CPP proposal** unless it has entered into a deed with the **Commission**.
- (2) For the purpose of subclause (1), terms of the deed must-
 - (a) require the CPP applicant to-
 - (i) provide the **verifier** with the information specified in and in accordance with clause 5.6.2(3); and
 - (ii) pay any fee charged by the verifier for verifying the relevant parts of the CPP proposal in accordance with his, her or its engagement and Schedule G;
 - (b) impose a duty of care on the **verifier** to the **Commission**;
 - (c) require the verifier to-
 - (i) verify the relevant parts of the **CPP proposal** in accordance with the terms of his, her or its engagement and Schedule G;

- (ii) notify the CPP applicant of the outcome of the verifier's selection, in accordance with clause G3, of projects or programmes meeting paragraph (c) of the definition in clause D1 of Schedule D of identified programme;
- (iii) prepare a draft verification report in accordance with Schedule G and provide it to the **CPP applicant**;
- (iv) prepare a verification report in accordance with Schedule G that takes account of any modifications to the information originally provided to the verifier in light of the CPP applicant's consideration of the draft verification report;
- (v) provide, upon request by the **CPP applicant**, a certificate as described in clause 5.1.3(1)(c); and
- (vi) be available to answer any questions posed by the Commission on the verification report, in person, by telephone or in writing, as reasonably required by the Commission; and
- (d) enable the **verifier** to request, for the purpose of carrying out his, her or its duties specified in paragraph (c), provision by the **CPP applicant** of-
 - (i) information required by Schedule D to be identified (but not provided) in a **CPP proposal**; and
 - (ii) the information specified in subclause (3).
- (3) The information specified for the purpose of subclause (2)(d)(ii) is any other information relevant-
 - (i) for the purpose of subclause (2)(c)(i);
 - (ii) to gas transmission services;
 - (iii) to any other regulated service relevant to the CPP proposal; and
 - (iv) to any unregulated service relevant to the CPP proposal,

that the verifier considers is relevant to verification.

- (4) For the avoidance of doubt-
 - (a) the deed may contain such other terms that-
 - (i) the parties agree are necessary for **business** efficacy; and
 - (ii) are not inconsistent with Schedule F or this Schedule; and
 - (b) a **CPP applicant** is not required to submit its **CPP proposal** to the **Commission** following completion or its receipt of the **verification report**.

SCHEDULE G TERMS OF REFERENCE FOR VERIFIERS

G1 Interpretation

- (1) Words in bold in this schedule that are defined in another schedule bear the same meanings as specified in that other schedule.
- (2) Any requirement to provide an opinion, report on or consider a particular matter must be construed as-
 - (a) requiring consideration only of the material identified by the requirement in question; and
 - (b) a requirement to provide the opinion or report on the matter in the verification report.

G2 Service categories, measures and levels

The verifier must review, assess and report on whether-

- the CPP applicant's service category definitions appropriately describe all activities undertaken for the purpose of supplying the regulated services as demanded by and provided to consumers;
- (b) the reason for any new **service category** is explained;
- (c) the CPP applicant has proposed service measures relevant to a complete range of key service attributes that are meaningful and important to consumers;
- (d) the CPP applicant has undertaken an appropriate process to determine the service measures and service levels, such as consultation with relevant consumers; and
- (e) any **step change** in any **service level** is explained and justified.

G3 Selection of identified programmes

- (1) For the purpose of the assessments required by clauses G5(1)(d) and G6(1)(g), the verifier must select 10 projects or programmes and, in doing so, have regard to the criteria specified in this clause.
- (2) The **projects** or **programmes** must not have been already included by the **CPP** applicant amongst its 5 largest capex or 5 largest opex projects or programmes.
- (3) The selected **projects** or **programmes** must address-
 - (a) a key risk that the **CPP applicant** is exposed to;
 - (b) a key driver of the need to submit a **CPP proposal**;
 - (c) an **obligation** that has a significant impact in the context of the **CPP** applicant's overall business; or

- (d) a new service category or a step change in a service level within an existing service category;
- (4) The verifier must-
 - (a) notify the CPP applicant of its selected projects or programmes; and
 - (b) not change its selection after such notification.

G4 Cost allocation

- (1) In respect of **regulated service assets values** not **directly attributable** and **operating costs** not **directly attributable** the **verifier** must provide an opinion as to whether-
 - (a) the opex forecast has been provided in accordance with clause 5.3.5; and
 - (b) **forecast values of commissioned assets** provided in accordance with clause 5.5.12 have been determined in accordance with clause 5.3.11(2)(b).

G5 Capex forecast

- (1) The **verifier** must-
 - (a) provide an opinion as to whether the-
 - (i) policies;
 - (ii) planning standards; and
 - (iii) key assumptions,

relied upon by the **CPP applicant** in determining the **capex forecast** are of the nature and quality required for that **capex forecast** to meet the **expenditure objective**;

- (b) provide an opinion as to whether the capex forecast has been prepared in accordance with the policies and planning standards at both the aggregate system level and for each of the capex categories;
- (c) provide an opinion on the reasonableness of the **key assumptions** relevant to **capex** relied upon the **CPP applicant** including-
 - (i) the method and information used to develop them;
 - (ii) how they were applied; and
 - (iii) their effect or impact on the **capex forecast** by comparison to their effect or impact on **actual capex**;
- (d) report conclusions of a detailed review of **identified programmes** that includes, but is not limited to assessment of-
 - (i) whether relevant **policies** and **planning standards** were applied appropriately;

- (ii) whether policies regarding the need for, and prioritisation of, the project or programme are reasonable and have been applied appropriately;
- the process undertaken by the CPP applicant to determine the reasonableness and cost-effectiveness of the chosen solution, including the use of cost-benefit analyses to target efficient solutions;
- (iv) the approach used to prioritise **capex projects** over time including the application of that approach for the **next period**;
- the project capital costing methodology and formulation, including unit rate sources, the method used to test the efficiency of unit rates and the level of contingencies included for projects;
- (vi) the impact on other cost categories including the relationship with opex;
- (vii) links with other projects;
- (viii) cost control and delivery performance for actual capex;
- (ix) the efficiency of the proposed approach to procurement; and
- (x) whether it should be treated as a **contingent project**.
- (e) provide an opinion as to overall **deliverability** of work covered by the **capex categories** in the **next period**; and
- (f) provide an opinion as to the reasonableness and adequacy of any asset replacement models used to prepare the **capex forecast** including an assessment of-
 - (i) the inputs used within the model; and
 - (ii) the methods the **CPP applicant** used to check the reasonableness of the forecasts and related expenditure.
- (2) Based on its analysis under this clause the **verifier** must provide its opinion on whether the applicant's forecast of total **capex** meets the **expenditure objective** and, if not identify-
 - (a) whether the provision of further information is required to enable assessment against the **expenditure objective** to be undertaken and, if so, the type of information required;
 - (b) which of the CPP applicant's forecast capex programmes for each capex category might warrant further assessment by the Commission; and
 - (c) what type of assessment would be the most effective.

G6 Opex forecast

(1) The verifier must-

- (a) provide an opinion as to whether the-
 - (i) policies,
 - (ii) planning standards; and
 - (iii) key assumptions,

relied upon by the **CPP applicant** in determining the **opex forecast** are of the nature and quality required for that **opex forecast** to meet the **expenditure objective**;

- (b) provide an opinion as to whether the opex forecast has been prepared in accordance with the policies and planning standards, at both the aggregate system level and for each of the opex categories;
- (c) provide an opinion on the reasonableness of the **key assumptions** relevant to **opex** relied upon by the **CPP applicant** including-
 - (i) the method and information used to develop them;
 - (ii) how they have been applied; and
 - (iii) their effect or impact on the **opex forecast** by comparison to their effect or impact on **actual opex**;
- (d) review, assess and report on any other opex drivers not covered by the key assumptions that have led to an increase in the opex forecast including whether the quantum of such an increase is required to meet the expenditure objective;
- (e) provide an opinion as to the reasonableness of the methodology used in forecasting opex (such as cost benchmarking or internal historic cost trending), including the relationship between the opex forecast and capex forecast;
- (f) provide an opinion as to the reasonableness of any **opex** reduction initiatives undertaken or planned during the **current period** or the **next period**;
- (g) report conclusions of a detailed review of **identified programmes** that includes, but is not limited to, an assessment of-
 - whether relevant policies and planning standards were applied appropriately;
 - (ii) whether policies regarding the need for, and prioritisation of, the project or programme are reasonable and have been applied appropriately;
 - (iii) the process undertaken by the **CPP applicant** to determine the reasonableness and cost-effectiveness of the chosen solution, including the use of cost-benefit analyses to target efficient solutions;

- (iv) the approach used to prioritise **opex projects** over time including the application of that approach for the **next period**;
- the project operating cost methodology and formulation, including unit rate sources, the method used to test the efficiency of unit rates and the level of contingencies included for projects;
- (vi) the impact on other cost categories including the relationship with capex;
- (vii) links with other **projects**;
- (viii) cost control and delivery performance for actual opex; and
- (ix) the efficiency of the proposed approach to procurement;
- (h) provide an opinion as to overall deliverability of work covered by the **opex** categories in the **next period**; and
- (i) provide an opinion as to the reasonableness and adequacy of any **opex** models used to prepare the **opex forecast** including an assessment of-
 - (i) the inputs used within the model; and
 - (ii) any methods the **CPP applicant** used to check the reasonableness of the forecasts and related expenditure.
- (2) Based on analysis in accordance with this clause, the **verifier** must provide an opinion on whether the **CPP applicant's** forecast of total **opex** meets the **expenditure objective** and, if not, identify-
 - (a) whether the provision of further information is required to enable assessment against the **expenditure objective** to be undertaken and, if so, the type of information required;
 - (b) which of the CPP applicant's forecast opex programmes for each opex category might warrant further assessment by the Commission; and
 - (c) what type of assessment would be the most effective.

G7 Capital contributions

The verifier must provide an opinion as to whether the forecast of capital contributions-

- (a) is reasonable; and
- (b) consistent with other aspects of the CPP proposal, in particular-
 - (i) the capex forecast; and
 - (ii) forecast demand data provided in accordance with clause D6.

G8 Demand forecasts

(1) The **verifier** must provide an opinion as to whether-

- (a) the **key assumptions**, key input data and forecasting methods used in determining demand forecasts were reasonable; and
- (b) it was appropriate to use the demand forecasts resulting from these methods and assumptions to determine the-
 - (i) capex forecast; and
 - (ii) opex forecast.
- (2) In respect of data, calculations and assumptions used to derive the forecast weighted average growth in quantities (as required by clause 5.3.4), the **verifier** must provide an opinion as to whether, in relation to each **demand group**-
 - (a) the-
 - (i) rationale for its selection;
 - (ii) basis for the forecast growth in demand;
 - (iii) basis for the assumptions used concerning the relative proportion of fixed and variable components in the **prices** charged; and
 - (iv) basis for each weighting term,
 - is reasonable;
 - (b) the forecast growth in demand is consistent with all other demand forecasts included in the **CPP proposal**; and
 - (c) the assumptions referred to in paragraph (a)(iii) are consistent with the calculation of **notional revenue** in the most recent annual compliance statement made by the supplier in accordance with a **DPP determination**.

G9 Non-standard depreciation

Where the **CPP proposal** includes information pursuant to clause 5.5.10(3) by way of an asset's proposed **asset life** being different to its **physical asset life**, the **verifier** must provide an opinion as to whether-

- (a) the proposed remaining asset life better meets the purpose of Part 4 of the Act than would be the case were depreciation determined in accordance with the standard depreciation method; and
- (b) the proposed depreciation method better meets the purpose of Part 4 of the **Act** than the **standard depreciation method**.

G10 Assessment techniques

- (1) When-
 - (a) undertaking analysis and reviews of information; and
 - (b) considering the matters,

required by this Schedule, the **verifier** must use some or all of the following assessment techniques:

- (c) process benchmarking;
- (d) process or functional modelling;
- (e) unit rate benchmarking;
- (f) trending or time-series analysis;
- (g) high level governance and process reviews;
- (h) internal benchmarking of forecast costs against costs in the current period;
- (i) capex category and opex category benchmarking;
- (j) **project** and **programme** sampling; and
- (k) critiques or independent development of-
 - (i) demand forecasts;
 - (ii) labour unit cost forecasts;
 - (iii) materials forecasts;
 - (iv) plant forecasts; and
 - (v) equipment unit cost forecasts.
- (2) The **verifier** must explain why particular techniques listed in subclause (1) were applied and others were not applied.
- (3) Where, for the purpose of applying any of the techniques listed in subclause (1), the verifier uses information that is not provided to it by the CPP applicant, the verifier must, in respect of that information-
 - (a) describe in the draft verification report its nature and source and the reason for wishing to rely on it;
 - (b) subject to subclause (4), provide it to the CPP applicant;
 - (c) when finalising the **verification report**, take into account any comments made about it by the **CPP applicant** in response to the draft verification report; and
 - (d) where, notwithstanding paragraph (c), the verifier continues to rely on it, describe in the verification report-
 - (i) the nature and source of the information relied upon and the reason for relying on it; and
 - (ii) the CPP applicant's concerns in respect thereof.
- (4) Subclause (3)(b) does not apply if the **verifier's** terms of use of the information prevent such disclosure.

G11 Contingent projects

- (1) For each proposed **contingent project**, the **verifier** must provide an opinion as to whether that **project** satisfies the following criteria:
 - (a) it is-
 - (i) reasonably required of a GTB; and
 - (ii) one whose associated assets are likely to be **commissioned**, during the **CPP regulatory period**;
 - a commencement date cannot be forecast with an appropriate degree of specificity by comparison with other proposed **projects**;
 - (c) the estimated capex in relation to the project-
 - (i) as disclosed in the CPP proposal exceeds 10% of the value of the CPP applicant's annual revenue in the most recently completed disclosure year in respect of which disclosure has been made pursuant to the Gas (Information Disclosure) Regulations 1997 or an ID determination, as the case may be;
 - (ii) is reasonable in dollar terms; and
 - (iii) would be likely, when forecast with reasonable certainty, to meet the **expenditure objective**.
- (2) For each proposed trigger event, the **verifier** must provide an opinion as to whether it meets the requirements of clause 5.7.3(3).

G12 Completeness of CPP proposal

A verification report must-

- (a) list the information in and relating to the CPP proposal provided by the CPP applicant to the verifier;
- (b) state each type of information in respect of which this schedule requires the verifier's consideration or opinion that the verifier considers has been omitted from the CPP proposal, including information that is incomplete or insufficient, and the relevant requirement in Part 5, Subpart 5 to provide the information in question;
- (c) where information is identified as insufficient in accordance with paragraph
 (b), state the nature of additional information the verifier considers that the
 CPP proposal requires to fulfil the information requirement in question; and
- (d) state the extent to which the omission, incompleteness or insufficiency of information has impaired the verifier's judgement as to whether the capex forecast and opex forecast for the next period meets the expenditure objective.

G13 Overview of key issues and additional information requirements

Based on its assessment, the verifier must, in the verification report-

- (a) provide a list of the key issues that it considers the **Commission** should focus on when undertaking its own assessment of the information to which the assessment related;
- (b) specify information identified in the **CPP proposal** that, were it to be provided, would assist the **Commission's** assessment of the **CPP proposal**; and
- (c) identify any other information it reasonably believes would-
 - (i) be held by the CPP applicant; and
 - (ii) assist the **Commission's** assessment of the **CPP proposal**.
