

Good morning

We have received a proposal from Transpower requesting us to increase its RCP2 Base Capex annual allowances by a total of \$12.4 million in order to undertake the Central Park – Wilton B reconductoring project.

The application documents can be accessed at: <http://comcom.govt.nz/regulated-industries/electricity/electricity-transmission/transpower-individual-price-quality-regulation/transpowers-price-quality-path-from-2015-to-2020/>

The proposal was made under the listed project mechanism set out in the Transpower Capex Input methodologies and is our first listed project application.

We intend to publish our draft decision for consultation by the end of May 2017.

Kind regards

Matthew Lewer
