Electricity Distribution Services Input Methodologies Amendments Determination 2017

[2017] NZCC 30

The Commission:

Sue Begg Dr Stephen Gale Dr Mark Berry Dr Jill Walker

Date of decision:

21 December 2017

Sue Begg, *Deputy Chair* Dated at Wellington this 21st day of December 2017 COMMERCE COMMISSION Wellington, New Zealand [Drafting notes:

- This amendments determination amends the Electricity Distribution Services Input Methodologies Determination 2012 ('principal determination').
- The included amendments are made under the terms of the Input Methodologies Review in respect of the related party transactions provisions in accordance with s 52Y of the Commerce Act 1986.
- Amendments to the body of the principal determination are marked as track changes in red.]

Pursuant to Part 4 of the Commerce Act 1986 the Commerce Commission makes the following determination:

PART 1 GENERAL PROVISIONS

1.1.1 <u>Title</u>

This amendments determination amends the Electricity Distribution Services Input Methodologies Determination 2012.

- 1.1.2 Application
- (1) The **input methodologies** in this determination apply to **electricity distribution services**.
- (2) The input methodologies relating to cost allocation in Part 2 Subpart 1, Part 5 Subpart 3 Section 2 and Part 5 Subpart 4 Section 4 also apply to any other regulated service supplied by an EDB, as provided by the provision in question.
- (3) The input methodologies in-
 - (a) Part 2 of this determination apply in relation to information disclosure regulation under Part 4 Subpart 4 of the **Act**;
 - (b) Part 3 of this determination apply to default/customised price-quality regulation under Part 4 Subpart 6 of the **Act**;
 - (c) Part 4 of this determination apply in relation to default price-quality paths under sections 53O and 53P of Part 4 Subpart 6 of the **Act**; and
 - (d) Part 5 of this determination apply in relation to customised price-quality paths under sections 53Q to 53ZA of Part 4 Subpart 4 of the **Act**.
- (4) Amendments to the input methodologies in this determination in-
 - Part 2, including any amended definitions in clause 1.1.4(2), apply from the commencement of **disclosure year** 2019;
 - (b) Part 4, including any amended definitions in clause 1.1.4(2), apply for a DPP in force from 1 April 2020; and
 - Part 5, including any amended definitions in clause 1.1.4(2), apply for a
 CPP application made after the commencement date described in clause 1.1.3.
- (5) For the avoidance of doubt, if the **Commission** determines that any forecast values are required to be calculated consistent with Part 4 for the determination of a **DPP** that is to come into effect after the commencement date of this amendments determination, the amendments to the **input methodologies** relating to the forecast values in Part 4, and any amended definitions in clause 1.1.4(2), will apply at the time when the **Commission** requires the forecast information.
- 1.1.3 Commencement

This determination comes into force on the day after the date on which notice of it is given in the New Zealand Gazette under s 52W of the **Act**.

1.1.4 Interpretation

- (1) In this determination-
 - (a) unless otherwise stated, references to-
 - (i) 'Sections' are to sections within the same subpart; and
 - (ii) 'Subparts' are to Subparts within the same part,

in which the reference is made;

- (b) unless stated otherwise, references to Parts, Subparts and Sections are to named and numbered parts, subparts and sections of the determination;
- (c) unless the context otherwise requires, a word which denotes the singular also denotes the plural and vice versa; and
- (d) unless stated otherwise, any reference to an allowance, amount, cost, sum or value is a reference to an allowance, amount, cost, value or sum calculated in relation to an **EDB** in respect of a **disclosure year**; and
- (e) materials incorporated by reference into this determination, including standards promulgated by other bodies, are incorporated in accordance with Schedule 5 of the Act.
- (2) In this determination, including in the schedules, the words or phrases in bold type bear the following meanings:

67th percentile estimate of WACC	means, for the purpose of-
	 Part 2, the 67th percentile estimate of post-tax WACC, determined in accordance with clause 2.4.5(4);
	(b) Part 3, the 67th percentile estimate of post-tax WACC , determined in accordance with clause 4.4.5(2); and
	 (c) Part 4 and Part 5, the 67th percentile estimate of vanilla WACC, determined in accordance with clause 4.4.5(1);
2009 disclosed asset	means an asset included by the EDB in question in the 'Total Regulatory Asset Base Value (Excluding FDC)' category for the disclosure year in the 2009 disclosure reports ;
2009 disclosure reports	means the reports disclosed by the EDB in question in accordance with the

Electricity Distribution (Information Disclosure) Requirements 2008 for the **disclosure year** 2009;

means the amount specified in the **DPP determination** for the **regulatory period** commencing 1 April 2015 for Alpine Energy Limited, Centralines Limited, and Top Energy Limited reflecting the impact of the capped alternative rate of change for those suppliers in the *Electricity Distribution Services Default Price-Quality Path Determination 2012* [2012] NZCC 35;

Α

means accounting-based allocation approach, as described in, in the case of -

- (a) **operating costs**, clause 2.1.3(1); and
- (b) regulated service asset values, clause 2.1.3(2);

means avoidable cost allocation methodology, as described in clause 2.1.5;

means the Commerce Act 1986;

has the meaning specified in clause 3.1.3(13)(e);

has the meaning specified in clause 3.1.3(13)(h) or 3.1.3(13)(i), as applicable;

has the meaning specified in clause 3.1.3(13)(f);

has the same meaning as in the **tax** depreciation rules;

means the amount of **operating expenditure** made by the **EDB** in the categories to which **allowed controllable opex** relates;

additional assets

has the meaning specified in clause 3.3.3(9); means assets of an **EDB** which are not **existing assets** and are forecast to be

existing assets and are forecast to be commissioned;

means assets of an **EDB** which, for the purpose of a **CPP proposal**, are forecast to be **commissioned** within the **assessment period** or the **CPP regulatory period**;

means total depreciation for all assets calculated as if no amount of revaluation had been included in the calculation of any opening RAB value following the determination of the initial RAB;

means the amount calculated in accordance with clause 3.3.4;

means the amount determined in accordance with clause 4.2.1(5);

means the amount determined in accordance with clause 4.2.1(3);

means the amount determined in accordance with clause 4.2.1(4);

means the amount determined in accordance with clause 4.2.1(2);

means one of ACAM, ABAA or OVABAA;

means the value in units (e.g., number of employees or kilometres of cable) for each **cost allocator** or **asset allocator** used to calculate the proportion of **operating costs** or **regulated service asset values** to be allocated to each of-

- (a) electricity distribution services,
- (b) where applicable, each **other** regulated service; and

	(c) where applicable, each unregulated service;
allocator type	means the basis for the attribution or allocation of an operating cost or regulated service asset value to electricity distribution services and other regulated services , <i>viz</i> . 'directly attributable ', 'causal' or 'proxy';
allowable revenue before tax	means allowable revenue before tax as determined by the Commission ;
allowed controllable opex	means the allowance (which is reasonable in light of the expenditure objective) specified in a CPP determination for operating expenditure in categories specified as controllable;
alternative depreciation method	means a depreciation method which is not the standard depreciation method;
amalgamate	means amalgamate in accordance with Part 13 of the Companies Act 1993 and amalgamation is to be construed accordingly;
amortisation of initial differences in asset values	means the amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.5; (b) Part 4, clause 4.3.3(3); and (c) Part 5, clause 5.3.17;
amortisation of revaluations	means the amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.6; (b) Part 4, clause 4.3.3(5); and (c) Part 5, clause 5.3.18;
amount carried forward	means, for any given disclosure year , the amount determined in accordance with clause 3.3.3;
arm's-length deduction	means in respect of-

	(a) (b)	operating costs not directly attributable, an amount of operating costs incurred by an EDB in the supply of unregulated services that have been recouped in an arm's- length transaction; and regulated service asset values not directly attributable, the amount of regulated service asset values in respect of assets used by an EDB in the supply of unregulated services for which a recoupment of capital costs has been made by the EDB in an arm's-length transaction,
	•	ect of which the EDB wishes It to be taken for cost allocation ses;
arm's-length transaction	<u>conduc</u> as betw seller w indeper	a dealing or transaction ted on such terms and conditions veen a willing buyer and a willing who are unrelated and are acting indently of each other and ug their own best interests;
	that do	es not -
		include terms that parties in their respective positions would usually omit; and omit terms that parties in their respective positions would usually include,
	if the p	arties were-

- (c) connected or related only by the dealing or transaction in question;
- (d) acting independently; and
- (e) each acting in its own best interests;

assessment period

assessment period	means the period between the end of the most recent disclosure year prior to submission of the CPP application in question and the EDB's anticipated commencement date of the CPP , assuming that-	
	(a)	the CPP application is neither discontinued in accordance with s 53S of the Act nor deferred in accordance with s 53Z of the Act ; and
	(b)	reasonable time is allotted for the Commission to undertake its assessment of the CPP application in accordance with ss 53S, 53T and 53U of the Act ;
asset adjustment process	has th 2.2.1;	e meaning specified in clause
asset allocator	means a proportion of a quantifiable measure used to allocate regulated service asset values that are not direc attributable and whose quantum is-	
	(a) (b)	based on a causal relationship ; or equal to a proxy asset allocator ;
asset category	A.2: As	s any asset type described in <i>Table</i> sset lives for CPP commissioned of Schedule A;
asset life	means asset,	a finite period in respect of an being-
	(a) (b)	its physical asset life ; or where an alternative asset life to the physical asset life is sought for the purpose of a CPP pursuant to clause 5.4.12(3)(d), the alternative asset life determined pursuant to clause 5.3.8;

asset life for CPP commissioned assets

auditor

means the lives specified in *Table A.2: Asset lives for CPP commissioned assets* of Schedule A;

means-

- (a) where the EDB is a public entity
 (as defined in s 4 of the Public
 Audit Act 2001), the Auditor General; or
- (b) a person who-
 - (i) is qualified for appointment as auditor of a company under the Companies Act 1993;
 - (ii) is **independent**; and

where the EDB is a CPP applicant-

- (iii) is not a verifier of the EDB's CPP proposal;
- (iv) has not assisted with the compilation of the information in that proposal;
- (v) has not provided opinions or advice (other than in relation to audit reports) on the methodologies or processes used or to be used in compiling the information in the proposal; and
- (vi) is neither professionally associated with nor directed by any person who has provided such assistance, opinions or advice;

has the meaning specified in, and is the amount determined in accordance with-

(a) Part 2, clause 2.4.4(2); and

average debt premium

(b) Part 4, clause 4.4.4(2);

В

base year	means the disclosure year selected by the Commission ;
building blocks allowable revenue after tax	means the amount determined in accordance with clause 5.3.3;
building blocks allowable revenue before tax	means the amount determined in accordance with clause 5.3.2;
business	has the same meaning as defined in s 2 of the Act ;
business day	means any day on which statistics relating to trading in New Zealand government bonds are published by a financial information service such as Bloomberg or Reuters;
C	
сарех	means capital expenditure;
capex forecast	means the part of the CPP proposal , provided pursuant to clause 5.4.29, that forecasts capex for the next period ;
capex incentive amount	means the amount determined in accordance with clause 3.3.10(2);
capex wash-up adjustment	means the amount that is the difference between the revenues for a DPP regulatory period or CPP regulatory period using the actual values of commissioned assets for a prior regulatory period and the revenues using forecast commissioned assets applied by the Commission when setting prices, and is calculated in accordance with clause 3.1.3(8);
capital contributions	means, for the purpose of-
	(a) Part 2, money or the monetary value of other consideration

charged to or received from

consumers or other parties for the purposes of asset construction, acquisition or enhancement;

- (b) Part 4, money or the monetary value of other consideration to be charged to or received from **consumers** or other parties for the purposes of asset construction, acquisition or enhancement; and
- (c) Part 5, money or the monetary value of other consideration forecast to be charged to or received from **consumers** or other parties for the purposes of asset construction, acquisition or enhancement;

means either or both the return on or return of **regulated service asset values**;

means costs, for the purposes of-

- (a) Part 2-
 - (i) incurred in the acquisition or development of an asset that is, or is intended to be, commissioned; and
 - that are or are intended to be included in the value of commissioned asset; and
- (b) Part 4-

(i)

- forecast to be incurred in the acquisition or development of an **additional asset**; and
- (ii) that are included in the forecast aggregate value of commissioned asset,

capital costs

capital expenditure

but only to the extent that the costs are forecast to be included in an aggregate closing RAB value for additional assets; and

- (c) Part 5-
 - (i) incurred or forecast to be incurred in the acquisition or development of an asset that is, or is intended to be, commissioned; and
 - that are included or are intended to be included in the value of commissioned asset or forecast value of commissioned asset, as the case may be, but only to the extent that the costs are included or are intended to be included in a closing RAB value;

has the meaning specified in, for the purposes of –

- (a) Part 4, clause 4.5.1; and
- (b) Part 5, clause 5.6.1;

means the amount determined by the **Commission** for–

(a) additional net costs (over and above those provided for in a DPP determination or CPP determination) prudently incurred by an EDB in responding to a catastrophic event, other than costs that are foregone revenue;

catastrophic event

catastrophic event allowance

causal relationship

change event

closing RAB value

- (b) recoverable costs and passthrough costs the EDB was permitted to recover under the applicable DPP determination or CPP determination through prices, but did not recover due to a catastrophic event; and
- (c) the impact of a catastrophic
 event on any quality incentive
 adjustment,

incurred in or relating to the period between a **catastrophic event** and the effective date of an amendment to the **DPP** or **CPP** following reconsideration of the **price-quality path** under clause 4.5.6(1)(a)(i) or clause 5.6.7(2)(a);

means, in relation to-

- (a) operating costs, a circumstance in which a cost driver leads to an operating cost being incurred during the 18 month period terminating on the last day of the disclosure year in respect of which the cost allocation is carried out; and
- (b) regulated service asset values, a circumstance in which a factor influences the utilisation of an asset during the 18 month period terminating on the last day of the disclosure year in respect of which the asset allocation is carried out;

has the meaning specified in, for the purposes of-

- (a) Part 4, clause 4.5.2; and
- (b) Part 5, clause 5.6.2;

means the value determined in accordance with, for the purpose of-

	 (a) Part 2, clause 2.2.4(4); and (b) Part 5, clause 5.3.6(3); 	
closing tax losses	means the amount determined in accordance with, for the purpose of-	
	(a) Part 2, clause 2.3.2(4);	
	(b) Part 4, clause 4.3.2(3); and	
	(c) Part 5, clause 5.3.14(5);	
closing works under construction	means the amount determined in accordance with clause 5.3.12(3);	
Commission	has the same meaning as defined in s 2 of the Act ;	
commissioned	means used by an EDB to provide electricity distribution services and commission shall be construed accordingly;	
commissioning date	means the date that an asset is or is forecast to be first commissioned , as the case may be;	
committed	in respect of a project or programme , means all approvals internal and external to the EDB that are required in order for work on the project to commence have been received;	
consumer	has the same meaning as defined in s 2(1) of the Electricity Act 1992;	
consumer-owned	has the same meaning as defined in s 54D of the Act ;	
contingent project	has the meaning specified in clause 5.6.5(1);	
corporate tax rate	means the rate of income taxation applying to companies as specified in the tax rules ;	
cost allocator	means a proportion of a quantifiable measure used to allocate operating costs that are not directly attributable , and whose quantum is-	

	(a)	based on a causal relationship ; or
	(b)	equal to a proxy cost allocator;
cost of debt	means the amount specified for r_d in, for the purpose of-	
	(a) (b)	Part 2, clause 2.4.1(3); and Part 4 and Part 5, clause 4.4.1(3);
СРІ	means-	
	(a) (b)	subject to paragraph (b), the consumer price index stipulated for each quarter in the 'All Groups Index SE9A' as published by Statistics New Zealand; and in respect of quarters prior to any quarter in which the rate of GST is amended after this determination comes into force, the same index as described in paragraph (a), multiplied by the Reserve Bank of New Zealand's forecast change in that index (expressed as a decimal) arising from the amendment;
СРР	mean	s customised price-quality path;
CPP applicant	means an EDB who-	
	(a) (b)	is preparing a CPP proposal ; or has made a CPP proposal that has not been determined;
CPP application	has th 5.1.1(ne meaning specified in clause 2);
CPP determination	relatio servic	s a determination of a CPP in on to electricity distribution c es made by the Commission under of the Act ;
CPP inflation rate	has th 5.3.4(ne meaning specified in clause 9);

CPP proposal	means a proposal made by an EDB to the Commission for a CPP comprising the information specified in Part 5 Subpart 4;
CPP regulatory period	means-
	 (a) in relation to a CPP proposal, the 5 disclosure years following the assessment period; and (b) in relation to a particular CPP, the period to which the relevant CPP determination relates;
current period	means the 5 disclosure years preceding the disclosure year in which the CPP application is submitted;
[)
debt issuance costs	means costs associated with the issuance of debt by a supplier (including, but not limited to, arrangement fees, legal fees, brokerage, advertising, credit rating fees, registry costs, listing fees, syndicate fees, trustee fees, facility fees, line fees, roadshow and marketing costs, paying agency fees and any fee or premium incurred in entering into an interest rate or cross-currency derivative);
debt premium	for the purpose of Part 2 or Part 4, has the meaning specified in, and is the amount determined in accordance with, clause 2.4.4(5);
debt premium reference year	means a 12 month period ending on 31 August;
	Example: 'debt premium reference year 2016' means the twelve month period ending 31 August 2016;
demand group	means a pricing category (irrespective of the pricing methodology used) that has

depreciation

depreciation temporary differences

designated individual

a discrete rate of growth in the demand for **electricity distribution services** over the **CPP regulatory period**;

> Examples: industrial consumers, commercial consumers, residential consumers, nonstandard consumer groups, irrigation connections, large capacity connections, or a combination or sub-group of each of these;

means an allowance to account for the diminution in an asset's remaining service life potential in the **disclosure year** in question with respect to its **opening RAB value**, or, for the purpose of Part 4, its **aggregate opening RAB value for existing assets** and **aggregate opening RAB value for additional assets**, and the amount of such allowance is determined in accordance with, for the purpose of-

- (a) Part 2, clause 2.2.5(2);
- (b) Part 4, clause 4.2.2(2); and
- (c) Part 5, clause 5.3.7(2);

has the meaning specified, for the purpose of-

- (a) Part 2, clause 2.3.8(2);
- (b) Part 4, clause 4.3.5; and
- (c) Part 5, clause 5.3.20(2);

means an individual who is-

- (a) independent; and
- (b) engaged or instructed by a person falling within paragraph
 (a) of the definition of verifier to verify (in accordance with Schedule G) part or all of the

directly attributable

director

disclosure year

discretionary discounts and customer rebates

CPP proposal which that **person** is engaged to verify;

means, in relation to-

 (a) operating costs, wholly and solely incurred by the EDB in or in relation to its supply of one regulated service; and

(b) regulated service asset values, wholly and solely related to an asset used by the EDB in or in relation to its supply of one regulated service;

means, in the case of an EDB that is -

- (a) a company (as 'company' is defined in s 2 of the Companies Act 1993), an individual occupying the position of director of the EDB, by whatever name that position is called;
- (b) a partnership (other than a special partnership), a partner;
- (c) a special partnership, a general partner; and
- (d) any other body corporate or unincorporated body, an individual occupying a position in the body that is comparable with that of director of a company;

shall be construed as a 12 month period ending on the date specified in an **ID determination** as the last date in the period to which annual disclosure relates;

> Example: 'Disclosure year 2017' means 12 month period ending on 31 March 2017.

has the meaning specified in clause 2.3.3(6);

disposed asset

means, for the purpose of-

	 (a) Part 2, an asset that, in the disclosure year in question, has been sold or transferred, or has been irrecoverably removed from the EDB's possession without consent but is not a lost asset; and (b) Part 5, an asset that, in relation to a disclosure year, is-
	 (i) sold or transferred but is not a lost asset; or (ii) forecast to be sold or transferred;
distributed generation allowance	 means any positive allowance for costs incurred and amounts payable, or negative allowance for amounts receivable, in relation to avoided transmission charges arising from distributed generation, including embedded or notionally embedded generation, made in accordance with– (a) Schedule 6.4 of Part 6 of the Electricity Industry Participation Code; or (b) the Electricity Industry Act 2010;
document	has the same meaning as defined in s 2 of the Act ;
DPP	means default price-quality path;
DPP determination	means a DPP determination in relation to electricity distribution services made by the Commission under s 52P of the Act ;
DPP regulatory period	means the period to which the relevant DPP determination relates;

	L
easement	means a right to use but not possess land belonging to another person or a right to prevent certain uses of another person's land ;
easement land	means land acquired with the intention of-
	 (a) creating an easement in respect of it; and (b) disposing of the land thereafter;
EDB	means a supplier of electricity distribution services;
electricity distribution services	means all electricity lines services , other than those supplied by Transpower or any subsidiary of, or successor to Transpower ;
Electricity Information Disclosure Requirements 2004	means the Electricity Information Disclosure Requirements 2004 as were originally published by the Commission on 31 March 2004 and consolidating all amendments to 7 May 2004;
electricity lines services	has the same meaning as defined in s 54C of the Act ;
engineer	means an individual who is-
	 (a) a chartered professional engineer as defined in s 6 of the Chartered Professional Engineers of New Zealand Act 2002;
	(b) acting in that professional capacity; and
	(c) independent;
error event	has the meaning specified in, for the purpose of-
	(a) Part 4, clause 4.5.3(1); and(b) Part 5, clause 5.6.3(1);

Ε

excluded asset

existing assets

existing CPP assets

expenditure objective

extended reserves allowance

means an asset that is-

- (a) not used to supply electricity distribution services as on the last day of the disclosure year 2009;
- (b) designated as 'excluded' type as a result of the asset adjustment process; or
- (c) easement land;

means assets of an EDB for which an aggregate closing RAB value for existing assets is calculated for the base year;

means assets of an **EDB** included in the **closing RAB value** of the last year of the **current period**;

means objective that **capital expenditure** and **operating expenditure** reflect the efficient costs that a prudent **non-exempt EDB** would require to-

- (a) meet or manage the expected demand for electricity distribution services, at appropriate service standards, during the CPP regulatory period and over the longer term; and
- (b) comply with applicable
 regulatory obligations
 associated with those services;

means an amount determined by the **Commission** as a positive allowance for costs incurred and amounts payable, or a negative allowance for amounts receivable, in accordance with requirements in the Electricity Industry Participation Code 2010 relating to extended reserves made under the Electricity Industry Act 2010;

F			
false or misleading information	has the meaning specified in clause 4.5.6(3);		
finance lease	has the same meaning as under GAAP ;		
fixed life easement	means an easement that-		
	 (a) is of fixed duration; or (b) whilst of indefinite duration, is to be held for a fixed period; 		
forecast aggregate value of commissioned asset	means the amount determined in accordance with clause 4.2.5;		
forecast aggregate value of disposed asset	s means the amount determined in accordance with clause 4.2.6;		
forecast allowable revenue	means the amount determined in accordance with clause 3.1.1(4);		
forecast allowable revenue as a function of demand	means a value specified in clause 3.1.1(5);		
forecast CPI	means the amount specified in, for the purpose of Part 3 and Part 5, clause 3.1.1(8);		
forecast CPI for CPP revaluation	means the amount specified in accordance with clause 5.3.10(5);		
forecast CPI for DPP revaluation	means the amount specified in accordance with clause 4.2.3(4);		
forecast CPI for IRIS transitional provision	means the amount specified in accordance with clause 3.3.15(6);		
forecast net allowable revenue	means a value specified in clause 3.1.1(6) or 3.1.1(7), as applicable;		
forecast operating expenditure	has the meaning specified in clause 5.3.2(6);		
forecast opex	has the meaning specified in clause 3.3.3(8);		
forecast regulatory tax allowance	has the meaning specified in clause 5.3.13;		
forecast revenue from prices	means an amount specified in clause 3.1.1(3);		

forecast value of commissioned asset	means the value determined in accordance with clause 5.3.11;
found asset	has the meaning specified in clause 2.2.12(1);
	G
GAAP	means generally accepted accounting practice in New Zealand, save that, where the cost of an asset is being determined in accordance with this determination, only the cost model of recognition is applied insofar as an election may be made between the cost model of recognition and the fair value model of recognition;
GPB	means GDB (as 'GDB' is defined in the Gas Distribution Input Methodologies Determination 2012) or GTB (as 'GTB' is defined in the Gas Transmission Input Methodologies Determination 2012);
GST	has the same meaning as defined in s YA 1 of the Income Tax Act 2007 as amended from time to time, and any equivalent legislation that supplements or replaces that definition;
	н
highly probable	means one in respect of which the following conditions have been met at the time the CPP application is made:
	 (a) the directors have approved a plan to sell either or both the other regulated service or unregulated service, as the case may be;
	(b) the EDB is taking active steps to-
	(i) locate a buyer for the

- (i) locate a buyer for the assets; and
- (ii) complete the plan,

referred to in paragraph (a); (c) the EDB is actively marketing the assets for sale at a price that is reasonable; the directors expect the sale to (d) complete within 12 months of the CPP application being made; and actions to date do not (e) contemplate that significant amendment to the plan may be made or that it will be withdrawn. L **ID** determination means an information disclosure determination in relation to an EDB made by the Commission under s 52P of the Act; identifiable non-monetary asset has the same meaning as under GAAP save that goodwill is excluded; identified programme means a project or programme that an EDB intends to undertake during the next period and which is selected by the verifier for detailed assessment in accordance with clause G4(1); incentive rate means the incremental rate of change used to calculate the quality incentive adjustment, as specified in a DPP determination or CPP determination; included asset means an asset which, as a result of the asset adjustment process, is designated as 'included'; included value means value assigned to an included asset; incremental adjustment term means the amount determined in accordance with clause 3.3.15(4);

independent	means neither in a relationship with, nor having an interest in, the EDB in question that is likely to involve him her or it in a conflict of interest between his, her or its duties to the EDB and his, her or its duties to the Commission ;
inflation rate	has the meaning specified in clause 3.3.15(5);
initial differences in asset values	has the meaning specified in, for the purpose of-
	(a) Part 2, clause 2.3.5(3); and
initial RAB	(b) Part 5, clause 5.3.17(3);has the meaning specified in clause2.2.2;
initial RAB value	means value of an asset in the initial RAB determined in accordance with clause 2.2.3(4);
input methodology	has the same meaning as defined in s 52C of the Act ;
investment grade credit rated	means endorsed with a credit rating by an established credit rating agency (such as Standard and Poor's) of "investment grade" on that agency's credit rating scale applicable to long-term investments;
IRIS incentive adjustment	means the recoverable cost amount determined under clause 3.3.1(2);
	L
land	excludes easements ;
leverage	means the ratio of debt capital to total capital and is the amount specified in, for the purpose of-
	(a) Part 2, clause 2.4.2(1); and(b) Part 4, clause 4.4.2(1);
levy	means a tax, charge or fee directly imposed by or under legislation-

	(a)	on-	
		 (i) EDBs alone; or (ii) a class of person than the general or businesses in that includes EDI 	public general)

local authority	other has the of the has the 5(1) of	egulated services; same meaning as define lectricity Act 1992; same meaning as define the Local Government Ac	ed in s 2 ed in s ct 2002; al RAB; e ion, an
local authority	other of has the of the has the 5(1) of means (a) (b) but de disclos	egulated services; same meaning as define lectricity Act 1992; same meaning as define the Local Government Act an asset- not included in the initia and having, in relation to the disclosure year in quest unallocated opening RA ermined by the EDB in the ire year never to have be ide electricity distributio	ed in s 2 ed in s et 2002; al RAB ; e ion , an B value , nat een used

major transaction	has the meaning specified in, for the purpose of-		
	ar		
and in the state of the state		rt 5, clause 5.6.4; e amount determined in	
maximum allowable revenue after tax		ce with clause 5.3.4;	
maximum allowable revenue before tax	means the amount determined in accordance with clause 5.3.4;		
mid-point estimate of WACC	means, for the purpose of-		
	(a) Pa of	art 2, the mid-point estimate	
	(i) (ii)	estimated in accordance with clause 2.4.1(1); or	
	(ii) post-tax WACC as estimated in accordance with clause 2.4.1(2),	
	as	the case may be;	
	рс	art 3, the mid-point estimate of ost-tax WACC , as estimated in coordance with clause 4.4.1(2);	
		rt 4, the mid-point estimate	
	(i) (::	estimated in accordance with clause 4.4.1(1);	
	(ii) post-tax WACC as estimated in accordance with clause 4.4.1(2),	
	as	s the case may be;	
modified value		e value of a value modified gned in accordance with clause	
multi-rate PIE		nme meaning as defined in s YA ncome Tax Act 2007;	

	Ν
Nelson-Siegel-Svensson approach	has the meaning specified in clause 2.4.4(9);
network	means the fixed assets used by an EDB to provide electricity distribution services ;
network spare	means an asset that is held by an EDB to replace any other asset it holds should that other asset be withdrawn from use owing to failure or damage;
next period	means the period commencing on the first day of the disclosure year during which the CPP application is submitted and terminating on the last day of the 5 disclosure years following the assessment period ;
non-exempt EDB	means an EDB other than a consumer- owned EDB exempt under s 54G(2) of the Act;
<u>NZ IAS 24</u>	means New Zealand Equivalent to International Accounting Standard 24, Related Party Disclosures (NZ IAS 24), issued by the New Zealand Accounting Standards Board of the External Reporting Board in November 2009, incorporating amendments to 31 December 2015, under s 24(1)(a) of the Financial Reporting Act 1993;
	0
ODV handbook	means Handbook for Optimised Deprival Valuation of System Fixed Assets of Electricity Lines Businesses published by the Commerce Commission on 30 August 2004 and effective 31 August 2004;
ODV valuation	means valuation of an asset as of 31 March 2004 in accordance with the

	Electricity Information Disclosure Requirements 2004 and the ODV handbook;	
opening deferred tax	has the meaning specified in, for the purpose of-	
	 (a) Part 2, clause 2.3.7; (b) Part 4, clause 4.3.4(1); and (c) Part 5, clause 5.3.19; 	
opening RAB value	means the value determined in accordance with, for the purpose of-	
	(a) Part 2, clause 2.2.4(3); and(b) Part 5, clause 5.3.6(1);	
opening tax losses	means the amount determined in accordance with, for the purpose of –	
	(a) Part 2, clause 2.3.2(3);	
	(b) Part 4, clause 4.3.2(3)(a); and	
	(c) Part 5, clause 5.3.14(3);	
opening works under construction	has the meaning specified in clause 5.3.12(1);	
operating cost	means a cost incurred by the EDB in question relating to the supply of-	
	 (a) regulated services alone; or (b) regulated services and one or more unregulated service, 	
	and excludes-	

- (c) a cost that is treated as a cost of an asset by GAAP;
- (d) amounts that are depreciation, tax, subvention payments, revaluations or an interest expense, in accordance with their meanings under GAAP;
- (e) **debt issuance costs**;
- (f) pass-through costs;
- (g) recoverable costs; and

	(h)	distribution of profits to consumers;
operating expenditure	for th	e purpose of –
	(a)	Part 4, means the value of operating costs attributable to electricity distribution services supplied by an EDB which are forecast to be incurred in the disclosure year in question as determined by the Commission; and
	(b)	Part 5, means operating costs after application of clause 5.3.5;
орех	mean	s operating expenditure ;
opex category	has th	ne meaning specified in Schedule D;
opex forecast	provio foreca	is the part of a CPP proposal , ded pursuant to clause 5.4.29, that asts operating expenditure for the period ;
opex incentive amount		s the amount determined in dance with clause 3.3.2(2);
other regulated income	for th	e purpose of–
	(a)	Part 3, means income associated with the supply of electricity distribution services other than-
		(i) through prices ;
		(ii) investment-related income;
		(iii) capital contributions; or
		(iv) vested assets; and
	(b)	Part 4, means forecast income associated with the supply of electricity distribution services other than-
		(i) through prices ;

(ii) investment-related income;

	(iii) capital contributions; or
	(iv) vested assets,
	as determined by the Commission ;
other regulated service	means a regulated service , other than electricity distribution services, supplied by the EDB in question;
Οναβαα	means the optional variation to accounting-based allocation approach, as described in clause 2.1.4;
OVABAA allocation increase	means, in respect of either or both-
	 (a) operating costs; and (b) regulated service asset values,
	not directly attributable , as the case may be, allocated to electricity distribution services , the dollar difference between the amount determined pursuant to the last application of clause 2.1.4(7)(c) and the application of clause 2.1.4(2)(a) or 2.1.4(3)(a), as the case may be;
	Р
pass-through cost	has the meaning specified in clause 3.1.2(1);
permanent differences	means the amount determined in accordance with, for the purpose of-
	(a) Part 2, clause 2.3.3; and(b) Part 5, clause 5.3.15;
person	has the same meaning as defined in s 2 of the Act ;
physical asset life	has the meaning specified in clause 2.2.8;
positive permanent differences	has the meaning specified in clause 5.3.15(2);
prescribed investor rate	has the same meaning as defined in the Income Tax Act 2007 or any subsequent

prices	legislation that supplements or r the provisions relating to prescri investor rate in the Income Tax A 2007; has the meaning specified in clau 3.1.1(9);	bed Act
programme	means a group of related projects with common purpose;	
project	means a temporary endeavour requir concerted effort, undertaken to creat defined outcome;	
proxy asset allocator	means a proportion of a quantifi measure-	able
	 (a) used to allocate regulate service asset values for v causal relationship cann established; and (b) whose quantum is based factors in existence durin 18 month period termina the last day of the most of disclosure year in respect which the proxy allocation carried out; 	which a ot be on ng the ating on recent ct of
proxy cost allocator	means a proportion of a quantifi measure-	able
Q	 (a) used to allocate operating for which a causal relation cannot be established; and (b) whose quantum is based factors in existence during 18 month period termination the last day of the most of disclosure year in respect which the cost allocation carried out; 	onship nd on ng the ating on recent ct of
~		

qualifying debt

has, for the purpose of-

- (a) Part 2, the meaning specified in clause 2.4.7(1); and
- (b) Part 5, the meaning specified in clause 5.3.25(1);

means a New Zealand resident limited liability company -

- (a) that-
 - (i) undertakes the majority
 of its business activities
 in Australia and New
 Zealand; or
 - (ii) is part of a corporate group that undertakes the majority of its business activities in Australia and New Zealand;
- (b) that-
 - does not operate
 predominantly in the
 banking or finance
 industries; or
 - (ii) is part of a corporate group that does not operate predominantly in the banking or finance industries; and
- (c) that issues vanilla NZ\$
 denominated bonds that are publicly traded;

means-

- (a) a Standard and Poor's long term credit rating of the specified grade; or
- (b) an equivalent long term credit rating of another internationally recognised rating agency;

qualifying issuer

qualifying rating

qualifying supplier	has the meaning specified in, for the purpose of-
	(a) Part 2, clause 2.4.7(2); and
	(b) Part 5, clause 5.3.25(2);
quality incentive adjustment	means an amount to provide incentives for a non-exempt EDB to maintain or improve its quality of supply in accordance with s 53M(2) of the Act , and is a function of–
	 (a) a non-exempt EDB's performance above or below the quality targets, up to the caps or collars specified in relation to the quality targets; (b) revenue at risk; and (c) incentive rate, calculated in accordance with the method specified in a DPP determination or CPP determination;
quality standard variation	means variation to any standard-
	 (a) specified in a DPP determination; and (b) which prescribes the use by an EDB of an historic time series of data relating to service quality measured in accordance with a specified metric,
	where the variation is limited to changed values of the metric by which such quality standards is specified but not the metric itself;
quantity	has the meaning, for the purpose of Part 3, specified in clause 3.1.1(10);
	R
reconsideration event allowance	means the positive or negative amount determined by the Commission –

	(b) (c)	for additional net costs (over and above those provided for in a DPP or CPP) prudently incurred by an EDB as a result of a change event in the period between the change event and the effective date of an amendment to the DPP or CPP under clause 4.5.6(1)(a)(ii) or clause 5.6.7(2)(b); to mitigate the effect of an error event or provision of false or misleading information on the relevant DPP or CPP under clauses 4.5.6(1)(a)(iii), 4.5.6(1)(a)(v), 5.6.7(2)(c), or 5.6.7(5); or for the impact of a change event , error event , or provision of false or misleading information under clauses
		4.5.6(1)(a)(ii), 4.5.6(1)(a)(iii), 4.5.6(1)(a)(v), 5.6.7(2)(b),
		5.6.7(2)(c) or 5.6.7(5), on any quality incentive adjustment;
recoverable cost	has the 3.1.3;	meaning specified in clause
regulated goods or services	has the 52C of t	same meaning as defined in s he Act ;
regulated service	EDB pur regulate the avoi	a type of service supplied by an suant to the supply of a ed good or service , which, for dance of doubt, includes the g types of services-
	(b)	electricity distribution services; gas distribution services as defined in the Gas Distribution Services Input Methodologies Determination 2012; and

 (c) gas transmission services as defined in the Gas Transmission Services Input Methodologies Determination 2012);

regulated service asset value

- means, in respect of an asset-
- (a) used by an EDB in the supply of-
 - (i) one or more **regulated service**; or
 - (ii) one or more regulated service and one or more unregulated service;

where at least one of those regulated services is an electricity distribution service-

- (iii) in the disclosure year2009, its unallocatedinitial RAB value; and
- (iv) in all other disclosure
 years, its unallocated
 closing RAB value; and
- (b) used by an **EDB** only in the **supply** of-
 - (i) one or more **other** regulated service; or
 - (ii) one or more other
 regulated service and
 one or more unregulated
 service;

in-

- (iii) the disclosure year 2009, its unallocated initial RAB value; and
- (iv) all other disclosure years, its unallocated closing RAB value,

	determined in accordance with the input methodologies applicable to the other regulated service .
regulated supplier	means a supplier of regulated goods or services;
regulatory investment value	has the meaning specified in clause 5.3.2(2);
regulatory net taxable income	has the meaning specified in, for the purpose of-
	 (a) Part 2, clause 2.3.1(2); (b) Part 4, clause 4.3.1(2); and (c) Part 5, clause 5.3.13(2);
regulatory period	means the regulatory period for default/customised price-quality regulation applicable to an EDB as specified in a determination made under s 52P of the Act ;
regulatory profit / (loss) before tax	has the meaning specified in, for the purpose of –
	 (a) Part 2, clause 2.3.1(4); (b) Part 4, clause 4.3.1(4); and (c) Part 5, clause 5.3.13(4);
regulatory taxable income	means the amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.1(3); and (b) Part 4, clause 4.3.1(3); and (c) Part 5, clause 5.3.13(3);
regulatory tax adjustments	means the amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.4; (b) Part 4, clause 4.3.3; and (c) Part 5, clause 5.3.16;
regulatory tax allowance	has the meaning specified, for the purpose of –
	(a) Part 2, clause 2.3.1; and

	(a) Part 2, clause 2.3.9; and(b) Part 5, clause 5.3.21;
regulatory templates	has the meaning specified in clause 5.4.29(2);
related party	means-
	 (a) a person <u>that is related to the</u> EDB, where the EDB would be considered as the 'reporting entity', as specified in the definition of 'related party' in NZ IAS 24that, in accordance with GAAP, is related to the EDB in question; or (b) any part of the EDB in question that does not supply electricity
related party transaction	distribution services;
	(a) the procurement of an asset or good or service from a related party by the part of the EDB that supplies the electricity distribution service; or
	(b) the sale or supply of an asset or good or service to a related party by the part of the EDB that supplies the electricity <u>distribution service</u> ;
remaining asset life	means term remaining of an asset's asset life at the commencement of the disclosure year in question, taking into account the reduction in asset life as specified in clause 2.2.8(4)(a);
remaining asset life for existing assets	has the meaning specified in clause 4.2.2(3)(a);

Part 4, clause 4.3.1;

has the meaning specified in, for the

(b)

purpose of-

regulatory tax asset value

remaining asset life for existing CPP assets	has the meaning specified in clause 5.3.7(4)(a);	
retention factor	means the percentage amount determined by the Commission in a CP determination or DPP determination for the purpose of calculating the cape incentive amount ;	
revaluation	means the amount determined in accordance with, for the purpose of-	
	 (a) Part 2, clause 2.2.9(2); (b) Part 4, clause 4.2.3(2); and (c) Part 5, clause 5.3.10(2); 	
	which, for the avoidance of doubt, may be a negative number;	
revaluation rate	has the meaning specified in, for the purpose of-	
	 (a) Part 2, clause 2.2.9(4); (b) Part 4, clause 4.2.3(3); and (c) Part 5, clause 5.3.10(4); 	
revenue at risk	means the maximum financial reward or penalty arising under a quality incentive adjustment, as specified in a DPP determination or CPP Determination;	
revenue foregone	has the meaning specified in clause 3.1.3(13)(g);	
revenue reduction percentage	has the meaning specified in clause 3.1.3(13)(j);	
revenue wash-up draw down amount	has the meaning specified in clause 3.1.3(13)(k);	
reversal and reverse	have the same meanings as under GAAP;	
S		
selection rationale	means a description of either or both of the-	

- (a) criteria applied; and
- (b) fundamental reasons used,

	for, either or both-
	(c) determining; and
	(d) selecting,
	each-
	(e) asset allocator and associated
	allocator metric; and (f) cost allocator and associated
	allocator metric;
services	has the same meaning as defined in s 2 of the Act ;
standard depreciation method	means, in respect of an asset whose remaining asset life is the term remaining of its physical asset life at the commencement of the disclosure year in question, method specified in clause 5.3.7 excluding any method referred to in the whole clauses to which clause 5.3.7 is subject;
standard error	means estimated standard deviation;
standard physical asset life	means life for an asset as specified in Table A.1: Standard Physical Asset Lives for EDBs of Schedule A;
starting price year	means, in relation to an EDB,-
	 (a) the first disclosure year of a regulatory period; or (b) the disclosure year immediately following the expiration of a CPP ;
supply	has the same meaning as defined in s 2 of the Act , and supplied must be construed accordingly;
Т	Г
tax asset value	means the value determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.9(2); and (b) Part 5, clause 5.3.21(2);

tax depreciation rules

means, for the purpose of-

tax depreciation rules	means, for the purpose of-
	 Part 2, for existing CPP assets, the tax rules that relate to the determination of depreciation allowances for tax purposes;
	(b) Part 5, for existing CPP assets, the tax rules that relate to the determination of depreciation allowances for tax purposes;
	(c) Part 5, for additional CPP assets, the tax rules that relate to the determination of depreciation allowances for tax purposes, to be applied by adopting the tax depreciation rate for the assets representing the largest proportion within each asset category, as forecast over the
	CPP regulatory period;
tax effect	means the product of multiplication by the corporate tax rate ;
tax effect tax rules	means the product of multiplication by
	means the product of multiplication by the corporate tax rate ; means the rules applicable to an EDB for determining income tax payable in the Income Tax Act 2007 (as amended from time to time, and any equivalent preceding legislation, or any subsequent legislation that supplements or replaces

tax rules	 means the product of multiplication by the corporate tax rate; means the rules applicable to an EDB for determining income tax payable in the Income Tax Act 2007 (as amended from time to time, and any equivalent preceding legislation, or any subsequent legislation that supplements or replaces that Act); means the amount determined in accordance with, for the purpose of- (a) Part 2, clause 2.3.8; and
tax rules temporary differences	<pre>means the product of multiplication by the corporate tax rate; means the rules applicable to an EDB for determining income tax payable in the Income Tax Act 2007 (as amended from time to time, and any equivalent preceding legislation, or any subsequent legislation that supplements or replaces that Act); means the amount determined in accordance with, for the purpose of- (a) Part 2, clause 2.3.8; and (b) Part 5, clause 5.3.20; means the amount determined in</pre>

term credit spread differential		ermined in accordance with, for urpose of-
	(a)	Part 2, clause 2.4.9(3); and
	(b)	Part 5, clause 5.3.23(1);
term credit spread differential allowance	for th	e purpose of-
	(a)	Part 2 and Part 5, means the sum of term credit spread differentials; and
	(b)	Part 4, means the amount determined in accordance with clause 4.4.7(2);
total depreciation	mean	s, for the purpose of-
	(a)	Part 2 and Part 5, the sum of depreciation for all assets; and
	(b)	Part 4, the value determined in accordance with clause 4.2.2;
total opening RAB value	mean	s, for the purpose of-
	(a)	Part 4, the amount determined in accordance with clause 4.2.1(1); and
	(b)	has the meaning specified in clause 5.3.6(7);
total revaluation	mean	s, for the purpose of-
	(a)	Part 2 and Part 5, the sum of revaluation for all assets; and
	(b)	Part 4, the value determined in accordance with clause 4.2.3;
transmission asset wash-up adjustment	corres reven additi additi assoc foreca years	s a negative amount sponding to the present value of ues allowed in a DPP or CPP for onal capital expenditure and onal operating expenditure iated with a transmission asset ast to be purchased in disclosure preceding the regulatory period ere not completed, as specified in

	a DPP determination or CPP determination;
Transpower	has the same meaning as defined in s 54B of the Act ;
trigger event	has the meaning specified in clause 5.6.5(3);
ι	J
unallocated closing RAB value	means value determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.2.4(2); and (b) Part 5, clause 5.3.6(6);
unallocated depreciation	means an allowance to account for the diminution in an asset's remaining service life potential in the disclosure year in question with respect to its unallocated opening RAB value and the amount of such allowance is determined in accordance with, for the purpose of Part 2, clause 2.2.5(1);
unallocated initial RAB value	means value of an asset in the initial RAB determined in accordance with clause 2.2.3(1);
unallocated opening RAB value	means value determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.2.4(1); and (b) Part 5, clause 5.3.6(5);
unallocated revaluation	means amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.2.9(1); and (b) Part 5, clause 5.3.10(1);
unduly deterred	means, solely as a result of an allocation to the unregulated service in question of either or both of-
	 (a) operating costs not directly attributable; and

	 (b) regulated service asset values not directly attributable; the operating costs not directly attributable or capital costs associated with the regulated service asset values not directly attributable (as the case may be) to be borne by that unregulated service would cause that unregulated service to be-
	(a) discontinued; or(b) not provided,
	and ' unduly deter ' must be construed accordingly;
unforeseen project	has the meaning specified in clause 5.6.6;
unregulated service	means any good or service supplied by the EDB that is not a regulated service ;
utilised tax losses	means the amount determined in accordance with, for the purpose of-
	 (a) Part 2, clause 2.3.2; (b) Part 4, clause 4.3.2(1); and (c) Part 5, clause 5.3.14;
V	,
value modified asset	means an asset which, as a result of the asset adjustment process , is designated as 'value modified' type;
value of commissioned asset	means the value determined in accordance with clause 2.2.11;
value of found asset	means the value of a found asset determined in accordance with clause 2.2.12(2);
valuer	means an individual who-
	 (a) is registered as a valuer under the Valuers Act 1948;

(b) holds a current practising certificate issued by-

48

	 (i) the Property Institute of New Zealand; or (ii) the New Zealand Institute of Valuers;
	 (c) has been engaged to act in his or her professional capacity as a valuer; and
	(d) is independent ;
vanilla NZ\$ denominated bonds	means senior unsecured nominal debt obligations denominated in New Zealand dollars without callable, puttable, conversion, profit participation, credit enhancement or collateral features;
verification report	means a report prepared by a verifier in accordance with Schedule G;
verifier	means-
	(a) a person who-
	 (i) is independent; and (ii) has been engaged to verify the CPP applicant's CPP proposal in accordance with Schedule G; or
	 (b) a designated individual of a person described in paragraph (a);
vested asset	means an asset associated with the supply of electricity distribution services received by an EDB-
	(a) without provision of
	consideration; or (b) with provision of nominal consideration;
voluntary undercharging amount foregone	has the meaning specified in clause 3.1.3(13)(a);
-	W

WACC	means weighted average cost of capital;
WACC change	means an event described in clause 5.6.7(4);
wash-up account	means a memorandum account maintained by an EDB to record each item specified in clauses 3.1.3(12)(b)-(e);
wash-up amount	has the meaning specified in clause 3.1.3(13)(b);
working day	has the same meaning as defined in s 2 of the Act ; and
works under construction	means an asset, or a collection of assets that-
	 (a) has been or is being or is forecast to be constructed by, or on behalf of, an EDB; (b) has not been commissioned; and

(c) the **EDB** intends to **commission**.

PART 2 INPUT METHODOLOGIES FOR INFORMATION DISCLOSURE

SUBPART 1 Cost allocation

- 2.1.1 Cost allocation process
- (1) Any-
- (a) **operating costs**; and
- (b) regulated service asset values,

that are **directly attributable** to **electricity distribution services supplied** by the **EDB** must be allocated to **electricity distribution services**.

- (2) Any-
- (a) **operating costs**; and
- (b) regulated service asset values,

that are **directly attributable** to any **other regulated service supplied** by the **EDB** must be allocated to the **other regulated service** to which they are **directly attributable**.

- (3) Any operating costs and regulated service asset values that are not allocated in accordance with subclauses (1) and (2) must be allocated to electricity distribution services and other regulated services using, at the supplier's election-
 - (a) ABAA; or
 - (b) OVABAA.
- (4) Notwithstanding anything else in this Subpart, the maximum value of-
 - (a) operating costs that may be allocated to electricity distribution services and other regulated services, in aggregate, must not exceed the total value of operating costs; and
 - (b) regulated service asset values that may be allocated to electricity distribution services and other regulated services, in aggregate, must not exceed the total regulated service asset values,

that would be allocated to **electricity distribution services** and **other regulated services**, in aggregate, using **ACAM** in accordance with clause 2.1.5.

- 2.1.2 <u>Allocation constraints</u>
- (1) For the avoidance of doubt, all allocations of-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** to **other regulated services supplied** by the **EDB** must be consistent with allocations made in accordance with **input methodologies** relating to cost allocation applying to those **other regulated services**.

- (2) Where the OVABAA is applied to both operating costs not directly attributable and regulated service asset values not directly attributable, the combined amount of such costs and values that is re-allocated in accordance with clause 2.1.4(5) must not exceed the amount required to ensure that the unregulated service is not unduly deterred.
- (3) For the avoidance of doubt, after application of this Subpart, notwithstanding anything else that may suggest otherwise, each **unregulated service** must bear at least the total-
 - (a) operating costs; and
 - (b) value of assets,

directly attributable to that unregulated service.

- 2.1.3 Accounting-based allocation approach (ABAA)
- (1) **Cost allocators** must be used to allocate **operating costs** not **directly attributable**, less any **arm's-length deduction**, to-
 - (a) electricity distribution services; and
 - (b) other regulated services.
- (2) Asset allocators must be used to allocate regulated service asset values not directly attributable, less any arm's-length deduction, to-
 - (a) electricity distribution services; and
 - (b) other regulated services.
- (3) Where an EDB uses a proxy cost allocator for the purposes of subclause (1) or a proxy asset allocator for the purposes of subclause (2), the EDB must, in accordance with the requirements in the relevant ID determination, explain why a causal relationship cannot be established.
- (4) Where an EDB uses a proxy cost allocator for the purposes of subclause (1), the EDB must, in accordance with the requirements in the relevant ID determination, explain the rationale for the quantifiable measure used for that proxy cost allocator.
- (5) Where an EDB uses a proxy asset allocator for the purposes of subclause (2), the EDB must, in accordance with the requirements in the relevant ID determination, explain the rationale for the quantifiable measure used for that proxy asset allocator.
- 2.1.4 Optional variation to accounting-based allocation approach (OVABAA)
- (1) This clause applies to the allocation of-
 - (a) only operating costs not directly attributable;

- (b) only regulated service asset values not directly attributable; or
- (c) operating costs not directly attributable and regulated service asset values not directly attributable.
- (2) **Operating costs** not **directly attributable** less any **arm's-length deduction** must be initially allocated to-
 - (a) electricity distribution services;
 - (b) other regulated services; and
 - (c) each unregulated service,

using cost allocators.

- (3) **Regulated service asset values** not **directly attributable** less any **arm's-length deduction** must be initially allocated to-
 - (a) electricity distribution services;
 - (b) other regulated services; and
 - (c) each **unregulated service**,

using asset allocators.

- (4) Where, after application of subclause (2)(c), (3)(c) or both, an **unregulated service** would-
 - (a) be **unduly deterred**, subclause (5) applies; and
 - (b) not be **unduly deterred**, the allocation of either or both of-
 - (i) operating costs not directly attributable; and
 - (ii) regulated service asset values not directly attributable

must remain as carried out in accordance with either or both of subclauses (2)(c) and (3)(c).

- (5) Where this subclause applies, any-
 - (a) **operating costs**; and
 - (b) regulated service asset values,

not **directly attributable** that were allocated to an **unregulated service** in accordance with either or both of subclauses (2)(c) and (3)(c) may be reduced to the amount at which the **unregulated service** would no longer be **unduly deterred**.

- (6) For the avoidance of doubt, the adjusted amounts determined in accordance with subclause (5) must be treated as the share of either or both of-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** to be borne by the **unregulated service** in question.

- (7) The adjusted amounts determined in accordance with subclause (5) must be deducted from either or both the-
 - (a) operating costs not directly attributable; and
 - (b) regulated service asset values not directly attributable,

to which subclause (2) or (3) applied after any **arm's-length deduction** was made, and the remaining costs or values reallocated between-

- (c) electricity distribution services;
- (d) other regulated services; and
- (e) each remaining unregulated service,

in accordance with subclauses (2) and (3).

- (8) Where, after application of subclause (7), the-
 - (a) operating costs; and
 - (b) regulated service asset values,

not **directly attributable** allocated to another **unregulated service unduly deter** that **unregulated service**, the process in subclauses (5) and (7) may be repeated subject to the modifications specified in subclause (9).

- (9) When re-applying-
 - (a) subclause (5) to another unregulated service, the starting values of-
 - (i) operating costs; and
 - (ii) regulated service asset values,

not **directly attributable** allocated to that **unregulated service** must be the values obtained in relation to that **unregulated service** as a result of the previous application of subclause (7); and

- (b) subclause (7), for "to which subclause (2) or (3) applied after any arm'slength deduction was made", substitute "to which this subclause previously applied".
- (10) Subclauses (5) and (7) may be re-applied sequentially in respect of each unregulated service which is unduly deterred until any remaining regulated service asset values or operating costs or both are of such quantum that their allocation to the remaining unregulated services does not result in any of those services being unduly deterred.
- (11) For the avoidance of doubt, the reallocation undertaken in accordance with subclause (7) is carried out by grossing up allocation percentages used to make allocations to **electricity distribution services**, **other regulated services** and each remaining **unregulated service** based on the same **cost allocators** or **asset allocators**, as the case may be, used under subclauses (2) and (3), to take into account the

omission of the allocation percentages for the **unregulated service** to which allocation has already been made under subclause (5).

- 2.1.5 Avoidable cost allocation methodology (ACAM)
- (1) In respect of-
 - (a) **operating costs**; and
 - (b) regulated service asset values,

not **directly attributable**, less any **arm's-length deduction**, an assessment must be made as to the proportion of each that would be non-avoidable were the **EDB** not to **supply unregulated services**.

- (2) The amounts of non-avoidable-
 - (a) **operating costs**; or
 - (b) regulated service asset values,

not **directly attributable**, assessed in accordance with subclause (1), must be allocated to **regulated services** in aggregate.

(3) Where the EDB supplies other regulated services, the amounts allocated in accordance with subclause (2) must be allocated to each regulated service supplied by the EDB using the ABAA.

SUBPART 2 Asset valuation

- 2.2.1 Asset adjustment process for setting initial RAB
- (1) Asset adjustment process means the process of assets-
 - (a) being designated as one of the following asset types:
 - (i) 'excluded';
 - (ii) 'included'; or
 - (iii) 'value modified';
 - (b) of 'included' type being assigned an included value; and
 - (c) of 'value modified' type being assigned a **modified value**.
- (2) Subject to subclauses (3) to (5), under the asset adjustment process, an **EDB** may elect to undertake none, some or all of the following things:
 - (a) designate a load control relay asset owned by an EDB, except a 2009 disclosed asset, as of 'included' type;
 - (b) correct the following types of error found in an **EDB's** asset register where the error relates to **2009 disclosed assets**:
 - assets omitted in error, which assets are treated as of 'included' type;

- (ii) assets included in error, which assets are designated as of 'excluded' type; and
- (iii) assets allocated to the incorrect asset category, or given an estimation of quantity, age, category or location now known to be incorrect, which assets are designated as of 'value modified' type;
- (c) re-apply a multiplier in an ODV valuation which affects a 2009 disclosed asset, where more accurate information relating to application of the multiplier has subsequently become available, which asset is designated as of 'value modified' type;
- (d) re-apply, in an ODV valuation which affects a 2009 disclosed asset, one of the following types of multiplier in the manner described, which asset is designated as of 'value modified' type:
 - (i) the rugged terrain multiplier in paragraph A.9 of the ODV handbook may be amended to a range of 1.2 - 1.8 times, and, in addition to the circumstances cited in the ODV handbook for its application, that multiplier may also be applied to non-standard designs of overhead line networks that accommodate difficult physical or climatic conditions involving swampy ground, high winds or snow;
 - (ii) the business district multiplier in paragraph A.14 of the ODVhandbook may be amended to a range of 1.15 2.5 times; and
 - (iii) the rocky ground multiplier in paragraph A.15 of the ODV handbook may be amended to a range of 1.0 - 2.0 times, and, in addition to the circumstances cited in the ODV handbook for its application, that multiplier may also be applied to cables laid in loose rock or sand; and
- (e) in respect of a 2009 disclosed asset whose value in an ODV valuation was affected by the application of an optimisation or economic value test, do one of the following things:
 - (i) designate it as of 'included' type and give it an included value;
 - (ii) designate it as of 'excluded' type; or
 - (iii) modify its value,

consistent with re-applying the optimisation or economic value test previously applied in the **ODV valuation**.

- (3) The included value of an asset to which subclause (2)(a) is applied is-
 - (a) its depreciated historic cost determined by applying **GAAP** as of the last day of the **disclosure year** 2009; or
 - (b) where sufficient records do not exist to establish this cost, its depreciated carrying value in the general purpose financial statements of the EDB.

- (4) The included value or modified value, as the case may be, of an asset to which subclause (2)(b), (2)(c) or (2)(d) is applied, is determined by-
 - (a) taking its-
 - (i) **ODV valuation**; or
 - (ii) where an ODV valuation is not applicable in respect of that asset under the Electricity Information Disclosure Requirements 2004, its value that resulted, or, for an omitted asset, would have resulted, from application of those requirements as of the day on which the asset was first commissioned after the disclosure year 2004;
 - (b) implementing the corrections or modifications required to account for the matters specified in subclauses (2)(b) – (2)(d) as the case may be; and
 - (c) adjusting that value to the value as of 31 March 2009 by taking account of-
 - (i) unallocated depreciation in accordance with the standard depreciation method, where the total asset life used for the purpose of that method is the total asset life used for the purpose of the 2009 disclosure reports; and
 - (ii) revaluation to account for consumer price index changes using a method consistent with that used to account for such revaluation in the 2009 disclosure reports.
- (5) The included value or modified value, as the case may be, of an asset to which subclause (2)(e) is applied is determined by-
 - (a) taking its ODV valuation had the assets not been-
 - (i) optimised in accordance with paragraphs 2.18 2.47 and Appendix B of the **ODV handbook**; or
 - subject to the economic value test in accordance with paragraph
 2.59 2.65 of the ODV handbook;
 - (b) re-applying the sub-paragraphs of paragraph (a) in light of more up-todate information relating to optimisation or economic value that has subsequently become available; and
 - (c) adjusting that value to the value as of 31 March 2009 by taking account of-
 - (i) unallocated depreciation in accordance with the standard depreciation method, where the asset life used for the purpose of that method is the asset life used for the purpose of the 2009 disclosure reports; and

 (ii) revaluation to account for consumer price index changes using a method consistent with that used to account for such revaluation in the 2009 disclosure reports.

2.2.2 Composition of initial RAB

Initial RAB means-

- (a) 2009 disclosed assets; and
- (b) included assets,

less-

- (c) excluded assets;
- (d) intangible assets, unless they are-
 - (i) finance leases; or
 - (ii) identifiable non-monetary assets; and
- (e) works under construction.

2.2.3 Initial RAB values for assets

- (1) Subject to subclause (3), the unallocated initial RAB value of-
 - (a) an included asset or value modified asset, is its included value or modified value, as the case may be; and
 - (b) any other asset is-
 - where the asset is included in the value of 'Regulatory Value of System Fixed Assets', its value as on the last day of the **disclosure** year 2009 included in 'Total Regulatory Asset Base Value (Excluding FDC)' in the 2009 disclosure reports multiplied by 1.0245; and
 - (ii) where the asset is included in the value of 'Regulatory Value of Non-System Fixed Assets', its value as on the last day of the disclosure year 2009 included in 'Total Regulatory Asset Base Value (Excluding FDC)' in the 2009 disclosure reports.
- (2) For the purpose of subclause (1)(a), in the case of a system fixed asset valued in accordance with one of paragraphs (b) to (e) of clause 2.2.1(2), unallocated initial RAB value is its **included value** or **modified value** (as the case may be) multiplied by 1.0245.
- (3) For the purpose of subclause (1), where an asset is used by an EDB in the supply of-
 - (a) one or more **regulated service**; or
 - (b) one or more regulated service and one or more unregulated service,

where at least one of those **regulated services** is an **electricity distribution service**, the unallocated initial RAB value is the value of the asset had no allocation of asset value relevant to regulatory disclosures been undertaken.

- (4) The initial RAB value of an asset is determined as the value allocated to **electricity distribution services** as a result of-
 - (a) adopting its unallocated initial RAB value; and
 - (b) applying clause 2.1.1 to it.
- (5) In this clause, 'system fixed asset' has the same meaning as defined in the **Electricity** (Information Disclosure) Requirements 2004.
- 2.2.4 RAB roll forward
- (1) Unallocated opening RAB value in respect of an asset in relation to-
 - (a) the disclosure year 2010, is its unallocated initial RAB value; and
 - (b) a **disclosure year** thereafter, is its **unallocated closing RAB value** in the preceding **disclosure year**.
- (2) Unallocated closing RAB value means, in the case of-
 - (a) a found asset, its value of found asset;
 - (b) a **disposed asset**, nil;
 - (c) a **lost asset**, nil;
 - (d) any other asset with an **unallocated opening RAB value**, the value determined in accordance with the formula-

unallocated opening RAB value - unallocated depreciation + unallocated revaluation; and

- (e) any other asset having a **commissioning date** in the **disclosure year** in question, its **value of commissioned asset**.
- (3) Opening RAB value, in respect of an asset, is, for-
 - (a) the disclosure year 2010, its initial RAB value; and
 - (b) a **disclosure year** thereafter, its **closing RAB value** in the preceding **disclosure year**.
- (4) Closing RAB value, in respect of an asset, is determined as the value allocated to **electricity distribution services** as a result of-
 - (a) adopting its unallocated closing RAB value; and
 - (b) applying clause 2.1.1 to it.
- 2.2.5 Depreciation
- (1) Unallocated depreciation, in the case of an asset with an unallocated opening RAB value, is determined, subject to subclause (3) and clauses 2.2.6 and 2.2.7, in accordance with the formula-

[1 ÷ remaining asset life] × unallocated opening RAB value.

(2) Depreciation, in the case of an asset with an **opening RAB value**, is determined, subject to subclause (3) and clause 2.2.6, in accordance with the formula-

[1 ÷ remaining asset life] × opening RAB value.

- (3) For the purposes of subclauses (1) and (2)-
 - (a) unallocated depreciation and depreciation are nil in the case of-
 - (i) land;
 - (ii) an easement other than a fixed life easement; and
 - (iii) a **network spare** in respect of the period before which depreciation for the **network spare** in question commences under **GAAP**; and
 - (b) in all other cases, where the asset's **physical asset life** at the end of the **disclosure year** is nil-
 - unallocated depreciation is the asset's unallocated opening RAB value; and
 - (ii) depreciation is the asset's **opening RAB value**.

2.2.6 Depreciation - alternative depreciation method

Where, under a **CPP**, in accordance with clause 5.3.8, an **alternative depreciation method** is applied to an asset, unallocated depreciation and depreciation for that asset, in respect of each **disclosure year** of the **CPP regulatory period**, are determined in accordance with that **alternative depreciation method**, subject to, in the case of unallocated depreciation, clause 2.2.7.

2.2.7 Unallocated depreciation constraint

For the purpose of clause 2.2.5, the sum of **unallocated depreciation** of an asset calculated over its **asset life** may not exceed the sum of-

- (a) all **unallocated revaluations** applying to that asset in all **disclosure years**; and
- (b) in the case of an asset-
 - (i) in the initial RAB, its unallocated initial RAB value; or
 - (ii) not in the initial RAB, its value of commissioned asset or value of found asset.

2.2.8 Physical asset life

- (1) Physical asset life means, subject to subclause (2), in the case of-
 - (a) a fixed life easement, the fixed duration or fixed period (as the case may be) referred to in the definition of fixed life easement;

- (b) an extended life asset or a refurbished asset, its physical service life potential as determined by the EDB;
- (c) an asset determined by the EDB to have a service life potential shorter than its standard physical asset life, its physical service life potential determined by an engineer, subject to subclause (3);
- (d) an asset where the Commission has applied an adjustment factor in accordance with clause 4.2.2(3), the asset life determined in accordance with subclause (4);
- (e) found asset for which a similar asset exists as described in subclause
 2.2.12(2)(b)(i), the asset life applying to the similar asset;
- (f) a non-network asset, its asset life determined under GAAP;
- (g) an asset acquired or transferred from a regulated supplier, the asset life that the vendor would have assigned to the asset at the end of its disclosure year had the asset not been transferred;
- (h) an asset acquired or transferred from an entity other than a regulated supplier:
 - (i) where a similar asset to that acquired or transferred already exists in the **EDB**, the **asset life** assigned to the similar asset; or
 - (ii) where a similar asset to that acquired or transferred does not already exist in the EDB, the physical service life potential determined by an engineer, subject to subclause (3).
- (i) an asset not referred to in paragraphs (a) (h)-
 - (i) in the initial RAB and an included asset; or
 - (ii) not in the **initial RAB**,

and-

- (iii) having a standard physical asset life, its standard physical asset life;
- (iv) not having a standard physical asset life, the asset life applying to an asset with an unallocated opening RAB value that is similar in terms of asset type; or
- (v) in all other cases, its physical service life potential determined by an engineer, subject to subclause (3);
- (j) an asset (other than a composite asset) not referred to in paragraphs (a)-(g), its remaining physical service life potential as on the last day of the disclosure year 2009 as determined in accordance with the method used to determine depreciation for the purpose of the 2009 disclosure reports;
- (k) a composite asset, the average asset life of the assets comprising it determined in accordance with paragraphs (a)–(i), with the modification that each such asset life must be weighted with respect to the proportion

of its respective **opening RAB value** to the sum of the **opening RAB values** of the components in the earliest **disclosure year** in which all component assets were held by the **EDB**.

- (2) For the purpose of subclause (1), physical asset life means, in the case of a dedicated asset which is not expected to be used by the EDB to provide electricity distribution services beyond the term of the fixed term agreement relating to the asset between the EDB and the consumer, at the EDB's election, the term of that agreement instead of the physical asset life that would otherwise apply under that subclause.
- (3) For the purpose of subclauses (1)(c), (1)(h)(ii) and (1)(i)(v), a determination made in accordance with this clause by an **engineer** of physical service life potential-
 - (a) in relation to an asset with an unallocated opening RAB value is deemed applicable to all assets of similar asset type for which there is a requirement in this clause for an engineer's determination of physical service life potential; and
 - (b) must be evidenced by a report written by the **engineer** in question that includes an acknowledgement by the **engineer** that the report may be publicly disclosed by an **EDB** pursuant to an **ID determination**.
- (4) For the purpose of subclause (1)(d), an EDB must
 - (a) in the first disclosure year of the DPP regulatory period in which an adjustment factor is applied by the Commission, reduce the asset life of assets that have an unallocated opening RAB value, such that the remaining average asset life of existing assets in that disclosure year in accordance with subclause (6) is the same value as the remaining asset life for existing assets calculated under the DPP for that disclosure year when applying the formula:

aggregate opening RAB value for existing assets \div total depreciation; and

- (b) for an asset commissioned in subsequent disclosure years, apply a reduced asset life to the asset equal to the asset life of an existing asset of a similar asset type.
- (5) In this clause-
 - (a) 'dedicated asset' means an asset operated for the benefit of a particular consumer pursuant to a fixed term agreement for the supply of electricity distribution services between the EDB in question and that consumer;
 - (b) 'extended life asset' means an asset whose physical service life potential is greater than its **standard physical asset life**;

- (c) 'refurbished asset' means an asset on which work (other than maintenance) has been carried out resulting in an extension to its physical service life potential;
- (d) 'composite asset' means a configuration of two or more assets that is not capable of operation in the absence of any of those assets.
- (6) For the purposes of subclause (4)(a), the 'remaining average asset life for existing assets' means the value determined in accordance with the formula-

opening RAB value for all assets ÷ total depreciation.

2.2.9 Revaluation

(1) Unallocated revaluation is the amount determined, subject to subclause (3), in accordance with the formula-

unallocated opening RAB value × revaluation rate.

(2) Revaluation is the amount determined, subject to subclause (3), in accordance with the formula-

opening RAB value × revaluation rate.

- (3) For the purposes of subclauses (1) and (2), where-
 - (a) the asset's **physical asset life** at the end of the **disclosure year** is nil; or
 - (b) the asset is a-
 - (i) **disposed asset**; or
 - (ii) lost asset,

unallocated revaluation and revaluation are nil.

(4) Revaluation rate means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

 $(CPI_4 \div CPI_4^{-4}) -1,$

where-

 CPI_4 means CPI for the quarter that coincides with the end of the **disclosure** year; and

CPI⁻⁴ means CPI for the quarter that coincides with the end of the preceding disclosure year.

2.2.10 Revaluation treated as income

Revaluation, for the purpose of determining profitability, must be treated as income.

- 2.2.11 Value of commissioned assets
- (1) Value of **commissioned** asset, in relation to an asset (including an asset in respect of which **capital contributions** were received or a **vested asset**), means the cost of the

asset to an **EDB** determined by applying **GAAP** to the asset as on its **commissioning date**, except that, subject to subclause (2), the cost of-

- (a) an intangible asset, unless it is-
 - (i) a **finance lease**; or
 - (ii) an identifiable non-monetary asset,

is nil;

- (b) an **easement**, is limited to its market value as on its **commissioning date** as determined by a **valuer**;
- (c) easement land is nil;
- (d) a network spare-
 - (i) which is not required, in light of the historical reliability and number of the assets it is held to replace; or
 - (ii) whose cost is not treated wholly as or part of the cost of an asset under **GAAP**,

is nil;

- (e) an asset-
 - (i) acquired from another regulated supplier; and
 - used by that regulated supplier in the supply of regulated goods or services,

is limited to the unallocated closing RAB value of the asset that would have applied for the other **regulated supplier**, had the asset not been acquired by the **EDB** in the **disclosure year** of the **regulated supplier** when the asset was transferred (as 'unallocated closing RAB value' is defined in the **input methodologies** applying to the **supply** of **regulated goods or services** by the **regulated supplier**);

- (f) an asset that was previously used by an EDB in its supply of other regulated services is limited to the unallocated opening RAB value of the asset in relation to those other regulated services as on the day before the commissioning date (as 'unallocated opening RAB value' is defined in the input methodologies applying to the regulated goods or services supplied by the EDB);
- (g) an asset <u>or a component of a commissioned asset</u> acquired fromin a related party transaction, other than an asset to which paragraphs (e) or
 (f) apply, is <u>the cost specified</u> determined in accordance with subclause (5);
- (h) an asset in respect of which **capital contributions** were received where such contributions do not reduce the cost of the asset when applying

GAAP, is the cost of the asset by applying **GAAP** reduced by the amount of the **capital contributions**;

- a vested asset in respect of which its fair value is treated as its cost under GAAP, must exclude any amount of the fair value of the asset determined under GAAP that exceeds the amount of consideration provided by the EDB; and
- (j) for the purpose of subclause (a)(i), a finance lease excludes the value of any asset for which annual charges are a recoverable cost under clause 3.1.3(1)(c).
- (2) When applying GAAP for the purpose of subclause (1), the cost of financing is-
 - (a) applicable only in respect of the period commencing on the date the asset becomes a works under construction and terminating on its commissioning date; and
 - (b) calculated using a rate not greater than the **EDB's** weighted average of borrowing costs for each applicable **disclosure year**.
- (3) For the purposes of subclause (2)(b), the 'weighted average of borrowing costs' is calculated for a **disclosure year** using principles set out in **GAAP**, where:
 - (a) the cost of financing rate is the weighted average of the costs applicable to borrowings in respect of capex that are outstanding during the disclosure year;
 - (b) the total costs applicable to borrowings outstanding, as used in calculating the weighted average, must include costs of borrowings made specifically for the purpose of any particular –
 - (i) capex projects; or
 - (ii) capex programmes; and
 - the amount of borrowing costs capitalised during the disclosure year must not exceed the amount of borrowing costs incurred during the disclosure year;
 - (d) if a capital contribution is received by an EDB, the relevant asset becomes works under construction for the purposes of calculating the cost of financing;
 - (e) subject to subclause (i), a capital contribution will reduce the cost of works under construction for the purpose of the calculation of the finance cost, even if the resulting value of works under construction is negative;
 - (f) subject to subclause (g), if the value of works under construction is negative in accordance with subclause (e), the cost of financing for the period ending on the commissioning date will be negative;

- (g) if the cost of financing an asset which is works under construction is negative under subclause (f), it will reduce the value of the relevant asset or assets by that negative amount where such a reduction is not otherwise made under GAAP;
- (h) for the purpose of subclause (d), **works under construction** includes assets that are forecast to be enhanced or acquired; and
- (i) if the cost of financing is derived as income in relation to **works under construction** and is both-
 - (i) negative; and
 - (ii) included in regulatory income under an **ID determination**,

it will not reduce the value of the relevant asset or assets where such reduction is not otherwise made under **GAAP**.

- (4) For the avoidance of doubt-
 - (a) revenue derived in relation to works under construction that is not included in regulatory income under an ID determination or preceding regulatory information disclosure requirements reduces the cost of an asset by the amount of the revenue where such reduction is not otherwise made under GAAP; and
 - (b) where expenditure on an asset which forms part of the cost of that asset under GAAP is incurred by an EDB after that asset was commissioned, such expenditure is treated as relating to a separate asset.
- (5) For the purpose of paragraph 2.2.11(1)(g), the cost of a commissioned asset, or <u>a</u> component of a commissioned asset, acquired <u>infrom</u> a related party transaction, must be <u>set on the basis thatone of the following</u>-
 - (a) the cost of a commissioned asset or a component of a commissioned asset acquired in the related party transaction must be given a value not greater than if that transaction had the terms of an arm's-length transaction;
 - (b) an objective and independent measure must be used in determining the terms of an **arm's-length transaction** for the purpose of paragraph (a); and
 - (c) for the purpose of paragraph (a), where a commissioned asset or a component of a commissioned asset is acquired in the related party transaction, the value that qualifies for recognition as the cost of a commissioned asset or a component of a commissioned asset must not exceed the actual amount charged to the EDB by the related party.
- (6) For the purpose of subclause (5)(a), a **related party transaction** will be treated as if it had the terms of an **arm's-length transaction** if the **commissioned** asset, or

component of the **commissioned** asset, acquired from a **related party** is valued at the cost incurred by the **related party**, provided that this is-

- (a) fair and reasonable to the EDB; and
- (b) substantially the same as the cost that has been incurred or would be incurred by the related party in providing the same type of asset to third parties.
- (a) the price paid by the EDB for the asset, where the cost of all assets acquired from the related party first commissioned in that disclosure year is less than-
 - (i) one percent of the sum of **opening RAB values** for the **EDB** for that **disclosure year**, or
 - (ii) 20% of the cost of all assets first commissioned by the EDB in that disclosure year;
- (b) the price paid by the EDB for the asset, where-
 - (i) at least 50% of the related party's sales of assets are to third parties, and third parties may purchase the same or substantially similar assets from the related party on substantially the same terms and conditions, including price; or
 - (ii) that price is substantially the same as the price paid for substantially similar assets (including any adjustments for inflation using CPI or other appropriate input price index) in the preceding 3 disclosure years from a party other than a related party;
- (c) the price paid by the EDB to the related party following a competitive tender process, provided that—
 - (i) the price is no more than 5% higher than the price of the lowest conforming tender received;
 - (ii) all relevant information material to consideration of a proposal was provided to third parties, or made available upon request;
 - (iii) at least one other qualifying proposal was received; and
 - (iv) the EDB retains for a period of 7 years following the closing date of tender proposals a record of the tender and tender process, including request for information and/or proposal, the criteria used for the assessment of proposals, reasons for acceptance or rejection of proposals, and all proposals and requests for information on the tender for the purposes of making proposals;
- (d) its depreciated historic cost on the day before the acquisition by the EDB determined in accordance with GAAP;
- (e) its inventory value on the day before the acquisition by the EDB determined in accordance with GAAP;

- (f) its market value as at its commissioning date as determined by a valuer;
- (g) its directly attributable cost as would be incurred by the group to which the EDB and related party are a part, determined in accordance with GAAP, as if the consolidated group was the EDB;
- (h) the price paid by the EDB for the asset, provided-
 - (i) the price cannot otherwise be determined under paragraphs (a) (g), and
 - (ii) no fewer than 2 directors of the EDB provide a written certification that they are satisfied that the price of any assets determined in accordance with this paragraph reflect the price or prices for those assets that would be received in an arm's-length transaction; or

(i) nil.

2.2.12 Value of found asset

- (1) Found asset means, in relation to a disclosure year, an asset-
 - (a) other than easement land;
 - (b) other than an intangible asset, unless it is-
 - (i) a **finance lease**; or
 - (ii) an identifiable non-monetary asset;
 - (c) not having a **commissioning date** in the **disclosure year** in question;
 - (d) the value of which-
 - (i) is not included as an unallocated opening RAB value in the disclosure year in question nor was so included in any prior disclosure year pursuant to clause 2.2.4(1); and
 - (ii) was not included in an unallocated closing RAB value in any prior disclosure year in accordance with clause 2.2.4(2); and
 - (e) first determined by the **EDB** in the **disclosure year** in question to have a **commissioning date** after the **disclosure year** 2009.
- (2) The value of found asset is-
 - (a) the found asset's cost calculated consistently with GAAP; or
 - (b) where sufficient records do not exist to establish the **found asset's** cost for the purposes of **GAAP**-
 - (i) where an asset with an unallocated opening RAB value for that disclosure year is similar (in terms of asset type and age) to the found asset, the unallocated opening RAB value of the similar asset; and
 - (ii) in all other cases, its market value as determined by a valuer as at the date that the asset was first determined to have been

commissioned in a prior **disclosure year** after the **disclosure year** 2009.

SUBPART 3 Treatment of taxation

- 2.3.1 Regulatory tax allowance
- (1) Regulatory tax allowance is, where regulatory net taxable income is-
 - (a) nil or a positive number, the **tax effect** of **regulatory net taxable income**; and
 - (b) a negative number, nil.
- (2) Regulatory net taxable income is **regulatory taxable income** less **utilised tax losses**.
- (3) Regulatory taxable income is the amount determined in accordance with the formula-

regulatory profit / (loss) before tax + permanent differences + regulatory tax adjustments.

- (4) Regulatory profit / (loss) before tax means the amount of 'regulatory profit / (loss) before tax' as determined in accordance with an **ID determination**.
- 2.3.2 Tax losses
- (1) Utilised tax losses means opening tax losses, subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) In this clause, 'opening tax losses' in relation to a disclosure year that commenced-
 - (a) in 2009, are nil; and
 - (b) after 2009, are closing tax losses for the preceding **disclosure year**.
- (4) For the purpose of subclause (3)(b), 'closing tax losses' means the amount determined in accordance with the following formula, in which each term is an absolute value:

opening tax losses + current period tax losses - utilised tax losses.

- (5) For the purpose of subclause (4), current period tax losses is, where **regulatory taxable income** is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

2.3.3 Permanent differences

(1) Permanent differences is the amount determined in accordance with the formula-

positive permanent differences - **discretionary discounts and customer rebates** *- negative permanent differences.*

- (2) For the purpose of subclause (1), 'positive permanent differences' means, subject to subclause (3), the sum of-
 - (a) all amounts of income-
 - treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of income in determining regulatory profit
 / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services,

if the difference in treatment of amounts of-

- (c) income under paragraphs (a)(i) and paragraph (a)(ii); or
- (d) expenditure or loss under paragraph (b)(i) and paragraph (b)(ii),

is a difference that-

- (e) is not a **reversal** or partial **reversal** of a difference for a prior **disclosure year**; and
- (f) will not reverse in a subsequent disclosure year.
- (3) For the purpose of subclause (2), positive permanent differences excludes any amounts that are-
 - (a) amortisation of initial differences in asset values; or
 - (b) amortisation of revaluations.
- (4) For the purpose of subclause (1), 'negative permanent differences' means, subject to subclause (5), the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (b) all amounts of expenditure or loss-

- treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
- (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

if there are differences between the values in-

- (c) paragraphs (a)(i) and paragraph (a)(ii); and
- (d) paragraphs (b)(i) and paragraph (b)(ii),

and such differences-

- (e) are not the **reversal** of a difference in a prior **disclosure year**; and
- (f) will not reverse in a subsequent disclosure year.
- (5) For the purpose of subclause (4), negative permanent differences excludes amounts that are-
 - (a) discretionary discounts and customer rebates;
 - (b) expenditure or loss determined in accordance with the tax rules that is-
 - (i) interest; or
 - (ii) incurred in borrowing money; and
 - (c) any-
 - (i) tax losses; or
 - (ii) subvention payment made or received by an **EDB**.
- (6) Discretionary discounts and customer rebates means the expenditure or loss allowed as a deduction under the **tax rules** in respect of the-
 - (a) sum of all payments made; and
 - (b) value of all credit amounts given,

to **persons** by an **EDB** in respect of the **supply** of **electricity distribution services** owing to those **persons'** direct or indirect ownership interest in the **EDB**.

2.3.4 Regulatory tax adjustments

(1) Regulatory tax adjustments are determined in accordance with the formula-

amortisation of initial differences in asset values + amortisation of revaluations - notional deductible interest.

(2) For the purpose of subclause (1), 'notional deductible interest' means the amount determined in accordance with the formula–

((*regulatory investment value* x **leverage** x **cost of debt**) + **term credit spread differential allowance**)

$\sqrt{1 + \cos t of debt}$.

- (3) For the purpose of subclause (2), 'regulatory investment value' means the value for 'regulatory investment value' determined in accordance with the ID determination applicable to the disclosure year and the regulated good or service in question.
- 2.3.5 Amortisation of initial differences in asset values
- Amortisation of initial differences in asset values is, subject to subclause (4), determined in accordance with the formula-

opening unamortised initial differences in asset values ÷ opening weighted average remaining useful life of relevant assets.

- (2) For the purpose of this clause, 'opening unamortised initial differences in asset values' means, in respect of-
 - (a) the disclosure year 2010, initial differences in asset values; and
 - (b) each disclosure year thereafter, subject to subclause (4), closing unamortised initial difference in asset values for the preceding disclosure year.
- (3) For the purpose of subclause (2)(a), 'initial differences in asset values' means, subject to subclause (4), the sum of initial RAB values less the sum of regulatory tax asset values on the first day of the disclosure year 2010.
- (4) For the purpose of subclause (1), 'opening weighted average remaining useful life of relevant assets' means-

q = a - b

where:

a = the 2010 weighted average **remaining asset life** of assets included in the initial RAB calculated by using **initial RAB values** as weightings

b = **disclosure year** less 2010.

- (5) For the purpose of subclauses (1) and (2)-
 - (a) no account may be taken of unamortised initial differences in asset values of sold assets from the date of sale; and
 - (b) account must be taken of unamortised initial differences in asset values of acquired assets from the date of acquisition.
- (6) For the purpose of subclause (2)(b), 'closing unamortised initial difference in asset values' is determined in accordance with the formula-

Opening unamortised initial differences in asset values - **amortisation of initial difference in asset values**.

2.3.6 Amortisation of revaluations

Amortisation of revaluations is calculated in accordance with the formula-

total depreciation - adjusted depreciation.

- 2.3.7 Deferred tax
- (1) Opening deferred tax means, in respect of-
 - (a) the **disclosure year** 2010, nil; and
 - (b) each **disclosure year** thereafter, closing deferred tax for the preceding **disclosure year**.
- (2) For the purpose of subclause (1)(b), 'closing deferred tax' is determined in accordance with the formula-

opening deferred tax + **tax effect** *of* **temporary differences** - **tax effect** *of* **amortisation of initial difference in asset values** + *deferred tax balance relating to assets acquired in the* **disclosure year** *in question* – *deferred tax balance relating to assets disposed of in the* **disclosure year** *in question* + *cost allocation adjustment.*

- (3) For the purpose of subclause (2), 'deferred tax balance relating to assets acquired in the disclosure year in question' means the amount of deferred tax associated with the assets acquired by the EDB from another regulated supplier excluding the reversal of temporary adjustments arising as a consequence of the sale, as determined in accordance with input methodologies applicable to the regulated services that the assets in question were used to supply.
- (4) For the avoidance of doubt, the amount referred to in subclause (3) must include proportionate adjustments for-
 - (a) the tax effect of temporary differences; and
 - (b) the amortisation of initial differences in asset values,

up to the date the assets in question were acquired.

- (5) For the purpose of subclause (2), 'cost allocation adjustment' means the tax effect of the dollar value difference between the change in the sum of regulatory tax asset values on the last day of the disclosure year and the change in the sum of closing RAB values as a result only of applying-
 - (a) the result of the asset allocation ratios to the **tax asset value** in accordance with clause 2.3.9(1); and
 - (b) clause 2.1.1 to the unallocated closing RAB value.
- (6) For the purpose of subclause (2), 'deferred tax balance relating to assets disposed of in the **disclosure year** in question' means the amount of deferred tax associated with the assets disposed of by the **EDB** and, where that deferred tax balance is a deferred tax liability, it must have a negative value.

2.3.8 Temporary differences

(1) Temporary differences is the amount determined in accordance with the formula-

depreciation temporary differences + positive temporary differences - negative temporary differences.

- (2) For the purpose of this clause, 'depreciation temporary differences' means **adjusted depreciation** less tax depreciation.
- (3) For the purpose of subclause (2) 'tax depreciation' means the sum of the amounts determined for all assets of an EDB by application of the tax depreciation rules to the regulatory tax asset value of each asset.
- (4) For the purpose of subclause (1), 'positive temporary differences' means the sum of-
 - (a) all amounts of income-
 - treated as taxable if the tax rules were applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of income in determining regulatory profit
 / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services,

less any amount that are **depreciation temporary differences**, if there are differences between the values in-

- (c) paragraphs (a)(i) and (a)(ii); and
- (d) paragraphs (b)(i) and (b)(ii),

and such differences-

- (e) are the reversal of a difference in a prior disclosure year; or
- (f) will **reverse** in a subsequent **disclosure year**.
- (5) For the purpose of subclause (1), 'negative temporary differences' means the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and

- (b) all amounts of expenditure or loss-
 - treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

less any amount that are **depreciation temporary differences**, if there are differences between the values in-

- (c) paragraphs (a)(i) and (a)(ii); and
- (d) paragraphs (b)(i) and (b)(ii),

and such differences-

- (e) are the **reversal** of a difference in a prior **disclosure year**; or
- (f) will **reverse** in a subsequent **disclosure year**.

2.3.9 Regulatory tax asset value

(1) Regulatory tax asset value, in relation to an asset, means the value determined in accordance with the formula-

tax asset value × *result of asset allocation ratio.*

- (2) Tax asset value means, in respect of-
 - (a) an asset-
 - (i) in the initial RAB where, in the disclosure year 2010, the sum of unallocated initial RAB values is less than the sum of the adjusted tax values of all assets in the initial RAB;
 - (ii) acquired from a **regulated supplier** who used it to **supply regulated goods or services**; or
 - (iii) acquired or transferred from a related party,

the value of the asset determined by applying the **tax depreciation rules** to its notional tax asset value; and

- (b) any other asset, its **adjusted tax value**.
- (3) 'Notional tax asset value' means, for the purpose of-
 - Subclause (2)(a)(i), adjusted tax value of the asset in the disclosure year
 2010 adjusted to account proportionately for the difference between the-
 - (i) sum of the **unallocated initial RAB values**; and
 - (ii) sum of the adjusted tax values,

of all assets in the initial RAB;

- (b) subclause (2)(a)(ii), value after applying the tax depreciation rules to the tax asset value (as 'tax asset value' is defined in the input methodologies applying to the regulated goods or services in question) in respect of the disclosure year in which the asset was acquired; and
- (c) subclause (2)(a)(iii), value in respect of the **disclosure year** in which the asset was acquired or transferred that is-
 - (i) consistent with the **tax rules**; and
 - (ii) limited to its value of commissioned asset or, if relevant capital contributions are treated for tax purposes in accordance with section CG 8 of the Income Tax Act 2007 (or subsequent equivalent provisions), limited to the value of commissioned asset plus any taxed capital contributions applicable to the asset.
- (4) For the purpose of subclause (1), 'result of asset allocation ratio' means, where an asset or group of assets maintained under the tax rules-
 - (a) has a matching asset or group of assets maintained for the purpose of Subpart 2, the value obtained in accordance with the formula-

opening RAB value or sum of **opening RAB values**, as the case may be

÷

unallocated opening RAB value *or sum of* **unallocated opening RAB values**, *as the case may be*,

applying the formula in respect of the asset or smallest group of assets maintained for the purpose of Subpart 2 that has a matching asset or group of assets maintained under the **tax rules**; and

(b) does not have a matching asset or group of assets maintained for the purpose of Subpart 2, the value of the asset allocated to the **supply** of **electricity distribution services** were clause 2.1.1 to apply to the asset or group of assets.

SUBPART 4 Cost of capital

- 2.4.1 Methodology for estimating the weighted average cost of capital
- (1) The **Commission** will determine a mid-point estimate of vanilla **WACC** for each **disclosure year**-
 - (a) in respect of the 5 years commencing on the first day of the **disclosure year** in question;
 - (b) within 1 month of the start of the disclosure year in question; and

(c) in accordance with the formula-

 $r_d L + r_e(1 - L).$

- (2) The **Commission** will determine a mid-point estimate of post-tax **WACC** for each **disclosure year**-
 - (a) in respect of the 5 years commencing on the first day of the **disclosure year** in question;
 - (b) within 1 month of the start of the disclosure year in question; and
 - (c) in accordance with the formula-

 $r_d (1 - T_c)L + r_e (1 - L).$

- (3) In this clause-
 - L is **leverage**;
 - r_d is the cost of debt and is estimated in accordance with the formula:

 $r_f + p + d;$

 r_e is the cost of equity and is estimated in accordance with the formula:

 $r_f(1 - T_i) + \beta_e TAMRP;$

- T_c is the average corporate tax rate;
- *r_f* is the risk-free rate;
- *p* is the **average debt premium**;
- *d* is the debt issuance costs;
- T_i is the average investor tax rate;
- β_e is the equity beta; and

TAMRP is the tax-adjusted market risk premium.

- (4) For the purpose of this clause-
 - (a) the average investor tax rate, the equity beta, the debt issuance costs, the average corporate tax rate and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 2.4.2; and
 - (b) the risk-free rate must be estimated in accordance with clause 2.4.3.

2.4.2 Fixed WACC parameters

- (1) Leverage is 42%.
- (2) 'Average investor tax rate' is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the 5 year period commencing on the first day of the **disclosure year** in question.

- (3) For the purpose of subclause (2), 'investor tax rate' is, for each **disclosure year**, the maximum **prescribed investor rate** applicable at the start of that **disclosure year** to an individual who is-
 - (a) resident in New Zealand; and
 - (b) an investor in a multi-rate PIE.
- (4) The 'average corporate tax rate' is the average of the corporate tax rates that, as at the date that the estimation is made, will apply during the 5 year period commencing on the first day of the disclosure year in question.
- (5) The 'Equity beta' is 0.60.
- (6) 'Debt issuance costs' are 0.2%.
- (7) 'Tax-adjusted market risk premium' is, for a 5 year period commencing on the first day of each **disclosure year**, 7.0%.
- 2.4.3 <u>Methodology for estimating risk-free rate</u>

The Commission will estimate a risk-free rate-

- (a) for each disclosure year; and
- (b) within 1 month of the start of the disclosure year in question,

by-

- (c) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly-interpolated bid yield to maturity for a residual period to maturity equal to 5 years on each **business day** in the 3 months preceding the start of the **disclosure year**;
- (d) calculating the annualised interpolated bid yield to maturity for each business day; and
- (e) calculating the unweighted arithmetic average of the daily annualised interpolated bid yields to maturity.

2.4.4 Methodology for estimating average debt premium

- (1) The **Commission** will determine an estimate of an amount for the **average debt premium**-
 - (a) for each **disclosure year**; and
 - (b) within 1 month of each disclosure year.
- (2) For the purpose of subclause (1), 'average debt premium' means the simple arithmetic average of the five **debt premium** values estimated in accordance with subclauses (4), (5) and (6) for:
 - (a) the current **debt premium reference year**; and
 - (b) the four previous **debt premium reference years**.

- (3) For the purpose of subclause (2)(a), 'current debt premium reference year' refers to the **debt premium reference year** that contains the start of the **disclosure year**.
- (4) For the **debt premium reference year** 2017 or earlier, the following **debt premium** values apply-
 - (a) 2013 = 2.24%;
 - (b) 2014 = 2.04%;
 - (c) 2015 = 1.76%;
 - (d) 2016 = 1.59%; and
 - (e) 2017 = 1.59%.
- (5) Debt premium means the spread between-
 - (a) the bid yield to maturity on vanilla NZ\$ denominated bonds that-
 - (i) are issued by an EDB or a GPB;
 - (ii) are publicly traded;
 - (iii) have a qualifying rating of grade BBB+; and
 - (iv) have a remaining term to maturity of 5 years; and
 - (b) the contemporaneous interpolated bid yield to maturity of notional benchmark New Zealand government New Zealand dollar denominated nominal bonds having a remaining term to maturity of 5 years.
- (6) For the purpose of subclause (2), the amount of the debt premium will be estimated by-
 - (a) identifying publicly traded vanilla NZ\$ denominated bonds issued by a qualifying issuer that are-
 - (i) **investment grade credit rated**; and
 - (ii) of a type described in the paragraphs of subclause (7);
 - (b) in respect of each bond identified in accordance with paragraph (a)-
 - (i) obtaining its wholesale market annualised bid yield to maturity;
 - (ii) calculating by linear interpolation with respect to maturity, the contemporaneous wholesale market annualised bid yield to maturity for a notional benchmark New Zealand government New Zealand dollar denominated nominal bond with the same remaining term to maturity; and
 - (iii) calculating its contemporaneous interpolated bid to bid spread over notional benchmark New Zealand government New Zealand dollar denominated nominal bonds with the same remaining term to maturity, by deducting the yield calculated in accordance with subparagraph (ii) from the yield obtained in accordance with subparagraph (i),

for each **business day** in the 12 months preceding the start of the **debt premium reference year**;

- (c) calculating, for each bond identified in accordance with paragraph (a), the un-weighted arithmetic average of the daily spreads identified in accordance with paragraph (b)(iii); and
- (d) subject to subclause (7), estimating, by taking account of the average spreads identified in accordance with paragraph (c) and having regard to the debt premium estimated from applying the Nelson-Siegel-Svensson approach, the average spread that would reasonably be expected to apply to a vanilla NZ\$ denominated bond that-
 - (i) is issued by an EDB or a GPB that is neither 100% owned by the Crown nor a local authority;
 - (ii) is publicly traded;
 - (iii) has a qualifying rating of grade BBB+; and
 - (iv) has a remaining term to maturity of 5 years.
- (7) For the purpose of subclauses (6)(a) and (6)(d), the Commission will have regard, subject to subclause (8), to the spreads observed on the following types of vanilla NZ\$ denominated bonds issued by a qualifying issuer:
 - (a) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by an **EDB** or a **GPB** that is neither 100% owned by the Crown nor a **local authority**;
 - (b) those that-
 - (i) have a qualifying rating of grade BBB+; and
 - (ii) are issued by an entity other than an EDB or a GPB that is neither 100% owned by the Crown nor a local authority;
 - (c) those that-
 - (i) have a **qualifying rating** of a grade different to BBB+; and
 - (ii) are issued by an EDB or a GPB that is neither 100% owned by the Crown nor a local authority;
 - (d) those that-
 - (i) have a qualifying rating of a grade different to BBB+; and
 - (ii) are issued by an entity other than an EDB or a GPB that is neither 100% owned by the Crown nor a local authority; and
 - (e) those that are-
 - (i) investment grade credit rated; and

- (ii) issued by an entity that is 100% owned by the Crown or a **local authority**.
- (8) For the purpose of subclause (7)-
 - (a) progressively lesser regard will ordinarily be given to the spreads observed on the bond types described in accordance with the order in which the bond types are described in subclause (7);
 - (b) the spread on any bond of the type described in subclause (7) that has a remaining term to maturity of less than 5 years will ordinarily be considered to be the minimum spread that would reasonably be expected to apply on an equivalently credit-rated bond issued by the same entity with a remaining term to maturity of 5 years; and
 - (c) the **Commission** will adjust spreads observed on bonds described under subclauses (7)(b) to (7)(e) to approximate the spread that is likely to have been observed had the bonds in question been of the type described in subclause (7)(a).
- (9) For the purpose of subclause (6)(d), 'Nelson-Siegel-Svensson approach' means a method for modelling yield curves and term structures of interest rates which establishes a relationship between terms to maturity and the **debt premium**, where a curve is generated by changing the parameters of a yield curve's functional form to minimise the squared deviation between estimated and observed values.
- 2.4.5 Methodology for estimating the WACC range and the 67th percentile of WACC
- (1) The Commission will determine a WACC range for each mid-point estimate of WACC-
 - (a) for each disclosure year; and
 - (b) within 1 month of the start of the disclosure year in question.
- (2) For the purpose of subclause (1), 'WACC range' means the values falling between the 25th percentile and 75th percentile, inclusive, of the **mid-point estimate of WACC**.
- (3) For the purpose of subclause (2)-
 - (a) the **mid-point estimate of WACC** must be treated as the 50th percentile; and
 - (b) the-
 - (i) 75th percentile must be determined in accordance with the formulamid-point estimate of WACC + 0.674 × standard error; and
 - (ii) 25th percentile must be determined in accordance with the formula-

mid-point estimate of WACC - 0.674 × standard error,

where the **standard error** of the relevant **mid-point estimate of WACC** is 0.0101.

- (4) The Commission will determine a 67th percentile estimate of vanilla WACC and a 67th percentile estimate of post-tax WACC-
 - (a) for each **disclosure year**; and
 - (b) within 1 month of the start of the **disclosure year** in question.
- (5) For the purpose of subclause (4)-
 - (a) the **mid-point estimate of WACC** must be treated as the 50th percentile; and
 - (b) the 67th percentile must be determined in accordance with the formula**mid-point estimate of WACC** + 0.440 x standard error,

where the standard error of the relevant mid-point estimate of WACC is 0.0101.

2.4.6 Publication of estimates

The **Commission** will publish all determinations and estimates that it is required to make by this subpart-

- (a) on its website; and
- (b) no later than 1 month after having made them.
- 2.4.7 Interpretation of terms relating to term credit spread differential
- (1) 'Qualifying debt' means a line of debt-
 - (a) with an original tenor greater than 5 years; and
 - (b) issued by a qualifying supplier.
- (2) Qualifying supplier means a regulated supplier whose debt portfolio, as at the date of that supplier's most recently published audited financial statements, has a weighted average original tenor greater than 5 years.
- 2.4.8 Term credit spread difference
- (1) Term credit spread difference is determined in accordance with the formula-

 $T \times U$,

where-

(a) 'T' is the amount determined in accordance with the formula-

0.00075 × (original tenor of the **qualifying debt** – 5);

- (b) 'U' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.
- For the purpose of this clause, where the qualifying debt is issued to a related party,
 'original tenor of the qualifying debt' means the-

- (a) tenor of the qualifying debt; or
- (b) period from the **qualifying debt**'s date of issue to the earliest date on which its repayment is or may be required,

whichever is the shorter.

2.4.9 Methodology for estimating term credit spread differential

- (1) This clause applies to the determination of the amount of any term credit spread differential in respect of a qualifying debt for the purpose of disclosure pursuant to an ID determination of a-
 - (a) term credit spread differential allowance; or
 - (b) term credit spread differential.
- (2) Disclosure to which this clause applies may only be made by a **qualifying supplier**.
- (3) Term credit spread differential is the amount determined in accordance with the formula-

 $(A \div B) \times C \times D,$

where-

- (a) 'A' is the sum of the term credit spread difference and debt issuance cost re-adjustment;
- (b) 'B' is the book value of the qualifying supplier's total interest-bearing debt as at the balance date of the supplier's financial statements audited and published in the disclosure year in question relate;
- (c) 'C' is **leverage**; and
- (d) 'D' is, in relation to the qualifying supplier, the average of-
 - (i) the sum of **opening RAB values**; and
 - (ii) the sum of **closing RAB values**.
- (4) For the purpose of subclause (3)(a), 'debt issuance cost re-adjustment' is the amount determined in accordance with the formula-

 $(0.01 \div original tenor of the qualifying debt - 0.002) \times book value in New Zealand dollars of the qualifying debt at its date of issue,$

which amount, for the avoidance of doubt, will be a negative number.

PART 3 INPUT METHODOLOGIES FOR BOTH DEFAULT AND CUSTOMISED PRICE-QUALITY PATHS

SUBPART 1 Specification of price

3.1.1 Specification and definition of prices

- (1) For the purpose of s 53M(1)(a) of the Act, the maximum revenues that may be recovered by an EDB will be specified in a DPP determination or CPP determination as a revenue cap, whereby forecast revenue from prices must not exceed forecast allowable revenue for each disclosure year of the regulatory period.
- (2) For the purpose of setting the maximum revenues under subclause (1), the Commission may specify in a DPP determination or CPP determination an annual maximum percentage increase in forecast allowable revenue as a function of demand for a disclosure year.
- (3) For the purpose of this subpart, 'forecast revenue from prices' for a disclosure year means the forecast revenue used by an EDB to set prices, where forecast revenue is the total of each price multiplied by each forecast quantity.
- (4) For the purpose of this subpart, 'forecast allowable revenue' as specified in a **DPP** determination or **CPP determination** includes-
 - (a) forecast net allowable revenue;
 - (b) forecast pass-through costs;
 - (c) forecast recoverable costs, excluding any revenue wash-up draw down amount under clause 3.1.3(1)(v) for the disclosure year referred to in subclause (1); and
 - (d) the balance of the **wash-up account** available for draw down.
- (5) For the purpose of this subpart, 'forecast allowable revenue as a function of demand' is the **forecast allowable revenue** for the **disclosure year** expressed as a function of one or more units of demand as specified by the **Commission** in a **DPP determination** or **CPP determination**.
- (6) For the purpose of this subpart, 'forecast net allowable revenue' for the first disclosure year of a DPP or CPP regulatory period will be specified by the Commission at the start of the regulatory period in a DPP determination or CPP determination.
- (7) For each **disclosure year** of the **DPP** or **CPP regulatory period** after the first **disclosure year**, 'forecast net allowable revenue' is calculated by applying-
 - (a) the **forecast net allowable revenue** for the preceding **disclosure year**;
 - (b) the forecast CPI, as specified in subclause (8); and
 - (c) any X factor applicable to the **EDB**.
- (8) 'Forecast CPI' means-

- (a) for a quarter prior to the quarter for which the vanilla WACC applicable to the relevant DPP regulatory period or CPP regulatory period was determined, CPI as per paragraph (a) of the 'CPI' definition and excluding any adjustments made under paragraph (b) of the CPI definition arising as a result of an event that occurs after the issue of the Monetary Policy Statement referred to in paragraph (b) below;
- (b) for each later quarter for which a forecast of the change in headline CPI has been included in the Monetary Policy Statement last issued by the Reserve Bank of New Zealand prior to the date for which the vanilla WACC applicable to the relevant DPP regulatory period or CPP regulatory period was determined, the CPI last applying under paragraph (a) extended by the forecast change; and
- (c) in respect of later quarters, the forecast last applying under paragraph
 (b) adjusted such that an equal increment or decrement made to that
 forecast for each of the following three years results in the forecast for
 the last of those years being equal to the target midpoint for the change
 in headline CPI set out in the Monetary Policy Statement referred to in
 paragraph (b).
- (9) 'Prices' means-
 - (a) individual tariffs, fees or charges; or
 - (b) individual components thereof,

in nominal terms exclusive of **GST** for the **supply** of an **electricity distribution service**, and must include a discount taken up by **consumers**.

- (10) 'Quantity' means the amounts supplied of electricity distribution services corresponding to the extent practicable to prices, expressed in units of kWh, kVA, kW, day or other unit applicable to such supply.
- (11) 'discount' means a discount to charges payable for the **supply** of **electricity distribution services**-
 - (a) that is offered by an **EDB**;
 - (b) the take-up of which is determined by consumers; and
 - (c) that applied when the **forecast net allowable revenue** was determined.

3.1.2 Pass-through costs

- (1) Subject to subclause (4), a pass-through cost is-
 - (a) a cost listed in subclause (2); or
 - (b) subject to subclause (3), a cost, other than one listed in subclause (2), specified by way of a **DPP determination** or **CPP determination**.
- (2) For the purpose of subclause (1)(a), the costs are-

- (a) rates on system fixed assets paid or payable by an **EDB** to a **local authority** under the Local Government (Rating) Act 2002; and
- (b) levies payable-
 - (i) under regulations made under s 53ZE of the Act;
 - (ii) under regulations made under the Electricity Industry Act 2010; or
 - (iii) by all members of the Electricity and Gas Complaints Commissioner Scheme by virtue of their membership.
- (3) For the purpose of subclause (1)(b), the cost in question must-
 - (a) be-
 - (i) associated with the supply of electricity distribution services;
 - (ii) outside the control of the EDB;
 - (iii) not a recoverable cost;
 - (iv) appropriate to be passed through to consumers; and
 - (v) one in respect of which provision for its recovery is not otherwise made explicitly or implicitly in the **DPP** or, where applicable, **CPP**; and
 - (b) come into effect during a **DPP regulatory period** or, where applicable, **CPP regulatory period**.
- (4) For the purpose of subclause (1), where a cost relates to both electricity distribution services and other services supplied by the EDB, only the proportion of the cost attributable to the supply of electricity distribution services (as determined in accordance with clause 2.1.1), may be a pass-through cost.
- 3.1.3 <u>Recoverable costs</u>
- (1) A recoverable cost is a cost that is-
 - (a) any amount that is-
 - (i) an IRIS incentive adjustment calculated in respect of a non-exempt EDB; or
 - (ii) a positive net balance determined in accordance with clause 3.3.16(2), provided that any requirements pursuant to an ID determination regarding auditor certification of any value determined in accordance with Section 3 of Subpart 3 have been met;
 - (b) a charge payable to Transpower for electricity lines services provided to an EDB in respect of the transmission system in accordance with the transmission pricing methodology Transpower uses to determine the prices it charges for its services, as specified in the Electricity Industry Participation Code, including any such charges on-charged at cost by a

third party to an **EDB** that does not have a transmission agreement with **Transpower** for the relevant point of supply;

- a charge payable by an EDB to Transpower in respect of a new investment contract (as 'new investment contract' is defined in the Electricity Industry Participation Code) between those parties, or an equivalent type of contract;
- (d) a charge payable by an EDB for the supply of system operator services, where 'system operator' has the same meaning as defined in s 5 of the Electricity Industry Act 2010, to the extent that the charge is not a pass-through cost;
- (e) an amount of a charge described in paragraphs (b) or (c) that the Commission is satisfied an EDB has avoided liability to pay as a result of the EDB having purchased transmission assets from Transpower, subject to-
 - (i) the requirement specified in subclause (2); and
 - (ii) subclause (4);
- (f) a distributed generation allowance;
- (g) claw-back applied by the Commission under sections 54K(3) or 53ZB(3) of the Act;
- (h) a standard application fee for a CPP proposal under 53Q(2)(c), subject to the proviso specified in subclause (5);
- a fee notified by the Commission as payable by the EDB in respect of the Commission assessing a CPP proposal and determining a CPP in accordance with s 53Y of the Act, subject to the proviso specified in subclause (5);
- (j) a fee payable to a **verifier**, subject to the requirement specified in subclause (3);
- (k) any auditor's cost incurred for the purpose of meeting clauses 5.1.4 or
 5.5.3, subject to the requirement specified in subclause (3);
- (I) a fee payable to an **engineer** for the purpose of meeting a requirement of clause 5.4.12(4)(b), subject to the requirement specified in subclause (3);
- (m) a catastrophic event allowance, as specified in a DPP determination or CPP determination;
- (n) an extended reserves allowance, subject to the requirements specified in subclauses (2) and (7);
- (o) a quality incentive adjustment;
- (p) the amount calculated for a non-exempt EDB in accordance with the following formula for each disclosure year other than the first in a DPP regulatory period or CPP regulatory period for which the starting prices

were determined by the Commission in a **DPP determination** or **CPP determination**–

$$\left(\frac{\text{capex wash-up adjustment}}{l-1}\right) \times (1+r)^{y+0.5}$$

where-

- is the number of disclosure years in the DPP regulatory period or
 CPP regulatory period;
- r is the cost of debt applying to the DPP regulatory period or CPPregulatory period; and
- y is the number of **disclosure years** preceding the **disclosure year** in question in the **DPP regulatory period** or **CPP regulatory period**;
- (q) an amount calculated for a non-exempt EDB if the acquisition of the transmission asset is not completed prior to the commencement of a regulatory period in accordance with the terms of any contract setting out the terms and condition of sale, in accordance with the following formula for a disclosure year in a regulatory period other than the first disclosure year-

$$\left(\frac{\text{transmission asset wash-up adjustment}}{l-1}\right) \times (1+r)^{y+0.5}$$

- *I* is the number of **disclosure years** in the **regulatory period**;
- *r* is the **cost of debt** applying to the **regulatory period**; and
- y is the number of **disclosure years** preceding the **disclosure year** in question in the **regulatory period**;
- (r) the 2013-15 NPV wash-up allowance;
- (s) a **reconsideration event allowance**, as specified in a **DPP determination** or **CPP determination**;
- (t) a fee payable to an **engineer** for the purpose of meeting a requirement of clause 4.5.5, subject to the requirement specified in subclause (10);
- (u) an urgent project allowance, as determined by the **Commission** under subclause (11); or
- (v) a revenue wash-up draw down amount, as specified in subclause (13)(k).
- (2) The requirement of this subclause is that in respect of a particular EDB, the Commission's approval for the amount of cost must be obtained in accordance with any process relating to the type of cost in question specified in a DPP determination.
- (3) The requirement of this subclause is that the amount that may be recovered in respect of a particular EDB must be specified by the Commission in a CPP determination.
- For the purpose of subclause (1)(e)(ii), the amount is a recoverable cost only in the 5 disclosure years from and including the disclosure year in respect of which the Commission first approved the amount of the cost.

- (5) For the purpose of subclauses (1)(h) and (1)(i), the proviso is that the **CPP proposal** is not discontinued by the **Commission** under s 53S of the **Act**.
- (6) In this clause, 'Electricity Industry Participation Code' has the same meaning as 'code' is defined in the Electricity Industry Act 2010.
- (7) For the purpose of giving approval under subclause (2) in respect of an **extended** reserves allowance, the **Commission** will have regard to any policy intent stated by the Electricity Authority as to whether-
 - some or all compensation payments to be made by an EDB under the extended reserves regime would be expected to constitute negative recoverable costs and be passed-through to consumers via corresponding reductions in prices; and
 - (b) revenues that an **EDB** may receive under the extended reserves regime would be expected to be treated as unregulated income.
- (8) For the purpose of subclause (1)(p), the 'capex wash-up adjustment' is an amount equal to the present value of the difference in the series of forecast net allowable revenue for the disclosure years of the DPP regulatory period or CPP regulatory period in question, subject to subclause (9), from adopting-
 - (a) the sum of value of commissioned assets in the building blocks allowable revenue before tax for each disclosure year that follows the base year in the preceding DPP regulatory period or CPP regulatory period, instead of—
 - (b) the forecast aggregate value of commissioned assets determined by the Commission in respect of each of those disclosure years when determining prices in accordance with a DPP determination or CPP determination, or an amendment thereof.
- (9) For the purpose of subclause (8)–
 - (a) the present value must be determined by discounting the series of building blocks allowable revenue before tax, using a discount rate equal to the WACC applied by the Commission in setting prices for the DPP regulatory period or CPP regulatory period in question, to-
 - (i) where the capex wash-up adjustment is applied for a DPP regulatory period, the end of the preceding DPP regulatory period;
 - (ii) where the capex wash-up adjustment is applied for a CPP regulatory period, the point in the preceding DPP regulatory period where the CPP regulatory period began;
 - (b) the series of building blocks allowable revenue before tax for the DPP regulatory period are those used to reset starting prices based on the current and projected profitability of each EDB and must-

- be calculated using the same methodology that was applied by the
 Commission in setting starting prices for the EDB for the DPP,
 subject to subparagraphs (ii) and (iii);
- (ii) for the purpose of subparagraph (i), adopt the sum of depreciation calculated under Part 2 in respect of each disclosure year that follows the base year in the preceding DPP regulatory period for assets having a commissioning date in any of those disclosure years; and
- (iii) for the purpose of subparagraph (i), adopt the same values for all other inputs to the calculation of building blocks allowable revenue before tax;
- (c) the series of building blocks allowable revenue before tax for the CPP regulatory period are those used in setting the series of maximum allowable revenue after tax in accordance with clause 5.3.4(1) and must-
 - be calculated using the same building blocks methodology that was applied by the **Commission** when setting the **EDB forecast net allowable revenue** for the **CPP**, subject to subparagraphs (ii) and (iii);
 - (ii) for the purpose of subparagraph (i), adopt the sum of depreciation calculated under Part 2 in respect of each disclosure year that follows the base year in the preceding DPP regulatory period for assets having a commissioning date in any of those disclosure years; and
 - (iii) for the purpose of subparagraph (i), adopt the same values for all other inputs to the calculation of **building blocks allowable revenue before tax**;
- (d) where the series of building blocks allowable revenue before tax from adopting the sum of value of commissioned assets exceed the series of building blocks allowable revenue before tax from using the forecast aggregate value of commissioned assets, then the difference is a positive amount of capex wash-up adjustment;
- (e) where the series of building blocks allowable revenue before tax from adopting the sum of value of commissioned assets is less than the series of building blocks allowable revenue before tax from using the forecast aggregate value of commissioned assets, then the difference is a negative amount of capex wash-up adjustment; and
- (f) where a CPP applies in respect of a disclosure year during the DPP regulatory period, then the amount of capex wash-up adjustment for that disclosure year and each subsequent disclosure year of the DPP regulatory period will be specified by the Commission in the relevant CPP determination, taking account the partial recovery of the capex

wash-up adjustment in prior **disclosure years** of that **DPP regulatory period**.

- (10) For the purpose of subclause (1)(t), the amount that may be recovered by an **EDB** will be specified by the **Commission** in an amendment to the **DPP determination**.
- (11) 'Urgent project allowance' means the allowance determined by the Commission in a CPP determination in respect of additional net costs where these costs-
 - (a) exceed those already provided for in a DPP determination or CPP determination;
 - (b) will not otherwise be recovered by the EDB; and
 - (c) will be prudently incurred by the EDB before commencement of the resulting CPP regulatory period in responding to an urgent project that occurred in the time between the submission of a CPP proposal and determination of the resulting CPP determination by the Commission.
- (12) For the purpose of subclause (1)(v), an EDB must for each disclosure year-
 - (a) perform a revenue wash-up calculation as specified in a DPP determination;
 - (b) calculate and record any **voluntary undercharging amount foregone** in accordance with subclause (13)(a);
 - (c) record in the wash-up account any wash-up amount calculated in accordance with subclause (13)(b);
 - (d) record in the **wash-up account** any **revenue wash-up draw down amount**; and
 - (e) record a time value of money adjustment in the wash-up account-
 - (i) using a rate equal to the 67th percentile estimate of WACC; and
 - (ii) calculated by applying the method as specified in **a DPP determination**.
- (13) For the purpose of subclause (12)-
 - (a) 'voluntary undercharging amount foregone' means an amount of revenue permanently foregone, in accordance with the manner specified in the DPP determination or CPP determination, where the EDB has intentionally and voluntarily undercharged revenues relative to the amount allowed in the DPP or CPP;
 - (b) 'wash-up amount' means, subject to subclauses (c) and (d), actual allowable revenue less actual revenue less revenue foregone for a disclosure year;
 - (c) if the revenue reduction percentage exceeds 20%, an amount of revenue foregone shall be calculated;
 - (d) if the revenue reduction percentage is less than or equal to 20%, the amount of **revenue foregone** shall be nil;

- (e) 'actual allowable revenue' means, for a disclosure year, an amount calculated in accordance with a DPP determination or CPP determination that includes-
 - (i) actual net allowable revenue;
 - (ii) **pass-through costs**; and
 - (iii) recoverable costs, including any revenue wash-up draw down amount;
- (f) 'actual revenue' means, for a disclosure year, the revenue amount calculated in accordance with a DPP determination or CPP determination that includes-
 - (i) actual revenue from prices; and
 - (ii) other regulated income;
- (g) 'revenue foregone' means an amount calculated in a manner specified in a DPP determination or CPP determination by applying-
 - (i) the revenue reduction percentage to a net allowable revenue amount; less
 - (ii) 20% of a net allowable revenue amount; where-
 - (iii) net allowable revenue is specified for each of (i) and (ii) in the **DPP** determination or **CPP** determination;
- (h) 'actual net allowable revenue' means, for the first disclosure year of the regulatory period, the forecast net allowable revenue for that disclosure year as specified in clause 3.1.1(6);
- (i) 'actual net allowable revenue' means, for each disclosure year of the regulatory period after the first disclosure year, an amount calculated in accordance with a DPP determination or CPP determination by applying-
 - (i) the actual net allowable revenue for the preceding disclosure year;
 - the CPI in place of the forecast CPI to the extent that forecast CPI was applied in setting prices for the disclosure year in accordance with clause 3.1.1(7); and
 - (iii) the X factor that was used when the forecast net allowable revenue was originally determined for the disclosure year in accordance with clause 3.1.1(7); and
- (j) 'revenue reduction percentage' means, for a disclosure year, the percentage reduction in revenue calculated in accordance with a DPP determination or CPP determination by comparing the actual revenue from prices with forecast revenue from prices for the disclosure year;

- (k) 'revenue wash-up draw down amount' means an amount, calculated by the EDB in accordance with a DPP determination or CPP determination, such that if the balance referred to in clause 3.1.1(4)(d) is a balance that is to be returned to consumers, the amount shall equal that balance; and
- (I) where a pass-through cost or recoverable cost is incurred by the EDB prior to a regulatory period and an amount of the cost is not otherwise able to be recovered by the EDB, the amount plus any related time value of money adjustment made in accordance with a DPP determination or CPP determination shall be included in the wash-up account.

SUBPART 2 Amalgamations

- 3.2.1 <u>Treatment of amalgamations</u>
- (1) The **DPPs** of **non-exempt EDBs** subject to **DPPs** that have **amalgamated** must be aggregated from the start of the **disclosure year** following the **amalgamation**.
- (2) A DPP for an amalgamated EDB formed from an EDB subject to a DPP and an EDB subject to a CPP applies at the end of the existing CPP.
- (3) A **DPP** for an amalgamated **EDB** formed from 2 **EDBs** each subject to a **CPP** applies at the end of the existing **CPPs**.
- (4) Nothing in subclauses (2) and (3)-
 - (a) precludes a **CPP** applying to the amalgamated **EDB** at the end of the existing **CPP** or **CPPs**, as the case may be; nor
 - (b) derogates from the application of a **DPP** to **electricity distribution services** that are-
 - (i) **supplied** by the amalgamated **EDB**; and
 - (ii) not specified services,

pending expiry of any **DPP** or **CPP** applying to the specified services.

- (5) A **CPP** for an amalgamated **EDB** may not apply before 3 **disclosure years** of any **CPP** applying to the **EDBs** from which it was formed have been completed.
- (6) Upon the determination of a CPP for an amalgamated EDB, the termination date of any CPP to which the amalgamated EDB is subject, pursuant to subclauses (2) and (3), is treated as amended to the day before the day on which the CPP for the amalgamated EDB will apply.
- (7) Following an **amalgamation**, the **Commission** may not reset starting prices for specified services to take effect during the remainder of the **regulatory period** applicable to the specified services except-
 - (a) for the purpose of s 54K; or
 - (b) when making, upon application and in accordance with this clause, a **CPP determination** for the amalgamated **EDB**.

(8) For the purpose of this clause, 'specified services' means regulated goods or services supplied by the amalgamated EDB that, at the time of amalgamation, were subject to a DPP or a CPP.

SUBPART 3 Incremental rolling incentive scheme

SECTION 1 Annual IRIS incentive adjustments

- 3.3.1 Calculation of annual IRIS incentive adjustment as recoverable cost
- (1) A non-exempt EDB must calculate an IRIS incentive adjustment for each disclosure year of each regulatory period.
- (2) The 'IRIS incentive adjustment' is the amount determined in accordance with the formula–

opex incentive amount + capex incentive amount.

SECTION 2 Operating expenditure incentives

- 3.3.2 How to calculate opex incentive amounts
- (1) An **opex incentive amount** must be calculated for each **disclosure year** of a **regulatory period**, subject to subclause (4).
- (2) The 'opex incentive amount' for a disclosure year is an amount equal to the sum of-
 - (a) all **amounts carried forward** into that **disclosure year** from a **disclosure year** in a preceding **regulatory period**; and
 - (b) where an **adjustment to the opex incentive** is applicable under clause 3.3.4(1)-
 - (i) the amount calculated in accordance with the following formula for a **disclosure year** in the **DPP regulatory period**-

- *l* is the number of **disclosure years** in the **DPP regulatory period**;
- *r* is the **cost of debt** applying to the **DPP** or **CPP** in question; and
- *y* is the number of **disclosure years** preceding the **disclosure year** in question in the **DPP regulatory period**; or
- (ii) where subclause (3) applies, nil.
- (3) For the purpose of subclause 3.3.2(2)(b)(ii), 'nil' applies for-
 - (a) the first disclosure year of the DPP regulatory period; or
 - (b) a **disclosure year** in a **DPP regulatory period** commencing prior to 1 April 2020.

- (4) An **opex incentive amount** shall not be calculated:
 - (a) by Orion New Zealand Limited, for any **disclosure year** in a **regulatory period** commencing on, or prior to, 1 April 2020; and
 - (b) by any other **EDB**, for any **disclosure year** commencing prior to 1 April 2020, unless the **EDB** becomes subject to a **CPP**.
- 3.3.3 How to calculate the amount carried forward to subsequent disclosure years
- An 'amount carried forward' must be calculated for each disclosure year of a regulatory period, subject to subclause (6).
- (2) The 'amount carried forward' for the first disclosure year of a regulatory period, including the first disclosure year following expiration of a CPP applicable to the EDB, subject to subclause (5), is calculated in accordance with the formula-

forecast $opex_t - actual opex_t$

where-

- *t* means **the disclosure year** in question.
- (3) The 'amount carried forward' for a disclosure year that is not the first or last disclosure year of a regulatory period is calculated in accordance with the formula-

```
(forecast opex<sub>t</sub> – actual opex<sub>t</sub>) – (forecast opex<sub>t-1</sub> – actual opex<sub>t-1</sub>)
```

- t means the **disclosure year** in question; and
- *t-1* means the **disclosure year** preceding the **disclosure year** in question.
- (4) The 'amount carried forward' for the last **disclosure year** of a **regulatory period** is nil.
- (5) Where an EDB is subject to a DPP determination for no more than one consecutive disclosure year of the DPP regulatory period, the 'amount carried forward' for that disclosure year is nil.
- (6) An **amount carried forward** shall not be calculated:
 - (a) by Orion New Zealand Limited, for any **disclosure year** commencing prior to 1 April 2019; and
 - (b) by any other **EDB**, for any **disclosure year** commencing prior to 27 November 2014.
- (7) Each amount carried forward is notionally carried forward from the disclosure year in respect of which it is calculated into each of the subsequent 5 disclosure years.
- (8) 'Forecast opex', subject to clauses 3.3.13 and 3.3.14, is, for a disclosure year -
 - (a) in a DPP regulatory period applying to an EDB for which starting prices applicable to the EDB were determined by the Commission under s 53P(3)(b) or s 53X(2), the amount of forecast operating expenditure

specified by the **Commission** for the relevant **disclosure year** in the **DPP determination** for the purpose of calculating an **opex incentive amount**;

- (b) in a DPP regulatory period applying to an EDB for which the prices applicable to the EDB were the prices that applied at the end of the preceding DPP regulatory period or CPP regulatory period, the amount of forecast operating expenditure specified by the Commission in the DPP determination or otherwise notified to the EDB by the Commission; or
- (c) in a CPP regulatory period applying to an EDB, the amount of forecast operating expenditure specified by the Commission for the relevant disclosure year in accordance with clause 5.3.2(6)(b).
- (9) 'Actual opex' is the amount of operating costs allocated to electricity distribution services for the relevant disclosure year calculated in accordance with Part 2.
- 3.3.4 <u>How to calculate the adjustment to the opex incentive for the second year of a</u> regulatory period
- (1) An adjustment to the opex incentive must be calculated in the disclosure year immediately following a starting price year, unless the disclosure year in question is also a starting price year.

Standard case DPP

- (2) For an **EDB** subject to the **DPP**, unless subclause (4) applies, the 'adjustment to the opex incentive', where the starting prices for the current **DPP regulatory period** are-
 - (a) determined by the Commission in accordance with s 53P(3)(b) of the Act, is an amount equal to the 'base year adjustment term' calculated in accordance with clause 3.3.5; and
 - (b) the prices that applied at the end of the preceding DPP regulatory period or CPP regulatory period, is an amount calculated in accordance with the formula-

base year adjustment term + *roll-over adjustment term* where–

base year adjustment term means the amount calculated in accordance with clause 3.3.5; and

roll-over adjustment term means the amount calculated in accordance with clause 3.3.6.

Standard case CPP

(3) The 'adjustment to the opex incentive' for an EDB subject to a CPP, unless subclauses
 (5) or (6) applies, is calculated in accordance with the formula-

base year adjustment term + baseline adjustment term

where-

base year adjustment term means the amount calculated in accordance with clause 3.3.5;

baseline adjustment term means the amount calculated in accordance with clause 3.3.7(1).

Special case of a DPP following a single starting price year

(4) The 'adjustment to the opex incentive' for an EDB subject to the DPP, when the disclosure year immediately preceding the current regulatory period was a starting price year, is calculated in accordance with the formula-

> base year adjustment term + roll-over adjustment term + one-year adjustment term 1 + one-year adjustment term 2 + one-year adjustment term 3

where-

base year adjustment term means the amount calculated in accordance with clause 3.3.5;

roll-over adjustment term means the amount calculated in accordance with clause 3.3.6;

one-year adjustment term 1 means the amount calculated in accordance with clause 3.3.8(1);

one-year adjustment term 2 means the amount calculated in accordance with clause 3.3.8(2); and

one-year adjustment term 3 means the amount calculated in accordance with clause 3.3.8(3).

Special case of a CPP following a single starting price year

(5) Unless subclause (6) applies, the 'adjustment to the opex incentive' for an EDB subject to a CPP, when the disclosure year immediately preceding the current regulatory period was a starting price year, is calculated in accordance with the formula-

base year adjustment term + baseline adjustment term + one-year adjustment term 1 + one-year adjustment term 2 + one-year adjustment term 3

where-

base year adjustment term means the amount calculated in accordance with clause 3.3.5;

baseline adjustment term means the amount calculated in accordance with clause 3.3.7(1);

one-year adjustment term 1 means the amount calculated in accordance with clause 3.3.8(1);

one-year adjustment term 2 means the amount calculated in accordance with clause 3.3.8(2); and

one-year adjustment term 3 means the amount calculated in accordance with clause 3.3.8(3).

Special case of a CPP following two consecutive starting price years

(6) The 'adjustment to the opex incentive' for an EDB subject to a CPP, when the two disclosure years immediately preceding the current regulatory period were each a starting price year, is calculated in accordance with the formula-

> baseline adjustment term + one-year adjustment term 4 + one-year adjustment term 5 + one-year adjustment term 6 + one-year adjustment term 7 + one-year adjustment term 8 + one-year adjustment term 9

where-

baseline adjustment term means the amount calculated in accordance with clause 3.3.7(2);

one-year adjustment term 4 means the amount calculated in accordance with clause 3.3.9(1);

one-year adjustment term 5 means the amount calculated in accordance with clause 3.3.9(2);

one-year adjustment term 6 means the amount calculated in accordance with clause 3.3.9(3);

one-year adjustment term 7 means the amount calculated in accordance with clause 3.3.9(4);

one-year adjustment term 8 means the amount calculated in accordance with clause 3.3.9(5); and

one-year adjustment term 9 means the amount calculated in accordance with clause 3.3.9(6).

3.3.5 How to calculate the base year adjustment term

A 'base year adjustment term' is calculated in accordance with the formula-

$$-\left(\frac{(\text{forecast opex}_{t-1} - \text{actual opex}_{t-1}) - (\text{forecast opex}_{t-2} - \text{actual opex}_{t-2})}{(1 + WACC)^4}\right)$$

where-

WACC means-

- (i) in the case of a **DPP**, the **WACC** as determined by the **Commission** and applicable to the **DPP**; or
- (ii) in the case of a CPP, the DPP WACC as determined by the Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22;
- *t-1* means the **disclosure year** immediately prior to the current **regulatory period**; and
- *t-2* means the **disclosure year** commencing two years prior to the current **regulatory period**.

3.3.6 How to calculate the roll-over adjustment term

A 'roll-over adjustment term' is calculated in accordance with the formula-

```
(actual opex<sub>t-2</sub> – forecast opex<sub>t</sub>)
```

```
×
```

```
((1-(1+WACC)<sup>-6</sup>)/WACC)
```

x

```
(1+WACC)^2
```

- *WACC* means the **WACC** as determined by the **Commission** and applicable to the **EDB**'s current **DPP**;
- t means the first **disclosure year** of the current **regulatory period**; and
- *t-2* means the **disclosure year** commencing two years prior to the current **regulatory period**.
- 3.3.7 <u>How to calculate the baseline adjustment term applicable to CPP regulatory periods</u>
- (1) For the purposes of subclause 3.3.4(3) and 3.3.4(5), 'baseline adjustment term' is calculated in accordance with the formula–

```
- (forecast opex<sub>t-2</sub> - actual opex<sub>t-2</sub>)

×

((1-(1+WACC)<sup>-6</sup>)/WACC)

×

(1+WACC)<sup>2</sup>

where-
```

- *t-2* means the **disclosure year** commencing two years prior to the current **regulatory period**;
- WACC means the DPP WACC as determined by the Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22.
- (2) For the purposes of subclause 3.3.4(6), a 'baseline adjustment term' is calculated in accordance with the formula–

```
- (forecast opex<sub>t-4</sub> - actual opex<sub>t-2</sub>)
x
((1-(1+WACC)<sup>-6</sup>)/WACC)
x
(1+WACC)<sup>2</sup>
where-
t-2 means the disclosure year commencing two years prior to the current
regulatory period:
```

- **regulatory period**;
- *t-4* means the **disclosure year** commencing four years prior to the current **regulatory period**; and
- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22.
- 3.3.8 <u>How to calculate adjustment terms applicable to regulatory periods preceded by a</u> <u>single starting price year</u>
- (1) A 'one-year adjustment term 1' is calculated in accordance with the formula-

```
(actual opex<sub>t-4</sub> – forecast opex<sub>t-2</sub>)
```

×

 $(1+WACC)^2$

where-

WACC means-

(i) in the case of a **DPP**, the **WACC** as determined by the **Commission** and applicable to the **DPP**; or

- (ii) in the case of a CPP, the DPP WACC as determined by the Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22;
- *t-2* means the **disclosure year** commencing two years prior to the current **disclosure year**; and
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**.
- (2) A 'one-year adjustment term 2' is calculated in accordance with the formula-

(forecast opex_{t-3} – actual opex_{t-3}) – (forecast opex_{t-4} – actual opex_{t-4})

×

((1-(1+WACC)⁻⁴)/WACC)

×

 $(1+WACC)^2$

where-

WACC means-

- (i) in the case of a **DPP**, the **WACC** as determined by the **Commission** and applicable to the **DPP**; or
- (ii) in the case of a CPP, the DPP WACC as determined by the Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22;
- *t-3* means the **disclosure year** commencing three years prior to the current **disclosure year**; and
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**.
- (3) A 'one-year adjustment term 3' is calculated in accordance with the formula-

(forecast opex_{t-2} – forecast opex_{t-4}) / $(1+WACC)^4$

where-

WACC means-

 (i) in the case of a DPP, the WACC as determined by the Commission and applicable to the DPP; or

- (ii) in the case of a CPP, the DPP WACC as determined by the
 Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22;
- *t-2* means the **disclosure year** commencing two years prior to the current **disclosure year**; and
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**.
- 3.3.9 <u>How to calculate adjustment terms applicable to CPP regulatory periods preceded by</u> <u>two successive starting price years</u>
- (1) A 'one-year adjustment term 4' is calculated in accordance with the formula-

```
(actual opex<sub>t-5</sub> – forecast opex<sub>t-3</sub>)
```

x

 $(1+WACC)^3$

where-

- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22;
- *t-3* means the **disclosure year** commencing three years prior to the current **disclosure year**; and
- *t-5* means the **disclosure year** commencing five years prior to the current **disclosure year**.
- (2) A 'one-year adjustment term 5' is calculated in accordance with the formula-

```
(actual opex<sub>t-4</sub> – forecast opex<sub>t-2</sub>)
```

×

 $(1+WACC)^2$

- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22;
- *t-2* means the **disclosure year** commencing two years prior to the current **disclosure year**; and

- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**.
- (3) A 'one-year adjustment term 6' is calculated in accordance with the formula-

```
(actual opex<sub>t-5</sub> - actual opex<sub>t-4</sub>)
×
((1-(1+WACC)<sup>-4</sup>)/WACC)
×
(1+WACC)<sup>3</sup>
```

where-

- WACC means the DPP WACC as determined by the Commission and as applicable to the CPP at the start of the EDB's current CPP regulatory period in accordance with clause 5.3.22;
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**; and
- *t-5* means the **disclosure year** commencing five years prior to the current **disclosure year**.
- (4) A 'one-year adjustment term 7' is calculated in accordance with the formula-

```
(actual opex<sub>t-4</sub> – actual opex<sub>t-3</sub>)
```

×

((1-(1+WACC)⁻⁴)/WACC)

×

 $(1+WACC)^2$

- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22;
- *t-3* means the **disclosure year** commencing three years prior to the current **disclosure year**; and
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**.
- (5) A 'one-year adjustment term 8' is calculated in accordance with the formula-

 $(actual opex_{t-2} - actual opex_{t-3}) / (1+WACC)^4$

where-

- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22;
- *t-2* means the **disclosure year** commencing two years prior to the current **disclosure year**; and
- *t-3* means the **disclosure year** commencing three years prior to the current **disclosure year**.
- (6) A 'one-year adjustment term 9' is calculated in accordance with the formula-

```
(forecast opex<sub>t-5</sub> – forecast opex<sub>t-4</sub>)
```

x

```
((1/(1+WACC))^4 + 1/(1+WACC)^2 - (1+WACC)^2)
```

where-

- WACC means the **DPP WACC** as determined by the **Commission** and as applicable to the **CPP** at the start of the **EDB's** current **CPP regulatory period** in accordance with clause 5.3.22;
- *t-4* means the **disclosure year** commencing four years prior to the current **disclosure year**; and
- *t-5* means the **disclosure year** commencing five years prior to the current **disclosure year**.

SECTION 3 Capital expenditure incentives

3.3.10 How to calculate capex incentive amounts

- A capex incentive amount must be calculated for each disclosure year of a DPP regulatory period irrespective of whether the EDB in question is subject to a CPP or a DPP during that DPP regulatory period, subject to subclause (3).
- (2) The 'capex incentive amount' for a disclosure year is-
 - (a) the amount calculated in accordance with the following formula for a disclosure year in the DPP regulatory period other than the first disclosure year–

$$\frac{(a pex wash-up + retention adjustment)}{l-1} \times (1+r)^{y+0.5}$$

where-

- *is* the number of **disclosure years** in the **DPP regulatoryperiod**;
- *r* is the **cost of debt** applying to the **DPP** or **CPP** in question; and
- y is the number of disclosure years preceding the disclosureyear in question in the DPP regulatory period; and
- (b) nil-
 - (i) for the first **disclosure year** of the **DPP regulatory period**; and
 - (ii) for a **disclosure year** in a **DPP regulatory period** which commences prior to 1 April 2020.
- (3) A **capex incentive amount** shall not be calculated:
 - (a) by Orion New Zealand Limited, for any **disclosure year** in a **regulatory period** commencing on, or prior to, 1 April 2020; and
 - (b) by any other **EDB**, for any **disclosure year** in a **DPP regulatory period** commencing prior to 1 April 2020.

3.3.11 How to calculate the capex wash-up

- (1) The 'capex wash-up' is an amount equal to the present value of the differences in the series of building blocks allowable revenue before tax for the preceding DPP regulatory period, subject to subclause (2) and clauses 3.3.13 and 3.3.14 from adopting-
 - the sum of the value of commissioned assets for each disclosure year of that preceding DPP regulatory period,

instead of-

- (b) for each disclosure year of the preceding DPP regulatory period in which the EDB was subject to a DPP, the forecast aggregate value of commissioned assets determined by the Commission in respect of those disclosure years; and
- (c) for each disclosure year of the preceding DPP regulatory period in which the EDB was subject to a CPP, the sum of the forecast value of commissioned assets determined by the Commission in respect of those disclosure years.
- (2) For the purpose of subclause (1)-
 - (a) the present value must be determined by discounting the series of building blocks allowable revenue before tax to the end of the preceding
 DPP regulatory period using a discount rate equal to the WACC applied

by the **Commission** in setting prices for each **disclosure year** for the relevant **DPP** or **CPP** in the preceding **DPP regulatory period**;

- (b) the series of building blocks allowable revenue before tax for each disclosure year of the preceding DPP regulatory period must-
 - be calculated using the same methodology that was applied by the
 Commission in setting starting prices for the EDB for the relevant
 DPP or CPP, subject to subparagraphs (ii) and (iii);
 - (ii) for the purpose of subparagraph (i), adopt the sum of depreciation calculated under Part 2 in respect of each disclosure year for assets having a commissioning date in the preceding DPP regulatory period; and
 - (iii) for the purpose of subparagraph (i), adopt the same values for all other inputs to the calculation of building blocks allowable revenue before tax; and
- (c) where the series of building blocks allowable revenue before tax from adopting the sum of value of commissioned assets exceed the series of building blocks allowable revenue before tax from using the forecast values of commissioned assets (as determined using the forecast aggregate value of commissioned assets for each disclosure year in which the EDB was subject to a DPP and sum of the forecast value of commissioned assets for each disclosure year in which the EDB was subject to a CPP) then the difference is a positive amount of capex washup; and
- (d) where the series of building blocks allowable revenue before tax from adopting the sum of value of commissioned assets is less than the series of building blocks allowable revenue before tax from using the forecast value of commissioned assets (as determined using the forecast aggregate value of commissioned assets for each disclosure year in which the EDB was subject to a DPP and sum of the forecast value of commissioned assets for each disclosure year in which the EDB was subject to a CPP) then the difference is a negative amount of capex washup.

3.3.12 How to calculate the retention adjustment

- The 'retention adjustment' is calculated in accordance with the formula– (PV of forecast commissioned asset values – PV of actual commissioned asset values) x retention factor.
- (2) 'PV of forecast commissioned asset values' is an amount equal to the sum of-
 - (a) the present value, as at the end of the preceding **DPP regulatory period**, of the **forecast aggregate value of commissioned assets** for each

disclosure year of the preceding **DPP regulatory period** for which the **EDB** was subject to a **DPP**; and

- (b) the present value, as at the end of the preceding DPP regulatory period, of the sum of the forecast value of commissioned assets for each disclosure year of the preceding DPP regulatory period for which the EDB was subject to a CPP.
- (3) 'PV of actual commissioned asset values' is the present value, as at the end of the preceding DPP regulatory period, of the value of commissioned asset calculated in accordance with Part 2 for every asset that was commissioned during the preceding DPP regulatory period.

SECTION 4 Price-quality path amendments and other events

3.3.13 Calculating alternative incentive adjustments following price-quality path transitions

- (1) Where a price-quality path is amended following-
 - (a) a catastrophic event;
 - (b) a change event;
 - (c) an error event; or
 - (d) provision of false or misleading information under clause 4.5.6(1)(a)(v) or 5.6.7(5),

the **forecast opex** and **forecast aggregate value of commissioned assets** required to be used by the **EDB** to calculate the **amount carried forward** for the **disclosure year** in which the event occurred and each subsequent **disclosure year** prior to the effective date of the amendment to the price-quality path, is the amount specified by the **Commission** in the amended **DPP determination** or amended **CPP determination**.

- (2) An EDB subject to a CPP must calculate the amount carried forward for each disclosure year of the preceding DPP regulatory period applicable to the EDB using any alternative forecast opex and forecast aggregate value of commissioned assets specified by the Commission in the CPP determination.
- (3) Following expiration of a CPP applicable to the EDB, the EDB must calculate the amount carried forward for each remaining disclosure year of the current DPP regulatory period using any forecast opex and forecast aggregate value of commissioned assets notified by the Commission, unless the EDB becomes subject to a new CPP.

3.3.14 Calculating incentive adjustments for other events

Where an event that is-

- (a) an **amalgamation**;
- (b) a merger (as defined in a **DPP determination**);
- (c) a major transaction; or

 (d) an alteration to Part 2 or ID determination requirements affecting the quantification of operating costs allocated to electricity distribution services or a value of commissioned asset,

occurs in a disclosure year and-

- (e) the **Commission** considers; or
- (f) the EDB in question satisfies the Commission upon application,

that the event has, or is likely to have, a material effect on the calculation of the **opex incentive amount** or **capex incentive amount** that would otherwise have been required to be calculated by the **EDB** then–

- (g) the **forecast opex**; and
- (h) either-
 - (i) forecast aggregate value of commissioned assets; or
 - (ii) sum of the forecast value of commissioned assets,

required to be used by the EDB to calculate the amount carried forward for that disclosure year and each subsequent disclosure year in the regulatory period may be determined by the Commission, and notified to the EDB, in order to preserve, to the extent appropriate–

- (i) the correct outcomes for expenditure efficiencies achieved before the event; and
- (j) the relevant incentive properties after the event.

SECTION 5 Transitional provisions

3.3.15 Calculation of annual incremental changes and adjustment term

- (1) The incremental change for the first disclosure year of a CPP regulatory period commencing prior to 27 November 2014 is determined as the difference between allowed controllable opex and actual controllable opex.
- (2) The incremental change for a disclosure year of a CPP regulatory period commencing prior to 27 November 2014 other than the first or final disclosure year must be determined in accordance with the formula-

(allowed controllable opex_t - actual controllable opex_t) - (allowed controllable opex_{t-1} - actual controllable opex_{t-1}),

- t means the **disclosure year** in question; and
- t-1 means the **disclosure year** preceding the **disclosure year** in question.
- (3) The incremental change for the final **disclosure year** of the **CPP regulatory period** commencing prior to 27 November 2014 is treated as nil.

- (4) The incremental adjustment term is determined-
 - (a) in the next **disclosure year** following a **CPP regulatory period** commencing prior to 27 November 2014; and
 - (b) by applying the inflation rate to the result of the formula-

(allowed controllable opex_{t-1} - actual controllable opex_{t-1}) - (allowed controllable opex_{t-2} - actual controllable opex_{t-2})

where-

- *t-1* means the final **disclosure year** of the preceding **CPP regulatory period** commencing prior to 27 November 2014; and
- t-2 means the penultimate **disclosure year** of the preceding **CPP regulatory period** commencing prior to 27 November 2014.
- (5) Inflation rate means the amount determined in accordance with the formula-

$$[(CPI_1 + CPI_2 + CPI_3 + CPI_4) \div (CPI_1^{-4} + CPI_2^{-4} + CPI_3^{-4} + CPI_4^{-4})] - 1,$$

where-

- *CPI*ⁿ means **forecast CPI for IRIS transitional provision** for the nth quarter of the **disclosure year** in question; and
- CPI_n^{-4} means forecast CPI for IRIS transitional provision for the equivalent quarter in the preceding disclosure year.
- (6) For the purpose of clause 3.3.15, 'forecast CPI for IRIS transitional provision' means CPI, unless CPI does not apply to the quarter in question, in which case it means the most recent CPI extended by-
 - (a) in the case of a quarter for which a forecast of the annual percent change in the headline CPI contained in the current Monetary Policy Statement issued by the Reserve Bank of New Zealand has been made, that forecast; and
 - (b) in respect of later quarters, a constant annual percent change equal to the arithmetic mean of the values forecast in the most recent four quarters in respect of which a forecast has been made in the current Monetary Policy Statement issued by the Reserve Bank of New Zealand.

3.3.16 Determination of amount to be taken into account as a recoverable cost

(1) Each incremental change determined in accordance with clause 3.3.15 and incremental adjustment term is notionally carried forward, subject to clause 3.3.17, from the disclosure year in respect of which it is determined into each of the subsequent 5 disclosure years by applying the inflation rate.

- (2) In each of the **disclosure years** after a **CPP regulatory period in**to which an amount has been carried pursuant to subclause (1), a net balance must be determined by addition of-
 - (a) any incremental changes carried into that **disclosure year** from a preceding **CPP regulatory period**; and
 - (b) any incremental adjustment term carried into that disclosure year.
- 3.3.17 Calculating gains and losses after a catastrophic event

Where-

- (a) a price-quality path is amended pursuant to clause 5.6.8 by reason of a **catastrophic event**; and
- (b) incremental changes calculated in the remaining **disclosure years** of the **regulatory period** in accordance with clauses 3.3.15(1) and 3.3.15(2) are negative,

clause 3.3.16(1) does not apply to those incremental changes.

PART 4 INPUT METHODOLOGIES FOR DEFAULT PRICE-QUALITY PATHS

SUBPART 1 Cost allocation

- 4.1.1 <u>Allocation of operating costs and asset costs</u>
- (1) **Operating expenditure** forecast for an **EDB** must be determined by the **Commission** consistent with the allocation by the **EDB** of **operating costs** to **electricity distribution services** for the **base year** in accordance with clause 2.1.1.
- (2) Capital expenditure forecast to be the forecast aggregate value of commissioned assets will be included in the aggregate closing RAB for additional assets, but only to the extent that the forecast value of commissioned assets is consistent with the value found after the application of clause 2.1.1.

SUBPART 2 Asset Valuation

- 4.2.1 RAB values and roll forward
- (1) Total opening RAB value for a disclosure year means the sum of-
 - (a) **aggregate opening RAB value for existing assets** calculated under subclause (2); and
 - (b) aggregate opening RAB value for additional assets calculated under subclause (4) for those additional assets which have a forecast aggregate value of commissioned assets determined for a prior disclosure year occurring after the base year.
- (2) Aggregate opening RAB value for existing assets means, for-
 - (a) the **base year**, the sum of each 'opening RAB value' for all assets calculated in accordance with Part 2 for that **disclosure year**; and
 - (b) each disclosure year thereafter, the aggregate closing RAB value for existing assets for the preceding disclosure year.
- (3) Aggregate closing RAB value for existing assets means, for-
 - (a) the **base year**, the sum of each 'closing RAB value' for all assets calculated in accordance with Part 2 for that **disclosure year**; and
 - (b) each **disclosure year** thereafter, the value determined in accordance with the formula-

aggregate opening RAB value for existing assets – depreciation *for* existing assets + revaluation *for* existing assets – forecast aggregate value of disposed assets.

- (4) Aggregate opening RAB value for additional assets means the **aggregate closing RAB** value for additional assets for the preceding **disclosure year**.
- (5) Aggregate closing RAB value for additional assets means, for-
 - (a) additional assets in respect of the disclosure year for which their forecast aggregate value of commissioned assets is determined, the forecast aggregate value of commissioned assets; and
 - (b) additional assets for a disclosure year following that for which their forecast aggregate value of commissioned assets is determined, the value determined for those additional assets in accordance with the formula-

aggregate opening RAB value for additional assets – depreciation *for* additional assets + revaluation *for* additional assets.

4.2.2 Total depreciation

- (1) Total depreciation means the sum of depreciation for **existing assets** and **additional assets** calculated under subclause (2).
- (2) For the purpose of subclause (1), 'depreciation' means, subject to subclause (3), in the case of-
 - (a) existing assets of the EDB, for-
 - (i) the **base year**, the sum of all amounts of 'depreciation' determined in accordance with Part 2 for that **disclosure year**; and
 - (ii) each **disclosure year** thereafter, the value determined in accordance with the formula-

[1 ÷ remaining asset life for existing assets] × aggregate opening RAB value for existing assets; and

(b) **additional assets** of the **EDB**, the value determined in accordance with the formula-

[1 ÷ remaining asset life for additional assets] × aggregate opening RAB value for additional assets.

- (3) For the purpose of subclause (2)-
 - (a) 'remaining asset life for existing assets' for a disclosure year means-
 - (i) the value determined in accordance with the formula-

aggregate opening RAB value for existing assets for the base year ÷ total depreciation for the base year

less the number of **disclosure years** from the **base year** to the **disclosure year** in question; or

(ii) subject to subclauses (c) to (e), the value determined in accordance with the formula–

adjustment factor * (aggregate opening RAB value for existing assets for the base year ÷ total depreciation for the base year)

less the number of **disclosure years** from the **base year** to the **disclosure year** in question;

- (b) for the purposes of subclause (2)(a), 'remaining asset life for additional assets' for a disclosure year means 45 years less the number of disclosure years from the disclosure year for which the forecast aggregate value of commissioned assets for the relevant additional assets is determined to the disclosure year in question;
- (c) the Commission may, subject to subclause (d), apply an average adjustment factor across all assets of not lower than 0.85, nor higher than 1;
- (d) the EDB has, by notice in writing to the **Commission** prior to the commencement of the **base year**
 - (i) proposed an adjustment factor to be applied by the **Commission** of not lower than 0.85, nor higher than 1;
 - (ii) explained why applying an adjustment factor of the level proposed in subclause (i) would be consistent with s 52A of the Act;
 - (iii) described any consultation it has undertaken with interested persons on the proposed adjustment factor and, if relevant, explained how it has taken into account any issues raised; and
- (e) the **Commission** has not previously applied an adjustment factor under this subclause.

4.2.3 Total revaluation

- (1) Total revaluation means the sum of revaluation for **existing assets** and **additional assets** calculated under subclause (2).
- (2) For the purpose of subclause (1), 'revaluation' means, subject to subclause (3), in the case of-
 - (a) existing assets, the value determined in accordance with the formula-

(aggregate opening RAB value for existing assets × 0.999 – forecast aggregate value of disposed assets) × *revaluation rate*; and

(b) additional assets, the value determined in accordance with the formula-

aggregate opening RAB value for additional assets × *revaluation rate*.

(3) For the purpose of subclause (2), 'revaluation rate' means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$(CPI_4 \div CPI_4^{-4}) - 1,$$

where-

*CPI*⁴ means **forecast CPI for DPP revaluation** for the quarter that coincides with the end of the **disclosure year**; and

 CPI_4^{-4} means forecast CPI for DPP revaluation for the quarter that coincides with the end of the preceding disclosure year.

- (4) For the purpose of subclause (3), 'forecast CPI for DPP revaluation' means-
 - (a) for a quarter prior to the quarter for which the vanilla WACC applicable to the relevant DPP regulatory period was determined, CPI as per paragraph (a) of the 'CPI' definition and excluding any adjustments made under paragraph (b) of the CPI definition arising as a result of an event that occurs after the issue of the Monetary Policy Statement referred to in paragraph (b) below;
 - (b) for each later quarter for which a forecast of the change in headline CPI has been included in the Monetary Policy Statement last issued by the Reserve Bank of New Zealand prior to the date for which the vanilla WACC applicable to the relevant DPP regulatory period was determined, the CPI last applying under paragraph (a) extended by the forecast change; and
 - (c) in respect of later quarters, the forecast last applying under paragraph
 (b) adjusted such that an equal increment or decrement made to that
 forecast for each of the following three years results in the forecast for
 the last of those years being equal to the target midpoint for the change
 in headline CPI set out in the Monetary Policy Statement referred to in
 paragraph (b).

4.2.4 Revaluation treated as income

Total revaluation, for the purpose of determining profitability, must be treated as income.

4.2.5 Forecast aggregate value of commissioned assets

Forecast aggregate value of commissioned assets means the forecast cost of **additional assets** if **GAAP** were to be applied to determine the cost of the assets to the **EDB** in the **disclosure year** in question, and is equal to forecast **capital expenditure** for the relevant **disclosure year** as determined by the **Commission**.

4.2.6 Forecast aggregate value of disposed assets

Forecast aggregate value of disposed assets means the value of assets forecast to be **disposed** of by an **EDB** in the **disclosure year** in question, and is equal to the portion of the forecast **aggregate opening RAB value for existing assets** relating to assets forecast to be **disposed** of for the **disclosure year** in question as determined by the **Commission**.

SUBPART 3 Treatment of taxation

- 4.3.1 <u>Regulatory tax allowance</u>
- (1) Regulatory tax allowance is, where regulatory net taxable income is-
 - (a) nil or a positive number, the **tax effect** of regulatory net taxable income; and
 - (b) a negative number, nil.
- (2) For the purpose of subclause (1), 'regulatory net taxable income' means, subject to subclause (3), regulatory taxable income less utilised tax losses.
- (3) For the purpose of subclause (2), 'regulatory taxable income' means, subject to subclause (4), the amount determined in accordance with the formula-

regulatory profit / (loss) before tax + regulatory tax adjustments.

(4) For the purpose of subclause (3), 'regulatory profit / (loss) before tax' is the amount determined in accordance with the following formula-

allowable revenue before tax + other regulated income – operating expenditure – total depreciation.

4.3.2 Tax losses

- (1) Utilised tax losses means opening tax losses, subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) In this clause-
 - (a) 'opening tax losses' for a **disclosure year** means closing tax losses for the preceding **disclosure year**; and
 - (b) 'closing tax losses' means, for-
 - (i) the **base year**, the 'closing tax losses' determined in accordance with Part 2 for that **disclosure year**; and
 - (ii) each disclosure year thereafter, the amount determined in accordance with the formula, in which each term is an absolute value:

opening tax losses + current period tax losses - utilised tax losses.

- (4) For the purpose of subclause (3)(b)(ii), 'current period tax losses' is, where **regulatory** taxable income is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

4.3.3 <u>Regulatory tax adjustments</u>

(1) Regulatory tax adjustments are determined, subject to subclauses (2) and (3), in accordance with the formula-

amortisation of initial differences in asset values + amortisation of revaluations – *notional deductible interest*.

(2) For the purpose of subclause (1), 'notional deductible interest' means the amount determined in accordance with the formula–

((*opening investment value* x **leverage** x **cost of debt**) + **term credit spread differential allowance**)

÷

$\sqrt{1 + \text{cost of debt}}$.

- (3) For the purpose of subclause (1), 'amortisation of initial differences in asset values' is determined in accordance with Part 2 as of the **base year**.
- (4) For the purpose of subclause (2), 'opening investment value' means the amount obtained in accordance with the formula-

total opening RAB value + opening deferred tax.

(5) For the purpose of subclause (1), 'amortisation of revaluations' in relation to an **EDB** for a **disclosure year** is calculated in accordance with the formula-

total depreciation - adjusted depreciation.

4.3.4 Deferred tax

- (1) Opening deferred tax means, for-
 - (a) the **base year**, the 'opening deferred tax' determined in accordance with Part 2 for that **disclosure year**; and
 - (b) each **disclosure year** thereafter, closing deferred tax for the preceding **disclosure year**.
- (2) For the purpose of subclause (1)(b), 'closing deferred tax' is determined in accordance with the formula-

opening deferred tax + tax effect *of* depreciation temporary differences – tax effect *of* amortisation of initial differences in asset values.

4.3.5 Depreciation temporary differences

(1) Depreciation temporary differences means, subject to subclause (2), the amount determined in accordance with the formula-

adjusted depreciation – *tax depreciation*.

- (2) For the purpose of subclause (1), 'tax depreciation' for a disclosure year means, for-
 - (a) the **base year**, the 'tax depreciation' determined in accordance with Part 2 for that **disclosure year**; and
 - (b) each **disclosure year** thereafter, subject to subclause (3), determined in accordance with the formula-

total opening regulatory tax asset value × average DV rate.

- (3) For the purpose of subclause (2)-
 - (a) 'total opening regulatory tax asset value' for a **disclosure year** means, for-
 - the base year, the sum of each 'regulatory tax asset value'
 determined in accordance with Part 2 for that disclosure year; and
 - (ii) each disclosure year thereafter, the total closing regulatory tax asset value for the preceding disclosure year;
 - (b) 'average DV rate' is the amount determined in accordance with the formula-

tax depreciation for the **base year** ÷ *total opening regulatory tax asset value for the* **base year**; and

(c) 'total closing regulatory tax asset value' means the amount determined in accordance with the formula-

total opening regulatory tax asset value – tax depreciation + forecast aggregate value of commissioned assets.

SUBPART 4 Cost of capital

- 4.4.1 <u>Methodology for estimating the weighted average cost of capital</u>
- (1) The Commission will determine a mid-point estimate of vanilla WACC-
 - (a) as of the first business day of the month 7 months prior to the start of each DPP regulatory period;
 - (b) in respect of a 5 year period;
 - (c) no later than 6 months prior to the start of each **DPP regulatory period**; and

(d) in accordance with the formula-

 $r_d L + r_e(1 - L).$

- (2) The Commission will determine a mid-point estimate of post-tax WACC -
 - (a) as of the first **business day** of the month 7 months prior to the start of each **DPP regulatory period**;
 - (b) in respect of a 5 year period;
 - (c) no later than 6 months prior to the start of each **DPP regulatory period**; and
 - (d) in accordance with the formula-

 $r_d (1 - T_c)L + r_e (1 - L).$

- (3) In this clause-
 - L is leverage;
 - r_d is the cost of debt and is estimated in accordance with the formula:

 $r_f + p + d;$

 r_e is the cost of equity and is estimated in accordance with the formula:

 $r_f(1 - T_i) + \beta_e TAMRP;$

- T_c is the average corporate tax rate;
- *r*_f is the risk-free rate;
- *p* is the **average debt premium**;
- *d* is the debt issuance costs;
- T_i is the average investor tax rate;
- β_e is the equity beta; and

TAMRP is the tax-adjusted market risk premium.

- (4) For the purpose of this clause-
 - (a) the average investor tax rate, the average corporate tax rate, the equity beta, the debt issuance costs and the tax-adjusted market risk premium are the amounts specified in or determined in accordance with clause 4.4.2; and
 - (b) the risk-free rate must be estimated in accordance with clause 4.4.3.

4.4.2 Fixed WACC parameters

- (1) Leverage is 42%.
- (2) 'Average investor tax rate' is the average of the investor tax rates that, as at the date that the estimation is made, will apply to each of the **disclosure years** in the 5 year period commencing on the first day of the **DPP regulatory period** in question.

- (3) For the purpose of subclause (2), 'investor tax rate' is, for each **disclosure year**, the maximum **prescribed investor rate** applicable at the start of the **regulatory period** to an individual who is-
 - (a) resident in New Zealand; and
 - (b) an investor in a **multi-rate PIE**.
- (4) The 'average corporate tax rate' is the average of the corporate tax rates that, as at the date that the estimation is made, will apply during the 5 year period commencing on the first day of the DPP regulatory period in question.
- (5) 'Equity beta' is 0.60.
- (6) 'Debt issuance costs' are 0.2%.
- (7) 'Tax-adjusted market risk premium' is, for a 5 year period commencing on the first day of the **DPP regulatory period**, 7.0%.

4.4.3 <u>Methodology for estimating risk-free rate</u>

The Commission will estimate a risk-free rate-

- (a) as of the first **business day** of the month 7 months prior to the start of each **DPP regulatory period**;
- (b) in respect of a 5 year period; and
- (c) no later than 6 months prior to the start of each **DPP regulatory period**,
- by-
- (d) obtaining, for notional benchmark New Zealand government New Zealand dollar denominated nominal bonds, the wholesale market linearly interpolated bid yield to maturity for a residual period to maturity equal to 5 years on each **business day** in the 3 month period of 8 to 10 months prior to the start of the **DPP regulatory period**;
- (e) calculating the annualised interpolated bid yield to maturity for each business day; and
- (f) calculating the unweighted arithmetic average of the daily annualised interpolated bid yields to maturity.
- 4.4.4 Methodology for estimating average debt premium
- (1) The **Commission** will determine an estimate of an amount for the **average debt premium**-
 - (a) for each DPP regulatory period; and
 - (b) no later than 6 months prior to the start of each **DPP regulatory period**.
- (2) For the purpose of subclause (1), 'average debt premium' means the simple arithmetic average of the five **debt premium** values estimated in accordance with clause 2.4.4(6) for-
 - (a) the current debt premium reference year; and

- (b) the four previous **debt premium reference years**.
- (3) For the **debt premium reference year** 2017 or earlier, the following **debt premium** values apply-
 - (a) 2013 = 2.24%;
 - (b) 2014 = 2.04%;
 - (c) 2015 = 1.76%;
 - (d) 2016 = 1.59%; and
 - (e) 2017 = 1.59%.
- 4.4.5 Methodology for estimating the 67th percentile estimate of WACC
- (1) The **Commission** will determine a 67th percentile estimate of vanilla **WACC**-
 - (a) for each DPP regulatory period; and
 - (b) no later than 6 months prior to the start of each **DPP regulatory period**.
- (2) The Commission will determine a 67th percentile estimate of post-tax **WACC**-
 - (a) for each DPP regulatory period; and
 - (b) no later than 6 months prior to the start of each **DPP regulatory period**.
- (3) For the purposes of subclause (1) or (2)-
 - (a) the 67th percentile must be determined in accordance with the formula-

mid-point estimate of WACC + 0.440× standard error,

where the **standard error** of the **mid-point estimate of WACC** is 0.0101; and

(b) the relevant **mid-point estimate of WACC** in accordance with clause 4.4.1(1) and (2) must be treated as the 50th percentile.

4.4.6 Publication of estimates

The **Commission** will publish all determinations and estimates that it is required to make by this subpart-

- (a) on its website; and
- (b) no later than 1 month after having made them.

4.4.7 Application of cost of capital methodology

- (1) Where the Commission takes into account the cost of capital in making a DPP determination, the Commission will use the 67th percentile estimate of WACC determined in accordance with clause 4.4.5(1) and most recently published in accordance with clause 4.4.6.
- (2) **Term credit spread differential allowance** for a **disclosure year** and an **EDB** is the maximum of nil and the amount determined in accordance with the formula-

 $a \times b \div c$,

where-

a means the 'term credit spread differential allowance' calculated in accordance with Part 2 for the **base year**;

b means the **total opening RAB value** for the **disclosure year** in question; and

c means the **aggregate opening RAB value for existing assets** for the **base year**.

(3) Where a qualifying supplier discloses a term credit spread differential allowance pursuant to an ID determination, the Commission, for the purpose of assessing the qualifying supplier's profitability pursuant to its powers relating to default pricequality regulation in s 53P of the Act, will treat such an allowance as an expense in the disclosure year in respect of which that allowance was disclosed.

SUBPART 5 Reconsideration of the default price-quality path

4.5.1 Catastrophic Event

Catastrophic event means an event-

- (a) beyond the reasonable control of the **EDB**;
- (b) in relation to which expenditure is not explicitly or implicitly provided for in the **DPP**;
- (c) that could not have been reasonably foreseen at the time the **DPP** was determined; and
- (d) in respect of which-
 - action required to rectify its adverse consequences cannot be delayed until a future regulatory period without quality standards being breached;
 - (ii) remediation requires either or both of capital expenditure or operating expenditure during the regulatory period;
 - (iii) the full remediation costs are not provided for in the **DPP**; and
 - (iv) in respect of an EDB subject to a DPP, the cost of remediation net of any insurance or compensatory entitlements has had or will have an impact on the price path over the disclosure years of the DPP remaining on and after the first date at which a remediation cost is proposed to be or has been incurred, by an amount equivalent to at least 1% of the aggregated forecast net allowable revenue for the disclosure years of the DPP in which the cost was or will be incurred.

4.5.2 Change event

Change event means-

- (a) change in a; or
- (b) a new,

legislative or regulatory requirement applying to an **EDB** subject to a **DPP** the effect of which–

- (c) must take place during the current **regulatory period**;
- (d) is not explicitly or implicitly provided for in the **DPP**; and
- either-
- (e) necessitates incurring additional reasonable costs in responding to the change or new requirement that has had or will have an impact on the price path of the disclosure years of the DPP regulatory period in which the change or new requirement applies of at least 1% of the aggregate amount of the forecast net allowable revenue for the disclosure years in which the net costs are or will be incurred; or
- (f) causes an **input methodology** to become incapable of being applied.

4.5.3 Error event

- (1) 'Error event' means, subject to subclause (2), a clearly unintended circumstance identified by the **Commission** where the **DPP** was determined or amended based on an error, including where:
 - (a) incorrect data was used in setting the price path, the quality standards or quality incentive measures; or
 - (b) data was incorrectly applied in setting the price path, quality standards or quality incentive measures.
- (2) For the purposes of subclause (1), an error relating to-
 - (a) the price path will not constitute an error event unless the error has an impact on the price path of an amount equivalent to at least 1% of the aggregate forecast net allowable revenue for the affected disclosure years of the DPP; and
 - (b) the metrics by which quality standards or quality incentive measures are specified in the **DPP** will not constitute an **error event** unless it is an error in the value of the metric.

4.5.4 Major transaction

'Major transaction' means a transaction, whether contingent or not, where **consumers** are acquired or no longer **supplied** by the **EDB** and that transaction-

(a) has resulted in, or will result in, the acquisition of, or an agreement to acquire, assets with a value which is equivalent to more than 10% of the EDB's opening RAB value in the disclosure year of acquisition;

- (b) has resulted in, or will result in, the disposal of, or an agreement to dispose of, assets of the EDB with a value of more than 10% of the opening RAB value in the disclosure year of disposal;
- (c) has, or is likely to have, the effect of the EDB acquiring rights or interests with a value which is equivalent to more than 10% of the opening RAB value in the disclosure year of acquisition; or
- (d) has, or is likely to have, the effect of the EDB incurring obligations or liabilities or contingent liabilities, excluding loans or borrowing costs in respect of assets, with a value which is equivalent to more than 10% of the opening RAB value in the disclosure year of incurring the obligation.
- 4.5.5 Proposal of a quality standard variation
- (1) An **EDB** may propose a **quality standard variation** by submitting a **quality standard variation** proposal to the **Commission** in writing.
- (2) The quality standard variation proposal must contain the following information-
 - (a) different values of either or both of-
 - (i) the mean of SAIDI and SAIFI: μ_{SAIDI} and μ_{SAIFI} ;
 - (ii) the standard deviation of SAIDI and SAIFI: σ_{SAIDI} and σ_{SAIFI} ;
 - (iii) the SAIDI and SAIFI limits,
 - (iv) the SAIDI and SAIFI targets;
 - (v) the SAIDI and SAIFI unplanned boundary values;
 - (vi) the SAIDI and SAIFI caps; and
 - (vii) the SAIDI and SAIFI collars,

to those which would be determined in accordance with the methodology for calculating reliability limits as specified in the **DPP determination**;

- (b) an explanation of the reasons for the proposed quality standard variation;
- (c) an engineer's report on the extent to which the quality standard variation better reflects the realistically achievable performance of the EDB over the DPP regulatory period, based on either or both of-
 - (i) statistical analysis of past SAIDI and SAIFI performance; and
 - (ii) the level of investment provided for in the forecast allowable revenue in the DPP determination;
- (d) demonstration of the estimated effect of the proposed quality standard variation by use of historic data and by contrast with the quality standards specified in the applicable DPP determination; and
- (e) demonstration of any consumer consultation undertaken by the **EDB** in respect of the proposed **quality standard variation**, and the results of that consultation.

- (3) Where the Commission considers that, for the purpose of making a decision on the quality standard variation proposal described in subclause (1), it requires further information from the EDB in addition to the proposal, the Commission may request this from the EDB by a date specified by the Commission such that it is reasonable for the EDB to comply.
- (4) In assessing a quality standard variation proposal, the Commission will consider the extent to which-
 - the proposed quality standard variation better reflects the realistically achievable performance of the EDB over the remainder of the regulatory period;
 - (b) the EDB has consulted with consumers on its proposed quality standard variation; and
 - (c) the proposed quality standard variation is supported by consumers.
- 4.5.6 When price-quality paths may be reconsidered
- (1) A DPP may be reconsidered by the Commission if-
 - (a) the **Commission** considers, or the **EDB** applies to the **Commission** and satisfies the **Commission**, that-
 - (i) subject to subclause (2), a catastrophic event has occurred;
 - (ii) a change event has occurred;
 - (iii) there has been an error event;
 - (iv) a major transaction has occurred; or
 - (v) false or misleading information has been provided; or
 - (b) the **Commission** receives a **quality standard variation** proposal from an **EDB** and is satisfied that it complies with clause 4.5.5(2).
- (2) For the purpose of subclause (1)(a)(i), where the costs to rectify the adverse consequences of the **catastrophic event** are fully covered by
 - (a) the **DPP** (*e.g.* through an **operational expenditure** allowance for self-insurance); or
 - (b) commercial insurance held by the **EDB**,

the **Commission** will only reconsider the quality standards of the **DPP**.

- (3) For the purpose of subclause (1)(a)(v), 'false or misleading information' means -
 - (a) false or misleading information relating to the making or amending of a DPP determination has been knowingly-
 - (i) provided by an EDB or its agents to the Commission; or
 - (ii) disclosed pursuant to the Electricity Distribution (Information Disclosure) Requirements 2008 or an ID determination; and

- (b) the **Commission** relied on that information in making or amending a **DPP** determination.
- 4.5.7 Amending price-quality path after reconsideration
- (1) Where, after reconsidering a **DPP**, the **Commission** determines that the **DPP** should be amended, the **Commission** may amend either or both of the price path or the quality standards and quality incentive measures specified in the **DPP determination**, subject to the subclause (2).
- (2) The Commission will not amend the-
 - (a) price path more than is reasonably necessary to mitigate the effect of-
 - (i) the catastrophic event;
 - (ii) the change event;
 - (iii) the error event;
 - (iv) the major transaction; or
 - (v) the provision of false or misleading information,

on **price**; or

- (b) quality standards or quality incentive measures more than are reasonably necessary to reflect the **Commission's** decision on a **quality standard variation**, or mitigate the effect of-
 - (i) the catastrophic event;
 - (ii) the change event;
 - (iii) the error event;
 - (iv) the major transaction; or
 - (v) the provision of false or misleading information,

on quality.

SUBPART 6 Treatment of periods that are not 12 month periods

4.6.1 Treatment of periods that are not 12 month periods

Where the start or end date of any **disclosure year** is not aligned with the start or end date of a **DPP regulatory period**, the **Commission** may apply the **input methodologies** modified to the extent necessary to allow any allowance, amount, cost, sum or value for that **disclosure year** to be calculated or determined in a way commensurate with the change in the length of the **disclosure year** to a period other than 12 months.

SUBPART 7 Availability of Information

4.7.1 Availability of information

- (1) Where an EDB has not disclosed the information necessary to calculate any allowance, amount, cost, sum or value referred to in this Part in accordance with Part 2 for a base year or a later disclosure year, then the information may instead be determined by the Commission using information disclosed by the EDB in accordance with an ID determination, prior information disclosure requirements or a request for information by the Commission under s 53ZD of the Act.
- (2) Any information determined in accordance with subclause (1) must be determined in accordance with Part 2 using such assumptions or modifications to the information that are reasonably necessary in light of the nature of the calculation or determination to be made and the information available.

PART 5 INPUT METHODOLOGIES FOR CUSTOMISED PRICE-QUALITY PATHS

SUBPART 1 Contents of a CPP application

- 5.1.1 Applying for a CPP
- (1) An EDB seeking a CPP in accordance with s 53Q of the Act must provide the Commission with a CPP application.
- (2) **CPP application** means an application containing, in all material respects, the information specified in-
 - (a) this subpart; and
 - (b) Subpart 4.

5.1.2 Evidence of consumer consultation

For the purpose of clause 5.1.1(2)(a), in respect of **consumer** consultation, the specified information is-

- (a) a description as to how the requirements of clause 5.5.1 were met;
- (b) a list of respondents to the consultation required by that clause;
- (c) a description of all issues raised by consumers in response to the CPP applicant's intended CPP proposal;
- (d) a summary of the arguments raised in respect of each issue described in accordance with paragraph (c); and
- (e) in respect of the issues described in accordance with paragraph (c), an explanation as to whether its CPP proposal accommodates the arguments referred to in (d); and
 - (i) if so, how; and
 - (ii) if not, why not.

5.1.3 Verification-related material

- (1) For the purpose of clause 5.1.1(2)(a), in respect of verification, the specified information is-
 - (a) a verification report;
 - (b) any information relating to the CPP proposal, other than information required to be included in a CPP proposal by Subpart 4, provided to the verifier by or on behalf of the CPP applicant, pursuant to clauses 5.5.2(3)(a)-(c) and 5.5.2(3)(e);

Examples: instructions as to how to interpret information provided to the verifier; details as to the source of the information;

- (c) any other information relied upon by the **verifier** relating to the **CPP proposal** pursuant to clause 5.5.2(3)(d); and
- (d) subject to subclause (2), a certificate signed by the verifier stating that the relevant parts of the CPP proposal were verified and verification report was prepared in accordance with Schedule G.
- (2) For the purpose of subclause (1)(de), the CPP applicant must ensure that the certificate described in subclause (1)(de) relates to verification of the relevant parts of the CPP proposal as submitted to the Commission.

5.1.4 Audit and assurance reports

- (1) For the purpose of clause 5.1.1(2)(a), in respect of audit or assurance, the specified information is a report written by an **auditor** and signed by that **auditor** (either in an individual's name or that of a firm) in respect of an audit or assurance engagement undertaken of the matters specified in clause 5.5.3, stating-
 - (a) the work done by the **auditor**;
 - (b) the scope and limitations of the audit or assurance engagement;
 - (c) the existence of any relationships (other than that of auditor) which the auditor has with, or any interests which the auditor has in, the CPP applicant or any of its subsidiaries;
 - (d) whether the **auditor** obtained all information and explanations that he or she required to undertake the audit or assurance engagement, and, if not-
 - (i) details of the information and explanations not obtained; and
 - (ii) any reasons provided by the **CPP applicant** for its or their non-provision;
 - (e) the **auditor's** opinion of the matters in respect of which the audit or assurance engagement was undertaken.
- (2) A report in respect of an audit or assurance engagement undertaken other than expressly to meet the requirements of clause 5.5.3 may be considered to comply with subclause (1) to the extent that the report in respect of that other audit or assurance engagement fully or partially meets the requirements of clause 5.5.3.
- (3) The **CPP applicant** must ensure that reports required by this clause relate to the **CPP proposal** as submitted to the **Commission**.
- (4) For the avoidance of doubt, the reports required by this clause need not be-
 - (a) prepared in advance of the verifier undertaking verification of the CPP proposal; nor
 - (b) provided to the **verifier**.
- (5) If, notwithstanding subclause (4), a report prepared in accordance with this clause is provided to the **verifier**, subclause (3) continues to apply.

5.1.5 <u>Certification</u>

- (1) For the purpose of clause 5.1.1(2)(a), in respect of certification, the specified information is the certificates recording the certifications specified in clause 5.5.4.
- (2) For the avoidance of doubt, one physical **document** may contain more than one of the certifications specified in clause 5.5.4.
- 5.1.6 Modification or exemption of CPP application requirements
- (1) The **Commission** may approve a modification to, or exemption from, any requirement set out in—
 - (a) this subpart;
 - (b) Subpart 4;
 - (c) Subpart 5; or
 - (d) schedules relating to subparts identified in paragraphs (a) to (c) above.
- (2) A modification or exemption may be approved where, in the **Commission**'s opinion, the modification or exemption will not detract, to an extent that is more than minor, from—
 - (a) the **Commission**'s evaluation of the **CPP proposal**;
 - (b) the **Commission**'s determination of a **CPP**; and
 - (c) the ability of interested persons to consider and provide their views on the **CPP proposal**.
- (3) When considering whether a modification or exemption is likely to detract, to an extent that is more than minor, from the processes listed in subclauses (2)(a)-(c), the Commission may have regard to the size of the supplier's business.
- (4) A modification or exemption will only apply for the purposes of assessing compliance of a CPP application under s 53S(1) of the Act—
 - (a) if the **Commission** has previously approved a request by a **CPP applicant** for the modification or exemption in accordance with clause 5.1.7;
 - (b) in respect of the **CPP applicant** and the **CPP application** identified in the **Commission**'s approval; and
 - (c) if the **CPP applicant** elects to apply the modification or exemption by:
 - (i) meeting all conditions and requirements specified in the approval that relates to the modification or exemption; and
 - (ii) providing the relevant information specified in clause 5.1.8 as part of its **CPP application**.
- 5.1.7 Process for obtaining a modification or exemption
- At any time prior to providing the Commission with a CPP application, a CPP applicant may request modifications or exemptions to the requirements listed in clause 5.1.6(1) as alternatives to those requirements.

(2) A request by a **CPP applicant** must—

- (a) be in writing;
- (b) include the following information:
 - "(i) the CPP applicant's name and contact details;
 - "(ii) a brief description of the key features of its intended CPP proposal;
 - "(iii) the date that the **CPP applicant** intends to submit the **CPP application** for which a modification or exemption is sought;
 - "(iv) a list of the specific modifications or exemptions sought;
 - "(v) an explanation of why the **CPP applicant** considers the requirements in clause 5.1.6(2) are met;
 - "(vi) evidence in support of the explanation provided under subparagraph (v); and
 - "(vii) identification of any information that is commercially sensitive.
- (3) Subparagraph (2)(b)(vi) may be satisfied by submitting a certificate, signed by a senior manager of the CPP applicant, setting out the factual basis on which he or she believes the requirements in subclause 5.1.6(2) are met.
- In considering whether to approve a request for modification or exemptions, the
 Commission may seek, and have regard to—
 - (a) views of interested persons within any time frames and processes set by the **Commission**; and
 - (b) views of any person the **Commission** considers has expertise on a relevant matter.
- (5) As soon as reasonably practicable after receipt of a request for modifications or exemptions the **Commission** will, by notice in writing, advise the **CPP applicant** as to whether:
 - (a) any of the modifications or exemptions are approved; and
 - (b) the approval of any modification or exemption is subject to conditions or requirements that must be met by the **CPP applicant**.
- 5.1.8 Information on modification or exemption of information requirements

Where a **CPP applicant** elects to apply a modification or exemption approved by the **Commission** in accordance with clause 5.1.7, it must include as part of its **CPP application**—

- (a) a copy of the **Commission**'s approval;
- (b) a list of the approved modifications or exemptions which the CPP applicant has elected to apply in its CPP application;
- (c) evidence that any conditions or requirements of the approval have been met; and

(d) an indication, at the relevant locations within the document or documents comprising the CPP application, as to where the modifications or exemptions have been applied.

SUBPART 2 Commission assessment of a customised price-quality path proposal

5.2.1 Evaluation criteria

The **Commission** will use the following evaluation criteria to assess each **CPP proposal**:

- (a) whether the **CPP proposal** is consistent with the **input methodologies** specified in Part 5;
- (b) the extent to which a CPP in accordance with the CPP proposal would promote the purpose of Part 4 of the Act;
- (c) whether data, analysis, and assumptions underpinning the CPP proposal are fit for the purpose of the Commission determining a CPP under s 53V, including consideration as to the accuracy and reliability of data and the reasonableness of assumptions and other matters of judgement;
- (d) whether proposed capital expenditure and operating expenditure meet the expenditure objective;
- (e) the extent to which any proposed quality standard variation provided in a CPP proposal better reflects the realistically achievable performance of the EDB over the CPP regulatory period, taking into account either or both-
 - (i) statistical analysis of past SAIDI and SAIFI performance; and
 - (ii) the level of investment provided for in proposed **maximum** allowable revenue before tax,

as the case may be; and

- (f) the extent to which-
 - the CPP applicant has consulted with consumers on its CPP proposal; and
 - (ii) the CPP proposal is supported by consumers, where relevant.

SUBPART 3 Determination of customised price-quality paths

SECTION 1 Determination of annual allowable revenues

5.3.1 Annual allowable revenues

Amounts for-

(a) **building blocks allowable revenue before tax** for the **next period**;

- (b) **building blocks allowable revenue after tax** for the **next period**;
- (c) maximum allowable revenue before tax for the CPP regulatory period; and
- (d) maximum allowable revenue after tax for the CPP regulatory period,

will be determined.

- 5.3.2 Building blocks allowable revenue before tax
- (1) 'Building blocks allowable revenue before tax' for each disclosure year of the next period is determined in accordance with the formula-

(regulatory investment value × cost of capital + total value of commissioned assets × (TF_{VCA} - 1) + term credit spread differential allowance × TF - total revaluation) ÷ (TF_{rev} - corporate tax rate × TF)

- + (total depreciation × (1 corporate tax rate × TF)
- + forecast operating expenditure × TF × (1 corporate tax rate)
- + (closing deferred tax opening deferred tax) × (TF 1)

+ (permanent differences + regulatory tax adjustments - utilised tax losses) × corporate tax rate × TF) ÷ (TF_{rev} - corporate tax rate × TF).

(2) 'Regulatory investment value' means the amount obtained in accordance with the formula-

total opening RAB value + opening deferred tax.

- (3) For the purpose of subclause (1) 'total value of commissioned assets' means, in relation to a disclosure year, the sum of closing RAB values for all commissioned assets calculated in accordance with clause 5.3.6(3)(b).
- (4) For the purpose of subclause (1)
 - (a) 'TF' is determined in accordance with the formula-

 $(1 + cost of capital)^{182/365};$

(b) 'TF_{rev}' is determined in accordance with the formula-

 $(1 + cost of capital)^{148/365};$

(c) 'TF_{VCA}' is determined in accordance with the formula-

 $PV_{VCA} \times (1 + cost of capital) \div total value of commissioned assets; and$

(d) 'PV_{VCA}' means the sum of the present value of closing RAB values for commissioned assets calculated in accordance with clause 5.3.6(3)(b), where each present value is determined by discounting each closing RAB value by the *cost of capital* from the relevant commissioning date to the commencement of the relevant disclosure year.

- (5) For the purpose of this clause, 'cost of capital' has the meaning specified in clause 5.3.22.
- (6) 'Forecast operating expenditure' means, in relation to a CPP proposal -
 - (a) that has not been assessed by the Commission, the amount of operating expenditure for the relevant disclosure year included by the CPP applicant in its opex forecast; or
 - (b) undergoing assessment by the Commission, the amount of operating expenditure determined for the relevant disclosure year by the Commission after assessment of the amount in paragraph (a) against the expenditure objective.
- (7) For the purpose of this clause, all values and amounts are expressed in nominal terms unless otherwise specified.
- 5.3.3 Building blocks allowable revenue after tax
- (1) 'Building blocks allowable revenue after tax' is **building blocks allowable revenue before tax** less **forecast regulatory tax allowance**.
- (2) For the purpose of this clause, all values and amounts are expressed in nominal terms.
- 5.3.4 Price path
- (1) The present value of the series of values of maximum allowable revenue after tax must equal the present value of the series of building blocks allowable revenue after tax, adjusted for the present value of any claw-back for the CPP regulatory period, where present values are determined in accordance with subclause (3).
- (2) In subclause (1)-
 - the reference to claw-back is a reference to claw-back, determined by the Commission pursuant to s 53V(2)(b), in the case of a CPP determination made-
 - after deferral of the relevant CPP proposal in accordance with s 53Z(2) of the Act;
 - (ii) in response to a CPP proposal made in accordance with provisions in a DPP determination relating to the submission of CPP proposals in response to a catastrophic event; or
 - (iii) as a result of a reconsideration of the price-quality path in accordance with clause 5.6.7(1) and an amendment made to the price-quality path after reconsideration under clause 5.6.8(1); and
 - (b) each reference to a series of values is a reference to the value determined in respect of each **disclosure year** of the **CPP regulatory period**.

- (3) For the purpose of subclause (1), the present value of each series must be determined using the cost of capital as specified in clause 5.3.22.
- (4) For the avoidance of doubt, where claw-back is determined where-
 - (a) subclause (2)(a)(i) applies, it will only be determined in respect of the period between the date when the CPP would have taken effect had deferral not occurred and the date the CPP determination will come into effect; and
 - (b) subclause (2)(a)(ii) applies, it will only be determined in respect of the period between the date of the catastrophic event and the date the CPP determination will come into effect.
- (5) For the purpose of this subpart, the 'maximum allowable revenue before tax' for the first disclosure year of the CPP regulatory period is the amount of maximum allowable revenue before tax in the first disclosure year of the CPP regulatory period required for subclause (1) to be satisfied.
- (6) For the purpose of this subpart, the 'maximum allowable revenue before tax' for each **disclosure year** of the **CPP regulatory period** except the first must equal-

$$MAR_{y-1} \times (1 + \Delta CPI) \times (1 - X),$$

where-

*MAR*_{y-1} is the **maximum allowable revenue before tax** in the preceding **disclosure year**;

△CPI is the CPP inflation rate; and

X is any X factor applying to the **EDB**.

- (7) 'Maximum allowable revenue after tax' is **maximum allowable revenue before tax** less forecast regulatory tax allowance.
- (8) For the purpose of subclause (7), 'forecast regulatory tax allowance' means-
 - (a) where **opening tax losses** are nil in every **disclosure year** of the **next period**, **forecast regulatory tax allowance**; and
 - (b) in all other cases, the amount calculated in accordance with clause 5.3.13 with the modification that the reference in clause 5.3.13(4) to 'building blocks allowable revenue before tax' is substituted with 'maximum allowable revenue before tax'.
- (9) 'CPP Inflation rate' means the amount determined in accordance with the formula-

$$[(CPI_1 + CPI_2 + CPI_3 + CPI_4) \div (CPI_1^{-4} + CPI_2^{-4} + CPI_3^{-4} + CPI_4^{-4})] - 1,$$

where-

 CPI_n means **forecast CPI** for the nth quarter of the **disclosure year** in question; and

 CPI_n^{-4} means forecast CPI for the equivalent quarter in the preceding disclosure year.

SECTION 2 Cost allocation and asset valuation

- 5.3.5 <u>Allocating forecast values of operating costs not directly attributable</u>
- (1) **Operating costs** forecast in each **disclosure year** of the **next period** must, in the case of an **operating cost** for which disclosure pursuant to an **ID determination** has-
 - (a) been made for the last disclosure year of the current period, be consistent with the operating costs allocated to electricity distribution services in that disclosure; and
 - (b) not been so made, be consistent with an allocation of operating costs to electricity distribution services carried out in respect of the most recent disclosure made for the current period in accordance with clause 2.1.1.
- (2) Where a sale of the assets used to **supply electricity distribution services** and either or both-
 - (a) an other regulated service; and
 - (b) an unregulated service,

is

- (c) completed between the start of the assessment period and the time the CPP application is made; or
- (d) highly probable,

operating costs attributable to **electricity distribution services**, in respect of each **operating cost** not **directly attributable** affected by the sale, is determined as the value allocated to **electricity distribution services** as a result of applying clause 2.1.1 in respect of the last **disclosure year** of the **assessment period**.

5.3.6 RAB roll forward

- (1) The opening RAB value of an asset in relation to-
 - (a) the **disclosure year** 2010, is the **initial RAB value**; and
 - (b) a disclosure year thereafter, is, where the disclosure year-
 - (i) follows a disclosure year in respect of which disclosure pursuant to an ID determination relating to that asset has been made, that asset's disclosed closing RAB value;
 - (ii) is the first disclosure year of the next period for which disclosure pursuant to an ID determination relating to that asset for the preceding disclosure year has not been made, determined in accordance with subclause (2); or

- (iii) is any other **disclosure year**, the **closing RAB value** for the preceding **disclosure year**.
- (2) For the purpose of subclause (1)(b)(ii), the opening RAB value of an asset to which this subclause applies is determined as the value allocated to **electricity distribution services** as a result of applying clause 2.1.1 to its **unallocated closing RAB value** for the preceding **disclosure year**.
- (3) Closing RAB value means, subject to subclause (4), for an asset-
 - (a) with an **opening RAB value**, the value determined in accordance with the formula-

opening RAB value - depreciation + revaluation;

- (b) having or forecast to have a **commissioning date** in that **disclosure year**, where the asset-
 - has been commissioned by the date the CPP application is made, its value of commissioned asset; or
 - (ii) has not been commissioned by the date the CPP application is made, its forecast value of commissioned asset,

but only to the extent that the value would be included in the closing RAB value consistent with application of clause 2.1.1; or

- (c) that is or is forecast to be a **disposed asset**, nil.
- (4) For the purpose of subclause (3), where a sale of the assets used to **supply electricity distribution services** and either or both-
 - (a) an **other regulated service**; and
 - (b) an **unregulated service**,

is

- (c) completed between the start of the assessment period and the time the CPP application is made; or
- (d) highly probable,

closing RAB value in respect of each asset not **directly attributable** affected by the sale is determined as the value allocated to **electricity distribution services** as a result of applying clause 2.1.1 in respect of its **unallocated closing RAB value** of the last **disclosure year** of the **assessment period**.

- (5) The unallocated opening RAB value of any asset in relation to-
 - (a) the disclosure year 2010, is the unallocated initial RAB value;
 - (b) a disclosure year thereafter, is, where the disclosure year-

- follows a disclosure year in respect of which disclosure pursuant to an ID determination relating to that asset has been made, that asset's disclosed unallocated closing RAB value; and
- (ii) is any other **disclosure year**, its **unallocated closing RAB value** in the preceding **disclosure year**.
- (6) Unallocated closing RAB value means, in relation to-
 - (a) an asset that is or is forecast to be a **disposed asset**, nil;
 - (b) any other asset with an **unallocated opening RAB value**, the value determined in accordance with the formula-

unallocated opening RAB value - unallocated depreciation + unallocated revaluation; and

- (c) any other asset-
 - that has a commissioning date between the commencement of the disclosure year in which the CPP application is made and the application's submission, its value of commissioned asset; or
 - (ii) forecast to have a **commissioning date** thereafter, its **forecast value of commissioned asset**.
- (7) The total opening RAB value in relation to-
 - (a) the disclosure year 2010, is the sum of all initial RAB values; and
 - (b) any **disclosure year** thereafter, is the total closing RAB value in the preceding **disclosure year**.
- (8) For the purpose of subclause (7), 'total closing RAB value' means, in relation to a disclosure year, the sum of closing RAB values for all assets.
- 5.3.7 Depreciation
- (1) Total depreciation means the sum of depreciation calculated for **existing CPP assets** under subclause (2)(a) and for **additional CPP assets** under subclause (2)(b).
- (2) For the purpose of subclause (1)-
 - (a) 'depreciation', in the case of existing CPP assets with an opening RAB value, is determined, subject to subclause (3) and clauses 5.3.6 and 5.3.8, in accordance with the formula-
 - [1 ÷ remaining asset life for existing CPP assets] × opening RAB value.
 - (b) 'depreciation', in the case of additional CPP assets with an opening RAB value, is determined, subject to subclause (3) and clauses 5.3.6 and 5.3.8, in accordance with the formula-

[1 ÷ remaining asset life for additional assets] × **opening RAB value** for **additional CPP assets**.

- (3) For the purposes of subclauses (1) and (2)-
 - (a) depreciation is nil in the case of-
 - (i) land; and
 - (ii) an easement other than a fixed life easement; and
 - (iii) **network spare** in respect of the period before which depreciation for the **network spare** in question commences under **GAAP**; and
 - (b) in all other cases, where the asset's **physical asset life** at the end of the **disclosure year** is nil-
 - unallocated depreciation is the asset's unallocated opening RAB value; and
 - (ii) depreciation is the asset's **opening RAB value**.
- (4) For the purpose of subclause (2)-
 - (a) 'remaining asset life for existing CPP assets' means, for each asset, the value determined in accordance with the formula opening RAB value ÷ depreciation for the last year of the current period, less the number of disclosure years from the last year of the current period to the disclosure year in question; and
 - (b) 'remaining asset life for additional assets' means the asset life for CPP commissioned assets for an asset category less the number of disclosure years from the disclosure year in which the additional assets are forecast to be commissioned.

5.3.8 Depreciation - alternative depreciation method

- (1) Depreciation and, subject to clause 5.3.9, unallocated depreciation may be determined in respect of a CPP regulatory period using an alternative depreciation method, provided the Commission is satisfied that the result of applying the alternative depreciation method would better promote the purpose of Part 4 than the result of applying the standard depreciation method.
- (2) For the avoidance of doubt, subclause (1) does not apply to the determination of depreciation or unallocated depreciation in the **assessment period**.

5.3.9 Unallocated depreciation constraint

For the purposes of clauses 5.3.7 and 5.3.8, the sum of **unallocated depreciation** of an asset calculated over its **asset life** may not exceed the sum of-

- (a) all unallocated revaluations applying to that asset in all disclosure years; and
- (b) in the case of an asset-

- (i) in the **initial RAB**, its **unallocated initial RAB value**; and
- (ii) not in the initial RAB, its value of commissioned asset or forecast value of commissioned asset, as the case may be.

5.3.10 Revaluation

(1) Unallocated revaluation, subject to subclause (3), is determined in accordance with the formula-

unallocated opening RAB value × revaluation rate.

(2) Revaluation, subject to subclause (3), is determined in accordance with the formula-

opening RAB value × revaluation rate.

- (3) For the purposes of subclauses (1) and (2), where-
 - (a) the asset's physical asset life at the end of the disclosure year is nil; or
 - (b) the asset is a-
 - (i) **disposed asset**; or
 - (ii) lost asset,

unallocated revaluation and revaluation are nil.

(4) Revaluation rate means, in respect of a **disclosure year**, the amount determined in accordance with the formula-

$$(CPI_4 \div CPI_4^{-4}) -1,$$

where-

*CPI*⁴ means **forecast CPI for CPP revaluation** for the quarter that coincides with the end of the **disclosure year**; and

 CPI_4^{-4} means forecast CPI for CPP revaluation for the quarter that coincides with the end of the preceding disclosure year.

- (5) Forecast CPI for CPP revaluation means, for the purpose of subclause (4), when calculating the **revaluation rate**-
 - (a) in the CPP regulatory period and up to the end of the DPP regulatory period, as for forecast CPI for DPP revaluation in accordance with clause 4.2.3(4)(a); and
 - (b) for each later quarter for which a forecast of the change in headline CPI has been included in the Monetary Policy Statement last issued by the Reserve Bank of New Zealand prior to the date for which the vanilla WACC applicable to the relevant DPP regulatory period was determined, the CPI last applying under paragraph (a) extended by the forecast change; and

(c) in respect of later quarters, the forecast last applying under paragraph
 (b), adjusted such that an equal increment or decrement made to that
 forecast for each of the following three years results in the forecast for
 the last of those years being equal to the target midpoint for the change
 in headline CPI set out in the Monetary Policy Statement referred to in
 paragraph (b).

5.3.11 Forecast value of commissioned assets

- (1) 'Forecast value of commissioned asset', in relation to an asset for which capital expenditure is included in forecast capital expenditure (including an asset in respect of which capital contributions are or are forecast to be received, or a vested asset) means the forecast cost of the asset to an EDB determined by applying GAAP to the asset as on its forecast commissioning date, except that, subject to subclauses (2) and (3), the cost of-
 - (a) an intangible asset, unless it is-
 - (i) a finance lease; or
 - (ii) an identifiable non-monetary asset,

is nil;

- (b) an easement, is limited to its forecast market value as on its forecast commissioning date as determined by a valuer;
- (c) easement land is nil;
- (d) a network spare-
 - (i) which is not required, in light of the historical reliability and number of the assets it is held to replace; or
 - whose cost is not treated as the cost of an asset under GAAP, whether wholly or in part,

is nil;

- (e) an asset-
 - (i) to be acquired from another regulated supplier; and
 - used by that regulated supplier in the supply of regulated goods or services,

is limited to its value determined in accordance with **input methodologies** applicable to the **services supplied** by that other **regulated supplier** as on the forecast **commissioning date**;

(f) an asset that was previously used by an EDB in its supply of other regulated services is limited to its value determined in accordance with input methodologies applicable to those other regulated services as on the day before the forecast commissioning date;

- (g) an asset or assets, or components of assets, forecast to be acquired infrom a related party transaction, and forecast to be commissioned during any disclosure year of the CPP regulatory period other than assets to which paragraphs (e) or (f) apply, isare the forecast cost specified in subclause (7)values as determined by the EDB, supported by a written certification by no fewer than 2 directors of the EDB that they are reasonably satisfied that the asset values are consistent with values determined in accordance with subclause (7);
- (h) an asset in respect of which capital contributions are or are forecast to be received where such contributions are not taken into account when applying GAAP, is the cost of the asset by applying GAAP reduced by the amount of the capital contributions;
- a vested asset in respect of which its fair value is or would be treated as its cost under GAAP, must exclude any amount of the fair value of the asset determined under GAAP that exceeds the amount of consideration provided or forecast to be provided by the EDB; and
- (j) for the purpose of subclause (a)(i), a finance lease excludes the value of any asset for which annual charges are a recoverable cost under clause 3.1.3(1)(c).
- (2) Where an **asset** forecast to be **commissioned** is forecast to be used to **supply** either or both an **other regulated service** and an **unregulated service**, its **regulated service asset value** borne by **regulated services**, in aggregate-
 - (a) may not exceed the total value of the asset that would be allocated to **regulated services**, in aggregate, using **ACAM**; and
 - (b) must be based only on forecast changes in the **EDB's business** of **supplying electricity distribution services**.
- (3) When applying GAAP for the purposes of subclause (1), the cost of financing is-
 - (a) applicable only in respect of the period commencing on the date the asset becomes or is forecast to become a works under construction and terminating on its commissioning date or forecast commissioning date, as the case may be; and
 - (b) calculated using a rate not greater than the **EDB's** forecast weighted average of borrowing costs for each applicable **disclosure year**.
- (4) For the purposes of subclause (3)(b), the 'forecast weighted average of borrowing costs' is calculated for a **disclosure year** using principles set out in **GAAP**, taking into account:
 - (a) the cost of financing rate is the forecast weighted average of the costs applicable to borrowings in respect of capex that are forecast to be outstanding during the disclosure year;

- (b) the total costs applicable to borrowings outstanding as used in calculating the weighted average must include costs of borrowings made or forecast to be made specifically for the purpose of any particular –
 - (i) capex projects; or
 - (ii) capex programmes; and
- the amount of borrowing costs forecast to be capitalised during the disclosure year must not exceed the amount of borrowing costs forecast to be incurred during the disclosure year;
- (d) where a capital contribution is received by an EDB, the relevant asset will become works under construction for the purposes of calculating the cost of financing;
- (e) subject to subclause (i), a capital contribution will reduce the cost of works under construction for the purpose of the calculation of the finance cost, even if the resulting value of works under construction is negative;
- (f) subject to subclause (g), where the value of works under construction will be negative in accordance with subclause (e), the cost of financing for the period ending on the forecast commissioning date will be negative;
- (g) where the cost of financing an asset which is works under construction is negative under subclause (f), it will reduce the forecast value of the relevant asset or assets by that negative amount where such a reduction is not otherwise made under GAAP;
- (h) for the purpose of subclause (d), **works under construction** includes assets that are forecast to be enhanced or acquired; and
- (i) where the cost of financing is forecast to be derived as income in relation to **works under construction** and is-
 - (i) negative; and
 - (ii) included in regulatory income under an **ID determination**,

it will not reduce the forecast value of the relevant asset or assets where such reduction would not otherwise be made under **GAAP**.

- (5) For the avoidance of doubt-
 - (a) revenue derived or forecast to be derived in relation to works under construction that is not included in regulatory income under an ID determination reduces the cost of an asset by the amount of the revenue where such reduction is not otherwise made under GAAP; and
 - (b) where expenditure on an asset which forms or is forecast to form part of the cost of that asset under GAAP is incurred or forecast to be incurred by an EDB after that asset is commissioned or forecast to be

commissioned, such expenditure is treated as relating to a separate asset.

- (6) In this clause, 'forecast capital expenditure' means, in relation to a CPP proposal-
 - that has not been assessed by the Commission, the amount of capital expenditure for the relevant disclosure year of the next period included by the CPP applicant in its capex forecast; and
 - (b) undergoing assessment by the Commission, the amount of capital expenditure determined for the relevant disclosure year of the next period by the Commission after assessment of the amount in paragraph (a) against the expenditure objective.
- (7) For the purpose of paragraph 5.3.11(1)(g), the forecast <u>costvalue</u> of any <u>commissioned</u> assets, or components of assets, <u>forecast to be acquired in a related</u> <u>party transaction</u>, must be <u>set on the basis that</u>consistent with values determined in accordance with one of the following.
 - (a) the forecast cost of a commissioned asset or a component of a
 commissioned asset forecast to be acquired in the related party
 transaction must be given a value not greater than if that transaction had
 the terms of an arm's-length transaction;
 - (b) an objective and independent measure must be used in determining the terms of an **arm's-length transaction** for the purpose of paragraph (a); and
 - (c) for the purpose of paragraph (a), where a forecast commissioned asset or a component of a commissioned asset is forecast to be acquired in the related party transaction, the forecast value that will qualify for recognition as the forecast cost of a commissioned asset or a component of a commissioned asset must not exceed the forecast amount expected to be charged to the EDB by the related party.
- (8) For the purpose of subclause (7)(a), a related party transaction will be treated as if it had the terms of an arm's-length transaction if the commissioned asset, or component of the commissioned asset, forecast to be acquired from a related party is valued at the forecast cost expected to be incurred by the related party, provided that this would-
 - (a) be fair and reasonable to the EDB; and
 - (b) be substantially the same as any such forecast cost expected to be incurred by the related party in providing the same type of asset to third parties.
 - (a) the forecast price to be paid by the **EDB** for the asset, where the forecast cost of all assets to be acquired from the **related party** and first

commissioned in any disclosure year of the CPP regulatory period will be less than -

- (i) one percent of the sum of **opening RAB values** for the **EDB** for that **disclosure year**, or
- (ii) 20% of the cost of all assets to be first commissioned by the EDB in that disclosure year;
- (b) the forecast price to be paid by the EDB for the asset, where-
 - (i) it is reasonably expected that at least 50% of the related party's sales of assets will be to third parties in the disclosure year in which the asset is first commissioned, and third parties may purchase the same or substantially similar assets from the related party on substantially the same terms and conditions, including price; or
 - (ii) that forecast price is substantially the same as the price paid for substantially similar assets (including any adjustments for inflation using CPI or an appropriate input price index) in the preceding 3 disclosure years from a party other than a related party;
- (c) the price to be paid by the EDB to the related party for an asset to be commissioned in a disclosure year in the CPP regulatory period has been determined following a completed competitive tender process, provided that-
 - (i) the price is no more than 5% higher than the price of the lowest conforming tender received;
 - (ii) all relevant information material to consideration of the proposal was provided to third parties, or made available upon request;
 - (iii) at least one other qualifying proposal was received; and
 - (iv) the EDB retains for a period of 7 years following the closing date of tender proposals a record of the tender and tender process, including request for information and/or proposal, the criteria used for the assessment of proposals, reasons for acceptance or rejection of proposals, and all proposals and requests for information on the tender for the purposes of making proposals;
- (d) its forecast depreciated historic cost on the day before the forecast acquisition by the **EDB** determined in accordance with **GAAP**;
- (e) its forecast inventory value on the day before the forecast acquisition by the EDB determined in accordance with GAAP;
- (f) its forecast market value as at its commissioning date as determined by a valuer;

- (g) its forecast directly attributable cost as would be incurred by the group to which the EDB and related party are a part, determined in accordance with GAAP, as if the consolidated group was the EDB;
- (h) the forecast price to be paid by the EDB for the asset reflects the price or prices that would be paid in an arm's-length transaction, provided the price cannot otherwise be determined under paragraphs (a) – (g).

5.3.12 Works under construction

- (1) Opening works under construction means, in respect of-
 - the first disclosure year of the next period where that year is consecutive to a disclosure year in respect of which disclosure pursuant to an ID determination-
 - (i) has not been made, initial works under construction; and
 - (ii) has been made, the value of works under construction last disclosed in accordance with the **ID determination** to the extent that it is intended to be included in a **closing RAB value**; and
 - (b) any year other than the first **disclosure year** of the **next period**, **closing works under construction** of the preceding **disclosure year**.
- (2) For the purpose of subclause (1)(a)(i), 'initial works under construction' means expenditure incurred on works under construction as of the first day of the disclosure year in question, calculated in accordance with clause 5.3.11, modified in that references in that clause to "forecast commissioning date" are substituted with "forecast date that expenditure is incurred".
- (3) Closing works under construction is the amount determined in accordance with the formula-

opening works under construction + *sum of* capital expenditure - (*sum of* value of commissioned assets + *sum of* forecast value of commissioned assets), where-

vnere-

- the sum of value of commissioned assets only includes values to the extent that they are included in closing RAB values disclosed pursuant to an ID determination; and
- (b) the sum of forecast value of commissioned assets only includes values to the extent that they are included in the sum of closing RAB values provided pursuant to clause 5.4.11(b)(ii).

SECTION 3 Treatment of taxation

- 5.3.13 Forecast regulatory tax allowance
- (1) Forecast regulatory tax allowance is, where forecast **regulatory net taxable income** is-

- (a) nil or a positive number, the **tax effect** of forecast **regulatory net taxable income**; and
- (b) a negative number, nil.
- (2) Regulatory net taxable income means **regulatory taxable income** less **utilised tax losses**.
- (3) Regulatory taxable income is determined in accordance with the formula-

regulatory profit / (loss) before tax + permanent differences + regulatory tax adjustments.

(4) Regulatory profit / (loss) before tax means the value determined in accordance with the formula-

building blocks allowable revenue before tax - operating expenditure - total depreciation.

5.3.14 Tax losses

- (1) Utilised tax losses means opening tax losses, subject to subclause (2).
- (2) For the purpose of subclause (1), utilised tax losses may not exceed **regulatory taxable income**.
- (3) Opening tax losses in relation to-
 - (a) the first disclosure year of the next period, is nil, subject to subclause
 (4); and
 - (b) subsequent **disclosure years** of the **next period**, is closing tax losses for the preceding **disclosure year**.
- (4) For the purpose of subclause (3)(a), if the Commission is satisfied that an EDB will incur forecast tax losses, opening tax losses is the amount of losses in respect of which the Commission is satisfied.
- (5) For the purpose of subclause (3)(b), 'closing tax losses' means the amount determined in accordance with the following formula, in which each term is an absolute value:

opening tax losses + *current period tax losses* - **utilised tax losses**.

- (6) In this clause, 'current period tax losses' is, where regulatory taxable income is-
 - (a) nil or a positive number, nil; and
 - (b) a negative number, regulatory taxable income.

5.3.15 Permanent differences

(1) Permanent differences is the amount determined in accordance with the formula-

positive permanent differences - **discretionary discounts and customer rebates** *- negative permanent differences.*

- (2) For the purpose of subclause (1), 'positive permanent differences' means, subject to subclause (3), the sum of-
 - (a) all amounts of income-
 - treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of income in determining regulatory profit
 / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services,

if the difference in treatment of amounts of-

- (c) income under paragraph (a)(i) and paragraph (a)(ii); or
- (d) expenditure or loss under paragraph (b)(i) and paragraph (b)(ii),

is a difference that is not -

- (e) a **reversal** or partial **reversal** of a difference for a prior **disclosure year**; and
- (f) forecast to **reverse** in a subsequent **disclosure year**.
- (3) For the purpose of subclause (2), positive permanent differences excludes any amounts that are-
 - (a) amortisation of initial differences in asset values; or
 - (b) amortisation of revaluations.
- (4) For the purpose of subclause (1), 'negative permanent differences' means, subject to subclause (5), the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (b) all amounts of expenditure or loss-

- treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
- (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i) and paragraph (b)(ii),

and such differences are not-

- (e) the reversal of a difference in a prior disclosure year; and
- (f) forecast to **reverse** in a subsequent **disclosure year**.
- (5) For the purpose of subclause (4), negative permanent differences excludes any amounts that are-
 - (a) discretionary discounts and customer rebates;
 - (b) expenditure or loss determined in accordance with the tax rules that is-
 - (i) interest; or
 - (ii) forecast to be incurred in borrowing money; and
 - (c) any-
 - (i) tax losses; and
 - (ii) subvention payment made or received by an EDB.

5.3.16 Regulatory tax adjustments

(1) Regulatory tax adjustments are determined in accordance with the formula-

amortisation of initial differences in asset values + amortisation of revaluations - notional deductible interest.

- revaluations notional deductible interest.
- (2) For the purpose of subclause (1), 'notional deductible interest' means the amount determined in accordance with the formula–

(((regulatory investment value + *RAB proportionate investment*) × leverage × cost of debt) + term credit spread differential allowance)

÷

 $\sqrt{1 + \cos t of debt}$.

- (3) For the purpose of subclause (2), 'RAB proportionate investment' means the sum of the *proportionate value* of each asset forecast to be **commissioned** less the sum of the *proportionate value* of each **disposed asset**.
- (4) For the purpose of subclause (3), 'proportionate value' means for-

- (a) an asset forecast to be commissioned, its forecast value of commissioned asset multiplied by the proportion of that disclosure year in question from the forecast commissioning date to the end of that disclosure year out of the whole disclosure year; and
- (b) a **disposed asset**, its **opening RAB value** multiplied by the proportion of that **disclosure year** from the date of sale or transfer to the end of that **disclosure year** out of the whole **disclosure year**.
- 5.3.17 Amortisation of initial differences in asset values
- (1) Amortisation of initial differences in asset values is, subject to subclause (4), determined in accordance with the formula-

opening unamortised initial differences in asset values ÷ opening weighted average remaining useful life of relevant assets.

- (2) For the purpose of this clause, 'opening unamortised initial differences in asset values' means, in respect of-
 - (a) the disclosure year 2010, initial differences in asset values; and
 - (b) each disclosure year thereafter, subject to subclause (4), closing unamortised initial difference in asset values for the preceding disclosure year.
- (3) For the purpose of subclause (2)(a), 'initial differences in asset values' means, subject to subclause (4), the sum of initial RAB values less the sum of regulatory tax asset values on the first day of the disclosure year 2010.
- (4) For the purpose of subclause (1), 'opening weighted average remaining useful life of relevant assets' means-

q = a - b

where:

a = the 2010 weighted average **remaining asset life** of assets included in the initial RAB calculated by using **initial RAB values** as weightings

```
b = disclosure year less 2010.
```

- (5) For the purpose of subclauses (1) and (2)-
 - (a) no account may be taken of unamortised initial differences in asset values of sold assets from the date of sale; and
 - (b) account must be taken of unamortised initial differences in asset values of acquired assets from the date of acquisition.
- (6) For the purpose of subclause (2)(b), 'closing unamortised initial difference in asset values' is determined in accordance with the formula-

Opening unamortised initial differences in asset values - amortisation of initial difference in asset values

5.3.18 Amortisation of revaluations

Amortisation of revaluations in relation to an **EDB** for a **disclosure year** is calculated in accordance with the formula-

total depreciation - adjusted depreciation.

- 5.3.19 Deferred tax
- (1) Opening deferred tax means, in respect of-
 - (a) the disclosure year 2010, nil; and
 - (b) each **disclosure year** thereafter, closing deferred tax for the preceding **disclosure year**.
- (2) For the purpose of subclause (1)(b), 'closing deferred tax' is determined in accordance with the formula-

opening deferred tax + **tax effect** *of* **temporary differences** - **tax effect** *of* **amortisation of initial difference in asset values** + *deferred tax balance relating to assets acquired in the* **disclosure year** *in question* – *deferred tax balance relating to assets disposed of in the* **disclosure year** *in question* + *cost allocation adjustment.*

- (3) For the purpose of subclause (2), 'deferred tax balance relating to assets acquired in the disclosure year in question' means the amount of deferred tax associated with the assets acquired by the EDB from another regulated supplier, excluding the reversal of temporary adjustments arising as a consequence of the sale, as determined in accordance with input methodologies applicable to the regulated services that the assets in question were used to supply.
- (4) For the avoidance of doubt, the amount referred to in subclause (3) must include proportionate adjustments for-
 - (a) the tax effect of temporary differences; and
 - (b) the amortisation of initial differences in asset values,

up to the date the assets in question were acquired.

- (5) For the purpose of subclause (2), 'cost allocation adjustment' means the tax effect of the dollar value difference between the change in the sum of regulatory tax asset values on the last day of the disclosure year and the change in the sum of closing RAB values as a result only of applying-
 - (a) the result of asset allocation ratios to the **tax asset value** in accordance with clause 5.3.21(1); and
 - (b) Clause 2.1.1 to the **unallocated closing RAB value**, where either or both clauses 5.3.6(1)(b)(ii) and 5.3.6(3) apply.
- (6) For the purpose of subclause (2), 'deferred tax balance relating to assets disposed of in the **disclosure year** in question' means the amount of deferred tax associated with

the assets disposed of by the **EDB** and, where that deferred tax balance is a deferred tax liability, it must have a negative value.

- 5.3.20 Temporary differences
- (1) Temporary differences is the amount determined in accordance with the formula-

depreciation temporary differences + positive temporary differences - negative temporary differences.

- (2) For the purpose of this clause, 'depreciation temporary differences' is **adjusted depreciation** less tax depreciation.
- (3) For the purpose of subclause (2) 'tax depreciation' is the sum of the amounts determined for all assets by application of the tax depreciation rules to the regulatory tax asset value of each asset.
- (4) For the purpose of subclause (1), 'positive temporary differences' means the sum of-
 - (a) all amounts of income-
 - treated as taxable if the tax rules were applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of income in determining regulatory profit
 / (loss) before tax; and
 - (b) all amounts of expenditure or loss-
 - (i) included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax; and
 - (ii) not treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services,

less any amount that is **depreciation temporary differences**, if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i) and paragraph (b)(ii),

and such differences-

- (e) are the **reversal** of a difference in a prior **disclosure year**; or
- (f) are forecast to **reverse** in a subsequent **disclosure year**.
- (5) For the purpose of subclause (1), 'negative temporary differences' means the sum of-
 - (a) all amounts of income-
 - (i) included as amounts of income in determining regulatory profit / (loss) before tax; and

- (ii) not treated as taxable were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
- (b) all amounts of expenditure or loss-
 - treated as deductions were the tax rules applied to determine income tax payable in respect of the EDB's supply of electricity distribution services; and
 - (ii) not included as amounts of expenditure or loss in determining regulatory profit / (loss) before tax,

less any amount that is **depreciation temporary differences**, if there are differences between the values in-

- (c) paragraph (a)(i) and paragraph (a)(ii); and
- (d) paragraph (b)(i) and paragraph (b)(ii),

and such differences-

- (e) are the reversal of a difference in a prior disclosure year; or
- (f) are forecast to **reverse** in a subsequent **disclosure year**.

5.3.21 Regulatory tax asset value

(1) Regulatory tax asset value, in relation to an asset, means the value determined in accordance with the formula-

tax asset value \times result of asset allocation ratio.

- (2) Tax asset value means, in respect of-
 - (a) an asset-
 - (i) in the initial RAB where, in the disclosure year 2010, the sum of unallocated initial RAB values is less than the sum of the adjusted tax values of all assets in the initial RAB;
 - (ii) acquired from a regulated supplier who used it to supply regulated goods or services; or
 - (iii) acquired or transferred from a related party,

the value of the asset determined by applying the **tax depreciation rules** to its notional tax asset value; and

- (b) any other asset, its forecast **adjusted tax value**.
- (3) 'Notional tax asset value' means, for the purpose of-
 - (a) subclause (2)(a)(i), adjusted tax value of the asset in the disclosure year
 2010 adjusted to account proportionately for the difference between
 the-

- (i) sum of the unallocated initial RAB values; and
- (ii) sum of the adjusted tax values,

of all assets in the initial RAB;

- (b) subclause (2)(a)(ii), value after applying the tax depreciation rules to the tax asset value (as 'tax asset value' is defined in the input methodologies applying to the regulated goods or services in question) in respect of the disclosure year in which the asset was acquired; and
- (c) subclause (2)(a)(iii), value in respect of the **disclosure year** in which the asset was acquired or transferred that is-
 - (i) consistent with the tax rules; and
 - (ii) limited to its value of commissioned asset or, if relevant capital contributions are treated for tax purposes in accordance with section CG 8 of the Income Tax Act 2007 (or subsequent equivalent provisions), limited to the value of commissioned asset plus any taxed capital contributions applicable to the asset.
- (4) For the purpose of subclause (1), 'result of asset allocation ratio' means, where an asset or group of assets maintained under the **tax rules**-
 - (a) has a matching asset or group of assets maintained for the purpose of Part 2 Subpart 2, the value obtained in accordance with the formula-

opening RAB value or *sum of* **opening RAB values**, as the case may be

÷

unallocated opening RAB value or *sum of* unallocated opening RAB values, as the case may be,

applying the formula in respect of the asset or smallest group of assets maintained for the purpose of Part 2 Subpar 2 that has a matching asset or group of assets maintained under the **tax rules**; and

(b) does not have a matching asset or group of assets maintained for the purpose of Part 2 Subpar 2, the value of the asset allocated to the **supply** of **electricity distribution services** were clause 2.1.1 to apply to the asset or group of assets.

SECTION 4 Cost of capital

5.3.22 Methodology for estimating the weighted average cost of capital

 Where the Commission takes into account the cost of capital in making a CPP determination, the Commission will use the 67th percentile estimate of WACC that was used for the **DPP** applying at the start of the **CPP regulatory period** in accordance with clause 4.4.7(1).

- (2) Where there has been a WACC change, the cost of capital for the CPP is the DPP WACC referenced in clause 5.6.7(4)(a), which has effect in the remaining years of the CPP regulatory period.
- 5.3.23 Methodology for estimating term credit spread differential
- (1) 'Term credit spread differential' is the amount determined for a **qualifying supplier** in accordance with the formula-

 $(A \div B) \times C \times D,$

where-

- (a) 'A' is the sum of the term credit spread difference and debt issuance cost re-adjustment;
- (b) 'B' is the book value of the qualifying supplier's total interest-bearing debt as at the balance date of the supplier's financial statements audited and published in the disclosure year in question relate;
- (c) 'C' is **leverage**; and
- (d) 'D' is, in relation to the qualifying supplier, the average of-
 - (i) the sum of **opening RAB values**; and
 - (ii) the sum of **closing RAB values**.
- (2) For the purpose of subclause (1)(a), 'debt issuance cost re-adjustment' is the amount determined in accordance with the formula-

 $(0.01 \div original tenor of the qualifying debt - 0.002) \times book value in New Zealand dollars of the qualifying debt at its date of issue,$

which amount, for the avoidance of doubt, will be a negative number.

5.3.24 Term credit spread difference

(1) 'Term credit spread difference' is determined in accordance with the formula-

Τ×U,

where-

(a) 'T' is the amount determined in accordance with the formula-

0.00075 × (original tenor of the **qualifying debt** – 5);

- (b) 'U' is the book value in New Zealand dollars of the **qualifying debt** at its date of issue.
- For the purpose of this clause, where the qualifying debt is issued to a related party,
 'original tenor of the qualifying debt' means the-
 - (a) tenor of the qualifying debt; or

(b) period from the **qualifying debt**'s date of issue to the earliest date on which its repayment is or may be required,

whichever is the shorter.

- 5.3.25 Interpretation of terms relating to term credit spread differential
- (1) 'Qualifying debt' means a line of debt-
 - (a) with an original tenor greater than 5 years; and
 - (b) issued by a qualifying supplier.
- (2) 'Qualifying supplier' means a regulated supplier whose debt portfolio, as at the date of that supplier's most recently published audited financial statements, has a weighted average original tenor greater than 5 years.

SECTION 5 Alternative methodologies with equivalent effect

5.3.26 Alternative methodologies with equivalent effect

- (1) A **CPP applicant**, in making a **CPP application**, may apply an alternative methodology to that specified for—
 - (a) cost allocation and asset valuation in Section 2;
 - (b) treatment of taxation in Section 3; or
 - (c) the estimation of **term credit spread differentials** in Section 4.
- (2) The **Commission**, in evaluating a **CPP proposal** and in determining a **CPP** for an **EDB**, may apply the alternative methodology elected by the **CPP applicant**.
- (3) An alternative methodology applied by either an **EDB** or the **Commission** in accordance with this clause must:
 - (a) produce an equivalent effect within the **CPP regulatory period** to the methodology that would otherwise apply; and
 - (b) not detract from the promotion of the purpose of Part 4 of the Act.

SUBPART 4 Information required in a CPP proposal

SECTION 1 General matters

5.4.1 Application of this subpart

- (1) Subject to subclause (2), a **CPP proposal** must contain, in all material respects, the information specified in this subpart.
- (2) For the purpose of subclause (1), where a **CPP proposal** is made in accordance with provisions in a **DPP determination** relating to the submission of **CPP proposals** in response to a **catastrophic event**, the information specified in clause 5.4.3 is not required.

5.4.2 Reasons for the proposal

A CPP proposal must contain a-

- (a) detailed description of the CPP applicant's rationale for seeking a CPP; and
- (b) summary of the key evidence in the proposal supporting that rationale.
- 5.4.3 Information regarding priority of proposal
- (1) A CPP proposal must contain an explanation as to why the proposal deserves to be prioritised for assessment before other CPP proposals, were the Commission to exercise its prioritisation powers under s 53Z of the Act.
- (2) For the purpose of subclause (1), a **CPP applicant** must address the prioritisation criteria specified in paragraphs (b) and (c) of s 53Z(3) of the **Act**, *viz*.-
 - (a) urgency of any proposed additional investment (compared to historic rates of investment) required to meet **consumer** requirements on quality, in accordance with subclause (3); and
 - (b) materiality of the proposal relative to the size and revenues of the applicant in accordance with subclause (4).
- (3) For the purpose of subclause (2)(a), the CPP applicant must explain-
 - (a) how any proposed investment-
 - (i) compares with historic rates of investment; and
 - (ii) relates to meeting **consumer** requirements on quality; and
 - (b) the optimal timing of any proposed investment, including any timeframes that would apply to the process of undertaking that proposed investment.
- (4) For the purpose of subclause (2)(b), the CPP applicant must-
 - (a) explain the current size of its **business** and how the proposed **CPP** would affect the size of its **business**; and
 - (b) describe its revenue under the **DPP** and explain how its revenue under the proposed **CPP** would differ, if at all, from that revenue.

5.4.4 Duration of regulatory period

Where a CPP applicant seeks a CPP of 3 years' or 4 years' duration-

- (a) the duration of the **CPP** sought must be stated in the **CPP proposal**; and
- (b) the CPP proposal must contain an explanation as to why that duration better meets the purpose of Part 4 of the Act than 5 years.

SECTION 2 Information regarding quality

5.4.5 Information on proposed quality standard variation

Where a **CPP applicant** seeks a **quality standard variation** as part of a **CPP proposal**, the **CPP proposal** must contain the following information:

- (a) different values of either or both of-
 - (i) the mean of SAIDI and SAIFI: μ_{SAIDI} and μ_{SAIFI} ;
 - (ii) the standard deviation of SAIDI and SAIFI: σ_{SAIDI} and σ_{SAIFI} ;
 - (iii) the SAIDI and SAIFI limits;
 - (iv) the SAIDI and SAIFI targets;
 - (v) the SAIDI and SAIFI unplanned boundary values;
 - (vi) the SAIDI and SAIFI caps; and
 - (vii) the SAIDI and SAIFI collars,

to those which would be determined in accordance with the methodology for calculating reliability limits specified in the **DPP determination**;

- (b) an explanation of the reasons for the proposed quality standard variation;
- (c) demonstration of the extent to which the quality standard variation better reflects the realistically achievable performance of the EDB over the CPP regulatory period based on either or both of-
 - (i) statistical analysis of past SAIDI and SAIFI performance; and
 - the level of investment provided for in proposed maximum allowable revenue before tax; and
- (d) demonstration of the estimated effect of the proposed quality standard variation by use of historic data, by contrast with the quality standards specified in the DPP determination.

SECTION 3 Price path information

- 5.4.6 Interpretation
- (1) In this section, the meanings of defined terms that are values or amounts to be determined by the **Commission** when making a **CPP determination** are modified to mean the values or amounts proposed by the **CPP applicant**, subject to any other provision to the contrary.
- (2) Any values and amounts used by a **CPP applicant** to determine the quantum of allowances, amounts, sums or values required by this section must be consistent with other information provided in accordance with this part.
- 5.4.7 Proposed building blocks allowable revenue
- (1) A CPP proposal must contain amounts for-

- (a) **building blocks allowable revenue before tax** for each **disclosure year** of the **next period**; and
- (b) **building blocks allowable revenue after tax** for each **disclosure year** of the **next period**.
- Subject to subclause (4), a CPP proposal must contain all data, information, calculations and assumptions used to determine the amounts required by subclause (1), including but not limited to-
 - (a) forecasts of-
 - (i) regulatory investment value;
 - (ii) total value of commissioned assets determined in accordance with clause 5.3.2(3);
 - (iii) total depreciation; and
 - (iv) total revaluation;
 - (b) all data, information, calculations and assumptions used to derive amounts or forecasts of TF_{VCA} , PV_{VCA} , TF, and TF_{rev} determined in accordance with clause 5.3.2(4);
 - (c) forecast operating expenditure; and
 - (d) any proposed term credit spread differential allowance.
- (3) All calculations, values and amounts required by this clause must be presented in a spreadsheet which -
 - (a) clearly demonstrates how building blocks allowable revenue before tax and building blocks allowable revenue after tax for each disclosure year of the next period have been derived using the formulae specified in clauses 5.3.2 and 5.3.3; and
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, makes the underlying formulae accessible.
- (4) Where the information specified in subclause (2) is included in a **CPP proposal** in a spreadsheet format-
 - (a) the information must be cross-referenced in the text of the **CPP proposal** document; and
 - (b) the spreadsheet(s) must-
 - provide cross-references to any CPP information requirement input methodology that the spreadsheet satisfies;
 - use terms and labels, consistent with the terminology in the input methodologies;
 - (iii) identify and explain the source inputs, and outputs, of each spreadsheet;

- (iv) produce all of the intermediate outputs, as set out in Part 5, Subpart3 and Part 5, Subpart 4; and
- (v) demonstrate links and interdependencies between source inputs, intermediate calculations and outputs.

5.4.8 Maximum Allowable Revenues

- (1) A CPP proposal must contain amounts for-
 - (a) **maximum allowable revenue before tax** for each **disclosure year** of the **CPP regulatory period**; and
 - (b) maximum allowable revenue after tax for each disclosure year of the CPP regulatory period.
- (2) For the purpose of subclauses (1)(a) and (1)(b), the CPP applicant must -
 - (a) apply an X factor; and
 - (b) state the value of the X factor.
- (3) For the purpose of subclause (2) the X factor is that defined in the **CPP applicant's DPP determination**, subject to subclause (4).
- (4) For the purpose of subclause (3), a different X factor or factors may be used, provided that the CPP proposal contains an explanation and supporting evidence as to why that would better meet the purpose of Part 4 of the Act.
- (5) All calculations and values required by this clause must be presented in a spreadsheet format which clearly demonstrates how maximum allowable revenue before tax and maximum allowable revenue after tax for each disclosure year of the CPP regulatory period have been derived from building blocks allowable revenue after tax and the variables in clause 5.4.7.
- (6) For the purpose of subclause (5), the spreadsheet must be provided in a format that-
 - (a) shows clearly how the values required by subclause (1) were derived in accordance with the formulae specified in clauses 5.3.2 to 5.3.4; and
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, makes the underlying formulae accessible.

SECTION 4 Cost allocation information

5.4.9 Cost allocation information

- (1) Where a **CPP applicant**-
 - (a) makes allocations of **operating costs** not **directly attributable** pursuant to clause 5.3.5(1); or
 - (b) determines opening RAB values pursuant to clause 5.3.6(1)(b)(ii),

the CPP proposal must contain the information specified in subclause (2).

- (2) For the purpose of subclause (1), the information is that specified in the applicable tables in Schedule B, subject to subclause (4), which tables comprise-
 - (i) Table 1: Allocation of asset values;
 - (ii) Table 2: Report supporting allocations of asset values (non-public);
 - (iii) Table 3: Allocation of operating costs;
 - (iv) Table 4: Report supporting allocation of operating costs (non-public); and
 - (v) Table 5: Rationale for selecting proxy allocator.
- (3) Subject to subclause (7), in respect of-
 - (a) **operating costs** not **directly attributable** allocated to **electricity distribution services** in accordance with clause 5.3.5(2); or
 - (b) closing RAB values determined in accordance with clause 5.3.6(4),

the **CPP proposal** must contain the information specified in Schedule C, subject to subclause (4), which tables comprise-

- (c) Table 1: Revised allocation of regulated asset values;
- (d) Table 2: Report supporting revised allocations of asset values (non-public);
- (e) Table 3: Revised allocation of operating costs; and
- (f) Table 4: Report supporting revised allocation of operating costs (nonpublic); and
- (g) Table 5: Rationale for selecting proxy allocator.
- (4) For the purpose of this clause-
 - (a) the information specified in the tables of the schedules referred to must be provided on spreadsheets;
 - (b) where data has been computed or derived from other values on the spreadsheet through the use of formulae, all underlying formulae must be accessible;
 - (c) the information specified in Table 2 and Table 4 of Schedule B and Table
 2 and Table 4 of Schedule C may be provided by way of non-public disclosure to the **Commission**; and
 - (d) the information in Schedule B must be provided-
 - (i) for the **disclosure year** prior to submitting the **CPP proposal** if it has not been disclosed in accordance with an **ID determination**; and
 - (ii) for the next period where a value in units in an allocator metric has been changed by at least 5% from the value used in the disclosure year referred to in (i).

- (5) Where the CPP applicant has used a proxy cost allocator to provide the information specified in subclauses (2) or (3), the CPP applicant must explain in the CPP proposal, for each proxy cost allocator used-
 - (a) why a causal relationship cannot be established; and
 - (b) the rationale for the quantifiable measure used for that **proxy cost allocator**.
- (6) Where the CPP applicant has used a proxy asset allocator to provide the information specified in subclauses (2) or (3), the CPP applicant must explain in the CPP proposal, for each proxy asset allocator used-
 - (a) why a causal relationship cannot be established; and
 - (b) the rationale for the quantifiable measure used for that **proxy asset allocator**.
- (7) The information in Schedule C is not required where the value of the assets to be sold as specified in clause 5.3.6(4) is less than 5% of the unallocated closing RAB value for the last disclosure year of the assessment period.

5.4.10 Certification requirements

(1) Where any arm's-length deduction was applied for the purpose of this Section, the CPP proposal must contain certification by no fewer than 2 of the EDB's directors in the following terms, where words in bold bear the meanings specified in this determination:

> "I, [insert name], **director** of [insert name of Supplier of services regulated under Part 4 of the Commerce Act] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information [information required by clause 5.4.9(2)] for the purpose of the supplier's **CPP proposal**, it was appropriate to make the **arm's-length deductions** the amount and nature of which are detailed in the tables below, **namely**:

> Table 4 of Schedule B / Table 5 of Schedule B / Table 3 of Schedule C / Table 4 of Schedule C [delete as appropriate]."

(2) Where, in relation to **regulated service asset values**, **OVABAA** was applied for the purpose of this clause in accordance with Subpart 3 Section 2, the **CPP proposal** must contain certification by no fewer than 2 of the **EDB's director**s in respect of its application in the following terms, where words in bold bear the meanings specified in this determination:

"I, [*insert name*], **director** of [*insert name of Supplier of* **services** *regulated under Part 4 of the Commerce Act*] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information (being information required by clause 5.4.9(2)) for the purpose of the supplier's **CPP proposal**-

- (a) the attached information is accurate;
- (b) the **OVABAA** was applicable in accordance with clause 2.1.2; and
- (c) the following unregulated services would be unduly deterred had adjustments to allocations of regulated service asset values (in accordance with clause 2.1.4) not been made: [list relevant unregulated services]."
- (3) Where, in relation to operating costs provided in a CPP proposal in accordance with subclause 5.4.8(1) and Schedule C, the OVABAA was applied, the CPP proposal must contain certification by no fewer than 2 of the EDB's directors in respect of application of the OVABAA in the following terms:

"I, [*insert name*], **director** of [*insert name of Supplier of* **services** *regulated under Part 4 of the Commerce Act*] certify that, having made all reasonable enquiry, my belief is that having had regard to the attached information (being information required by clause 5.4.9(2)) for the purpose of the supplier's **CPP proposal**-

- (a) the attached information is accurate;
- (b) the **OVABAA** was applicable in accordance with clause 2.1.2; and
- (c) the following unregulated services would be unduly deterred had adjustments to allocations of operating costs (in accordance with clause 2.1.4) not been made: [list relevant unregulated services]."

SECTION 5 Asset valuation information

5.4.11 RAB roll forward information

For each **disclosure year**, after the last disclosure made under an **ID determination**, until the last **disclosure year** of the **next period**, provide values, in accordance with Subpart 3 Section 2, for the-

- (a) total opening RAB value; and
- (b) sum of each of the following things:
 - (i) forecast value of commissioned assets; and
 - (ii) closing RAB values.

5.4.12 Depreciation information

- (1) In respect of each **disclosure year** of the **CPP regulatory period**, the **CPP applicant** must provide the information specified in this clause.
- (2) The sum of **depreciation**
 - (a) by either asset category or each type of asset for which the proposed method of determining depreciation is the standard depreciation method; and
 - (b) for each type of asset where the proposed method of determining depreciation is an **alternative depreciation method**.

- (3) For each type of asset to which subclause (2)b) applies-
 - (a) a description of the type of asset;
 - (b) a description of the proposed depreciation method;
 - (c) where the proposed **asset life** is different to the **physical asset life**, the proposed **asset life** for the type of asset;
 - (d) where the proposed asset life for the type of asset is different to the physical asset life, the proposed remaining asset life;
 - (e) forecast **depreciation** over the **asset life** for the type of asset, including details of all assumptions made;
 - (f) forecast **depreciation** over the **asset life** for the type of asset determined in accordance with the **standard depreciation method**;
 - (g) evidence to demonstrate that the proposed depreciation method including, where applicable, any proposed asset life different to the physical asset life, better meets the purpose of Part 4 of the Act than the standard depreciation method; and
 - (h) a description of any consultation undertaken with consumers on the proposed depreciation method, including-
 - (i) the extent of any **consumer** disagreement; and
 - (ii) the **EDB's** view in response.
- (4) For each asset or type of asset for which a different **physical asset life** to the **standard physical asset life** is proposed-
 - (a) a description of the assets or types of asset;
 - (b) to which clauses 2.2.8(1)(c) and 2.2.8(1)(i)(v) apply, an **engineer's** report addressing the suitability of the proposed **physical asset life**; and
 - (c) any other evidence to demonstrate that the requirements of clause 2.2.8 in respect of the particular type of asset are met.

5.4.13 Revaluation information

- (1) For each **disclosure year**, after the last disclosure made under an **ID determination**, until the last **disclosure year** of the **next period**, provide the following:
 - (a) sum of **opening RAB values**;
 - (b) forecast CPI for CPP revaluation for the last quarter of the disclosure year;
 - (c) **forecast CPI for CPP revaluation** for the last quarter of the preceding **disclosure year**; and
 - (d) revaluation rate.

5.4.14 Commissioned assets information

(1) For each **disclosure year**, after the last disclosure made under an **ID determination**, until the last **disclosure year** of the **next period**, provide the-

- (a) sum of value of commissioned assets; and
- (b) sum of forecast value of commissioned assets,

in respect of each of the following groups of assets:

- (c) assets-
 - (i) acquired or intended to be acquired from a related party; or
 - transferred from a part of the EDB that supplies unregulated services;
- (d) assets-
 - acquired or intended to be acquired from another regulated supplier and used by that regulated supplier in the supply of regulated services; or
 - transferred or intended to be transferred from a part of the EDB that supplies other regulated services;
- (e) network spares; and
- (f) all other assets having a **commissioning date** or forecast to have a **commissioning date** in that period.
- (2) In respect of each value provided in accordance with subclause (1) provide-
 - (a) all data, information, calculations and assumptions used to derive it from relevant data provided in the **capex forecast**; and
 - (b) where **capital contributions** are taken into account in any value disclosed pursuant to subclause (1)-
 - (i) the amount of such **capital contributions**, with respect to asset types and quantities; and
 - (ii) policies relevant to such capital contributions.
- (3) In respect of each asset to which subclause (1)(<u>ce</u>) applies, provide—
 - (a) the name of the relevant **person** or other part of the **EDB**, as the case may be; and
 - (b) where the acquisition was or is intended to be from a **related party**, a description of the relationship between the **EDB** and that **person**.
- (4) In respect of the likely vendor of each asset to which subclause (1)(<u>d</u>f) applies, provide—
 - (a) the name of the vendor;
 - (b) a description of each asset likely to be acquired from that vendor; and
 - (c) the forecast **closing RAB value** of each asset in the vendor's regulatory asset base for the **disclosure year** in which the acquisition is intended.

5.4.15 Asset disposals information

- (1) For each disclosure year, after the last disclosure made under an ID determination, until the last disclosure year of the next period, in respect of each of the following groups of assets:
 - (a) assets likely to be-
 - (i) sold to a **related party**; or
 - (ii) transferred to another part of the EDB; and
 - (b) all other disposed assets,

provide the-

- (c) sum of unallocated opening RAB values; and
- (d) sum of **opening RAB values**.
- (2) In respect of each asset to which the values provided pursuant to subclause (1) relate, provide—
 - (a) the name of the relevant **person** or other part of the **EDB**, as the case may be; and
 - (b) where the disposal is proposed to be to a **related party**, a description of the relationship between the **EDB** and that **person**.

5.4.16 Works under construction information

For each **disclosure year**, after the last disclosure made under an **ID determination**, until the last **disclosure year** of the **next period**, provide-

- (a) opening works under construction;
- (b) sum of **capital expenditure**;
- sum of value of commissioned assets but only to the extent that values are included in closing RAB values disclosed pursuant to an ID determination;
- (d) sum of forecast value of commissioned assets but only to the extent that values are included in the sum of closing RAB values provided pursuant to clause 5.4.11(b)(ii); and
- (e) sum of closing works under construction.

SECTION 6 Tax information

5.4.17 Interpretation

In this section, a term that is not emboldened but is defined for the purpose of a specific clause in Subpart 3 Section 3 bears the same meaning as it does in the clause of Subpart 3 Section 3 in which it is defined.

5.4.18 Period in respect of which tax information to be provided

A **CPP proposal** must contain the information specified in this section for each **disclosure year**, after the last disclosure made under an **ID determination**, until the last **disclosure year** of the **next period**, in accordance with Subpart 3 Section 3.

5.4.19 Regulatory tax allowance information

- (1) forecast regulatory tax allowance and particulars of how it was calculated
- (2) other regulated income
- (3) sum of discretionary discounts and customer rebates;
- (4) notional deductible interest and the **cost of debt** assumptions relied upon in its calculation

5.4.20 Tax losses information

- (1) amount of **opening tax losses** (if any) and particulars of how it was calculated
- (2) information describing the nature and amounts of significant items giving rise to any **opening tax losses**
- (3) information demonstrating that any **opening tax losses** arose from the **supply** of **electricity distribution services**

5.4.21 Permanent differences information

- (1) sum of **positive permanent differences**
- (2) sum of negative permanent differences
- (3) amounts and nature of items used to determine-
 - (a) positive permanent differences; and
 - (b) negative permanent differences

5.4.22 Amortisation of initial differences in asset values information

- (1) opening unamortised balance of the initial differences in asset values by **asset** category
- (2) amortisation in respect of the disclosure year
- (3) average weighted remaining useful life of the assets relevant to calculation of the initial **regulatory tax asset value**

5.4.23 Amortisation of revaluations information

- (1) unamortised balance of **revaluations** to date
- (2) adjusted depreciation
- (3) average weighted remaining useful life of the assets used to determine the **amortisation of revaluations**
- (4) particulars of how the average weighted remaining useful life was calculated

5.4.24 Deferred tax information

(1) opening deferred tax

- (2) analysis of temporary differences and other adjustments by nature that give rise to **opening deferred tax** value
- (3) closing deferred tax
- (4) reconciliation of **opening deferred tax** to closing deferred tax by nature of temporary differences and other adjustments

5.4.25 Temporary differences information

- (1) description of the methodology and depreciation rates by **asset category** used to determine the forecast tax depreciation
- (2) amounts and nature of other forecast temporary differences
- (3) particulars of the calculation of the **tax effect** of temporary differences showing tax rates used

5.4.26 Regulatory tax asset value information

- (1) sum of tax asset values at the start of the disclosure year
- (2) sum of regulatory tax asset values at the start of the disclosure year
- (3) weighted average remaining tax life of assets employed
- (4) tax depreciation methodology employed
- (5) particulars of the calculation used to derive the regulatory tax asset values at the start of the disclosure year from the tax asset values at the start of the disclosure year
- (6) sum of **regulatory tax asset values** at the end of the **disclosure year**
- (7) reconciliation between the sum of regulatory tax asset values at the start of the disclosure year in accordance with subclause (2) and the sum of regulatory tax asset values at the end of the disclosure year in accordance with subclause (6) showing the values of capital additions, disposals, tax depreciation and other asset adjustments including cost allocation adjustments.

SECTION 7 Cost of capital information

- 5.4.27 Information regarding WACC and TCSD allowance
- (1) A CPP proposal must, subject to subclause (2), identify the 67th percentile estimate of WACC used for the purpose of clause 5.4.7(1).
- (2) For the purpose of subclause (1), the identified **67th percentile estimate of WACC** is the applicable cost of capital specified in clause 5.3.22.
- (3) Where a term credit spread differential allowance is proposed, a CPP proposal must contain all data, information, calculations, and assumptions used to determine any proposed term credit spread differential.

SECTION 8 Expenditure information

5.4.28 Capex, opex, demand and network qualitative information

The information specified in Schedule D must be-

- (a) contained in a CPP proposal; and
- (b) provided in accordance with the requirements of that schedule.
- 5.4.29 Capex, opex, demand and network quantitative information
- (1) A **CPP proposal** must contain the information specified in the **regulatory templates** and that information must be-
 - (a) in spreadsheet format whereby each item of data is linked between all cells to which it is relevant, irrespective of whether such cells are on the same or different tabs; and
 - (b) provided in accordance with the instructions specified in clause 5.4.30.
- (2) 'Regulatory templates' means the tables included in Schedule E named-
 - (a) Table 1: Projects and programmes;
 - (b) Table 2: Capex summary;
 - (c) *Table 3:* Opex summary;
 - (d) Table 4: Capex projects and programmes;
 - (e) Table 5: Capex by asset categories;
 - (f) Table 6: Opex projects and programmes;
 - (g) Table 7: Non-network opex;
 - (h) Table 8: Aggregate forecast commissioned assets by asset categories;
 - (i) Table 9: Cost escalation factors; and
 - (j) Table 10: Network demand forecasts.
- (3) Where data provided in accordance with subclause (1) has been computed or derived from other amounts or values on the spreadsheet through the use of formulae, the underlying formulae for the cells containing the data must be accessible.
- For the purpose of subclause (1), terms used in the regulatory templates must be interpreted in the same way as those terms are defined for the purpose of Schedule D.
- 5.4.30 Instructions for completion of the regulatory templates
- (1) Provide the information specified in *Table 1: Projects and programmes* of the regulatory templates for all projects or programmes that form part of the CPP proposal.
- (2) Provide the information specified in *Table 2: Capex summary* of the **regulatory templates** using the information provided in *Table 4: Capex projects and programmes* of the **regulatory templates**, where-
 - (a) the values in *Table 2: Capex summary* must reconcile with the total values in *Table 4: Capex projects and programmes* and *Table 8: Aggregate forecast commissioned assets by asset categories* of the regulatory templates; and

- (b) the total forecast value of capex resulting in commissioned assets in Table 2c of Schedule E must reconcile with the total value of commissioned assets in Table 2d of Schedule E.
- (3) Provide the information in *Table 3: Opex summary* of the **regulatory templates** using the information provided in *Table 6: Opex projects and programmes* of the **regulatory templates**.
- Provide the information specified in *Table 4: Capex projects and programmes* and *Table 6: Opex projects and programmes* of the **regulatory templates** for each **project** and for each **programme**.
- (5) Provide the information specified in *Table 5: Capex by asset categories* of the **regulatory templates**.
- (6) Provide the information specified in *Table 7: Non-network opex* of the regulatory templates in respect of system operation and network support opex and business support opex.
- (7) Provide the information specified in *Table 8: Aggregate forecast commissioned assets by asset categories* of the **regulatory templates**.
- (8) Provide the information specified in *Table 9: Cost escalation factors* of the **regulatory templates** for each of the cost escalators used to convert real prices to nominal prices.
- (9) Provide the information specified in *Table 10: Network demand forecasts* of the **regulatory templates**.
- (10) For the purpose of specifying the relevant capex category or opex category in accordance with subclause (4), where expenditure within each project or programme is relevant to more than one capex category or opex category-
 - (a) select the **capex category** or **opex category** that is most relevant based on the nature of the expenditure; or
 - (b) redefine the project or programme into two or more new projects or programmes and reallocate the expenditure so as to resolve the overlap.

SECTION 9 Information relevant to prices

5.4.31 Information on proposed new pass-through costs

A **CPP proposal** must contain details of any cost not specified in clause 3.1.2(2) that is sought to be specified as a new pass-through cost in accordance with clause 3.1.2(1)(b), including information on-

- (a) how the cost is likely to arise;
- (b) who the cost would be payable to;
- (c) how the cost would be calculated;
- (d) any good or service the EDB would receive in exchange; and
- (e) how the cost meets the criteria specified in clause 3.1.2(3).

5.4.32 Information on proposed recoverable costs relating to costs of making CPP application

Where a **CPP applicant** seeks specification in the **CPP determination** of a **recoverable cost** to which clause 3.1.3(1)(j), 3.1.3(1)(k), or 3.1.3(1)(l) applies, it must provide, in relation to each **auditor**, **verifier** or **engineer** who was engaged to provide an opinion on some aspect of the **CPP proposal** in accordance with a requirement of this Part-

- (a) any **document** making a public or limited circulation request for proposals to carry out the work;
- (b) the terms of reference for the work;
- (c) invoices for services undertaken in respect of the work; and
- (d) receipts for payment by the **CPP applicant**.

SECTION 10 Information relevant to alternative methodologies

5.4.33 Demonstration that alternative methodologies have equivalent effect

- (1) Where a **CPP applicant** applies alternative methodologies in accordance with clause 5.3.26, it must provide:
 - (a) a list and description of each alternative methodology applied;
 - (b) an indication, at the relevant locations within the CPP application, as to where the alternative methodologies have been applied;
 - (c) reasons why each of the alternative methodologies have been applied; and
 - (d) evidence demonstrating that each alternative methodology complies with clause 5.3.26(3).
- (2) Paragraph (1)(d) may be satisfied by submitting a certificate signed by an senior manager of the CPP applicant setting out the factual basis on which he or she believes each alternative methodology complies with clause 5.3.26(3).

SUBPART 5 Consumer consultation, verification, audit and certification

- 5.5.1 Consumer consultation
- (1) By no later than 40 working days prior to submission of the CPP proposal, the CPP applicant must have adequately notified its consumers-
 - (a) that it intends to make a CPP proposal;
 - (b) of the expected effect on the revenue and quality of its electricity distribution services were the Commission to determine a CPP entirely in accordance with the intended CPP proposal;
 - (c) of the price versus quality trade-offs made in the expenditure alternatives considered in the intended **CPP proposal**, where these are

directly associated with the rationale for seeking the **CPP proposal**, which are required to be disclosed under clause 5.4.2;

- (d) if it intends to propose to include a quality standard variation under clause 5.4.5, why the proposed quality standard variation has been chosen over alternative quality standards;
- (e) where and how further information in respect of the intended CPP proposal may be obtained;
- (f) of the process for making submissions to the **EDB** in respect of the intended **CPP proposal**; and
- (g) of their opportunity to participate in the consultation process required of the **Commission** by s 53T of the **Act** after any **CPP proposal** is received and considered compliant by the **Commission**.
- (2) For the purpose of subclause (1)(e), where further information is available in hard copy only, the applicant must have ensured that any further information was readily available for inspection at the stated location.
- (3) For the purpose of subclause (1), the CPP applicant must-
 - (a) provide all relevant information;
 - (b) provide information in a manner that promotes **consumer** engagement;
 - (c) make best endeavours to express information clearly, including by use of plain language and the avoidance of jargon; and
 - (d) provide consumers with (or notified them where to obtain) the information through a medium or media appropriate to the natures of the consumer base.

Examples:

- (i) by placing the information on the **EDB's** website;
- (ii) by providing the information to groups or organisations that represent the consumers' relevant interests;
- (iii) by including the information in **consumers'** or electricity retailers' bills; and/or
- (iv) by placing advertisements in local newspapers.

5.5.2 Verification

- (1) A **CPP proposal** must be verified by a **verifier**.
- (2) The **verifier** must be engaged in accordance with Schedule F.
- (3) The **CPP applicant** must provide the **verifier** with-
 - (a) the materials-
 - (i) required by the **verifier** to verify the **CPP proposal** in accordance with the terms of his, her or its engagement and Schedule G; and
 - (ii) that it intends to submit to the Commission as a CPP proposal;

- (b) subject to paragraph (c), the materials referred to in paragraph (a) prior to the **verifier** commencing verification in accordance with Schedule G;
- upon the verifier's request, the information described in clause D10 pertaining to identified programmes after the verifier has notified the CPP applicant of its selection of identified programmes;
- (d) any information requested by the verifier pursuant to the verifier's right to ask for such information pursuant to his, her or its deed of engagement, as specified in clause F6(2)(d); and
- (e) in advance of the verifier's selection of identified programmes, summary information on the forecast projects and programmes, in the format specified in *Table 1: Projects and programmes* of the regulatory templates.

5.5.3 Audit and assurance

- (1) A **CPP application** must include a report by an **auditor** that states whether or not:
 - (a) as far as appears from an examination of them, proper records to enable the compilation of information required by Subpart 4 have been kept by the CPP applicant;
 - (b) in the case of actual financial information relating to the current period, that information has been prepared in all material respects in accordance with the input methodologies set out in this determination, and that it has been audited in accordance with applicable auditing standards issued by the External Reporting Board in accordance with its functions under the Financial Reporting Act 2013 or any equivalent standards that replace these standards;
 - (c) in the case of forecast financial information relating to the **next period**, that information has been compiled in all material respects in accordance with the input methodologies set out in this determination, and that it has been examined in accordance with applicable assurance engagement standards issued by the External Reporting Board in accordance with its functions under the Financial Reporting Act 2013 or any equivalent standards that replace these standards or other appropriate standards;
 - (d) in the case of quantitative historical information provided in spreadsheets, the information is properly compiled on the basis of the relevant underlying source information; and
 - (e) in the case of quantitative forecast information provided in spreadsheets, the information is properly compiled on the basis of relevant and reasonable disclosed assumptions.
- (2) For the avoidance of doubt, the **auditor** must provide an opinion as to whether-

- (a) in respect of **operating costs** not **directly attributable**, the **opex forecast** was provided by the **CPP applicant** as specified in clause 5.3.5; and
- (b) in respect of regulated service asset values not directly attributable, the forecast value of commissioned assets were provided by the CPP applicant in accordance with clause 5.3.6(3)(b) and as specified in clause 5.3.11(2)(b).

5.5.4 Certification

- (1) In the case of all information of a quantitative nature, other than forecast information, provided in accordance with this Part, no fewer than 2 directors of the CPP applicant must certify in writing his or her belief that-
 - (a) the information was derived and is provided in accordance with the relevant requirements; and
 - (b) it properly represents the results of financial or non-financial operations as the case may be.
- (2) In the case of all information of a qualitative nature, other than forecast information, provided in accordance with this Part, no fewer than 2 **directors** of the **CPP applicant** must certify in writing his or her belief that-
 - (a) the information is provided in accordance with the relevant requirements; and
 - (b) it properly represents the events that occurred during the **current period**.
- (3) In the case of all forecast information provided in accordance with this Part, no fewer than 2 **directors** of the **CPP applicant** must certify in writing his or her belief that-
 - (a) the information was derived and is provided in accordance with the relevant requirements; and
 - (b) the assumptions made are reasonable.
- (4) No fewer than 2 directors of the CPP applicant must certify in writing-
 - that, to the best of his or her knowledge, the verifier was engaged by the
 CPP applicant in accordance with Schedule F;
 - (b) that, to the best of his or her knowledge, the CPP applicant provided the verifier with all the information specified in Part 5, including its schedules, relevant to Schedule F;
 - (c) that, to the best of his or her knowledge, the information described in clause 5.5.2(3)(e) was provided to the verifier in advance of the verifier's selection of identified programmes;
 - (d) a description of any information not provided to the verifier following the verifier's request;

- (e) reasons, which, in his or her opinion, justified any non-provision of such information;
- (f) that, to the best of his or her knowledge, the-
 - (i) matters the **auditor** was engaged to audit included the matters specified in clause 5.5.3; and
 - (ii) **auditor** was instructed to report on at least the matters described in clause 5.1.4; and
- (g) that the-
 - (i) audit report provided pursuant to clause 5.1.4;
 - (ii) **verification report**; and
 - (iii) other certifications required by this clause,

all relate to the same CPP proposal.

- (5) Where-
 - (a) a **director** has certified a matter of opinion in accordance with this clause; and
 - (b) his or her opinion has changed before the **Commission's** determination of the **CPP** in question,

that **director** must notify the **Commission** as soon as reasonably practicable.

- (6) Where-
 - (a) a **director** has certified a matter of fact in accordance with this clause; and
 - (b) before the **Commission's** determination of the **CPP** in question he or she-
 - (i) becomes aware that the fact is untrue; or
 - (ii) has significant cause to doubt the accuracy of that fact,

that **director** must notify the **Commission** as soon as reasonably practicable.

(7) For the avoidance of doubt, the certifications required by the different subclauses of this clause may be made by the same or different **directors**.

SUBPART 6 Catastrophic events and reconsideration of a customised pricequality path

5.6.1 <u>Catastrophic event</u>

Catastrophic event means an event-

- (a) beyond the reasonable control of the **EDB**;
- (b) in relation to which expenditure-

- (i) was neither sought in a CPP proposal; nor
- (ii) is explicitly or implicitly provided for in the **DPP** or **CPP**,

as the case may be;

- (c) that could not have been reasonably foreseen at the time the CPP or DPP was determined; and
- (d) in respect of which-
 - action required to rectify its adverse consequences cannot be delayed until a future regulatory period without quality standards being breached;
 - (ii) remediation requires either or both of capital expenditure or operating expenditure during the regulatory period;
 - (iii) the full remediation costs are not provided for in the **DPP** or **CPP**; and
 - (iv) the cost of remediation net of any insurance or compensatory entitlements has had or will have an impact on the price path over the **disclosure years** of the **CPP** remaining on and after the first date at which a remediation cost is proposed to be or has been incurred, by an amount equivalent to at least 1% of the aggregated **forecast net allowable revenue** for the **disclosure years** of the **CPP** in which the cost was or will be incurred.

5.6.2 Change event

Change event means-

- (a) change in a; or
- (b) a new,

legislative or regulatory requirement applying to an **EDB** subject to a **CPP** the effect of which-

- (c) must take place during the current **regulatory period**;
- (d) is not explicitly or implicitly provided for in the **CPP**; and either-
- (e) necessitates incurring additional reasonable costs in responding to the change or new requirement that has had or will have an impact on the price path of the disclosure years of the CPP regulatory period in which the change or new requirement applies of at least 1% of the aggregate amount of the forecast net allowable revenue for the disclosure years in which the net costs are or will be incurred; or
- (f) causes an **input methodology** to become incapable of being applied.

5.6.3 Error event

- (1) 'Error event' means, subject to subclause (2), a clearly unintended circumstance identified by the **Commission** where the **CPP** was determined or amended based on an error, including where:
 - (a) incorrect data was used in setting the price path or the quality standard; or
 - (b) data was incorrectly applied in setting the price path or quality standards.
- (2) For the purposes of subclause (1), an error relating to-
 - (a) the price path will not constitute an error event unless the error has an impact on the price path of an amount equivalent to at least 1% of the aggregate forecast net allowable revenue for the affected disclosure years of the CPP; and
 - (b) the metrics by which quality standards or quality incentive measures are specified in the CPP will not constitute an error event unless it is an error in the value of the metric.

5.6.4 Major transaction

'Major transaction' means a transaction, whether contingent or not, where **consumers** are acquired or no longer **supplied** by the **EDB** and that transaction-

- (a) has resulted in, or will result in, the acquisition of, or an agreement to acquire, assets with a value which is equivalent to more than 10% of the EDB's opening RAB value in the disclosure year of acquisition;
- (b) has resulted in, or will result in, the disposal of, or an agreement to dispose of, assets of the EDB with a value of more than 10% of the opening RAB value in the disclosure year of disposal;
- (c) has, or is likely to have, the effect of the EDB acquiring rights or interests with a value which is equivalent to more than 10% of the opening RAB value in the disclosure year of acquisition; or
- (d) has, or is likely to have, the effect of the EDB incurring obligations or liabilities or contingent liabilities, excluding loans or borrowing costs in respect of assets, with a value which is equivalent to more than 10% of the opening RAB value in the disclosure year of incurring the obligation.

5.6.5 Contingent projects

- (1) A contingent project is a project that has been listed as a 'contingent project' with an associated **trigger event** in a **CPP determination**.
- (2) For the purpose of subclause (1), a **project** may only be so listed if it is a **project**-
 - (a) that the Commission considers-
 - (i) is reasonably required of an **EDB**; and

(ii) is one whose associated assets are likely to be commissioned,

during the CPP regulatory period;

- (b) for which a commencement date cannot be forecast with an appropriate degree of specificity by comparison with other proposed projects; and
- (c) in respect of which the **Commission** considers that its required **capex** and **opex**-
 - (i) as disclosed in a CPP proposal exceeds 10% of the value of the EDB's annual revenue in the most recently completed disclosure year in respect of an ID determination; and
 - (ii) would be likely, when forecast with reasonable certainty, to meet the **expenditure objective**.
- (3) 'Trigger event' means, subject to subclause (4), a condition or event that would reasonably cause an EDB to incur forecast opex or forecast capex of the nature and extent required by an associated contingent project.
- (4) For the purpose of subclause (3), the condition or event must-
 - (a) not be within the control of the **EDB**;
 - (b) be capable of being-
 - (i) specifically defined; and
 - (ii) objectively verified as having occurred; and
 - (c) be something the occurrence of which the **Commission** considers is probable during the **CPP regulatory period**.
- (5) For the avoidance of doubt, the Commission has discretion as to-
 - (a) whether to list a project that satisfies subclause (2) as a **contingent project** in a **CPP determination**; and
 - (b) the selection and description of trigger events.

5.6.6 <u>Unforeseen projects</u>

- (1) 'Unforeseen project' means a **project** or **programme**, subject to subclause (2), that, in respect of the services supplied by the **EDB** in question at the time that **EDB** submitted its **CPP proposal**, would have been unforeseeable to a prudent **EDB**.
- (2) For the purpose of subclause (1), the total capex forecast and opex forecast of the projects or programmes proposed to the Commission pursuant to clause 5.6.7(8) must exceed 10% of the value of the EDB's annual revenue in the most recently completed disclosure year in respect of an ID determination.

5.6.7 <u>When price-quality paths may be reconsidered</u>

- (1) The price-quality path may be reconsidered if-
 - (a) the Commission considers; or
 - (b) the EDB in question satisfies the Commission, upon application,

that subclauses (2), or (5) applies.

(2) This subclause applies if-

- (a) subject to subclause (3), a catastrophic event has occurred;
- (b) a **change event** has occurred;
- (c) there has been an error event;
- (d) a major transaction has occurred; or
- (e) there has been a **WACC change**.
- (3) For the purpose of subclause (2)(a), where the costs to rectify the adverse consequences of the **catastrophic event** are fully covered by-
 - (a) the **CPP** (*e.g.* through an **operational expenditure** allowance for self-insurance); or
 - (b) commercial insurance held by the **EDB**,

the **Commission** will only reconsider the quality standards of the **CPP**.

- (4) For the purpose of subclause (2)(e), a 'WACC change' occurs when-
 - (a) a **67th percentile estimate of WACC** has been determined and published in accordance with clause 4.4.6 for a new **DPP regulatory period**; and
 - (b) the new **DPP regulatory period** commences within the current **CPP** regulatory period.
- (5) This subclause applies if-
 - (a) false or misleading information relating to the making or amending of a **CPP determination** has been knowingly-
 - (i) provided by an EDB, any of its agents or a verifier to the Commission; or
 - (ii) disclosed pursuant to an ID determination; and
 - (b) the **Commission** relied on that information in making a **CPP** determination.
- (6) The price-quality path may be reconsidered by the **Commission** if an **EDB** satisfies it, upon application, that-
 - (a) a **trigger event** has occurred and the information set out in subclause (7) has been provided to the **Commission**; or
 - (b) an unforeseen project-
 - (i) has commenced and the information set out in subclause (8) has been provided to the **Commission**; or
 - (ii) is committed during the current CPP regulatory period and the information set out in subclause (8) has been provided to the Commission.
- (7) The **Commission** need not consider an application under subclause (6)(a) unless the **EDB** has provided it with-
 - (a) a written statement from no fewer than 2 of the **EDB's directors** certifying-

- (i) that the **trigger event** has occurred;
- (ii) full particulars of the occurrence; and
- (iii) the date or dates on which it occurred;
- (b) detailed cost information relating to proposed expenditure on the **contingent project** for its duration; and
- (c) any other information of relevance to the **contingent project** required by the **Commission**.
- (8) The **Commission** need not consider an application under subclause (6)(b) unless the **EDB** has provided it with-
 - (a) information demonstrating that the **project** or **programme** is an **unforeseen project**;
 - (b) detailed cost information relating to proposed expenditure on the **unforeseen project** for its duration; and
 - (c) any other information of relevance to the **unforeseen project** required by the **Commission**.

5.6.8 Amending price-quality path after reconsideration

- (1) Where, after reconsidering a **CPP**, the **Commission** determines that the **CPP** should be amended, the **Commission** may amend either or both of the price path or the quality standards and quality incentive measures specified in the **CPP determination**, subject to subclause (3).
- (2) In determining the extent of any amendment to the price path, the **Commission** must take into account the **expenditure objective**.
- (3) The **Commission** must not amend the-
 - (a) price path more than is reasonably necessary to take account of the change in costs net of any insurance or compensatory entitlements; and
 - (b) quality standards or quality incentive measures more than are reasonably necessary to reflect the **Commission's** decision on a **quality standard variation** or mitigate the effect of-
 - (i) the catastrophic event;
 - (ii) the change event;
 - (iii) the error event;
 - (iv) the major transaction;
 - (v) the provision of **false or misleading information**;
 - (vi) the contingent project;
 - (vii) the unforeseen project; or
 - (viii) the WACC change,

as the case may be.

(4) Where the **Commission's** reconsideration of the price-quality path was-

- (a) triggered by a catastrophic event, in determining the extent of the amendment to the price-quality path, the Commission will consider the extent to which an EDB has demonstrated that it has reviewed its capital expenditure and operating expenditure plans for the remainder of the regulatory period and made such substitutions as is possible without adversely affecting its ability to meet its quality standards;
- (b) pursuant to the occurrence of an unforeseen project-
 - the Commission need not amend the CPP unless the amount of required capex and opex determined by the Commission exceeds 10% of the value of the EDB's annual revenue in the relevant disclosure year for the purpose of clause 5.6.6(2);
 - (ii) any such amendment may not take effect until the disclosure year in which assets constructed as part of the relevant unforeseen project are forecast to be commissioned; and
- (c) pursuant to the occurrence of a trigger event, any amendment to the CPP may not take effect until the disclosure year in which assets constructed as part of the relevant contingent project are forecast to be commissioned.
- (5) Where the Commission's reconsideration of the price-quality path was triggered by a WACC change, the Commission will for the remaining disclosure years of the CPP regulatory period after the WACC change:
 - (a) determine the series of maximum allowable revenue after tax in accordance with clause 5.3.4(7) and determine any consequential changes to the forecast net allowable revenue for the remaining disclosure years of the CPP regulatory period; and
 - (b) for the purpose of (a), use-
 - (i) the building blocks allowable revenue before tax calculated in accordance with clause 5.3.2(1);
 - (ii) the revised WACC in clause 5.3.22(2), including where the WACC is used for present value calculations, and for timing factors in clause 5.3.2(4);
 - (iii) the forecast CPI for DPP revaluation for the new DPP regulatory period referred to in clause 5.6.7(4)(b), to calculate a revised revaluation rate in accordance with the method in clause 5.3.10(4);
 - (iv) the cost of debt for the new DPP regulatory period referred to in clause 5.6.7(4)(b), to calculate a revised notional deductible interest as specified in clause 5.3.16(2);
 - (v) subject to (ii) to (iv), the same input values as applied by the
 Commission in initially determining the CPP for all other input values in the calculation of building blocks allowable revenue before tax; and

(vi) a revised forecast regulatory taxable income to apply the changes in building blocks allowable revenue before tax resulting from (i) to
 (iii) in a revised forecast regulatory tax allowance.

SCHEDULE D CAPITAL AND OPERATING EXPENDITURE INFORMATION

D1 Interpretation

In this schedule and in Schedules E-G, words in bold type bear the following meanings:

actual capex means the capex incurred during the current period;

actual opex means the opex incurred during the current period;

asset management plan means an asset management plan included in the CPP proposal and prepared in accordance with the requirements of the most recent ID determination, where the first year of the planning period to which the asset management plan relates is the final year of the assessment period;

asset relocations capex means expenditure on assets where the **primary driver** is the need to relocate assets due to third party requests such as for the purpose of allowing road widening or similar needs. This includes expenditure on assets relating to the undergrounding of previously above ground assets at the request of a third party;

asset replacement and renewal capex or asset replacement and renewal opex means capex or opex where the primary driver is the need to maintain network asset integrity so as to maintain current security and/or quality of supply standards and includes expenditure to replace or renew assets incurred as a result of-

- (a) the progressive physical deterioration of the condition of **network** assets or their immediate surrounds;
- (b) the network assets becoming obsolete;
- (c) preventative replacement **programmes**, consistent with asset lifecycle management **policies**; or
- (d) the need to ensure the ongoing physical security of the **network** assets;

budget means an expenditure forecast that has been prepared for a purpose other than for inclusion in a **CPP proposal**;

business support opex means **opex** associated with the following corporate activities-

- (a) human resources and training (other than operational training);
- (b) finance and regulation including compliance activities, valuations and auditing;
- (c) chief executive and director costs;

- (d) legal services;
- (e) consulting services (excluding engineering/technical consulting);
- (f) property management;
- (g) corporate communications;
- (h) corporate information technology;
- (i) industry liaison and participation;
- (j) commercial activities including pricing, billing, revenue collection and marketing; and
- (k) liaison with Transpower, consumers and electricity retailers;

capex category means one of the categories in the following list which comprises, for the purpose of a **CPP proposal**, a classification of the types of **capex** that **EDBs** make when providing **electricity distribution services** to **consumers** and **capex categories** means all of the following categories:

- (a) consumer connection capex;
- (b) system growth capex;
- (c) reliability, safety and environment capex;
- (d) asset replacement and renewal capex;
- (e) asset relocations capex; and
- (f) non-system fixed assets capex;

consumer connection capex means **capex** where the **primary driver** is the establishment of a new **consumer** connection point, or alterations to an existing **consumer** connection point. This includes expenditure relating to-

- (a) parts of the **network** for which the expenditure is recoverable in total, or in part, by a **capital contribution** from the **consumer** requesting the new or altered connection point; and
- (b) both electricity injection and offtake points of connection;

deliverability means the extent to which the activities to which the **capex forecast** and **opex forecast** relate are likely to be undertaken by the **EDB** during the **next period** with reference to the **EDB's** ability to-

 (a) source and secure physical resources (such as appropriately skilled personnel and materials) and planning consents from external authorities; and (b) prioritise, manage and undertake the work involved, including the ability to implement any planned step change from historical levels of investment and workload;

document means correspondence, notices, circulars, memoranda, minutes, reports, **policies**, contracts or agreements in the possession or control of the **EDB**, whether in electronic or paper format;

key assumptions means assumptions made by an **EDB** in the preparation of its proposal that have a material impact on the **opex forecast** or the **capex forecast**;

non-system fixed assets capex means **capex** incurred in relation to assets not directly related to the **network** used in the **supply** of **electricity distribution services**, including in relation to-

- (a) information and technology systems;
- (b) asset management systems;
- (c) office buildings, depots and workshops;
- (d) office furniture and equipment;
- (e) motor vehicles; and
- (f) tools, plant, and machinery;

obligation means a legally enforceable duty owed by an **EDB**, whether arising under legislation, at common law or in contract, but excludes a contractual obligation commencing after this determination takes effect;

opex category means one of the categories in the following list which comprises, for the purpose of a **CPP proposal**, a classification of the types of **opex** that **EDBs** make when providing **electricity distribution services** to **consumers**, and **opex categories** means all of the following categories:

- (a) **business support opex**;
- (b) system operations and network support opex;
- (c) routine and corrective maintenance and inspection opex;
- (d) vegetation management opex;
- (e) asset replacement and renewal opex; and
- (f) service interruptions and emergencies opex;

other opex means opex that is not captured by the other opex categories;

planning standards means **policies** adopted by the **EDB** which relate to the planning of the **network** and the forecasting of **capex** and **opex** for that purpose, including in relation to-

- (a) long term **network** development;
- (b) **network** maintenance; and
- (c) system operations;

policies means documented short-term and long-term policies, procedures, strategies, guidelines and plans used to prepare the **CPP proposal**;

primary driver means the primary reason for a decision to incur a cost in the year the cost was incurred or forecast to be incurred;

reliability, safety and environment capex means capex predominantly associated with-

- (a) the improvement of reliability or service standards;
- (b) maintaining or improving the safety of the network for consumers, employees and the public;
- (c) meeting legislative requirements; or
- (d) reducing the impact of the network on the environment;

routine and corrective maintenance and inspection opex means **opex** where the **primary driver** is the activities specified in planned or programmed inspection, testing and maintenance work schedules and includes-

- (a) fault rectification work that is undertaken at a time or date subsequent to any initial fault response and restoration activities;
- (b) routine inspection;
- (c) functional and intrusive testing of assets, plant and equipment including critical spares and equipment;
- (d) helicopter, vehicle and foot patrols, including negotiation of landowner access;
- (e) asset surveys;
- (f) environmental response;
- (g) painting of **network** assets;
- (h) outdoor and indoor maintenance of substations, including weed and vegetation clearance, lawn mowing and fencing;
- maintenance of access tracks, including associated security structures and weed and vegetation clearance;
- (j) customer-driven maintenance; and
- (k) notices issued;

service interruptions and emergencies opex means opex where the primary driver is an unplanned instantaneous event or incident that impairs the normal operation of **network** assets. This relates to reactive work (either temporary or permanent) undertaken in the immediate or short-term in response to an unplanned event, including-

- (a) back-up assistance required to restore supply;
- (b) repair leaks or make safe;
- (c) operational support such as mobile generation used during the outage or emergency response; and
- (d) includes any necessary response to events arising in the transmission system;

service level means the magnitude of a service measure;

service measure means an objectively measurable characteristic or feature of a level of performance being delivered;

system fixed assets means all fixed assets owned, provided, maintained, or operated by an **EDB** that are directly related to the **network** and used, or intended to be used, for the **supply** of **electricity distribution services**;

system growth capex means capex other than consumer connection capex, where the primary driver is either a requirement for additional capacity at a particular location or a change in the requirement for electricity distribution services as a result of the introduction of new or emerging technologies. It includes expenditure associated with network protection, control, automation, and telecommunications assets and also includes expenditure on the acquisition of **networks** from other providers of electricity lines services;

system operations and network support opex means **opex** where the **primary driver** is the management of the **network** and includes expenditure relating to control centre and office-base system operations, including-

- (a) asset management planning including the preparation of the asset management plan, load forecasting and network modelling;
- (b) network and engineering design (excluding design costs capitalised for capex projects);
- (c) **network** policy development (including the development of environmental, technical and engineering policies;
- (d) standards and manuals for **network** management;
- (e) **network** record keeping and asset management databases including geographic information systems;

- (f) outage recording;
- (g) connection and consumer records/consumer management databases (including distributed generators);
- (h) stakeholder queries and call centres (not associated with billing);
- (i) operational training for **network** management and field staff;
- (j) operational vehicles and transport;
- (k) information technology and telecommunications for network management (including information technology support for asset management systems);
- day to day consumer management including responding to queries on new connections, disconnections, reconnections and distributed generators;
- (m) engineering and technical consulting;
- (n) **network** planning and system studies;
- (o) logistics (procurement) and stores; and
- (p) network asset site expenses and leases;

vegetation management opex means **opex** where the **primary driver** is the need to physically fell, remove or trim vegetation (including root management) that is in the proximity of overhead lines or cables. It includes **opex** arising from the following activities-

- (a) inspection of affected lines or cables where the inspection is substantially or wholly directed to vegetation management (e.g., as part of a vegetation management contract). It includes pre-trim inspections as well as inspections of vegetation cut for the primary purpose of ensuring the work has been undertaken in an appropriate manner;
- (b) liaison with landowners including the issue of trim/cut notices, and followup calls on notices; and
- tree felling or trimming of vegetation to meet externally imposed requirements or internal policy, including operational support such as any mobile generation used during the activity;

The following activities and related costs are excluded from this category-

- (d) general inspection of assets subject to vegetation, where this is not substantially directed to vegetation management (included in routine and corrective maintenance and inspection opex);
- (e) costs of assessing and reviewing the vegetation management policy;
- (f) data collection; and

(g) the cost of managing a vegetation management contract;

D2 Instructions relating to provision of information

- (1) A CPP proposal must-
 - (a) include all information required in-
 - (i) Attachment A of the **ID determination** or any successor to that Attachment A, except where limited by subclause (5); and
 - (ii) this schedule;

unless the **Commission** has approved a modification or exemption from the **CPP application** requirements under clause 5.1.6 and has included the relevant information related to the exemption or modification as set out in clause 5.1.8;

- (b) contain a table that, in respect of each clause of this schedule-
 - (i) provides a reference to the place where, in the **CPP proposal**, a response is provided; and
 - (ii) gives the title and page reference to any separate document identified in response, including in the case where the document in question is provided in the CPP proposal.
- (2) Where information provided in accordance with these requirements differs from the most recent information provided by the **EDB** to the **Commission** in accordance with any obligation under Part 4 of the **Act**, a **CPP proposal** must-
 - (a) identify the differences; and
 - (b) give reasons for such differences.
- (3) Where information required by this schedule is omitted from a **CPP proposal**, the **CPP proposal** must contain an explanation for each such omission.
- (4) A CPP applicant may comply with subclause (1) by-
 - (a) reproducing and providing its **asset management plan** with the additional material required by this schedule included; or
 - (b) providing the information required by this schedule separately from its **asset management plan**.
- (5) For the purpose of subclause 3.4 of Attachment A of the ID determination, additional information required to be included in the CPP proposal need only apply to the-
 - (a) **current period**;
 - (b) assessment period; and

- (c) next period.
- (6) Detailed information described in clause D10 in relation to identified programmes-
 - (a) need only be provided to the **verifier** upon the **verifier's** request; and
 - (b) where provided under (a), must be included in the **CPP proposal** as provided to the **Commission** in the **CPP application**.

D3 Governance, organisation structure and business processes

- (1) In addition to the information required by clause 3.7 of Attachment A of the **ID determination**, provide-
 - the current organisational structure of the EDB and a description of any separate organisation used to manage capex and opex;
 - (b) the number of full time equivalent employees, employed by the applicant, broken down by business units;
 - an explanation of the arrangements for undertaking system operations and network support activities, and the extent that these functions are centralised and outsourced;
 - (d) where any cost is shared with organisational activities that do not involve providing regulated **electricity distribution services**, the basis on which these costs have been allocated and included in the forecast; and
 - (e) a description of any anticipated changes during the **next period** to the organisational structure.
- (2) In addition to the information required by clause 3.12 of Attachment A of the ID determination-
 - (a) provide a commentary on the sources of asset management information; and
 - (b) other relevant data that has been relied upon in preparing the forecasts, including-
 - (i) a description of the quality of this information and data; and
 - (ii) details of any assumptions that have been made to fill any information or data gaps.
- (3) In addition to the information required by clause 3.13 of Attachment A of the ID determination, describe the procedures and processes used by the EDB to-
 - (a) plan and develop;
 - (b) estimate the cost of;

- (c) approve;
- (d) implement; and
- (e) monitor;

the **capex** and **opex projects** and **programmes** described in the **CPP proposal**, and develop unit costs.

- (4) In addition to the information required by clause 3.7 of Attachment A of the **ID determination** provide-
 - (a) an overview of any internal challenge, review and approval process applied before the forecasts were finalised for inclusion in the **CPP proposal**;
 - (b) a statement as to whether or not the forecast includes provision for efficiency improvements over time and, if so, a description of how this provision is reflected in the forecasts; and
 - (c) a statement of how the approval process treats the risks on cost estimates and timing of projects due to deviations of forecast assumptions.

D4 Network asset information

In relation to the information required by clause 4 of Attachment A of the **ID determination**-

- (a) where information is based on estimates, this must be explicitly stated; and
- (b) quantities of assets must be presented in a way that clearly describes the size and scope of regulated assets, but need not include detailed lists or schedules as would be included in a complete asset register or inventory.

D5 Service levels

Where not included in information provided in respect of clause 5 of Attachment A of the **ID determination**, provide-

- (a) a description as to how each performance indicator and performance target described in accordance with clause 5 of Attachment A of the ID determination-
 - (i) relates to the **EDB's** relevant **policies**; and
 - (ii) reflects the **expenditure objective**;
- (b) for each performance indicator identified and defined in accordance with subclause (a):
 - (i) the measured performance for each year of the **current period**; and
 - (ii) the target performance for each year of the **next period**;

(c) a comparison and evaluation of each actual service level achieved for the disclosure years in the current period against each relevant performance target, including explanations for all significant variances.

D6 Network development planning

- The description of network development plans required in clause 11 of Attachment A of the **ID determination** must include the additional information specified in this clause.
- (2) For system growth capex, consumer connection capex, asset relocation capex and reliability, safety and environment capex-
 - (a) identify all relevant documents, **policies** and consultants' reports that were taken into account in preparing these **capex forecasts;** and
 - (b) where appropriate, identify their relevance to each category of **capex**.
- (3) In addition to the information required by clauses 11.1-11.6 of Attachment A of the ID determination, provide the rationale for the planning criteria and other key drivers and assumptions for network development for system growth capex, consumer connection capex, asset relocation capex and reliability, safety and environment capex.
- (4) In addition to the information required by clause 11.7 of Attachment A of the ID determination, provide the rationale for the prioritisation process and criteria.
- (5) In addition to the information on demand forecasts required by clause 11.8 of Attachment A of the **ID determination**-
 - (a) describe and explain the methodology used to prepare the relevant forecasts, including-
 - (i) any sensitivity analysis undertaken;
 - (ii) any weather normalisation methodology used and how weather data has been used; and
 - (iii) the models used (including each model's key inputs and assumptions); and
 - (b) provide-
 - an outline of the treatment of very large loads, uncertain loads and significant loads transferred, or expected to be transferred, between different parts of the **network** (e.g. between zone substations and/or between feeders);

- details of the location, types and aggregate levels of any distributed generation and assumptions relating to the impact they may have on network forecasts; and
- (iii) details of the effect that any demand management systems or initiatives and any other new or emerging technologies may have on the **network** forecasts and the extent that they have been included in the forecasts in the **CPP proposal**.
- (6) For the forecasts of **consumer** connections, embedded generation and electricity volumes provided in the relevant templates in Schedule E-
 - (a) describe and explain the methodology used to prepare the relevant forecasts including-
 - (i) any sensitivity analysis undertaken;
 - (ii) any weather normalisation methodology used and how weather data has been used; and
 - (iii) the models used (including each model's key inputs and assumptions);
- (7) In addition to the information required by clause 11.9 of Attachment A of the **ID determination**, provide-
 - (a) for system growth capex, a description of, and the rationale for, the planning standards, and key assumptions relied on by the EDB in determining the need to augment its network;
 - (b) for reliability, safety and environment capex, a description of any models developed by or for the EDB to determine the reliability, safety and environment capex including the rationale for all key input assumptions; and
 - (c) for consumer connection capex and asset relocation capex-
 - (i) key assumptions and a list of policies relevant to apportioning costs, where costs are not fully recovered from a capital contribution;
 - (ii) the rationale and basis for determining the forecast amount, including a description of any modelling used; and
 - (iii) provide this information separately for **consumer connection capex** and for **asset relocation capex**.
- (8) In addition to the information required in clause 11.10 of Attachment A of the ID determination, for each system growth capex project and programme included in the capex forecast provide-

- (a) a description of the **project** or **programme**, including the assumed number and ratings of significant new assets and, where appropriate, a single-line diagram showing how it is assumed that the assets will be integrated into the existing network;
- (b) the estimated cost of the project or programme, disaggregated by disclosure year, including costs already incurred in the current period; and
- (c) details of the effect any new or emerging technologies may have and the extent that they have been considered.
- (9) In addition to the information required in clause 11.10 of Attachment A of the ID determination, for each reliability, safety and environment capex project and programme included in the capex forecast provide-
 - (a) a description of the **project** or **programme** including the assumed number and ratings of significant new assets;
 - (b) a discussion of key assumptions and the rationale for making those assumptions;
 - a description of models used and key input assumptions and data sources, including a discussion of relevant data systems and any limitations in the data;
 - (d) an indication of the **project's** or **programme's** current status in the planning process; and
 - (e) the estimated cost of the **project** or **programme**, disaggregated by **disclosure year**, including costs already incurred in the **current period**.
- (10) In addition to the information required in clause 11.10 of Attachment A of the ID determination, for any consumer connection capex and asset relocation capex project and programme, provide a description and the estimated costs of any specific project or programme included in the forecast.
- (11) In addition to the information required by clause 11.12 of Attachment A of the ID determination, and, where not provided in response to subclause (2), identify the EDB's policies regarding the application of new or emerging technologies.

D7 Lifecycle asset management planning (maintenance and renewal)

- (1) The description of Lifecycle Asset Management Planning required in clause 12 of Attachment A of the **ID determination** must include the additional information specified in this clause.
- (2) In addition to information required by clauses 3.13 and 3.14 of Attachment A of the ID determination, describe the organisation that the EDB uses to manage network maintenance and associated expenditure, including the physical

arrangements for undertaking these activities and the extent that these functions are centralised and outsourced.

- (3) In addition to the information required by clauses 12.1 and 12.2 of Attachment A of the ID determination, for each of service interruptions and emergencies opex, vegetation management opex and routine and corrective maintenance and inspection opex describe the approach used to prepare the expenditure forecast and provide-
 - (a) details and a rationale for each relevant key assumption;
 - (b) a description of any models used;
 - (c) a description of any new expenditure or forecast changes to the level of expenditure on existing network **opex programmes** over the course of the **next period** that will have a material effect on the network **opex forecast**, including-
 - (i) the rationale for and timing of these changes;
 - (ii) an assessment of the impact of these changes on the service levels provided by the EDB; and
 - (iii) the impact of these changes on the **opex forecast**.
- (4) Identify all relevant documents, policies and consultants' reports that were taken into account in preparing the forecasts of service interruptions and emergencies opex, vegetation management opex and routine and corrective maintenance and inspection opex;
- (5) In addition to the information required by clause 12.3 of Attachment A of the ID determination, for asset replacement and renewal capex and asset replacement and renewal opex provide-
 - (a) a description of the criteria used to determine whether the expenditure is **capex** or **opex**; and
 - (b) a description of the prioritisation methodology adopted for asset replacement **projects** and **programmes**.
- (6) Identify all relevant documents, **policies** and consultants' reports that were taken into account in preparing the forecasts of **asset replacement and renewal capex** or **asset replacement and renewal opex**;
- (7) In addition to the information required by subclauses 12.3.3 12.3.5 of Attachment A of the ID determination, for each asset replacement and renewal capex or asset replacement and renewal opex project and programme provide-
 - (a) a description of and the rationale for the projects and programmes;

- (b) where relevant, an overview of any network and non-network alternatives considered and the basis for selecting the preferred solution;
- (c) an indication of the project's or programme's current status in the planning process;
- (d) the actual and forecast expenditure on each project or programme described in subclause (a) disaggregated by regulatory year in both the current period and the next period; and
- (e) a description of the methodology used by the EDB to determine the forecast expenditure over the next period on the projects or programmes described in subclause (a) including where applicable-
 - the key assumptions and the rationale for the key assumptions and policies;
 - (ii) any relevant modelling and the rationale for material model input assumptions; and
 - (iii) a commentary on the source of the unit costs or components of cost, the accuracy of the cost estimates and the treatment of cost uncertainty where there are not explicitly stated elsewhere.
- (8) For an asset replacement and renewal capex project provide-
 - (a) assumed number and ratings of significant new assets; and
 - (b) a single-line diagram showing how the **project** will be integrated into the existing network for **projects** involving a redesign of asset layout.
- (9) Explain how any anticipated system growth associated with the replacement of assets before the end of their asset life has been taken into account in the asset replacement and renewal capex forecast for the next period.

D8 Non-system fixed assets capital expenditure information

- (1) In addition to the information required by clause 13 of Attachment A of the ID determination, for non-network fixed assets capex in the capex forecast provide the rationale and the basis for determining the forecast amount, including a description of any modelling used for the expenditure in the largest two of the following expenditure categories by dollar value-
 - (a) asset management systems;
 - (b) information and technology systems;
 - (c) motor vehicles;
 - (d) office buildings, depots and workshops;
 - (e) office furniture and equipment; and

- (f) tools, plant and machinery.
- (2) The information required by subclause (1) need not be provided if the total nonnetwork assets **capex forecast** is less than 5% of the total **capex forecast**.

D9 Business support, system operations and network support operating expenditure

- (1) Provide sufficient details of the extent that business support and system operations and network support costs have been included in the capex forecast for each disclosure year of both the current period and next period.
- (2) Identify all relevant documents, **policies** and consultants' reports that were taken into account in preparing these **opex forecasts**.
- (3) Describe any anticipated material changes to the information provided in subclause (1) over the course of the **next period** and discuss-
 - (a) the rationale for and timing of the changes; and
 - (b) the impact of the changes on the **opex forecast**.
- (4) Describe the approach used to prepare the relevant opex forecast including-
 - (a) each relevant key assumption including the rationale for the assumption;
 - (b) any models used; and
 - (c) the rationale for any new expenditure or step change from current levels of expenditure over the **next period**.
- (5) Where appropriate, the information required by this clause should be provided separately for **business support opex** and for **system operations and network support opex**.

D10 Identified programmes

- Where not already required to be disclosed by Attachment A of the ID determination, for each identified programme provide-
 - (a) a description of the project or programme including-
 - (i) what the **project** or **programme** will accomplish;
 - the location of the project or, if relevant, the location of the programme;
 - (iii) assumed quantities and ratings of major assets, including the rationale for these assumptions;
 - (iv) where relevant, a high-level single-line diagram showing the assumed layout of the project and interfaces with the existing network; and

- (v) any other information consistent with the nature of the project or programme that is necessary to fully describe the scope of the project and what is involved in its implementation;
- (b) a description of the rationale for the **project** or **programme** including-
 - (i) the extent that the **project** or **programme** meets the **expenditure objective**; and
 - (ii) the impact of not progressing within the **CPP regulatory period**;
- a statement as to the project's or programme's current status in the planning process;
- (d) an overview of potential alternatives, including non-network alternatives, and the basis for selecting the preferred option with the information provided to be commensurate with the **project's** or **programme's** current status in the planning process;
- the rationale for the proposed timing of the project or, where relevant, the rational for the proposed timing of the programme;
- (f) where applicable, an assessment of the impact of the project or programme on the service levels provided by the EDB;
- (g) if a programme is a continuation or extension of an existing programme, the rationale for any material changes in the forecast expenditure from the level of expenditure on the programme during the current period;
- (h) a detailed breakdown of the estimate of the project or programme costs, disaggregated by disclosure year, including a similar breakdown of any project or programme costs incurred during the current period;
- (i) in addition to the breakdown provided in response to subclause (f)-
 - (i) a description of the methodology used to prepare the estimate;
 - (ii) where applicable, the quantities provided for in the project or programme cost; and
 - (iii) identification of scope or cost uncertainties and an explanation of how such uncertainties have been taken into account in the estimate;
- details of how the EDB proposes to measure and manage the efficiency of the implementation of the project or programme; and
- (k) a description of any cost benefit analyses relevant to the project or programme undertaken by or for the EDB.

D11 Risk management

- (1) In addition to the information required by clause 14.3 of Attachment A of the **ID determination**, for any proposed self-insurance allowance-
 - (a) provide-
 - (i) a description of the uncertainties covered by the allowance;
 - (ii) the methodology used to calculate the self-insurance risk premium (e.g. probability multiplied by consequence);
 - (iii) a report on the calculation of each self-insurance risk premium from an actuary who is qualified to provide such advice; and
 - (iv) any quotes obtained from external insurers; and
 - (b) explain why compensation should be provided for the uncertainty.
- (2) In respect of each quote provided in accordance with subclause (1)(a)(iv)-
 - (a) state
 - the amount insured for which the quote related (if not included in the quote itself);
 - (ii) the annual premium payable or paid by the EDB;
 - (iii) the size of any deductible;
 - (iv) the terms and conditions of the insurance; and
 - (v) why it is not considered suitable.
- (3) Explain whether and, if so, how the costs of remediating the effects of each uncertainty for which the allowance is sought may be recovered through any other mechanism.

D12 Related parties

- Identify and describe all related parties in respect of whom costs are disclosed for the last disclosure year of the current period, and relationships with those related parties.
- (2) Describe, at an aggregate level, the-
 - (a) nature of the **services** undertaken by all **related parties** in the last year of the **current period**; and
 - (b) processes for procuring services undertaken by related parties, or by anticipated related parties, during the last year of the current period and the assessment period.
- (3) For services identified in subclause (2), describe-

- (a) whether similar **services** are expected to be provided by **related parties**, or by anticipated **related parties**, during the **next period**;
- (b) whether any additional services are expected to be provided by related parties, or by anticipated related parties, during the CPP regulatory period; and
- (c) the basis for establishing the **related party** transaction values for the purpose of the **capex forecast** and the **opex forecast**.
- (4) Describe the nature of the contract for any periodic **services**, including the duration of any such contract.
- (5) For each **service** identified in accordance with subclause (2), provide an example of-
 - (a) any tendering process used to procure the **service**;
 - (b) relevant documents used to tender for the provision of the service, including, but not limited to, requests for tender, and tender submissions;
 - (c) explain-
 - whether the service procured are provided under a discrete contract or provided as part of a broader operational contract (or similar); and
 - (ii) whether the **service** was procured on a genuinely competitive basis and if not, why not; and
 - (d) methodologies, consultants' reports, or **key assumptions** used to determine components of the costs included in the contract price.

D13 Deliverability

- (1) In addition to clauses 14 and 16 of Attachment A of the ID determination provide an overview of, and description of outputs from, any deliverability risk assessment that the EDB has completed for part or all of the capex forecast and the opex forecast.
- (2) Where it has not been provided in risk assessment information under subclause (1), provide an overview of the EDB plans to ensure the **deliverability** of the activities provided for in the **capex forecast** and the **opex forecast**, with particular reference to-
 - (a) a description of the prioritisation or other methodologies used to optimise delivery;
 - (b) how consenting processes are managed to optimise delivery;

- the extent that the activities provided for in the capex forecast and the opex forecast will be undertaken internally or outsourced;
- (d) the **EDB's** ability to implement any planned step change from historical levels of expenditure and workload, including-
 - the ability of contractors available to the EDB to deliver any proposed increase in workload;
 - (ii) the current level of skilled personnel, including engineering and project management personnel, available to the EDB compared to the anticipated requirement over the next period; and
 - (iii) the measures the **EDB** plans to take to source and secure required additional personnel; and
- (e) how the **EDB** aligns resource schedules where shared resources are used for different opex-related and capex-related tasks.

D14 Unit costs and expenditure escalators

- Explain the methodologies applied to convert constant price capex forecast and opex forecast to the nominal price capex forecast and opex forecast.
- (2) Explain why the methodologies applied, each **key assumption**, and the resulting quantum are reasonable.
- (3) For each **key assumption**, including unit rates, indexes, weightings, and contingency factors-
 - (a) identify-
 - (i) the key assumption;
 - (ii) source material from which it was derived; and
 - (iii) the components of expenditure to which it applies; and
 - (b) explain-
 - (i) how it has been applied in the **capex forecast** and **opex forecast**;
 - the quantum of costs in the capex forecast and opex forecast resulting from the application of the key assumption; and
 - (iii) whether, and if so, how the key assumption relates to capex and opex incurred during the current period.

D15 Contingent project information

- (1) For each proposed contingent project-
 - (a) provide-

- (i) an overall description including the aims and objectives of the project;
- (ii) completed **regulatory templates** for **capex** and **opex forecasts** using the best available information to hand; and
- (iii) information as to how the **project** satisfies the criteria specified in clause 5.6.5(2);
- (b) propose a **trigger event** and explain how the event meets the requirements of clause 5.6.5(3);
- (c) provide-
 - all relevant documents (including **policies** and consultants' reports) that were taken into account in preparing the **capex forecast** and **opex forecast** for the **contingent project**, including those that relate to its **deliverability**;
 - (ii) each relevant key assumption; and
 - (iii) each relevant **obligation**;
- (d) explain-
 - (i) all departures from any conclusions and recommendations contained in each consultant's report identified in accordance with subclause (c)(i); and
 - the methodology used to generate the capex and opex forecast for the proposed contingent project;
- (e) explain for each **policy** identified in response to subclause (c)(i)-
 - (i) how it was taken into account and complied with; and
 - (ii) how the relevant planning standards were incorporated; and
- (f) describe for each **key assumption** identified in accordance with subclause (c)(ii)-
 - (i) the method and information used to develop the assumption; and
 - (ii) how it has been applied and its effect on the **capex** and **opex**.
- (2) Where any proposed contingent project is likely to terminate after the end of the next period, in addition to the information required by subclause (1), provide any additional information relevant to forecast capex and forecast opex to the end of the contingent project.

SCHEDULE F ENGAGEMENT OF A VERIFIER

F1 Proposing a verifier

Before submitting a **CPP proposal**, a **CPP applicant** must, by notice in writing to the **Commission**-

- (a) propose a **person** (or a selection of **persons** for the **Commission** to choose from) to act as a **verifier**; and
- (b) provide the information specified in clauses F2 and F3 in respect of each proposed verifier.

F2 Independence

- (1) Reasons why the **CPP applicant** considers that each proposed verifier is **independent**.
- (2) A written statement signed by the proposed verifier-
 - (a) confirming that-
 - his, her or its involvement in the formulation of the CPP proposal has not extended <u>andnor</u> will not extend beyond acting in accordance with Schedule G;
 - (ii) he, she or it has not acted <u>andnor</u> will not act as an **auditor** pursuant to clause 5.5.3 in respect of the **CPP proposal**; and
 - (iii) he, she or it has no direct or indirect pecuniary or other interest in the success or failure of the CPP proposal, including any entitlement to a success fee, contingency fee, or remuneration other than a fee for providing a verification report; and
 - (b) explaining the extent of any-
 - (i) ongoing role he, she or it has as auditor of, or advisor to, the CPP applicant, (on matters unrelated to the CPP proposal) including any advisory activities which the verifier may expect to undertake for the CPP applicant during the next period in relation to the CPP applicant's capex and opex and the existing or expected basis of remuneration for such activities; and
 - (ii) prior or existing relationship (whether professional or otherwise) that he, she or it has had with the CPP applicant during the current period in relation to the CPP applicant's capex and opex and the basis of remuneration for such activities.

F3 Qualifications and experience

- (1) Reasons why the CPP applicant considers that each proposed verifier is sufficiently qualified and experienced to assess and report on the CPP proposal in accordance with the tasks and duties specified in Schedule G.
- (2) A written statement signed by each proposed verifier explaining the nature and extent of his, her or its qualifications and experience relevant to assessing and reporting on the **CPP proposal** in accordance with the tasks and duties specified in Schedule G.

F4 Commission's assessment

- (1) The **Commission** must notify the **CPP applicant** no later than 10 **working days** after receiving a notification in accordance with clause F1 as to whether it approves the proposed verifier.
- (2) If the **Commission** does not approve a proposed verifier-
 - (a) it must provide reasons for this decision; and
 - (b) the **CPP applicant** may propose an alternative verifier in accordance with clause F1.
- (3) If the **Commission** approves a proposed verifier, the **CPP applicant** may engage that person, as soon as practicable, in accordance with clause F6.
- (4) The **Commission's** approval of a proposed verifier remains valid until the **Commission** has completed its assessment of the **CPP proposal**.

F5 Summary of intended CPP proposal

- (1) Before the verifier enters into a deed with the Commission as described in clause F6, the CPP applicant must provide the Commission with a high-level summary of the intended CPP proposal ('Summary of intended CPP proposal'), including-
 - (a) a high-level description of its rationale for seeking a CPP and a brief explanation of the key projects or programmes that are linked to this rationale;
 - (b) when it proposes the intended CPP proposal to take effect as a CPP;
 - (c) its estimated capex forecast and estimated opex forecast for the intended CPP proposal;
 - (d) the indicative impact on prices of the intended CPP proposal;

- (e) whether it intends to propose a quality standard variation as part of its intended CPP proposal and, if so, the indicative impact on quality standards of the intended quality standard variation;
- (f) how it intends to consult consumers on the intended CPP proposal; and
- (g) any other information it considers would assist the **Commission's** planning for the **Commission's** assessment of the intended **CPP proposal**.
- (2) With the agreement of the **Commission**, the requirements in subclause (1) may be satisfied by way of the record of a workshop with the **Commission**.

F6 Engaging the verifier

- (1) If the **Commission** approves a proposed verifier, the approved **person** may not undertake any service in relation to the **CPP applicant's CPP proposal** unless it has entered into a deed with the **Commission**.
- (2) For the purpose of subclause (1), terms of the deed must-
 - (a) require the CPP applicant to-
 - (i) provide the **verifier** with the information specified in and in accordance with clause 5.5.2(3); and
 - (ii) pay any fee charged by the verifier for verifying the relevant parts of the CPP proposal in accordance with his, her or its engagement and Schedule G;
 - (b) impose an overriding duty on the verifier to assist the Commission as an independent expert on relevant matters within the verifier's area of technical expertise, with particular reference to aspects of capex, opex and service quality of the CPP applicant's business;
 - (c) require the verifier to-
 - (i) verify the relevant parts of the **CPP proposal** in accordance with the terms of his, her or its engagement and Schedule G;
 - (ii) notify the CPP applicant of the verifier's selection of identified programmes;
 - (iii) prepare a draft verification report in accordance with Schedule G and provide it to the CPP applicant;
 - (iv) prepare a verification report in accordance with Schedule G that takes account of any modifications to the information originally provided to the verifier in light of the CPP applicant's consideration of the draft verification report;

- (v) provide, upon request by the CPP applicant, a certificate as described in clause 5.1.3(1)(d); and
- (vi) be available to answer any questions posed by the Commission on the verification report, in person, by telephone or in writing, as reasonably required by the Commission;
- (d) enable the **verifier** to request, for the purpose of carrying out his, her or its duties specified in paragraph (c), provision by the **CPP applicant** of-
 - (i) information required by Schedule D to be identified (but not provided) in a **CPP proposal**; and
 - (ii) the information specified in subclause (4); and
- (e) include a communication protocol in accordance with subclause (5).
- (3) The information specified for the purpose of subclause (2)(d)(ii) is any other information relevant-
 - (i) for the purpose subclause (2)(c)(i);
 - (ii) to electricity distribution services;
 - (iii) to any other regulated service relevant to the CPP proposal; and
 - (iv) to any unregulated service relevant to the CPP proposal,

that the **verifier** considers is relevant to verification.

- (4) For the avoidance of doubt-
 - (a) the deed may contain such other terms that-
 - (i) the parties agree are necessary for **business** efficacy; and
 - (ii) are not inconsistent with Schedule F or this Schedule; and
 - (b) a CPP applicant is not required to submit its CPP proposal to the Commission following completion or its receipt of the verification report.
- (5) For the purpose of subclause (2)(e), the communication protocol must, as a minimum, require that-
 - (a) the Commission will not, prior to the submission of a CPP proposal, view any material that forms part of or supports an intended CPP proposal unless the CPP applicant-
 - (i) makes the material available to **consumers**; or
 - (ii) provides the material to the **Commission** including an updated
 'Summary of intended CPP Proposal' as required under subclause
 (5)(c);

- (b) the verifier must keep records of all communication between it and the
 CPP applicant where the records include substantive information relied on
 by the verifier in its verification report; and
- (c) after entering into the deed, but not later than when the verifier provides a draft verification report to the CPP applicant, the CPP applicant must provide the Commission with an updated 'Summary of intended CPP Proposal' as described in clause F5 if it has-
 - (i) changed its rationale for seeking a CPP as described in clause F5(1)(a);
 - (ii) changed its proposed time for taking effect as described in clause F5(1)(b); or
 - (iii) changed its intention on whether to propose a quality standard variation as described in clause F5(1)(e).
- (6) When providing an updated 'Summary of intended CPP Proposal' as described in subclause (5)(c), the CPP applicant must clearly identify any changes from its previously provided 'Summary of intended CPP Proposal'.

SCHEDULE G TERMS OF REFERENCE FOR VERIFIERS

G1 Interpretation

- (1) Words in bold in this schedule that are defined in another schedule bear the same meanings as specified in that other schedule.
- (2) Any requirement to provide an opinion, report on or consider a particular matter must be construed as-
 - (a) requiring consideration only of the material identified by the requirement in question; and
 - (b) a requirement to provide the opinion or report on the matter in the **verification report**.

G2 Verifier's role, purpose and obligations

The verifier's role, purpose and obligations include-

- (a) engaging with the **CPP applicant** in an **independent** manner in accordance with this Terms of Reference;
- (b) assessing the extent to which the CPP applicant's policies allow the CPP applicant to meet the expenditure objective;
- (c) assessing the extent to which the CPP applicant's policies have been implemented;
- (d) prior to the Commission's assessment of the CPP proposal, assessing whether the CPP applicant has provided the verifier with the information specified in clause 5.5.2(3);
- (e) prior to the Commission's assessment of the CPP proposal, providing an opinion to the CPP applicant on whether the CPP applicant's capex forecasts, opex forecasts and key assumptions meet the expenditure objective;
- (f) prior to the Commission's assessment of the CPP proposal, assessing the extent to which the CPP applicant is able to deliver its capex forecast and opex forecast during the CPP regulatory period;
- (g) prior to the Commission's assessment of the CPP proposal, providing an opinion on the extent and effectiveness of the CPP applicant's consultation with its consumers; and
- (h) providing a list of the key issues which it considers the **Commission** should focus on when assessing the **CPP proposal**.

G3 Service measures, levels and quality standards

- (1) The verifier must review, assess and report on-
 - (a) whether the CPP applicant has proposed service measures relevant to a complete range of key service attributes that are meaningful and important to consumers;
 - (b) whether the CPP applicant has undertaken an appropriate process to determine the service measures and service levels, such as consultation with relevant consumers;
 - (c) whether any step change in any service level is explained and justified; and
 - (d) the extent and effectiveness of a **CPP applicant's** consultation with its **consumers**, as specified in clause 5.5.1.
- (2) Where the CPP applicant intends to propose a quality standard variation in the CPP proposal under clause 5.4.5, the verifier must review, assess and report on the extent to which the quality standard variation better reflects the realistically achievable performance of the EDB over the CPP regulatory period.

G4 Selection of identified programmes

- (1) For the purposes of the reviews under clauses G5(1)(d) and G6(1)(g), the verifier must select no more than 20 projects or programmes to be 'identified programmes'.
- (2) In determining which, and how many, **projects** or **programmes** to select as **identified programmes**, the **verifier** must consider–
 - (a) the long term interests of consumers;
 - (b) the Commission's ability to effectively review whether the CPP applicant's capex forecast and opex forecast are consistent with the expenditure objective;
 - (c) the CPP applicant's rationale for seeking a CPP;
 - (d) its ability to provide an opinion on whether the capex forecast information in the intended CPP proposal has been prepared in accordance with the policies and planning standards-
 - (i) in aggregate; and
 - (ii) for each of the capex categories;
 - (e) its ability to provide an opinion on whether the opex forecast information in the intended CPP proposal has been prepared in accordance with the policies and planning standards-

- (i) in aggregate; and
- (ii) for each of the **opex categories**;
- (f) its ability to assess any quality standard variation proposed; and
- (g) the materiality of the **programmes** or **projects** to the **CPP proposal**, the **capex forecast** and the **opex forecast**.
- (3) The **identified programmes** selected in accordance with subclause (1) must address-
 - (a) a key risk that the CPP applicant is exposed to;
 - (b) a key driver of the need to submit a CPP proposal; or
 - (c) an **obligation** that has a significant impact in the context of the **CPP applicant's** overall **business**.
- (4) The verifier must-
 - (a) notify the CPP applicant of its selected projects or programmes; and
 - (b) not change its selection after such notification.

G5 Capex forecast

- (1) The verifier must-
 - (a) provide an opinion as to whether the-
 - (i) policies;
 - (ii) planning standards; and
 - (iii) key assumptions,

relied upon by the **CPP applicant** in determining the **capex forecast** are of the nature and quality required for that **capex forecast** to meet the **expenditure objective**;

- (b) provide an opinion as to whether the capex forecast has been prepared in accordance with the policies and planning standards at both the aggregate system level and for each of the capex categories;
- (c) provide an opinion on the reasonableness of the key assumptions relevant to capex relied upon the CPP applicant including-
 - (i) the method and information used to develop them;
 - (ii) how they were applied; and
 - (iii) their effect or impact on the capex forecast by comparison to their effect or impact on actual capex;

- (d) report conclusions of a detailed review of identified programmes that are capex projects or capex programmes including, but not limited to assessment of-
 - (i) whether relevant **policies** and **planning standards** were applied appropriately;
 - (ii) whether **policies** regarding the need for, and prioritisation of, the project or programme are reasonable and have been applied appropriately;
 - (iii) the process undertaken by the CPP applicant to determine the reasonableness and cost-effectiveness of the chosen solution, including the use of cost-benefit analyses to target efficient solutions;
 - (iv) the approach used to prioritise capex projects over time including the application of that approach for the next period;
 - (v) the project capital costing methodology and formulation, including unit rate sources, the method used to test the efficiency of unit rates and the level of contingencies included for projects;
 - (vi) the impact on other cost categories including the relationship with **opex**;
 - (vii) links with other projects;
 - (viii) cost control and delivery performance for actual capex;
 - (ix) the efficiency of the proposed approach to procurement; and
 - (x) whether it should be included as a contingent project or part of a contingent project;
- (e) provide an opinion as to overall **deliverability** of work covered by the **capex categories** in the **next period**; and
- (f) provide an opinion as to the reasonableness and adequacy of any asset replacement models used to prepare the capex forecast including an assessment of-
 - (i) the inputs used within the model; and
 - the methods the CPP applicant used to check the reasonableness of the forecasts and related expenditure.
- (2) Based on its analysis under this clause the verifier must provide its opinion on whether the applicant's forecast of total capex meets the expenditure objective and, if not identify-

- (a) whether the provision of further information is required to enable assessment against the **expenditure objective** to be undertaken and, if so, the type of information required;
- (b) which of the **CPP applicant's forecast capex programmes** for each **capex category** might warrant further assessment by the **Commission**; and
- (c) what type of assessment would be the most effective.

G6 Opex forecast

- (1) The verifier must-
 - (a) provide an opinion as to whether the-
 - (i) policies,
 - (ii) planning standards; and
 - (iii) key assumptions,

relied upon by the **CPP applicant** in determining the **opex forecast** are of the nature and quality required for that **opex forecast** to meet the **expenditure objective**;

- (b) provide an opinion as to whether the opex forecast has been prepared in accordance with the policies and planning standards, at both the aggregate system level and for each of the opex categories;
- (c) provide an opinion on the reasonableness of the key assumptions relevant to opex relied upon by the CPP applicant including-
 - (i) the method and information used to develop them;
 - (ii) how they have been applied; and
 - (iii) their effect or impact on the **opex forecast** by comparison to their effect or impact on **actual opex**;
- (d) review, assess and report on any other opex drivers not covered by the key assumptions that have led to an increase in the opex forecast including whether the quantum of such an increase is required to meet the expenditure objective;
- (e) provide an opinion as to the reasonableness of the methodology used in forecasting **opex** (such as cost benchmarking or internal historic cost trending), including the relationship between the **opex forecast** and **capex forecast**;
- (f) provide an opinion as to the reasonableness of any opex reduction initiatives undertaken or planned during the current period or the next period;

- (g) report conclusions of a detailed review of identified programmes that are opex projects or opex programmes, but is not limited to, an assessment of-
 - (i) whether relevant **policies** and **planning standards** were applied appropriately;
 - (ii) whether **policies** regarding the need for, and prioritisation of, the project or programme are reasonable and have been applied appropriately;
 - (iii) the process undertaken by the CPP applicant to determine the reasonableness and cost-effectiveness of the chosen solution, including the use of cost-benefit analyses to target efficient solutions;
 - (iv) the approach used to prioritise **opex projects** over time including the application of that approach for the **next period**;
 - (v) the project operating cost methodology and formulation, including unit rate sources, the method used to test the efficiency of unit rates and the level of contingencies included for projects;
 - (vi) the impact on other cost categories including the relationship with capex;
 - (vii) links with other projects;
 - (viii) cost control and delivery performance for actual opex;
 - (ix) the efficiency of the proposed approach to procurement; and
 - (x) whether it should be included as a contingent project or part of a contingent project;
- (h) provide an opinion as to overall **deliverability** of work covered by the **opex** categories in the **next period**; and
- provide an opinion as to the reasonableness and adequacy of any opex models used to prepare the opex forecast including an assessment of-
 - (i) the inputs used within the model; and
 - (ii) any methods the CPP applicant used to check the reasonableness of the forecasts and related expenditure.
- (2) Based on analysis in accordance with this clause, the verifier must provide an opinion on whether the CPP applicant's forecast of total opex meets the expenditure objective and, if not, identify-

- (a) whether the provision of further information is required to enable assessment against the **expenditure objective** to be undertaken and, if so, the type of information required;
- (b) which of the **CPP applicant's** forecast **opex programmes** for each **opex category** might warrant further assessment by the **Commission**; and
- (c) what type of assessment would be the most effective.

G7 Capital contributions

The **verifier** must provide an opinion as to whether the forecast of **capital contributions**-

- (a) is reasonable; and
- (b) consistent with other aspects of the CPP proposal, in particular-
 - (i) the capex forecast; and
 - (ii) forecast demand data provided in accordance with clause D6.

G8 Demand forecasts

- (1) The verifier must provide an opinion as to whether-
 - (a) the **key assumptions**, key input data and forecasting methods used in determining demand forecasts were reasonable; and
 - (b) it was appropriate to use the demand forecasts resulting from these methods and assumptions to determine the-
 - (i) capex forecast; and
 - (ii) opex forecast.

G9 Assessment techniques

- (1) When-
 - (a) undertaking analysis and reviews of information; and
 - (b) considering the matters,

required by this Schedule, the **verifier** must use some or all of the following assessment techniques:

- (c) process benchmarking;
- (d) process or functional modelling;
- (e) unit rate benchmarking;
- (f) trending or time-series analysis;

- (g) high level governance and process reviews;
- (h) internal benchmarking of forecast costs against costs in the current period;
- (i) capex category and opex category benchmarking;
- (j) project and programme sampling; and
- (k) critiques or independent development of-
 - (i) demand forecasts;
 - (ii) labour unit cost forecasts;
 - (iii) materials forecasts;
 - (iv) plant forecasts; and
 - (v) equipment unit cost forecasts.
- (2) The **verifier** must explain why particular techniques listed in subclause (1) were applied and others were not applied.
- (3) Where, for the purpose of applying any of the techniques listed in subclause (1), the verifier uses information that is not provided to it by the CPP applicant, the verifier must, in respect of that information-
 - (a) describe in the draft verification report its nature and source and the reason for wishing to rely on it;
 - (b) subject to subclause (4), provide it to the **CPP applicant**;
 - (c) when finalising the verification report, take into account any comments made about it by the CPP applicant in response to the draft verification report; and
 - (d) where, notwithstanding paragraph (c), the **verifier** continues to rely on it, describe in the **verification report**-
 - (i) the nature and source of the information relied upon and the reason for relying on it; and
 - (ii) the CPP applicant's concerns in respect thereof.
- (4) Subclause (3)(b) does not apply if the **verifier's** terms of use of the information prevent such disclosure.

G10 Contingent projects

- (1) For each proposed **contingent project**, the **verifier** must provide an opinion as to whether that **project** satisfies the following criteria:
 - (a) it is-

- (i) reasonably required of an **EDB** in meeting the **expenditure objective**; and
- (ii) one that associated assets are likely to be commissioned,

during the CPP regulatory period;

- (b) a commencement date cannot be forecast with an appropriate degree of specificity by comparison with other proposed **projects**;
- (c) the total of capex forecast and opex forecast in relation to the project-
 - (i) as disclosed in the CPP proposal exceeds 10% of the value of the CPP applicant's annual revenue in the most recently completed disclosure year in respect of an ID determination;
 - (ii) is reasonable in dollar terms; and
 - (iii) would be likely, when forecast with reasonable certainty, to meet the **expenditure objective**.
- (2) For each proposed **trigger event**, the **verifier** must provide an opinion as to whether it meets the requirements of clause 5.6.5(3).

G11 Completeness of CPP proposal

A verification report must-

- (a) list the information in, and relating to, the CPP proposal provided by the CPP applicant to the verifier, that was relied upon by the verifier in fulfilling its obligations under Schedule G;
- (b) state each type of information in respect of which this schedule requires the verifier's consideration or opinion that the verifier considers has been omitted from the CPP proposal, including information that is incomplete or insufficient, and the relevant requirement in Part 5, Subpart 4 to provide the information in question;
- (c) where information is identified as insufficient in accordance with paragraph (b), state the nature of additional information the verifier considers that the CPP proposal requires to fulfil the information requirement in question;
- (d) state the extent to which the omission, incompleteness or insufficiency of information has impaired the verifier's judgement as to whether the capex forecast and opex forecast for the next period meets the expenditure objective; and
- (e) explain why the **verifier** has selected the **identified programmes** in accordance with clause G4(1).

G12 Overview of key issues and additional information requirements

Based on its assessment, the verifier must, in the verification report-

- (a) provide a list of the key issues that it considers the Commission should focus on when undertaking its own assessment of the information to which the assessment related;
- (b) specify information identified in the CPP proposal that, were it to be provided, would assist the Commission's assessment of the CPP proposal; and
- (c) identify any other information it reasonably believes would-
 - (i) be held by the **CPP applicant**; and
 - (ii) assist the **Commission's** assessment of the **CPP proposal**.
